The 2020-2021 CU Denver catalog is considered the source for academic and programmatic requirements for students entering programs during the Fall 2020, Spring 2021, and Summer 2021 semesters. Although this catalog was prepared using the best information available at the

time, all information is subject to change without notice or obligation. The university claims no responsibility for errors that may have occurred during the production of this catalog.

The courses listed in this catalog are intended as a general indication of the University of Colorado Denver curricula on the Denver campus. Courses and programs are subject to modification at any time. Not all courses are offered every semester, and faculty teaching particular courses or programs may vary from time to time. The content of a course or program may be altered to meet particular class needs.

When a student is matriculated and enrolled at CU Denver, they are required to fulfill the general education and graduation requirements specified in the catalog current at that time. When students formally declare a major, they are required to fulfill the major requirements in the catalog current at that time.

Previous editions of this catalog are available [online](#).

The University of Colorado Denver is an affirmative action/equal opportunity employer and educator committed to excellence through inclusiveness.

ABOUT CU DENVER

Welcome to Colorado's public urban research university,

where a diverse student body through quality academics, ambitious research and creative work, and community engagement in the city we call home. We are CU in the city.

Your success is our #1 priority. At CU Denver, you will benefit from:

Academic choices: More than 100 high-quality, in-demand degree programs in seven schools and colleges, leading to bachelor's, master's and doctoral degrees; hands-on learning opportunities, including work in research labs, service learning, study abroad and work-study;

Powerful connections: To partnerships, projects, internships and career opportunities in downtown Denver; to the vibrant arts and culture scene at our front door; and to a network of influential alumni who are leaders in Denver's civic, nonprofit and business communities;

Outstanding location: Access to a vibrant, safe urban lifestyle; resources and support to develop innovative solutions to complex local and global issues; and opportunities to build your skills in the city ranked by Forbes as the #1 Best Place for Business and Careers.

CU Denver is a place of academic excellence, where you will gain the powerful combination of immersive classroom and project-based experiences that are in demand today. Here you will meet gifted faculty, experts in their field, dedicated to student success, academic excellence and the real-world applications of their research and creative work. You'll interact with fellow students who are diverse, goal-oriented and energetic. Whether you engage in undergraduate or graduate studies, the University of Colorado Denver degree earns global respect and you can be confident that you will have been well-prepared for the next stage of your work or academic life.

We're delighted you've chosen CU Denver!

University of Colorado Denver

The University of Colorado Denver was formed on January 11, 1973, lawmakers, upon proclamation of the governor, amend that state constitution to establish additional CU campuses, transforming the University of Colorado - Denver Center into the University of Colorado Denver (CU Denver). In 1977, CU Denver students began taking classes on the Auraria campus. Today, CU Denver educates more than 15,000 students and is the only public urban research institution in the state of Colorado.

The University of Colorado Denver offers a unique academic experience for students. Conveniently located in the heart of Denver, our students have unparalleled access to the business, cultural and political capital of the West. CU Denver is where academic rigor meets city vigor.

More and more undergraduates are discovering the value of classes in the city taught by professors who are connected to local companies and organizations. New housing adjacent to campus, easy commuting by RTD Light Rail and discounts to cultural and sporting events give students many options for immersion in vibrant city life. In addition, affiliations with research labs and hospitals at CU Anschutz make CU Denver an excellent place to start a health care career.

The University of Colorado Denver enrolls students from 46 different states and countries, and awards over 3,800 undergraduate and graduate degrees every year. It is known for its programs in urban sustainability, criminal justice, business, education, applied science and engineering, film and music industry as well as a full array of professional health programs. The graduate student population is a diverse mix of ages and ethnicities, creating a rich environment for learning and networking.

Other reasons why students choose the University of Colorado Denver:

Small class sizes: average undergraduate student-to-teacher ratio is 18:1.

The Denver vibe: Colorado has always attracted the adventurous. Denver ranks as #1 Best Place to Live (U.S. News & World Report), with an extensive network of bike trails and quick access to mountain sports. CU Denver is adjacent to a thriving arts district.

Collaborative culture: Cross-disciplinary learning and research is a core value: programs blend technology with health care, business with public policy, and behavioral health with architecture.

Choices: With seven schools and colleges offering more than 100 degree programs, the University of Colorado Denver | Anschutz Medical Campus is a major university for the coming century.

CU Denver

Colorado's only public urban research university, CU Denver offers bachelor's, master's and doctoral programs in the heart of the city through seven distinct academic units:

College of Architecture and Planning
College of Arts & Media
Business School
School of Education & Human Development
College of Engineering, Design and Computing Course
College of Liberal Arts and Sciences
School of Public Affairs

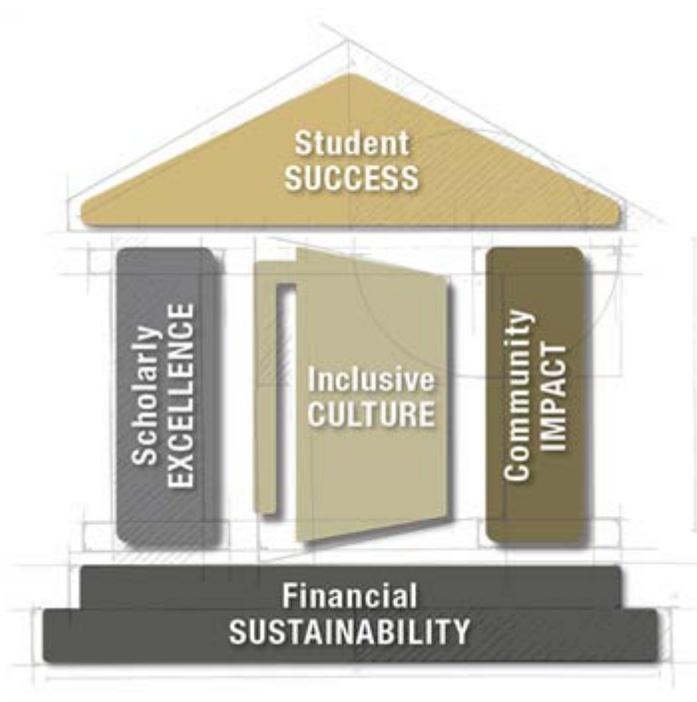

Strategic Priorities

Chancellor Dorothy Horrell has established five strategic priorities to guide CU Denver's ongoing success. Through these priorities, CU Denver aims to be widely recognized as a distinctive asset in the Denver metropolitan area based on quality academics, highly-recognized research and creative work, a diverse and inclusive culture, and impactful civic engagement. The five strategic priorities are as follows:

1. **Student Success.** Our goal is to elevate student success through increased enrollment, retention and graduation rates.
2. **Scholarly Excellence.** We are focused on advancing scholarly excellence and innovation in teaching, research and creative work.
3. **Community Asset.** We are working towards strengthening our position as a vital community asset.
4. **Inclusive Culture.** We are committed to creating a more cohesive, collaborative and inclusive culture.
5. **Financial Sustainability.** Our objective is to achieve long-term financial sustainability and stability.

Faculty, staff and students across the campus have been working on various aspects of these priorities since they were first set in fall 2016. Learn about progress on each priority by clicking on the links above.

The priorities emerged from Chancellor Horrell's 2016 Reach Out and Listen Tour, a series of collaborative forums and meetings with faculty, staff, students and community members that established a shared vision for the future of CU Denver.

University of Colorado System

The University of Colorado is a system of four campuses located in Boulder, Colorado Springs, Denver and Aurora. With combined total enrollments of over 60,000 students, the University of Colorado system consistently ranks in the top 15 among public universities and colleges in overall research expenditures and seventh among public universities in federally funded research. Awards for research within the system total more than \$920 million, with funding provided by federal agencies, appropriations from the state of Colorado and private foundations and donors.

History and Evolution of the University of Colorado Denver

1876 Legislature founds the University of Colorado

1883 Medical department opens with two students

1898 CU establishes School of Nursing

1912 CU organizes the Department of Correspondence and Extension in Denver

1913 CU establishes School of Pharmacy

1925 CU dedicates 9th and Colorado Blvd. medical center

1956 Regents purchase Tramway Building for Extension Division

1965 Regents change extension name to University of Colorado-Denver Center

1972 CU-Denver Center changes name to University of Colorado at Denver

1973 School of Dentistry enrolls its first class; state begins building Auraria Campus

1974 CU reorganizes as a four-campus system

1988 CU-Denver moves into the 257,000 square-foot North Classroom Building on the Auraria Campus

- 1992 School of Pharmacy moves from Boulder to Health Sciences Center
- 1995 Government conveys 217 acres at the Fitzsimons Army Base to CU for modern health sciences facility
- 2000 First new and remodeled facilities open at Fitzsimons
- 2004 Regents consolidate CU Denver and Health Sciences Center to form the University of Colorado at Denver and Health Sciences Center
- 2006 Fitzsimons campus renamed Anschutz Medical Campus
- 2007 Regents approve shortened version of the name: University of Colorado Denver
- 2008 Medical, dental, pharmacy and nursing students start classes, Colorado School of Public Health enrolls first students on the Anschutz Medical Campus
- 2011 Regents approve name change, to University of Colorado Denver | Anschutz Medical Campus

Accreditation

The University of Colorado Denver is institutionally accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools.

The commission can be contacted at:

230 South LaSalle Street, Suite 7-500
Chicago, IL 60604

Telephone: 1-800-621-7440

Many professional organizations have also granted accreditation to specific academic programs, colleges and schools at the Denver Campus, including:

- Accreditation Board for Engineering and Technology
- Association for the Advancement of Collegiate Schools of Business-International
- Colorado State Board of Education
- Commission on Accreditation of Healthcare Management Education
- Council for Accreditation of Counseling and Related Educational Programs
- Council for the Accreditation for Educator Preparation
- Landscape Architecture Accreditation Board
- National Architectural Accrediting Board
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- Planning Accreditation Board

Academic Programs

CU Denver is devoted to the needs of the residents of the city and the region. A solid foundation of academic and general education is assured through a comprehensive core curriculum. Students may pursue graduate education through all of the campus' colleges and schools. Pre-professional training in the fields of education, architecture, law, journalism and health careers is also available. Complete listings of areas of study available on the Denver Campus are available in the Programs section of the catalog.

The colleges and schools sections of this catalog provide information on bachelor's, master's and doctoral degree programs, policies on requirements for graduation, course requirements, course-load policies, course descriptions and similar information.

Continuing and Professional Education

The Division of Continuing and Professional Education offers certificate/certification courses, professional development programs, precollegiate outreach programs and personal enrichment courses across the state of Colorado. Courses are offered in a variety of formats, including traditional on-campus, off-campus, online, hybrid, weekend, evening, short and condensed courses and many others.

Registration and tuition vary by school or college. Contact the specific school or college to learn about current program and course offerings or send an inquiry to continuingeducation@ucdenver.edu.

About Our Students

The diversity of our student body is a source of deep pride. With students of color making up 42 percent of the student body, CU Denver is the most diverse research university in Colorado. Classes are filled with traditional students who enrolled after high school as well as transfer students and those who delayed college entry. Many professionals enroll mid-career to retool and strengthen their skills. The average age of an undergraduate student is 23 years while the average graduate student is 31 years old.

Bringing a rich mix of backgrounds, students travel across the country and the world to attend CU Denver. Domestic students come from 48 states and international students from 68 countries. All take advantage of convenient courses at times that meet their schedules. An enviable student-to-faculty ratio of 18:1 and a high-tech advising platform means students receive focused attention from professors and a clear path to graduation.

E-mail: alumni@ucdenver.edu

CU Denver Alumni is the formal name for our community of former students including over 94,000 graduates from any of the University's undergraduate, graduate, and certificate programs. While 69% of our graduates stay in Colorado, our global community stretches across 103 countries.

CU Denver Alumni advances the University of Colorado Denver through its graduates by inspiring pride, serving as a gateway for career resources, stimulating investment in the future, and illustrating the impact of alumni contributions to the University and each other.

CU Denver Alumni Relations sponsors activities and programs to benefit and engage alumni, current students, and friends of the university. By fostering loyalty among our alumni and providing opportunities for involvement, CU Denver Alumni Relations facilitates an environment in which alumni can establish life-long contact with their alma mater.

University of Colorado Denver - Office of University Advancement

Mailing Address: 1380 Lawrence Street, Suite 1201, Denver, CO 80204

Telephone: 303-315-3601

Fax: 303-315-2063

Email: advancement@ucdenver.edu

The University of Colorado Denver Office of Advancement collaborates with faculty, staff, donors, alumni, and friends to raise private support for the university.

CU Denver academic leadership establishes priorities for private support, and gifts are directed to the specific schools, program, or purpose that the donor designates. CU Denver Advancement staff identify and/or generate interest in the university, assist donors in gift planning, solicit gifts in collaboration with academic partners and leaders, and establish and maintain relations with alumni. (Gift funds are managed and invested by the partner University of Colorado Foundation, which also manages the university endowment).

These gifts endow scholarships and professorships, further research, enrich academic programs, upgrade and construct facilities, and support projects and programs in all areas of the university.

ADMISSIONS INFORMATION

UNDERGRADUATE ADMISSIONS

(Applies to Fall 2020, Spring 2021 and Summer 2021)

The University of Colorado Denver provides a diverse array of baccalaureate majors, minors, certificates, and teacher licensure options to meet the ever-challenging demands of a global society. Undergraduate education programs consist of a general core curriculum, a major, and elective courses for all areas of study. The campus-wide core curriculum develops proficiency in writing and mathematics, cultivates a breadth of knowledge, promotes critical thinking, allows for the flexibility to meet career goals, and helps develop sensitivity to cultural diversity and international perspectives.

A list of all undergraduate programs, including minors and online programs, is available by clicking [here](#).

Everyone is welcome to apply. CU Denver values a culture of inclusion and does not discriminate on aspects of identity, including but not limited to gender, race, ethnicity, sexual orientation, ability status, veteran status, nationality, citizenship, religion, and socioeconomic background.

CU Denver seeks to identify applicants who are likely to be successful in a rigorous academic program of study. Admission decisions are based on many factors, the most important being:

- Previous academic performance
- Evidence of academic ability and accomplishment as indicated by scores on national aptitude tests
- Evidence of maturity, motivation, and potential for academic success

CU Denver may deny admission to applicants or readmission to former students whose total credentials indicate an inability to assume obligations of performance and behavior deemed essential by the university.

After completing the application process, official notification of your admission status is provided by the Office of Undergraduate Admissions.

NOTE: The University of Colorado Denver reserves the right to change the admission decision at any time if additional credentials are received that affect your qualifications.

General Contact Information for the Office of Undergraduate Admissions

Physical Address: 1201 Larimer Street, Suite 1005 Denver, CO 80204

Mailing Address: Campus Box 167 PO Box 173364 Denver, CO 80217-3364

Telephone: 303-315-2601

E-mail: admissions@ucdenver.edu

Application Deadlines

- **Fall 2020** - *August 1, 2020*
- **Spring 2021** - *January 1, 2021*
- **Summer 2021** - *June 1, 2021*

The university may change document/credential deadlines in accordance with enrollment demands. For the best scholarship and registration time considerations, applicants should apply as early as possible. Admission to the university does not guarantee the availability of desired courses. For an applicant to be considered for a specific term, all documents required for admission must be received by the deadline for that term. Applicants who are unable to meet the deadline may elect to be considered for a later term (see Term Change Requests). Please allow sufficient time to have transcripts sent from previously attended institutions.

Freshman Student Admission

The University of Colorado Denver considers a number of factors in determining student's academic success. CU Denver follows Colorado Department of Higher Education (CDHE) freshman admission standards and uses the average GPA and ACT/SAT middle 50 percent ranges to help determine admissibility. Meeting or not meeting the middle 50 percent does not guarantee admission.

Applicants are considered under freshmen admission standards if:

- applying for the first time after graduating from high school or passing a high school equivalency exam; and/or
- earned fewer than 24 college-level credit hours since high school graduation.

Note: College credits earned while in high school may be transferrable to the university but are not required for an admission decision.

Admission Consideration by Academic Program

In addition to the above admission standards, each school/college within CU Denver has admission criteria specific to their area.

College of Architecture and Planning

Applicants who have a cumulative 3.0 GPA and a Composite score of 24 on the ACT or 1150-1180 on the SAT Total (Math and Evidence-Based Reading and Writing) Score are considered strong candidates for admission to the College of Architecture and Planning. Applicants not meeting requirements for direct admission to the College of Architecture and Planning may be considered for admission to the College of Liberal Arts and Sciences with a Pre-Architecture interest.

College of Arts & Media

Admission to CU Denver is all that is required to start in many of the College of Arts & Media degree programs, with the exception of those listed below.

- Music & Entertainment Industry Studies (MEIS): In addition to being admitted to CU Denver, applicants to one of the audition track programs in the *Music and Entertainment Industry Studies (MEIS)* Department must complete additional music application requirements. Please review the music section on the [How to Apply webpage](#) for complete information about the audition/application process for audition track program applicants. Applicants to the MEIS non-audition track programs do not have to audition or complete any additional requirements.

- **Film & Television:** The Film and Television Department requires that applicants complete a secondary Film & Television application in addition to being admitted to CU Denver. Please review the film section on the [How to Apply webpage](#) for complete information about the secondary application for Film & Television program applicants.

Business School

Applicants whose cumulative GPA and test scores meet or exceed the middle 50 percent range are considered strong candidates for admission to the Business School.

School of Education & Human Development

For admission to the School of Education & Human Development, applicants whose cumulative high school GPA and test scores fall into the middle 50 percent range are strong candidates for admission to the School of Education & Human Development. A minimum 2.4 cumulative high school GPA is recommended, however, students with a 2.0 cumulative GPA are considered.

Note: The Professional Year, a two-semester (fall and spring) residency in the student's final year of the undergraduate degree with licensure programs, requires a separate application and acceptance is not guaranteed. For instructions and minimum requirements, please see the [Education and Human Development website](#).

College of Engineering, Design and Computing

For direct admission to the College of Engineering, Design and Computing, freshman applicants must meet the following criteria:

<p>Direct Admission to:</p>	<p>Criteria:</p>
<ul style="list-style-type: none"> • BS in Civil Engineering • BS in Construction Engineering and Management • BS in Computer Science • BS in Electrical Engineering • BS in Mechanical Engineering • BS in Bioengineering 	<ul style="list-style-type: none"> • Minimum 3.000 cumulative high school GPA <p>AND</p> <ul style="list-style-type: none"> • Minimum 24 ACT Composite and 25 ACT Math Score or • Minimum 1180 SAT Composite and 590 SAT Math Score
<p>Direct Admission to:</p>	<p>Criteria:</p>
<ul style="list-style-type: none"> • BA in Computer Science • BS in Construction Management 	<ul style="list-style-type: none"> • Minimum 2.600 cumulative high school GPA <p>AND one of the following two requirements:</p> <ul style="list-style-type: none"> • Minimum 22 ACT Composite OR 22 ACT Math • Minimum 1110 SAT Composite OR 540 SAT Math

Admission to Pre-Engineering	Criteria:
<p>Students who do not meet the criteria for direct admission to a major will be considered for admission to Pre-Engineering with a major interest.</p>	<ul style="list-style-type: none"> • Minimum 2.600 cumulative high school GPA <p>AND one of the following two requirements:</p> <ul style="list-style-type: none"> • Minimum 22 ACT Composite OR 22 ACT Math • Minimum 1110 SAT Composite OR 540 SAT Math
<p>Admission to College of Liberal Arts and Sciences - Undeclared</p>	
<ul style="list-style-type: none"> • Students who do not meet the criteria for direct admission to a major or Pre-Engineering, but otherwise meet the university's admission criteria, will be admitted to CLAS as an undeclared major. 	

For International Students who did not graduate from a U.S. high school: The ACT/SAT requirement is waived; instead, students must meet the minimum cumulative high school GPA requirement above and have completed three (3) years of high school math with a cumulative 2.7 GPA in math courses.

Please visit the College of Engineering, Design and Computing website for additional information.

College of Liberal Arts and Sciences

Applicants whose cumulative GPA and test scores meet or exceed the middle 50 percent range are considered strong candidates for admission to the College of Liberal Arts and Sciences.

School of Public Affairs

Applicants whose cumulative GPA and test scores meet or exceed the middle 50 percent range are considered strong candidates for admission to the School of Public Affairs.

How to Apply for Freshman Admission

1. Complete and submit your application online at www.ucdenver.edu/admissions.
2. Pay your \$50 non-refundable application fee. **Note:** You can indicate your eligibility for a fee waiver when you apply.
3. Send official high school transcripts or high school equivalency exam scores to the Office of Undergraduate Admissions mailing address or electronically.
 - *For high school graduates:* An admission decision can be determined before high school graduation. However, if admitted to CU Denver, a final official high school transcript with a graduation date will be required.
 - *For high school equivalency exam recipients:* Students who did not graduate from high school are required to have a copy of their high school equivalency exam test scores and certificate sent directly from the certifying agency to the CU Denver Office of Undergraduate Admissions. High school equivalency exam scores and ACT or SAT scores are the basis for the admission decision.
4. Send official SAT or ACT scores to the Office of Undergraduate Admissions mailing address or electronically.
 - Scores reported on official high school transcripts are considered official test scores. Otherwise, please request test score reports from the offices listed below:

American College Testing Program (ACT)
P.O. Box 451
Iowa City, Iowa 52243
319-337-1313
www.ACT.org
school code: 0533

The College Board (SAT)
P.O. Box 8057
Mount Vernon, IL 62864
866-756-7346
www.collegeboard.org
school code: 4875

Transfer Student Admission

Applicants are considered transfer students for admission purposes if they have completed any number of college courses after graduating from high school or passing a high school equivalency exam. Applicants with college courses taken prior to high school graduation are considered freshmen for admission purposes.

Transfer applicants who graduated from high school in 1988 or later are subject to MAPS requirements. Transfer students who graduated from high school in 2008 or later and have fewer than 30 college credits completed at the time of application are subject to HEAR requirements in addition to MAPS.

Admission Consideration

At the time of application, admission consideration is determined by the following:

- Applicants with 23 or fewer semester hours of completed college-level course work* are considered for admission as freshmen based on high school GPA or high school equivalency exam scores and ACT or SAT scores.
 - Applicants with 24 or more semester hours of completed college-level course work* are considered for admission based upon college course work alone.
- *College-level coursework must be completed at a regionally accredited institution as outlined in transfer credit policy on accreditation.

Admission Criteria by Academic Program (For applicants with 13 or more completed college-level coursework at time of application)

College of Architecture and Planning

For admission to the College of Architecture and Planning, applicants must have a 2.750 cumulative GPA. Applicants with at least a 2.300 cumulative GPA may be considered on an individual basis if the academic record shows consistent improvement and/or strong performance in science, mathematics, art, or architecture-oriented courses. Applicants not meeting requirements for direct admission to the College of Architecture and Planning may be considered for admission to the College of Liberal Arts and Sciences with a Pre-Architecture interest.

College of Arts & Media

For admission to the College of Arts & Media, a minimum 2.400 cumulative GPA is required; however, students with a 2.000 cumulative GPA are considered.

- Music & Entertainment Industry Studies (MEIS): In addition to being admitted to CU Denver, applicants to one of the audition track programs in the *Music and Entertainment Industry Studies (MEIS)* Department must complete

additional music application requirements. Please review the music section on our How To Apply webpage for complete information about the audition/application process for audition track program applicants. Applicants to the MEIS non-audition track programs do not have to audition or complete any additional requirements

- **Film & Television:** The Film and Television Department requires that applicants complete a secondary Film & Television application in addition to being admitted to CU Denver. Please review the film section on our How To Apply webpage for complete information about the secondary application for Film & Television program applicants.

Business School

For admission to the Business School, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

Note: Students who have completed an undergraduate degree in business will not be accepted for a second undergraduate degree-seeking status in the Business School. These students are encouraged to pursue a graduate degree in business.

School of Education & Human Development

For admission to the School of Education & Human Development, a minimum 2.000 cumulative GPA is required for non-licensure programs including Human Development and Family Relations, BS and Education and Human Development, Early Childhood Education Non-Licensure, BA. For admission to the EDHD BA licensure program, a cumulative GPA of 2.400 is required.

**Students who already hold a BA/BS degree and are interested in teacher licensure are encouraged to contact the School of Education & Human Development for information on graduate teacher licensure options.*

Note: The Professional Year, a two-semester (fall and spring) residency in the student's final year of the undergraduate degree with licensure programs, requires a separate application and acceptance is not guaranteed. For instructions and minimum requirements, please see the Education and Human Development website.

College of Engineering, Design and Computing

For direct admission to the College of Engineering, Design and Computing, transfer applicants meet the following criteria:

Direct Admission to:	Criteria:
<ul style="list-style-type: none"> • BS in Civil Engineering • BS in Construction Engineering and Management • BS in Computer Science • BS in Electrical Engineering • BS in Mechanical Engineering • BS in Bioengineering 	<ul style="list-style-type: none"> • Minimum 3.0 overall GPA with a grade of B- or better in Calculus I OR • Minimum 2.75 overall GPA AND a minimum 2.5 GPA (based on most recent course attempts) in Calculus I, Calculus II, and Calculus-based Physics I with corresponding lab, with a grade of C- or better in each course. <p>Note: For admission into the Computer Science major, Calculus-based Physics I IS NOT required, but will be accepted.</p> <p>In addition, department chairs may consider the utilization of any subsequent math courses for the Calculus I / Calculus II /physics GPA requirement.</p>
Direct Admission to:	Criteria:
<ul style="list-style-type: none"> • BA in Computer Science • BS in Construction Management 	<ul style="list-style-type: none"> • Minimum 2.5 overall GPA • Completion of at least one of the following courses with a grade of C or better: College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II

Admission to Pre-Engineering	Criteria
Students who do not meet the criteria for direct admission to a major will be considered for admission to Pre-Engineering with a major interest.	<ul style="list-style-type: none"> • Minimum 2.5 overall GPA • Completion of at least one of the following courses with a grade of C or better: College Algebra, College Trigonometry, Pre-Calculus, Calculus I, or Calculus II
Admission to CLAS - Undeclared	
Transfer students who do not meet the criteria for direct admission to a major or Pre-Engineering, but otherwise meet the University's admission criteria, will be admitted to CLAS as an undeclared major, or in the case of an IUT, remain in their current CU Denver school or college.	

Notes: CU Denver students may apply to a major or Pre-Engineering major through an Intra-University Transfer (IUT) **after** they have completed 12 or more CU Denver credit hours. Please visit the College of Engineering, Design and Computing website for additional information.

College of Liberal Arts and Sciences

For admission to the College of Liberal Arts and Sciences, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

School of Public Affairs

For admission to the School of Public Affairs, a minimum 2.400 cumulative GPA is required; however, applicants with a 2.000 cumulative GPA are considered.

How to Apply as a Transfer Student

1. Complete and submit your application online at www.ucdenver.edu/admissions.

2. Pay your \$50 nonrefundable application fee. **Note:** You can indicate your eligibility for a fee waiver when you apply.
3. Request official transcripts from each regionally accredited college or university attended, including foreign institutions. Official transcripts should be sent directly to the CU Denver Office of Undergraduate Admissions mailing address or electronically.

Non-Degree Student Admission

Non-degree eligibility requires a minimum 2.000 cumulative GPA.

Note: For further information on financial implications for non-degree students, please visit the [financial aid page](#).

How to Apply as a Non-degree Student

1. Complete and submit your application online at www.ucdenver.edu/admissions.
2. Pay your \$50 nonrefundable application fee.
3. No additional credentials are required.

Readmission Requirements for Former Students

Degree-seeking students who have not attended classes on the Denver Campus for one year (three semesters) or longer must apply for readmission by completing an online application. The University of Colorado transcripts (Boulder, Colorado Springs, & Denver) are not required; however, official transcripts from each college or university attended following enrollment at CU Denver must be submitted.

Note: The Office of Undergraduate Admissions may require you to resubmit transcripts depending on the desired major.

How to Apply as a Readmit Student

For instructions on how to reapply, please visit the [How to Apply as a Transfer Student](#) section.

Second Bachelor's Degree Admission

Applicants who already hold a bachelor's degree may apply for admission to complete a second bachelor's degree. Students cannot apply to the same major in which they previously have received a bachelor's degree. If you do not plan to complete a second

bachelor's degree (only need to complete pre-requisites), you must apply as a **graduate** non-degree or degree-seeking student.

Note: There are implications for students wishing to pursue a second bachelor's degree in the Business School or the School of Education & Human Development.

How to Apply as a student seeking a Second Bachelor's Degree

For instructions on how to apply, please visit the How to Apply as a Transfer Student section.

Higher Education Admission Requirements (HEAR)

First-time freshmen as well as transfer applicants with fewer than 30 credit hours who graduated from high school in spring of 2008 or later must meet the state of Colorado Higher Education Admission Requirements (HEAR) for high school units of study. College courses taken before or after graduation from high school can be considered toward fulfillment of HEAR unit requirements for admission consideration.

For students who graduated in 2008 or 2009, the following minimum high school courses (units) are required:

English	4 years (units)
Mathematics	3 years (units)
Natural Science	3 years (units), 2 of which must be lab-based
Social Studies	3 years (units), 1 of which must be United States or world history
Academic Electives	2 years (units)

For students who graduated in 2010 or later, the following minimum high school courses (units) are required:

English	4 years (units)
Mathematics	4 years (units)
Natural Science	3 years (units), 2 of which must be lab-based
Social Studies	3 years (units), 1 of which must be United States or world history
Foreign Language	1 year (unit), must be in a single language

Academic Electives

2 years (units)

Students with HEAR deficiencies may be considered for admission on an individual basis based on the rigor of units completed as well as other admission criteria (e.g., test scores and GPA).

Minimum Academic Preparation Standards (MAPS)

First-time freshman and transfer students entering the University of Colorado Denver are required to meet the following minimum academic preparation standards (MAPS) for high school units of study, either prior to initial enrollment or before graduation from the University of Colorado Denver. College courses taken before or after graduation from high school can be considered toward MAPS fulfillment. **Note:** Students who graduated from high school between 1988 and 2009 may have reduced unit requirements in some areas. Students who graduated from high school before 1988 are exempt from MAPS. Students with MAPS deficiencies may be considered for admission to CU Denver. If admitted, students must make up any MAPS deficiencies prior to graduation from CU Denver. Students may make up MAPS deficiencies by successful completion of:

1. Courses taken at CU
2. Courses taken at other institutions of higher education
3. Additional high school credits
4. Credit-by-examination programs
5. Other requirements as approved by each college or school on the Denver Campus

MAPS Requirements by School or College:

COLLEGE OF ARCHITECTURE AND PLANNING	<i>Years</i>
English (emphasis on composition)	4
Mathematics (including two years of algebra and one year of geometry)	4
Natural science (including physics and/or biology and at least one lab course)	3
Social science (including one year of U.S. or world history)	3
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	17

COLLEGE OF ARTS & MEDIA	<i>Years</i>
English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3

Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective or arts course	1
Total	16

BUSINESS SCHOOL

English (emphasis on composition-one year of speech/debate and two years of composition are strongly recommended)	4
Mathematics (including two years of algebra and one year of geometry)	4
Natural science (including two years of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective (additional course in English, foreign language, mathematics, natural or social science)	1
Total	16

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING

English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (including two years of algebra, one year of geometry and one year of trigonometry and analytical geometry)	4
Natural sciences (including one year of physics, one year of chemistry and two years of laboratory science)	3
Foreign language (all units must be in a single language)	2
Social science (including one year of U.S. or world history)	2
Academic elective	1
Total	16

COLLEGE OF LIBERAL ARTS AND SCIENCES

English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	16

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT

English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4

Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	16

SCHOOL OF PUBLIC AFFAIRS

English (emphasis on composition-also recommend literature and grammar and strongly recommend one year of speech/debate)	4
Mathematics (three years at the college preparatory level; no more than one year of business or consumer mathematics)	4
Natural science (including one year of laboratory science)	3
Social science (including one year of U.S. or world history)	2
Foreign language (all units must be in a single language)	2
Academic elective	1
Total	16

High School Postsecondary and Concurrent Enrollment

High school students with demonstrated academic abilities may be admitted to CU Denver with special approval for one term only. This approval may be renewed. Credit for courses taken may subsequently be applied toward a university degree program, if applicable. For more information and application instructions, contact the Office of Admissions, 303-315-2601 or admissions@ucdenver.edu.

Advanced Placement (AP) Program

The Advanced Placement Program of the College Entrance Examination Board (CEEB) allows students to take advanced work while in high school and then be examined for credit at the college level. Students who take advanced placement courses and subsequently receive scores of 3, 4 or 5 on the CEEB Advanced Placement Examination are generally given college credit for lower-level courses in which they have demonstrated proficiency. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

Advanced Placement (AP) Chart

International Baccalaureate (IB) Diploma Program

The International Baccalaureate Diploma Program (IB), available at select high schools, is a rigorous, pre-university course of study emphasizing liberal arts from an international perspective.

In accordance with HB 03-1108, CU Denver will grant at minimum 24 semester hours of credit for any student who has graduated from high school having successfully completed an International Baccalaureate diploma program with a minimum score of 4 on each exam. Credit may be granted for individual IB courses where examinations are completed with at least a score of 4 for students who do not complete an IB diploma program. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official IB transcripts with exam scores must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

International Baccalaureate (IB) Chart

College-Level Examination Program (CLEP)

Incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the College-Level Examination Program (CLEP) of the College Entrance Examination Board (CEEB) testing service.

Acceptable CLEP examinations and credit awards are outlined in the following chart. Original, official CLEP score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents credit awarded for exams taken from August 2019 and later. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

Select CLEP Exams taken January 2019 and later will receive gtPathways credit.

Transfer of CLEP (College Level Examination Program) gtPathways

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

Students may earn credit through certain College-Level Examination Program (CLEP) examinations, provided that they score at the 50th percentile or above. CLEP credit may be applied toward graduation if comparable to CU Denver coursework included in the College of Engineering curriculum. Official CLEP score reports are required for transfer credit consideration.

College of Liberal Arts and Sciences

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to a separate evaluation by the faculty advisor in the department or program. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit will count toward the degree.

Cambridge A-Levels

Incoming students may earn credit from the Cambridge A-Level examinations. Cambridge A-Levels are internationally benchmarked qualifications providing excellent preparation for university education. They are taken in over 125 countries and offer a wide variety of different subjects. Cambridge International A-Level qualifications are widely recognized and valued by universities and employers alike. CU Denver does not recognize AS-Levels currently. The acceptable A-Level examinations and credit awards are outlined in the chart linked below. Original, official A-Level score reports must be submitted to International Admissions for credit award consideration.

This chart represents credit awarded for exams taken during the 2018-2019 catalog year. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

A-Level Exams

Joint Services Transcript Credit

Beginning Spring 2019, select courses and occupations from the Joint Services Transcript qualify for the Colorado gtPathways program. The courses and occupations in this chart can apply to CU Denver's Undergraduate Core Curriculum. An official copy of the Joint Service Transcript is required for evaluation.

Transfer of Joint Service Transcript Military Occupations Evaluation

Military Experience Credit

It is the policy of CU Denver to award transfer credit for military courses and/or military service based on the recommendations of the American Council on Education (ACE)'s Guide to the Evaluation of Education Experiences in the Armed Services, provided such credit is generally applicable to CU Denver programs of study. For military transcripts such as CCAF and AARTS, transfer credit is considered on the same basis as transcripts from traditional collegiate institutions.

Upon review of the Certificate of Release of Discharge from Active Duty form (DD-214)/Member 4 Service 2 or additional documentation as required either elective or core course credit will be awarded based on ACE recommendations.

Element of Service	Course Awarded	Credit Hours Awarded	CU Denver Undergraduate Core Curriculum Category or Requirement Fulfilled
Basic Training	HUMN 1999ME	3	Humanities
Non- Commissioned Officer's Course	SSCI 1999ME	3	Social Science
Overseas Deployment of at Least 6 Months	None	None	International Perspectives (Waived of Requirement)
Military Language Training Institute	None	None	School/College Foreign Language Graduation Requirement (Waived of Requirement)
Enlisted Rank E4 or higher	None	None	Business Experiential Learning Requirement (Waived of Requirement for Business Majors Only)
Rank E4 or below	XFCR 1999ME	6	General Elective Credit
Rank E5 or higher/ More than 1 enlisted term (5+ years)	XFCR 1999ME and XFCR3999ME	12	General Elective Credit (6 lower division credits and 6 upper division credits)

The applicability of electives is determined by the student's major and/or college.

For any questions or further information regarding military credit transfer, please contact the CU Denver Veteran and Military Student Services at 303-315-7300

DSST/ DANTES Exam Credit

Beginning January 2019, incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the DSST/DANTES testing as a part of their Military Service

Acceptable DSST examinations and credit awards are outlined in the following chart. Original, official DSST score reports must be submitted to the Office of Admissions for credit award consideration.

Transfer of DSST/DANTES Exams

Transfer of College Level Credit

For more information on transfer of college-level credit, please consult the Academic Policies - Transfer Credit section.

INTERNATIONAL ADMISSIONS

International Admissions

CU Denver International Admissions manages the admission process for international undergraduate applicants who currently have or will require a temporary, non-immigrant visa to study in the United States. Advisors are available to help you through the entire application process.

We also evaluate international academic credentials for international graduate applicants, as well as US citizens, permanent residents, and other applicants who have studies outside the United States before studying at CU Denver.

This page contains information for international applicants to undergraduate programs. For information about applying to a graduate program as an international student, please visit this page.

Contact Information for International Admissions

Physical Address: Student Commons Building, Suite 1119, 1201 Larimer Street, Denver, CO 80204

Mailing Address: Campus Box A005, PO Box 173364, Denver, CO 80217-3364

Telephone: +1 (303) 315-2382

Email: application@ucdenver.edu

Website: <http://internationaladmissions.ucdenver.edu>

Application Information for Undergraduate International Students

The University of Colorado Denver provides a diverse array of baccalaureate majors, minors, certificates, and teacher licensure options to meet the ever-challenging demands of a global society. Undergraduate education programs consist of a general core curriculum, a major, and elective courses for all areas of study. The campus-wide core curriculum develops proficiency in writing and mathematics, cultivates a breadth of knowledge, promotes critical thinking, allows for the flexibility to meet career goals, and helps develop sensitivity to cultural diversity and international perspectives.

A list of all undergraduate programs, including minors and online programs, is available by clicking [here](#).

Everyone is welcome to apply. CU Denver values a culture of inclusion and does not discriminate on aspects of identity, including but not limited to gender, race, ethnicity, sexual orientation, ability status, veteran status, nationality, citizenship, religion, and socioeconomic background.

CU Denver seeks to identify applicants who are likely to be successful in a rigorous academic program of study. Admission decisions are based on many factors, the most important being:

- Previous academic performance
- Evidence of academic ability and accomplishment as indicated by scores on national aptitude tests
- Evidence of maturity, motivation, and potential for academic success

CU Denver may deny admission to applicants or readmission to former students whose total credentials indicate an inability to assume obligations of performance and behavior deemed essential by the university.

After completing the application process, official notification of your admission status is provided by International Admissions.

NOTE: The University of Colorado Denver reserves the right to change the admission decision at any time if additional credentials are received that affect your qualifications

Application Deadlines

Term	Scholarship Consideration Deadline	Recommended Deadline	Final Deadline
Fall 2020	February 15, 2020	March 15, 2020	May 15, 2020
Spring 2021	September 15, 2020	October 15, 2020	November 15, 2020
Summer 2021	N/A	January 15, 2021	March 15, 2021

The university may change document/credential deadlines in accordance with enrollment demands. For the best admission and immigration experience, applicants should apply as early as possible. Admission to the university does not guarantee the availability of desired courses. For an applicant to be considered for a specific term, all documents required for admission must be received by the deadline for that term. Applicants who are unable to meet the deadline may elect to be considered for a later term (see Term Change Requests). Please allow sufficient time to have transcripts sent from previously attended institutions.

Application Processing

Your application will be processed and you will receive a decision within 10 business days of CU Denver receiving a complete application.

Freshman and Transfer Student Admission

CU Denver International Admissions considers a number of factors in determining an applicant's level of academic preparation and success. We interpret the Colorado Department of Higher Education (CDHE) and CU Denver freshman and transfer admission standards in an internally consistent manner, while also taking into account

the wide variety of educational backgrounds and experiences international students bring to the university.

Applicants are considered for admission as freshmen students if applying to university for the first time after completing their secondary education (comparable to US high school completion) or a relevant high school equivalency exam. Applicants are considered for admission as transfer students if they have completed any amount of post-secondary coursework. In unusual or unique cases, International Admissions may elect to use either the freshman or transfer admission criteria in order to base our admission decision on the best available set of evidence regarding the applicant's likelihood for academic success at CU Denver.

For detailed information about CDHE and CU Denver admission criteria for undergraduate applicants, please see [this page](#).

How to Apply for Freshman Admission

1. Complete and submit your application online at <http://internationaladmissions.ucdenver.edu>.
2. Pay your \$75 non-refundable application fee. **Note:** you can provide a fee waiver code, or request a fee waiver, before submitting your application.
3. Provide the following documents:
 - a. Complete transcripts from **all** high schools you have attended - even if you did not graduate from the school.
 - i. For high schools located inside the United States, you **must** provide official transcripts. For high schools located outside the United States, you may provide copies or unofficial transcripts.
 - ii. If your transcript was issued in a language other than English, you must also provide a certified English translation of the transcript. CU Denver does not have a preferred translation provider; we recommend that you use an ATA member company.

Note: You do NOT need to provide an external evaluation of your transcript. International Admissions will evaluate your transcript during the application process. You only need to provide a translation.
 - b. High school completion examination scores, as appropriate for your country or situation. Please see [this list](#) for freshman documentation requirements from around the world.
 - c. SAT or ACT scores (required only if you will graduate from a high school inside the United States). Scores reported on official high school transcripts are considered official test scores. Otherwise, please request test score reports from ACT (school code: 0533) or the College Board (school code: 4875).
 - d. Proof of English language proficiency (ELP). Please see below for more information. Note: applicants who do not provide proof of ELP, or who do not meet the ELP requirement, will be considered for conditional admission.

e. After reviewing your file, International Admissions may determine that we require additional documents. In this case, you must provide all requested documents in order to complete your application.

How to Apply for Transfer Admission

1. Complete and submit your application online at <http://internationaladmissions.ucdenver.edu>.
2. Pay your \$75 non-refundable application fee. Note: you can provide a fee waiver code, or request a fee waiver, before submitting your application.
3. Provide the following documents:
 - a. Complete transcripts from all colleges, universities, and post-secondary institutions of any kind that you have attended - even if you did not complete a degree at the institution.
 - i. For institutions located inside the United States, you must provide official transcripts. For institutions located outside of the United States, you may provide copies or unofficial transcripts.
 - ii. If your transcript was issued in a language other than English, you must also provide a certified English translation of the transcript. CU Denver does not have a preferred translation provider; we recommend that you use an ATA member company.

Note: You do NOT need to provide an external evaluation of your transcript. International Admissions will evaluate your transcript during the application process. You only need to provide a translation.
 - b. If you have completed less than 24 US semester credits or one year of post-secondary study, you must also provide complete transcripts from all high schools you have attended. Please follow the high school transcript instructions listed under “How to Apply for Freshman Admission” above.
 - c. Proof of English language proficiency (ELP). Please see below for more information. Note: applicants who do not provide proof of ELP, or who do not meet the ELP requirement, will be considered for conditional admission.
 - d. After reviewing your file, International Admissions may determine that we require additional documents. In this case, you must provide all requested documents in order to complete your application.

Proof of English Language Proficiency

International applicants to CU Denver must provide proof of English Language Proficiency (ELP) in order to be considered for full admission. Undergraduate applicants (except Nursing) and some graduate applicants will be considered for conditional admission if they apply without adequate proof of ELP. You may meet the ELP requirement via any of the options listed below. For the most up-to-date information, please visit the International Admissions website.

International Admissions will update the English language proficiency policy, effective for admission in the spring 2021 term and forward. Please see below for up-to-date information.

1. Citizenship Exemption

International applicants holding citizenship from the following countries do not need to prove their English language proficiency for admission to CU Denver. The Spring 2021 list is based on the United Kingdom government's list of countries exempt from proving English ability when applying for a UK student visa.

Fall 2020 Admission	Spring 2021 Admission
<ul style="list-style-type: none"> • Australia • Belize • Canada (except Quebec) • Commonwealth Caribbean • Ghana • Ireland • Kenya • New Zealand • Singapore • South Africa • Zimbabwe • United Kingdom 	<ul style="list-style-type: none"> • Antigua & Barbuda • Australia • The Bahamas • Barbados • Belize • Canada • Dominica • Grenada • Guyana • Ireland • Jamaica • New Zealand • Saint Kitts & Nevis • Saint Lucia • Saint Vincent & the Grenadines • Trinidad & Tobago • United Kingdom

2. ESL Academy

International applicants may meet the English language proficiency requirement for any program of study at CU Denver by successfully completing every class in level 5 at CU Denver's ESL Academy.

3. English Language Proficiency Tests

CU Denver accepts the following tests as proof of English language proficiency.

Note: The university minimum scores listed below apply to all undergraduate programs, with the exception of Nursing. Please visit the College of Nursing website for more information.

MINIMUM SCORE REQUIREMENTS:

TOEFL iBT

CU Denver school code: 4875

CU Denver accepts TOEFL MyBest scores.

Comprehensive Score	Fall 2020 Admission	Spring 2021 Admission
	75	79

Subscores	Fall 2020 Admissions	Springs 2021 Admission
Reading	15	18
Listening	15	17
Speaking	18	20
Writing	17	17

IELTS

CU Denver accepts super-scored IELTS scores.

Overall Band Score	Fall 2020 Admission and Spring 2021 Admissions
	6.5

Subscores	Fall 2020 Admission and Spring 2021 Admissions
Reading	5.5
Listening	5.5
Speaking	5.5
Writing	5.5

PTE ACADEMIC

Reading	44	42
Listening	44	42
Speaking	49	42
Writing	47	42

DUOLINGO ENGLISH TEST

International Admissions is currently piloting the Duolingo English Test for use in undergraduate admissions (except Nursing). Please contact International Admissions for more information.

Total Score	<p><u>Fall 2020 Admission and Spring 2021 Admission</u></p> <ul style="list-style-type: none"> • 160-point scale (test dates starting July 15, 2019): 105 • 100-point scale (test dates prior to July 15, 2019): 48
-------------	---

Note: The Duolingo English Test currently does not report sub-scores. International Admissions reserves the right to update our minimum requirements in the event that Duolingo starts reporting sub-scores.

4. Coursework Completion

Undergraduate Admission	Transfer Undergraduate Admission
<ul style="list-style-type: none"> • Graduate from high school in the US, with 1+ year of college-prep English coursework • Graduate from a US- or UK- accredited high school over seas 	<ul style="list-style-type: none"> • Earn an associate or bachelor degree in the United States • Complete the GTPathway at a Colorado community college

Undergraduate Admission	Transfer Undergraduate Admission
<ul style="list-style-type: none"> • Graduate from high school in the US, with 1+ year of college-prep English coursework • Graduate from a US accredited high school overseas • Earn a high school credential (comparable to a US high school diploma) in any of the exempt countries listed above • Earn a high school credential (comparable to a US high school diploma) at an exempt-country-accredited school located in a non-exempt country 	<ul style="list-style-type: none"> • Earn an associate or bachelor degree in the United States • Earn a post-secondary credential (comparable to a US associate or bachelor degree) in any of the exempt countries listed above • Earn a post-secondary credential (comparable to a US associate or bachelor degree) at an exempt-country-accredited institution located in a non-exempt country • Earn 24 or more transferable semester credits at another US institution, AND <ul style="list-style-type: none"> ◦ Earn an overall college-level GPA of 2.7/4.0 or higher, OR ◦ Earn a final grade of B- or higher in English Composition 1, or equivalent, or a higher English composition course

5. SPRING 2021 ADMISSION: ADDITIONAL TESTS FOR UNDERGRADUATE ENGLISH LANGUAGE PROFICIENCY

International applicants to undergraduate programs (except Nursing) in the spring 2021 term and forward may also use the following test scores as proof of ELP. International Admissions must receive the official score report in order to use these tests for ELP.

Test	Required Score
ACT: - English	18 or higher
SAT: - Evidence-Based Reading and Writing	480 or higher
Advanced Placement (AP): - English Literature and Composition	3 or higher
International Baccalaureate (IB): - English A Literature (HL or SL) - English A Language and Literature (HL or SL)	4 or higher
General Certificate of Education (GCE) A-Level: - English Literature - English Language	E or higher
General Certificate of Education (GCE) AS-Level: - English Language	E or higher

6. LYNXDIRECT PATHWAY PROGRAM

International freshman applicants to undergraduate programs who do not meet any of the English Language Proficiency requirements listed above will be considered for admission to the LynxDirect pathway program in the CU Denver ESL Academy. The English Language Proficiency requirement for LynxDirect admission is as follows:

TOEFL iBT:

- Comprehensive Score: 70
- Subscores: must reach the High Intermediate threshold in three of the four subscores; the fourth subscore must meet the Low Intermediate threshold (see this page for details)

IELTS:

- Overall Band Score: 6.0
- Subscores: must reach 5.5 or higher in three of the four subscores; the fourth subscore must reach 5.0 or higher

Immigration Process

International Services Specialists in International Student & Scholar Services (ISSS) handle the immigration process for international students. ISSS will issue an immigration document (Form I-20 or Form DS-2019) to you, if applicable, only after you have confirmed your acceptance and submitted the Immigration Clearance Form (see below). Financial documentation is not required at the time of application.

You will be contacted within five (5) business days of receiving your decision letter and will need to provide:

Proof of Financial Support: If you have already sent financial documents to the International Admissions Office, that information will be forwarded to ISSS. If you have not already provided this information, or if your information needs to be updated, you will have an opportunity to provide ISSS with your proof of financial support when you complete the online Immigration Clearance Form that your International Services Specialist will send to you.

Passport/Visa Information: If you have already sent this information to International Admissions, it will be made available to ISSS who will contact you if they need more information.

Note: International students living outside of the U.S. will need to provide a copy of their passport, if it has not already been sent. Those living in the U.S. should be prepared to submit a copy of their passport, visa, Form I-94 Arrival/Departure Record and Form I-20, Form DS-2019, or Form I-797 (if applicable). In all correspondence, please use your name as it appears on your passport.

Please visit ISSS for more information on Pre-Arrival, Arrival at CU Denver, I-20/DS-2019 Timeline, and more.

Transcripts

Official High School Transcripts:

Official high school transcripts are required for all degree-seeking undergraduate applicants. Official high school transcripts are those issued by the last institution attended and are accepted via email from a high school official, mail, or electronically through a third party e-transcript exchange agent directly to the Office of Undergraduate Admissions. Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

- High school graduates: Three years of completed high school course work is the minimum requirement for an admission decision. An admission decision can be determined before high school graduation; however, if admitted to CU Denver, a final official high school transcript noting a graduation date will be required.
- High school equivalency exam recipients: Students who did not graduate from high school are required to have a copy of their high school equivalency exam test scores and certificate sent directly from the certifying agency to the CU Denver Office of Admissions. High school equivalency exam scores and ACT or SAT scores are the basis for the admission decision.

Note: Applicants who have attended multiple high schools are only required to submit the transcript of the last institution attended provided that the transcript contains all previous high school course work. When requesting a transcript, indicate to the school official that all course work from previous high school/s be included.

Official College Transcripts:

Official college transcripts are required for all degree-seeking undergraduate applicants. Official college transcripts are those issued by each institution attended and are accepted via mail or electronically through a third party e-transcript exchange agent and sent directly to the Office of Undergraduate Admissions. Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

Individual transcripts are required for each regionally accredited institution attended. Applications are not considered complete until all transcripts from all institutions attended are received.

Note: Transfer credit accepted and documented on another institution's transcript do not fulfill the transcript requirement.

Domestic Students with International Transcripts:

Non-international applicants that have attended and completed course work at a foreign institution must submit transcripts from those institutions. Transcripts that are not in English must be submitted with a certified English translation. Once received, international transcripts are evaluated by the Office of International Admissions.

Note: Evaluations by outside agencies are not accepted or used in an admission decision.

In-Progress Course work:

Applicants who are admitted and enroll at CU Denver with pending completion of in-progress course work are permitted one term to submit final official transcripts. If official transcripts are not received by the end of the initial term of attendance, registration for subsequent terms is restricted. Final transcripts should be sent via mail or electronically through a third party e-transcript exchange agent and sent directly to the Office of Undergraduate Admissions. Hand-carried transcripts or transcripts sent directly by an applicant are considered official only if delivered in the original sealed envelope of the issuing institution.

Remedial/Developmental College Course work:

The University of Colorado Denver does not accept remedial/developmental course work as part of an applicant's cumulative GPA and/or credit total. Remedial/developmental courses are intended to bolster the basic skills of new college students so they are adequately prepared for college-level work. Remedial/developmental courses are typically defined as below a 100 course level.

Note: The University of Colorado Denver does not offer remedial/developmental course work.

Grade Replacement:

Grade replacement policies vary between institutions and CU Denver defers to each institution's policy when evaluating an applicant's cumulative GPA and credits.

Note: The University of Colorado does not offer grade replacement for any course work completed at CU Denver.

Semester Hours:

All college course work is converted into semester hours for purposes of admission evaluation. For example, 1.5 quarter hours is equal to 1 semester hour and 1 trimester hour is equal to 0.75 semester hours.

Required Institution Accreditation:

The University of Colorado Denver only considers transcripts from regionally accredited institutions in an admission decision. The following regional accrediting organizations are acceptable:

- Higher Learning Commission
- Accrediting Commission for Community and Junior Colleges
- Middle States Commission on Higher Education and Middle States Commission on Secondary Schools
- New England Commission of Higher Education

- Southern Association of Colleges and Schools Commission on Colleges
- Western Association of Schools and Colleges and WASC Senior College and University Commission
- North Central Association of Colleges and Schools Commission on Colleges
- Northwest Accreditation Commission and North West Commission on Colleges and Universities

To determine regional accreditation of an institution, please visit the Council for Higher Education Accreditation (CHEA) webpage www.chea.org.

Note: The University of Colorado Denver does not recognize accreditation from faith-related or career-related accrediting organizations.

Official Test Scores

The University of Colorado Denver requires official test scores for all applicants with less than 24 completed college credits. CU Denver accepts both the ACT and SAT.

Note: AP, IB, and CLEP scores can be submitted to the university for potential transfer credit but do not impact an admission decision.

Document Retention

All credentials submitted as application materials become the property of the University of Colorado Denver. Original documents are not returned or provided to students.

Non-degree

Applicants who do not plan to complete a University of Colorado Denver bachelor's degree, may be admitted as non-degree students. Applicants that have already earned a bachelor's degree, should apply as a non-degree graduate student. To change from non-degree to degree-seeking status, applicants need to apply as an undergraduate or graduate degree-seeking student and meet the admission requirements of the intended program of study.

Readmission

Academic Suspension/Probation Review (ASPR) for CU System Students

Transfer/readmit students with a cumulative CU GPA below 2.0 from any University of Colorado campus (Boulder, Colorado Springs or Denver) are subject to additional review by the school or college to which they are applying. Applicants must meet program requirements of the school or college to which they are applying. If requirements are not met, the applicant can be reviewed by the College of Liberal Arts and Sciences for general admission to CU Denver. Applicants should allow additional

processing time for this review and contact the school or college advising office for additional information.

Note: Each school and college may also have petition deadlines in place. Due to the time sensitive nature of this process, applicants should contact the school to college advising office as soon as possible.

Applicants who completed high school concurrent courses through any University of Colorado institution and have a GPA below 2.0 are not subject to additional review. However, applicants should be aware that concurrent coursework completed at a University of Colorado institution is counted toward their cumulative CU GPA.

Admission Decision Appeal

Applicants interested in appealing their admission decision should submit a letter to the Office of Undergraduate Admissions with additional information regarding circumstances that may have impeded their academic performance. Additionally, any updated test scores or coursework also should be submitted. Send letters to Admissions@ucdenver.edu and include the subject line "Admission Decision Appeal."

Revoking Admission

Applicants may be denied admission to the university or have their admission revoked if they knowingly:

- Falsify transcripts
- Falsify test scores
- Fail to indicate and provide credentials from all previously attended institutions
- Fail to disclose criminal history or suspension/expulsion information

Criminal History / Suspension

Applicants with criminal history and/or previous suspension/expulsion may undergo additional review by the Special Admissions Committee. The Special Admissions Committee meets regularly to review criminal history and suspension/expulsion application information for students who are academically admissible to the university.

Note: Disclosing criminal history or suspension/expulsion information is required but is not grounds for automatic denial of admission.

Appeal process

Applicants may appeal the Special Admissions Committee's decision when new information is available that was not included or available in the initial review of the application file. The information must be provided as part of the appeal. To request an appeal, submit a written letter to the Special Admissions Committee stating the grounds

for the appeal and a request to be reconsidered for admission. This letter must be addressed to:

Special Admissions Committee
University of Colorado Denver
Campus Box 167
P.O. Box 173364
Denver, CO 80217-3364

Applicants are notified in writing of the results of the appeal. Should the appeal be denied, applicants may request in writing the appeal be submitted for review to the Dean of Students. In this event, the Special Admissions Committee will inform the Dean of Students and will provide the Dean with the application file, including information relevant to the Special Admissions Committee's decision and the initial appeal. Applicants are notified in writing of the results of the Dean of Students' final admission decision.

Admissions Promise

The Admissions Promise is a partnership between the University of Colorado Denver and select Colorado Community Colleges to provide advising and ongoing support to applicants in pursuit of a four-year degree. Program participants are automatically accepted to the University of Colorado Denver as a junior upon completion of an approved Associate's Degree from a participating community college:

- Arapahoe Community College (ACC)
- Colorado Northwestern Community College (CNCC)
- Community College of Aurora (CCA)
- Community College of Denver (CCD)
- Front Range Community College (FRCC)
- Morgan Community College (MCC)
- Pikes Peak Community College (PPCC)
- Red Rocks Community College (RRCC)

Term Change Requests

Applicants or admitted students who wish to change the term indicated on their application must submit a term change request to the Office of Undergraduate Admissions prior to registering for and/or attending any classes at CU Denver. Admission can be deferred for up to one year (three semesters) from the initial term indicated on the application. For example, an admitted student that initially applied for Fall 2019 may defer until Fall 2020. A new application is not required for a change up to one year from the initial term indicated on the application.

Note: A maximum of three term change requests per application are honored.

Change of Major Requests

Applicants and admitted students who wish to change the major indicated on their application must submit one of the following requests:

Program/Plan Change

Prior to the first day of classes, the Office of Undergraduate Admissions completes program/plan change requests within or between the University of Colorado Denver colleges/schools.

Note: Admissibility into the desired major will be re-evaluated.

Intra University Transfer

After the first day of classes, students wishing to change from one CU Denver school or college to another must submit an Intra-University Transfer (IUT) form to their intended school.

Change of Major

After the first day of classes, students wishing to change their major within the same CU Denver school or college must submit a Change of Major request to their advisor.

Initial Residency

Initial residency classification for tuition purposes is determined by information submitted on the application for admission. Information regarding residency classification can be found at www.ucdenver.edu/residency.

Deferred Action for Childhood Arrivals (DACA) and Colorado ASSET

The University of Colorado Denver encourages and provides access for all qualified students. CU Denver accepts and welcomes students under both DACA and ASSET. Diversity is a guiding principle and core value of the university, and CU Denver is committed to maintaining an inclusive environment.

Active Military & Veteran Applicants

The University of Colorado Denver is a Military Friendly institution. Active military and veteran applicants are offered the following admission benefits:

- Waived application fee
- Waived SAT/ACT if high school graduation was more than five years prior and with the submission of a Joint Services Transcript (JST)

Note: For additional information on transfer credit and other university benefits, please contact Veteran and Military Student Services (VMSS) at vmss@ucdenver.edu.

BURSAR AND FINANCIAL AID & SCHOLARSHIPS INFORMATION

At CU Denver, we have a longstanding belief that finances should never stand in the way of motivated, talented individuals who want to better themselves and make a positive impact on the world around them. Through a tradition providing strong financial assistance and aid programs, we enforce this belief every day.

FAQ's

Not sure of the difference between student services offices? Here's a quick guide to finding what you need.

Admissions

Student Commons Building Suite 1007

FINANCIAL AID

Applying

The Financial Aid & Scholarships Office delivers more than \$128 million in financial aid awards to qualified students at the Denver Campus each year. Students will be considered for a financial aid award of need-based grants (federal, state, and institutional), Work-study (part-time employment), Federal Direct Loans and, if applicable, Federal Direct Parent PLUS Loans. To be considered for the best funding available, students should complete the FAFSA and submit requested documentation by the CU Denver priority deadline of April 1 each year.

To be considered for financial aid, students should complete the Free Application for Federal Student Aid (FAFSA) annually. The application becomes available October 1 of each year for the upcoming year's funding. Upon completing the application, students

should monitor their email provided on the FAFSA, University email, and UCDAccess portal To Do List for requests for follow up paperwork. Students may also obtain important information online at www.ucdenver.edu/finaid. All financial aid policies and procedures are subject to change due to revisions in federal and state laws, regulations, guidelines and applicable institution policies.

Awards

Students are informed by University email when awarded financial aid. The email notice advises students to review their award on the UCDAccess portal. Financial aid awards should be available for review approximately four to six weeks after the Financial Aid & Scholarships Office accepts and processes all required documents. The information provided will include types of awards and the amount of aid awarded.

Eligibility

Each student must meet the following eligibility criteria to be considered for financial aid:

1. Be a U.S. citizen or eligible noncitizen.
2. Have a valid social security number (exceptions for students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau).
3. Be classified as degree-seeking in an eligible degree or certificate program.
4. Be enrolled at least half-time (6 credit hours) to be eligible for most types of financial aid, including the Direct Student Loan Programs.
5. Meet Satisfactory Academic Progress (SAP) standards at the end of each term.
6. Not be in default on any student loan or owe a refund on any educational grant.
7. Male applicants must be registered with the Selective Service.
8. Show proof of a high school diploma or recognized equivalent (GED or approved homeschooling).
9. Sign a statement on the FAFSA indicating that you will use federal student aid for educational purposes only.

Note: Students with intellectual disabilities who do not meet the eligibility requirements as outlined above may be able to obtain certain types of aid. To be eligible, you must be accepted for enrollment in a comprehensive transition and postsecondary program. For more information, go to StudentAid.gov/eligibility and select Students With Intellectual Disabilities.

Grants, Loans and Work-Study

Grants:

1. *Federal Pell Grant* - This is a need-based, federally funded grant. Pell Grants are awarded based off a need-based formula provided by the federal government. Award amounts vary depending on financial need and a student's enrollment status. Only undergraduate students seeking a first time bachelor's degree are eligible.
2. *Federal Supplemental Educational Opportunity Grant (SEOG)*- This is a need-based, federally funded grant awarded to students with exceptional financial need. Students must be eligible for the Federal Pell Grant to be considered for SEOG. Because the SEOG Grant has limited funding, the grant is awarded to the highest need students, and is not guaranteed to be awarded to all eligible students.
3. *Federal TEACH Grant* - This is a non-need based, federally funded grant available to students in specific programs who intend to teach in a public or private school that serves students from low-income families. Students may be considered for up to \$4000 per academic year in TEACH Grant.
4. *CU Denver University Need Grant*- This is a need-based, institutionally funded grant awarded to students who document financial need through the FAFSA. The grant is a limited fund award and awarded to students on a first come, first served basis.
5. *Colorado Student Grant* - This is a need-based, state funded grant available to eligible resident undergraduate students. The grant is awarded to students who document financial need through the FAFSA. The grant is a limited fund award and awarded on a first come, first served basis.

Loans:

1. *Federal Direct Subsidized Loan* - The Federal Direct Subsidized Loan is a need-based, federally funded loan. Interest on the Subsidized Loan is paid by the federal government during certain periods. Borrowers receive a six-month grace period before entering repayment. The grace period begins six-months after the student ceases to be enrolled at least half-time, discontinues their program of study or graduates.
2. *Federal Direct Unsubsidized Loan* - The Federal Direct Unsubsidized Loan is a non-need based, federally funded loan. Borrowers receive a six-month grace period before entering repayment. The grace period begins six-months after the student ceases to be enrolled at least half-time, discontinues their program of study or graduates.
3. *Federal Direct Parent PLUS Loan* - The Parent PLUS Loan is a federally funded loan, available to parents of dependent students. The Parent PLUS Loan is credit-based and begins to accrue interest from the date of disbursement. If a parent cannot secure a PLUS Loan due to credit, the undergraduate student may qualify for additional Unsubsidized Loan. Repayment on the PLUS loan begins almost immediately after disbursement, however a parent may make arrangements to have repayment deferred while the student is enrolled at least half-time. The interest on this loan, even while in deferment, will continue to capitalize on the principle amount.
4. *Federal Perkins Loan* - This is a need-based, federally funded loan. The Perkins Loan has a 5% fixed interest rate. No repayment of interest or principal is due until nine months after the student ceases to be enrolled at least half-time or graduates.

Work-Study:

1. *Federal Work-Study* - Work-study is a need-based, federally funded program that allows students to work part-time job (on-campus, off-campus or at nonprofit agencies) to help meet their educational costs.
2. *Colorado Work-Study* - Colorado Work-study is a state funded program similar to Federal Work-Study. It is available to resident undergraduate students pursuing their first bachelor's degree. Limited amounts of Colorado Work-study is available to students regardless of financial need.

Qualifying

Financial Need

Financial Aid eligibility is largely based on the concept of financial need. Financial need is calculated as Cost of Attendance (tuition, fees, books, and living expenses) minus the Expected Family Contribution or EFC (student/spouse contribution and parents' contribution for dependent students). A student's EFC is assigned directly from the information provided on the FAFSA application.

Cost of Attendance is the estimated annual cost to attend CU Denver, including tuition and fees, room, board, books and supplies, transportation and personal expenses. The Financial Aid & Scholarships Office determines COA based upon average tuition and fees charged and other items established by the Colorado Department of Higher Education. Current COA figures are available on our website at www.ucdenver.edu/finaid.

The EFC from the student/spouse and from the parents (if applicable) are calculated by a standardized formula that is determined by data provided on the FAFSA and is required by federal law. The formula considers income, savings and other assets, family size, number of children in postsecondary school and other factors and then assigns a student an EFC.

Financial Aid is intended to supplement and not replace financial contributions from the student and parents. If the EFC is equal to or greater than the COA, a student will not qualify for need-based financial aid, but can still receive non-need based financial aid such as Direct Unsubsidized Loans or Direct Parent PLUS Loans. Students may appeal for special consideration if they are experiencing unusual or extenuating circumstances that are negatively impacting their finances such as a job loss.

Determining Dependency Status

The federal government provides specific guidelines that define dependency status for federal financial aid. Dependency status is determined by a series of questions on the FAFSA. Students classified as dependent are required to provide student and parent household and financial information when applying for financial aid. If a student is classified as independent, the student's parental information is not considered when the calculation of the Expected Family Contribution is made. Students may review dependency questions by visiting <https://studentaid.ed.gov/sa/fafsa/filling-out/dependency>.

A dependency status may be appealed to the financial aid office if unusual circumstances exist. Contact the office for appeal guidelines.

Enrollment Status

Most undergraduate financial aid programs require at least half-time enrollment (6 credit hours per semester) to be eligible for awards. Higher or lower minimums may be required for specific individual awards (review your award notification for the exact number of credits required for aid eligibility).

Satisfactory Academic Progress (SAP)

To continue to be eligible for financial aid, students must meet Satisfactory Academic Progress. If a student is not meeting SAP standards, they may be ineligible for financial aid and scholarship. For more information, students should review the Satisfactory Academic Policy by visiting www.ucdenver.edu/finaid/sap.

A student may appeal financial aid suspension by submitting a SAP Appeal. The SAP appeal should document the extenuating circumstances that led to the student's suspension. All appeals should include third party supporting documentation.

Course Withdrawals and Repayments

Financial aid is disbursed based on the assumption a student will attend courses for the entire semester and earn passing grades. A student who withdraws or fails all courses and received financial aid must have a Return of Title IV (R2T4) calculation performed to determine the percentage of aid that was earned based on the amount of time the student attended their courses. Students are entitled to aid that was earned. The University will return any unearned aid to the appropriate Federal Title IV program, which may create a balance owed to the University.

The University will also determine the earned and unearned portions of any state or institutional aid. This calculation is separate from the R2T4 aid calculation.

If you withdraw on or before the University's census date, you will be required to return all state and/or institutional aid received for the term. The Bursar's Office will bill your account for the amount owed.

If you withdraw after the census date, you will be required to repay a portion of any state and institutional received for the term based on your withdrawal date.

CU Denver is required to verify a student began attendance in any course a student withdraws from or fails. If the Financial Aid & Scholarships Office receives notification that a student never began attendance.

Scholarships

The Financial Aid & Scholarships office awards over \$18 million dollars in scholarships annually. For a complete listing of the many scholarships offered at the Denver Campus, visit www.ucdenver.edu/scholarships.

TUITION AND FEES

All tuition and fee rates are established by the Board of Regents, the governing body of the University of Colorado, in accordance with legislation enacted annually by the Colorado General Assembly. The Regents set tuition rates and fees at a budget retreat each spring for the coming fall, spring and summer terms, but reserve the right to change rates at any time. Rates for the current year are available online to assist prospective students in anticipating costs. Please refer to the Web site at <http://ucdenver.edu/bursar> in July for new rates.

College Opportunity Fund (COF)

An act of the Colorado state legislature in May 2004 established a new way for the state to provide state tax dollar support for higher education at the undergraduate level. The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to eligible undergraduate students paying in-state tuition. The stipend pays a portion of your total in-state tuition for eligible undergraduate students who attend a public Colorado institution or a participating private institution. Eligible undergraduate students must be admitted and enrolled at a participating institution to use the stipend for eligible undergraduate classes.

The stipend is paid to the institution on a per-credit-hour basis, and the credit-hour amount is set annually by the General Assembly. Please check the official state College Opportunity Fund website for the current amount. For more information about COF and CU Denver please refer to our website.

Direct Deposit

Direct deposit is the standard method of issuing student account refunds to CU Denver students with credit balances. Students are strongly encouraged to sign up for direct deposit well in advance of any anticipated student account refunds, and may do so online via the UCDAccess portal - How to Select Direct Deposit for Refunds.

Students who do not sign up for direct deposit will receive a paper refund check through the mail. Refunds will only be issued via direct deposit or through the mail. **Students are not allowed to pick up their refund check from the Bursar's Office.**

Drop Charge

Beginning the second Tuesday of the fall and spring terms until census date, a \$100 drop transaction charge will be assessed each time a student drops a course. Please refer to the academic calendar for summer dates. This includes student initiated drops done in order to change sections within a course. Section changes done for an administrative purpose through the deans' offices will be exempted from drop charges. If a student withdraws, dropping all classes, a drop charge will be assessed for each course.

Past Due Tuition and Fees

Past due student accounts will be assessed a one-time per semester late payment charge and a monthly service charge for every month the balance remains unpaid. After the semester of the past due debt, student accounts are referred to Student Debt Management. An overdue student account may be referred to a third party collection agency and reported to one or more credit bureau reporting services; the student explicitly authorizes University of Colorado Denver to release personal and financial information under those circumstances. To the extent permitted by applicable law, the student agrees to reimburse the University of Colorado Denver the fees of any collection agency, which may be based on a percentage at a maximum of 40% of the debt, and all costs and expenses, including reasonable attorney's fees, the University may incur in such collection efforts. In addition, while the student maintains a past due balance with the University of Colorado Denver, a hold will be placed on the student record preventing any future registration and the release of official transcripts.

Pursuant to C.R.S. § 23-5-115, in the event of a default on an amount owed to University of Colorado Denver, University of Colorado Denver may certify to the Colorado Department of Revenue information regarding persons with past due accounts. The Colorado Department of Revenue may then disburse funds to University of Colorado Denver in satisfaction of that debt from tax refund amounts owed to the individual, if any.

See the Tuition and Fees Payment Disclosure Statement.

For more information, please see the Bursar's Administrative Withdrawal Policy.

Payment of Tuition and Fees

All tuition and fees, except the application fee, are due on the day indicated on your billing statement. Students have an option to choose a payment plan available through QuikPAY, our payment processor. Specific information on the payment plan can be located [here](#).

Students who register for courses are liable for payment of tuition and fees if they withdraw from school after census date. Refund policies for students who withdraw from the university both before and after census date are included in the academic calendar. A student with financial obligations to the university will not be permitted to register for any

subsequent term, to graduate, to be issued transcripts or to be listed among those receiving a degree or special certificate. The only exception to this regulation involves loans and other types of indebtedness that are due after graduation. Students may pay tuition and fees with personal checks, by credit card at the Bursar's Office, or through the UCDAccess portal. Any payment transaction that is returned by the bank will be assessed an additional charge.

The University of Colorado Denver is committed to providing students and their families a range of options for paying their educational expenses. The credit card payment method has become prohibitively expensive due to the fees charged by credit card companies to CU Denver for credit card transaction processing. This expense has been covered by University tuition revenues, and reduces the tuition dollars available for academic programs and services for all students. Therefore, a service fee of 2.75% of the payment amount will be assessed for all credit and debit card transactions.

Students who register in a non-degree status, and who later apply and are admitted to a degree status for that term, are responsible for the difference in tuition between the non-degree program and their applicable degree program and will be billed accordingly.

Undergraduate tuition for resident students is based on the total number of completed semester hours. The rate increases once a student has completed 60 hours.

Residency Classification for Tuition Purposes

Tuition classification is governed by Colorado statutes that apply to all state-funded institutions in Colorado. Institutions are bound by the provisions of this statute and are not free to make exceptions to the rules set forth.

Students are initially classified as in-state or out-of-state for tuition purposes at the time of application. The classification is based upon information furnished by the student and from other relevant sources. After the student's status is determined, it remains unchanged in the absence of satisfactory evidence to the contrary.

Once a student is classified as a nonresident for tuition purposes, the student must petition for a change in classification. Petitions must be submitted **NO LATER THAN THE MONDAY PRIOR TO THE FIRST OFFICIAL DAY OF CLASSES** of the term for which the student wishes to be classified as a resident. It is preferred that petitions be received 30 days prior to the beginning of the term. Late petitions will not be considered until the next semester. Specific information may be obtained from the Office of the Registrar.

The final decision regarding tuition status rests with the university. Questions regarding residence (tuition) status should be referred only to the tuition classification officer. Opinions of other persons are not official or binding upon the university. Additional information is available on our website.

Basic Requirements

The statute provides that an in-state student is one who has been a legal domiciliary of Colorado for one year or more immediately preceding the beginning of the term for

which the in-state classification is being sought. Persons over 23 years of age or who are emancipated establish their own legal domicile. Those who are under 23 years of age and are not emancipated assume the domicile of their parent or court-appointed legal guardian. A non-emancipated minor's parent/legal guardian must, therefore, have a legal domicile in Colorado for one year or more before the minor may be classified as an in-state student for tuition purposes.

Establishing Domicile

Domicile is established when one has a permanent place of habitation in Colorado and the intention of making Colorado one's true, fixed and permanent home and place of habitation. The tuition statute places the burden of establishing a Colorado domicile on the person seeking to establish the domicile. The question of intent is one of documentable fact and needs to be shown by substantial connections with the state sufficient to evidence such intent. Legal domicile in Colorado for tuition purposes begins the day after connections with Colorado are made sufficient to evidence one's intent. The most common ties with the state are (1) change of driver's license to Colorado, (2) change of automobile registration to Colorado, (3) Colorado voter registration, (4) permanent employment in Colorado and most important, (5) payment of state income taxes as a resident by one whose income is sufficient to be taxed. Caution: payment or filing of back taxes in no way serves to establish legal domicile retroactive to the time filed. In order to qualify for in-state tuition for a given term, the 12-month waiting period (which begins when the legal domicile is established) must be over by the first day of classes for the term in question. If one's 12-month waiting period expires during the semester, in-state tuition cannot be granted until the next semester.

Resident Tuition for Military-Connected Students

Military-connected students living in the state of Colorado may be able to receive in-state residency for tuition purposes at CU Denver and CU Anschutz as designated by Federal or State Law. Please review the information on the Veteran and Military Student Services website for more information.

Tuition Appeals

Students are responsible for abiding by the published deadlines. Tuition is not refundable when students drop or withdraw from courses after the published deadlines. If circumstances beyond the student's control have made the late drop or withdraw necessary, the student may file a tuition appeal.

Instructions and forms for submitting a tuition appeal are available on the Lynx Center website or in the Lynx Center.

RECORDS AND REGISTRATION INFORMATION

Records and Registration

CU Denver offers students a completely online system of planning their schedules and registering for classes. As a student, you are responsible for knowing the deadlines, rules, regulations, course loads, prerequisites and policies of the university, as well as those of the college or school in which you are enrolled, all of which is provided within this online catalog. Please refer to the Academic Policies section for more specific information related to records and registration.

Office of the Registrar

Associate Vice Chancellor for Student Enrollment Operations & Compliance and University Registrar: Carrie John

Office: Student Commons Building, Suite 5005

Telephone: 303-315-2600

Fax: 303-315-2550

E-mail: registrar@ucdenver.edu

Web site: www.ucdenver.edu/Registrar

Students should review the sections of this catalog that describe in detail the academic programs available at the Denver Campus.

The registrar's office will send an e-mail message to the student's university-assigned e-mail address, inviting the student to register, including registration information and a registration time assignment. Registration is by time assignment only. Students may register via the web on or after their assigned time.

FERPA

FERPA: FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

FERPA is a federal privacy law that protects students' educational records. Under this law, students have three primary rights:

- Inspect and review their education records.
- Seek to amend incorrect education records.
- Have some control over the disclosure of information from their education record.

FERPA directory information is information contained in a student's education record that generally would not be considered harmful or an invasion of privacy if disclosed. Under current CU Denver policy, the following information is designated as directory information:

- Student name. If provided, a preferred name will be used when there is not a documented business or legal reason to provide a student's primary name. Students may also select a diploma name for graduation and commencement materials.
- Hometown (city, state).
- Campus email address.*
- Dates of attendance.
- Previous educational institutions attended.
- School/college or division of enrollment.
- Majors, minors and field of study.
- Classification level (e.g., freshman, sophomore, graduate student).
- University-recognized honors and awards.
- Degree status (e.g. expected graduation date and/or conferral dates/terms).
- Enrollment status.
- Employment related to student status (e.g. teaching assistant, resident assistant or work-study) and dates for positions held.
- Participation in officially recognized activities/sports, including height and weight of athletes.
- Photos and videos taken or maintained by the university.

*Campus email addresses are only disclosed to requestors who agree not to use them for solicitation.

Although these items are designated by CU Denver as directory information, only a limited amount of this information is routinely disclosed by CU Denver university officials. The university retains the discretion to refuse disclosure of directory information if it believes such disclosure would be an infringement on student privacy rights.

Students may ask the University not to publicly disclose directory information. Be aware, however, if you are seeking employment, the Registrar's Office cannot release your enrollment, degree status or major to anyone unless you come to the Registrar's Office with a photo ID.

Forms to prevent disclosure of directory information can be obtained at the Registrar's Office, located in the Student Commons Building, or via the Registrar's website at www.ucdenver.edu/registrar.

Information that is never released without your consent includes grades, tuition/fees owed, financial aid, etc. If you would like to give permission to someone else to have access to that information, you can submit a Release of Confidential Information Form to the Office of the Registrar. This form also must be submitted in person.

More information about FERPA can be found in the University Catalog. If you have questions regarding your rights under FERPA, please contact the Office of the Registrar.

STUDENT SERVICES INFORMATION

CAMPUS LIFE

The University of Colorado Denver, Denver Campus is physically located on the 151-acre Auraria Campus, which is shared with two other institutions-Metropolitan State University of Denver and Community College of Denver. Because we share facilities, our students have access to the level of resources found at much larger public universities. Since fall of 2006, the university has also been able to offer student housing adjacent to this traditionally commuter campus. Details about the campus and Campus Village are explained in this chapter.

Auraria Campus

Since opening in 1976, Auraria has become the largest campus in Colorado, enrolling nearly 50,000 students-20 percent of all the students in public higher education in the state. This is the most efficiently utilized campus in the state. Classrooms on the Auraria Campus are used an average of 50+ hours per week. Classes are held from 8 a.m. to 10 p.m. Monday through Thursday and from 8 a.m. to 6 p.m. on Friday, Saturday and Sunday. Some courses and programs are offered cooperatively by the Auraria educational institutions. Those pertaining to CU Denver students are outlined in this catalog.

The Auraria Campus offers numerous amenities to students, faculty and staff, from the largest bookstore in the Rocky Mountain region to a state-of-the-art fitness facility. Details of these amenities are outlined in this chapter.

In addition to its proximity to the thriving business and industry of downtown Denver, the Auraria Campus has a distinct historic flavor. The Tivoli Student Union is housed in a renovated brewery originally built in the 1860s. Historic Ninth Street Park, St. Cajetan's Church/Performing Arts Center, St. Elizabeth's Church, the Emmanuel-Sherith Chapel/Synagogue/Art Gallery and the Golda Meir House Museum are also located on campus.

Auraria Higher Education Center

The Auraria Higher Education Center (AHEC) is the administrative body that coordinates the facilities, services and activities for the three educational institutions on campus. AHEC provides common services for the campus including: classroom scheduling, facilities services and construction, campus police, telecommunications infrastructure, student union, media services, book store, early learning center, parking and transportation, mail services and facilities master planning. Visit their website for additional information.

Campus Amenities

Tivoli Station

(Formerly Auraria Campus Bookstore)

Location: Tivoli Student Union, suites 105 and 205

Phone number: 303-556-4286

Website: www.tivolystation.com **Facebook:** facebook.com/TivoliStation

We've got you covered at Tivoli Station, your best resource for **technology, CU Denver spirit gear, and cost-saving options for textbooks**. We offer both convenience and value. Look to us for easy one-stop shopping and a variety of programs designed to benefit students.

- **Tech Station**

As an **Apple Authorized Campus Store** and **Apple Authorized Service Provider**, we offer student discounts and in-store tech support. We also carry **Dell** computers, discounted HP technology, calculators, flash drives, headphones, and more.

- **Book Station**

Thousands of textbook titles are available to rent (save up to 50%) or **buy new or used**. At the end of each semester, sell your used books for cash with the **Textbook Buyback Program**, a service we offer to help offset student expenses.

You can also visit ahec.verbacompare.com to compare textbook prices from the web, giving you options to find the best value available.

- **Lynx Station**

Show your school spirit with **CU Denver clothing and gear**, such as shirts, hats, pants, lanyards, hoodies, mugs, and water bottles.

- **Supply Station**

We offer a variety of course supplies, including general school supplies and art, culinary, and science lab materials.

- **Reading Station**

In the general merchandise area, we provide study aids, reference materials, gift items, and discounted New York Times Bestsellers.

- **Charging Station**

Charge your device for free using one of our phone ports or outlets.

- **Snack Station**

Grab a snack while you are waiting for your device to charge, or take it on the go. We have pre-wrapped sandwiches, drinks, yogurt, chips, and candy.

- **Campus Commitment**

We are committed to the campus. Revenue from the bookstore helps fund campus programs and keeps your student bond fee down. We are also one of the largest student employers on campus.

Auraria Campus Event Services

Location: 900 Auraria Parkway, Suite 325 **Phone:** 303-556-2755

Email: acesmaindesk@ahec.edu **Website:** www.ahec.edu/eventservices

Auraria Campus Event Services (ACES) manages all non-academic events that take place on the Auraria Campus. From a simple meeting to an impactful campus event like Spring Fling or Fall Fest, our team is committed to providing quality service and producing successful events.

A majority of the event spaces on campus are located in the Tivoli Student Union, but other event venues are also available in St. Cajetan's Event Center, the PE/Event Center, and several outdoor event spaces including the Tivoli Quad. Student groups can contact us for assistance with locating and booking a space and coordinating support services.

Auraria Early Learning Center (Child Care Center)

Location: 950 9th Street Park **Phone Number:** 303-556-3188

The Auraria Early Learning Center (AELC) provides high quality early childhood care and educational programs to children 12 months and walking through 5 years old. The programs at AELC are utilized by the children of college students, as well as children of faculty and staff on campus, and community members. There are 300 children in 12 classrooms and the center is open year round (except for holidays) from 7 AM to 6 PM, Monday through Friday. The Center also offers a fully accredited kindergarten program and a summer camp program. AELC has earned a 4 Star - or high quality - Qualistar rating, as ranked by Qualistar Early Learning.

Auraria Event Center/Student Recreation Center

Location: PE Building/Event Center

Phone: 303-556-3210 (recreation), 303-352-4371 (fitness)

Website: <http://www.msudenver.edu/campusrec>

The Auraria Campus PE/Event Center is a 2,800-seat facility for team and individual sport activities, academic programs, events and conferences. Funds from the Student Recreation Fee support Campus Recreation at Auraria (CRA). At CRA, our purpose is to foster individual and community well-being through the power of engagement, leadership, partnership and recreation. CRA provides a wide range of affordable, high

quality, and inclusive recreational and wellness opportunities designed to support personal, academic, community and institutional success of Auraria Campus students, faculty, staff, alumni and the community at-large. CRA consists of Fitness and Wellness, Outdoor Adventure and Leadership, Recreational Sports, Educations/Certification, Member Services, Employment Opportunities, Partnerships, and Community Outreach.

Auraria Library

Phone Number: 303-556-2740

Website: <http://library.auraria.edu/services/askus>

The Auraria Library connects users with ideas through technology-enabled information discovery and delivery on an “anytime, anyplace” basis. The Library’s collections of learning materials, resources, and research services support the information, research, and curriculum needs of the Auraria Campus. Whether you are looking for a quiet place to read and reflect, a place to share a cup of coffee while working with classmates on a group project, a source of authoritative academic information, or a computer-enabled collaborative study room, the Library will meet your needs. Assistance from Library staff is available via one-on-one meetings, by phone, text, or chat on our website (library.auraria.edu/services/researchhelp).

Auraria Media Center and Classroom Support

Location: 1100 Lawrence Street (East side of the Auraria Library), 015

Phone Number: 303-556-2426 **Website:** <http://mediacenter.ahec.edu>

The Auraria Media Center and Classroom Support Services offers a full range of media services and classroom support:

- distance learning technologies including video conferencing, webinars, audio conferencing, video over IP and ISDN and videotaping of course delivery
- circulation of a wide range of audio, video and data (AVD) presentation equipment for one-time use
- long-term classroom equipment check-out
- production of content on digital tape, DVD, CD and videotape by an award-winning staff using state-of-the-art digital editing, graphics and animation systems
- quantity duplication of DVD, CD, audio and videotape media
- equipment maintenance and repair
- equipment/systems consultation and installation

The Auraria Media Center’s 34-channel closed-circuit campus cable system can be used in the classroom to broadcast channels such as CNN, MSNBC, History, Discovery, A&E, PBS, CSPAN, NASA and local television networks. One channel is dedicated to and managed by each institution for distribution of programming of their choice.

Auraria Media Center staff are available to train faculty in the use of equipment in “smart” classrooms on campus and offer consulting services to faculty and other clients

in such areas as media design and production, effective use of media types and effective use of distance learning technologies, effective use of those technologies and equipment selection to best meet instructional needs.

Auraria Media Center and Classroom Support Services will handle all of your classroom needs regarding furniture, projector screens, whiteboards, smart classroom equipment and ADA furniture placement.

Emmanuel Gallery

Location: 10th and Lawrence Street Pedestrian Mall

Phone Number: 303-315-7431

Tri-institutional campus on Auraria Campus for over 35 years. Historical landmark who received the Mayor's Art for Excellence in 2012 featuring national, international artists, designers and architects as well as featuring student and faculty shows for each school on campus. Stop in for a relaxing break

Health Center at Auraria

Location: Plaza Building 150 **Phone Number:** 303-556-2525

24 Hour Mental Health Crisis Line: 303-352-4455

Website: www.healthcenter1.com

Medical Care

The Health Center at Auraria provides primary medical care, disease prevention, health education, wellness promotion, and various specialty services to all registered MSU Denver, CCD and CU Denver students.

The Health Center is open Monday through Thursday from 8 a.m. to 5 p.m., and Friday from 8 a.m. to 3 p.m.

Eligibility

All current Students, faculty and staff on the Auraria Campus are eligible for medical services. Be prepared to show a Student I.D. card or a photo ID each time you check in. Payment Options

Payment

Patients who participate or are enrolled in the MSU Denver or CU Denver Student Health Insurance will have their covered charges submitted directly to the insurance carriers. Patients are required to pay at the time of service for any plan exclusions and co-payments.

Health Center @ Auraria accepts most major health insurance plans because we understand the importance of health insurance for the individuals we serve. As insurance benefits shift and change, it is important to know your plan and what is covered before your appointment with your provider.

In an effort to assist our patients, Health Center @ Auraria has listed below the insurance plans we accept. We encourage you to access your individual policy, and identify what your specific plan will cover. Please note that, while many wellness and preventative services may now be covered 100% by your plan, specific benefits will vary according to your policy benefits.

It is imperative that patients review and understand their financial responsibility and portion of the services that are provided to them. Please contact your insurance carrier for specific details of your plan.

We currently accept most insurance plans with the following carriers:

Aetna: <https://www.aetna.com>

Anthem Blue Cross/Blue Shield: <https://www.anthem.com>

Cigna: <https://my.cigna.com>

Cofinity: (refer to the link on the back of your insurance card)

Humana: <https://www.humana.com>

Multi-plan: (refer to the link on the back of your insurance card)

Rocky Mountain Health Plan: <http://www.rmhp.org>

TriCare: <https://tricare.mil/>

United HealthCare: <https://www.myuhc.com>

Staff

The Health Center is staffed by Physicians, Physician Assistants, Nurse Practitioners, Radiologic Technologists, Medical Assistants, and Allied Health Professionals. Psychiatrists and Gynecologists provide specialty medical care.

Appointments

To be respectful of your time it is suggested that you schedule an appointment in advance by calling (303) 556-2525. Walk-in Care is also available on a “first come / first served” basis. Patients are encouraged to arrive early to increase the likelihood of Walk-in availability. Patients are scheduled for a same day or a future appointment according to the severity of their medical need.

Services

The Health Center at Auraria can treat the majority of your health concerns on-site, including illnesses, injuries and physicals. See the list below for other on-site services.

- Illness Treatment

- First Aid
- Urgent Care
- Physical Examinations
- Lab Testing
- X-ray
- Medications
- Skin and Mole Evaluations
- Immunizations
- Blood Pressure Check
- Annual Gynecologic Exams
- Safer Sex Instruction
- Sexually Transmitted Disease Screening and Treatment
- Pregnancy Tests
- Birth Control Information and Supplies
- Colposcopy/Cryotherapy
- Referral to On-Site Physician Specialists
- Psychiatrist Consultations (referral needed)
- Cholesterol Screening/Fitness Analysis
- Minor Surgery/Suturing/Biopsies

Free clinical Services

The Health Center at Auraria offers a variety of services at no charge regardless of insurance coverage. These exclusive free services are available to all MSU Denver, CU Denver, CCD and AHEC students, faculty and staff.

Free services include:

- Flu Vaccination
- HIV Testing, including Rapid HIV Testing
- Nutritional Counseling
- Prescriptive Exercise Rehabilitation
- Tobacco Cessation - includes free medication if indicated

King Academic and Performing Arts Center

Location: 855 Lawrence Way **Phone Number:** 303-556-2179

Website: www.ahec.edu/kingcenter

The King Center houses six performing spaces: three permanently assigned production studios, a 197-seat recital hall; 520-seat concert hall; and the 270 seat Eugenia Rawls Courtyard Theatre. There are dressing rooms, green room, recording studio, lighting lab, music electronics lab, classroom space, box office, scene shop, paint shop and costume shop. All spaces are fully equipped with state-of-the-art equipment and a variety of spaces for exhibiting fine art. The entire facility has more than 180,000 square

feet dedicated to the education of the student and development of the student who wishes to study performance/arts. The center can support many forms of entertainment, anywhere from legit theatre to large choral ensembles and other forms of performances.

You can usually find staff in the offices between 9:00am - 4:30p. But we have employees on site at any given time and day of the week depending on the three institutions performance schedules.

Tivoli Student Union

Location: 900 Auraria Parkway #325

Phone Number: 303-556-6330

Website: www.ahec.edu/tivoli

The Tivoli Student Union, managed by the Auraria Higher Education Center's Student Facilities Services department, provides a wide variety of amenities for the campus community. As the hub of the campus, the Tivoli Student Union houses the campus bookstore, called Tivoli Station, full-service restaurants and a food court, conference and meeting spaces, and facilities for recreational, social, and organized co-curricular student activities. The following services are located in the Tivoli Student Union:

- Tivoli Station (bookstore)
- Commuter Resource Center (ID Center)
- Sigi's Pool Hall
- Ricoh Copy Center
- Credit Union of Denver
- Public Service Credit Union
- i-lov-iT Market
- Free mobile charging stations (at Tivoli Station)
- Study lounges
- Restaurants, a coffee shop, and a food court

Club Hub

Location: 900 Auraria Parkway, Suite 346 **Phone Number:** 303-556-8094

Website: www.ahec.edu/club-hub

The Club Hub provides free workspace for over 60 student clubs, as well as group meeting spaces and lounge areas. We support clubs in pursuing their goals and objectives, and also provide the opportunity to interact with other organizations on campus. Clubs must receive official recognition from their institution for Club Hub privileges. Our services include computer workstations with Internet access and printers, fax machines, mailboxes, and office supplies.

ID CENTER (COMMUTER RESOURCE CENTER)

Location: 900 Auraria Parkway, Suite 269 **Phone Number:** 303-556-8385

Website: www.ahec.edu/id-center

The Commuter Resource Center (ID Center) provides information about programs and services available to the campus community related to commuting to campus, student IDs, the RTD CollegePass, off-campus housing, getting around campus, and much

more. Visit the ID Center to get your University of Colorado Denver student ID card and your RTD CollegePass smart card for unlimited rides on the RTD bus and light rail system.

SIGI'S POOL HALL

Location: 900 Auraria Parkway, Suite 145 **Phone Number:** 303-556-3645

Website: www.ahec.edu/sigis

Sigi's Pool Hall is a rec room for students to relax and meet with friends between classes. In addition to a lounge area with big screen TVs, lunch tables, and use of a microwave, we have pool, ping-pong, poker, and a variety of Xbox or Wii video games. Join us for monthly tournaments for the chance to win prizes! Sigi's is also home to the MSU Denver Food Bank.

Campus Safety

Auraria Police Department

Location: 1201 5th Street, Denver, CO 80217

Police Dispatch Number: 303-556-3271

Located in the Administration Building on the Auraria Campus

Campus Police Mission

The Auraria Campus Police Department is committed to enhancing the quality of life on the Auraria Campus by protecting life and property, and providing a wide range of services to prevent crime and resolve problems.

Services (*The Auraria Campus Police Department provides campus services 24 hours a day, 7 days a week.*)

- Crime prevention programs
- Informational services
- Police support to campus staff
- Night escorts to your vehicle
- Security patrols, bicycle patrols, foot patrols
- Vehicle unlocks
- Emergency response (Emergency Phone
Map: <http://www.ahec.edu/campusmaps/index.htm>)
- Timely Notification Bulletin for the Auraria Campus
- Immediate notice of crimes affecting the Auraria Campus.

The Auraria Handivan Service is offered Monday through Thursday 7:00 am-10:00 pm and on Friday's from 7:00 am-6:00 pm. Also, take advantage of Auraria's Nightrider escort service. It will take you to any building or parking lot on campus Monday through Thursday, Sundown to 10:00pm. The wait time is usually no longer than 10 minutes. To arrange for the Nightrider, contact the Auraria Parking Office at (303) 556-2001. If the Nightrider is not running, contact the Auraria Campus Police Department at (303) 556-5000 to arrange for an escort to your car.

The Emergency Notification System (ENS) tool provided by the University of Colorado Denver (CU Denver) for students, faculty and staff provides timely life-safety alerts. You

are able to receive these alerts via text, voice and email messaging. Your CU Denver email address has already been added to this system. If you would receive emergency alerts on your cell phone, make sure that you enter your cell phone number into the PROFILE section of your student or employee portal at <https://my.cu.edu/>. **Identify the phone type as a “Cellular” device and check it as the “Preferred” number.** If you have questions, please contact the CU Denver Emergency Manager, Essi Ellis, at Essi.Ellis@ucdenver.edu or by phone at 303-724-1031.

The Office of Commuter Services

Location: Tivoli Student Union, 227

Phone: 303-556-2444 **Email:** CommuterServices@ucdenver.edu

Off-Campus Housing Database Website: offcampushousing.ucdenver.edu

The Office of Commuter Services supports students with commuting resources and an off-campus housing database that can be accessed through the link listed above. Any on-campus housing questions should be directed to Campus Village at 303-573-5272 or Housing@ucdenver.edu.

Student Right To Know and Disclosure Information

Crime Statistics

In compliance with the federal Student Right-to-Know and Campus Security Act, the Auraria Campus publishes crime statistics on campus in the Auraria Campus Clery Report. In an emergency, please contact Auraria Campus Police at 303-556-5000 or dial 911 from a campus phone.

Persistence and Completion Data

Section 103 of Title 1 of Public Law 101-542 as amended by Public Law 102-26 (the Federal “Student Right-to-Know” Act) requires that institutions produce and make available to current and prospective students the completion rate of first-time, full-time, degree-seeking undergraduate students entering the institution. Six years after entering, 40 percent of the fall 2008 cohort graduated.

CU Denver’s one-year fall-to-fall retention rate is 75 percent for the fall 2012 cohort. That is, of the first-time, full-time, degree-seeking undergraduate students who entered the university in fall 2012, 75 percent were enrolled at the Denver Campus in fall 2013 at the end of the term.

Voluntary System of Accountability (VSA) data indicate that the 2008 Denver Campus first-time, full-time, degree-seeking freshman cohort has an overall 4-year success rate

of more than 80%, with 21% retained at another institution, 40% retained at CU Denver, nearly 15% graduated from CU Denver, and another 5.6% received degrees elsewhere.

Riot Law (Student Riot Bill)

Student enrollment-prohibition-public peace and order convictions: 1) No person who is convicted of a riot offense shall be enrolled in a state-supported institution of higher education for a period of 12 months following the date of conviction; 2) a student who is enrolled in a state-supported institution of higher education and who is convicted of a riot offense shall be immediately suspended from the institution upon the institution's notification of such conviction for a period of 12 months following the date of conviction, except that if a student has been suspended prior to the date of conviction by the state-supported institution of higher education for the same riot activity, the twelve month suspension shall run from the start of the suspension imposed by the institution; 3) nothing in this section shall be construed to prohibit a state-supported institution of higher education from implementing its own policies and procedures or disciplinary actions in addition to the suspension under (2) of this section, regarding students involved in riot.

Sex Offender Information (Campus Sex Crimes Prevention Act)

Sex offenders are required to list the locations of all institutions of post-secondary education where they volunteer or are enrolled or employed. The Colorado Bureau of Investigation maintains a database identifying all such persons and makes it available to all law enforcement agencies in which jurisdiction the institution of postsecondary education is located. The campus community can obtain this information by contacting the Auraria Police Department at 303-556-5000.

Voter Registration (National Voter Registration Act)

In compliance with the National Voter Registration Act, the state of Colorado voter registration application form and information is available online at www.sos.state.co.us/pubs/elections/ or www.fec.gov/votregis/vr.shtml.

STUDENT SERVICES INFORMATION

STUDENT SERVICES

Center for Undergraduate Exploration and Advising

Location: Student Commons Building, Suite 1113

Phone Number: 303-315-1940

Website: <http://ucdenver.edu/life/services/asac/Pages/default.aspx>

Email: cuea@ucdenver.edu

The Center for Undergraduate Exploration & Advising is a resource for students still exploring major and career pathways at CU Denver. We welcome students who are still deciding on a major, planning to change their major, and/or looking to supplement their current major with a minor or certificate program. In addition to being a general resource for exploratory students, the CUE&A Success Advisors serve as primary Academic Advisors for:

- College of Liberal Arts & Sciences (CLAS) Undeclared Students
- First-year Students (under 30 credits) in the College of Arts & Media (CAM)
- Pre-Architecture Students
- Undergraduate Non-degree and Concurrent Enrollment Students

We also invite prospective students needing a general overview of the many academic and major opportunities at CU Denver to meet with a CUE&A Success Advisor.

Campus Assessment, Response and Evaluation (CARE) Team

Location: Tivoli Student Union, Suite 227

Phone Number: 303-315-7306

Website: <http://www.ucdenver.edu/life/services/CARE/Pages/default.aspx> **Email:** shareaconcern@ucdenver.edu

Submit a concern

at: https://cm.maxient.com/reportingform.php?UnivofColoradoDenver&layout_id=1

The Campus Assessment, Response & Evaluation (CARE) Team is committed to improving campus safety and student success at both the CU Denver and CU Anschutz Medical Campus by proactively and collaboratively managing situations and individuals that pose, or may reasonably pose, a threat to the safety and well-being of the campus community. The team coordinates with students, faculty, and staff as well as concerned others, using objective and thoughtful approaches to identifying, assessing, and intervening with individuals of concern.

The Career Center

Location: Tivoli Student Union, LynxConnect, Suite 339

Phone Number: 303-315-4000

Website: <https://www1.ucdenver.edu/services/career-center>

Email: CareerCenter@cdenver.edu

The Career Center offers a full array of services that prepare students for their transition from college to career. Students are encouraged to participate in career-related events and services as early as their freshman year. This includes obtaining help in choosing a major, deciding on career options, and mapping out experiences necessary to be successful upon graduation. The Career Center also supports students

in refining job search skills like resume & cover letter writing, interview preparation, and targeting employers through our internship and job board called Handshake.

The Career Center's mission is to provide personal and meaningful interactions with students, alumni and employers in order to prepare them for the world of work.

CLAS Academic Advising Office

Location: North Classroom, Room 1030

Phone Number: 303-315-7100

Website: <https://clas.ucdenver.edu/advising/>

Email: CLAS_advising@ucdenver.edu

Hours of Operation: 8:00 a.m.-5:00 p.m.-Mon., Thu. & Fri., 8:00 a.m -7:00 p.m. Tues. & Wed.

CLAS Academic Advising Mission

We create and sustain an inclusive and supportive learning environment where students are engaged to author meaningful academic and professional plans through collaborative advising relationships that foster student success and degree completion.

CLAS Advising System

Academic advising in the College of Liberal Arts and Sciences (CLAS) is a partnership between students, faculty, and staff. CLAS utilizes a shared advising system, which means all undergraduate students in a CLAS major will have at least two advisors with whom they should work throughout their time at CU Denver: a CLAS Academic Advisor and a CLAS Faculty Advisor.

CLAS Academic Advisors:

- Help students learn to navigate CU Denver systems
- Explain and help students track their progress with CU Denver Core Curriculum, CLAS, and general graduation requirements
- Explain university and college policies
- Help students make informed decisions about course registration and academic plans
- Evaluate the application of transfer credits toward general education requirements
- Connect students to the campus and campus resources
- Determine students' graduation eligibility and facilitate the graduation process
- Support student through degree completion and empower them to achieve their academic goals.

Students can identify their assigned CLAS Advisor in the "Advisor" box in their Student Center on UCD Access.

CLAS Faculty Advisors:

- Explain major/minor requirements
- Evaluate transfer credits and their applicability to major/minor requirements

- Help students track their major/minor requirements
- Determine students' graduation eligibility
- Discuss career and graduate school opportunities

An updated list of faculty advisors is available in the CLAS Advising Office and on the CLAS Advising website under the About Us page and Faculty Advisors link.

CLAS Students:

- Meet regularly with assigned CLAS academic and faculty advisor(s)
- Learn CU Denver, CLAS, major/minor, and general graduation requirements
- Use available resources (degree audit, transfer credit reports, transcript, CLAS handouts, etc.) to track academic progress and maintain individual records of progress
- Set academic goals with the assistance of advisors
- Know university and college academic policies and deadlines
- Choose and enroll in courses
- Understand the importance of and practice professionalism and ethical behavior
- Use campus resources and ask for help

CLAS Advising Partners

In addition to working with CLAS Academic and Faculty advisors, students with health careers interests will work with a Health Professions Advisor to design a plan to continue on to a professional program for the health career of their choice. Health Professions Advising is located in North Classroom Room 3103, 303-315-1940. Web site: <https://clas.ucdenver.edu/health-professions-programs/advising>

Students who are still deciding their college major (Liberal Arts- Undeclared), along with pre-architecture are served through the Center for Undergraduate Exploration and Advising (CUE&A) located within the Student Commons Building (SCB) Room 1113, 303-315-1940. E-mail: CUEA@ucdenver.edu. Website: www.ucdenver.edu/cuea

Club Sports

Location: Lola & Rob Salazar Student Wellness Center

Phone Number: 303-315-9355

Web: <http://www.ucdenver.edu/clubsports>

Email: lynxwellness@ucdenver.edu

Club Sports is a program designed to provide students with the opportunity to engage in team sports in a friendly and competitive environment. The purpose of the program is to unite individuals with a shared interest in sports, develop lasting friendships, and build community among students across campus, all while increasing their overall well-being through physical activity. Any student who is enrolled in at least 1 credit hour and is paying the Club Sports fee may participate in Club Sports. Students can pick from a variety of sports to participate in and have the chance to serve in a leadership position

during their time. All Club Sports serve under the Wellness and Recreation Services department and indoor practice spaces are housed in the Lola and Rob Salazar Student Wellness Center. Club Sports policies and guidelines can be found in the Club Sports Manual.

College of Arts & Media Advising and Student Services

Location: Arts Building, Suite 177

Phone Number: 303-315-7400

Website: <https://artsandmedia.ucdenver.edu/>

Email: CAMadvising@ucdenver.edu

Hours of Operation: M-F 8:00 a.m.-5:00 p.m

Advising and Student Services at the College of Arts & Media (CAM) provides current and prospective CAM students with academic information about the college and university. CAM advisors assist students with tracking their academic progress, discussing remaining requirements and course sequencing and by offering appropriate referrals to faculty and other university services (e.g., career resources). Advisors also coordinate academic email notifications to students (e.g., add/drop deadlines and applying to graduate), as well as maintaining advising-related materials. While students are encouraged to make use of the service of academic advising throughout their college career, they are ultimately responsible for their own academic progress.

Academic advising may be mandated or suggested prior to registration depending on the student's status. Students can view registration holds in the Student Center of their UCDAccess account.

First-Year and Transfer Students

First-year students with fewer than 30 credit hours are required to attend New Student Orientation and meet with an advisor before registering for their first semester, and then later are required to meet with an advisor in the Center for Undergraduate Exploration and Advising (CUE&A) before registering for their second semester. Transfer students with 30 or more credit hours are required to meet with a CAM academic advisor and may also be required to complete an orientation prior to registering for their first semester of courses.

Continuing Students

Students with declared majors who have completed at least 30 semester hours are assigned to CAM Advising and Student Services. Students are encouraged to meet with an advisor at least once per year and to bring a sample schedule to each advising appointment.

Students approaching their junior and senior years are encouraged to meet with a faculty mentor in their area of study or academic advisor to discuss internships,

career/employment opportunities, graduate school, professional organizations and other post-graduation information. Additional resources exist in CAM and across campus to support career exploration. Students may contact CAM Advising and Student Services for details.

Community Engagement

Location: Tivoli Student Union Suite 303

Phone Number: 303-315-7288

Website: <http://www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx>

Email: Volunteer@ucdenver.edu

In college, getting involved with your community can lead to future job opportunities, discovering your passion, and making friendships that last a lifetime! Through the Office of Student Life, we offer a variety programs to help students get connected to the community. The Alternative Break program allows students to travel to various cities (and countries) to volunteer over spring, winter and summer breaks. Lynx to College Now! employs CU Denver students to work as mentors at Oakland Elementary School. Stop and Serve tables let students make a difference without even leaving campus, and Day of Service events are a great way to make friends while serving local nonprofits. Follow Community Engagement on OrgSync to hear about upcoming events, and be sure to stop by the Office of Student Life (Tivoli 303) to learn more about volunteerism and service.

Office of Student Conduct and Community Standards

Location: Tivoli Student Union 309

Phone Number: 303-315-7311

Website: <http://www.ucdenver.edu/life/services/standards/Pages/default.aspx>

Email: Please refer to website for more information

We serve the university community by meeting the developmental and educational needs of students related to community expectations, civility and respect for self and others. We support community members with conflict management and resolution, and respond to inappropriate and threatening behaviors. We provide student-centered educational services, which promote personal development and individual responsibility. We strive to create a dynamic, open and just environment where civility, cultural competence and learning are expected and celebrated.

CU Denver Live!

Location: Various Locations: refer to website for more information

Phone Number: 303-315-5483

Website: <https://cudenverlive.com/>

Email: live@ucdenver.edu

CU Denver Live! is a student run arts programming committee that works as a sub-committee under The Events & Partnerships. *CU Denver Live!* strives to program arts events that spark the interests of numerous types of students while maintaining a multicultural and educational mindset. Additionally the team hopes to create a fun and inclusive atmosphere that promotes school pride and a sense of community at CU Denver.

Disability Resources and Services Office

Location: Student Commons Building, Room 2116

Phone Number: 303-315-3510

Website: <http://www.ucdenver.edu/disabilityresources>

Email: disabilityresources@ucdenver.edu

The Office of Disability Resources and Services (DRS) is committed to providing equal opportunities and fostering the personal growth and development of students with disabilities. The DRS staff strives to meet the needs of a large and diverse community of students with disabilities. We are available to provide assistance and to arrange for reasonable accommodations that will address specific educational needs. Accommodations may include, but are not limited to, the following:

- Priority registration for classes
- Assistance in identifying volunteer note takers
- Alternative testing for assessment tests and classroom examinations
- Oral/sign language interpreters
- Real-time captioning
- Textbooks in alternate formats (audio taped, Braille, enlarged, scanned)

Center for Identity & Inclusion

Location: Student Commons Building, Room 2007

Phone Number: 303-315-1880

Website: <http://www.ucdenver.edu/about/departments/odi/CII/Pages/default.aspx>

Email Address: cii@ucdenver.edu

Office Hours: 8:00 am - 5:00 pm

The Center for Identity & Inclusion (CII) provides services: a) to support underrepresented students and b) to promote a diverse and inclusive campus for all students, faculty, and staff.

American Indian Student Services

ESL Academy

Location: 1100 Lawrence St #014

Phone: 303-315-2383

Website: <http://esl.ucdenver.edu>

Email: esl@ucdenver.edu

The University of Colorado Denver's English as a Second Language (ESL) Academy offers a rich diversity of academic, social, and cultural learning opportunities. The Academy offers high-quality, year-round ESL instruction specifically designed for university preparation. The curriculum helps students improve their language skills through a rigorous program of study, campus involvement, and cultural and educational activities.

Our program offers the following distinctive advantages when compared against other programs:

The curriculum is designed especially for university-bound students. In addition to mastering academic English, students will learn how to succeed academically at the University of Colorado Denver.

Students in the ESL Academy will be considered University of Colorado Denver students. They will be on the university campus from day one of our program and will be eligible to live in university housing, though there will be limited availability for students who join our program mid-term.

Students will have access to all of the activities and resources that the university has to offer, not to mention the spectacular outdoors and urban life in Denver and Colorado.

Students may be allowed to take one or two regular academic courses that count towards fulfillment of CU Denver degree requirements once they achieve a measure of English proficiency.

When a student completes the ESL Academy successfully, s/he will automatically fulfill

the University of Colorado Denver's English language proficiency requirement and will be eligible for full admission.

Students will be issued a Form I-20 from the University of Colorado Denver for a seamless immigration experience and will not have to transfer their immigration status to begin their degree program upon complete completion of the ESL Academy.

Students will benefit from a seamless transition to university degree programs after they successfully complete the ESL Academy, thus maximizing the prospects of their success.

For full details, visit the ESL Academy online at esl.ucdenver.edu. Here, students can get information about:

- The online application
- Program information
- Tuition and Fees
- International Student Services

If you have additional questions you may send an email to esl@ucdenver.edu or call 303-315-2383. Located at 1100 Lawrence Street #014 Denver, CO 80204

Experiential Learning Center

Location: Tivoli Student Union, LynxConnect #439

Phone Number: 303-315-7258

Website: <http://www.ucdenver.edu/life/services/ExperientialLearning/Pages/default.aspx>

Email: Experiential.LearningCenter@ucdenver.edu

Experiential learning includes a variety of activities with one common goal-to immerse you in hands-on learning outside the classroom where your experience is at the heart of the learning process. The Experiential Learning Center (ELC) serves students, faculty, and employers as a resource for experiential learning opportunities. We offer information, resources and support in the development and coordination of academic and non-academic internship experiences, professional skill development opportunities, and undergraduate research experiences.

LGBTQ Student Resource Center at Auraria

Location: Tivoli Student Union 213

Phone Number: 303-615-0515

Website: <http://www.ucdenver.edu/life/services/glbts/services/Pages/default.aspx>

Email: info@glbts.org

The LGBTQ Student Resource Center is a tri-institutional office on the Auraria Campus serving the students, faculty and staff of Metropolitan State University of Denver, Community College of Denver and University of Colorado at Denver. We are available to all Auraria students as a resource for exploring issues of sexual orientation and gender identity.

The LGBTQ Student Resource Center is located in the Tivoli Student Union, Room 213, and is staffed by a director and assistant director, with the support of student employees and volunteers. Input and involvement from the entire campus community are welcomed. Our center offers a variety of support, education, and advocacy services for the entire campus community including:

- Support for those who may have questions about their own sexual orientation, gender identity, gender expression, or that of a friend or family member
- Advocacy for students experiencing discrimination or harassment based on a real or perceived LGBTQ identity
- Speakers for events, workshops, and classes on various aspects of sexual orientation/gender identification
- Programs and workshops about working more effectively with the gay, lesbian, bisexual, and transgender communities and combating misinformation, misconceptions, and homophobia
- Resource library with over 1700 books and videos (documentary and cinema) available for research and leisure as well as a multitude of free literature regarding other organizations and services throughout Denver and Colorado that provide outreach, services, and advocacy.

The Office of Global Education/ Study Abroad

Location: Tivoli Student Union, LynxConnect Suite 439

Phone Number: 303-315-2001

Website: www.ucdenver.edu/studyabroad

Email: study.abroad@ucdenver.edu

The Office of Global Education / Study Abroad provides academically and professionally relevant international experiences to a diverse student population at the University of Colorado Denver | Anschutz Medical Campus. These experiences equip students with cross-cultural skills necessary to succeed in an interconnected global society. The Office of Global Education is committed to providing students with a wide range of engaging and affordable study, internship, research, and clinical opportunities.

International program offerings vary to meet the needs and interests of all students. These programs are open to undergraduate, graduate, and international students; it is not necessary to be a particular major to participate. Program lengths range from two weeks to an academic year or more. The vast majority of programs do not require language proficiency beyond the English language.

The Office of Global Education strives to keep study abroad programs affordable. In most cases, students are able to utilize financial aid and are eligible for an array of internal and external scholarships. For the most current information on programs,

policies, and funding, please visit the Office of Global Education website at ucdenver.edu/studyabroad or visit LynxConnect in the Tivoli.

International Affairs

Location: Lawrence Street Center, Suite 932

Phone Number: 303-315-2230

Website: www.ucdenver.edu/international

Email: Please refer to website for more information

The Office of International Affairs (OIA) serves the university by providing administrative support, strategic advice, technical services, collaborative educational programs with the university's 13 schools and colleges, and related services that contribute to the strategic international goals of the university. OIA provides visa and orientation services to international students and scholars; offers expertise in the development and maintenance of undergraduate, graduate and professional global education; assists with brokering and designing bilateral international educational programs; and offers comprehensive international recruitment and admissions services. OIA addresses international policy issues, has oversight of international risk management protocols, serves as a resource for best practices in the internationalization of higher education, maintains central data bases pertaining to international activities of the university, advises on the development of international affiliations and agreements, assists departments/programs and schools/colleges with the development of comprehensive international strategic planning, and seeks to promote and support initiatives that advance international research, education, and global cooperation in order to enhance the reputation of the University of Colorado Denver | Anschutz Medical Campus.

OIA also serves as a resource for faculty seeking international research opportunities, provides a comprehensive list of international scholarship/fellowship information, and serves as the institutional liaison for the CIES Fulbright Scholars Program.

The divisions of OIA include:

- ESL (English as a Second Language) Academy (www.ESL.ucdenver.edu)
- International Operations
(<http://www.ucdenver.edu/academics/InternationalPrograms/oia/operations>)
(www.international.ucdenver.edu)
- Global Education: Study Abroad (www.ucdenver.edu/studyabroad)
- International Admissions (www.internationaladmissions.ucdenver.edu)
- International Student and Scholar Services (www.international.ucdenver.edu/ISSS)

International Colleges and Partnerships

International College

Beijing- <http://www.ucdenver.edu/academics/internationalprograms/oia/icb/Pages/default.aspx>

International College Beijing (ICB) is a joint education program between the University of Colorado Denver (CU Denver) and China Agricultural University (CAU), located in

Beijing, People's Republic of China. The partnership, formed in 1994, was one of the first of its kind approved by the Chinese Ministry of Education.

At ICB students can choose to earn a CU Denver Bachelor of Arts degree in either economics or communication on site in Beijing. Students can also choose to study in Denver to complete their undergraduate programs after a year or two of study at ICB. As courses are taught in English by CU Denver faculty, U.S. students can learn or perfect their Chinese while pursuing rigorous courses alongside ICB Chinese students, fostering a truly global classroom experience.

ICB is located on the east campus of China Agricultural University in the Haidian district north of downtown Beijing. The campus is a 30-minute ride from downtown Beijing, Beijing International Airport and major cultural centers such as Tiananmen Square, the Forbidden City and the Summer Palace.

Joanne Wambeke, International Student Cohort and International Operations Manager, joanne.wambeke@ucdenver.edu, 303-315-2121.

International Student and Scholar Services

Location: Lawrence Street Center, Suite 932

Phone Number: 303-315-2230

Website: international.ucdenver.edu/ISSS

Email: iss@ucdenver.edu

The International Student & Scholar Services (ISSS) unit in the Office of International Affairs serves approximately 1,400 international students and 500 international scholars from all over the world each year. ISSS is responsible for ensuring university-wide compliance with a wide range of federal regulations relating to the enrollment and/or employment of international students and scholars. ISSS creates immigration documents, coordinates Check-In and Fundamentals sessions for new international students, helps students maintain their immigration status once they are here, offers a variety of programs and activities, and advises students on everything from adjusting to a new culture to applying for work authorization. ISSS also works closely with other members of the University of Colorado Denver community to ensure the success of our international students. For additional information about ISSS staff members and the services we provide, please visit our website at international.ucdenver.edu/ISSS

Learning Resources Center

Location: Student Commons Building, Suite 2105

Phone: 303-315-3531

Website: www.ucdenver.edu/lrc

Email: tutorialservices@ucdenver.edu

Spring/Fall Office Hours: M-F 8am-5pm

Summer Office Hours: M-R 8am-6pm, F 8am-5pm

Break Office Hours: M-F 8am-5pm

The CU Denver Learning Resources Center is designed to promote student success, retention, and graduation in a supportive, vibrant and inclusive academic setting. Our services are available to currently enrolled CU Denver undergraduate and graduate students and include free services such as CRLA certified tutoring, Supplemental Instruction (SI), Academic Development Workshops, Student Success Seminars, academic coaching, Conversation Groups, and English for Speakers of Other Languages (ESOL) support.

Lynx Center and New Student Orientation

Location: Student Commons Building, Suite 1107

Phone: 303-315-5969 (303-315-LYNX)

Website: <http://www.ucdenver.edu/lynxcenter>

Email: lynxcenter@ucdenver.edu

Office Hours: Monday-Friday, 8am-5pm

The Lynx Center provides all prospective and current CU Denver students with quick and easy access to resources, referrals and solutions. New Student Orientation supports newly admitted students and their families during their transition to CU Denver by offering orientation and welcome events at the beginning of each semester and during the summer months. For more information, check us out at www.ucdenver.edu/lynxcenter.

Office of Case Management

Location: Tivoli Student Union 309

Phone: 303-315-7306

Website: <http://www.ucdenver.edu/life/services/care/case/Pages/default.aspx>

Email: csm@ucdenver.edu

The Office of Case Management is here to support CU Denver | Anschutz students who may be experiencing difficult times related to mental health, safety concerns, interpersonal conflict, adjusting to college, family emergencies, feelings of isolation and anything else which may impact a student's ability to be successful at CU Denver | Anschutz. Our goal is to make sure that every student receives the support they need to thrive within the CU Denver | Anschutz community. Case Managers collaborate and consult with students, parents, faculty, staff, and other campus resources to best address the diverse needs of each student. Our office helps students navigate university systems, offices, and can assist with professor notifications, medical withdrawals, retroactive withdrawal processes, etc.

Office of Information Technology

Location: Lawrence Street Center, 1350

Phone: 303-724-4357 (4-HELP)

Website: <https://www1.ucdenver.edu/offices/office-of-information-technology>

Email: UCD-ITS-HelpDesk@ucdenver.edu

The Office of Information Technology (OIT) works in partnership with academic and business units to provide technical support to meet the needs of faculty & staff at the Denver/Anschutz Medical Campus. OIT serves as the primary source of enterprise-wide technology and telecommunications services in support of all faculty and staff.

Services range from providing help desk and desktop services to enterprise-wide services in web development, networking, email, security, systems development, and telephony to protecting the integrity of the University's data and administrative systems. Users are encouraged to contact the Help Desk for assistance with any of these services.

OIT also provides student computing services to currently enrolled students within the computer labs located in the North Classroom 1206, The Student Commons Building 2nd floor, and the Tivoli 241. The computer labs have Macintosh and Windows-based computers with Internet access available for student use on a first-come first-served basis. For more information, call the OIT Help Desk at 303-724-4357 (4-HELP) or UCD-ITS-HelpDesk@ucdenver.edu

Ombuds Office

Location: Lawrence Street Center Building, Room
1003

Phone: 303-315-0046

Website: www.ucdenver.edu/ombuds

Contact: Teresa
Ralicki; **Email:** Terese.ralicki@ucdenver.edu

The Ombuds Office is a free service that assists students in resolving UCD conflicts, complaints, and disputes. The cornerstones of our office are: confidentiality, impartiality, informality, and independence. Students typically use our office when facing issues that seem unfair to them or when they just don't know what to do next.

A sampling of concerns are:

- The actions of faculty, staff, or other students
- Denials of petitions
- Harassment of any kind
- Administrative decisions
- Grading disputes
- Clarification of policies or procedures

We can assist you in identifying and evaluating your options for dealing with issues so you can have the best chance of reaching a satisfactory outcome. Our Ombuds can also mediate disputes involving student clubs and organizations and provide conflict management training. We will happily accommodate your schedule for a meeting time that works best for you.

Peer Advocate Leader (PAL) Program

Location: Tivoli Student Union 127

Phone Number: 303-315-5492

Website: www.ucdenver.edu/PAL

Email: PAL@ucdenver.edu

PAL stands for Peer Advocate Leaders. We serve as peer mentors to help students navigate a successful college career. PALs are trained to work with students to connect them with CU Denver, the Auraria Campus, and the Denver Community. The mentoring relationship in the PAL is designed to foster student engagement and academic success by providing peer-level support that promotes student achievement, growth, and learning through the student's career at CU Denver. PALs are paired in First-Year Experience courses to plan and facilitate educational and social activities. PALs also assist students in one-on-one environments.

If you would like to apply to become a Peer Advocate Leader, please visit MyLynx to complete the application: <https://ucdenver.presence.io/form/new-peer-advocate-leader-pal-application-2020>

Center for Pre-Collegiate and Academic Outreach Programs

Location: North Classroom 4032

Phone Number: 303-315-7070

Website: <http://www.ucdenver.edu/academics/degrees/pre-collegiate/Pages/default.aspx>

Email: pcdp@ucdenver.edu

The Center currently houses unique and distinct programs. These programs are identified as having: early outreach, ongoing pro-active guidance, educational access, retention, and finally graduation from higher education. "The mission of the Center for Pre-Collegiate and Academic Outreach Programs at the University of Colorado Denver is to administer pre-college and pipeline programs. These programs are designed to motivate, educate, and prepare students to be successful in secondary and post-secondary education with the ultimate goal of obtaining a higher educational degree.

Student Activities and Events

Location: Tivoli Student Union 303

Phone Number: 303-315-7822

Website: <http://www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx> **Email:** studentlife@ucdenver.edu

Student Activities within the Office of Student Life offers a comprehensive student engagement program that helps bring about a positive college experience for every student. Our goal is to integrate what students learn from the full range of their experiences and to engage them in active learning both inside and outside the classroom. We collaborate with faculty and staff across CU Denver to provide a wide variety of programs aimed to build tradition within the CU Denver community. We are committed to bringing new and exciting activities, events and workshops that provide innovative opportunities for student learning, especially in the areas of self-knowledge, leadership, relationship-building, diversity, communication, service, civic engagement and social responsibility. Through participation in co-curricular activities, we help students enhance interpersonal, leadership and critical thinking skills and help prepare them for active citizenship beyond college.

Student and Community Counseling Center

Location: Tivoli Student Union 454

Phone Number: 303-615-9911

Website: www.ucdenver.edu/counselingcenter

Email: Please refer to website for more information

The Student and Community Counseling Center provides counseling sessions, groups and life skills workshops at no charge to students attending the Downtown Campus. Our services emphasize client strengths, recognizing diversity and promoting wellness to optimize academic success. We serve individuals, couples, families, and groups for mental health concerns including, but not limited to:

Anxiety, Crisis Intervention, Depression, Life skills, Relationships, Social justice issues, Stress management, Substance abuse, Biofeedback, and Trauma Therapy.

If appropriate, we refer students to additional on-campus and/or community resources through our WRAP (Wellness Resources Action Plan) program. By request, staff provide consultation, lectures and workshops to student, faculty, and staff groups on mental health topics, diversity, center services, and organizational and student development.

Student Government Association

Location: Tivoli Student Union 301

Phone Number: 303-315-7286

Website: <http://www.ucdenver.edu/sga>

Email: sga@ucdenver.edu

The Student Government Association serves as a voice for students. Similar to the structure of the U.S. Government, SGA has executive, legislative and judicial branches. Executives, Senators, College Council Members, and SACAB

representatives are elected each year in the spring semester. SGA assists students with information concerning student clubs and organizations, campus events, issues concerning student status and other information of general interest to students. SGA also provides student assistance with grievances and the opportunity to become more closely involved with the university community through active participation in student government itself or through service on university, tri-institutional and Auraria committees.

Student Health Insurance Office

Location: Plaza Building, Suite 150

Phone Number: 303-615-9999

Website: <https://www.msudenver.edu/healthcenter/>

Email: Please refer to website for more information

Hours: Monday- Thursday: 8:00am- 5:00pm, Friday 8:00am- 3:00pm

The Student Health Insurance Office strongly encourages all students to have adequate health insurance coverage. The university health plan is designed to coordinate services with the Health Center at Auraria to provide quality health care at the lowest possible cost. **For domestic students, the university health plan is voluntary.** International students with F-1 and J-1 student visas are required to carry the health insurance plan provided by the university. For more information for international students, please visit: <https://www.msudenver.edu/healthcenter/cudenverstudentinsurance/>

The Office of Student Life

Location: Tivoli Student Union 303

Phone Number: 303-315-7288

Website: www.ucdenver.edu/studentlife

Email: studentlife@ucdenver.edu

The Office of Student Life integrates the academic, residential, and co-curricular spheres of student's lives, linking the out-of-class experience to the academic mission of the University while enhancing the overall educational experience of students through the development of, exposure to and participation in social, cultural, intellectual, recreational, leadership and governance programs. Student Life and Campus Community is the advising, coordinating, resource and general information center for student organizations, the academic honor societies student government and the student newspaper. We collaborate with students, faculty, administrators, and other partners both inside and outside of the CU Denver community to create safe environments for students. In addition, we create opportunities for students to learn through active participation and reflection where they can develop as responsible leaders and engage with their peers and cultivate appreciation for diversity and the betterment of our global society. Student Life and Campus Community is comprised of Student Organizations and Student Leadership Programs, Volunteer and Community Engagement, and Parent and Family Program.

Student Newspaper: CU Denver Sentry

Location: Tivoli Student Union, 345

Phone Number: 303-556-2535

Website: www.cu-sentry.com

Email: Please refer to website for more information

The purpose of the *CU Denver Sentry* is to provide students with information about campus issues and events. The newspaper strives to include good investigative reporting, feature articles and items of general interest to its campus readership. In addition, the newspaper is a tool to encourage and develop writers, journalists, artists and other student members of its general management and production staff.

Student Organizations and Student Leadership Programs

Location: Tivoli Student Union 303

Phone Number: 303-315-7288

Websites: www.ucdenver.edu/studentorganizations www.ucdenver.edu/leadership **Email:** Please refer to websites for more information

Get involved with a student organization, student government or the campus newspaper. CU Denver has over 200 student organizations, honor societies, professional organizations and faith-based groups. We help students register with student organizations, and provide services, information, education, support, and advising to assist with the development and strengthening of students and student groups. In addition, we provide multiple opportunities for students to engage in practicing and developing their leadership skills. Leadership programs include diverse leadership conferences including CO-Leads, a state wide multi-cultural leadership conference; and the Lynx Leadership Conference, a program designed to increase the leadership skills of CU Denver Students. We also provide leadership trainings that enhance the co-curricular experience on campus through programs such as Leadership On demand, a program designed for students involved in student organizations on campus; and Student Government Association, providing a voice for students on campus. We encourage students to take advantage of shared governance and increase the sense of community on campus through all of the leadership programs.

Office of Equity (Title IX: Sex Discrimination, Sexual Harassment and Sexual Misconduct)

Location: Lawrence Street Center 12th Floor

Phone Number: 303-315-2567

Website: <http://equity.ucdenver.edu/>

Email: equity@ucdenver.edu

The Office of Equity exists to prevent, stop, and remedy sexual misconduct, discrimination, harassment, and related retaliation in our campus community. **We are working to make our campus a community in which Respect is Expected.**

The Sexual Misconduct Policy prohibits

- sexual assault: non-consensual sexual intercourse;
- sexual assault: non-consensual sexual contact;
- sexual exploitation (such as taking or sharing intimate photos without consent);
- dating or domestic violence;
- gender-based stalking;
- sexual harassment;
- and any retaliation taken against those involved in the reporting process.

The Nondiscrimination Policy prohibits discrimination or harassment on the basis of race, color, national origin, pregnancy, sex, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation, or political philosophy.

To report an incident of sexual misconduct, discrimination, harassment, or retaliation or to request a training, please contact the Office of Equity at:

- **Phone number:** 303-315-2567
- **Email address:** equity@ucdenver.edu
- **Office address:** Lawrence Street Center, 12th floor, Denver, CO 80204
- **Mailing address:** Campus Box 134, P.O. Box 173364, Denver, CO 80217-3364.
- **Or visit our website for an online report and more information about our policies, procedures, trainings, and other resources:** www.equity.ucdenver.edu

Veteran & Military Student Services

Location: Tivoli Student Union 124

Phone Number: 303-315-7300

Website: <http://www.ucdenver.edu/life/services/Veteran/Pages/vmsshome.aspx>

Email: vmss@ucdenver.edu

Veteran & Military Student Services (VMSS) is the initial contact point for student active service members, veterans and their families attending CU Denver. The main priority of the office is to verify U.S. Department of Veterans Affairs education benefit certification for eligible students, ensuring that each student meets the Veterans Administration requirements for attendance, course load, content, as well as all other regulations necessary to receive educational benefit payments. This office assists students with filling out Veteran Affairs paperwork and in solving problems associated with the receipt of Veteran Affairs related educational benefits. The VMSS provides student peer to peer mentoring, transition assistance into higher education, scholarships, mental health services that are specific to the military and transition issues, and career preparation

through the Boots to Suits Program. The office also serves as a liaison for numerous campus and community resources.

Women and Gender Center

Location: Tivoli Student Union 310

Phone Number: 303-315-7262

Website: www.ucdenver.edu/wrc

Email: WGC@ucdenver.edu

The Women & Gender Center (WGC) at CU Denver is committed to advancing issues of gender equity and supporting the gender-focused needs of students, faculty, and staff on the Auraria campus. The mission of the Women and Gender Center is to address gender inequities and foster a campus community that values inclusion, social justice, equity, and respect for everyone regardless of background and experience. We are committed to enacting intersectional feminism in our programming by exploring gender as it overlaps and interacts with the multiple identities that people inhabit across their lifespans. We serve all members of the CU Denver community, regardless of gender identity.

Writing Center

Location: North Classroom 4014

Phone Number: 303-315-7355

Website: <http://writingcenter.ucdenver.edu>

Email: writing.center@ucdenver.edu

The Writing Center at CU Denver is a free resource available to all university students who wish to improve as writers. Services include in-person and online one-on-one appointments; an asynchronous Graduate Drop Box for graduate students; an asynchronous After Hours Drop Box for all students; workshops on a variety of topics (for example: citation, literature reviews, C.V.s, and more); and downloadable handouts, podcasts, and videos. Professional Writing Consultants will work on any type of writing and any aspect of the writing process, including (but not limited to) idea-generation, organization, thesis development, source usage, and grammar. Students bring in documents ranging from resumes, personal statements, and research essays to theses, rhetorical analyses, and grant applications. All writing is welcome. Interested students can schedule appointments (required) online and get more information (hours, directions, etc.) about each of our 9 locations/services for students right from the homepage (writingcenter.ucdenver.edu):

- CU Denver: NORTH 4014
- CU Anschutz: HSL 1204
- CU South Denver: Student Commons, 2nd floor, Liniger Building
- Auraria Library: Knowledge Market, 1st floor
- Business School: Cordillera Conference Room, 1st floor
- Campus Village at Auraria (residents only): Cyber Café, 1st floor
- Online (real-time) consultations

- An asynchronous Graduate Drop Box for graduate students
- An asynchronous After Hours Drop Box for all students

ACADEMIC POLICIES AND PROCEDURES

ACADEMIC STANDING

Good Academic Standing

Degree Seeking Students

Students at the University are expected to maintain progress in their degree program, as defined by being in “good academic standing.” Good academic standing requires a minimum cumulative grade point average (GPA) of 2.000 on all University of Colorado course work.

Non-degree Seeking Students

Continuation as a non-degree student is contingent upon maintaining a cumulative GPA of 2.000 upon completion of 12 or more semester hours.

Failure to maintain the required average will result in a non-degree student being suspended. The suspension is for an indefinite period of time and becomes part of the student’s permanent record at the university. While under suspension, enrollment at the university is prohibited. For more information contact the dean’s office of the school /college you are enrolled in.

Non-degree students are not placed on academic probation prior to being suspended.

Early Alert

- Student’s faculty member notifies academic advisor of academic difficulties via Early Alert system.
- Academic advisor notifies student via university email of Early Alert, encourages student to make an appointment.
- Advisor may place advising service indicator on student’s registration. Service indicators are “flags” placed on a student’s record that prevent the student from registering until they deal with the reason for being flagged.
- Requires that student contact the advisor (usually via face-to-face appointment) to discuss the Alert, possible ramifications (such as academic probation), and resources available.

- Advisor will release service indicator for registration upon satisfactory contact with student.
- No restrictions on enrollment or class load at this time

Academic Probation

- Student's cumulative CU GPA (grade point average) falls below 2.000.
- Student is notified of their Academic Probation standing via university e-mail.
- An Academic Standing hold is placed on a student's account every semester until their cumulative GPA is raised to 2.000 or higher.
- Academic probation entails:
 - Completion of the Academic Support Module (ASM). The ASM is an online module designed to support to support students' academic progress. Students will receive a link to access the ASM in their Academic Probation notification e-mail.
 - By completing the module, students learn about various support services available through CU Denver and the Auraria Campus such as Financial Aid, the Learning Resources Center, the Office of International Affairs, and many others. They also learn about the requirements and strategies for getting back in Good Academic Standing.
 - Students are strongly encouraged to meet with their academic advisor.
 - Student must complete the ASM to register for the next semester.
 - Student must earn a semester GPA of 2.300 each and every semester, including summer session, regardless of the number of credit hours attempted, until their cumulative GPA is raised to 2.000 or better.
- Students have five attendance semesters or 30 hours to improve their cumulative CU GPA to 2.000.
- Once a student's cumulative GPA reaches 2.000 or better, the student is considered to be in good academic standing. Any registration or advising holds will be removed. If a student fails to achieve a term GPA of 2.300 or better while on academic probation in any given semester, the student will be placed on "restricted probation" and notified via university e-mail.

Restricted Academic Probation

- An appointment with the student's academic advisor is required.
- Together, the student and advisor will determine the best courses to take.
- Students on Restricted Academic Probation cannot register for more than two courses per semester, or in more than seven credit hours per semester.
- Students on Restricted Academic Probation must achieve a 2.300 semester GPA

- Students remain on Restricted Academic Probation until they achieve good standing or are suspended.

International Student Status has additional restrictions. International students must also contact the Office of International Affairs.

Academic Suspension

- Students who fail to earn a 2.300 semester GPA while on Restricted Academic Probation will be placed on Academic Suspension.
- Students are notified via university e-mail when they are placed on Academic Suspension.
- Suspension entails:
 - Students are unable to attend the University of Colorado Denver, or any University of Colorado campus, for one year/three semesters (including summer session).
 - To prepare for readmission, students can either attend another institution and demonstrate improved academic performance (minimum GPA at another institution must be 2.750) OR use the time off to address issues directly contributing to their academic difficulties.
- Students may petition the individual college's appellate committee (or Undergraduate Experiences appellate committee) for readmission after the required one year/three semester suspension period. It is recommended that students apply early to allow time for adequate review.
- For readmission, students must meet and document at least one of the following criteria:
 - Attendance at another regionally accredited college/university wherein they completed a minimum of 12 transferable credit hours that are applicable to their degree, with a cumulative GPA of at least 2.750.
 - Provide an explanation of their previous academic difficulties and of what has changed, and how this will allow them to now achieve and maintain good academic standing (including a semester GPA of at least 2.300 and a cumulative GPA of at least 2.000).
- If a student is granted readmission, they will be readmitted on Restricted Academic Probation and must meet the conditions of Restricted Academic Probation as described above.

Subsequent Suspension

- Students on suspension a second time may be readmitted to the university only by petition to the college's appellate committee.
- Students will only be considered for readmission if they have demonstrated significant improvement in academic performance at the college/university level.

COURSE INFORMATION

Attendance Policy

Successful performance in college courses is dependent upon regular student attendance and participation. It is the University's expectation that students will participate in every class, independent of whether attendance is formally part of the course grade. The University recognizes there will be occasions when students must miss classes that contain examinations, graded assignments, experiments or projects, and general class participation. The University Policy website further addresses the issues of student absences, identifies possible accommodations, and outlines both faculty and student responsibilities.

The University also recognizes that excessive excused absences will make it impossible to evaluate a student's performance in a class based on attendance and participation or in a class with multiple missed graded assignments. Under these circumstances, an administrative solution should be explored with the student to drop the course(s) before the end of the semester.

The full administrative policy is available [here](#).

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor and must conform to university and instructor policies on attendance.

College of Arts & Media (CAM) policy states that students who miss the first two class sessions of any CAM course can be administratively dropped. Likewise, students may not be permitted to add any CAM course if they have missed the first two classes. Students should check with their instructor if they have any questions about their status in the course.

College of Architecture and Planning

Students are expected to attend all meetings of classes. Excessive unexcused absences may result in a grade reduction at the discretion of the instructor. Absence from a class will be excused for verified medical reasons, religious obligations or for extreme personal emergencies. The student may be required to furnish evidence.

Timeliness of Work

Students' assignments are to be completed in a timely manner. Any assignment turned in late may have its grade reduced by an amount set at the discretion of the instructor. An assignment may be turned in late without penalty for verified medical reasons, religious obligations or for extreme personal emergencies. Students must have their instructor's written permission to turn an assignment in late. Students with excused late work may turn in the assignment by the end of finals week without penalty. Otherwise, the grade "I" will be assigned at the discretion of the faculty.

Business School

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor and must conform with university and instructor policies on attendance.

School of Education and Human Development

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor in advance and must conform to university and instructor policies on attendance.

College of Engineering, Design and Computing

Successful work in the College of Engineering, Design and Computing is dependent upon regular attendance in all classes. Students who are absent should make arrangements with instructors to make up the work missed. Students who for illness or other good reason miss any examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in an F in the course.

Course Repeat Policy

Though students may take any course more than once, credit toward graduation is counted only once for a typical course, unless otherwise noted in the course description. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. See course descriptions for the max semester hours applicable from each course.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Architecture and Planning

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C- grade in required architecture core courses, including design studios. Architecture core courses must be repeated if the student earns less than a C- grade.

College of Arts & Media

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student's GPA. Course credit toward graduation is counted only once for a typical course, no matter how many times the

course is repeated. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. Special Topics and/or other departmental courses may also be repeatable for applicable credit within a certain range of total semester hours, per departmental/program policy. Consult a College of Arts & Media (CAM) advisor for details.

A minimum grade of C (2.000) is required for each course applied toward a CAM major, minor or certificate requirement. These courses/requirements must be repeated if the student earns a final grade of C- (1.700) or lower. A grade of P is acceptable for major, minor or certificate courses in which the only grade available is Pass or Fail.

Business School

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C grade in required business core courses. Core business courses must be repeated if the student earns less than a C grade.

School of Education and Human Development

Students may repeat any course. All courses, including repeated courses, remain on the transcript and all grades are included in the student's University of Colorado GPA calculation. Course credit toward graduation is counted only once for a typical course, no matter how many times the course is repeated. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. Special Topics courses may be repeatable for applicable credit within a certain range of total semester hours, as long as the topic is different. See course descriptions for the maximum semester hours applicable from each course.

College of Engineering, Design and Computing

Undergraduate students may not register for credit in a course in which they already have received a grade of C- or higher. For required courses (including technical electives): an F grade necessitates subsequent satisfactory completion of the course; students must repeat a prerequisite course in which a grade of D+ or lower was earned before moving on to the subsequent course.

If students do not successfully complete (C- or higher) an engineering class on the second attempt, they must obtain written approval from their major department to enroll for the course for the third time. When a course is retaken because of a D or F grade, both grades will appear on the transcript and both will be averaged into the GPA. Any exceptions to these policies must be made by written petition through the Office of the Dean.

College of Liberal Arts and Sciences

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student's GPA. Course credit toward graduation is counted only once for a typical course no matter how many times the course is repeated. Some types of courses (e.g. Internships, Independent Studies, etc.)

may be repeatable for applicable credit within a certain range of total semester hours. Special Topics courses may be repeatable for applicable credit within a certain range of total semester hours, as long as the topic is different. See course descriptions for the max semester hours applicable from each course.

Explanation of Course Numbers

Courses numbered 1000-2999 are considered lower-division undergraduate. Courses numbered 3000-4999 are considered upper division undergraduate. Courses at the 5000 level and above are graduate.

SCHOOL/COLLEGE SPECIFIC POLICY

Business School

The course numbering system used at CU Denver identifies the class standing required for enrollment. Students are expected to take 1000-level courses in their freshman year, 2000-level courses in their sophomore year, 3000-level courses in their junior year and 4000-level courses in their senior year. Courses at the 5000 and 6000 level are restricted to master's-level business students, and courses at the 7000 level are restricted to PhD students.

Explanation of Semester Hours

The University of Colorado Denver campus academic calendar is separated into 3 semesters, fall, spring, and summer. The University of Colorado is on a semester credit system. For every semester credit enrolled, the student is expected to spend 2-3 hours outside of the assigned class time.

Final Examinations

All students enrolled in a course for credit are required to attend a final examination unless the professor has made previous arrangements. All faculty are to alert students about the date, time, and location of the final examination in a timely manner. With approval from the appropriate department, final examinations may be removed from a course.

If a student has three or more finals on the same day, the student has the ability to change the time of one final with approval from the instructor of the final they wish to change. Students should check their final exam schedule for conflicts as soon as possible and alert their instructors promptly and prior to the scheduled final examination.

Final Grades

A degree audit report is an automated record reflecting a student's academic progress toward completing degree requirements in a declared major. Each degree audit report draws its information from the university's student information system. Each time a new report is run, the most up-to-date course information and grades are used. A report can be requested by logging on to the student portal. Students should contact their schools and colleges for additional information on the availability of a specific degree audit report.

Grades are normally available within two weeks after the end of the semester and can be accessed by logging into the UCD Access portal.

Grade Point Average (GPA) Calculation

GPA is computed by multiplying the credit points per hour (for example, B = 3) by the number of semester hours for each course. Total the hours, total the credit points and divide the total points by the total hours. Grades of P, NC, ***, W, IP, and I are not included in the GPA. I grades that are not completed within one year are calculated as F in the GPA.

If a course is repeated, all grades earned are used in determining the GPA. Grades received at another institution are not included in the University of Colorado GPA. Undergraduate, graduate and non-degree graduate GPAs are calculated separately. Enrollment in a second undergraduate or graduate program will not generate a second undergraduate or graduate GPA.

Students should refer to their academic dean's office for individual GPA calculations as they relate to academic progress and graduation from their college or school.

Sample GPA Calculation

Grade Earned: **A**; Credit Points per Hour: **4.000**; x Credit Hours: **4.000** = Credit Points in Course: **16.000**

Grade Earned: **A-**; Credit Points per Hour: **3.700**; x Credit Hours: **4.000** = Credit Points in Course: **14.800**

Grade Earned: **B+**; Credit Points per Hour: **3.300**; x Credit Hours: **4.000** = Credit Points in Course: **13.200**

Grade Earned: **P**; Credit Points per Hour: **-**; x Credit Hours: **3.000** = Credit Points in Course: **- (excluded)**

Grade Earned: **F**; Credit Points per Hour: **0**; x Credit Hours: **3.000** = Credit Points in Course: **0**

Total of 15 credit hours with 44 credit points, so $44/15 = 2.930$ GPA

Grade Appeals

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

For College of Arts & Media courses:

- When a student has questions or concerns regarding academic issues such as project grades, final grades, attendance policies, etc., the student is encouraged to speak directly with the faculty member teaching the course.
- If resolution or clarity of understanding is not reached, the following procedure should be followed:
 - The student contacts the chair of the department offering the course to discuss the concerns and their point of view.
 - The department chair speaks with the faculty member to ascertain the faculty member's point of view.
 - The department chair facilitates a meeting between the student and faculty member to discuss the issue.
 - If the student still has concerns after completion of these procedures, the student should contact the College of Arts & Media associate dean of academic and student affairs.

For non-CAM courses, students should consult the school/college offering the course.

College of Architecture and Planning

Any student may appeal the grade they receive in a class within 30 days from the issuance of the grade. The student should first discuss the issue and adjustment sought with the relevant course instructor. If the course instructor does not reply within 30 days, the student submits a written appeal to the program director. Within 30 days, the program director shall process the appeal and prepare a written report explaining the reason(s) for the department recommendation. If the grade appeal still remains unresolved at the department level, the student submits a written request to the department chair and then to the associate dean of academic affairs, who will direct the Academic Affairs Committee to review the appeal. If the grade appeal remains unresolved at the college level, the student may appeal to the dean.

Business School

Students must follow the process below.

1. Discuss concerns with the faculty member.
2. If the issue is not resolved after a conversation with the faculty member, discuss concerns with the Department Chair.
3. If the issue is not resolved after a conversation with the Department Chair, discuss concerns with the Associate Dean. Neither the Dean, nor any director, will offer an

opinion with respect to the qualitative assessment of a student's work, but, may consider whether the procedures used to determine a grade were consistent with the syllabus and written amendments to the syllabus. No passing grade will be changed after one year. Requests for grade adjustments/appeals must be made in the semester immediately following the semester in which the disputed grade was earned.

School of Education and Human Development

Students must follow the process below.

1. Discuss concerns with the faculty member.
2. If the issue is not resolved after a conversation with the faculty member, the student may appeal to the SEHD Student Committee. The process for submitting a student appeal can be found [here](#).

College of Engineering, Design and Computing

Final grades, as reported by instructors, are to be considered permanent and final. Grade changes will be considered only in cases of documented clerical error and must be approved by the dean.

Grade Forgiveness

Degree-seeking undergraduate CU Denver students pursuing their first degree at CU Denver may request to forgive a grade from a prior instance of taking a 1000-level or 2000-level CU Denver class if they received a D+, D, D-, or F in the prior attempt. Course retaken must be an exact match for the previous attempt. Ineligible courses include special topics, repeatable courses, course grades received from academic dishonesty, mismatched credit hours, and equivalent cross-listed courses. Courses repeated for grade forgiveness must be taken for a letter grade (not audit, pass/fail, no credit). Limited to one attempt per course, up to a maximum of 18 credit hours.

Grade forgiveness deadlines can be found in the Academic Calendar. The highest grade becomes the final grade that calculates in the GPA.

If a student drops the class for which grade forgiveness was requested, the grade forgiveness request will automatically be cancelled on the student's behalf. If the student later re-enrolls in the same or different section of the same course, they will need to re-submit the grade forgiveness request form.

Note: Students may repeat courses throughout their academic career without invoking grade forgiveness. When courses are repeated without invoking grade forgiveness, all attempts are included in student credit and GPA totals calculations, and some programs limit the number of course repeats.

To review the policy in full, please [click here](#).

Grading System

The instructor is responsible for whatever grade symbol (e.g., A, B, C, D, F, I or IP) is to be assigned. Special symbols (NC and W) are indications of registration or grade status and are not assigned by the instructor. Pass/fail designations are not assigned by the instructor but are automatically converted by the grade application system, as explained under “Pass/Fail Procedure.”

Standard Grades	Quality Points
<i>A = superior/excellent</i>	4.000
<i>A(-) =</i>	3.700
<i>B(+) =</i>	3.300
<i>B = good/better than average</i>	3.000
<i>B(-) =</i>	2.700
<i>C(+) =</i>	2.300
<i>C = competent/average</i>	2.000
<i>C(-) =</i>	1.700
<i>D(+)=</i>	1.300
<i>D =</i>	1.000
<i>D(-) = minimum passing</i>	0.700
<i>F = failing</i>	0

Instructors may, at their discretion, use the PLUS/MINUS system but are not required to do so.

I-incomplete-converted to an F if not completed within one year.

IP-in progress-thesis at the graduate level only.

P/F-pass/fail-P grade is not included in the GPA; the F grade is included; up to 16 hours of pass/fail course work may be credited toward a bachelor's degree.

H/P/F-honors/pass/fail-intended for honors courses; semester hours count toward the degree but are not included in the GPA.

NC indicates registration on a no-credit basis.

W indicates withdrawal without credit.

Pass/Fail

1. Students who wish to register for a course on a pass/fail basis (or to revert from pass/fail to graded status) may do so only during the drop/add period.
2. Up to 16 semester hours of course work may be taken on a pass/fail basis and credited toward the bachelor's degree. Only six hours of course work may be taken

pass/fail in any given semester. (**Note:** Individual schools and colleges may have additional restrictions as to pass/fail credits. See the accompanying chart for an overview.)

3. Instructors will not be informed of pass/fail registration. All students who register for a pass/fail appear on the regular class roster, and a normal letter grade is assigned by the professor. When grades are received in the registrar's office, those registrations with a pass/fail designation are automatically converted by the grade application system. Grades of D- and above convert to grades of P. Courses taken pass/fail will be included in hours toward graduation. Pass grades are not included in a student's GPA. An F grade in a course taken pass/fail will be included in the GPA.
4. Pass/fail registration records are maintained by the registrar's office.
5. Exceptions to the pass/fail regulations are permitted for specified courses offered by the School of Education & Human Development, the extended studies programs and study abroad programs.
6. Graduate degree students can exercise the P/F option for undergraduate courses only. A grade of P will not be acceptable for graduate credit to satisfy any Graduate School requirement.
7. Students who register for a course on a pass/fail basis may not later (after the drop/add period) decide to receive a letter grade.

Note: many other institutions will not accept a P grade for transfer credit.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

A minimum grade of C (2.000) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.700) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable ONLY for major, minor or certificate courses in which the only grade available is Pass or Fail.

Courses taken to fulfill major/minor/ certificate requirements, Core English Composition, Core Mathematics, and the foreign language requirement may not be taken pass/fail (unless the course is only offered on a pass/fail basis).

No more than 6 semester hours pass/fail in any given semester. No more than 12 semester hours may be elected as pass/fail toward the degree.

College of Architecture and Planning

Only internships, independent studies and non-architecture elective courses may be taken pass/fail. Required architecture courses (including the campus core) may not be taken pass/fail. A maximum of 6 hours pass/fail credit may be applied toward the BS Architecture degree. Courses taken in excess of the maximum will not be applied toward degree credit. Pass/fail determination must be made within the posted deadlines (at census dates) and may not be rescinded (unless approved by the undergraduate committee).

Business School

Only internships, independent studies and nonbusiness elective courses may be taken pass/fail. Required business and nonbusiness courses (including the campus core)

may *not* be taken pass/fail. A maximum of 6 hours pass/fail credit may be applied toward the business degree. Courses taken in excess of the maximum will not be applied toward degree credit. Pass/fail determination must be made within the posted deadlines (at census dates) and may not be rescinded (unless approved by the undergraduate committee).

School of Education and Human Development

Students must earn a final grade of at least a C-/1.700 in major courses and a B-(2.700) or above in licensure or endorsement courses within the major. These courses/requirements must be repeated if the student earns a final grade below the minimum requirement. Program-required courses, unless designated as P/F, are not permitted to be taken as pass/fail.

College of Engineering, Design and Computing

The primary purpose for offering courses on a pass/fail grade basis is to encourage students, especially juniors and seniors, to broaden their educational experience by electing challenging upper-division humanities and social sciences elective courses without serious risk to their academic records. In general, pass/fail should be limited to 3000- or 4000-level humanities and social sciences courses. Students must process the pass/fail form during the first two weeks of the semester. Engineering students cannot take required courses, including technical electives, pass/fail.

A maximum of 16 semester hours may be taken pass/fail, including courses taken in the honors program.

College of Liberal Arts and Sciences

Students may select the pass/fail grading option for most courses. In addition to CU Denver policies covering the pass/fail grading option (see the Registration and Records chapter of this catalog), CLAS students must adhere to the following college pass/fail grading policies:

1. Courses used to complete a student's major, minor and certificate may not be taken on a pass/fail basis.
2. Courses required to demonstrate proficiency may not be taken on a pass/fail basis: ENGL (core curriculum), MATH (core curriculum) and first two semesters of foreign language.
3. Courses used to satisfy the intellectual competencies section of the CU Denver core curriculum may not be taken on a pass/fail basis.
4. Courses in the knowledge area section of the CU Denver core curriculum may be taken on a pass/fail basis.
5. Courses used to satisfy CLAS graduation requirements may be taken as pass/fail, except for to fulfill the Communicative Skills CLAS Core, major or minor requirements.

CLAS requires a minimum of 30 semester hours of courses with letter grades. Courses used to satisfy major, minor or foreign language cannot be taken on a pass/fail basis. No more than 6 hours pass/fail any semester. A maximum of 16 semester hours may be taken pass/fail.

School of Public Affairs

Core knowledge area and general electives are the only courses that can be completed pass/fail. A grade of D- or better is translated by the Records Office to a P (pass) grade. P grades do not affect students' GPA; F grades do affect students' GPA. Students interested in completing a course as pass/fail must submit a Schedule Adjustment Form during the add/drop period during the respective semester to the BACJ Academic Advisor. Students need to consult the academic calendar posted on the Office of the Registrar's webpage for add/drop dates. Up to 16 credits may be completed as pass/fail and credited toward the bachelor degree. Students can complete a maximum of 6 credits as pass/fail in any one semester.

No Credit

Students may register for a course on a no-credit basis with the consent of their instructor and the dean of their school or college. No grade or credit is awarded. The transcript reflects the name of the course taken and an N/C notation.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

A minimum grade of C (2.000) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.700) or lower will not fulfill a major, minor or certificate requirement. Therefore, students are not permitted to take these courses for no credit.

Business School

Pass-Fail or No Credit (Audit). With the exception of internships, experiential learning and travel study courses, the Business School does not permit the election of pass-fail grading for any business course required for the student's degree. Students are not allowed to audit business courses.

College of Engineering, Design and Computing

An engineering student must request approval before enrolling for no credit (NC) for any course. Required courses must be taken for credit. Once a course has been taken NC, the course cannot be repeated for credit.

Incomplete Grade

An I is an incomplete grade. Policies with respect to I grades are available in the individual college and school dean's offices.

An I is given only when students, for reasons beyond their control, have been unable to complete course requirements. A substantial amount of work must have been satisfactorily completed before approval for such a grade is given.

The instructor who assigns an I sets the conditions under which the course work can be completed and the time limit for its completion. The student is expected to complete the requirements by the established deadline and not retake the entire course. It is the instructor's and/or the student's decision whether a course should be retaken. If a course is retaken, it must be completed on the Denver Campus or in extended studies classes. The student must re-register for the course and pay the appropriate tuition.

The final grade (earned by completing the course requirements or by retaking the course) does not result in deletion of the I from the transcript. A second entry is posted on the transcript to show the final grade for the course, with a notation that the course was 'originally graded as I.'

At the end of one year, I grades for courses that are not completed or repeated are changed to an F.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

The College of Arts & Media (CAM) has strict policies for granting incomplete grades. They include but are not limited to the following:

- Reason for incomplete must be a verifiable circumstance beyond the student's control that made completion of the course impossible. The student must provide documentation.
- The majority of course requirements (75 percent) must have been completed with a passing grade to be eligible for an incomplete (C (2.000) for major/minor/certificate courses; C- (1.700) for select general education courses; D- (0.700) for most general education and general elective courses).
 - Whether the student has successfully completed 75% of the course with a passing grade is determined by the instructor and based on the requirements listed in the syllabus.
- CAM course completion agreement must be signed by both the instructor and student, with final approval by the dean's/advising office.
- All course work must be completed within one calendar year of the end of the original course, unless an earlier deadline is specified.
- Requests for a retroactive change from a letter grade to an incomplete will not be considered.

The student is responsible for requesting an incomplete grade and submitting all of the appropriate paperwork and obtaining approvals. Please contact CAMadvising@ucdenver.edu for additional information.

Business School

Incomplete Grades. The only incomplete grade given in the school is I. An I grade is assigned only when documented circumstances clearly beyond the student's control prevent completion of course requirements (exams, papers, etc.). Students must sign a contract outlining how they will make up the missing work with the instructor giving the I.

Students need not register for the course a second time. All I grades must be made up within the contract period (which may not exceed one year), or the I will automatically be changed to the grade of F. The student is responsible for contacting the instructor to schedule the completion of the coursework.

School of Education and Human Development

Students who wish to request a grade of Incomplete ("I"), should refer to the SEHD Course Completion Agreement for Incomplete Grade. The full policy and form are available on the SEHD Student Resources webpage.

College of Engineering, Design and Computing

An incomplete may be given by the instructor for circumstances beyond the student's control, such as a documented medical or personal emergency. When it is given, the student and the departmental office must be informed in writing by the instructor, who states what the student is to do in order to remove the incomplete and the date the tasks are to be completed. The instructor will assign an I distinction. The student is expected to complete the course requirements (e.g., the final examination or term paper), within the established deadline and not to retake the entire course. The majority of course requirements (75%) must have been completed with a passing grade to be eligible for an incomplete. An I distinction will be converted automatically to a grade of F after one year if the specified work is not completed.

It is the student's responsibility to ensure that all courses marked as incomplete are officially completed before the 10th week of the student's final semester in school.

College of Liberal Arts and Sciences

When a student has special circumstances that make it impossible to complete course assignments, faculty members may choose to award an incomplete grade. All incomplete courses are assigned a grade of Incomplete ("I"). Incomplete grades are not awarded for poor academic performance or as a way of extending assignment deadlines. A CLAS course completion agreement form or other written documentation of assignments to be completed as well as the agreed upon due dates is strongly suggested when faculty and student agree on an incomplete grade. Both parties are encouraged to keep copies of this documentation. Faculty are not required to award an Incomplete.

To be eligible for an incomplete grade, students must:

- Have participated in the class for a significant proportion of the term
- Have successfully completed a significant proportion of the course assignments
- Have special circumstances (verification may be required) that preclude the student from attending class and/or completing graded assignments
- Make arrangements to complete missing assignments with the original instructor by a mutually agreed upon date but within one calendar year

After the agreed upon date or maximum of a calendar year, the I reverts to an F grade on the student's transcript if the instructor fails to submit a change of grade. Any request to allow a grade change after the one-year period must be petitioned to the CLAS Academic Standards Committee.

In order to be on the graduation lists, a student must resolve all incompletes before the last day of classes in the semester in which they intend to graduate.

Students should not re-enroll in a course in which they have an incomplete. Re-enrollment in a course in which a student has an I could result in a loss of tuition and an F in the original course. A student with an I does not need to be enrolled in any course or earning any credits to complete the incomplete work. Completing an I does not require any additional tuition payment.

Module/Intensive Courses

Courses are also offered in five-week modules, in special weekend courses and in seminars. Students should contact the college/school for information on short-term courses offered each semester.

Requisites

Prerequisites

A prerequisite is a course that needs to be taken prior to registration for the next course in the designated sequence.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students must abide by all published prerequisites and corequisites, including minimum grades. The College of Arts & Media reserves the right to administratively drop students who enroll without the necessary prerequisites or corequisites.

Business School

Students are expected to know and fulfill all prerequisites when registering. Prerequisites are in place for the benefit of the student. The Business School wants our students to have the best experience in their courses, and having the prerequisites for a course ensures that you are ready for the material that will be covered. See course listings for relevant prerequisites as many are strictly enforced. The Business School reserves the right to administratively drop students who enroll without the correct prerequisites. This action may result in the loss of tuition.

School of Education and Human Development

Students must abide by all published prerequisites and co-requisites, including minimum grades. The SEHD reserves the right to administratively drop students who enroll without the necessary prerequisites or co-requisites.

College of Engineering, Design and Computing

For required courses, including technical electives, students must repeat a prerequisite course in which a grade of D+ or lower was earned before moving on to the subsequent course. If students do not successfully complete an engineering class with a C- or higher on the second attempt, they must obtain written approval from their major department to enroll for the course for the third time.

Prerequisite Checking

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Programs in the college are structured so that certain courses must be taken concurrently, others sequentially. Students will not be allowed to enroll in a course if its co-requisites or prerequisites have not been satisfied.

College of Architecture and Planning

Programs in the college are structured so that certain courses must be taken concurrently, others sequentially. Students will not be allowed to enroll in a course if its co-requisites or prerequisites have not been satisfied.

College of Engineering, Design and Computing

Programs in the college are structured so that certain courses must be taken concurrently, others sequentially. Students will not be allowed to enroll in a course if its co-requisites or prerequisites have not been satisfied.

Co-requisites

A co-requisite is a course(s) that needs to be taken simultaneously with another course.

Transcripts

Official Transcripts

The official transcript includes the complete undergraduate and graduate academic record of courses taken at all campus locations or divisions of the University of Colorado. It contains the signature of the registrar and the official seal of the university.

Official transcripts with posted grades for any given semester are available approximately three weeks after final exams. A transcript on which a degree is to be recorded is available approximately eight weeks after final exams.

For Denver Campus students, transcripts may be ordered through the online ordering portal by visiting www.ucdenver.edu/transcripts.

Transcripts are prepared when a student submits an order online. A student with financial obligations to the university that are due and unpaid will not be granted a transcript. The official PDF transcript is delivered within twenty-four hours, and mailed transcripts are processed within one business day. Rush service is available and processed within one business day.

Undergraduates Taking Graduate Coursework

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

College of Arts & Media undergraduate students are not typically permitted to take courses at the graduate level. Undergraduates interested in taking graduate-level courses should consult with the instructor and the department, as well as with their academic advisor.

College of Architecture and Planning

With prior written approval of the BS Architecture Director, students may take a maximum of 6 semester hours of graduate-level non-architecture elective credits. Students must earn grades of B or better in graduate courses to apply the credits toward BS Architecture degree requirements.

School of Education and Human Development

Undergraduate students are not typically permitted to take courses at the graduate level. SEHD undergraduate students interested in taking graduate-level courses should consult with the instructor and the program, as well as with their academic advisor.

College of Engineering, Design and Computing

With faculty advisor approval, an undergraduate engineering student may be granted the opportunity to take graduate courses to be counted toward an undergraduate degree. A maximum of 6 semester hours of graduate-level University of Colorado course work taken as an undergraduate can be considered for credit toward a graduate degree. Only a grade of B (3.000) or above will be considered for graduate-level credit. All consideration of graduate work to be counted toward both an undergraduate and a graduate degree must be approved by a faculty advisor.

DECLARING/CHANGING YOUR MAJOR

How to Declare or Change Your Major/Minor

Students must declare a major to graduate. Minors, additional majors and certificates are optional. Meet with your advisor to discuss options.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Declaring a Major or Minor

All undergraduate degrees offered through the College of Arts & Media (CAM) comprise 120 semester hours. Students must declare a major to graduate. Minors are optional.

All CAM majors require students to select a degree plan (BA, BS or BFA) and an emphasis. Links to information about specific majors, emphases and minors, including any required reviews/assessments for admission, may be found on the Programs page in this catalog. If an emphasis or minor does not require review/assessment for admission, CAM students in good academic standing may select it by submitting a major or minor declaration form in Arts 177.

Students may choose to pursue a double degree, double major, double emphasis or minor. Each of these options may require more than 120 semester hours to graduate.

Please contact CAM@ucdenver.edu for additional information.

Changing a Major or Minor

Undergraduate students who wish to transfer from one emphasis or minor to another within CAM must currently be in good academic standing, pass appropriate reviews/assessments, as outlined in the program pages of this catalog, and notify CAM in Arts 177 by submitting a change of major or a change of minor form.

Business School

Business majors must complete the prescribed courses in an area of emphasis comprising a minimum of 15 semester hours taken at CU Denver. Business students are advised to select an area of emphasis prior to completing the business core, and are required to declare a major area of emphasis by the time they have accumulated 60 to 75 semester hours. The courses in the area of emphasis are completed in the junior and senior years after completing the business core. A minimum GPA of 2.000 is required for courses in the area of emphasis.

The areas of emphasis include accounting, financial management, human resources management, information systems, international business, management or marketing. The specific requirements for these areas of emphasis are described in subsequent sections.

School of Education and Human Development

Undergraduate majors in the SEHD include the Bachelor of Arts in Education and Human Development (EDHD) and the Bachelor of Science in Human Development and Family Relations (HDFR). Additionally, the EDHD major has several tracks, including Elementary Education (K-6 licensure), Special Education (ages 5-21 licensure), Early Childhood Education licensure (birth-age 8 licensure), and Early Childhood Education

non-licensure. It is important for students to declare a major and track (if applicable) as early as possible in their academic career to ensure they take appropriate courses.

College of Engineering, Design and Computing

Students enrolled in the College of Engineering, Design and Computing who wish to change to another department within the college must apply for transfer by submitting a change of major form for undergraduate degree students, which can be found on the college website (<http://engineering.ucdenver.edu>) under > Policies and Forms. This form requires the approval of both departments.

Pre-engineering students who are ready for admission, or students enrolled in another school/college who wish to transfer into the College of Engineering, Design and Computing, must complete the Intra-University Transfer (IUT) form. This form is submitted to the Engineering Student Services Center in North Classroom 2605.

College of Liberal Arts and Sciences

It is important that students declare a major as early as possible in order to receive proper advising toward departmental requirements. Students in the college must declare a major by the start of their junior year (greater than 60 hours). Transfer students to the college with junior or senior standing should declare a major in their first semester at CU Denver. Students are allowed to change their major at any time.

Intra-University Transfer (IUT)

Students on the Denver Campus may change colleges or schools within the university provided they are accepted by the college or school to which they wish to transfer. Intra-university transfer forms may be obtained from the student's school or college or from the Office of the Registrar. Decisions on intra-university transfers are made by the college or school to which the student wishes to transfer.

Transfer deadlines for all programs are August 1 for Fall semester, December 1 for Spring semester, and May 1 for Summer session.

Students in continuing and professional studies programs wishing to enroll in regular courses or degree programs at CU Denver and undergraduate students wishing to become graduate students (or vice versa) should apply for admission to CU Denver. Visit www.ucdenver.edu/admissions or contact the Office of Admissions at 303-315-2601 or admissions@ucdenver.edu for assistance with application processes and options.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Architecture and Planning

Students who want to transfer to the BS Architecture program from another college or school of the University of Colorado Denver must formally apply for an intra-university transfer (IUT) to the College of Architecture and Planning. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form to the undergraduate advisor. Transfer forms are available at the Office of Registrar or the College Undergraduate Advising Office; transcript request forms are available at the Office of the Registrar. Students must have earned a minimum of 12 University of Colorado Denver semester hours and have a 2.300 cumulative University of Colorado GPA to be eligible for an IUT to the BS Architecture program.

College of Arts & Media

Students who want to transfer to the College of Arts & Media (CAM) from another college or school within the university must formally apply for an intra-university transfer (IUT) and pass any appropriate reviews/assessments as outlined in the program pages of this catalog. To be considered for admission, students must have a minimum 2.000 cumulative University of Colorado GPA. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form to the undergraduate advisor. Transfer forms are available at the Office of Registrar or from a CAM advisor; transcript request forms are available at the Office of the Registrar.

Business School

Students who want to transfer to the Business School from another college or school of the University of Colorado Denver must formally apply for an intra-university transfer (IUT) to the Business School. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form and transcripts from the University of Colorado to the business program coordinator. Transfer forms are available at the Office of Admissions or the Business School Advising Office; transcript request forms are available at the Office of the Registrar. The transcript must include the student's most recent semester at the university. Students with previous course work from other institutions are also required to submit a copy of their transfer credit evaluations (advanced standings).

School of Education and Human Development

Students who wish to transfer to the SEHD from another school/college must meet with an academic advisor and formally apply for an intra-university transfer (IUT). Students must have a minimum of 2.000 cumulative University of Colorado GPA to be eligible for an IUT to the SEHD. Students should also be aware that, for teacher education licensure tracks, a minimum of 3.000 cumulative University of Colorado GPA is required for admission to the Professional Year (students with a lower GPA may be considered under certain conditions; please see SEHD website).

College of Engineering, Design and Computing

CU Denver students interested in an undergraduate engineering program but not enrolled in the college must request an intra-university transfer (IUT). Those approved for an IUT will be entered into the undergraduate program of interest. Admission to an Engineering interest does not guarantee admission to the major. To enter an engineering program through the intra-university transfer (IUT) process, students must have earned:

- a 2.750 (or higher) cumulative CU Denver GPA
- a 2.500 (or higher) GPA in Calculus I, Calculus II, and Calculus-based Physics I and the corresponding lab and no lower than a C- in any one of these courses.
- a C- or higher in all other engineering requirements taken prior to or at the time of the request.
- IUT guidelines are subject to change. Students are encouraged to meet with an Engineering Student Services advisor to discuss the IUT process prior to submitting a request.

GRADUATION

Academic Honors

Dean's List

CU Denver uses fixed criteria across all schools/colleges for determining eligibility for the Dean's List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete nine graded hours in the semester. These courses can be both within and outside of the student's home school/college. Metropolitan State University of Denver pooled courses will not be included in the GPA calculation nor will they apply toward the nine hours required for consideration. The GPA for inclusion in the Dean's List is 3.750.

In the summer semester, students must complete six graded hours. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean's List in summer is also 3.750.

Scholarships tied to Dean's Lists may have additional requirements.

The Registrar's Office calculates the semester GPAs that are the basis for determining the Dean's List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean's List will not be recalculated to include completed incompletes.

College Honors

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

LATIN ACADEMIC HONORS

Latin academic honors are awarded at the time of graduation, based on cumulative University of Colorado undergraduate GPA. To be eligible for honors, a College of Arts & Media (CAM) student must have completed a minimum of 30 semester hours at the University of Colorado (on any CU campus). A cumulative CU GPA of 3.650-3.749

earns cum laude, a 3.750-3.849 earns magna cum laude and 3.850 or above earns the summa cum laude honors designation on a degree.

OUTSTANDING GRADUATES

CAM recognizes “outstanding graduates” each fall and spring term. Students are nominated by CAM faculty and final selections are determined by the CAM Executive Committee.

Criteria for Outstanding Graduates:

- Cumulative University of Colorado GPA of 3.500 or higher
- Graduating senior in the semester the award is given
- Active member of CAM student club(s)
- Participant in production programs of the student’s department
- E.g., art exhibits, record productions, audio engineering
- Participant in outreach programs for the department and/or college
- Leadership qualities in the classroom
- Growth, development and demonstration of excellence as a practicing artist or scholar
- Active citizenship in the department, college, university and/or community
- Superior academic achievement

Business School

Students who demonstrate superior scholarship are given special recognition at graduation. Students must achieve a cumulative GPA of 3.500-3.649 in all business courses taken at the University of Colorado to be considered for cum laude, achieve a cumulative GPA 3.650-3.749 in all business courses taken at the University of Colorado to be considered for magna cum laude, and achieve a cumulative GPA of 3.750 or higher in all business courses taken at the University of Colorado to be considered for summa cum laude.

School of Education and Human Development

Academic honors are awarded at the time of graduation, based on the cumulative University of Colorado undergraduate GPA. To be eligible for honors, a SEHD student must have completed a minimum of 30 semester hours at the University of Colorado (on any CU campus). A cumulative CU GPA of 3.650-3.749 earns cum laude, a 3.750-3.849 earns magna cum laude and 3.850 or above earns summa cum laude honors designations.

College of Engineering, Design and Computing

In recognition of superior scholarship, academic honors are awarded at the time of graduation based on the cumulative University of Colorado undergraduate GPA, including the final semester of coursework. To be eligible for honors, a student must have completed a minimum of 60 semester hours at the University of Colorado (on any CU campus). Grades earned at institutions outside of the CU system will not be considered. For Special Honors, a student must have earned a cumulative CU GPA of at least 3.800, and for Honors, a GPA between 3.600 and 3.799 is required. Since

grades earned during the semester of graduation are considered, academic honors are notated in the commencement program as “pending” and are officially recorded on the diploma and transcript.

College of Liberal Arts and Sciences

A student who performs superlatively in course work in the college will be awarded a bachelor’s degree accompanied by the statement “with distinction”. To be eligible for graduation with distinction, a student must have either completed a minimum of 45 semester CU Denver hours in the student’s junior and senior years with a CU cumulative GPA of at least 3.750, or have completed a minimum of 45 semester CU Denver hours in the student’s overall CU Denver career with a CU Cumulative GPA of at least 3.750. A maximum of 6 out of the final 45 CU Denver semester hours may be completed with a grade of P (on P/F option).

Departmental Honors

SCHOOL/COLLEGE SPECIFIC POLICY

College of Liberal Arts and Sciences

Departments in the college offer programs through which students can qualify for Latin honors: cum laude, magna cum laude or summa cum laude. Determination of the level of honors is made by the department. Detailed information can be obtained from the CLAS Academic Advising Office or from the individual departments.

Applying for Graduation

Students planning to graduate must apply for graduation through the UCDAccess student portal between the first day of registration and census for the term they intend to graduate. Students must contact their academic advisor to determine what requirements remain for graduation, as well as complete any paperwork required by their school/college. Students will not be officially certified to graduate until a final audit of the student’s record has been completed approximately six weeks after the end of the term. After students have been certified to graduate, they must reapply with the Office of Admissions in order to return to the Denver Campus.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Architecture and Planning

Students are encouraged to meet with a College of Arts & Media advisor the semester before they intend to graduate to review graduation procedures and degree requirements. Students who have not attended the university for one calendar year (three consecutive semesters, including summer term) or longer must gain readmission to the university prior to applying for graduation. It is the student’s responsibility to apply with enough time for the readmission process to be finalized by the census date.

College of Arts & Media

Students are encouraged to meet with a College of Arts & Media advisor the semester before they intend to graduate to review graduation procedures and degree requirements. Students who have not attended the university for one calendar year (three consecutive semesters, including summer term) or longer must gain readmission to the university prior to applying for graduation. It is the student's responsibility to apply with enough time for the readmission process to be finalized by the census date.

Business School

A senior audit is completed on all students who have completed 90 or more semester hours. Students must file an undergraduate candidacy form prior to registering for their final semester. Failure to do so will delay graduation.

Students must complete the online intent to graduate form on their student portal when they register for their last semester.

School of Education and Human Development

All students MUST meet with their advisor at the beginning of their final term for a graduation check-out appointment. We recommend students schedule an appointment PRIOR to the add/drop deadline of their final term in case schedule adjustments need to be made to fulfill final degree requirements. After meeting with their advisor, students should apply for graduation online through the UCDAccess portal before the graduation application deadline.

College Of Engineering, Design and Computing

When a student in the College of Engineering, Design and Computing is within 30 hours of completing his or her degree, an appointment should be scheduled with a faculty advisor to perform a 30-hour check. The 30-hour check is required before the student may graduate.

In addition to the above requirement, all students in the College of Engineering, Design and Computing must also meet with their department's faculty advisor in the semester prior to the semester in which they wish to apply for graduation to ensure all academic and administrative requirements are met. Failure to do so may interfere with a student's ability to graduate.

Failure to understand and follow the policies, procedures, dates and deadlines of the CU Denver campus and the College of Engineering, Design and Computing may obstruct a student's ability to graduate and is solely the responsibility of the student.

Class Rank

Class rank will be calculated by undergraduate degree program within a school or college. It is possible for more than one student to have the same class rank. If more than one student has equivalent class ranking it will be reported as such. The option for a letter indicating the student's class rank will be provided to any graduating undergraduate, but there will be no designation on the University of Colorado transcript for Denver Campus students receiving bachelor's degrees. There will be one class rank per student per degree. Students can obtain class rank letters through the student

portal. Late postings and grade changes after degrees are posted will not recalculate rankings. Rankings will be a snapshot calculation conducted once per term for each graduating undergraduate student after degrees are posted.

Commencement Ceremony

In early March, informational brochures will be mailed to students eligible to participate in the May spring-semester commencement. In early October, information regarding the December commencement will be mailed to students who graduated in summer term or expect to graduate in fall term. Information will be provided about ordering special display diplomas, fittings for caps and gowns and obtaining diplomas and transcripts with the degree recorded. This information is also available at www.ucdenver.edu/student-services/graduation/Pages/Graduation.aspx.

Four-Year Graduation Guarantee

The University of Colorado Denver has adopted a set of guidelines to define the conditions under which an undergraduate student will be guaranteed to graduate in four years. More information is available through the undergraduate advising offices for each college and the major program offices. The Denver Campus has five undergraduate colleges in which this guarantee applies: College of Arts & Media, Business School, College of Engineering, Design and Computing, College of Liberal Arts and Sciences and School of Public Affairs.

CU Denver guarantees that if a student begins studies in a fall semester and lack of scheduling of essential courses is found to have prevented a student from completing all course work necessary for a BA, BFA or BS degree from the university by the end of the student's eighth consecutive fall and spring semester, the college/school shall provide tuition plus any course fees for all courses required for completion of the degree requirements. This applies only when needed courses are not offered by the college/school and does not apply to scheduling conflicts for individual students. Students must satisfy all the requirements described below to be eligible for this guarantee.

This guarantee applies to all students who enroll beginning in a fall term as first-semester, full-time freshmen without admission deficiencies, who do not need remedial course work and who satisfy all the requirements described below. This guarantee does not include completion of all options within the major, a second major, a double degree, a minor or a certificate program. The four-year graduation guarantee does not apply to programs in which the degree has been discontinued or is in the process of being phased out. In these cases, every effort will be made to allow students to fulfill requirements by taking courses at other universities and colleges to facilitate timely completion of the degree.

Some study abroad programs may not provide a sufficient range of courses to allow students to meet the requirements, thus, students who participate in study abroad programs during the fall or spring semesters may not be eligible for this guarantee. A student may be able to participate in a study abroad program during the summer semester and still meet all the requirements of this guarantee. It is essential that a student work closely with an advisor to determine if the student can participate in a study abroad program and still meet all the requirements of this guarantee.

Requirements

Students must satisfy all of the following requirements to be eligible for this guarantee.

1. Students must begin studies in a fall semester and enroll in CU Denver course work as specified on the student plan of study for eight consecutive fall and spring semesters.
2. Students must complete all required course work by the end of the eighth semester.
3. No fewer than 60 semester hours of applicable course work must be completed successfully by the end of the second year (24 calendar months); 90 semester hours by the end of the third year (36 calendar months); and 120 semester hours by the end of the fourth year (48 calendar months). Students must successfully complete an average of 15 semester hours each semester.
4. Students must meet with their college advisor and their major advisor for academic advising during the first, third, fifth and seventh semesters of study.
5. The major must be declared no later than the end of the first semester of study and students must not change their major or any options within the major.
6. A required plan of study toward the major must be agreed upon and signed by the student and advisor at the end of the first semester. Thereafter students must make satisfactory progress toward completing the major, as defined by each major, and the general education requirements. Courses with certain grades may not meet the satisfactory progress requirement of this guarantee. A statement of what constitutes satisfactory progress and what grades are acceptable is available from the major or departmental office at the time the major is declared.
7. A minimum of 30 semester hours of college general education courses should be completed by the end of the second year, including core curriculum courses that also meet major requirements and foreign language proficiency.
8. All lower-division graduation requirements must be successfully completed by the 90-semester-hour mark.
9. Students must remain in good academic standing according to their school/college academic policies.
10. Grades of C-, C or C+, as defined by the college/school, must be earned in all course work required for the major, and students must have a cumulative GPA of 2.000 in all major course work attempted.
11. Students must register each semester within one week of the student's specified eligibility to register.
12. Students must take courses that are specified in the student plan of study approved by their advisor.

13. Elective courses must be avoided if they conflict with required major or general education courses. Elective courses must not be given a higher priority than required courses.
14. Students must meet all departmental, school or college and university policies regarding graduation requirements.
15. The college/school must be notified in writing of the student's intent to graduate no later than the beginning of the seventh semester of study. A graduation application must be filed no later than the deadline for the appropriate graduation date. The student must complete a graduation checkout/senior audit with their advisor.

The student is responsible for and must keep documentation proving that these requirements were satisfied (e.g., records of advising meetings attended, advising records and instructions, etc.).

General Graduation Requirements

To receive a bachelor's degree from the University of Colorado Denver, students must satisfy all of the requirements below, in addition to completing a Major and fulfilling all of their School or College requirements.

Please note that the requirements below are basic university requirements. Consult your School/College and Major to determine whether they have put additional requirements in place that further restrict these categories.

- A minimum of 120 credit hours is required to graduate from CU Denver with a bachelor's level degree
- A minimum 2.000 cumulative GPA is required for all University of Colorado coursework
- Satisfactory completion of the CU Denver Core Curriculum (an 11 course, 34-38 semester hour curriculum of general education, outlined here)

Repeat Statement

Though students may take any course more than once, credit toward graduation is counted only once for a typical course, unless otherwise noted in the course description. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. See course descriptions for the max semester hours applicable from each course.

Residency Requirement

The Higher Learning Commission (HLC), which accredits this university, requires that at least 30 of the 120 credits earned for a baccalaureate degree be taken in residence at the University of Colorado Denver. Students are advised that individual schools/colleges may have higher residency requirements.

Petitioning for Exceptions to Standing Academic Policy

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students are required to complete the College of Arts & Media (CAM) general course requirements (including Core requirements) that were in effect when they began as degree-seeking students at CU Denver, and major requirements as outlined when they declared their degree, major and emphasis and were admitted to the program. If a program revises its curriculum, students have the option of following their original degree requirements or the revised curriculum. Courses under the original requirements may no longer be taught or may not be available for a set duration. In this case, the department faculty will approve reasonable course substitutions.

Course substitutions in the major or minor must be approved by the designated program director in the specific program area, the department chair and/or possibly the associate dean. Course substitutions in the CAM Core requirements must be approved by the university Core Curriculum Oversight Committee through a petition process. Please contact CAMadvising@ucdenver.edu for additional information.

The CAM Academic Policies, Procedures and Curriculum Committee is the appellate committee for all student-related academic petitions, issues and appeals. The committee is responsible for the evaluation and interpretation of the approved academic policies of the college. Questions about interpretations of policies may be directed to CAM Advising and Student Services. Procedures and petition guidelines are available at the CAM website or by emailing CAMadvising@ucdenver.edu.

Business School

Students should contact a staff advisor in the Business School's programs office (undergraduates call 303-315-8110) for appeal and petition procedures pertaining to rules and regulations of the school.

School of Education and Human Development

Students are required to complete the degree requirements that were in effect when they began as a degree-seeking student at CU Denver, including CU Denver Core, major, and track requirements. If a program revises its curriculum, students have the option of following their original degree requirements or the revised curriculum. Courses under the original requirements may no longer be taught or may not be available for a set duration. In this case, the program will approve course substitutions.

Course substitutions in the major or minor must be approved by the program leader in the specific program area. Course substitutions in the SEHD major must be approved by the Program Leader.

The SEHD Student Committee reviews students' academic appeals regarding retention, disenrollment, dismissal and other academic matters such as grade appeal, academic dishonesty, or honor code issues. Instruction on how to submit an appeal can be found

at

<http://www.ucdenver.edu/academics/colleges/SchoolOfEducation/CurrentStudents/Resources/Pages/CurrentResources.aspx>.

College of Liberal Arts and Sciences

The CLAS Academic Standards Committee is responsible for the administration of the academic policies of the college as established by the faculty. This committee constitutes the bridge between the faculty in its legislative capacity and the students upon whom the legislation comes to bear. The committee is empowered to grant waivers of exemptions from and exceptions to the academic policies of the college. Students wishing to submit a petition to the committee should meet with an advisor in the CLAS Academic Advising Office first to discuss the petition. The Graduate Council reviews grievances related to procedural issues for graduate students that cannot be resolved at the college level.

Students in the College of Liberal Arts and Sciences may appeal a grade. Every attempt is made to resolve grade disputes at the department level. However, unresolved grade issues may be appealed to the CLAS Academic Standards Committee and initiated through the CLAS Academic Advising Office, North Classroom, 4002, 303-556-2555. Details of the grade appeal policies are available in the CLAS Academic Advising Office.

Selection of Catalog for Degree Requirements

When a student is matriculated and enrolled at CU Denver, they are required to fulfill the general education and graduation requirements specified in the catalog current at that time. When students formally declare a major, they are required to fulfill the major requirements in the catalog current at that time.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students who switch majors (e.g., BS in Music to BFA in Film & Television) are required to complete the major curriculum in place when they declare their new degree or major. Students who switch degrees within the same major (e.g., BFA in Fine Arts to BA in Fine Arts) will be required to complete the degree curriculum that is in place when they declare their new degree. Students who switch emphases within a degree and major will be required to complete the emphasis curriculum that is in place when they are accepted into the new emphasis.

Due to the dynamic nature of the College of Arts & Media programs, returning students who have not attended in more than five years must complete their programs based on the current curriculum and policies.

READMISSION REQUIREMENTS FOR FORMER STUDENTS

Readmission School/College Specific Policy

College of Arts & Media

All students who have not registered and attended classes at the university for one calendar year (three consecutive semesters, including summer term) or longer must apply for readmission through the CU Denver Office of Admissions. Former music majors who have not registered at the university for three consecutive semesters (**not** including summers) may need to re-apply to the Department of Music & Entertainment Industry Studies. Contact CAM@ucdenver.edu for more details.

Due to the dynamic nature of College of Arts & Media programs, returning students who have not attended in more than five years must complete their programs based on the current curriculum and policies.

Business School

For students newly admitted to the Business School and former business students readmitted to the school after an absence of three semesters, applicable credits up to five years old will be counted toward business degree requirements. Courses more than eight years old will be evaluated individually for their current relevance to the degree program. Students may be required to update their knowledge by taking additional courses when past courses are outdated. Generally, business courses more than 8 years old will not apply toward degree credit.

A University of Colorado student from another campus, or a Denver campus student who has not registered for three consecutive semesters (summers included), is considered a former student and must reapply for admission. Former Denver campus business degree students will be automatically readmitted to the school for up to three years from the semester they last attended if they are in good standing (not on probation or suspension) in the school. Students who have not attended for more than three years, or who have completed the equivalent of 12 or more semester hours at another institution of higher education, must meet the admission and degree requirements applicable at the time they reapply.

School of Education and Human Development

All SEHD students who have not registered and attended classes on the Denver Campus for one calendar year (3 consecutive semesters, including summer) or longer must reapply for admission to the Office of Admissions. Students must be in good academic standing to be eligible to gain readmission. Students not in good academic standing will be reviewed on a case-by-case basis.

College of Liberal Arts & Sciences

Students who have attended the University of Colorado, Denver and have been admitted to the College of Liberal Arts and Sciences, but never registered and attended or have not registered for and attended classes on the Denver Campus for one year or longer (3 consecutive semesters, including summer), must reapply for admission through the Office of Admissions (per University policy). Students who are in good academic standing are eligible to gain readmission to the college, but students who are

not must follow the academic probation and suspension policies before they can be readmitted.

This policy applies to any student who meets all of the following criteria:

- Is a former degree-seeking CU Denver campus student,
- Is a former declared CLAS student, and
- Has not completed any transfer coursework since leaving CU Denver.

Once the university has readmitted a student, the following guidelines will help to determine the academic requirements and catalog that a student will follow to complete their academic program. These policies apply to all degree granting programs in the College of Liberal Arts and Sciences, including graduate programs, undergraduate majors, undergraduate minors, certificates (graduate, undergraduate and non-degree seeking), unless other program-specific policies are established and explicitly stated in the academic catalog under the academic program requirements. Students should always meet with both their CLAS advisor and program advisor(s) as soon as they are readmitted to make sure that they know what catalog and degree requirements that they must follow. Advisors will make sure that credits are applied to a student's specific degree requirements according to the best fit, and will work with the appropriate graduation certification team to make sure that the student's degree audit (when available) is accurate.

All students are responsible for requisite knowledge for courses with prerequisites. A student may have taken prerequisite coursework, but either because they have been away from the subject matter for any amount of time or because there have been new developments in the discipline in the intervening time may lack some of this requisite knowledge. Students may substantially benefit from retaking prerequisite coursework, though they will not receive duplicate credit for courses that have been taken previously and only one iteration of the course will apply toward fulfilling degree requirements.

If a student has completed a minimum of 60 credit hours that are applicable toward a degree, or the equivalent of half the coursework applicable toward the degree through their last active term, the college will allow the student to choose to either

- follow the college requirements established in the academic catalog from the admit term of their most recent matriculation, provided that the courses and curriculum are still offered, or
- follow the college requirements established in the academic catalog under their new admit term.

If a student has completed a minimum of half the coursework applicable toward a major, minor, or certificate program through their last active term, the major department will allow the student to choose to either

- follow the program requirements established in the academic catalog from the admit term of their most recent matriculation, provided that the courses and curriculum are still offered, or
- follow the program requirements established in the academic catalog under their new admit term.

Students must meet with their CLAS and departmental advisors when they are readmitted to determine which of these options are available.

If a student has completed less than 60 credit hours that are applicable toward a degree, or less than the equivalent of half the coursework applicable toward the degree through their last active term, the college requires the student to follow the college and program requirements established in the academic catalog under their new admit term.

Any exceptions to this policy will be reviewed by the Academic Standards Committee and approved by the appropriate Associate/Assistant Dean.

Students Returning Who Are in Good Standing

CU Denver students who have not registered and attended classes on the Denver Campus for one year or longer and who have not attended another institution since the University of Colorado are considered returning students and must formally apply for readmission. An additional application fee is only required if changing from undergraduate to graduate or non-degree to degree status or if a degree was earned and the student is applying for a second degree. Students applying for readmission may complete an online application (preferred) or download an application form at www.ucdenver.edu/admissions. If applying online and a fee is not required, students should indicate "pay by check" when prompted for application fee payment. The fee requirement is then removed during application processing. A paper application may also be requested by calling 303-556-2704 or by email at admissions@ucdenver.edu.

Students Returning Who Are Not in Good Academic Standing

Students on Suspension

During the one-year academic suspension period, students who wish to return to the university should consider one (or both) of the following actions:

- Attend another regionally-accredited college/university.
 - Students who choose to attend another institution while on academic suspension can take as many or as few credits as they choose, but must earn a 2.750 cumulative GPA in all transferable course work.
 - Students should consult their academic advisor to discuss appropriate course work.

Students should use the time off to directly address and resolve the factors that contributed to the academic difficulty.

After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:

- Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.750 in transferable credit.
- Explanation of their previous academic difficulty, demonstration of what has changed and how this will allow them to now achieve and maintain good academic standing (including a semester GPA of at least 2.300 and a cumulative GPA of at least a 2.000).

Students who choose to petition their college's appellate committee for re-admission must submit their petitions by the following deadlines:

- For fall admission: June 1
- For spring admission: December 1
- For Maymester/summer admission: April 1

If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be re-admitted ***on restricted academic probation***. These students must meet the condition of restricted academic probation every semester until their cumulative CU GPA is at least a 2.000.

Students Who Have Attended another College or Institution

Students who have attended another college or university since last attending the University of Colorado must apply as transfer students and meet the admission criteria and transfer student deadlines for receipt of documents. This requires payment of the \$50 (subject to change) nonrefundable application fee and submission of one official transcript from each college or university attended since last enrollment at CU Denver. Transcripts must be sent directly from the issuing institution to:

Office of Admissions
University of Colorado Denver
Campus Box 167
P. O. Box 173364
Denver, CO 80217-3364

Students Who Last Attended another University of Colorado Institution

Students who last attended another University of Colorado campus as a degree-seeking student must formally apply for admission and meet the admission criteria of CU Denver. An application fee is not required unless going from undergraduate to graduate

status, from non-degree to degree status or if a degree was earned. Students may apply online (preferred) or download a paper application at www.ucdenver.edu/admissions. If applying online, students should indicate “pay by check” when prompted for application fee payment. The fee requirement is then removed during application processing. A paper application may also be requested by calling 303-556-2704 or by e-mail at admissions@ucdenver.edu. University of Colorado transcripts are not required, but official transcripts from each college or university attended prior to enrollment at the University of Colorado must be submitted.

REGISTRATION

Academic Calendar

Consult the official CU Denver Academic Calendar to determine when registration will open and close for each term. CU Denver academic calendars for upcoming semesters can be found on the Registrar’s Office webpage.

Add/Drop Deadlines

Please review the current term’s academic calendar for the most recent add/drop deadlines by visiting the Registrar’s website at www.ucdenver.edu/registrar.

Adding a Course

From your registration time assignment to the published Add deadline, you are able to add classes through UCDAccess. If a class is closed/full, you can add your name to the waitlist (if available) through this date. See the Waitlist Policy for more information.

To add a class after the published Add Deadline date to census date, you will need to obtain the instructor’s permission by completing the Late Add form.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

College of Arts & Media (CAM) policy states that students who miss the first two class sessions of any CAM course can be administratively dropped. Likewise, students may not be permitted to add any CAM course if they have missed the first two class sessions.

Business School

Students may add courses to their original schedule through the census date (first 12 days of the fall or spring semester, first eight days of summer session). Instructor

approval is required to add a course after the first week of classes. In some cases, instructors do not allow students to add their course if the student fails to attend the first week of classes. In addition, instructors may ask that a student be administratively dropped from the course for failure to attend the first week of classes.

Course Credit Limitations by School/College

SCHOOL/COLLEGE SPECIFIC POLICY

Business School

Specifically, the school will accept:

- a maximum of 6 semester hours of the theory of physical education, theory of recreation and/or theory of dance
- a maximum of 6 semester hours of approved independent study, internships, experimental studies, choir, band and/or music lessons, art lessons
- a maximum of 12 semester hours of advanced ROTC, providing the student is enrolled in the program and completes the total program

The school will not accept: activity physical education classes, recreation, workshops, orientations, dance, teaching methods, practicums and courses reviewing basic skills in computers, English composition, mathematics and chemistry.

College of Liberal Arts and Sciences

Up to 8 semester hours of activity courses in physical education will count toward the 120 hours required for the degree.

Adding a Course After Census

To add a class after census, a Schedule Adjustment Form with both the instructor's and dean's signature needs to be submitted to the Office of the Registrar. These deadlines vary for intensive, module, and off-cycle classes.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students wishing to add a full-term course after census must file a Late Add Petition with the college for review and consideration. Contact CAMadvising@ucdenver.edu for petition guidelines.

Administrative Add Policy

SCHOOL/COLLEGE SPECIFIC POLICY

College of Liberal Arts and Sciences

The College of Liberal Arts and Sciences may provide permission to a student or may add a student to a class with student and instructor permission through Census, provided the room has capacity for that student and all prerequisites have been met, or explicit exception to a prerequisite has been granted and no other circumstances are preventing the student from being eligible, i.e. course overload, time conflict or holds that prevent normal addition of a class and require additional approvals. After Census, a student must petition and obtain permission from the appropriate assistant/associate dean for this to occur, according to deadlines posted in the academic calendar.

Administrative Drop Policy

An administrative drop is processed by university officials in the registrar's office by approval of a school/college dean's office. A student may be administratively dropped from one or more classes or withdrawn from all classes for any of the following reasons:

- failure to meet certain preconditions, including but not limited to:
 - class cancellations
 - failure to meet course prerequisites
- whenever the safety of the student, faculty member or other students in a course would be jeopardized
- academic suspension, including but not limited to failure to attain or maintain a required GPA
- as a potential sanction for a violation of the code of student conduct
- disruptive behavior determined by the chair and/or associate dean or Office of Student Conduct and Community Standards to be detrimental to the progress of the course and the education of other students

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students who miss the first two class sessions of a College of Arts & Media course can be administratively dropped. Students who never attend class should not assume that they will be automatically dropped from the course. The student is responsible for dropping courses by published deadlines. Failure to do so will result in a charge of tuition and/or fees for the class and a final grade of "F".

Business School

The school reserves the right to administratively drop students who are incorrectly enrolled in business courses. Instructors also may recommend that students who fail to meet expected course attendance or course prerequisites be dropped from the course. Generally, students who are administratively dropped will not receive tuition refunds.

In some cases, failure to attend the first week of classes may result in an administrative drop from that course.

Note: Students who never attend class are not automatically dropped from the course. The student is responsible for dropping courses and failure to do so will result in a tuition charge for the class and an F grade.

College of Liberal Arts and Sciences

The College of Liberal Arts and Sciences reserves the right to administratively drop a student from a course if s/he has not met all system enforced prerequisites or met the attendance policies as stated in course syllabi, with the approval of the appropriate assistant/associate dean. The student will be notified that an administrative drop will occur prior to that action taking place. If no administrative drop occurs, the student will be held accountable for all coursework and may receive a W or a failing grade and will be financially responsible for tuition and fees, unless a request to drop is made by the student, according to academic calendar deadlines. All administrative drops must occur prior to Census so that students do not receive a W on the transcript and are not held financially responsible for full tuition, though there may be fees incurred that students are financially responsible for paying. In the case of an administrative error, students may petition to drop a course through their CLAS advisor. If approved students will be dropped from the course, will not receive a W on the transcript and will receive a tuition refund.

Outstanding Debt/Administrative Drop Policy

Students who owe a past due debt to the university in excess of \$300 will be administratively dropped from any future terms if past due amount is not paid in full before the Friday prior to the first day of classes of the next term.

Administrative Switch Policy

SCHOOL/COLLEGE SPECIFIC POLICY

College of Liberal Arts and Sciences

The College of Liberal Arts and Sciences may grant an administrative switch from one section of a course to another section of the same course, with the approval of the appropriate assistant/associate dean, waiving the \$100 drop fee, if a student has enrolled in a section of a course in error or can demonstrate circumstances beyond their control and can no longer attend the original section of the course. This is only permitted before Census date, after which time all students will be assessed a drop fee and will receive a W on the transcript for any section of a course that is dropped, regardless of whether another section of the same course is added.

Auditing

To qualify as an auditor for fall, spring or summer semester, a student must be 21 years of age or older or approved by the registrar. Auditors may not be registered for any

other University of Colorado courses during the time they are auditing. Auditors are not eligible to audit courses if they are under suspension from the university or have outstanding financial obligations to the university.

The registrar's office does not keep any record of courses audited; therefore, credit for these courses cannot be established. Auditors may attend as many courses as they wish (except those courses with laboratories or where special equipment is used), provided they have received permission from each instructor.

An auditor's card is issued by the Bursar's Office after classes begin. An auditor's card is non-refundable. Auditors, whether resident or nonresident, pay for three semester hours of resident tuition for all audited courses during the fall, spring and or summer semester for class instruction and library privileges only. Auditors do not receive student parking privileges and are not eligible for other student services. This card should be presented to the instructor upon entering the class. For more information, contact the Bursar's Office.

Lifelong Learners Program

Area residents who are 60 years of age or older may attend classes at the University of Colorado Denver on a non-credit/non-tuition basis during the fall and spring semesters. Note: Each academic department/unit may have its own policy regarding your acceptance into a specific class. Seniors may take any course (offered at CU Denver) listed in the online course schedule except: courses which require laboratory or special equipment use, computer courses, courses offered through the Division of Extended Studies, courses with additional fees, CU online courses, CU South Denver or Anschutz Medical Campus courses, and intensive and/or module courses (i.e. Maymester, 6 week, or hybrid). Acceptance in class will be determined by the instructor, based on space availability, and the previous level of education obtained by the senior citizen student. Participants may register for classes beginning the first day of class. The last day to register for a class via the Lifelong Learners program is the second Friday after classes begin. Submissions after this day will not be reviewed. A limit of two courses may be taken per semester. Note: The instructor is NOT required to review written or oral exams, or assignments.

For more information please visit the Lifelong Learners webpage.

Intercampus Enrollment with Other CU Campuses

The Intercampus Enrollment Program is open to all CU Denver degree seeking students who are currently enrolled in CU Denver courses. This program helps students fulfill degree requirements so that they may graduate in a timely manner. Students who wish to utilize this program and enroll in courses at the Boulder or Colorado Springs campus concurrently, must meet with their Academic Advisor from their School/College at the Home (Denver) Campus to confirm that the course taken at a Host Campus is

equivalent to the course needed to graduate, and to ensure that all required prerequisites/requisites are fulfilled.

Actively-enrolled CU Denver degree seeking students may be eligible for enrollment in up to two (2) courses OR six (6) credit hours, whichever is greater, at another CU campus, by submitting the Intercampus Enrollment and Policy Form to the Registrar's Office prior to the Add Deadline date of the Host Campus (Boulder/Colorado Springs). The Intercampus Enrollment and Policy Form can be obtained by accessing the CU Denver Registrar's Office website or by visiting the office in person.

Students who wish to utilize this program must meet the following requirements for eligibility:

- Must be currently enrolled in at least one (1) course at their home campus during the term in which they are seeking enrollment at CU Boulder/CU Colorado Springs.
- Students must have their Academic Advisor confirm that all requisites have been met by the student prior to enrollment in the requested Intercampus course(s).
- Courses requested through the Intercampus Enrollment Program must be Main Campus courses. Continuing Education courses are NOT eligible under any circumstance.
- Some Undergraduate & Graduate Students may be exempt from Home campus enrollment if seeking a degree in the following programs at the campus listed:
 - Applied Mathematics (PhD) - Boulder, Denver
 - Architecture & Planning, (PhD) - Boulder, Denver
 - Civil Engineering, (PhD) - Boulder, Denver
 - Computer Science (MS & PhD) - Boulder, Denver
 - Education Administration (All Careers) - Denver
 - Electrical Engineering - Boulder, Colorado Springs, Denver
 - Geography (MA) - Boulder, Colorado Springs
 - Master of Engineering - Boulder, Colorado Springs, Denver
 - Mechanical Engineering - Boulder, Denver
 - Psychology - Boulder, Colorado Springs, Denver
 - Public Affairs - Colorado Springs, Denver

Enrollment and the dropping of Intercampus Enrollment course(s) can only be performed by the student's Home Campus Registrar's Office.

Students enrolled for course(s) at a Host Campus are responsible for requesting the adding and/or dropping of courses within the host campus's deadlines, published on the Host Campus Academic Calendar.

Any questions regarding this program should be directed to the "Home Campus" Intercampus Enrollment Coordinator within the Registrar's Office.

Holds

A hold is a service indicator that prevents registering for classes and receiving an official transcript and/or diploma. A hold can be placed on a student's record for a variety of reasons that may include financial, health, academic standing, required documentation, and advising. Students can view holds in UCDAccess. These holds should be resolved in a timely manner. Students should contact the appropriate department to get these holds addressed.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Periodically, students may find a hold placed on their registration by the Office of Advising and Student Services, requiring them to meet with a College of Arts & Media (CAM) advisor prior to registering. Students can view registration holds in the Student Center of their UCDAccess accounts. As other offices may also place a hold on a student's registration, students are encouraged to resolve any registration holds through the appropriate offices prior to their registration date/time.

All incoming CAM students will be flagged with advising holds which require a meeting with an academic advisor prior to registering for their first semester of courses. New first-year students are also required to attend New Student Orientation, and transfer students may be required to participate in an orientation as well.

Students on academic probation will have a hold placed on their registration and be required to connect with an academic advisor each semester in order to add classes. Consult the Academic Standing page in this catalog for details.

Business School

Enrollment in business classes is limited to students who have been admitted to business degree programs and to other students as described in the separate undergraduate and graduate policy sections. The course registration criteria are designed to meet a number of objectives:

- to serve students in other colleges who have business-related education objectives or requirements
- to serve non-degree students who have specific career or education goals
- to assure access to business courses for students admitted into a business degree program

Refer to the student portal each term for course availability and prerequisites.

High School Postsecondary and Concurrent Enrollment

High school juniors and seniors with demonstrated academic abilities may be admitted to CU Denver with special approval for one term only. This approval may be renewed. Credit for courses taken may subsequently be applied toward a university degree program, if applicable. For more information and application instructions, contact the Office of Admissions, 303-315-2619 or admissions@ucdenver.edu.

Independent Study

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

The College of Arts & Media (CAM) has independent study policies that determine eligibility, registration and how independent study credits may apply toward bachelor's degrees. Students should consult a CAM advisor, program director, or Department chair for specific eligibility criteria and registration procedures. The number of semester hours (1, 2, or 3) to be earned for an independent study project shall be determined at the time of registration. A maximum of 12 semester hours of independent study may apply toward the bachelor's degree and cannot be used to replace existing and available courses. Enrolling in an independent study course requires dean's/advising office approval and is not guaranteed. Please contact CAMadvising@ucdenver.edu for additional information and appropriate paperwork. Independent study should be added by the census date (add/drop deadline) as noted on the academic calendar.

Business School

Junior or senior business students desiring to work beyond regular course coverage may take variable credit courses (1-3 semester hours) as non-business electives under the direction of an instructor who approves the project, but the student must have the appropriate approval before registering. A maximum of 6 semester hours may be applied toward degree requirements. A Special Processing form must be signed by the student, the instructor, the program director and the director of advising and admissions.

College of Liberal Arts and Sciences

Independent studies are faculty-mentored, individually structured courses or research or creative projects designed and scheduled outside of the standard course grid. Independent study allows for investigations beyond the structured curriculum and classroom and exploration of content material that closely relates to faculty and student interest. However, the College of Liberal Arts and Sciences does not guarantee that credit earned through an independent study will count toward graduation requirements or be accepted as transfer credits.

The CU Denver campus requires manual registration using a Special Processing Form for students participating in independent study. This form constitutes the course syllabus agreement between faculty and student. The Special Processing Form requires (1) project title, (2) short, detailed project description, including texts and practical application of skills, and (3) explicit performance or grading criteria. The faculty should separately negotiate a schedule of meetings and deadlines with the student. The form is reviewed and approved by a CLAS Associate Dean/Assistant Dean prior to student registration.

The College faculty developed the following requirements relating to student and faculty participation in independent study. Faculty seeking to waive or modify any of the policies below should work with the appropriate CLAS Associate Dean/Assistant Dean.

Student Requirements

- Enrollment as a CLAS student or, if enrolled in another major/minor, school/college, or institution, signed authorization on the Special Processing Form by the advisor/chair/dean of the originating school/college or institution prior to review by the CLAS associate or assistant dean.
- Graduate student status for 5840 (or higher), junior or senior status for 4840, sophomore status for 2840.
- Minimum GPA of 2.5 for undergraduates and 3.0 for graduate students.
- Submission of the Special Processing Form prior to the third week of a regular semester. After the third week, a petition to add is required. Summer and intensive sessions will have different deadlines.

Faculty Requirements

- CLAS tenured, tenure-track, Clinical Teaching Track, Senior Instructor, or Instructor rank.
- CLAS graduate faculty status for faculty sponsoring graduate independent study.
- Direct, not indirect, supervision by the designated CLAS faculty member.
- For instructor-rank faculty, approval by the department chair, though all untenured faculty should limit the number of independent studies and are advised to consult with the chair before taking them on.

Project Requirements

- CLAS discipline or directly discipline related content, though may be interdisciplinary.
- Unique or individually executed project content for each student.
- Not available as, or part of, a structured course offered during the same term.
- 3 student participation hours per week for each credit hour requested. Note: 4:1 ratio in summer.

Inter-Institutional Coursework at Community College of Denver

To be eligible to participate in the Inter-Institutional program between CU Denver and the Community College of Denver (CCD), there are restrictions that will apply:

- Consult your department chair, Dean, or advisor to verify that the courses apply toward your degree requirements.
- Must be a CU Denver, degree-seeking student.
- Must be enrolled in classes at CU Denver during the same term as requested enrollment at CCD.
- Apply for Admission as a non-degree seeking student and register for classes at CCD according to their published deadlines.

- Complete the Inter-Institutional Application and Registration form.
- Registration form must be approved and signed by the student's Dean's office.
- Submit the completed Inter-Institutional forms to the Registrar's office at CU Denver for approval.
- Waitlisted CCD classes are not eligible for the Inter-Institutional program.
- Online classes are not eligible for the Inter-Institutional program.
- Credit hours taken at CCD must be equal to or less than the number of enrolled credits taken at CU Denver. Enrollment credits may not exceed 9 credit hours or two full-term classes (whichever may be higher) per semester.
- CU Denver students are required to meet all CCD course prerequisites prior to registration. Tuition fees for all classes will be billed through CU Denver and payment must be made according to published deadlines.
- Enrollment credit hours at CCD through the Inter-Institutional program are not eligible for Financial Aid.
- Students must follow the CCD academic calendar concerning all deadline dates.
- Courses must be added or dropped by the published date on the Inter-Institutional form.
- It is the student's responsibility to verify all CCD deadline dates, as they are different than CU Denver's Academic Calendar deadlines.
- Any registration modifications must be submitted to both Registrar Offices at CCD and CU Denver.
- If classes are not dropped by CCD's drop deadline date, you may receive an "F" as a letter grade on your transcripts.
- At the end of the term, CU Denver students must obtain an official transcript from CCD and submit it to CU Denver Transfer Articulation for transfer credits.

Internships

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Internships provide important educational and professional experience. A maximum of 3 semester hours of internship credit per semester and 9 semester hours overall is allowed. Internship credit may not be awarded retroactively or after the student begins internship hours. Students should consult with an academic advisor about the counting of internship credits in their degree plans.

The college requires that students have the following to qualify for an internship:

- 60 completed semester hours
- Minimum of a 2.75 cumulative University of Colorado GPA

Specific academic programs may have additional eligibility requirements for an internship. Students seeking an internship should consult with the college's Office of

Advising and Student Services and the Experiential Learning Center. Additional information is available by contacting CAMadvising@ucdenver.edu. Occasionally opportunities arise mid-semester; in such cases, students must file a Special Processing Form to add the course and, depending on the date, may be required to petition the associate dean for approval to add an internship.

Business School

Internships are included in the experiential learning requirement of the undergraduate business program. To be eligible to enroll in an internship for experiential learning credit, the undergraduate student must meet the following grade and course work requirements:

- the student must be in good standing with a cumulative GPA of at least 2.750, and a GPA in the area of emphasis of at least 2.000
- the student must have completed (a) all required lower-division course work and (b) at least 21 semester hours of the business core courses

Graduate students must be admitted to the Business School, be in good standing with at least a 3.000 GPA and have completed 15 semester hours of graduate work on the Denver Campus.

Interested students should contact the Experiential Learning Center (303-556-6656) for further details about the program.

School of Education and Human Development

Internships are a large part of our work in SEHD, but have varying requirements by program. Please refer to program handbooks and materials for policies regarding internships.

College of Engineering, Design and Computing

Internships are a way for students to gain professional experience while studying at CU Denver. Many internship positions lead to permanent employment opportunities upon graduation. Contact the Experiential Learning Center at 303-315-7258 for information on the specific eligibility requirements.

College of Liberal Arts and Sciences

Undergraduate students may seek credit from an employment experience that contains academic content and is sponsored by a CLAS faculty member. Internships are helpful for career exploration early in a student's academic career or for job experience after developing academic content in the major.

Students must have a minimum 2.750 cumulative GPA in a minimum of 15 credit hours of CU Denver course work. A maximum of 12 credit hours of internship credit per semester and 12 credit hours overall can be applied toward graduation. Undergraduate students should contact the Experiential Learning Center for details about the internship contract and faculty sponsorship requirements.

Pooled Courses at Metropolitan State University of Denver

Certain courses in the College of Liberal Arts and Sciences and the College of Arts & Media at CU Denver may be taken by MSU Denver students and a number of courses at Metropolitan State University of Denver (MSU Denver) may be taken by CU Denver students. Pooled courses and restrictions/policies are listed on the Metro Pooled website each semester. Undergraduate students at the University of Colorado Denver Campus can register for pooled classes in UCDAccess using the 5-digit class number. Some restrictions apply to the pooled courses.

Proficiency Testing

Degree students may take examinations for credit. To qualify for an examination, the student must be formally working toward a degree at CU Denver, have a GPA of at least 2.000 and be currently registered. Contact the registrar's office for instructions. A nonrefundable fee is charged. Students should contact their degree advising office to determine whether the credit will apply to their degree.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

Students with sufficient experience and knowledge may contact CAMadvising@ucdenver.edu to discuss testing out of required course work. The College of Arts & Media does not waive credits or requirements; thus, if students successfully demonstrate mastery of the material (as determined by the appropriate faculty), they will be advised into substitute courses.

College of Liberal Arts and Sciences

Students with sufficient experience and knowledge may receive credit for a specific course by taking a comprehensive examination given by the faculty.

Registration

CU Denver students can register and obtain information regarding their academic and financial records by logging into their UCD Access portal.

Online registration allows the student to check the availability of specific courses prior to their registration time and to search for available courses by department, course level or meeting time. If registration in a course is denied, the reason will be specified in UCD Access.

Enrollment Appointment

An enrollment appointment is a specific time and date at which a student can register for classes through UCDAccess. This enrollment appointment is assigned to a student the semester prior to the term of registration. Students cannot enroll for classes prior to

the date and time specified. Enrollment appointment dates are based on the number of academic hours completed. Enrollment appointment times are randomly assigned in fifteen minute timeslots. Students can check the UCDAccess student portal for their specific enrollment appointment date and time. The general progression of registration will start with graduate students, 5th-year seniors, seniors, juniors, sophomore, freshman, and non-degree students. Students who register as soon as their enrollment appointment begins are more likely to find space in the courses they prefer.

Course Load/Restriction

In most cases, students wishing to take more than 18 semester hours (12 in the summer session) must have the overload approved by the dean of their college or school. Consult the individual college or school for specific guidelines as to course-load restrictions.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

Full-time Students. Undergraduate students employed less than 10 hours per week should consider registering for courses as outlined in the departmental curricula. Additional courses may be allowed when there is satisfactory evidence that the student has the capability to handle the added load. Permission to take more than 19 hours may be granted by written petition and approval of the department chair and the dean's office.

Registration for Non-Degree Seeking Students

Students who have been matriculated as Main Campus Non-Degree are eligible to enroll in classes that are offered as part of a degree program or as part of Extended Studies. Main Campus Non-Degree Seeking students can register during Open Enrollment, which begins after enrollment periods for degree-seeking students. Students who have been matriculated as Continuing and Professional Education are only eligible to enroll in Extended Studies classes. Enrollment periods for these courses vary because not all of them meet in accordance with the regular semester. Students should check with the school or department offering the Extended Studies course or program for drop/add deadlines, course details, and eligibility.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

Non-degree students may apply 12 semester hours of course work (or up to 18 if taken in one semester) toward a bachelor's degree in engineering from CU Denver. Non-degree graduate students may apply 9 semester hours of graduate-level course work toward a master's degree in engineering from CU Denver.

Registration Status

Individual students receiving financial aid may be required to complete hours in addition to those listed below. The exact requirements for financial aid will be listed in the student's financial aid award letter.

Undergraduates and non-degree graduate students:

- Full-time 12 or more semester hours
- Half-time 6 - 11.5 semester hours

Graduate degree students:

- Full-time
 - 5 or more semester hours
 - 0 semester hours as a candidate for degree
 - 1 or more semester hours of thesis or dissertation (not master's reports or thesis preparation)
- Half-time:
 - 3 - 4.5 semester hours

Notes:

Enrollment verification including full-time/part-time attendance can be certified beginning the first day of class.

Hours for calculating full-time/part-time attendance do not include interinstitutional hours, nor do they include hours on another CU campus, unless the student is enrolled through concurrent registration.

Students receiving veteran benefits should contact the Veteran Student Services manager for the definition of full-time status for summer sessions. Contact information: 303-556-2745 or vaoffice@ucdenver.edu.

Individual exceptions to the minimum graduate course-load levels are considered for financial aid purposes by the financial aid committee. Students must file a written appeal with the Office of Financial Aid.

Student Classification

Students are classified according to the number of semester hours passed:

Freshman	0-29 hours
Sophomore	30-59 hours
Junior	60-89 hours
Senior	90+ hours

All transfer students will be classified on the same basis according to their hours of credit accepted by the University of Colorado.

Waitlist Policy

If you are eligible to take a class but find that it is closed/full, you may request to be placed on a waitlist (if available) through UCDAccess. Placing your name on a waitlist does not guarantee that you will be enrolled in that class. However, waitlists have proven to be a very effective tool for students wishing to register in closed classes.

You cannot be enrolled in and/or waitlisted for classes offered at the same time. You cannot be enrolled/waitlisted for two sections of the same class (except in the case of Special Topics classes). Use the 'drop this class if enrolled' function in UCDAccess to maximize your enrollment choices.

Monitor your status on the waitlist; you will be enrolled for the class if there is space. You may attend all classes until you confirm whether or not you are officially enrolled in the class. You are responsible for the tuition if you become enrolled from the waitlist, even if you do not attend. If you do not wish to take the class, you are responsible to drop it according to the published deadlines in the Academic Calendar on the Office of the Registrar's webpage.

Waitlist Positions and Enrollment

When someone drops a closed class, the student who is next on the waitlist is automatically enrolled. Schools and colleges reserve the right to make exceptions to manage their waitlists based on unique needs and circumstances. Please check your class schedule on UCDAccess to see if you have been enrolled in the class(es).

CU Online-Waitlisted Courses

You will have access to an online class while you are on the waitlist. While you are waiting for confirmation or denial of enrollment, you may participate in a waitlisted online class as well. After the first week of class, if you have not been automatically enrolled into the class, you will be dropped. If you want to be added to a closed class, you must obtain permission from the instructor. Contact CU Online for assistance in contacting the instructor.

Dropping Waitlisted Courses

If you choose not to remain on a waitlist, drop the class as soon as possible. Or if you find that you have been enrolled in a class that you no longer want, drop the class as soon as possible.

Withdrawing From a Course

From census until the 10th week of classes, a student may withdraw from most courses using the UCDAccess Portal.

Students may be financially responsible for part or all tuition and fees for any class drops or withdrawals and drops or withdrawals may lead to adjustments to financial aid/awards packages, Department of Veteran Affairs education benefits, or other eligibility/benefits that are dependent upon enrollment status. Class drops or withdrawals may impact immigration status for international students. A W grade appears on the transcript after published deadlines. Contact the Registrar's Office with questions about class drops or withdrawals.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

After the tenth week of the semester, dropping a course requires a petition signed by the department chair and the Assistant Dean for Academic Affairs. Only under very extenuating circumstances, such as a documented medical or personal emergency, will petitions for dropping courses be approved after the tenth week of the semester.

To Withdraw from CU Denver

To withdraw from the University of Colorado Denver, students must withdraw from all courses for the semester. Through the 10th week of the semester (4th week for summer semester), students can withdraw from most classes through the UCD Access Portal. If unable to withdraw in UCDAccess, students should contact their student advisor. At the start of the 11th week (5th week for summer semester) through the Wednesday before finals week, students submit a Late Withdrawal Petition to their home college. After the Wednesday before finals week, students submit a Retroactive Withdrawal Petition to their home college. See the Academic Calendar for all withdrawal deadlines.

If the Late Withdrawal or Retroactive Withdrawal petition is approved, students are withdrawn from the courses indicated on the petition and a grade of W is recorded on their academic record. If the Late Withdrawal or Retroactive Withdrawal petition is not approved, students remain enrolled in the course.

Prior to the census date (see Academic Calendar), withdrawn classes are not recorded on the student's academic record. After census date, withdrawn courses are recorded on the student's academic record with a grade of W. A student who stops attending classes without officially withdrawing from classes will receive grades based on the work they completed in the course, according to course and college specific grading policies.

Medical Withdrawal

A student who wishes to withdraw under the Medical Withdrawal Policy must withdraw from all classes. Additionally, international students must contact their assigned International Services Specialist to discuss visa implications associated with withdrawing. Students seeking to withdraw for non-medical reasons will need to review

the withdrawal policies and procedures for their respective school or college. For more information, see The Office of Case Management.

Retroactive Drop/Withdrawal

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

After the completion of a semester, students wishing to attempt to withdraw from one or more courses in that semester must file a petition for retroactive action with the College of Arts & Media. Petitions should include documentation of circumstances that were beyond the student's control and that impacted the grade(s) and the student's ability to withdraw from the course(s) before the end of the semester. Petitions should be submitted within one year of the end of the original semester.

Contact CAMadvising@ucdenver.edu for petition guidelines. If the petition is approved, the course(s) and grade(s) of W will appear on the transcript; students remain responsible for all tuition and fees associated with the course(s).

College of Liberal Arts and Sciences

In the event of circumstances that preclude a student from attending class, it is the student's responsibility to carry out drop procedures before the end of the semester. It is against normal college policy to allow a student to drop after the completion of the semester for which grades are already posted.

Students who must stop attending one or more of the classes in which they are enrolled for a term, but who fail to properly drop, may be eligible for a retroactive drop or withdrawal. Courses must have occurred no more than seven years prior to the date of the retroactive drop/withdrawal petition to be eligible.

It is the responsibility of the student seeking a retroactive drop/withdrawal to submit a complete written petition. Detailed instructions can be obtained from the CLAS Academic Advising Office, or the Graduate School for graduate students.

College of Engineering, Design and Computing

The university specifies the date up to which students may drop a course using the online course registration and schedule adjustment system. This date usually occurs at the end of the first week of classes for that semester. After this date, students must use a Schedule Adjustment Form to add or drop courses from their schedules. This form requires the signature of the course instructor. Beyond the end of the tenth week of the semester, this form also requires the signature of the department advisor in which the student is majoring. The student's department will verify that the course being dropped is not a co-requisite to another course in which the student is enrolled that semester. If so, then the other course must also be dropped. A course withdrawal after the tenth week of the semester is at the discretion of the instructor and the student's department,

and signatures must be obtained from both. No course withdrawals will be approved after the end of the 14th week of the semester for any reason except unforeseen circumstances beyond the student's control.

A complete withdrawal from the semester requires the same Schedule Adjustment form, but it only requires the signature of the dean of the student's college and the Financial Aid Office, if applicable.

Note: The student is responsible to inform the university offices of any change in schedule that may affect enrollment requirements for items such as financial aid, scholarships, or international visas.

Student Rights

FERPA

FERPA: FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

FERPA is a federal privacy law that protects students' educational records. Under this law, students have three primary rights:

- Inspect and review their education records.
- Seek to amend incorrect education records.
- Have some control over the disclosure of information from their education record.

FERPA directory information is information contained in a student's education record that generally would not be considered harmful or an invasion of privacy if disclosed. Under current CU Denver policy, the following information is designated as directory information:

- Student name. If provided, a preferred name will be used when there is not a documented business or legal reason to provide a student's primary name. Students may also select a diploma name for graduation and commencement materials.
- Hometown (city, state).
- Campus email address.*
- Dates of attendance.
- Previous educational institutions attended.
- School/college or division of enrollment.
- Majors, minors and field of study.
- Classification level (e.g., freshman, sophomore, graduate student).
- University-recognized honors and awards.
- Degree status (e.g. expected graduation date and/or conferral dates/terms).
- Enrollment status.
- Employment related to student status (e.g. teaching assistant, resident assistant or work-study) and dates for positions held.
- Participation in officially recognized activities/sports, including height and weight of athletes.
- Photos and videos taken or maintained by the university.

*Campus email addresses are only disclosed to requestors who agree not to use them for solicitation.

Although these items are designated by CU Denver as directory information, only a limited amount of this information is routinely disclosed by CU Denver university officials. The university retains the discretion to refuse disclosure of directory information if it believes such disclosure would be an infringement on student privacy rights.

Students may ask the University not to publicly disclose directory information. Be aware, however, if you are seeking employment, the Registrar's Office cannot release your enrollment, degree status or major to anyone unless you come to the Registrar's Office with a photo ID.

Forms to prevent disclosure of directory information can be obtained at the Registrar's Office, located in the Student Commons Building, or via the Registrar's website at www.ucdenver.edu/registrar.

Information that is never released without your consent includes grades, tuition/fees owed, financial aid, etc. If you would like to give permission to someone else to have access to that information, you can submit a Release of Confidential Information Form to the Office of the Registrar. This form also must be submitted in person.

More information about FERPA can be found in the University Catalog. If you have questions regarding your rights under FERPA, please contact the Office of the Registrar.

Policies and Procedures

University Policies

Phone: 303-315-2724

Website: http://www.ucdenver.edu/faculty_staff/employees/policies/pages/default.aspx

The Office of Policy and Efficiency - with input from system and campus policy owners - develops, oversees and maintains the University's system wide policy-making process; facilitates the development, review, approval, and maintenance of University-wide policies.

Policies include:

- Inclusiveness and Non-Discrimination
- Anti-Violence Policy
- Sexual Harassment

- Drugs and Alcohol Policy

For further information on University Policies please contact an individual via the information above.

Campus Policies

Phone: 303-315-2102 **Email:** policy@ucdenver.edu

Website: http://www.ucdenver.edu/faculty_staff/employees/policies/Pages/default.aspx

The Campus Policy Office resides in the Provost Office. This office oversees all development, coordination, management, rescissions and archives for all CU Denver and CU Anschutz campus policies.

Policies include:

- Academic & Faculty Affairs
- Finance
- General Administration
- Human Resources
- Information Technology
- Research
- Student Affairs

For further information on campus-level policies please contact an individual via the information above.

Academic Integrity And Discipline Policies

CU Denver Campus Policy 7050, Academic Integrity, defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as (1) a student's use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or (2) actions that interfere with the ability of the instructor to fairly judge the work of the student or other students. Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one's responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their

academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for more detailed definition)

Students are expected to know, understand and comply with the ethical standards of the university. Academic dishonesty is defined as a student's use of unauthorized assistance with intent to deceive an instructor or other such people who may be assigned to evaluate the student's work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

A. Plagiarism

Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.

B. Cheating

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.

C. Fabrication and Falsification

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.

D. Multiple Submissions

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

E. Misuse of Academic Materials

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, falsification of university documents.

F. Complicity in Academic Dishonesty

Complicity involves knowingly allowing or contributing to another's academic misconduct.

School/College Specific Policy

Business School

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of

examinations, alteration, forgery, falsification of official records and similar acts or any attempt to engage in such acts are grounds for suspension or expulsion from the university. In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student's own. It is recommended that students consult with the instructors as to the proper preparation of reports, papers, etc., to avoid this and similar offenses. Also, actions that disrupt the administrative process, such as misrepresentation of credentials or academic status, other forms of deception or verbal abuse of university staff are grounds for suspension or probation. All discovered acts of dishonesty must be referred to the Business School's Internal Affairs Committee.

College of Engineering, Design and Computing

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery or falsification of official records and similar acts or attempts to engage in such acts are grounds for suspension or expulsion from the university.

In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student's own.

The college has a Student Honor Code that all students are required to sign when they meet with their academic advisor. The code outlines the college's expectations of its students and faculty in establishing and maintaining the highest standards in academic work and is available on the college website (<http://engineering.ucdenver.edu>) under Student Services > Policies and Forms.

The college also has a committee on discipline that hears cases of alleged violations of academic ethics and recommends disciplinary action. In a case of proven academic dishonesty/misconduct, the committee may invoke penalties that may include probation, suspension or expulsion. In a case of suspension or expulsion, a distinction may be placed on a student's academic record indicating the action was due to academic dishonesty/misconduct. Students who suspect or observe violations of academic ethics should report them to their instructor, the department chair or the Office of the Dean.

In addition, there is a student Academic Honor Code at CU Denver. The code is published in a brochure available from the Office of Student Life. Information regarding all student grievance procedures may be obtained in that office.

College of Liberal Arts and Sciences

As members of the CU Denver academic community, faculty and students accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in all forms of academic work. While most violations center around cheating or plagiarism, the CU Denver Academic Honor Code is more comprehensive and includes the following categories: plagiarism, cheating, fabrication and falsification, multiple submission, misuse of academic materials and complicity in academic dishonesty.

The CLAS Academic Ethics Committee, composed of faculty, students and staff, is charged with establishing academic ethics policies and, when necessary, evaluating ethics charges against students. Faculty and students should be familiar with the Academic Honor Code for the Denver campus (see the Academic Policies chapter) and the CLAS Academic Ethics Policies, available from the CLAS Academic Advising Office, North Classroom, 1030 and online.

Faculty who charge student(s) with a violation of the Academic Honor Code may lower a student's grade without review. If the faculty decision concerning the alleged violation affects the student's assignment or course grade, a letter to the student is required with copies to the Department Chair and the CLAS Associate Dean for Student Affairs. Students charged with an ethics violation are required to continue to participate in the class and may appeal the faculty decision to the CLAS Academic Ethics Committee. Students charged with a violation of the Academic Honor Code are encouraged to meet with an advisor in the CLAS Academic Advising Office to review their rights and obtain assistance with procedures.

Email Account

Email is an official means for communication within CU Denver. Therefore, CU Denver has the right to send communications to students/staff/faculty via email and the right to expect that those communications will be received and read in a timely fashion.

Student Bill of Rights

The University of Colorado Denver subscribes to the Student Bill of Rights as defined in HB 01-1263. Students enrolled in public institutions of higher education shall have the following rights:

- (a) Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
- (b) A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
- (c) Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
- (d) Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
- (e) Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
- (f) Students have a right to know if courses from one or more public higher education institutions satisfy the students' degree requirements;
- (g) A student's credit for the completion of the core requirements and core courses

shall not expire for ten years from the date of initial enrollment and shall be transferrable.

Student Code of Conduct

The following section is based in part on Regent Law 7.B.3. The behaviors listed below are prohibited, as are attempts to commit, aid, abet, or incite others to engage in behavior prohibited by the code of student conduct. All behaviors contained in this code of conduct are subject to the conduct process. Engaging in retaliatory acts against a person who reports an alleged violation of the code or testifies, assists, or participates in a conduct proceeding or investigation is a violation of this code.

1. Assaulting or physically abusing another person or being involved in brawling.
 - In the case of a student who is found responsible via the conduct process to have caused severe injury or bodily harm, the minimum sanction shall be suspension. Severe injury and bodily harm include but is not limited to the following: broken bones, concussions, lacerations, etc.
2. Threatening or endangering the mental and/or physical health or safety of a person.
3. Public Exposure: Public exposure includes deliberately and publicly exposing one's intimate body parts, public urination, defecation, and public sex acts.
4. Non-Gender/Sex-Based Stalking: Means directly or indirectly through another person, repeatedly following, approaching, contacting, placing under surveillance or making any form of communication with another person, a member of that person's immediate family or someone with whom that person has or has had a continuing relationship, whether or not a conversation ensues in a manner that would cause a reasonable person to, (a) fear for his or her safety or the safety of others or; (b) suffer substantial emotional distress, including causing a person to respond by altering their activities.
5. Hazing: Any action or situation that recklessly or intentionally endangers the health, safety, or welfare of an individual for the purpose of initiation, participation, admission into or affiliation with any organization at the university. Hazing includes, but is not limited to, any abuse of a mental or physical nature, forced consumption of any food, liquor, drugs, or substances, or any forced physical activity that could adversely affect the health or safety of an individual. Hazing also includes any activity that would subject the individual to embarrassment or humiliation, the willingness of the participant in such activity notwithstanding. (See Appendix 5)
6. Abusive Behavior, including verbal abuse, threats, intimidation, coercion, or other behavior which has caused a person substantial emotional distress and where the circumstances would cause a reasonable person to suffer substantial emotional distress
 - This policy should not be construed, and will not be enacted, to deny any student the right of free speech and expression.
7. Bullying: Severe aggressive behavior likely to intimidate or intentionally harm, control, or diminish another person, physically or mentally (that is not speech or behavior otherwise protected by the First Amendment)

- Cyber-Bullying occurs when an individual is tormented, threatened, harassed, humiliated, embarrassed, or otherwise targeted by another person using the internet, interactive and digital technologies or mobile phones.
8. Violating any federal, state, or local law or university regulation or policy. University policies may include but are not limited to:
 - Nondiscrimination Procedures
 - Ethical Use of Computing Policy
 9. Interference, Obstruction, or Disruption of University Activity: Materially and substantially interfering with, obstructing, or disrupting a university activity.
 - University activities include, but are not limited to, all normal university activities, such as teaching, research, recreation, meetings, public events, and disciplinary proceedings.
 - This prohibition includes, but is not limited to, the following: behavior disruptive of university functions; Behavior resulting in injury to persons or damage to property on the campus; and interference, obstruction, or disruption of the freedom of movement of students, or other members of the university community and their guests. Interference in any manner with the public or private rights of citizens, Behavior that threatens or endangers the health or safety of any person, and damage to property are prohibited.
 10. Interfering with, obstructing, or disrupting police or fire responses. This prohibition includes, but is not limited to:
 - Resisting arrest.
 - Failing to abide by the directions of a peace officer.
 - Tampering with, impairing, disabling, or misusing fire protection systems such as smoke detectors, fire extinguishers, sprinklers, or alarms.
 - Failing to evacuate during a fire alarm.
 - Arson/setting fires.
 11. Failing to comply with the direction of university and Campus Village employees who are performing their duties. Students are required to comply with instructions or directions given by university and Campus Village employees.
 12. Knowingly providing false information to university employees, student conduct educators, or peace officers in performance of their duties. This section prohibits the use of false identification or the identification of another person to gain entrance to a facility or business. This also includes forging, altering, falsifying or misusing documents or records, or knowingly using/possessing forged, altered or false documents or records.
 13. Retaliating against or discouraging an individual from participating in a University process, or acting in any way that would improperly influence a university conduct process.
 14. Violating any policy or procedure listed in the Campus Village Apartments Resident Handbook while in Campus Village. See a complete list of Campus Village policies and procedures by [clicking here](#).
 15. Unauthorized entry into, exit from, or presence in a University facility or on university property, including Campus Village Apartments, or property belonging to another.
 16. Damaging University property or property belonging to another.

17. Engaging in, inciting, or arming someone for a riot or public disturbance (see Appendix 4)
18. Use of an electronic or other device to make an audio and/or visual recording of another person (including, but not limited to photographing, videotaping, filming, or audio recording) without the person's expressed permission when such recording causes the person to suffer substantial emotional distress and would cause a reasonable person to suffer substantial emotional distress. The storing, sharing, and/or distribution of such records by any means is also prohibited.
19. Possessing firearms, explosives, fireworks, incendiary devices, ammunition, or other weapons on campus except as permitted by law. "Weapon" as used in this provision may be an instrument of offensive or defensive combat; anything used, or designed to be used, in destroying, defeating, or injuring a person; an instrumentality designed or likely to produce bodily harm. A weapon may include, but not be limited to, the following: any firearm, slingshot, cross-knuckles, knuckles of lead, brass or other metal, any bowie knife, dirk, dagger or similar knife, or any knife having the appearance of a pocket knife, the blade of which can be opened by a flick of a button, pressure on the handle or other mechanical contrivance. A harmless instrument designed to look like a firearm, explosive, or dangerous weapon which is used by or is in the possession of a person with the intent to cause fear in or assault to another person is expressly included within the meaning of weapon. See Regents Policy 14.

Note: Students, faculty, and staff possessing valid Concealed Handgun Permits are allowed to carry concealed handguns on campus in accordance with the law.

20. Theft, including but not limited to, possessing property known to be stolen, or taking property of another without permission, even with an intent to return the property.
21. Possessing, using, providing, manufacturing, distributing, or selling drugs or drug paraphernalia in violation of law or University policies. Use or possession of marijuana, including medical marijuana used or possessed under Colorado Constitution Article 18, section 14, is strictly prohibited on campus. Any such use or possession is a violation of the student conduct code.

In addition, the state constitutional amendment authorizing individuals over the age of 21 to recreationally use marijuana ("Amendment 64") does not change this prohibition or authorize a student to use marijuana. Federal law, including the Drug Free Schools Act, prohibits the presence or use of drugs, including marijuana. Thus marijuana use or possession, even if in compliance with Amendment 64, is prohibited on campus.

- Students may violate the student code of conduct if in the presence of prohibited behavior involving drugs. This includes students who knew, or reasonably should have known they were in the presence of drugs, or possessed, displayed, or was in the presence of drug paraphernalia.
- Misuse of legal substances; use of general products as intoxicants or "means to get high"; and inhaling or ingesting a substance (including but not limited to nitrous oxide, glue, paint, gasoline, solvent, etc.) other than in connection with its intended purpose is also prohibited.
- Driving while under the influence of drugs

- Use of a prescription drug other than by the person to whom the drug is prescribed and in accordance with the prescription is prohibited. This includes sharing drugs such as Ritalin or Adderall.
 - Attending classes or university functions under the influence of drugs shall also be considered a violation of this code. This includes disruptive Behavior while under the influence of alcohol at official university functions.
22. Possessing, using, providing, manufacturing, distributing, or selling alcoholic beverages in violation of law or university policies.
- If an underage student is in Campus Village Apartments, this prohibition includes a student who knew, or reasonably should have known they were in the presence of alcoholic beverages, or possessed, displayed, or was in the presence of alcohol containers.
 - Attending classes or university functions under the influence of alcohol shall also be considered a violation of this code. This includes disruptive behavior while under the influence of alcohol at official university functions where alcohol is served.
 - Driving while under the influence of alcohol.

The health and safety of members of the University of Colorado Denver is the primary concerns of the university. The university is committed to ensuring that students obtain timely medical assistance for themselves and for their peers. To this end, we have instituted a “Good Samaritan” provision for drug, alcohol, and Intimate Partner violence related incidents. For more information about this provision please see Appendix 2.

The complete Code of Conduct, including a detailed explanation of the conduct process and sanctions, can be found online on the Student Conduct and Community Standards website.

You can also visit the Student Conduct and Community Standards office in the Tivoli Student Union Room 309.

TRANSFER CREDIT

Advanced Placement (AP) Program

The Advanced Placement Program of the College Entrance Examination Board (CEEB) allows students to take advanced work while in high school and then be examined for credit at the college level. Students who take advanced placement courses and subsequently receive scores of 3, 4 or 5 on the CEEB Advanced Placement Examination are generally given college credit for lower-level courses in which they have demonstrated proficiency. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

Advanced Placement (AP) Chart

International Baccalaureate (IB) Diploma Program

The International Baccalaureate Diploma Program (IB), available at select high schools, is a rigorous, pre-university course of study emphasizing liberal arts from an international perspective.

In accordance with HB 03-1108, CU Denver will grant at minimum 24 semester hours of credit for any student who has graduated from high school having successfully completed an International Baccalaureate diploma program with a minimum score of 4 on each exam. Credit may be granted for individual IB courses where examinations are completed with at least a score of 4 for students who do not complete an IB diploma program. Refer to the following chart for general information and consult with your advisor to determine how the credit can be applied to your specific degree program. Original, official IB transcripts with exam scores must be submitted to the Office of Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2016. Students admitted prior to fall 2016 should consult the University Catalog corresponding to the year in which the exam was taken.

International Baccalaureate (IB) Chart

College-Level Examination Program (CLEP)

Incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the College-Level Examination Program (CLEP) of the College Entrance Examination Board (CEEB) testing service.

Acceptable CLEP examinations and credit awards are outlined in the following chart. Original, official CLEP score reports must be submitted to the Office of Admissions for credit award consideration.

This chart represents credit awarded for exams taken from August 2019 and later. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

Select CLEP Exams taken January 2019 and later will receive gtPathways credit.

Transfer of CLEP (College Level Examination Program) gtPathways

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

Students may earn credit through certain College-Level Examination Program (CLEP) examinations, provided that they score at the 50th percentile or above. CLEP credit may be applied toward graduation if comparable to CU Denver coursework included in the College of Engineering curriculum. Official CLEP score reports are required for transfer credit consideration.

College of Liberal Arts and Sciences

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to a separate evaluation by the faculty advisor in the department or program. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit will count toward the degree.

Cambridge A-Levels

Incoming students may earn credit from the Cambridge A-Level examinations. Cambridge A-Levels are internationally benchmarked qualifications providing excellent preparation for university education. They are taken in over 125 countries and offer a wide variety of different subjects. Cambridge International A-Level qualifications are widely recognized and valued by universities and employers alike. CU Denver does not recognize AS-Levels currently. The acceptable A-Level examinations and credit awards are outlined in the chart linked below. Original, official A-Level score reports must be submitted to International Admissions for credit award consideration.

This chart represents credit awarded for exams taken during the 2018-2019 catalog year. For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information.

A-Level Exams

Joint Services Transcript Credit

Beginning Spring 2019, select courses and occupations from the Joint Services Transcript qualify for the Colorado gtPathways program. The courses and occupations in this chart can apply to CU Denver's Undergraduate Core Curriculum. An official copy of the Joint Service Transcript is required for evaluation.

Transfer of Joint Service Transcript Military Occupations Evaluation

Military Experience Credit

It is the policy of CU Denver to award transfer credit for military courses and/or military service based on the recommendations of the American Council on Education (ACE)'s

Guide to the Evaluation of Education Experiences in the Armed Services, provided such credit is generally applicable to CU Denver programs of study. For military transcripts such as CCAF and AARTS, transfer credit is considered on the same basis as transcripts from traditional collegiate institutions.

Upon review of the Certificate of Release of Discharge from Active Duty form (DD-214)/Member 4 Service 2 or additional documentation as required either elective or core course credit will be awarded based on ACE recommendations.

Element of Service	Course Awarded	Credit Hours Awarded	CU Denver Undergraduate Core Curriculum Category or Requirement Fulfilled
Basic Training	HUMN 1999ME	3	Humanities
Non- Commissioned Officer's Course	SSCI 1999ME	3	Social Science
Overseas Deployment of at Least 6 Months	None	None	International Perspectives (Waived of Requirement)
Military Language Training Institute	None	None	School/College Foreign Language Graduation Requirement (Waived of Requirement)
Enlisted Rank E4 or higher	None	None	Business Experiential Learning Requirement (Waived of Requirement for Business Majors Only)
Rank E4 or below	XFCR 1999ME	6	General Elective Credit
Rank E5 or higher/ More than 1 enlisted term (5+ years)	XFCR 1999ME and XFCR3999ME	12	General Elective Credit (6 lower division credits and 6 upper division credits)

The applicability of electives is determined by the student's major and/or college.

For any questions or further information regarding military credit transfer, please contact the CU Denver Veteran and Military Student Services at 303-315-7300

DSST/ DANTES Exam Credit

Beginning January 2019, incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the DSST/DANTES testing as a part of their Military Service

Acceptable DSST examinations and credit awards are outlined in the following chart. Original, official DSST score reports must be submitted to the Office of Admissions for credit award consideration.

Transfer of DSST/DANTES Exams

Accepted Courses for Transfer

Military Service and Schooling

To have credit for educational experiences evaluated, applicants with military experience will be required to submit the DD-214 to the Office of Veterans Student Services. Applicants should also submit the Smart Transcript and official Dantes Subject Standard Test (DSST) score reports (if applicable) to the Office of Admissions for additional credit consideration. For students with other military credit for which a separate transcript is issued, such as Community College of the Air Force (CCAF) or Army/American Council on Education Registry Transcript System (AARTS), official transcripts should be sent to the Office of Admissions.

It is the policy of CU Denver to award transfer credit for military courses and/or military service based on the recommendations of the American Council on Education (ACE)'s Guide to the Evaluation of Education Experiences in the Armed Services, provided such credit is generally applicable to CU Denver programs of study. For DSST exams, only upper-level credit as recommended by the ACE guide is considered in transfer. For military transcripts such as CCAF and AARTS, transfer credit is considered on the same basis as transcripts from traditional collegiate institutions.

Upon review of the Certificate of Release of Discharge from Active Duty form (DD-214)/Member 4 Service 2 or additional documentation as required either elective or core course credit will be awarded based on ACE recommendations.

Element of Service	Course Awarded	Credit Hours Awarded	CU Denver Undergraduate Core Curriculum Category or Requirement Fulfilled
Basic Training	HUMN 1999ME	3	Humanities
Non- Commissioned Officer's Course	SSCI 1999ME	3	Social Science
Overseas Deployment of at Least 6 Months	None	None	International Perspectives (Waived of Requirement)
Military Language Training Institute	None	None	School/College Foreign Language Graduation Requirement (Waived of Requirement)
Enlisted Rank E4 or higher	None	None	Business Experiential Learning Requirement (Waived of Requirement for Business Majors Only)
Rank E4 or below	XFCR 1999ME	6	General Elective Credit

Rank E5 or higher/ More than 1 enlisted term (5+ years)	XFCR 1999ME and XFCR3999ME	12	General Elective Credit (6 lower division credits and 6 upper division credits)
---	----------------------------	----	---

The applicability of electives is determined by the student's major and/or college.

For any questions or further information regarding military credit transfer, please contact the CU Denver Office of Veteran Student Services at 303-556-2745 (DD-214 credit consideration).

Other University of Colorado Campus Coursework

A current CU Denver student can take courses at other University of Colorado campuses. Those campuses include Boulder and Colorado Springs. However, courses taken at another University of Colorado campus are subject to various transfer rules as stated below:

- When the course is taken, all coursework needs to be submitted to the Office of Admissions
- Courses will be calculated into the CU Denver cumulative GPA
- Course subject codes and numbering are subject to change due to the different curriculum taught at the various campuses. In other words, courses will not be transferred as equivalencies.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Architecture and Planning

BS Architecture students must have the written approval of the BS Architecture director or undergraduate academic advisor to register for courses (excluding MSUD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C or better must be earned to receive the undergraduate bachelor's degree credit. Generally, only non-architecture electives or lower-division, non-architecture requirements are acceptable for transfer from other institutions once a student has been admitted to the BS Architecture Program. Students who, after admission to the college, take more than 12 semester hours from another institution, must reapply for admission to the college as transfer students and must meet the current admission requirements.

The maximum number of credit hours applied to individual architecture major requirements from transfer coursework must not exceed the number of credit hours given to its equivalent CU Denver course. Excess credit hours from architecture-related transfer coursework will not count toward the 120 credit hours needed for the BS Architecture degree.

College of Arts & Media

Students should consult the College of Arts & Media in advance at CAM@ucdenver.edu to determine how courses from other University of Colorado campuses may complete degree requirements at CU Denver.

Business School

Business students must have the written approval of the business program director to register for courses (excluding MSCD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C- or better must be earned for most transfer credit to receive business degree credit, however, upper division business core must be a C. Generally, only nonbusiness electives or lower-division, nonbusiness requirements are acceptable for transfer from other institutions once a student has been admitted to the Business School.

1. Admitted Business School students may request by email or petition to complete Business lower division courses or 3000 level business core courses at another institution as long as:
 1. The student still meets our 30-hour residency rule (Business courses completed at CU Denver),
 2. The student still meets our 45 upper division hours rule (we count upper-division transfer credit toward this 45),
 3. The institution of choice meets our transfer agreements (AACSB, Colorado Community Colleges),
 4. The course is approved for transfer via syllabus review
2. We will not transfer in, any of our major courses, international studies, or MGMT 4500 except in rare situations by petition. If approved, the student must still meet all residency rules.

School of Education and Human Development

Students should consult with the undergraduate advisor in advance to determine how courses from other University of Colorado campuses may complete degree requirements at CU Denver.

College of Engineering, Design and Computing

Transfers between campuses of the University of Colorado should be carefully planned to avoid loss of academic credit. Courses and credits required for engineering degrees vary from campus to campus; therefore, students should plan as far ahead as possible. An advisor can help choose the right courses. Such planning should also include contacting the engineering department to which the student plans to transfer at least one semester before the transfer is planned. The transfer student must have at least a 2.000 GPA for 30 hours of credit toward an engineering degree to be eligible to transfer. A higher GPA may be required to transfer directly into the College of Engineering, Design and Computing. In general, calculus, physics and chemistry courses will transfer for full credit. In addition, 12 semester hours of humanities and social sciences electives will usually transfer for full credit. Fundamental computing courses may be unique by campus and should be checked with the campus to which the student is transferring. Any minimum academic preparation standards (MAPS) deficiencies should be eliminated before transferring.

International Coursework

Study Abroad Coursework

Current CU Denver students are encouraged to participate in the various study abroad programs offered through the Office of Global Education. Prior to leaving, you will complete a Course Approval Form with the courses you intend to take abroad and the CU Denver equivalents. An academic or major advisor will sign off on the appropriate CU Denver equivalents that relate to the course taken abroad.

Transcripts will be issued by the foreign institution. Once transcripts are received by the Office of Global Education, the Course Approval Form will be compared to the transcripts. Assuming that all courses meet the minimum transfer grade of C- or higher, the transcript will be compared to the approved courses on the Course Approval Form. Credits will be transferred to the University.

The grades and courses will not appear on the student's transcripts. Should a student fail a course, no credit will be issued, and the course will not appear on the transcript.

SCHOOL/COLLEGE SPECIFIC POLICY

Business School

Transfer credit from study abroad programs requires prior written approval from the Advising Department. Students must meet with a business staff advisor to determine course acceptability prior to the semester in which they intend to study abroad. Information on the various programs is available at the Office of International Affairs.

Courses Not Accepted for Transfer

Developmental, remedial, religious doctrinal, religious training, single religion, outdoor leadership, student orientation, internship, and cooperative education courses are not accepted in transfer. Vocational/technical courses, life experience, and work experience are not accepted in initial transfer, but exceptions may be granted by the dean responsible for the student's curriculum. Independent Study, Special Topics and other experiential learning programs that lack catalog descriptions are not accepted in initial transfer but may be reviewed for transfer consideration by the corresponding academic department. Students wishing to appeal transfer credit decisions should contact their school or college advisor. Except for developmental/remedial courses, academic departments make final decisions on transfer credit appeals.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

Credit earned from the following courses, College Algebra, College Trigonometry, or Precalculus Mathematics (CU Denver Numbers MATH1110, MATH1120, MATH1130), will not be applied to the Engineering major requirements, but may be accepted in transfer.

Courses on basic subjects such as mathematics or physics may be acceptable for direct transfer of credit if they were taught as part of an accredited program for all students and were not specifically designated for engineering technology students. Engineering technology courses (courses with technology designations) will not be considered for transfer into an engineering degree program. Students may seek credit for course work by examination.

Appeals Process

Transfer credit that was not originally accepted by the Office of the Registrar may be appealed through the student's advisor. Most commonly, a copy of the syllabus will be requested from the student to give to their advisor. If it is an international course, the syllabus will need to be in English. Once the student's petition is approved, the advisor will request that the course be accepted by the Office of the Registrar.

If a dispute cannot be resolved between the student and CU Denver, a student is at liberty to file a formal complaint with the Colorado Department of Higher Education.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

If certain courses are not initially accepted by the Office of the Registrar, the student and advisor can discuss the petition process for accepting these courses. If the student's petition is approved, the advising office will request that the Office of the Registrar accept the course(s) in transfer.

College of Engineering, Design and Computing

All requests for consideration of transfer credit and its application toward a degree must be submitted prior to the student's last two semesters at the Denver campus.

Minimum Transfer Standards

Student course work of comparable content and scope to that of CU Denver curriculum will be considered for transfer credit if it was completed at a college or university with regional accreditation. If coursework was completed at an institution not regionally accredited, the student may specifically request that credit be considered in transfer by initiating a review process which begins with the student's academic advisor. Only courses in which a grade of C- or better (1.700) was earned are considered for transfer. Courses in which a grade of Pass (P) was earned are considered for transfer only if a grade of Pass at the sending institution is defined as a C- or better. Courses identified on transcripts as State of Colorado guaranteed transfer courses (gtPathways) are always accepted in transfer (with C- or better grades) and applied to degree requirements per gtPathways guidelines.

The Office of the Registrar considers course work for general transfer regardless of the age of the academic credit. Certain departments, however, have specific age of credit

policies for applying credit to degree requirements and for meeting prerequisites. State guaranteed general education courses will be accepted in transfer and applied to graduation requirements for a period of at least 10 years after course completion as outlined in gtPathways guidelines.

Credit Hour Conversion

The University of Colorado Denver is on a 16-week fall and spring semester system. Summer terms, study abroad programs, and independent learning vary in length but are reported in semester hours. Students who transfer from a quarter-based institution will receive the following conversion:

1 quarter hour = 0.67 semester hours

Example: 4 quarter hours = 2.7 semester hours

Maximum Number of Transfer Credit Hours Accepted

SCHOOL/COLLEGE SPECIFIC POLICY

Business School

The Business School generally limits its applicability of business course credits to those that are comparable to lower-division business courses at CU Denver. Students who have taken upper-division business courses from an Association for Advancement of Collegiate Schools of Business (AACSB) accredited business program may request review of these courses for possible transfer by contacting the Business School advising office. All courses taken in their major must be completed at CU Denver. For students newly admitted to the Business School and former business students readmitted to the school after an absence of three semesters, applicable credits up to eight years old will be counted toward business degree requirements. Courses more than eight years old will be evaluated individually for their current relevance to the degree program. Students may be required to update their knowledge by taking additional courses when past courses are outdated; in such cases, credit will be given for both courses.

College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu to plan out their transfer credits and subsequent University of Colorado Denver course work. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Engineering, Design and Computing

The College of Engineering, Design and Computing, in general, requires that engineering course transfer credit must come from an Accreditation Board for Engineering and Technology (ABET) accredited engineering program to be acceptable for degree purposes. Engineering technology courses are not considered equivalent to engineering courses.

Transfer Credit Level Determination

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu to plan out their transfer credits and subsequent University of Colorado Denver course work. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Liberal Arts and Sciences

The general rule for determining transfer credit is that the level of credit awarded - lower-division or upper-division - will be determined by the level of the course at the sending institution. If the institution of origin listed the course as 1000 (or 100) or 2000 (or 200), or if the numbering system otherwise indicates lower-division credit, then it automatically will receive lower-division credit for fulfilling college requirements.

This rule will apply in all cases other than those where course- or student-specific exceptions have been made as described in the paragraphs below. Also, exceptions will be made on a case-by-case basis in instances where the sending institution does not use a four-level course numbering system or otherwise indicate lower-and upper-division credit distinctions.

Academic units retain the authority to determine whether an individual transfer course (taken at either upper or lower division) will count as fulfilling an upper-division major requirement. If the transfer course was taken as lower-division but is deemed to fulfill a UCD upper-division major requirement, the academic unit is additionally responsible for determining whether the course should be awarded upper-division credit toward the CLAS graduation requirement of a minimum of 45 upper-division credit hours. These are separate decisions, thus it is possible for a lower-division transfer course to fulfill an upper-division requirement in the major but not count toward the 45 upper-division hours required by CLAS. In either case, the academic unit's decision can either be applied to all future students entering with the same transfer course (this is known as course equivalency) or made on a one-time basis (this is known as a course substitution). These decisions will be made by the appropriate department chair or

undergraduate major advisor. The academic unit that owns the course prefix for the substituted course holds the authority to make these transfer determinations, even in cases where the substituted course fulfills a major requirement for a separate academic unit.

Academic units will report all course substitutions and equivalencies using the DATC Universal Form. This form requests that the approving chair or major advisor examine the course description and, if possible, the syllabus from the sending institution. When approving major credit for a transfer course taken at the lower division, the chair or major advisor should indicate whether the course should also count toward the CLAS requirement of 45 upper-division (UD) credit hours, or whether the hours should continue to be counted at the lower division (LD). The chair or major advisor should also indicate whether the determination should be applied to all future students entering UCD with the same transfer course (equivalency). This indication may result in revisions to the automated transfer-equivalency tables used for degree audit purposes. One exception made for a given course may then become the standard for all future students sending in that same course. The Advising Office will report such exceptions to the Registrar's Office for consideration of whether or not to revise the transfer equivalency tables.

Transferring to CU Denver as a New or Current Student

After all transcripts have been received, the Office of the Registrar prepares a transfer credit report, indicating which courses are accepted in general transfer by CU Denver. Students will receive this report along with their admission decision. At this time, students are encouraged to contact their academic advisor, who will determine how transferred credit applies to specific degree requirements, sometimes using automated systems and with assistance from academic departments. Academic units make all final decisions regarding application of transfer credit to degree requirements. Transfer credit evaluations are valid only for degree programs offered entirely at the Denver campus.

Courses are accepted in initial transfer and applied to graduation requirements at CU Denver at the same academic level as on the transcript from the sending institution. Transfer courses with similar content to CU Denver courses (but are listed on the transcript at a different level) may be substituted upon approval from the academic unit. Such courses, however, apply to overall requirements at the level listed by the sending institution unless an exception is granted. Only undergraduate courses are considered in transfer. Though unofficial transcripts may be used for admissions decisioning and initial transfer credit review, official transcripts must be submitted to the Office of Admissions for validation before the census date of a student's first term. Failure to do so will result in a registration hold.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Arts & Media

College of Arts & Media (CAM) degree programs involve carefully structured sequences of course work, designed to build student knowledge, skills and dispositions toward academic, artistic and professional outcomes. Students interested in transferring to

pursue a CAM degree should contact CAM advising in advance at CAMadvising@ucdenver.edu to plan out their transfer credits and subsequent University of Colorado Denver course work. As part of this discussion, CAM advisors can help students determine the best semester in which to transfer, taking into consideration each student's desired timeline toward graduation and program requirements.

College of Engineering, Design and Computing

Transfer students should make an advising appointment as soon as possible after being admitted to the college.

Students must contact the department to which they've been admitted to schedule an appointment with a faculty advisor.

To expedite the advising process, please bring a copy of your transcripts from all institutions you have attended, copies of course descriptions for any courses you wish to have considered for transfer and if possible, a syllabus for each of those courses. Only courses with a grade of C- or better will be considered for transfer credit. Pass/fail courses, internship courses, research-related courses and special topics courses will not be considered for transfer credit.

gtPathways Curriculum

The Colorado Department of Higher Education oversees the Guaranteed Transfer (gtPathways) program, which provides for guaranteed transfer, and more importantly, guaranteed application of credit toward lower-division general education credit requirements at Colorado public institutions of higher education. All gtPathways approved courses undergo statewide faculty review, and all lower division CU Denver Core courses are gtPathways approved. Please see the list of Core courses for their gtPathways content area.

Statewide Transfer Articulation Agreements

In compliance with Colorado's Statewide Transfer Policy, students may transfer credit from a Colorado community college on a course-by-course basis or by completing an associate of arts (AA) or associate of science (AS) degree. Students who complete an AA/AS degree may be guaranteed full transfer of the associate degree (60 credits maximum).

The guaranteed transfer program applies only to students who began Colorado community college studies in fall 2003 or later and who meet the following requirements:

- complete an AA/AS degree, which includes 31 credits of state-guaranteed general education courses
- earn credit only at Colorado community colleges within the last 10 years
- earn a grade of C- or better in each course

Statewide articulation agreements are in place governing transfer of students from Colorado community colleges into programs in anthropology, business, economics, elementary education teacher licensure, engineering, French, history, mathematics, political science, psychology, sociology, and Spanish.

Transfer advising plans for Colorado Community College students are available from the Office of Admissions and at www.ucdenver.edu/admissions. In addition, an admissions representative can assist students with planning a transfer program of study. Representatives regularly visit Colorado community colleges. Call the Office of Admissions at 303-315-2601 or email admissions@ucdenver.edu for additional information.

SCHOOL/COLLEGE SPECIFIC POLICY

College of Engineering, Design and Computing

The College of Engineering, Design and Computing has formal transfer agreements with all Colorado community colleges, including the following Denver metro-area community colleges:

Arapahoe Community College (Littleton)-303-794-1550

Community College of Aurora-303-360-4790

Community College of Denver-303-556-2600

Front Range Community College (Westminster)-303-466-8811

Red Rocks Community College (Lakewood)-303-988-6160

Students interested in transferring should contact the engineering department to which they plan to transfer and the respective community college counseling office at the phone number indicated above.

Overview

The College of Architecture and Planning offers the only accredited degrees in architecture, planning, and landscape architecture in the State of Colorado as well as the only master's degrees in historic preservation and urban design, and the only doctoral degree in design and planning. The college offers a Bachelor of Science in Architecture degree and graduate programs for over 800 students. Many students intending to enter the design and planning professions complete the college's undergraduate degree as preparation for one of our graduate-level professional programs. Those who already hold an undergraduate degree in an unrelated field are also eligible for admission into our graduate programs. With an outstanding faculty committed to excellence in teaching, research, scholarship and creative work, the college provides students with opportunities beyond the classroom including study abroad, internships, mentorships, and participation in design and planning competitions. The College of Architecture and Planning ignites evolution that enriches places for people and the planet through learning by doing, practicing co-creation, and valuing the unique spark of each person as well as the full range of professional and historical traditions.

College Facilities

The college is located at 1250 14th Street in downtown Denver, on the northeastern edge of the Auraria Campus on Larimer Square. This favorable location gives easy access both to the extensive campus facilities and the urban dynamism of Denver's lively lower downtown. Most of the major professional design offices in Denver and many planning firms and agencies are nearby, offering many opportunities for internships and mentorships between students and practitioners. College facilities include studio spaces for students, lecture and seminar rooms, design jury spaces, exhibition spaces and faculty offices. Students have access to our well-equipped and well-maintained 3,000-square-foot Design Fabrication Lab that houses a full-scale furniture-making shop, model-making tools, a large spray booth and four laser cutters. An annex adjacent to the building provides additional shop space, plasma cutters, and a 5-AXIS CNC Router. The Visual Resource Center (VRC) provides access to a variety of photographic and audiovisual equipment, two portfolio photography studio rooms, and digital image collections. There are two computer labs focused on computer aided design, computer 2-D and 3-D imaging, and analytic tools for planning. These computer labs include Windows PCs and Macs, small and large format scanners, large format plotters, laser printers and computer data projection devices. All systems are 100base T Ethernet / Internet savvy and accessible 24 hours a day in secure rooms. Find more details about college facilities on the website. Also associated with the college is a geographic information systems (GIS) computer laboratory, open to all CU Denver students.

Computing in the College

The Bachelor of Science in Architecture program suggests students acquire and use their own computers and software applications during their study. CU Denver neither endorses nor requires a student to procure a machine from a particular vendor. Students are encouraged, but not required, to procure laptops mainly for reasons of security and mobility in studios and classrooms. Software applications (program) requirements relate to specific course curricula. Consult with instructors or refer to course syllabi regarding applications for imaging, computer aided design, modeling or rendering before purchasing.

Undergraduate Information

The College of Architecture and Planning offers a Bachelor of Science in Architecture degree exclusively on the downtown Denver campus. The city of Denver provides a rich environment to explore a diverse historic and cultural world that includes multiple approaches to solving urban and regional problems. The degree is a "pre-professional" degree, which will provide fast track entry into the accredited Master of Architecture degree that is required for licensure in the profession. This degree provides an education in the sciences and humanities in design theory of the built world and its practice. The educational goal of the program is to engender active and creative making of architecture along with critical thinking skills.

Scholarships/Financial Aid

For information on scholarships, visit the college's website. For information on federal and state financial aid, contact the Office of Financial Aid, University of Colorado Denver, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364, 303-556-2886 or visit their website.

Undergraduate Advising and Academic Planning ***Admissions Advising***

Persons not yet admitted to the BS Architecture program can receive advising on course selection, admission requirements and other matters from an undergraduate staff advisor. To make an appointment, call 303-315-1000.

Admitted Students

Students admitted to the BS Architecture program are required to meet with an undergraduate academic advisor prior to registration in their first semester, as well as prior to enrolling in ARCH 3110 Design Studio II. Students are also welcome to meet with their advisor as often as needed, in addition to the required meetings. Though the student is ultimately responsible for the decisions made regarding their academic career at CU Denver, advisors are available to assist in helping students make informed decisions.

About the College of Arts & Media

Mission

Our mission is to effect change by preparing students to successfully pursue their passions.

Our students acquire the skills they need to excel in an academically rigorous, experiential learning environment energized by creative exchange, real-world experience and diversity of voice.

Core Values

Creative Excellence - Academic and artistic rigor, creativity and innovation are bedrock principles of the CAM community and the cornerstone of how we define excellence. As champions of creative excellence in art making and artistic expression we support risk-taking, intellectual freedom and social responsibility.

Discovery - We believe in a culture of shared discovery. Our students learn by doing, and as emerging peers, are important contributors to the knowledge exchange. We value rigorous investigation, critical thinking, diversity, collaboration and invention.

Denver - We are committed to learning both inside and outside the classroom. The accessibility, diversity and cultural energy of Denver make CAM a better place to teach, work and learn. We strive to offer reciprocal experiences to the citizens of this great city and pay it forward by extending our reach and impact in the global community.

Programs of Study

Music & Entertainment Industry Studies

- Bachelor of Science in Music Emphases:
 - Performance
 - Singer/Songwriter
 - Music Business, on one of two tracks:
 - Audition Track
 - Non-Audition Track
 - Recording Arts, on one of two tracks
 - Audition Track
 - Non-Audition Track

Film & Television

- Bachelor of Fine Arts in Film & Television with an Emphasis in Film and Television
- Minors:
 - Film and Television Production
 - Film and Television Writing
 - Theatre, Film and Television
 - Film and Television Performance

Visual Arts

- Bachelor of Fine Arts Emphases:

- 3D Graphics and Animation
- Art Practices
- Digital Design
- Illustration
- Photography
- Bachelor of Arts Emphasis:
 - Art History
- Minors:
 - Art History
 - Digital Design
 - Illustration
 - Painting and Drawing
 - Photography
 - Studio Art
 - Transmedia Sculpture

Graduate Programs

- Master of Science in Recording Arts with Emphasis in Media Forensics

Please see the **Graduate Catalog** or contact CAM@ucdenver.edu for information about CAM graduate programs in recording arts and media forensics.

Undergraduate Admissions

Students wishing to pursue a CAM degree must be admitted to the University of Colorado Denver. See the Office of Admissions website for application requirements and deadlines. In addition, all audition track emphases in Music & Entertainment Industry Studies, and the Film & Television program require additional application components. Students typically submit these additional components at the same time as university applications. Certain Visual Arts require portfolio-reviews after students have completed initial course work at CU Denver. Find more details about CAM program application requirements and deadlines in this catalog by selecting the above program links. Music and Film & Television application guidelines and deadlines may also be found on the CAM Admissions website.

Facilities

CAM is committed to both traditional and new technologies and celebrates the dynamic synergy between the two. CAM students can take advantage of superb studios, laboratories, editing facilities, equipment, screening rooms, galleries and performance

spaces on campus. Students across all three CAM departments create work in computer labs where equipment and software are upgraded regularly. Most CAM studios are open for use by enrolled CAM students when classes are not scheduled. However, policy mandates that all equipment can only be used for class related projects. CAM is constantly working to enhance and add to its facilities; see below for just some of the resources.

Music & Entertainment Industry Studies Facilities

- Five recording studios
 - Three studios include surround sound capabilities
 - All studios are ProTools equipped
- Large inventory of microphones and outboard equipment available
- Vintage keys collection, including DX-7, ARP Odyssey, ARP 2600, MiniMoog, PolyMoog, D-10, Hammond B3 and Rhodes
- MIDI lab featuring ProTools, Logic and Ableton Live; supplemental access to three CAM computer labs
- Consoles, including SSL AWS 924, Yamaha DM2000, AVID S6 and Mackie 32x8 Bus, as well as an Avid Artist Control Surface
- 16-station piano lab featuring Apple Macintosh iMac computers with a wide selection of musical and songwriting/composition software applications
- Eight performance teaching studios
- 12 practice suites
- Private teaching studios for voice, piano, guitar, bass, drum kit and percussion
- Audio/video forensics labs at the National Center for Media Forensics
 - Computer lab featuring multimedia analysis and processing software such as Cognitech, Ocean Systems, DAC, Agnitio, iZotope Rx Advanced, Adobe Creative Cloud, MATLAB, EnCase, Cellebrite and CEDAR Cambridge hardware/software systems
 - Security DVR and camera lab
 - Graduate student workstations accessible from anywhere in the world via Remote Desktop Connection
 - ENF (Electric Network Frequency) databases around the US

Visual Arts Facilities

- Photography labs with black-and-white, non-silver, digital imaging and color capabilities, and large-format digital, color, and black and white printing (four large wet labs, individual color darkrooms, an RA4 color processor, an alternative process darkroom and a fully-outfitted digital lab with large-format Epson printers).
- Transmedia sculpture lab with wood shop, metal shops and a foundry, as well as digital facilities (metal and wood fabrication, mold casting/design, digital modeling, electronic art, foundry casting, and teaching gallery).

- Drawing and painting studios with flexible open space and excellent natural and studio lighting (studio classrooms with roll-out computers, projectors and small monotype presses, screen printing facilities, digital lab access and large format printing).
- Digital design labs, computer labs, sound booths, editing suites, and video and digital cameras for student use
- Digital Animation Center computer labs and motion capture studio
- Illustration studios including state-of-the-art computer labs using Adobe software and open hands-on studio facilities (design, drawing, painting, printmaking, 3D sculpting equipment).
- Auraria Visual Resources Center digital collection of contemporary and historical images, music and video
- Emmanuel Gallery and Next Stage Gallery, public arts spaces for student and faculty exhibitions and special exhibition events
- Community partnerships with the Museum of Contemporary Art Denver, Redline Gallery, the Denver Performing Arts Center and more.

Film & Television Facilities

- Two Apple computer labs utilizing the Adobe Creative Suite as well as other industry-level software applications
- Equipment cage stocked with state-of-the-art tools for video production, including 4K cameras, lighting, sound and grip equipment
- Three “black box” production studios
- Scenic shops: wood, metal and paint
- Three full-size green screens
- Auraria Media Center, with two 3-camera TV studios with full control rooms, isolation booth and lighting control
- 120-seat movie theatre/classroom with a 2K projector and surround sound

Kenneth King Academic and Performing Arts Center

- 520-seat Concert Hall
- 268-seat Eugenia Rawls Courtyard Theatre - proscenium theater with optional thrust stage
- 200-seat Recital Hall
- Fully wheelchair accessible production facilities, including catwalks
- Assisted Listening System available in all venues
- Wireless access

Evan Shelton, MM, University of Denver

Bachelor of Science in Music

The music program prepares students for professional careers related to commercial performance, recording, music business and the entertainment and creative industries, as well as for graduate studies at leading conservatories. More specifically, the Department of Music & Entertainment Industry Studies (MEIS) offers a Bachelor of Science (BS) in Music. Students apply to an intended emphasis and track:

Performance Emphasis

Singer/Songwriter Emphasis

Music Business Emphasis, on one of two tracks:

- Audition Track
- Non-Audition Track

Recording Arts Emphasis, on one of two tracks:

- Audition Track
- Non-Audition Track

Acceptance into MEIS is on a competitive basis with specific entrance evaluation requirements for both first year and transfer students. All applicants are placed in an enrollment pool and admission decisions are based on several factors, which include an indexed composite score of GPA and an audition (if applicable). Application materials must be received by the deadline.

Prospective students should refer to the MEIS website for current entrance requirements, deadlines and procedures.

All students in MEIS are required to abide by the policies and procedures outlined in the MEIS *Student Handbook* (available by contacting meis.dept@ucdenver.edu) as well as all university policies and codes of conduct.

Performance Emphasis

The performance emphasis includes specialized courses in small performance ensembles, applied private study, contemporary improvisation, and analysis and history. Students gain a diverse set of performance skills in commercial, jazz, classical and experimental music styles. The curriculum includes the presentation of junior and senior recitals.

Students are required to pass a Sophomore Proficiency at the end of the sophomore year in order to progress into advanced performance and musicianship courses.

Students must pass an entrance audition to pursue the performance emphasis.

Singer/Songwriter Emphasis

Students in the singer/songwriter emphasis complete specialized courses in the songwriting and arranging repertoire while developing their performance skills through small performance ensembles and applied private study of voice, accompanying instrument and songwriting. The curriculum includes the presentation of junior and senior recitals. Students are required to pass a Sophomore Proficiency at the end of the sophomore year in order to progress into advanced performance and musicianship courses.

Students must pass a singer/songwriter entrance audition to pursue the singer/songwriter emphasis.

Music Business Emphasis (Audition Track or Non-Audition Track***)**

The music business emphasis prepares undergraduates for careers in fields such as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution and entertainment law.

Recording Arts Emphasis (Audition Track or Non-Audition Track***)**

The recording arts emphasis focuses on contemporary analog and digital technology as it is used in music recording, sound reinforcement and media applications (Internet, video games, interactive art installations, etc.). While mastering technology skills and formats, students also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance.

****Audition Track (for students pursuing the music business or recording arts emphasis)**

The audition track provides an in-depth study of musicianship/performance through lectures and hands-on learning, while allowing students to specialize in their area of interest. As part of the admissions process, students must pass an entrance audition on a musical instrument or voice.

Students on the audition track must complete three semesters of music theory and ear training & sight singing courses, followed by a semester of jazz theory. In addition, students complete four semesters of class piano. All students in MEIS complete two music history courses.

Audition track students take four semesters of private lessons, culminating each semester in a performance for a jury of faculty. They also take four semesters of general recital, which culminates each semester in a performance for an audience of their peers.

*****Non-Audition Track (for students pursuing the music business or recording arts emphasis)**

The non-audition track provides a broad overview of various musicianship/performance topics through lectures and hands-on learning. This track does not require an entrance audition.

Students on the Music Business (MB) or Recording Arts (RA) non-audition tracks complete one semester of music theory, and either two semesters of ear training & sight singing for RA, and one semester of ear training & sight singing for MB, one class piano or class guitar. Students may opt to complete up to two semesters of class piano or can switch to voice class or guitar class. Non-audition track students are required to take additional musicianship course work, including Music in Culture and a music history elective.

*****Non-Audition Track (for students pursuing the recording arts emphasis)**

The non-audition track recording arts emphasis provides an in-depth review of recording arts topics through lectures and hands-on learning. This track does not require an entrance audition.

Students on the non-audition track complete one semester of music theory, two semesters ear training & sight singing, and class piano, guitar class, or voice class. All students in MEIS complete two music history courses.

Students are encouraged to contact the College of Arts & Media at CAM@ucdenver.edu to talk about the differences in curriculum and to determine which track is best suited to them.

See the **Graduate Catalog** or contact CAM@ucdenver.edu for information about the graduate programs in media forensics.

Department Overview

The Department of Film & Television offers a Bachelor of Fine Arts (BFA) in Film and Television, as well as minors in film and television production, film and television writing, film and television performance, and theatre, film and television. The department offers courses in these disciplines through an innovative curriculum in the context of a strategically designed liberal arts education.

Students have the opportunity to work directly with faculty, guest artists and fellow students through participation in the department's production program of films, television shows and web-based media projects, as well as a variety of student-produced projects. Denver-area film and theatre productions, film screenings, lectures, concerts, exhibits and other cultural resources are regularly utilized throughout each student's course of study.

Bachelor of Fine Arts (BFA) in Film and Television Emphasis:

- Film and Television

Film and Television Minors:

- Film and Television Production
- Film and Television Writing
- Film and Television Performance
- Theatre, Film and Television

Paul Conner, BA, Art Institute of Colorado
Rebecca Heavner, MLA, University of Colorado Denver
Elizabeth Pugliano, PhD, Boston University
Stephen Schaf, MFA, Academy of Art University, San Francisco

Department Overview

The Department of Visual Arts offers professional instruction in six interrelated areas: art history, art practices, 3D animation, digital design, illustration, and photography.

Visual Arts provides a vital educational environment where future artists, designers and art historians explore the horizons of their own talents in an atmosphere of critical dialogue and professional art and design practice. Students learn and experience various media of animation, digital design, drawing, illustration, painting, photography and transmedia sculpture, all within the rich context of a research university. Learning is predicated on both an understanding of art and media theory, and on the practical knowledge of methods and materials used in making art and design today. Art history studies focus on historical knowledge integrated with critical writing and analysis.

The department prides itself on fostering an appreciation for diverse approaches to visual culture and to reaching out to the larger art history, arts and design communities. Internships are available.

Graduating seniors receiving the Bachelor of Fine Arts (BFA) degree are required to participate in the BFA thesis exhibition during their last semester of study. This exhibition is scheduled for each spring term only.

Bachelor of Fine Arts (BFA) Emphases:

- 3D Graphics and Animation
- Art Practices
- Digital Design
- Illustration
- Photography

Bachelor of Arts (BA) Emphasis:

- Art History

Visual Arts Minors:

- Art History
- Digital Design
- Illustration
- Painting and Drawing
- Photography
- Studio Art
- Transmedia Sculpture

Many of the above options require FINE 2600 Art History Survey I and/or FINE 2610 Art History Survey II. Either course may also count toward Core Humanities (as part of the General Education requirements). Contact the College of Arts & Media at CAM@ucdenver.edu for details.

Admissions/Advising

303-315-8101/303-315-8110

Located in the heart of the Rocky Mountain business community, the Business School at the University of Colorado Denver prepares students with the knowledge and skills necessary to become effective, responsible business professionals. We're able to achieve a standard of excellence by bringing together nationally recognized faculty and highly motivated, mature students in an intellectually challenging academic environment. CU Denver's Business School is a research institution. Because our faculty are nationally recognized for scholarly research as well as for their teaching skills, our students have the opportunity to be on the leading edge of business management theory and practice. Our class schedules and curriculum offer flexibility to meet your needs whether you plan to attend full or part-time. Whether you're an experienced working professional seeking an advanced degree or preparing for a new career in the business world, you'll gain the knowledge and perspective necessary to succeed in today's challenging business environment.

Educational Goals

The Business School is committed to superb teaching, connecting theory to practice that focuses on:

- current and relevant knowledge and skills necessary for success in the highly competitive global business environment
- experience in cooperative and team-based work skills
- integrated professional and functional expertise
- sensitivity to cultural and ethnic diversity

Our undergraduate program, which serves both traditional and nontraditional students, leads to a baccalaureate degree in business with a substantial liberal arts component. The program is closely linked, through articulation agreements, to lower-division programs offered by Colorado's four-year and community colleges.

Key elements of our academic programs are the provision of top-quality career advising and placement services, as well as flexible schedules and programs to meet a wide range of student needs. We are committed to supporting our students' efforts to pursue rewarding careers.

Faculty

Our nationally recognized faculty members are vigorous and enthusiastic about teaching and research. Faculty members hold degrees from the nation's leading business schools, including Berkeley, Harvard, Stanford, University of Chicago, University of Pennsylvania, UCLA and Yale. Many of them also bring years of valuable experience in private industry. Their interdisciplinary expertise, academic achievements, scholarly research and business experience provide students with a dynamic learning environment.

Scholarships and Financial Aid

Many programs for financial aid are administered by the Office of Financial Aid. Call 303-315-1850 for detailed information.

Thanks to the generous support of the Colorado business community and others, the Business School has a significant number of scholarships to offer its students. Scholarships are awarded on the basis of merit and/or financial need. The amount of the award and the number of awards available vary.

Over 30 different scholarships are available to eligible Business School students, with multiple awards from most scholarships.

Further information about these scholarships, including eligibility criteria and application forms, may be obtained by visiting the Financial Aid & Scholarships website, by calling 303-315-1850, or by viewing scholarship information on the Business School website.

Institute for International Business

CU Denver's Institute for International Business (IIB) was created in 1988 by the Board of Regents of the University of Colorado to serve as a center for the advanced study and teaching of international business (IB). The US Department of Education designated the IIB as a Center for International Business Education and Research, a prestigious center of excellence award that it has competitively held since 1993. CU Denver is one of only 15 CIBERs in the United States and the only one in Colorado. Among others, the IIB/CIBER promotes interdisciplinary and multi-campus collaboration at the University of Colorado; hosts monthly International Executive Roundtable lectures on global competitiveness; and sponsors IB development programs, conferences and workshops for faculty and the business community in Colorado, the Rocky Mountain region and the United States. The IIB/CIBER works closely with CU Denver's Business in advancing its international business programs and research, as well as other colleges, schools, and departments at CU to promote various internationalization initiatives. Call 303-315-8884 or visit the IIB website at www.ucdenver.edu/institutes/international-business for more information.

Academic Programs

A carefully designed curriculum to prepare students for success in business administration is available for the student seeking an undergraduate degree. The school offers courses leading to the bachelor of science in business administration (BSBA).

Undergraduate Degree Programs

Associate Dean: Ronald Ramirez

Assistant Dean: Linda J. Brooker

The undergraduate curriculum leading to the bachelor of science (business administration) degree is intended to help the student achieve the following general objectives:

- an understanding of the activities that constitute a business enterprise and the principles underlying administration of those activities
- the ability to think logically and analytically about the kind of complex problems encountered by management
- facility in the arts of communication
- a comprehension of human relationships involved in an organization
- awareness of the social and ethical responsibilities of those in administrative positions
- skills in the art of learning that will help the student continue self-education after leaving the campus

Double Major Programs

Numerous career opportunities exist for persons trained in both a specialized field and management. For this reason, students may be interested in combined programs of study in two different majors leading to completion of degree requirements concurrently in two areas. If you have questions on our programs, email the undergraduate business advisors at undergrad.advising@ucdenver.edu or call 303-315-8110 to make an appointment with a business advisor.

Undergraduate Advising and Academic Planning

Upon admission to the school, students are encouraged to meet with an advisor who will guide you through the steps needed to have a successful career as a student in the Business School and help you complete the requirements for the BSBA (bachelor of science business administration) degree. If you seek advising, or have questions on course selection and other matters, you may email the advisors at: undergrad.advising@ucdenver.edu or call 303-315-8110 to make an appointment.

Undergraduate Majors

Business students must choose a major and complete the requirements for the major. The major provides specialization beyond the general background of the undergraduate core and the business core. Business students are strongly encouraged to declare a major by the time they have accumulated 60-75 semester hours. The courses in the major are typically completed in the junior and senior years. Majors within the BS in business administration program include:

- Accounting Major - BS in Business Administration
- Accounting Major - BS in Business Administration with specialization in Information Systems
- Entrepreneurship Major - BS in Business Administration
- Finance Major - BS in Business Administration
- Financial Management Major - BS in Business Administration
- Financial Management Major - BS in Business Administration with Specialization in Information Systems
- Human Resources Management Major - BS in Business Administration
- Information Systems Major - BS in Business Administration (specializations available in Accounting, Finance, Human Resource Management, Management and Marketing)
- International Business Major - BS in Business Administration
- Management Major - BS in Business Administration
- Management Major - BS in Business Administration with specialization in Information Systems
- Marketing Major - BS in Business Administration
- Marketing Major - BS in Business Administration with specialization in Information Systems
- Risk Management and Insurance Major - BS in Business Administration
- Sports Business Major - BS in Business Administration

Extend your education

Whether you are looking to advance in your current field or prepare for an entirely new career, the Business School offers opportunities to suit your goals.

A variety of classes and programs are available to community members and alumni. Classes are taught by expert faculty or influential members of the Denver business community, imparting knowledge that is readily applicable in the field.

Entrepreneurship

The Jake Jobs Center for Entrepreneurship offers programs for those looking to start a new venture or enhance their entrepreneurial skills.

Certificate Specialization Programs

Modern career paths are flexible, which makes it beneficial to have a flexible degree. If you already have a graduate business degree from an AACSB accredited school, the

CU Denver Business School allows you to add a specialization through our post-graduate certificates.

School of Education & Human Development
P.O. Box 173364, Campus Box 106
Denver, CO 80217-3364

Overview

The School of Education & Human Development is a vibrant community of practicing educators and counselors, educational leaders and researchers who have a strong service ethic locally, nationally and globally and a dedication to excellence.

Mission

Leadership for Educational Equity

Prepare and inspire education and mental health leaders to have a profound impact in fostering student opportunity, achievement and success in urban and diverse communities.

Vision

A leading school of education providing national expertise on educational issues and socially-just solutions for urban and diverse communities. Through innovative research and partnerships, we strive to be passionate agents of change, inspiring upcoming generations to learn from the past and shape the future.

Our Role in the Community

We are committed to developing forward-thinking educators and counselors who have a deep sense of inquiry, a concern for pressing social problems, a great desire to live their lives purposefully, a passion for giving back to the community and the cultural competence needed to serve urban and diverse populations.

Diversity and Inclusion

At the School of Education & Human Development (SEHD), we believe strongly that all students-diverse in race, ethnicity, economic resources, language, fluency, abilities, geography, first-generation status, age, gender and sexual identities-deserve the opportunity to learn. To advance our mission and meet the changing interests of our local and global communities, the Office of Diversity and Inclusion has been established to create positive momentum towards educational access, equity, and success.

Accreditation

The University of Colorado Denver is institutionally accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The commission can be contacted at 230 South LaSalle Street, Suite 7-500^[SEP] Chicago, IL 60604^[SEP] **Telephone:** 1-800-621-7440

In addition, teacher education programs in the SEHD have been accredited by the Colorado State Board of Education.

Admissions

All students apply online. Instructions for undergraduate students are found at <http://www.ucdenver.edu/admissions/>.

Information about all degrees, programs and admission requirements can be found on the school's website at <https://education.ucdenver.edu/>

Undergraduate Program List for the School of Education and Human Development

Bachelor of Arts: Education and Human Development

- Education and Human Development, Early Childhood Education BA - Licensure Track
- Education and Human Development, Early Childhood Education BA - Non-Licensure Track
- Education and Human Development, Elementary Education BA with CLDE Added Endorsement
- Education and Human Development, Special Education BA (Elementary Education Endorsement)
- Education and Human Development BA with Middle School Mathematics License
- Education and Human Development BA with Secondary Mathematics License
- Education and Human Development BA with Secondary Social Studies License
- Education and Human Development BA with Secondary English Language Arts License
- Education and Human Development BA with Secondary Science License

T-PREP at Otero Junior College Partnership Pathways

- Education and Human Development, Elementary Education BA - Rural Partnership with Otero Junior College
- Education and Human Development BA with Middle School Math License - Rural Partnership with Otero Junior College
- Education and Human Development BA with Secondary Science License - Rural Partnership with Otero Junior College

T-PREP at Trinidad State Junior College Partnership Pathways

- Education and Human Development BA with Early Childhood Education License - Rural Partnership with Trinidad State Junior College
- Education and Human Development BA, with Elementary Education License - Rural Partnership with Trinidad State Junior College

CLAS Secondary Teacher Education Programs

- BA-English Literature Secondary English Licensure
- BS-Mathematics Secondary Mathematics Licensure
- BA-History Secondary Social Science Licensure
- BA-Political Science Secondary Social Science Licensure
- BA-Spanish Secondary Spanish Licensure
- BA-French Secondary French Licensure
- BS-Biology Secondary Science Licensure
- BS-Environmental Science Secondary Science Licensure

Bachelor of Science

- Human Development and Family Relations BS
- BS/MA 4+1 Program in Education and Human Development: HDFR Concentration
- Human Development and Family Relations BS Rural Partnership with Trinidad State Junior College

Licenses and Endorsements

- Undergraduate Teacher Licensure in following endorsement areas: Elementary, Early Childhood, Special Education, Middle School Math, Secondary Math, Secondary Science, Social Studies Education and Secondary Science Education
- Added Endorsement in Culturally and Linguistically Diverse Education in Elementary Track

Minors

- Digital Media Design for Learning Minor
- Human Development and Family Relations Minor
- Education Studies Minor
- Culturally and Linguistically Diverse Education Minor

Summer: May 31

Overview

The College of Engineering, Design and Computing at the University of Colorado Denver meets the needs of the Denver metropolitan area by providing nationally accredited engineering education programs in a flexible format that suits both students and employers. Recognizing the importance for students to pursue professional studies and related employment simultaneously, the college offers undergraduate and graduate degree programs in bioengineering, civil engineering, mechanical engineering, electrical engineering and computer science through late afternoon and evening studies or through a more traditional schedule of day classes.

A listing of the fields in which engineers work would have hundreds of entries. The following list is a brief summary of the engineering fields available at CU Denver.

Bioengineering offers opportunities for interdisciplinary undergraduate training for a bachelor of science degree and graduate training for master of science and doctor of philosophy degrees. Our programs are uniquely integrated with the CU Anschutz Medical Campus. Students enjoy opportunities to learn from clinicians and engineers and to perform research or medical device design in world-class hospitals and clinical research labs. Bioengineering is one of the fastest growing job markets this decade, according to the Bureau of Labor Statistics. A degree in this area provides numerous opportunities to work in health care, biomedical industry, government regulatory agencies and academia.

Civil engineering offers an interesting and challenging career in the design and construction of buildings, bridges, dams, aqueducts and other structures; in transportation systems including highways, canals, pipelines, airports, rapid transit lines, railroads and harbor facilities; in the distribution of water and the regulation of rivers; in the development of water resources for urban use, industry and land reclamation; in the control of water quality through water purification and proper waste treatment; in the construction and contracting industry; and in the problems concerned with our physical environment and the growth of cities.

Computer science offers graduates the solid foundation needed for jobs in computing and enabling technology encompassing many areas across diverse fields such as healthcare, business, natural & applied sciences, mathematics and visual arts. Career paths in computer science involve designing and implementing software, devising new computer applications and developing effective ways to solve computing problems.

Electrical engineering offers careers that include research in development of new electrical or electronic devices, instruments or products; design of equipment or systems; production and quality control of electrical products; and sales or management for private industry or government. There are numerous specialties within electrical engineering. Among them are the design and application of computer systems and digital engineering; electromagnetic fields and microwave devices; control systems; communication theory and signal processing; electrical integrated circuits and electron devices; and energy and power systems.

Mechanical engineering offers a wide range of interesting and challenging career opportunities in research, design, development, manufacturing, testing and marketing for either private industry or government. Mechanical engineers help develop a wide range of products such as engines, transmissions, compressors, pumps, oil field drilling rigs, missiles, space satellites, earth-moving equipment, container-manufacturing machines, medical equipment and many other products encountered in daily life.

College of Engineering, Design and Computing Educational Goals

The College of Engineering, Design and Computing has established the following goals and objectives for undergraduate education:

- successful completion of the fundamental core courses, primarily lower division, in mathematics and the physical sciences
- successful completion of the required upper-division courses in engineering science, analysis and design
- successful completion of real-world engineering design projects that require integration of engineering, economic and social skills
- successful completion of a series of humanities and social science courses that introduce the student to societal problems and historical perspectives
- evidence, through close student/faculty contact, of development of professionalism, ethics and concern for the multifaceted human element of engineering
- evidence, from successful completion of a full engineering curriculum, of the ability to maintain professional competency through lifelong learning
- evidence, through successful completion of a series of communications oriented courses and project presentations, of an ability to communicate effectively with professionals and laypersons alike

Accreditation

Our undergraduate programs in bioengineering, civil engineering, electrical engineering and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org. The undergraduate program in computer science is accredited by the Computing Accreditation Commission of ABET, www.abet.org.

Freshman Year

Fundamentals taught in the freshman year are of critical importance in the more advanced classes. Special attention should be given to taking courses in the proper sequence. (Course requirements for freshmen are detailed within the typical curriculum given under each department.) All students are urged to consult their instructors whenever they are experiencing difficulties with course materials or for questions related to the class.

Internships

Internships are a way for students to gain professional experience while studying at CU Denver. Many internship positions lead to permanent employment opportunities upon graduation. Please contact the Experiential Learning Center at 303-315-7258 for information on the specific eligibility requirements.

Scholarships

The College of Engineering, Design and Computing awards various undergraduate scholarships to support the education of engineering students. These awards are provided through funds generously given by industry, alumni and other donors. Once admitted, students may view and apply for these scholarships through the student portal . Please note that the list of scholarships for which a particular student is eligible automatically populates. For additional information on other types of financial aid, consult the Tuition/Financial Aid FAQs section.

Comcast Media and Technology Center

Website: www.comcastmediatechcenter.org

Established to be the premier scholarly hub for design innovation research and practice, the Comcast Media and Technology Center uses an interdisciplinary methodology and combines academic theories with practical applications in a technologically advanced setting. This unique approach is then applied to relevant societal challenges to produce imaginative solutions in engineering and design.

Born from the powerful partnership that exists in Denver within the public and private sectors, and made possible by generous contributions from the Comcast Corporation, the Comcast Media and Technology Center is a state-of-the-art, 1,900 sqft innovation suite located within the Tivoli Student Union in the heart of CU Denver's Auraria Campus. It serves as a catalyst for innovation for the College of Engineering, Design and Computing and the College of Arts & Media, as an exciting example of the experiential learning that can happen for students in an encouraging interdisciplinary environment.

Projects overseen by center staff are assessed with-in a research-based theoretical framework in a forum where creative ideation is encouraged. Team members are chosen because of their diverse academic backgrounds to work in intentionally arranged interdisciplinary groups to complete assignments, where they are encouraged to utilize their unique skill sets, and scholarly experiences to problem solve and create solutions. Specific projects can vary from design work (digital or practical), research, ideation, production, fabrication, prototyping, testing, data collection, systems design, process modeling, focused research/analysis or application, simulation, 4D/3D printing, data visualization, industry/market studies, and reporting creating an opportunity to learn and grow new skillsets.

BIOENGINEERING

Chair: Robin Shandas

Denver Office: North Classroom 2204

Anschutz Office: Bioscience 2, 12705 E. Montview Blvd., Aurora, CO 80022

Telephone: 303-315-7492

Fax: 303-724-5800

E-mail: bioengineering@ucdenver.edu

Faculty

Core Faculty

Robin Shandas, PhD

Professor

robin.shandas@cuanschutz.edu

Specialties: Novel methods for translational bioengineering

Richard Benninger, PhD

Associate Professor

richard.benninger@cuanschutz.edu

Specialties: Optical microscopy, pancreatic islet biology and biophysics, diabetes

Cathy Bodine, PhD

Associate Professor

cathy.bodine@cuanschutz.edu

Specialties: Assistive technology, rehabilitation engineering

Emily Gibson, PhD

Assistant Professor

emily.gibson@cuanschutz.edu

Specialties: Microfluidics technology, optical microscopy, and spectroscopy

Jeffrey Jacot, PhD

Associate Professor

jeffrey.jacot@cuanschutz.edu

Specialties: Stem cells and heart tissue engineering

Vitaly Kheifets, PhD

Assistant Research Professor

vitaly.kheifets@cuanschutz.edu

Specialties: Vascular/ventricular function, cellular metabolism in cardiovascular disease, and pulmonary hypertension

Cassandra Howard, MSC

Instructor

cassandra.howard@cuanschutz.edu

Specialties: Medical device innovation and biodesign

Kendall Hunter, PhD

Associate Professor

kendall.hunter@cuanschutz.edu

Specialties: Soft tissue mechanics, vascular and cardiac imaging diagnostics, translational biomechanics

Steven Lammers, PhD

Instructor

steven.lammers@cuanschutz.edu

Specialties: 3D printing & design, bioprintable materials, tissue engineering of 3D cellularized scaffolds

Craig Lanning, MS

Research Instructor

craig.lanning@cuanschutz.edu

Specialties: Digital manufacturing, reverse engineering, medical device and software design

Chelsea Magin, PhD

Assistant Professor

chelsea.magin@cuanschutz.edu

Specialties: Bio-inspired materials for tissue engineering, R & D product development

Keith Neeves, PhD

Professor

keith.neeves@cuanschutz.edu

Specialties: Hematology and oncology

Daewon Park, PhD
Associate Professor
daewon.park@cuanschutz.edu
Specialties: Biomaterials, drug delivery, tissue engineering and regenerative medicine

Bradford Smith, PhD
Assistant Professor
bradford.smith@cuanschutz.edu
Specialties: Lung structure-function relationships, optimized mechanical ventilation, and high performance computing

Jennifer Wagner
Instructor
jennifer.wagner@cuanschutz.edu
Specialties: Medical imaging, 3D modeling, surgical guides/tools, tissue engineering, and material characterization

Richard Weir, PhD
Research Associate Professor
richard.weir@cuanschutz.edu
Specialties: Neural engineering, biomechatronic design, and rehabilitation engineering

Michael Yeager
Associate Clinical Professor
michael.yeager@cuanschutz.edu
Specialties: Cardiopulmonary disease, autoimmunity, in vivo cell lineage tracing & imaging

Bryan Yunker, PhD
Research Instructor
bryan.yunker@cuanschutz.edu
Specialties: Product design & development, product marketing, intellectual property, reconstructing physical anatomy in virtual reality

Affiliated Faculty

Students receive instruction from affiliate faculty in the University of Colorado system, including CU Boulder and the CU School of Medicine. Faculty research areas include Imaging and Biophotonics; Cardiovascular Biomechanics and Hemodynamics; Orthopedic Biomechanics; Surgery; Ophthalmology; and Neuroscience Engineering.

Mission Statement

The Department of Bioengineering bridges the fields of engineering and medicine with a core mission of applying engineering principles and analyses to improving human health. The department will fulfill this mission by providing opportunities for training,

research, and service in bioengineering to faculty, students, and residents of Colorado and the greater Rocky Mountain region.

Program Objectives

The Department of Bioengineering offers high-quality training in bioengineering that is both flexible and multidisciplinary. A design-based focus permeates every aspect of our training philosophy which can be summarized by the following question: what does the user want and how can I best utilize my bioengineering training to achieve this need? Our academic instruction focuses on developing core competencies in life sciences, quantitative methods, technology, and research methods.

Undergraduate Information

The program offers a bachelor of science (BS) degree in bioengineering. All undergraduate students begin the program on the CU Denver (Auraria) campus. In consultation with faculty advisors, each student chooses elective courses, training pathways, and research to fit talents, preparation, and career plans.

The BS in bioengineering degree will prepare students for careers in the biomedical industry, in hospital, government, or academic research labs, in regulatory agencies such as the FDA, and for further education in graduate school, medical school, or other advanced health sciences program.

The minimum of 128 semester hours is required to earn the BS degree, including 58 credits in bioengineering premajor coursework and 24 credits in general education core at the Denver campus. This training is complemented by 46 credits in the upper-level bioengineering major and track specialization courses at the CU Anschutz Medical Campus.

All students interested in bioengineering will commence their studies in the department as pre-majors. Admittance to the major will be granted to students who have successfully completed all pre-major courses and who meet the program's selection criteria.

BS/MS option

For full-time undergraduate CU Denver bioengineering students in the major, the bioengineering BS/MS option provides students the opportunity to begin graduate work while completing the undergraduate degree. Students are able to take six credits toward the master of science during the last year in the major as part of the bachelor of science track electives, accelerating the time to obtain a graduate degree. Visit our website or contact us at bioengineering@ucdenver.edu.

CIVIL ENGINEERING

Chair: Kevin L. Rens
Associate Chair: Bruce Janson
Office: North Classroom, 3037
Telephone: 303-315-7160
Fax: 303-315-7158
Website: ucdenver.edu/civil

Faculty

Professors:

Nien-Yin Chang, PhD, Ohio State University, Professional Engineer (PE)-Ohio and Colorado
James C.-Y. Guo, PhD, University of Illinois at Urbana-Champaign, PE-Colorado
Bruce N. Janson, PhD, University of Illinois at Urbana-Champaign
Yail Jimmy Kim, PhD, Queen's University, Professional Engineer (PEng)-Canada
Kevin L. Rens, PhD, Iowa State University, PE-Colorado
Jonathan T.H. Wu, PhD, Purdue University

Associate Professors:

Caroline Clevenger, PhD, Stanford University, PE, RA-Colorado
Arunprakash Karunanithi, PhD, University of Connecticut
Chengyu Li, PhD, Arizona State University; PE-Colorado, North Carolina, New Mexico, Washington; SE-Utah, Arizona, Washington
Wesley Marshall, PhD, University of Connecticut, PE-Connecticut
David C. Mays, PhD, University of California at Berkeley, PE-Colorado, California

Assistant Professors:

Moatassem Abdallah, PhD, University of Illinois at Urbana-Champaign
Heidi Brothers, PhD, University of Cincinnati
Allison Goodwell, PhD, University of Illinois at Urbana-Champaign
Frederick R. Rutz, PhD, University of Colorado, PE-Colorado

Professors Emeriti:

Paul E. Bartlett, MS, University of Colorado, PE-Colorado
David W. Hubly, PhD, Iowa State University, PE-Colorado
Lynn E. Johnson, PhD, Cornell University, PE-Connecticut
Oren G. Strom, PhD, University of Texas at Austin

Mission Statement

The mission of the Department of Civil Engineering:

- deliver high-quality comprehensive degree programs (BS, MS, MEng, PhD) to all of our students at both the undergraduate and graduate levels

- matriculate students who excel in professional practice and leadership and who possess compassion and respect for people of all cultural backgrounds
- teach our classes with excellence, whether in a traditional classroom setting or online
- offer our students state-of-the-art laboratories, equipment and classrooms with the latest technology needed for a complete learning experience
- develop ambitious and innovative research programs involving both faculty and students through funding from federal, state and local sources
- provide supportive mentoring and guidance to our students through teaching, research and advising
- produce students who can work as leading professionals in civil engineering and in many other fields for which civil engineering knowledge can be a foundation

Undergraduate Information

The CU Denver undergraduate civil engineering curriculum places balanced emphasis on five principal areas of civil engineering practice: structures, transportation, environmental, water resources and geotechnical engineering. In each of these areas, the student receives instruction in planning, design and analysis methods. Microcomputer skills are taught early in the program of study and used frequently in subsequent courses.

A minimum of 130 semester hours is required to earn a bachelor of science degree. The faculty provides advising to help students develop an efficient study plan. The student must satisfactorily complete all the course work in the curriculum, satisfy all university graduation requirements and maintain at least a 2.0 GPA in the civil engineering courses.

COMPUTER SCIENCE AND ENGINEERING

Chair: Gita Alaghband

Program Manager: Christina Ridd

Administrative Assistant: Megan Rogers

Office: Lawrence Street Center, 8th Floor

Telephone: 303-315-1408

Fax: 303-315-1410

Website: engineering.ucdenver.edu/cse

Faculty

Professors

Gita Alaghband, PhD, University of Colorado

Research areas: parallel and distributed systems, parallel algorithms, applications and languages, high-performance computing

Tom Altman, PhD, University of Pittsburgh
Research areas: algorithms, optimization, theory

Min-Hyung Choi, PhD, University of Iowa
Research areas: computer graphics, animation, virtual reality, human computer interface

Associate Professors

Ellen Gethner, PhD, University of British Columbia; PhD, Ohio State University
Research areas: graph theory, number theory, combinatorics, discrete geometry, computational geometry, visualization, algorithms

Ilkyeun Ra, PhD, Syracuse University
Research areas: computer networks, cloud computing, high-performance computing, distributed computing systems

Assistant Professors

Farnoush Banaei-Kashani, PhD, University of Southern California
Research areas: big data management, big data mining, data science, geospatial data analysis, data stores (NewSQL)

Ashis Biswas, PhD, University of Texas at Arlington
Research areas: machine learning, data mining, big data analysis, bioinformatics

Liang He, PhD, Nankai University
Research areas: cyber-physical systems, cognitive battery management, IoTs, mobile computing

Haadi Jafarian, PhD, University of North Carolina Charlotte
Research areas: proactive security for cyber threats, big data analytics for cyber threat intelligence, security for cyber-physical systems & critical infrastructures, security for IoTs, security analytics & automation, science of security

Assistant Professors (Clinical Teaching Track)

Madhuri Debnath, PhD, University of Texas at Arlington
Research areas: data mining, spatio-temporal data analysis, data science, machine learning

Salim Lakhani, PhD, Purdue University
Research areas: cloud computing and security, distributed computing & database systems

Senior Instructor (Clinical Teaching Track)

Diane Yoha, MS, University of Colorado Denver
Research areas: artificial intelligence, linguistic geometry, natural language processing

Professor Emeriti

Boris Stilman, PhD, National Research Institute for Electrical Engineering, Moscow, Russia

Mission Statement

With the advances in technology and the rapid and prevalent growth of the information-based economy, computer science has become an enabling science for nearly all disciplines that impact engineering, science, business, health and government. The future of the discipline promises even more innovative advances. The Department of Computer Science and Engineering at the University of Colorado Denver is committed to providing outstanding education and research training to our diverse undergraduate and graduate students for productive careers in industry, academia and government in the Denver metropolitan area, state and beyond. Our faculty strive for excellence in teaching, research and service by covering a broad spectrum of the discipline's core fundamentals, as well as applied aspects including those of interdisciplinary nature. We actively engage our students in classroom and out-of-classroom research and help them develop the skills needed to solve complex real-world technological problems of modern society.

Programs Offered

The Department of Computer Science and Engineering offers BS, MS and PhD degrees:

- The undergraduate BS degree is awarded in computer science (CS) and is ABET accredited. This curriculum is a rigorous study covering theoretical, software, systems and hardware interfaces providing students with a coherent and in-depth education of key components of the field.
- The Computer Science Scholars Program (dual BA/MS or BS/MS) provides high-performing and motivated undergraduate students the opportunity to begin course work at the graduate level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 hours of graduate-level CS courses for both the bachelor of science (BS)/bachelor of arts (BA) and the master of science (MS).
- The undergraduate BA degree is awarded in computer science (CS). It offers a flexible degree program designed with a modular approach that allows students to combine their computer science education with another academic field of their interest.
- The undergraduate certificate of Cyber Security & Secure Computing program is designed for students pursuing an undergraduate degree and will help prepare to be cyber defense professionals for careers in both the public and the private sector.
- The MS degree is awarded in computer science to those students who wish to pursue graduate studies to further develop their education. The MS in CS graduate program

covers the core knowledge of key concepts of computer science as well as offers flexibility to pursue specializing in various fields of interests.

- A track in **Data Science in Biomedicine** is offered as a MS thesis option. Students who choose this track will adopt biomedical applications of data science to learn data science methodologies and technologies.
- The **graduate certificate in software engineering** is designed for working professionals, or computer science students beginning their careers, who are in the field of software engineering and/or software development.
- The **graduate certificate in cybersecurity & defense** is designed for working professionals in the field of computer science, network and/or security operations. The certificate program in Cyber Security and Defense will prepare Computer Science professionals to identify, analyze, and mitigate technical cybersecurity-related vulnerabilities, exploits and attacks against network and critical cyber infrastructure.
- The **Computer Science and Information Systems (CSIS) PhD** Computer Science track is awarded by the College of Engineering and Applied Science. The CSIS PhD program is an interdisciplinary, joint program between the Department of Computer Science and Engineering and the Information Systems program in the Business School.
- The multidisciplinary **Engineering and Applied Science PhD** degree is available through the Department of Computer Science and Engineering.
- Any undergraduate student currently enrolled in a CU Denver degree program with a major other than computer science may earn a minor in computer science. This includes students from the College of Engineering, Design and Computing, the College of Liberal Arts and Sciences, the School of Public Affairs, the College of Arts & Media, and the School of Education & Human Development.

The most up-to-date information on all programs offered through the computer science and engineering department can be obtained from the department's website at engineering.ucdenver.edu/cse. Please also see our Graduate Catalog for more details regarding these programs.

Undergraduate Information

Computer Science Program

Computers as a combination of software and hardware have become significant to the whole of society. They affect the way in which business is conducted and the way people study and learn. Very important is the use of computers to develop new avenues of human communication, interaction and cooperation. Communication networks and the combination of text with audio and video are providing more people with fingertip access to a vast array of information and knowledge.

The computer scientist is a professional who must be prepared to apply his or her skills, knowledge and creativity in a rapidly changing field. The bachelor of science in computer science at CU Denver prepares students for such creative work. The emphasis is on fundamental concepts and basic principles with a long useful life. The program is

composed of five major study areas: mathematics, basic or engineering science, required computer science, technical electives and the CU Denver core curriculum.

The computer science program is accredited by the Computing Accreditation Commission (CAC) of ABET.

Computer Science Curriculum

The mathematics, basic science and computer science core requirements give the student a broad exposure to the concepts, methods and practice of computer science and engineering; the student learns the fundamentals of producing solutions to problems.

Technical electives are chosen to add depth to a student's knowledge in an area of special interest.

The CU Denver undergraduate core curriculum is designed to give the student an exposure to knowledge outside his or her major. For students in the College of Engineering, Design and Computing, courses in the humanities, social sciences and human communications are required.

To be awarded the bachelor of science in computer science, a student must satisfactorily complete all course work shown in the curriculum below, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all computer science courses attempted (see "Policy on Academic Progress" in the introductory section of this chapter). Students must meet with an undergraduate advisor each semester to assure that they are on track within the degree program and are aware of the current requirements of the program. An additional source of information is the CS Undergraduate Advising Handbook available online on the department's website. Students must complete a 30-hour checkout before registering for the last 30 semester hours of their program. In addition, each student must complete an approved graduation plan within the academic year of their intended graduation date. For advising policies, see the BS-CS handbook on our website.

Note: Prerequisites must be taken before a course that requires them. Co-requisites are to be taken concurrently. Prerequisites will be strictly enforced.

Computer Science Scholars Program: Dual BS/MS

The Computer Science (CS) Scholars Program provides high-performing and motivated undergraduate students the opportunity to begin graduate work at the master's level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 hours of graduate-level computer science courses for both the Bachelor of Science (BS) and the Master of Science (MS) degree. This accelerates the time to obtain a graduate degree for the student, saving both time and expense.

Program Guidelines:

Students admitted into the CS Scholars Program will be allowed to take 5000-level courses in computer science while still completing their undergraduate degree in computer science. CS Scholars are allowed to apply up to 12 credit hours (4 courses) of 5000-level courses toward both their BS degree in computer science, as technical electives, and their MS degree in computer science.

The following guidelines are applied to students in the BS Scholars Program:

- Dual credit CSIS 5000-level courses must be taken at CU Denver and must be courses selected from category A or B as required by the MS degree in computer science (outlined in the CU Denver computer science Graduate Handbook).
- Students must score a B- or higher in their 5000-level computer science courses for the course to be applied toward the MS degree. A passing grade below a B- will contribute to the BS degree requirements, but not to the MS degree requirements.
- Students cannot apply more than 12 credit hours of graduate coursework to the MS degree taken prior to the completion of the BS degree.
- Students must apply for the CS Scholars Program before their final year of courses to receive dual credit for 5000-level courses. Students will be considered undergraduate students until all requirements for the BS degree in computer science are completed.
- The BS degree will be conferred the semester during which these requirements are completed. At that time, students will also be considered an MS student. Students then continue to fulfill the remaining requirements for their MS degree in computer science (thesis option or project option or course only option). CS Scholars are expected to finish their MS degree in 2 semesters upon completion of their BS degree (course only option), plus a summer session for students pursuing an MS project or thesis.

Admission Requirements:

- Must be a full-time undergraduate student in computer science at CU Denver in good standing, with a minimum of 60 credit hours completed toward the BS degree in computer science, and must have completed CSCI 3412: Algorithms, CSCI 3453: Operating Systems Concepts, and CSCI 3287: Database Systems.
- Must have a minimum cumulative GPA of 3.3 or a 3.5 GPA in CS major coursework.
- Must complete an application to the CS Scholars Program, including a dual degree course plan. The application must be approved by the student's CS academic advisor and submitted to the CS department.
- Must apply and be accepted into the CU Denver MS program in computer science for the semester during which they will enter the CS Scholars Program dual-credit program.

Bachelor of Arts Computer Science Curriculum

The mathematics, basic science, computer science core requirements and computer science technical electives give the students a solid foundation in computer science; the student learns the fundamentals of computational thinking.

Students are encouraged to focus their free electives towards their area of interest to earn a certificate, minor or double major. The bachelor of arts in computer science is modeled as CS+X where X is a component of the degree consisting of 38 credit hours that students can use to pursue their passion in a different field toward a minor, double major, or even additional CS education. The program shares the same computer science courses as the BS in CS with fewer math and CS requirements. Students can use the 38 credits of free electives in fields such as graphic design, mechanical engineering, marketing, biology, physics, architecture, entrepreneurship, business, communications and any other subject offered at CU Denver. The program is composed of five major study areas: mathematics, basic science, required computer science, technical electives, free electives and the CU Denver core curriculum.

The CU Denver undergraduate core curriculum is designed to give the student an exposure to knowledge outside his or her major. For students in the College of Engineering, Design and Computing, courses in the humanities, social sciences and human communications are required.

To be awarded the bachelor of arts in computer science, a student must satisfactorily complete all course work shown in the curriculum below, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all computer science courses attempted (see “Policy on Academic Progress” in the introductory section of this chapter). Students must meet with an undergraduate advisor each semester to assure that they are on track within the degree program and are aware of the current requirements of the program. An additional source of information is the BA-CS Undergraduate Advising Handbook available online on the department’s website. Students must complete a 30-hour checkout before registering for the last 30 semester hours of their program. In addition, each student must complete an approved graduation plan within the academic year of their intended graduation date. For advising policies see BA-CS Handbook.

Note: Prerequisites must be taken before a course that requires them. Co-requisites are to be taken concurrently. Prerequisites will be strictly enforced.

Computer Science Scholars Program: Dual BA/MS

The Computer Science (CS) Scholars Program provides high-performing and motivated undergraduate students the opportunity to begin graduate work at the master’s level while completing the undergraduate degree in CS. In the process, it allows students to receive dual credit for up to 12 hours of graduate-level computer science courses for both the Bachelor of Arts (BA) and the Master of Science (MS) degree. This accelerates the time to obtain a graduate degree for the student, saving both time and expense.

The following guidelines are applied to students in the BA Scholars Program:

- If accepted, students remain in an Undergraduate status until receiving their BA degree, then move into a Graduate status with an intent of completing the MS in Computer Science within a year.
- Students can take up to four graduate courses while in an Undergraduate status.
- Complete the following courses while in undergraduate status including all prerequisites: CSCI 3453: Operating Systems, CSCI 4591: Computer Architecture, MATH 2411 and MATH 3195: Linear Algebra and Differential Equations.
- Students must meet with a CS Graduate advisor within a semester of acceptance into the Dual BA/MS Program.
- Students with a prior associates or bachelor degree completing the BACS may apply for the Dual BA/MS Program their last semester.

To apply for the Dual BA/MS Program, students must:

- Be a full-time undergraduate student in computer science at CU Denver in good standing, with a minimum of 60 credit hours completed toward the BACS degree.
- Complete the following courses: MATH 2411, CSCI: 3412: Algorithms, CSCI 3453: Operating Systems Concepts, and CSCI 3287: Database Systems.
- Commit to completing the following two courses while in undergraduate status: CSCI 4591: Computer Architecture and MATH 3195: Linear Algebra and Differential Equations.
- Have a minimum cumulative GPA of 3.3 or a 3.5 GPA in CS major coursework.

Undergraduate Certificate in Cybersecurity and Secure Computing

The goal of the undergraduate certificate of Cyber Security & Secure Computing program is to reduce vulnerability in the national information infrastructure by promoting higher education and research to help prepare cyber defense professionals for careers in both the public and the private sector. The curriculum of this certificate has been created to meet all criteria of NICE (National Initiative for Cybersecurity Education) undergraduate level of certification.

Certificate Objectives

This certificate program focuses on both the technical and analytical aspects of advanced cyber security and defense.

Program Objectives

- Master the fundamental concepts of cyber security principles and techniques.
- Learn about potentials for cyber security threats and attacks.
- Master cyber-defense tools, methods, and components to secure systems.
- Learn how to take appropriate measures should a system compromise occur.
- Learn principles and practices for secure computing

Learning Outcomes

- Be able to describe and apply the fundamental concepts of cyber security principles and techniques.
- Be able to analyze potential cyber threats and attacks.
- Be able to use cyber defense tools, methods, and components to properly secure systems.
- Be able to effectively and quickly evaluate and mitigate if systems are threatened or compromised.

Certificate Eligibility

Current students in good standing in an undergraduate computer science program (BA or BS), and those completing their minor in computer science are eligible. Applications from other CU Denver majors or non-degree students will be evaluated based on their current transcript. The student's application is subject to the approval of the computer science and engineering department chair.

Students planning to pursue a Cybersecurity & Secure Computing Certificate in Computer Science and Engineering should apply as early as possible to facilitate course planning, and no later than census date of the semester prior to graduation with their undergraduate degree.

Process to Attain Certificate Objectives

The following classes need to be taken with a grade of C- or better:

- CSCI 3761: Introduction to Computer Networks
- CSCI 3453: Operating Systems Concepts
- CSCI 4034: Theoretical Foundations of Computer Science
- CSCI 4741: Principles of Cybersecurity
- CSCI 4743: Cyber and Infrastructure Defense

Students must take and pass each course with a grade of C- or better. The Cybersecurity & Secure Computing Certificate requires a minimum cumulative GPA of 2.0.

ELECTRICAL ENGINEERING

Electrical Engineering Programs

Modern electrical engineering is a very broad and diverse field. Never before has there been such a challenge and opportunity for electrical engineering to serve mankind. Today's electrical engineers are involved in the development of technology, materials and products to improve the quality of life. They are concerned with the generation and transmission of power, the control and utilization of natural and synthetic resources, the communication of data and information and the intelligent use of computers in consumer as well as industrial products and processes. Systems in electrical engineering range in size from microprocessors through megawatt energy conversion systems to global audio and video communication networks.

At CU Denver, the electrical engineering curriculum prepares students for careers in product design, manufacturing, research, development, operation and plant engineering, technical sales and application engineering. The goal is to educate and inspire students to achieve their maximum career potential.

Mission Statement

We provide graduate programs and an ABET-accredited undergraduate program that are accessible to a diverse group of students—students of different racial and cultural backgrounds, full-time students as well as those who have considerable work and family commitments outside their academic learning and students with a wide variety of work experiences.

Undergraduate Information

Entering students begin their program with a solid foundation in mathematics, physics, chemistry and computers. Social science, humanities and communication courses provide a diverse background. Intensive courses follow in the theory and laboratory

application of digital logic and electrical circuits, electromagnetic fields, electronics, computer engineering and digital hardware design, linear systems, controls, electrical machines and power systems and microprocessors. Throughout the entire course of study, students reinforce their understanding of theory through laboratory experience and extensive design projects. A strong background is provided in all of the major fields of electrical engineering: circuits and electronics, microcomputers, signal and image processing, communications, autonomous and robotic systems, power and energy conversion, and automatic control systems and instrumentation. Ethics is an integral part of the curriculum. During the senior year, advanced undergraduate-level courses in different specialty areas, design projects and professional electives allow the student to explore areas of special interest.

Students should supplement this information about the curriculum by consulting a copy of the *Department of Electrical Engineering Advisement Guide*, which may be obtained in the Department of Electrical Engineering office located in North Classroom 2615.

The *Department of Electrical Engineering Advisement Guide* contains the latest information concerning the curriculum as well as guidelines and procedures with which each student should be familiar. To be awarded the bachelor of science in electrical engineering, a student must satisfactorily complete 128 semester hours, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all electrical engineering courses attempted. Appointments to see any of the departmental advisors may be made by calling 303-315-7520.

MECHANICAL ENGINEERING

Chair: Samuel W. J. Welch

Office: North Classroom 2024

Telephone: 303-315-7500

Maryam Darbeheshti, PhD, University of Denver

Senior Instructor:

Joseph F. Cullen Jr., MS, University of Colorado

Professor Emeritus:

James Gerdeen, PhD, Stanford University

J. Kenneth Ortega, PhD, University of Colorado Boulder

Associate Professor Emeritus:

B. Thomas Arnberg, MS, University of Colorado

Mission Statement

The mission of the Department of Mechanical Engineering is to contribute to the economic development of the state of Colorado and the Denver metropolitan area by providing high-quality bachelor's, master's (MS and MEng) and PhD programs in mechanical engineering for a diverse group of working students.

Program Objectives

The program offered by the Department of Mechanical Engineering of the University of Colorado Denver can be completed in the afternoon and evening hours to accommodate both working and traditional students. The department seeks to graduate a diverse population of students with a bachelor's degrees who within a few years of graduation are able to:

1. be employed by a diverse group of industries, research laboratories and educational institutions
2. pursue careers in engineering, interdisciplinary areas, research and education
3. pursue post-graduate education and advanced degrees.

Undergraduate Information

The mechanical engineer is concerned with satisfying the needs of society using a combination of material, human and economic resources. Mechanical engineering covers a wide spectrum of activities in the engineering profession. These activities include the conversion and transmission of energy and associated power processes; the kinematic, dynamic, strength and wear considerations, as well as economic aspects of the development, design and use of materials, machines and processes; and the analysis, synthesis and control of entire engineering systems.

The mechanical engineering curriculum begins with a strong emphasis on mathematics, physics and chemistry. It continues with a concentration in engineering sciences, including solid and fluid mechanics; thermodynamics, heat and mass transport;

materials; and systems analysis and control. It concludes with laboratory and design courses that demonstrate the ways in which scientific knowledge is applied in the design and development of useful devices and manufacturing processes.

The mechanical engineering program may be roughly subdivided into two-year groupings. In the first two years, the program emphasizes the fundamentals of mathematics and basic science that are essential for an understanding of most branches of engineering. In the last two years of the program, the curriculum emphasizes engineering science and design and provides technical electives in the following areas:

- thermodynamics
- heat transfer
- fluid mechanics
- solid mechanics
- motorsports engineering
- power
- bioengineering
- dynamics and controls
- computer-aided design and manufacturing
- thermomechanical systems
- composite materials
- additive manufacturing

Concurrent Bachelor's/Master's Degrees

In addition to the bachelor of science in mechanical engineering, the department offers a concurrent bachelor's/master's degree. Students wishing to obtain a BS degree with a major in mechanical engineering and either the MS or the MEng degree in mechanical engineering may do so with up to 6 semester hours of 5000-level or above courses applying to both degrees. The 5000-level courses must meet the degree requirements for the graduate degree sought and must be suitable technical electives for the undergraduate degree. This option is open only for students seeking both degrees at CU Denver. Students must meet admission requirements to be accepted into the graduate program. Completion of two 5000-level courses does not guarantee admission into the graduate program. Please see an advisor for restrictions and guidelines.

COLLEGE OF LIBERAL ARTS AND SCIENCES

Dean

Pamela Jansma, Professor of Geography and Environmental Sciences

Associate Deans

Richard Allen, Associate Dean for Teaching, Learning and Curriculum; Professor of Psychology

Laura Argys, Associate Dean for Research and Creative Activities; Professor of Economics

David P. Tracer, Associate Dean for Student Success; Professor of Health & Behavioral Sciences

Marjorie Levine-Clark, Associate Dean for Diversity, Outreach and Initiatives; Professor of History

Kathleen, Bollard, Associate Dean for Faculty and Staff Affairs; Professor of Spanish

The mission of the College of Liberal Arts and Sciences is to foster academic excellence, to create and impart knowledge critical to a modern society and a global economy, and to ensure the acquisition of skills essential for professional careers and graduate study. Our vision is to enact a new paradigm for a liberal arts education that retains the proven values of a broad education while imparting career-oriented skills throughout the curriculum.

Today's university graduates need to be critical thinkers who are able to apply knowledge and skills from multiple disciplines to unscripted, real-world problems. A College of Liberal Arts and Sciences (CLAS) education involves mastery of essential learning outcomes, such as creative problem solving, oral and written communication, quantitative literacy, intercultural competence, and ethical reasoning, which provide students with the tools to become lifelong learners who are adaptive and innovative. While establishing a broad foundational education, CLAS gives students the opportunity to dig deeply into disciplinary and interdisciplinary majors, which train them in scholarly fields, traditions, and methods of analysis. This combination of breadth and depth prepares students for our twenty-first century world, which requires flexibility and

mobility, as new jobs develop and careers change at an ever-faster pace. CLAS graduates enter a wide variety of occupations and pursue advanced degrees in academia and in professions like law and medicine.

The CLAS curriculum provides rigorous academic programs while offering a number of flexible learning opportunities, such as the Individually Structured Major, to meet our students' varied needs and objectives. The college draws on our downtown location and makes use of the city's many resources through student internships, experiential learning programs, and partnerships with Denver businesses and non-profit organizations. CLAS students have excellent opportunities to participate in first-class faculty research, and the college prides itself on its faculty-mentored undergraduate research programs and applied research in the community.

College of Liberal Arts and Sciences Educational Goals

The College of Liberal Arts and Sciences provides undergraduates at CU Denver with a broad and multilayered education consisting of:

1. **In-depth knowledge** of the major disciplines of the humanities, natural and physical sciences, and social and behavioral sciences that call the College of Liberal Arts and Sciences home.
2. **Intellectual and practical skills**, including inquiry and analysis, critical thinking, creative thinking, written communication, oral communication, university-level reading, quantitative literacy, information literacy, teamwork, and complex problem solving-practiced at progressively more challenging levels.
3. **Personal and social responsibility**, including civic knowledge and engagement (local and global), intercultural knowledge and competence, ethical reasoning and action, and foundation of skills for lifelong learning.
4. **Integrative and applied learning**, synthesizing knowledge and skills from multiple disciplines and experiences to address complex, real-world problems in our diverse local, national and global communities.

A CU Denver liberal education combines world-class knowledge in specific disciplines with the comprehensive skills and dispositions that students need for success and that our society needs its citizens to possess. In a world where content knowledge rapidly becomes obsolete and where graduates may have a dozen different jobs, these skills and dispositions are crucial. Employers increasingly look for employees who can think critically, communicate clearly, and solve complex problems. A liberal education may be the most vocational education that today's student can earn. A liberal arts and sciences education truly is "learning with purpose."

Academic Advice and Information

Students in the college are expected to assume responsibility for planning their academic programs in accordance with college policies and major requirements. To

assist undergraduate students, the college maintains the CLAS Academic Advising Office. Students meet with a CLAS staff advisor upon matriculation into the college through one of the established orientations for first-year freshmen or transfer students. Undergraduate students can find their assigned CLAS staff advisor in the “Advisor” box in their Student Center. The CLAS staff advisor advises undergraduate students about CU Denver and CLAS graduation requirements, and certifies that CU Denver core requirements and CLAS graduation requirements have been met.

As soon as students have determined a major, minor or certificate granting program they should meet with a faculty advisor as early in their career as possible. The faculty advisor will be responsible for the student’s major, minor or certificate advising and for certification of the completion of program requirements at graduation.

Students planning to ultimately earn a degree from one of the professional schools should also see an advisor in that school or college.

Departments and Programs

Caley Orr, PhD, Arizona State University

Undergraduate Information

Anthropology Major

Anthropology is the study of human origins and evolution, the present conditions of human life and the prospects for the future. It considers human beings as biological and social entities and seeks to explain both diversities and commonalities of peoples and cultures. For undergraduates, anthropology provides a rich overview of human life. It also introduces them to a variety of skills and practical research methods anthropologists apply in laboratory and field studies of the ecological constraints on human existence, the cultural bases of individual and organizational behavior and the problems and circumstances relating to the maintenance of today's healthy, productive human action in general.

Anthropological training provides entry to a variety of careers in archaeology, museology, education, community service, public administration, public health, international affairs and business. The specific skills it provides are useful to students of environmental design, city planning, community development, the medical and nursing professions and allied health sciences, law, public affairs and secondary education.

[Click here](#) to see the requirements for the major.

Departmental Honors Requirements

Students wishing to graduate with departmental honors in anthropology must have a cumulative GPA of at least 3.5, with a 3.7 minimum GPA in anthropology for *cum laude* (3.8 for *magna cum laude* and 3.9 for *summa cum laude*), as well as prepare an honors thesis of high quality. They must also take ANTH 4810, Integrating Anthropology. Interested students should inquire in the department no later than two semesters before graduation.

Anthropology Minor

Undergraduate Information

Chemistry is the study of matter and its transformations, from the smallest scale - atoms and subatomic particles - to the macromolecules that provide structure and function to living organisms. Chemistry is often called the “central science” because it touches on other STEM disciplines including physics, biology, medicine, environmental science, geology, mathematics, materials science, technology, and many others. A degree in

Chemistry or Biochemistry can prepare you for a wide range of meaningful careers discovering and applying scientific knowledge. Modern chemistry combines computer modeling and experimental observation using procedures that are much safer and more environment-friendly than in past generations. Learning chemistry also teaches you important critical thinking skills that can be valuable in any career.

For more information regarding the Biochemistry Major or double major options, contact the Biochemistry Major Advisor: Dr. Vanessa Fishback vanessa.fishback@ucdenver.edu.

For more information regarding the Chemistry Major or double major options contact the Chemistry Major Advisor: Dr. Marta K. Maroń marta.maron@ucdenver.edu.

All Chemistry and Biochemistry Majors should contact their respective Major Advisor every semester.

[Click here to learn about the requirements for the Major in Chemistry.](#)

[Click here to learn about the requirements for the Major in Biochemistry.](#)

[Click here to learn about the requirements for the American Chemical Society Certified Major in Chemistry.](#)

Departmental Honors

Qualified students are encouraged to participate in the Chemistry Honors Program. Three levels of honors are awarded by the CU Denver Chemistry Department.

To earn *cum laude* honors in Chemistry or in Biochemistry, a student must satisfy one of the following criteria:

1. an overall GPA of 3.2 or better and a chemistry GPA of 3.5 or better; or
2. an overall GPA of 3.2, a chemistry GPA of 3.2 or better, and six hours of CHEM 4880 Directed Research, spread over a minimum of two semesters.

To earn *magna cum laude* or *summa cum laude* honors in Chemistry or Biochemistry, a student must satisfy each of the following criteria:

1. an overall GPA of 3.2 or better,
2. a chemistry GPA of 3.5 or better;
3. six hours of CHEM 4880 Directed Research, spread over a minimum of two semesters with a GPA of 3.2 or better;
4. Presentation and approval of a thesis based on the independent study research to a faculty advisory committee. If the thesis is approved, the faculty committee can recommend graduation at either the magna cum laude (high) or summa cum laude (highest) level.

Guidelines for Thesis

The advisory committee is to include three faculty from the University, including at least one faculty member from Chemistry and at least one faculty member from outside the department. If the PI is chemistry department faculty, then the PI is the chair of the committee. If the PI is faculty in another department, the student needs to recruit a Chemistry faculty member who has familiarity with the research topic to serve as

committee chair. The student should have the committee members in place during the first month of the semester in which the student plans to graduate.

The committee chairperson by agreeing to serve validates that the presented research has been performed by the student.

The thesis is written using the primary journal style of the research sub-specialty. The student gives committee members the finished thesis two weeks prior to the thesis presentation unless the student has been otherwise informed by the committee members. The student organizes the time and place of examination. The last date to schedule the oral examination of the thesis is the Friday before the last week of the regular semester. This gives the student two weeks to make corrections and changes specified by the committee. The last day to turn in a completed and signed off thesis is the Friday of finals week at 4 pm. The committee signs the Thesis Examination Form, gives a copy to departmental advisor along with a copy of the thesis.

Chemistry Minor

For more information contact the Chemistry Minor Advisor: Dr. Priscilla Burrow priscilla.burrow@ucdenver.edu. All Chemistry minors should contact the minor advisor the semester prior to the semester of planned graduation.

[Click here to learn about the requirements for a Minor in Chemistry.](#)

Certificate in Biochemistry

For more information contact the Biochemistry Major Advisor: Dr. Vanessa Fishback vanessa.fishback@ucdenver.edu. Students applying for the certificate should contact the major advisor during the semester prior to the semester of planned certificate award.

[Click here to learn about the Certificate in Biochemistry.](#)

Chemistry BS/MS Program

[Click here to learn about our BS/MS Program.](#) For more information contact the Graduate Advisor Dr. Scott Reed at scott.reed@ucdenver.edu.

Graduate Information

At the graduate level, an MS degree program is offered. Students with MS degrees have job opportunities in research and technical laboratory services. In addition, flexible programs can be designed to combine chemical knowledge and skills with other interests of the MS-level student (e.g., biology or environmental science). Please go to the Graduate catalog to read about our graduate programs.

The Department of Communication at the University of Colorado Denver enriches understanding of the roles of communication in everyday life, organizational settings and public affairs. While the roots of the study of communication trace back to the ancient arts of philosophy, rhetoric, and aesthetics, its contemporary practices speak to the opportunities and dilemmas of participating in a globalized, mediated and multicultural society. A major in communication develops knowledge and skills that are required for many different fields, including advertising, business, international relations, education, public service, government and politics, health care and public relations. Because college graduates are expected to change careers approximately seven times over the course of their lives, and because employers across a wide variety of fields seek applicants with strong oral and written communication skills, a degree in communication is a versatile and timely choice.

The department's classes are organized in five pathways, including community service and public affairs, global and intercultural communication, health communication, media and cultural studies, and strategic communication. In addition, we offer a number of Inquiry and Analysis classes that bridge these areas. Across these pathways, students are encouraged to merge theoretical studies with practical applications, including in-service learning courses, travel study, internships, social justice projects and other experiential modes of learning. The Department of Communication seeks to cultivate the knowledge and ability to use communication to create a more equitable and humane world.

Undergraduate Information

Communication Major

Click [here](#) to learn about the requirements for a major in Communication.

Academic Honors

Academic honors are conferred at graduation on students whose achievements are above those required for the bachelor's degree. Three levels of honors are available to students. *Cum laude* honors are automatically earned by communication majors with a cumulative GPA of 3.0 and a GPA of 3.5 in 39 hours of communication courses. *Magna cum laude* and *summa cum laude* honors require the completion of *COMM 4700-Thesis and Project Practicum*. Additional information about academic honors may be obtained from the undergraduate advisor in communication.

Undergraduate Internships

Internships are opportunities for students to work in communication-related positions in the community and to receive academic credit for that work. These internships provide a way for students to maximize their communication background and their understanding of concepts, theories, models and frameworks within the communication discipline.

Students typically receive 3 hours of academic credit for a one-semester internship in which they work between 15 and 30 hours a week.

For further information about internships, contact Megan Hurson at megan.hurson@ucdenver.edu .

Economics is the science of human behavior in market and non-market contexts. The rigorous and general scientific approach that characterizes economics lends itself to a remarkably wide field of practical application. Economists regularly apply their methods of analysis in fields such as government policy, international trade and finance, economic development, portfolio management and banking. But economics is increasingly seen as providing important insight into an enormous variety of social issues, including health care provision and health-related behaviors, law, criminal activity, environmental and natural resource problems, political activity, education, marketing and sports. The broad and rigorous training of economics majors accounts for the significant demand for their services in virtually every industry and government agency. Economics provides excellent preparation for advanced graduate study as well. Recent studies indicate that economics is a preferred undergraduate degree for those wishing to move on to prestigious business graduate programs and law schools.

Honors in Economics

Students wishing to earn departmental honors in economics should consult with their advisor no later than the beginning of their senior year.

Cum laude will be awarded to students who complete an economics major with a 3.5 GPA in all upper-division (3000+) courses in economics taken at CU Denver, with a minimum of eight such courses, and either two additional electives in economics beyond those required for the major, taken at the 4000 or higher level, or an acceptable honors thesis. The thesis must be approved by a three-member committee of department faculty and will include a presentation of the results to that committee. Students should register for the thesis, using ECON 4850 as the course number, as a 3-semester hour independent study, in addition to the regular requirements for the major.

Magna cum laude will be awarded to students who complete an economics major with a 3.7 GPA in all upper-division (3000+) courses in economics taken at CU Denver, with a minimum of eight courses, and who complete an honors thesis designated as “acceptable” by their thesis committee.

Summa cum laude will be awarded to students who complete an economics major with a 3.88 GPA in all upper-division (3000+) courses in economics taken at CU Denver, with a minimum of eight courses, and who complete an honors thesis designated as “outstanding” by their thesis committee.

In order to be recognized in the graduation program as “Honors Pending,” a draft of the thesis must be submitted to the chair of the committee four weeks prior to the end of the semester. The oral presentation and other requirements must be completed one week before graduation.

In order to be recognized in the graduation program with the specific honors degree being conferred, e.g., *summa*, *magna*, etc., students must turn in the completed final copy of the honors thesis four weeks prior to the end of the semester, along with meeting other requirements by the week before graduation. Otherwise, recognition will come with the diploma after graduation.

Students who do not have an advisor should contact the department for assignment to an advisor. Students should meet with their advisor at least twice a year.

ETHNIC STUDIES

Chair: Faye Caronan

Program Assistant: Sothary Chea M.S

Office: Plaza Building, Ste. 102

Telephone: 303-315-7205

Fax: 303-315-7206

Faculty

Professor:

Donna Martinez, PhD, University of Washington

Associate Professor:

Faye Caronan, PhD, University of California

Paula Espinoza, PhD, University of Colorado

Rachel E. Harding, PhD, University of Colorado

Senior Instructors:

Dennis Green, ABD, University of New Mexico

Ethnic Studies programs are designed to help students majoring in the liberal arts and sciences develop a sophisticated and broad understanding of ethnicity and its role in contemporary American society. They provide students with the theories and concepts needed to comprehend and interpret relations between and among ethnic groups in the United States. Students are better prepared to live and work in a diverse society when educational institutions foster a positive learning environment in which differences contained within various U.S. communities can be studied not as a social problem, as is often the case, but for their history of struggles and contributions.

The interdisciplinary nature of the ethnic studies program curriculum provides students the opportunity, through academic investigation, to develop a greater understanding of the cultural diversity of the present-day United States and to acquire skills needed in professional and social service fields. This multidisciplinary, comparative approach to contemporary and historical research methodologies provides the basis for students to analyze the diverse social, economic, political and cultural facets of ethnic groups in the United States. Special emphasis is given to new perspectives that recover the history, creative expression of underrepresented groups.

Programs and courses reflect prevailing thought in ethnic studies, draw parallels between various groups in the United States and link the studies of their country of origin with current and historical research on race and ethnic relations in the United States. They reflect critical analysis of the dominant perspectives through which ethnic groups have been described and perceived. Also investigated are the intersections of ethnicity with structures of political, educational, gender, business and economic, social and cultural power, all of which are emphasized through the study of materials and works by and about previously excluded groups. The cultural processes through which ethnic groups have sustained or altered their cultural identities are emphasized, as well as the pressures faced by members of various ethnic groups to maintain traditional values and conform to mainstream U.S. society.

David Murray

Xuantong Wang

Undergraduate Information

Geography is a science that focuses on the spatial analysis of human/physical patterns and processes. Geographers attempt to identify the factors affecting the distribution of people and their activities on the surface of the earth and to provide meaningful solutions to problems faced by societies. This discipline is an ideal major for the liberal arts student, providing exposure to the concepts and techniques utilized in investigating

the physical sciences, environmental and sustainability issues, socioeconomic problems and planning policies. The major offers 5 degree options: 1) General Geography, 2) Environmental Science, 3) Environment, Society & Sustainability, 4) Urban Studies & Planning, and 5) Environmental Science Education.

The program offers a distinctive curriculum that combines a broad and integrative scientific education with state-of-the-art training in geo-spatial analysis (e.g., computer mapping, GIS, remote sensing). The program is designed to provide the student interested in physical, social or environmental geography with the background necessary for obtaining a rewarding career in government (federal, state, local) or private industry, as well as preparing students for graduate study.

Departmental Honors

Departmental honors is a privilege for students who demonstrate exceptional academic performance and promise at CU Denver. The minimum criteria for honors in GES are an overall GPA of 3.3 in all courses at CU Denver (minimum of 30 semester hours for transfer students) and a GPA of 3.75 for all courses taken in the Department of Geography and Environmental Sciences (regardless of the BA option that students are pursuing). A student who meets these criteria shall work with a GES faculty sponsor who agrees to guide an honors thesis. Students must successfully complete and defend an honors thesis that demonstrates independent research, written and presentation skills. Additionally, students are required to sign up for and successfully complete 3 honors thesis credits the semester that they are graduating with honors. Departmental honors will be awarded based on successful completion and defense of the honors thesis, subject to faculty sponsor and committee approval. For more information, please contact the GES undergraduate advisor and/or chair.

Debbi Main, PhD, University of Colorado

Research and Clinical Faculty:

Sharon Devine, PhD, University of Colorado

Jean Scandlyn, PhD, Columbia University

The mission of the health and behavioral sciences (HBSC) program is to apply social science theory and innovative research methods to critically address emerging issues in health. The program trains students to confront issues affecting the health of communities and populations by focusing on social determinants of health and diseases. These determinants can be more influential on population health than the health care system.

The program's overarching framework integrates social, cultural and biomedical perspectives to understand the underpinnings of health and the conditions essential for its creation and maintenance. Students and faculty conduct interdisciplinary research on topics including emerging diseases, maternal/child health, substance abuse, health disparities and global health. Graduates are innovative researchers, effective educators and leaders directly engaged in the practice of public health.

Undergraduate Information

Public health is working to protect the environment, identifying sources of illness in population groups, controlling disease outbreaks, evaluating the economic impacts of changing demographics, developing interventions to promote healthy behavior, and producing health policy legislation. Public health draws from a broad array of disciplines, such as the social and behavioral sciences, medicine, nursing, pharmacy, physical therapy, business, economics, statistics, epidemiology, law and biology, and each provides unique insights for the diverse set of activities involved in public health practice.

In response to the tremendous career and research opportunities in public health, the Department of Health and Behavioral Sciences in the College of Liberal Arts and Sciences (CLAS), in collaboration with the Colorado School of Public Health (CSPH), created an undergraduate major in public health. Most core classes for the public health major are team taught with one faculty member from the downtown campus (CLAS) and the other from the Anschutz campus (CSPH).

This degree is designed to accommodate as many student interests as possible. At CU Denver, we are committed to helping students develop their own individualized educational path; we strive to serve the needs of both the student who wishes to specialize in communication strategies for effective public health education campaigns, as well as the student who wants to hasten the translation of the latest bench science technologies into public health practice. To this end, the major consists of both BA and BS tracks.

Two options are available for the undergraduate major in public health: Bachelor of Arts (BA) or Bachelor of Science (BS). After completion of the program, students will have a broad background to serve as the foundation for a variety of career paths, such as immediate entry into public health positions, background training for a professional school (including but not limited to medical, dental, nursing, pharmacy or law school), or the pursuit of an advanced degree such as a master's or Ph.D. in a range of social, behavioral or natural sciences.

Bachelor of Arts (BA)

Students in the BA program develop a specialty in the social sciences and public health.

[Click here for information about the requirements for the BA in Public Health.](#)

Bachelor of Science (BS)

The Bachelor of Science in Public Health is designed to fulfill all medical school prerequisites in a four-year course of study.

Students in the BS program develop a specialty in the natural sciences and public health.

[Click here for information about the requirements for the BS in Public Health.](#)

Public Health Demography Minor

The minor in demography gives students focused training in theories and methods of demography. It will help students develop important skills in critical thinking and quantitative reasoning, and will prepare them for graduate level training in demography or related fields and for jobs requiring an understanding of population dynamics. Demographers are frequently employed in occupations including academia, risk assessment, marketing, consulting, non-profits, and various local, state, and federal government agencies.

[Click here for information about the requirements for the Minor in Public Health Demography.](#)

Public Health Minor

The undergraduate minor in public health is designed to provide students with a basic understanding of the social, cultural and biological dimensions of health. The minor curriculum provides students with the intellectual and methodological tools needed to understand the joint bio-cultural determinants and contexts of health, health care and public health.

Graduates with a minor in public health will be prepared for pursuit of graduate degrees in a broad range of fields, including the natural, social and behavioral sciences; public health; law; medicine; dentistry; pharmacy; nursing; business administration; and health services research. The program is especially appropriate for students intending to pursue careers in public health, as well as primary care specialties in medicine, nursing or health policy and administration.

[Click here for information about the requirements for the Minor in Public Health.](#)

Five year BA/BS/MPH

This 5-year degree program combines the Bachelors of Art/Bachelor of Science (BA/BS) of Public Health (PBHL) and the Master of Public Health (MPH). These degrees are offered, respectively, at the University of Colorado Denver by the Department of Health and Behavioral Sciences in the College of Liberal Arts and

Sciences on the downtown campus, and the Colorado School of Public Health, a joint venture of the University of Colorado, Colorado State University and the University of Northern Colorado. The free-standing PBHL is composed of 120 credits of coursework (43 specific to the BA and 73 specific to the BS, with the remainder being part of the larger requirements for a Bachelor's degree). The free-standing MPH program is 42 credit hours and typically completed in 2 years.

[Click here](#) for information about the requirements for the five-year BA/BS/MPH.

Daniel Goldberg, Center for Bioethics and Humanities

Health Humanities is an undergraduate interdisciplinary minor that highlights humanities and related social science approaches to medicine and health. The health humanities offer insight into the human condition as it pertains to the arts and sciences of healing and deepens understanding of disease and wellness, pain and suffering, personhood, the nature of death and dying, embodied experience, and the limits of technological knowledge. Attention to literature, history, philosophy, rhetoric, and the arts reveals the ethical, cultural, and social contexts of health and medicine.

Who is this minor for?

- **EVERYONE!** Humanistic studies of health provide an excellent addition to science-based curricula and also a stand-alone program that addresses many current issues and interests.
- **Premed students:** Medical school admissions committees actively seek students with strong humanities and liberal arts backgrounds.

Key Learning Outcomes:

- Students will utilize humanistic perspectives to analyze approaches and practices related to health and medicine.
- Students will critically analyze historical and contemporary connections among health, medicine, and society.
- Students will demonstrate understanding of the historical, cultural, and political contexts of theories and practices related to health and medicine.

Carl E. Pletsch, PhD, University of Chicago
Myra L. Rich, PhD, Yale University
James B. Whiteside, PhD, University of Colorado
James B. Wolf, PhD, University of California, Los Angeles

The special responsibility of historical studies is understanding the past. History courses integrate many branches of knowledge, cutting across the lines of the social sciences and the humanities, and even the natural sciences. Identifying forces of stability and processes of change, history students develop their research, writing and analytical skills, which serve them well beyond their university years.

Undergraduate Information

Please click [here](#) for more information about the requirements for the Major in History.
Please click [here](#) for more information about the requirements for the Minor/Online Minor in History.
Please click [here](#) for more information about the requirements for the Immigration Studies Certificate.

Internships

Students may qualify for internships to earn credit and experience. Students may pursue internships in public policy, law, social work, community organizing, journalism, teaching, and a variety of other job fields. Students interested in pursuing an internship in their chosen job field should speak with the Undergraduate Advisor. Students interested in working in historical institutions can apply for positions with the Center for Colorado and the West, Colorado State Historical Society, Historic Denver, Denver Museum of Nature and Science, the Colorado Railroad Museum, and the National Park Service.

Honors Program

Students with a cumulative GPA of 3.5 or higher in their upper-division history classes are encouraged to submit their HIST 4839 (History Seminar) thesis papers to achieve a degree awarded with Latin honors: *cum laude*, *magna cum laude* or *summa cum laude*. Eligible students will submit their thesis papers to the Undergraduate Advisor for review by the Undergraduate Honors Committee.

Historical Studies Journal

Since 1983, CU Denver students in history have published this illustrated journal showcasing the most outstanding original research done each year by history students.

HUMANITIES

Director: Margaret L. Woodhull, PhD

Program Assistant: Angela Beale

Office: Student Commons 3203

Telephone: 303-315-3565

Fax: 303-315-3569

E-mail: masterhs@ucdenver.edu

Website: clas.ucdenver.edu/ict/index.html

The Humanities Minor is an interdisciplinary studies program. Students take courses in a range of disciplines with a variety of faculty.

Undergraduate Information

The Humanities Minor is a 15-credit hour undergraduate interdisciplinary minor available through CU-Denver's College of Liberal Arts and Sciences (CLAS). The study of Humanities offers students ideas and concepts for being ethical, creative citizens equipped with tools for critical thinking in a global, multinational world. Taking an interdisciplinary approach, the Humanities Minor cultivates humanistic concepts through historically grounded texts and traditions. It teaches critical engagement with society's most pressing issues by developing a human-oriented perspective in which creativity and critical, theoretical thinking frame ethical being in the world. Comprising Humanities-based coursework, students gain important foundations in personal and community values by pursuing a concentration in one of three interdisciplinary pathways:

Story-telling and Meaning: comprised of Humanities electives focused on how humans make ethical decisions and meaning in life through literature, philosophy, history, and religion.

Picturing Humanity: comprising Humanities courses emphasizing the aesthetic role of art, history, film, and visual studies in the constitution of diverse cultural and social perspectives.

Theorizing Humanity: comprised of coursework focusing on the public role of social theory, philosophy, ethnic studies, and social justice in the formation of culture and society

Student Learning Goals

A Humanities Minor offers valuable skills demanded by today's competitive global market. Students who study Humanities have strong writing and communication skills that make them successful in a wide range of careers, like teaching, non-profits leadership, advertising, law, and medicine. Humanities Minor pathways tailor coursework within humanistic traditions and ideas that offer meaningful exploration of issues in contemporary life and society. Students learn analytic thinking and reasoning demanded by careers, like law, technology, marketing, and politics. Humanities study provides knowledge that transcends the limitations of individual disciplinary majors and minors. Pathways within the interdisciplinary Humanities Minor offer students the opportunity to bring together content and themes from diverse, but related disciplines within the framework of humanistic inquiry and critical analysis.

[Click here to learn about the requirements for the Humanities Minor.](#)

INDIVIDUALLY STRUCTURED MAJOR

Director: Associate Dean Marjorie Levine-Clark

Faculty advisor: Brandon Mills

The College of Liberal Arts and Sciences Interdisciplinary Studies Major (ISM) provides students with the opportunity to construct an individualized major that meets their unique needs and interests, and which results in a B.A.. This flexible program allows students to follow academic pursuits that transcend traditional department or college boundaries, combining coursework from two, three, or even more academic units to explore a particular theme. An ISM tends to be more focused than traditional majors and should not be considered a default major for students uncertain about their course of study.

Application for an ISM:

In order to declare an Interdisciplinary Studies Major, students are required to submit a program plan that includes a proposal and a course contract. Students should aim to complete a program plan before the end of the sophomore year. The proposal should be approved before students have taken one-third of the classes listed in their course contracts. Copies of your completed ISM proposal and course contract must be filed with the Associate Dean for Planning, Initiatives, and Diversity and with your CLAS Academic Advisor.

- The ISM proposal must include:
 - A description of your chosen theme (see below for sample themes).
 - An explanation of why the theme requires coursework that integrates multiple disciplines. You can choose a theme within interdisciplinary frameworks already established in CLAS but which do not offer BA degrees. These frameworks include Chinese Studies, Health Humanities, Law Studies, Religious Studies, Social Justice, Sustainability, and Women's and Gender Studies. You are also encouraged to create your own frameworks.
 - An outline of specific learning objectives for the ISM (see below for sample learning objectives).
 - Approval from the Associate Dean for Planning, Initiatives and Diversity.
-
- Your ISM course contract must include:
 - A list of the courses in your chosen disciplines and the optional "grab bag" of courses that you intend to apply to your ISM, as well as potential alternate courses. You should work closely with the Associate Dean for Planning, Initiatives, and Diversity and faculty advisors in your chosen disciplines to create your course contract.

- Signatures from your chosen Primary Faculty Advisor from one of your main disciplines and signatures from Faculty Advisors from your other main disciplines. You do not need a faculty advisor for grab bag courses.
- Signature from your Academic Advisor.
- Signature from the Associate Dean for Planning, Initiatives, and Diversity.

Roles and Responsibilities

Student

- creates the ISM proposal and course contract (in collaboration with faculty advisors)
- meets regularly with ISM Primary Advisor to assess progress through ISM
- fulfills requirements of ISM course contract

Associate Dean for Planning, Initiatives, and Diversity

- approves student proposals for ISM
- signs off on ISM course contracts
- maintains records of ISM applications
- certifies graduation

Primary Faculty Advisor

- approves ISM course contract
- meets with ISM advisees to monitor progress
- oversees advisees' capstone projects

Other Faculty Advisors

- approve course contract
- help with capstone projects when needed

CLAS Academic Advisor

- reviews overall course contract
- approves exempt core area

Individually Structured Major Options

Click [here](#) for more information about the requirements for the Individually Structured Major-Intercampus Interdisciplinary Option.

Click [here](#) for more information about the requirements for the Individually Structured Major-Integrated Health Sciences Option.

Honors

Liberal arts students interested in graduating with Latin honors in the individually structured major program should meet with the assistant/associate dean in the CLAS Advising Office to verify they meet eligibility requirements and to modify the program plan for the honors project. Students who successfully complete the ISM honors program will have the appropriate Latin honor designation placed on the University of Colorado diploma and transcript.

To participate in the ISM honors program, CLAS students must meet each of the following eligibility requirements:

- have a declared ISM major with an approved ISM contract
- possess a minimum 3.2 cumulative University of Colorado GPA
- possess a minimum 3.5 GPA on all completed University of Colorado course work in the ISM contract

Eligible ISM students must complete an undergraduate research project and present the results to a faculty honors committee. The level of Latin honors awarded is determined by the faculty honors committee. ISM students are to complete 3 to 6 semester hours of undergraduate independent study over a period of two semesters in one of the disciplines that constitute the ISM contract. The faculty sponsor from the project discipline will serve as the honors committee chair. The independent study research project is to produce a thesis-quality report to be presented orally to a three-member interdisciplinary faculty honors committee representing the disciplines in the ISM contract. Upon completion of the research report and oral presentation to the honors committee, the level of Latin honors will be determined by the following criteria:

cum laude-awarded upon completion of written report and oral presentation

magna cum laude-awarded by honors committee based on successful written report and oral presentation

summa cum laude-awarded by honors committee based on excellence in written report and oral presentation

INTEGRATIVE BIOLOGY

Chair: John G. Swallow

Charles A. Ferguson, PhD, University of Colorado Boulder

Undergraduate Information

Integrative Biology is the study of living organisms at different levels of organization, from molecular biology to biosphere ecology. Our undergraduate curriculum is designed to offer a firm foundation for understanding life processes, and a variety of biology electives to accommodate individual interests. Our courses prepare students to enter a wide variety of biological careers including health care, ecology, and bioengineering. Our graduates have the tools needed to think critically and to make informed decisions as citizens sharing the responsibility to take care of society and of Earth.

[Click here](#) for more information about the requirements for a Major in Biology.

[Click here](#) for more information about the requirements for a Minor in Biology.

[Click here](#) for more information about the requirements for an Undergraduate Certificate in Biotechnology.

Additional Information for undergraduate students:

Transfer courses

Students with transfer credits in biology from other institutions should consult an undergraduate major advisor in the department for transfer credit and/or proper placement. Transfer credit from community college courses will not fulfill the requirements for upper-division semester hours or electives. Biology students seeking credit through AP (Advanced Placement), CLEP (College Level Examination Program) and/or IB (International Baccalaureate, Diploma Programme) should refer to the transfer tables (AP, CLEP, IB), as well as consult an undergraduate major advisor in the department for proper placement.

Departmental Honors

Departmental honors will be awarded to students based on their GPA in classes taken from Downtown Campus faculty. The following minimum GPA must be met both for all courses taken at CU Denver (overall GPA) and for biology courses alone (biology GPA): *cum laude*, 3.500; *magna cum laude*, 3.700; *summa cum laude*, 3.900.

Biology Research Scholars

The biology faculty encourages students to pursue research as part of their undergraduate education. Students who excel in both course work and research will be recognized as CU Denver Biology Research Scholars or Research Associates.

To qualify for the ***Research Scholars Program***, you must:

- achieve a minimum grade point average of 3.500 in all courses taken from CU Denver faculty, as well as in all CU Denver biology courses
- participate in a research project, consisting of a minimum of six credit hours of independent study (BIOL 2840, 3840, or 4840), taken over at least two semesters

- write a scientific paper describing the research
- present an oral or poster presentation summarizing your research

To qualify for the ***Research Associates Program***, you must:

- achieve a minimum grade point average of 2.500 in all courses taken from CU Denver faculty, as well as in all CU Denver biology courses
- participate in a research project, consisting of a minimum of three credit hours of independent study (BIOL 2840, 3840, 4840 or 4880), taken over at least two semesters
- write a scientific paper describing the research or present an oral or poster presentation summarizing your research

Students who wish to become involved in research should contact Dr. Christopher Phiel no later than their junior year, and preferably sooner.

Biotechnology Certificate

To serve the needs of students who wish to obtain recognition for the acquisition of specialized skills in biology and to prepare students for graduate school, health careers and jobs in industry, the Department of Integrative Biology offers a certificate program in biotechnology. Upon completion of the required courses (17-20 semester hours), including directed research and independent study or internship, the student will be awarded a certificate and receive the biotechnology certificate on their transcript. The certificate may be completed in addition to an undergraduate or as a stand-alone certificate. For complete information, see the Biotechnology Certificate description.

Graduate Information

Please go to the Graduate catalog to read about our graduate programs.

INTERDISCIPLINARY PROGRAMS

Interdisciplinary programs encourage students to synthesize the theories, methods and analytical perspectives of diverse disciplines to bring new ways of understanding to particular themes or problems. Interdisciplinary studies foster research and teaching collaboration among faculty and students, who cross traditional academic specialties. Interdisciplinary programs also place a high value on reaching beyond the university into our local, national and global communities, providing students with real-world experiences through internships and experiential learning.

The college also has several established interdisciplinary programs leading to full undergraduate degrees, minors, certificates and graduate degrees. A brief description of each program follows, with a link to its respective program section.

Undergraduate Information

- The increasing prominence of China in world affairs has made knowledge of Chinese language and cultures an asset in numerous fields. The innovative MINOR IN CHINESE STUDIES offers a specialized study of China through coursework in the related disciplines of language, anthropology, history, geography, literature and political science.
- The K-12 TEACHER LICENSURE PROGRAMS, in collaboration with the School of Education & Human Development, enable students to add educational training to their liberal arts and sciences discipline studies.
- The MINOR IN ENVIRONMENTAL SCIENCES allows students to choose courses from the social sciences, physical sciences, engineering, humanities and statistics to create a unique program of study.
- The ETHNIC STUDIES BA and the MINOR IN ETHNIC STUDIES provide students the opportunity, through academic investigation, to develop a greater understanding of the cultural pluralism of the present day United States and to acquire skills needed in professional and social service fields.
- The INDIVIDUALLY STRUCTURED MAJOR (ISMA) gives students an opportunity to construct a major that meet their unique needs and interests. Students pursue studies that combine coursework from two, three, or even more academic units to explore a particular theme. The ISM challenges students to ask questions that require thinking beyond a single discipline.
- In a world where global commerce and politics have emerged as driving forces, the INTERNATIONAL STUDIES MAJOR provides students with innovative perspectives on changes that affect all of us. INTS is designed to provide students a thorough education in international issues while preparing them for global careers. The major offers students the opportunity to develop a deeper understanding of complex international issues and the forces that are shaping our world.
- The MINOR IN HEALTH HUMANITIES explores the ethical, cultural, social and political contexts of health and medicine, providing an excellent addition to science-based curricula serving as a stand-alone program that addresses many current issues of interest to the humanities and social sciences.
- The MINOR IN LAW STUDIES is intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group of students interested in issues relating to law and society and careers in public policy related fields.
- The PUBLIC HEALTH MAJORS enable students to get either a BA or BS degree in public health, depending on their focus. They may choose from over 100 electives in 14 academic departments, in addition to specific public health core courses.
- Religion involves the worldview of a culture, its social norms, ethics, and politics. In the private realm, religious experiences are among the most profound an individual can have. The MINOR IN RELIGIOUS STUDIES fosters a nuanced understanding of religion, and cultivates critical skills evaluating religious phenomena.
- The MINOR IN SOCIAL JUSTICE encourages students to recognize how democracy, education, consumerism, media, race, class and gender intersect. The minor fosters the many ways that our students are already engaged as citizens, the desirable possibilities that remain unrealized and their power to effect that actualization.

- Holistic approaches to sustainability practices in our daily living require a workforce that understands the various perspectives that address a broad optimistic framework. Students who complete the MINOR IN SUSTAINABILITY will demonstrate a command of the language, structure and skills of multiple, relevant disciplines, and will be better prepared to take leadership in this complex, challenging field.
- The MINOR IN WOMEN'S AND GENDER STUDIES focuses students' attention on the centrality of gender and sexuality to understanding our past and present worlds. Students and faculty probe assumptions about men and women, and question structures of inequality as they play out in local and global contexts.

Graduate Information

Please go to the Graduate catalog to read about our graduate programs

INTERNATIONAL STUDIES

Director: Hamilton Bean, Ph.D

Office: Student Commons 3010

Telephone: 303-315-1909

E-mail: Hamilton.Bean@ucdenver.edu

Faculty

The international studies program is an interdisciplinary major with faculty drawn from several independent academic departments.

Undergraduate Information

In a world where the forces of politics, commerce, culture, and technology are multifaceted and interconnected, the International Studies (INTS) major provides students with a much-needed global perspective. INTS is an interdisciplinary liberal arts degree that prepares students for international careers and graduate study. The INTS major offers students a deep understanding of complex international issues and the underlying drivers that are shaping our world. Employers seek the qualities of INTS graduates: historical knowledge, research ability, cross-cultural competence, teamwork and leadership experience, and the ability to analyze, model, and solve real-world problems. According to the National Association of Colleges and Employers (NACE), International Studies graduates earn higher starting salaries than any other social science major, except Economics. The INTS major provides students with the methodological tools necessary to analyze various regions of the world and global issues from different academic disciplines. Students take courses from departments including Anthropology, Business, Communication, Economics, Geography, History, Modern Languages, Political Science, and Religious Studies, among others. This combination of coursework, flexibility,

and customization provides INTS majors a distinctive and valuable degree for today's world.

[Click here](#) for information about the requirements for the Major in International Studies.
[Click here](#) for information about the requirements for the Minor in International Studies.

Joint BA/MA Programs

Highly-motivated students with strong GPAs in the INTS major may qualify for admission to a MA program, with the BA in International Studies and MA in either Humanities or Social Science. This condensed graduate degree program allows students to double-count 5 graduate-level courses toward the BA and MA simultaneously and to complete the MA degree with only one extra year of coursework. Interested students should contact advisors in both the INTS program and Masters in Humanities or Masters in Social Sciences program to learn more about specific course plans and requirements.

[Click here](#) for information about the requirements for the 4+1 BA in International Studies to MH or MSS.

LAW STUDIES

Coordinator: Omar Swartz (MHMSS), JD, Duke University; PhD, Purdue University

Telephone: 303-315-3567

E-mail: Omar.Swartz@ucdenver.edu

The law studies minor at CU Denver is an interdisciplinary course of studies intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group interested in issues relating to law and society and careers in public policy-related fields. The minor is designed to achieve the following three interrelated goals:

- to introduce students to the major areas of law that affect life in the United States and important legal issues that influence current events;
- to enable students to become familiar and fluent with a legal vocabulary and legal reasoning; and
- to better prepare students with the analytical and conceptual tools to be critical citizens in our constitutional democracy.

In addition to these goals, students who complete the minor with the intention of attending law school may find themselves more prepared than they otherwise would be for the often mystifying and rigorous first year of law school. To help these students, the program contains an advising component which assists students who are contemplating law school to provide them with a realistic appraisal of law school and of the legal profession. The counselors will aid students with the law school application process.

J. Richard Lundgren, PhD, Ohio State University
Andrew Knyazev, PhD, Russian Academy of Sciences
Stanley E. Payne, PhD, Florida State University

The Department of Mathematical and Statistical Sciences at the University of Colorado Denver offers degrees and certificates at the undergraduate and graduate levels in mathematics, applied mathematics, data science, and statistics through coursework, research and industrial collaboration. Traditional courses such as calculus, linear algebra, probability, statistics and discrete mathematics are offered regularly by the department. In addition, contemporary subjects such as high-performance computing; numerical analysis, optimization, statistical methods, and operations research are also well represented by course offerings and faculty interests. In all of its activities, the department embodies the outlook that mathematics, statistics, computing and data science are powerful tool that can be used to solve problems of immediate and practical importance.

Apart from the specialized mathematical and statistical skills acquired through course work, the degrees and certificates also provide general skills that are valued by many employers. These skills include problem solving, critical thinking, analysis, facility with data, the ability to process quantitative information, and perhaps most important of all, the ability to learn new skills and concepts quickly.

Center for Computational & Mathematical Biology

Director: Weldon Lodwick

Telephone: 303-315-1733

The Center for Computational Biology (CCMB) is a multidisciplinary center focused on computational and mathematical biology research and education.

Center for Computational Mathematics

Director: Jan Mandel

Telephone: 303-315-1703

Website: <http://ccm.ucdenver.edu/>

The Center for Computational Mathematics is composed of faculty members who have an interest in computational mathematics, the study of solving mathematical problems with computers. The center resides in the Department of Mathematical and Statistical Sciences and includes faculty members from various other departments. The primary goal of the center is to foster research in computational mathematics and to maintain a strong educational program at all levels. It has extensive ties with industry along the Front Range and with government laboratories throughout the nation. It offers students an excellent opportunity to receive training and experience in this exciting new field. The center operates several supercomputing clusters.

Math Clinic

Website: <https://clas.ucdenver.edu/mathematical-and-statistical-sciences/math-clinic>

Each semester, the mathematical and statistical sciences department conducts math clinics that are open to both undergraduate and graduate students. Each clinic is sponsored by a business, government agency or research organization. The clinic sponsor provides a specific project on which students work with the supervision of a faculty member and a sponsor representative. Every clinic results in a final report to the sponsor and provides participating students with an opportunity to apply mathematics to relevant problems. Recent math clinic sponsors include Raytheon, Lockheed Martin, Xenometrix, Budget Truck Rental and United Launch Alliance.

Statistical Consulting Service

The Department of Mathematical and Statistical Sciences regularly offers a graduate course in statistical consulting in which students work on problems provided by researchers and clients at CU Denver and in the Denver metropolitan area. Potential clients should contact the department at 303-315-1700.

Undergraduate Information

Co-Directors: Diana White and Adam Spiegler

Telephone: 303-315-1720

The Department of Mathematical and Statistical Sciences offers a BS program that provides broad training in mathematics with the option of specializing in one of four areas of special emphasis, or simply satisfying the requirements without specifying an area. The

four areas of emphasis are: applied mathematics, probability and statistics, data science, and economics.

To determine which math course a student should take first, see the Department of Mathematical and Statistical Sciences webpage (www.math.ucdenver.edu).

Students with potential transfer credit that was not automatically accepted upon admission should contact the Department of Mathematical and Statistical Sciences (MathStaff@ucdenver.edu or 303-315-1700).

Students must declare a major in the CLAS Advising Office. Once a major is declared, students should contact the Department of Mathematical and Statistical Sciences to meet with a math advisor, and continue to do so at least once per semester. All mathematics majors should visit the CLAS Advising Office to have graduation requirements checked at a minimum the semester prior to graduation.

Graduation With Honors

The mathematical and statistical sciences department recognizes students who complete the undergraduate program with distinction.

To be eligible for graduation with honors at the ***cum laude*** level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and either:

- Option 1: Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver, OR
- Option 2: Have a GPA of 3.5 or better in upper-division math courses taken at CU Denver and must complete an honors project.

To be eligible for graduation with honors at the ***magna cum laude*** level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and either:

- Option 1: Have a GPA of 3.85 or better in upper-division math courses taken at CU Denver, OR

- Option 2: Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver and must complete an honors project.

To be eligible for graduation with honors at the *summa cum laude* level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and satisfy ALL of the following:

- Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver and must complete an honors project.
- When a recommendation for Honors at the Summa Cum Laude is brought to Department as a motion, a vote will be taken and such a motion must be passed by a two-thirds majority of those voting at the meeting.
- Considerations such as overall quality of the candidate's honors project, outreach, community, other extra-curricular activities relating to mathematics.

Undergraduate Applied Statistics Certificate

Director: Joshua French

Email: Joshua.French@ucdenver.edu

Telephone: 303-315-1709

There is a growing need for qualified statistical analysts of the ever-increasing amounts of data collected in business, industry, and government. The certificate in applied statistics program is designed to give students a strong background in statistical methodology and data analysis in preparation for opportunities in the workforce or for graduate studies. The Department of Mathematical and Statistical Sciences offers certificates in applied statistics at both the undergraduate and graduate levels.

[Click here to learn about the Undergraduate Applied Statistics Certificate.](#)

Undergraduate Certificate in Data Science Essentials

Director: Adam Spiegler

Email: math.advising@ucdenver.edu

Data scientists will have essential competencies in several areas related to analysis of data. In particular, a data scientist should: have strong programming ability in a language popular in data science (e.g., Python, R, Julia); be able to extract, manipulate, and visualize data; have an understanding of probability and statistics in order to quantify uncertainty; be able to build complex models for finding patterns and explaining data. This certificate should provide students with essential skills for introductory data science.

General Information

The Department of Modern Languages includes Arabic, Chinese, French, German, Latin and Spanish. Majors are available in French and Spanish, and minors are available in

Chinese, French, Linguistics and Spanish. Certification is available in Spanish for International Business. Students must declare a major prior to their final semester of coursework. The department recommends that majors and minors include some study abroad while they are fulfilling their degree requirements at CU Denver. Please see a departmental advisor about study abroad opportunities. Credit earned abroad will normally count toward satisfaction of the major and minor requirements at CU Denver, but to assure full transfer of credit, students must see an advisor in the department before enrolling in programs abroad. Courses taken abroad and designated as upper division in Chinese, French, German or Spanish are subject to the 48-hour maximum of semester hours from a single discipline in the College of Liberal Arts and Sciences.

Departmental Honors

Students who meet certain criteria and have been invited by the faculty of the appropriate language are encouraged to participate in the Department of Modern Languages honors program. Successful completion of this program by students majoring in French or Spanish leads to graduation with the distinction of *cum laude*, *magna cum laude* or *summa cum laude*. See French and Spanish sections for details.

Relevance to Other Programs

In addition to fulfilling major and minor requirements, courses in the Department of Modern Languages prepare students in the language, literature and civilization of the countries and peoples they are studying. Certain courses may apply to the fulfillment of core curriculum requirements in the College of Liberal Arts and Sciences.

Foreign Language Requirement

All students with majors in the College of Liberal Arts and Sciences must demonstrate proficiency in a foreign language at the second semester level. This is accomplished through course work, by examination or by completion of second-year high school credit. Students must receive a grade of C- (1.7) or higher in the final semester of the second-year course in high school or the second-semester college-level course in order to fulfill the foreign language requirement. The prerequisite for the second-semester college course is a grade of C- (1.7) or better in the first-semester course. There is no pass/fail option for any course taken for the foreign language requirement.

Students may show their level of proficiency by taking the placement/proficiency exam. The languages tested are French, German and Spanish. For other languages, consult the CLAS Advising Office. For information on the placement/proficiency exam, check the Modern Languages website or call the Department of Modern Languages, 303-315-7234. The number of times a student may take the exam is limited to once per semester.

For information on fulfilling part of the foreign language requirement through study abroad, see the Study Abroad section of the catalog or call 303-315-2232, or consult a Modern Languages advisor.

Department of Modern Languages Policy on Student Placement in Lower-Division Courses

A student may not enroll in a lower-division (1000/2000) language course that is below his/her level of language proficiency. Students wishing to enroll in a lower-division language course that does not directly follow their last completed course in the regular

sequence must consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Students who have achieved some proficiency in a foreign language through other means than academic courses must also consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Call 303-315-7234 for further information.

Departmental Advising

Upon declaring a major or minor in modern languages, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that modern language majors have their transcripts reviewed by a departmental advisor before enrolling in their final 30 semester hours at CU Denver. Failure to do so may result in delay of graduation. Students presenting four years of high school foreign language (Level IV) for admission must see a departmental advisor before enrolling in courses for the major or minor. Students with CLEP credits or advanced placement credits from high school should see a departmental advisor about course equivalencies.

Before enrolling in their final semester, seniors demonstrate advanced oral and written proficiency in the language that they are studying through an oral proficiency interview and a written outcomes assessment exam. Students must see a departmental advisor to schedule proficiency tests in their language.

Residency Requirement

A minimum of 18 semester hours of course work leading to a major in French or Spanish must be taken from modern languages faculty at CU Denver. For a minor in Chinese, French, Linguistics or Spanish, 9 semester hours must be taken from modern languages faculty at CU Denver. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major or minor only with departmental approval before enrollment in those courses.

PHILOSOPHY

Chair: David L. Hildebrand

Program Assistant: John Brogan

Office: Plaza Building, M108

Telephone: 303-315-7223

Faculty

Professors:

David L. Hildebrand, PhD, University of Texas, Austin

Robert Metcalf, PhD, Pennsylvania State University

Candice Shelby, PhD, Rice University

Mark Tanzer, PhD, Stony Brook University

Associate Professors:

Sarah Tyson, PhD, Vanderbilt University

Gabriel Zamosc-Regueros, PhD, University of Michigan

Assistant Professors:

Boram Jeong, PhD, Duquesne University

Clinical Teaching Track:

Jeffery Golub, PhD, The New School for Social Research

Senior Instructors:

Brian Lisle, PhD, Loyola University of Chicago

Daryl Mehring, PhD, University of Colorado

Samuel F. Walker, PhD, University of Colorado

The philosophy program offers a rigorous liberal arts education. It trains students to speak and write carefully, think and reason critically, and to seek out creative connections between ideas of all kinds. Philosophy is an excellent undergraduate preparation for almost any professional field. Philosophical inquiries can cover a wide range of subject matters including ethics and politics, art and literature, history and religion, technology and the sciences. The benefits of a philosophy degree last a lifetime, setting students on a path toward self-development, intellectual sophistication, and the enrichment that comes from living a more a reflective life.

HONORS PROGRAM

Requirements for honors are the following:

A. Course Performance

- | | | |
|---------------------------|--------------------------|-----------------|
| 1. <i>Cum laude</i> | 3.4 GPA within the major | 3.3 overall GPA |
| 2. <i>Magna cum laude</i> | 3.6 GPA within the major | 3.5 overall GPA |
| 3. <i>Summa cum laude</i> | 3.8 GPA within the major | 3.7 overall GPA |

B. Thesis

Majors desiring to graduate with honors in philosophy must enroll in PHIL 4950 for a minimum of 3 hours and a maximum of 6 hours (note that these hours are in addition to the 36 hours required for the philosophy major) and complete research that culminates in a thesis and oral examination. Majors must work with two faculty members during the project. Written proposals must be submitted and approved by the faculty committee prior to the beginning of the project. If the completed thesis and oral exam are deemed worthy

of honors, the student will be awarded the honors consistent with his or her GPA. However, to receive highest honors (*summa cum laude*), the faculty committee must designate the performance for both the written thesis and the oral defense as worthy of graduation with highest honors. If the faculty committee makes no such designation, students will graduate *magna cum laude*.

Graduate Information

Please go to the Graduate catalog to read about graduate program opportunities in philosophy through the CU Denver Masters of Humanities Program's Philosophy and Theory Track.

Undergraduate Information

Physics, as the most fundamental of the sciences, is the foundation upon which many other disciplines are built. Therefore, other programs often require knowledge of the fundamentals of physics, and a physics degree is an outstanding platform for employment and advanced study in many technical disciplines. The department offers both a course of study fulfilling the bachelor of science degree and a wide range of service courses for students majoring in disciplines other than physics. Students intending to major in physics should have a high school background that includes trigonometry, advanced algebra, chemistry and physics, as well as a good preparation in the arts and humanities. Students have an option during their freshman year to overcome any deficiencies in these areas.

The Department of Physics offers a track in Pure and Applied Physics which is intended for students preparing for graduate school, teaching careers, or careers in industry or government labs. Students preparing for employment in an interdisciplinary area (such as environmental, geophysical or energy study) can choose to add an appropriate minor or arrange a specific major program on an individual basis.

Students majoring in other disciplines have the option of choosing a minor in physics, in astrophysics, or in biophysics. The department also offers an online certificate in the scientific foundations of technical innovation at both undergraduate and graduate levels. This 12-semester-hour program is intended to foster careers in the practical application of physics and the potential commercialization of new technologies.

To enhance the employment and postgraduate study options of physics majors, the department is committed to providing students with opportunities for experimental,

computational and theoretical research. On-campus opportunities are available through the faculty research programs. Questions regarding physics courses or the physics curriculum should be directed to a departmental advisor. Appointments should be made through the physics office.

[Click here to learn about the requirements for the Physics - Pure and Applied Physics BS.](#)

Departmental Honors

Qualified students are encouraged to participate in the physics honors program. For these students, a senior thesis is required. This work will be conducted under the supervision of a faculty advisor. The topic and scope of this work will be chosen by the student in consultation with the thesis advisor. The student has the option of registering for up to 3 semester hours of independent study for the thesis project; regardless of registered semester hours, the student should commit the effort equivalent to a 3-semester-hour laboratory course toward completion of the thesis. The levels of passing scores are satisfactory, meritorious, and excellent.

Within this framework, three levels of honors are awarded by CU Denver in conjunction with the physics major:

1. *Cum laude*: The student must have a cumulative GPA of 3.25 both in physics and overall at CU Denver. The student's senior thesis and presentation must be judged to be meritorious by the committee.
2. *Magna cum laude*: The student must have a cumulative GPA of 3.50 both in physics and overall at CU Denver. The student's senior thesis and presentation must be judged to be meritorious by the committee.
3. *Summa cum laude*: The student must have a cumulative GPA of 3.75 both in physics and overall at CU Denver. The student's senior thesis and presentation must be judged to be excellent by the committee.

Adjunct Faculty:

Minsun Ji, PhD, University of Denver
Charles Norton, JD, University of Chicago

Political science is the study of people, power and the public good. Looking at a variety of societies, institutions and interpersonal situations, the discipline asks who has power, where this power comes from, how it is used, how it promotes or impairs the public good and how the public good is defined. Political science draws from other fields, such as psychology, philosophy, economics, sociology and world literature. Finally, it explores the relationship between idealism and realism, between theory and practice, between political thought and personal action.

Opportunities for students with a BA in political science include careers in business, teaching, journalism, community organizing and government service. A political science degree also serves as good preparation for professional training in law and public administration. Students' internship experiences increase their job opportunities. Students

with an MA in political science may find careers in such areas as business, government research and administration and teaching at the community college level.

Please visit the Political Science Department website for detailed information on programs, faculty, students, courses and syllabi, community involvement and service learning, internships and photographs.

Departmental Honors

Requirements for honors in political science are an overall GPA (in all courses, not just political science courses) of 3.65 or better and the preparation and defense of an honors paper. Honors graduates with an overall GPA of 3.75 to 3.84 may graduate with high honors, and those with GPAs of 3.85 and higher may graduate with highest honors. Level of honors granted depends upon both the GPA and the quality of the honors paper. Students interested in departmental honors must secure a full-time faculty sponsor for their honors paper early in the semester in which they intend to graduate. For details, please contact the department undergraduate advisor.

Fourth World Center for the Study of Indigenous Law and Politics

Executive Director: Glenn T. Morris

Telephone: 303-315-1762

This center provides a research clearinghouse to students and faculty at CU Denver on legal and political issues that affect indigenous peoples (the Fourth World). In addition to supporting a modest library of rare books and periodicals on indigenous issues, the center also stocks video and audio resources on subjects of indigenous politics and a substantial news file archive on current developments in the Fourth World. The center has produced curricular materials, including the *Fourth World Bulletin*, for use in international relations and area-studies courses.

Center for NEW DIRECTIONS in Politics and Public Policy

Director: Minsun Ji

This center provides academic programs, courses and research focused in the areas of politics and public policy with the purpose of developing the leadership capacities necessary to address changing public priorities for the 21st century within neighborhoods,

communities, governmental jurisdictions, labor organizations, and nonprofit entities. Students in the Center's academic programs include working professionals in public and non-profit sectors; elected officials; community activists; interest-group stakeholders; educators from a wide range of demographic, occupational, and personal backgrounds; and simply concerned citizens. The New Directions program offers professional internships with a wide variety of political jurisdictions, community-based groups, and labor organizations across Colorado, including several funded internships.

The center offers both undergraduate and graduate degrees in political science with emphases in public policy and administration.

PSYCHOLOGY

Chair: Peter S. Kaplan

Program Assistant: Kimberly Hill

BA and Psychology Minor Undergraduate Advisor: Mitchell Handelsman

BS and Behavioral and Cognitive Neuroscience Minor Undergraduate Advisor: David Albeck

Director of Undergraduate Studies: David Albeck

Office: North Classroom, 5002

Telephone: 303-315-7050

Fax: 303-315-7072

Faculty

Professors:

Elizabeth Sandlin Allen, PhD, University of North Carolina at Chapel Hill

Richard Allen, PhD, University of North Carolina at Chapel Hill

James Grigsby, PhD, University of Colorado, Boulder

Mitchell M. Handelsman, PhD, University of Kansas

Peter S. Kaplan, PhD, Indiana University

Kevin S. Masters, PhD, Brigham Young University

Associate Professors:

David Albeck, PhD, University of Colorado, Boulder

Sondra Bland, PhD, University of Texas

Kristin Kilbourn, PhD, University of Miami

Erik Oleson, PhD, Wake Forest University

Krista W. Ranby, PhD, Arizona State University

Amy Wachholtz, PhD, Bowling Green University

Jason Watson, PhD, Washington University
Michael Zinser, PhD, University of Wisconsin, Madison

Assistant Professors:

Benjamin Greenwood, PhD, University of Colorado, Boulder
Carly Leonard, PhD, Johns Hopkins University
Jonathan Schaffer, PhD, St. John's University

Associate Professor, Clinical Teaching Track:

Joan Bihun, PhD, Wayne State University
Edward Dill, PhD, University of Kansas
Kevin Everhart, PhD, University of South Carolina
Lindsey Hamilton, PhD, Wake Forest University
Vivian Shyu, PhD, University of Denver

Senior Instructors:

Bethann Bierer, PhD, University of Denver

Emeritus Professors:

Rick M. Gardner, PhD, University of Nevada
Barbara Walker, PhD, The Ohio State University

Psychology is the scientific study of behavior, consisting largely of the following major areas of study: experimental psychology, biopsychology, animal behavior, clinical psychology, developmental psychology, social psychology, cognitive psychology, personality, industrial/organizational psychology and abnormal psychology. The requirements for the major are designed to introduce the student to the spectrum of Psychology, including an early exposure to research methods and statistics.

The Psychology major prepares students for employment and for graduate study in Psychology and related fields. The Psychology department also offers a PhD in Clinical Health Psychology.

Curriculum Goals and Essential Learning Outcomes

Goal 1: Knowledge Base of Psychology

Students will recognize, explain, and distinguish the major concepts, theoretical perspectives, empirical findings, and historical trends in Psychology.

Essential Learning Outcome: The development of *Knowledge of Human Cultures and the Physical and Natural World*

Goal 2: Research Methods in Psychology

Students will demonstrate the statistical, organizational, writing, and analytical skills necessary to interpret and conduct meaningful and valid research in Psychology.

Essential Learning Outcomes: The development of *Intellectual and Practical Skills*, including *Quantitative Literacy*, *Information Literacy*, and *Inquiry and Analysis* skills.

Goal 3: Critical Thinking Skills

Students will use skeptical inquiry and scientific thinking skills to interpret and solve problems related to behavior and mental processes.

Essential Learning Outcomes: The development of *Intellectual and Practical Skills*, including *Critical Thinking* skills.

Goal 4: Application of Psychology

Students will apply psychological principles to solve personal, social, and/or organizational problems.

Essential Learning Outcomes: The development of *Intellectual and Practical Skills*, including *Problem Solving* skills.

Goal 5: Values in Psychology

Students will evaluate evidence, tolerate ambiguity, act ethically, recognize and respect diversity, and/or reflect other values that are the underpinnings of Psychology as a discipline.

Essential Learning Outcome: The development of *Personal and Social Responsibility*, including *Ethical Reasoning* and *Intercultural Knowledge and Competence*.

Honors

There are two ways in which a student graduating with a Bachelor of Arts or Bachelor of Science degree in Psychology can graduate with honors. First, the College of Liberal Arts and Sciences (CLAS) awards the honor of graduating “with distinction” primarily based on the student having a high overall grade point average.

The second form of honors, “Latin honors,” is awarded by individual departments within CLAS, including psychology. The CU Denver Department of Psychology has approved a very rigorous set of requirements for Latin honors. Successful completion of an honors project is at least a year-long, multi-faceted process in which the student makes a contribution to our knowledge in psychology. A student who satisfies these requirements will have truly earned a noteworthy academic achievement of which they rightfully should be proud.

Students interested in research are encouraged to pursue opportunities as early in their academic career as possible. These early research experiences can be useful in helping formulate research ideas and hypotheses that can form the basis of an honors thesis project. Listed below are the policies and requirements for completing an honors project.

Am I eligible for the honors program?

To be eligible for the Psychology honors program, you must:

- Be a Psychology major
- Be at least a junior
- Have an overall GPA of 3.5 or higher at the start of the project
- Have a GPA of 3.5 or higher in psychology courses taken at UCD.
- Have a faculty mentor for your project

What types of projects are appropriate for an honors thesis?

An honors thesis can take one of the following forms:

- An original empirical study designed and carried out by the student. The experimental design must be substantially complex to warrant honors. Honors students may collect their own data for this project or may use archival data for the purposes of answering their own original question. A research question is considered to be substantially complex enough if the analyzed data would be of high enough quality to be presented at a regional research meeting.
- A substantive, integrative library review in an area approved by the honors committee, culminating in a high quality review article which includes proposed research directions designed by the student to gather knowledge lacking in the current scientific literature.
- A substantive, integrative critical analysis of a major theoretical issue in the field of psychology approved by the honors committee and culminating in a high quality theoretical paper.

What are the requirements for earning honors in Psychology?

In addition to formally proposing your project to your honors committee, completing the approved project, writing the thesis, and ultimately successfully defending your honors thesis, you must take three honors courses. They are:

- PSYC 4680 - Behavioral Sciences Research Seminar (1 cr. Fall 2 cr. Spring) - Two Semesters total, Fall & Spring
- PSYC 4780 - Behavioral Sciences Research: Ethics and Issues (3 cr.) - Any Semester

- PSYC 4880 - Directed Research Credit hours: (3 cr.) Any semester

You can take up to 6 credit hours of “PSYC 4880: Directed Research” if and when it is helpful to your project. You should discuss this with your faculty mentor.

What is an honors thesis committee?

You must arrange for three faculty members to serve on your thesis committee, only one of whom may be external to the Psychology Department. One of the faculty members must be designated as the chair of the committee. The chair must be a full time member of the CU Denver Psychology Department and be of tenure track rank, unless a waiver is granted by the Dean’s office. All members of the committee must be chosen during the semester in which the proposal is being written.

How are honors judged and awarded?

Enrolling in the Honors program and writing a thesis do not guarantee that you will receive Latin honors. Your faculty committee determines the worthiness of your project for Latin honors at the defense of your thesis.

For successfully defended projects, GPA determines the level of honors:

3.80-4.0: summa cum laude
3.60-3.79: magna cum laude
3.50-3.59: cum laude

How do I sign up for the honors program?

Students interested in research are encouraged to pursue opportunities as early in their academic career as possible. These early research experiences can be useful in helping formulate research ideas and hypotheses that can form the basis of an honors thesis project. Make an appointment to speak with your major advisor to determine if an honors thesis is right for you.

EXCEPTIONS

Exceptions to these rules may be granted via a student appeal supported by all of the committee members and submitted to the Psychology Department Chair. The appeal must be supported by all committee members and approved by the departmental chair.

RELIGIOUS STUDIES

Director: Sharon L. Coggan

Office: Plaza Building, 113

Telephone: 303-315-7220

Faculty

Professors:

Robert Metcalf (Philosophy)

Associate Professors:

Nancy Ciccone (English)

Sharon Coggan, Clinical Teaching Track (Philosophy/Religious Studies)

Colleen Donnelly (English)

Sarah Hagelin (English)

Rachel Harding (Ethnic Studies)

Assistant Professors:

Dale Stahl (History)

Katherine Mohrman (Ethnic Studies)

Instructors:

Kari Alexander (Sociology)

Bassem Hassan (Political Science)

Daryl Mehring (Philosophy)

Richard Smith (History)

Lecturers:

Mary DeForest (Modern Languages)

AnnMarie Bridges (Religious Studies)

Albert McClure (Religious Studies)

Stephanie Yuhas (Religious Studies)

An undergraduate minor is offered in Religious Studies, a discipline that overlaps with many other fields of study: anthropology, literature, philosophy, psychology and others. Religion has played a vital role in history and continues to do so in contemporary life. The degree of interaction between a religious tradition and its host society is profound. Knowledge of its religion(s) is essential for a genuine understanding of each culture. Students will study the nature of the belief systems of the world's great religious traditions. Specific courses will offer the possibility of focusing one's studies in the areas of ancient myth and shamanic traditions, Judaic and Christian studies, Islam, Asian religions, psychology of religion, philosophy of religion, anthropology and sociology of religion, religion and literature and biblical studies.

Undergraduate Information

The Social Justice Program is home to the Social Justice Minor and organizes innovative community and campus events to address the pressing social and economic issues of the 21st century. The Social Justice Minor is designed for students who are passionate about being engaged citizens and effecting change locally and globally. To this end, students will be exposed to global perspectives on social movements, conflict resolution, environmental stewardship, critical theory, and grassroots organizing.

Student Learning Goals

Earning a Social Justice Minor will make students competitive for graduate school as well as for jobs in NGOs, public health, political office, community leadership, and in the ever-increasing number of modern corporations that seek employees who are committed to sustainable and ethical vocations. We create learning opportunities that emphasize an integrated understanding of the social, political, economic, and cultural dimensions of the major challenges facing humanity in the new millennium. By cultivating engaged and informed citizens, we seek to create future leaders who will have the skills and knowledge necessary to effect meaningful change.

Sharon K. Araji, PhD, Washington State University
Karl H. Flaming, PhD, Syracuse University

Associate Professor Emeritus:

Richard H. Anderson, PhD, University of Oregon

Undergraduate Information

Sociology is the scientific study of groups, social processes, social institutions and behavior. The major in sociology is designed to familiarize students with these areas through an understanding of theory, methods and data analytic procedures employed within them. Three certificate options at the undergraduate level allow students interested

in gaining concentrated study in a sub-area of sociology to do so. They include: Criminology; Families and Social Welfare; and Sociology of Health and Medicine. All students majoring in sociology, regardless of whether they pursue a certificate (or multiple certificates), develop a strong foundation in the basics of the discipline, including the use of qualitative and quantitative research methodologies and theory.

The major prepares students for either graduate study or the pursuit of a career immediately upon completion of the BA degree. The required Senior Capstone course is a critical resource in preparing for either option. Graduates with a Sociology BA are employed in a variety of professional areas, including the criminal justice system, education, health and social services, and with state and local government agencies.

The department has developed the following rationale for courses offered:

1. Lower-division courses (for majors and non-majors)
 - a. 1000-level courses provide an introduction to the broad sociological perspective as it applies to social life, social systems and society.
 - b. 2000-level courses introduce students to somewhat more specific content areas: social psychology, deviant behavior and social inequalities, etc.
2. Upper-division courses (3000 and 4000)
 - a. 3000-level courses serve as advanced surveys of some specific area of concentration. They are designed to acquaint students with the issues, methods, concepts and theoretical frameworks employed in the content area. Such courses as medical sociology, criminology, sociology of family, and race and ethnicity are offered at this level. Many of these courses are open courses, in that students from other departments and colleges are encouraged to enroll in them.
 - b. 4000-level courses are devoted to a more detailed in-depth examination of specific issues, approaches and concepts within the previously identified content areas. These are advanced courses and are geared more directly to sociology and social science majors.
 - c. Sophomore standing is required for enrollment in all non-core 3000-level courses, and junior standing is required for enrollment in 4000-level courses.

The department requires that SOCY 1001 be completed prior to any of the major's core requirements (SOCY 2001, SOCY 3115, SOCY 3119, SOCY 3140 and SOCY 4830).

[Click here to learn about the requirements for the Major in Sociology.](#)

Departmental Honors

Students wishing to graduate with departmental honors in sociology (*cum laude*, *magna cum laude*, or *summa cum laude*) must have a minimum cumulative GPA of 3.0 (while enrolled at the University of Colorado Denver) and a 3.2 or higher in all sociology courses. Additional requirements are available in the sociology office. Qualified students are encouraged to apply for the honors program no later than the beginning of their senior year.

Randall P. Tagg, Physics
Deborah S. K. Thomas, Geography
John W. Wyckoff, Environmental Sciences

Assistant Professors:
Laurel Hartley, Integrative Biology
Rafael Moreno-Sanchez, Geography
Bryan S. Wee, Geography

Questions of sustainability are currently among the most important facing humankind and are receiving tremendous attention in the media. Because issues of sustainability do not arise from single causes, nor can solutions be developed from within narrow disciplinary frameworks, a multidisciplinary perspective is not only desirable but necessary to identify and understand problems, and create, evaluate and implement solutions.

Specializations in this critical area of study include: health and the environment,

sustainable ecology, environmental ethics, environmental policymaking and policy analysis, institutional behavior, community-based and participatory approaches to sustainable development and conservation, environmental justice, sustainable food production and critical consumerism. The sustainability minor offers a holistic approach to development and daily living, which demands scientific, economic, environmental and social perspectives to understand and implement actions that can inform the public, business, industry, government and service organizations on how their activities affect the environment.

[Click here to learn about the requirements for the Minor in Sustainability.](#)

Women's and Gender Studies (WGST) is an interdisciplinary program that focuses on the centrality of gender and sexuality to understanding our past and present worlds. Students and faculty probe assumptions about men and women and question structures of inequality as they play out in local and global contexts. Through a study of gender and sexuality, we expand our thinking about other relations of power, such as race, class, ethnicity, nationality and physical ability. WGST fosters connections with the local community and promotes advocacy of human rights and social justice.

Undergraduate Information

Click [here](#) to learn about the requirements for the Minor in Women's and Gender Studies.

Individually Structured Major

Students interested in a major in Women's and Gender Studies may develop one through the Individually Structured Major (ISM). The ISM is an interdisciplinary major based on an individual contract rather than a preset list of courses. By choosing an ISM, students can pursue their interests in WGST across a variety of departments. For more information on an ISM in Women's and Gender Studies, contact Associate Dean Marjorie Levine-Clark and see the Individually Structured Major section of this catalog.

CU Denver School of Public Affairs

Lead. Solve. Change.

CU Denver School of Public Affairs prepares the next generation of leaders in public service and criminal justice professions to solve society's most pressing problems. Faculty at the School of Public Affairs are known for their rigorous scholarship and dedication to public affairs, regularly winning awards for their research and teaching.

Nationally ranked for excellence, the School of Public Affairs offers the following degree programs:

- Bachelor of Arts in Criminal Justice
- Bachelor of Arts in Public Service
- Master of Criminal Justice (MCJ)
- Master of Public Administration (MPA)
- Doctor of Philosophy in Public Affairs

The School of Public Affairs also offers undergraduate and graduate certificates programs in criminal justice and public affairs. Programs are offered in person, online or in a hybrid format, with all formats taught by the same award-winning faculty.

The school attracts a dynamic mix of students representing a diversity of ages and experience - from undergraduates just beginning their public service careers to well-seasoned professionals already immersed in public or nonprofit management and policy. Students have opportunities to become involved in community-centered research projects with faculty, learn from distinguished local practitioners in their classes, serve in internships in government and nonprofit offices, work in partnership with the school's applied research centers and participate in the numerous public affairs-related events held by the school each semester.

Working together, faculty, staff and students conduct research that improves the quality of life and informs policy making and management in the public and nonprofit sectors. Graduates of the School of Public Affairs are prepared to lead in their fields, solve pressing social issues and change communities for the better. Alumni include legislators, policy analysts and advocates, state agency directors, police chiefs, city and county managers, nonprofit leaders, and university faculty and administrators.

Highlights

The MPA program is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA), the authoritative accrediting body in the field of public policy, affairs and administration.

US News & World Report 2019 Rankings in the Nation:

- #34 - Best Graduate Public Affairs Schools
- #12 - Environmental Policy and Management
- #19 - Online Master of Criminal Justice
- #23 - Public Finance and Budgeting
- #29 - Public Management and Leadership
- #29 - Public Policy Analysis

GRADUATION AND UNDERGRADUATE CORE REQUIREMENTS

General Graduation Requirements

To receive a bachelor's degree from the University of Colorado Denver, students must satisfy all of the requirements below, in addition to completing a Major and fulfilling all of their School or College requirements.

Please note that the requirements below are basic university requirements. Consult your School/College and Major to determine whether they have put additional requirements in place that further restrict these categories.

- A minimum of 120 credit hours is required to graduate from CU Denver with a bachelor's level degree
- A minimum 2.000 cumulative GPA is required for all University of Colorado coursework
- Satisfactory completion of the CU Denver Core Curriculum (an 11 course, 34-38 semester hour curriculum of general education, outlined here)

Repeat Statement

Though students may take any course more than once, credit toward graduation is counted only once for a typical course, unless otherwise noted in the course description. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. See course descriptions for the max semester hours applicable from each course.

Residency Requirement

The Higher Learning Commission (HLC), which accredits this university, requires that at least 30 of the 120 credits earned for a baccalaureate degree be taken in residence at the University of Colorado Denver. Students are advised that individual schools/colleges may have higher residency requirements.

Philosophy of the Core Curriculum

The University of Colorado Denver subscribes to a liberal arts philosophy of education in order to develop a broad set of academic skills for the baccalaureate student and to establish a foundation for lifelong learning. Since 1990, the CU Denver Core curriculum of general education has been a campus-wide program for all undergraduate students, independent of the student's major.

The CU Denver faculty designed the Core curriculum to provide undergraduate students a high quality academic foundation while still allowing flexibility based on students' individual backgrounds and specific career goals. The Core curriculum develops multiple literacies, stimulates creative thinking, and utilizes technology. The Core engages students in developing sensitivity to diversity and developing their place in an urban environment, as well as in the rapidly changing global environment. The Core provides an understanding of ourselves, ours and other cultures, and our environment.

CU Denver Core Curriculum: Full Course Listing

Click the link below to expand/collapse a full listing of the course options for each CU Denver Core category.

[CU Denver Core Curriculum \(same page display\)](#)

Or, click here to view the CU Denver Core Curriculum full course listing in a separate page.

****Some Core requirements may overlap with other major and graduation requirements and others may not. Students should work with an advisor to understand degree requirements and determine their optimal degree plan.**

School/College Specific Graduation Requirements

Business School
College of Architecture and Planning
College of Arts & Media
College of Engineering, Design and Computing
College of Liberal Arts and Sciences
School of Education and Human Development
School of Public Affairs

BUSINESS SCHOOL GRADUATION REQUIREMENTS

In addition to the campus core, the following requirements must be met:

Required Courses

The following courses are required prerequisites for courses in the business core and may count toward the campus core as well. Please see an advisor for more details:

- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics

- MATH 1060 - Finite Mathematics (Check with your advisor to request a higher level math substitute)

The following courses are graduation requirements for all business students:

- COMM 2050 - Business and Professional Speaking

- ENGL 3170 - Business Writing
- Business General Credit–Experiential Learning - Business students must earn 3 semester hours of credit in an approved Experiential Learning course: study abroad, internship, or 1 of 3 project-based courses.

Business Core

Specific grades are required for the business core courses in order to meet prerequisites and qualify for graduation. Prerequisites are listed within the course description. Students should meet with their advisor for recommendations on which courses to take first.

The following courses require a C- or higher:

- BUSN 1200 - Career and Professional Development
- ISMG 2050 - Introduction to Business Problem Solving
- BANA 2010 - Business Statistics
- ACCT 2200 - Financial Accounting and Financial Statement Analysis
- ACCT 2220 - Managerial Accounting and Professional Issues
- BLAW 3050 - Business Law and Ethics

The following courses require a C or higher:

- BANA 3000 - Operations Management
- FNCE 3000 - Principles of Finance
- ISMG 3000 - Technology In Business

(Note: Students in the Accounting or Financial Management emphasis or Accounting or Financial Management with specializations in Information Systems are required to complete

ACCT 4054 - Accounting Information Systems_instead of ISMG 3000 - Technology in Business.)

- MGMT 3000 - Managing Individuals and Teams

- MKTG 3000 - Principles of Marketing
- MGMT 4500 - Business Policy and Strategic Management (This is a capstone course and must be completed in your last semester and only after the 33 credit hours of business core listed above are completed).

International Studies

Choose **one** of the following courses: (a specific course may be required for some majors)

- ACCT 4370 - International Accounting
- FNCE 4370 - International Financial Management Students in the Finance Major, Financial Management Major, and Financial Management with Information Systems Specialization Major require this course.
- MGMT 4400 - Environments of International Business
- MKTG 4200 - International Marketing
- RISK 4509 - Global Risk Management

Other courses in international business may be offered periodically that satisfy the international studies requirement.

Major

Business students must complete the prescribed courses in a major at CU Denver. Transfer courses are not permitted to apply in the major.

The majors include:

- *Accounting Major - BS in Business Administration
- Entrepreneurship Major - BS in Business Administration
- Finance Major - BS in Business Administration
- *Financial Management Major - BS in Business Administration
- Human Resources Management Major - BS in Business Administration
- Information Systems Major (specializations available in Accounting, Financial Management, Human Resources Management, Management, and Marketing) - BS in Business Administration
- International Business Major - BS in Business Administration
- *Management Major - BS in Business Administration
- *Marketing Major - BS in Business Administration
- Risk Management and Insurance Major - BS in Business Administration

- Sports Business Major - BS in Business Administration

The specific requirements of these majors are described in subsequent sections.

*Option to specialize in Information Systems

Experiential Learning

Business students must earn 3 semester hours of credit in an approved Experiential Learning course. This can be satisfied by completing: an Internship; MGMT/ISMG 4900; MGMT 4120; MGMT 4825; or completing an approved Study Abroad business course. Students completing the RISK program must take RISK 3949.

Experiential learning is a graduation requirement for students beginning their bachelor degree program at any institution in summer 2007 or later. Students beginning their bachelor degree program prior to summer 2007 are not required to meet the experiential learning requirement. Students may petition to waive the experiential learning requirement based on documented full time work experience of one year or more related to their chosen major.

Other Courses

Guidelines for Elective Credits. Elective credits should be selected carefully because not all classes are acceptable. Generally, to be acceptable, electives must be taught by regular University of Colorado faculty, must have a form of assessment, such as a term paper and/or examinations, and must be regular classroom-type classes. Course coverage must be college level, not repetitious of other work applied toward the degree, must be academic as opposed to vocational or technical and must be part of the regular university offerings.

Independent Study

Junior or senior business students desiring to work beyond regular course coverage may take variable credit courses (1-3 semester hours) as nonbusiness electives under the direction of an instructor who approves the project, but the student must have the appropriate approval before registering. A maximum of 6 semester hours may be applied toward degree requirements. An independent study request form must be signed by the student, the instructor, the program director and the Assistant Dean.

Internship

A maximum of 6 semester hours of approved independent study, internships, experimental studies, choir, band and/or music lessons, art lessons may be applied.

Pass/Fail

Students may select the pass/fail grading option for some courses. In addition to Downtown Campus policies covering the pass/fail grading option (see the Academic Policy section of this catalog), Business School students must adhere to the following pass/fail grading policies:

- Courses used to complete Business Core, a student's major, business minor, specializations, and/or certificate requirements may not be taken on a pass/fail basis.
- Courses required to demonstrate proficiency may not be taken on a pass/fail basis (includes the first two semesters of foreign language and regional expertise coursework.)
- Courses used to satisfy Business School graduation requirements may not be taken on a pass/fail basis. (COMM 2050, ECON2012, ECON 2022, ENGL 3170, and MGMT/ISMG 4900, MGMT 4120, and MGMT 4825. Exception: an internship must be taken on a pass/fail basis.) ECON2012 may be taken as pass/fail to satisfy the CU Denver core curriculum, however a letter grade is required in order for it to satisfy the Business School graduation requirements.

GPA Requirement

To graduate, a student must maintain a minimum cumulative GPA of 2.0 for all university courses as well as a minimum college GPA of 2.0 for all business courses taken at CU Denver. All graded attempts are calculated in the cumulative and Business GPAs.

Upper Division

All students receiving a BS degree in business must take at least 45 upper-division semester hours.

Residency Requirement

At least 30 semester hours of business courses (including the business major courses) must be completed as a CU Denver student. The 30 hours for residence must include MGMT 4500.

Business School Foreign Language Hours Proficiency

The Business School's foreign language requirement or regional expertise requires that students demonstrate a minimum level of proficiency in one foreign language or culture.

This requirement is met through the completion of one of the following:

- a second-year (Level II) high school course with a minimum grade of C-
- a second-semester-level college course (1020) with a minimum grade of C-
- satisfactory proficiency testing, including taking and passing a proficiency exam
- completion of three regional expertise courses

***High school courses will not apply toward degree credit; however, they will serve to satisfy the foreign language requirement. Students may need additional electives to make up this credit - check with an advisor.**

Students choosing the regional expertise requirement with one year of high school foreign language or one semester of college-level work can satisfy the requirement by completing a minimum of 6 semester hours of course work from an approved list that relates to the politics, arts, history, culture or economy of any region of the world other than North America.

Courses used in the expertise area must meet the Business School guidelines and can be chosen from the list specified by the Business School. Students should contact their business advisor if they have questions. The advisors can be reached by emailing undergrad.advising@ucdenver.edu or calling 303-315-8110 to schedule an appointment.

Major

Complete all requirements associated with your individual major.

COLLEGE OF ARCHITECTURE AND PLANNING GRADUATION REQUIREMENTS

Pass/Fail

Only internships, independent studies and non-architecture elective courses may be taken pass/fail. Required architecture courses may not be taken pass/fail. A maximum of 6 hours pass/fail credit may be applied toward the BS Architecture degree. Courses taken in excess of the maximum will not be applied toward degree credit. Pass/fail determination must be made within the posted deadlines (at census dates) and may not be rescinded (unless approved by the undergraduate committee).

Independent Study and Internships

Junior or senior architecture students desiring to work beyond regular course coverage may take variable credit courses (1-3 semester hours) as architecture electives under the direction of an instructor who approves the projects for independent study and/or the architecture department chair who approves an internship. The student, the instructor, and the undergraduate advisor must sign independent study request forms.

All internships must be registered through and approved by the Experiential Learning Center on the main Auraria campus and the architecture department chair. Independent study and internship credit hour restrictions do apply, as described below:

- Independent Study: A maximum of 6 semester hours of independent study credit may count toward Architecture electives. Requires department approval.
- Internship: A maximum of 6 semester hours of internship credit may count toward Architecture electives.
- The total combination of independent study and internship credit may not exceed 9 semester hours toward Architecture electives.
- Two independent studies or two internships will not be allowed in any one semester.

Graduate-Level Courses

With prior written approval of the architecture department chair or undergraduate advisor, students may take a maximum of 6 semester hours of graduate-level architecture elective credits. GPA and class standing review may be required. Graduate-level courses from other departments must be reviewed and approved by the architecture department chair or undergraduate advisor for applicability to degree requirements.

Foreign Language Proficiency

BS Architecture students are required to demonstrate a minimum level of proficiency in one foreign language. This requirement is met through the completion of one of the following:

- A second year (level II) high school course with minimum grade of C- or 1.7
- A second semester level college course (1020) with a minimum grade of C- or 1.7
- Satisfactory proficiency testing. Contact the CU Denver Department of Modern Languages at 303-315-7234 for details

Repeating Courses

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C- grade in required

architecture and math courses, including design studios. Required architecture courses must be repeated if the student earns less than a C- grade.

Residency Requirement

Students must complete a minimum of 30 credit hours from CU Denver. Students must also satisfactorily complete Architecture Design Studios III, IV and V (ARCH 3120, 4110 and 4120) at CU Denver.

Undergraduate Upper-Division Requirement

Students must complete a minimum of 45 upper-division (3000-4000 level) credit hours.

Courses from Other Institutions

Grades of C- or better must be earned in courses from other institutions to receive undergraduate bachelor degree credit. Courses from other institutions will be transferred and applied based upon current transfer credit policies and limitations established by the College of Architecture and Planning and the University of Colorado Denver. Students should consult with the undergraduate academic advisor prior to taking courses from other institutions to determine applicability to BS Architecture degree requirements.

A maximum of nine credit hours may be transferred from other institutions as architecture electives, and transfer coursework may only be applied toward a maximum of two studio courses (ARCH 2110 Design Studio I and ARCH 3110 Design Studio II). Transfer credit for ARCH 2110 Design Studio I and ARCH 3110 Design Studio II are contingent upon a satisfactory portfolio review.

The maximum number of credit hours applied to individual architecture major requirements from transfer coursework must not exceed the number of credit hours given to its equivalent CU Denver course. Excess credit hours from architecture-related transfer coursework will not count toward the 120 credit hours needed for the BS Architecture degree.

Major

Complete all requirements associated with your individual major.

COLLEGE OF ARTS & MEDIA GRADUATION REQUIREMENTS

Important Note:

In addition to the requirements listed below, College of Arts & Media (CAM) students must complete requirements listed on the CU Denver Core Curriculum page and also General Graduation Requirements listed on the Graduation and Undergraduate Core Requirements page in this catalog.

Grade and GPA Requirements

- A cumulative GPA of 2.0 is required in all University of Colorado course work
- A minimum of C (2.0) is required for each course applied toward a CAM major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Upper Division

For BA and BFA degrees, a minimum of 45 semester hours of upper division (3000/4000-level) course work is required.

Residency Requirement

A minimum of 30 semester hours of resident credit is required.

CAM General Course Requirements

Non-Major Arts

All CAM undergraduates must complete at least one course in the arts outside of their major area. Specifically:

- **Music majors** must take three semester hours in theater, film and/or visual arts
- **Visual arts majors** must take three semester hours in film & television and/or music
- **Film and television majors** must take three semester hours in visual arts and/or music

Students may mix and match disciplines to reach 3 semester hours, or they may take a 3-semester hour course in one discipline.

Note: The course selected to fulfill Non-Major Arts cannot also fulfill a category of the CU Denver Core.

Foreign Language

For BA degree (Art History) students must complete the foreign language requirement using one of the options below:

- Completion of a 2nd year (Level II) high school course with a minimum grade of C- (1.7) in the final semester.

- Completion of a 2nd semester (Level II) college-level course with a minimum grade of C- (1.7). May not be taken pass/fail. A “conversation” course is not acceptable. This option may involve taking up to 10 semester hours.
- Demonstration of college-level second semester proficiency by exam. Contact the CU Denver Department of Modern Languages at 303-315-7234 for details.

For BFA degrees in Film and Television students must complete the foreign language requirement using one of the options below:

- Take a second course from the approved list for Core category: International Perspectives (recommended to be taken at the upper division (3000/4000) level)
- Take any level foreign language course

For BFA degrees in Fine Arts and the BS in Music, foreign language is not included as a requirement.

General Electives

CAM undergraduates may need to complete general elective courses to meet minimum credit requirements described in the General Graduation Requirements.

Majors

All CAM students must be admitted to a major and an emphasis within that major. Students must complete all major requirements to graduate. Links to information about specific majors and emphases, including any required reviews/assessments for admission, may be found on the Programs page in this catalog.

Minors

Departments in the college have developed a variety of minors. A maximum of six non-CU Denver semester hours can be used toward each CAM minor. In addition, students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Students are not required to have a minor to graduate. Students may choose to declare a minor in CAM or in another college/school in the university. Links to information about specific minors, including any required reviews/assessments for admission, may be found on the Programs page in this catalog.

More than 120 semester hours may be required to complete both a major and minor.

Certificates

Departments in the college are working to develop a variety of certificates. In general, all credits toward a CAM certificate must be completed at CU Denver.

Students are not required to have a certificate to graduate. Students may choose to declare a certificate in CAM or in another college/school in the university. Links to information about specific certificates, including any required reviews/assessments for admission, may be found on the Programs page in this catalog.

More than 120 semester hours may be required to complete both a major and a certificate.

Double Emphases

Students may graduate with more than one emphasis within the same CAM major by completing all requirements for each emphasis (e.g., BFA in Fine Arts with double emphases in digital design and photography). Completing these requirements will likely require more than 120 semester hours.

Double Majors

Students may graduate with more than one major in CAM by completing all requirements for each major within a single degree (e.g., a BFA with a major in fine arts, photography emphasis AND a second major in film & television). Completing these requirements will likely require more than 120 semester hours. Double majors apply to students completing two majors from different CAM departments.

Double Degrees

Students may earn two degrees in the College of Arts & Media (e.g., BFA in Film & Television and BA in Fine Arts) or from two different schools or colleges in the university (e.g., BS in Music and a BS in Physics) simultaneously by fulfilling all requirements for both degrees. Students must complete a minimum of 120 semester hours applied toward the two degrees, and likely more will be needed to fulfill all requirements.

Second Degrees

Students who have been awarded a bachelor's degree from CAM may be granted a second bachelor's degree provided that (a) all general requirements for the second degree have been met; (b) the degree plan for the second bachelor's degree is different from the first (for example, a student cannot twice complete a BFA in Fine Arts with an emphasis in photography); and (c) the college and major department residence requirements are satisfied. A second degree from CAM requires a minimum of 30 additional semester hours.

COLLEGE OF ENGINEERING, DESIGN AND COMPUTING GRADUATION REQUIREMENTS

Hours

A minimum of 130 semester hours is required for students seeking a civil engineering degree; a minimum of 128 semester hours for bioengineering, computer science, electrical engineering or mechanical engineering degrees.

Attendance

Successful work in the College of Engineering, Design and Computing is dependent upon regular attendance in all classes. Students who are absent should make arrangements with instructors to make up the work missed. Students who for illness or other good reason miss any examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in an F in the course.

Non-degree Students

Non-degree students may apply 12 semester hours of course work (or up to 18 if taken in one semester) toward a bachelor's degree in engineering from CU Denver.

Grade Point Average (GPA)

A minimum cumulative GPA of 2.0 is required for all courses attempted, for all required courses and for all courses taken within the student's major department.

Hours in Residence

At least 30 semester hours of course work applicable to a bachelor of science degree in engineering must be taken at CU Denver while a declared student in good standing at the College of Engineering, Design and Computing. Students must be enrolled in the college for at least the final two semesters prior to graduation.

NOTE: The electrical engineering program requires at least 40 hours of course work applicable to a bachelor of science degree in engineering, which must be taken at CU Denver while a declared student in good standing at the College of Engineering, Design and Computing.

Mathematics and Physics Requirements

Each major in the College of Engineering, Design and Computing includes specific Math and Physics requirements, which can overlap with CU Denver Core Curriculum requirements in the categories of Mathematics or Biological and Physical Sciences. An overview of these requirements is laid out below:

Mathematics

MATH 1401 - Calculus I

MATH 2411 - Calculus II

MATH 2421 - Calculus III (not required for computer science students)

MATH 3195 - Linear Algebra and Differential Equations

Physics

PHYS 2311 - General Physics I: Calculus-Based

PHYS 2321 - General Physics Laboratory I

PHYS 2331 - General Physics II: Calculus-Based

PHYS 2341 - General Physics Laboratory II (*not required for civil or electrical engineering students*)

Note: Computer science students may take their science course track in biology, chemistry or physics. Please see the computer science curriculum for details.

Notes:

- Please see the individual major pages in the Programs area for a full picture of the specific major requirements
- Please see the Graduation Requirements for a full picture of the Core Curriculum

Faculty Recommendation

The recommendation of the faculty of the department offering the degree and the approval of the faculty of the College of Engineering, Design and Computing is required for graduation.

Major

Complete all requirements associated with your individual major. Please visit the College of Engineering, Design and Computing page to learn more about the college and its programs.

COLLEGE OF LIBERAL ARTS AND SCIENCES GRADUATION REQUIREMENTS

CLAS Residence Requirements

Students must earn a minimum of 30 semester hours with letter grades in residence. In residence is defined as credit hours taken from the College of Liberal Arts and Sciences subject codes, taught by CLAS faculty, while enrolled at CU Denver.

Additional Residence requirements for CLAS majors, minors and certificates may be enforced. Students should consult catalog entries for CLAS program to learn about program specific residence requirements.

College GPA

A minimum cumulative CU GPA of 2.0 is required for graduation from the College of Liberal Arts and Sciences.

The Major

The Bachelor of Arts and Bachelor of Science majors in CLAS require a minimum of 30 semester hours of coursework in the major discipline. Interdisciplinary and individually structured majors may have exceptions.

Minimum GPA and allowable grades: 2.0 minimum major GPA, with all courses earning C- or higher grades.

Upper-Division Requirements

A minimum of 45 semester hours of upper-division coursework must be completed. A minimum of 16 upper division semester hours are required in the major discipline. Interdisciplinary and individually structured majors may have exceptions to the 16 credit minimum in the major discipline.

Major Department

Bachelor of Arts and Bachelor of Science majors require a minimum of 30 semester hours and no more than 56* semester hours in the major subject code (major discipline). A minimum of 15-16 upper-division credits are required in the major subject code. Interdisciplinary and individually structured majors are exceptions.

*Note: Courses applying to CU Denver Core Intellectual Competency requirements (English Composition I & II and Mathematics) are not included in this calculation.

College Minimum Grade

Undergraduate students enrolled in CLAS major or minor programs must earn a minimum grade of C- or higher in all courses that count toward their major or minor (required and elective courses). If the major/minor program wishes to require a higher grade for certain types of courses, like discipline specific capstone experiences/ senior seminars, etc., those courses need to be taken in residence from CLAS faculty/enrolled at CU Denver. If the CLAS major/minor program requires students to take ancillary courses (courses that are not taught by the major/minor program), the program may not impose higher minimum course grades for those ancillary courses. Major/minor faculty advisors reserve the right to make substitutions to in residence requirements when appropriate.

The Minor

Minors require a minimum of 15 semester hours (may be interdisciplinary).

A minimum of 6 upper division semester hours are required (may be interdisciplinary).
Minors require a minimum of 9 semester hours in residence.

Minimum GPA and allowable grades: 2.0 minimum minor GPA, with all courses earning C- or higher grades.

The Certificate

Undergraduate certificates require a minimum of 12 semester hours (may be interdisciplinary). A minimum of 6 upper division semester hours are required.

Because a certificate is a CU certification of a student's specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residence at CU Denver. No transfer courses may be applied to CLAS certificate program requirements.

Minimum GPA and allowable grades: 2.0 minimum certificate GPA, with all courses earning C or higher grades.

Internships

A maximum of 12 semester hours of internship credit can apply toward the 120 semester hour graduation requirement.

Prerequisites apply. All students must apply and be approved for internships through the Experiential Learning Center.

Independent Study

A maximum of 12 semester hours of independent study coursework can apply toward the 120 semester hour graduation requirement. This includes Directed Research.

Physical Education

A maximum of 8 semester hours of Physical Education can apply toward the 120 semester hour graduation requirement.

Pass/Fail

Courses used to satisfy major, minor, certificate, CLAS Graduation requirements or courses that require a specific grade for prerequisite purposes cannot be taken on a pass/fail basis.

No more than 6 semester hours pass/fail are allowed in any one semester. A maximum of 16 semester hours taken as pass/fail can apply toward the 120 semester hour graduation requirement.

College Level Examination Program (CLEP)

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to evaluation by the faculty advisor in the department or program, when an exact equivalency has not been determined, and is treated in a similar way as IB, AP or transfer credit. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit can apply toward the 120 semester hour graduation requirement.

Second Bachelor's Degree

Students who have been awarded a bachelor's degree (either from the University of Colorado Denver or elsewhere) may be granted a second bachelor's degree provided that (a) all university and college graduation requirements are met; (b) the major for the second bachelor's degree is distinctly different from the major for the first; and (c) the college and major department residence requirements are satisfied. A second degree from the College of Liberal Arts and Sciences will likely require 30 additional semester hours of credit. Students who declare a second degree while completing their first degree will have one academic year (3 semesters) from when they complete their first degree to finish their second degree. If a student does not take classes for more than 3 semesters they must reapply to the university. This rule applies to second degrees only. Students pursuing double majors must complete requirements for both majors at the time of graduation, in order to earn a double major. Exceptions to these guidelines and policies may be petitioned to the appropriate CLAS Associate Dean.

CLAS Graduation Requirements

A single course may fulfill up to two requirements in the following areas: CU Denver Core Curriculum, CLAS Graduation requirements, a major program, a minor program, or a certificate program, with the following exceptions:

1. The course cannot fulfill more than two requirement/elective areas in a student's degree.
2. The course cannot fulfill two CLAS Graduation requirements.
3. The course cannot fulfill CLAS Graduation requirements, if it is already fulfilling CU Denver Core Curriculum

Major and minor programs may impose restrictions around double counting courses. Students should consult catalog entries for CLAS programs to learn about program specific restrictions.

All CLAS students must fulfill the CU Denver General Education Core requirements, in addition to the following:

Communicative Skills (3 semester hours)

One course in communicative skills from the following list, with a minimum grade of C-:

- COMM 2050 - Business and Professional Speaking
 - COMM 1001 - Presentational Speaking
 - ENGL 3001 - Critical Writing
 - ENGL 3084 - Advanced Composition
 - ENGL 3154 - Technical Writing
 - ENGL 3170 - Business Writing
 - ENGL 4175 - Writing in the Sciences
 - ENGL 4190 - Topics in Rhetoric and Writing
 - HIST 2001 - The Uses and Misuses of History
-
- PHIL 2441 - Logic, Language and Scientific Reasoning

Foreign Language proficiency (0-10 semester hours)

Students can fulfill foreign language proficiency through one of the following ways:

- Completion of a second semester or higher college-level language course taught in the designated non-English language with a minimum grade of C- (1.7). American Sign Language is included.
- Satisfactory proficiency testing (i.e. CU Denver Modern Language Placement Testing, BYU FLATS (Foreign Language Achievement Testing Services), CLEP.)
- Completion of a second-year/level II high school non-English language course or higher with a minimum grade of C- (1.7) in the second semester of the second-year or later. No college credit is earned for high school coursework.
- Completion of one year* of AP non-English Language & Culture, AP non-English Literature & Culture, IB non-English Language B or IB Classical Language courses with a minimum of C- (1.7) or higher. No college credit is earned for AP or IB coursework, unless the student earns a sufficient score on the corresponding exam.

*Note: the one year of AP or IB courses must be in the same content area and non-English or Classical language.

- Student has temporary valid non-immigrant visa status, is from a non-English speaking country and meets the CU Denver English Language Proficiency requirements for admission.

- Students whose primary language is not English may provide official documentation and/or satisfactory proficiency testing results to demonstrate their primary language proficiency.

Students who are unsure should consult with their CLAS advisor to determine whether they have met the foreign language proficiency requirement, prior to completing coursework.

Humanities (3 semester hours)

In addition to the CU Denver Core Curriculum requirement in Humanities, students must take a second CLAS course from the CU Denver Core Curriculum Course listing for Humanities or a course from one of the following:

- A course with an ENGL, HIST, HEHM, HUMN, PHIL, or RLST subject code. Students may not use any lower-division level (1000-2000) introductory composition course to fulfill this requirement, i.e. ENGL 1010, ENGL 1020, ENGL 2030.
- A Chinese, French, German or Spanish culture or literature course(may be taught in English or in the associated language). Students may not use a language acquisition course to fulfill this requirement.

Behavioral Sciences (3 semester hours)

In addition to the CU Denver General Education Core Curriculum requirement in Behavioral Sciences, students must take a second CLAS course from the CU Denver General Education Core Curriculum Course listing for Behavioral Sciences or a course from one of the following subject codes: ANTH, COMM, or PSYC

Social Sciences (3 semester hours)

In addition to the CU Denver Core Curriculum requirement in Social Sciences, students must take a second CLAS course from the CU Denver Core Curriculum Course listing for Social Sciences or a course from one of the following subject codes: ECON, ETST, GEOG, PBHL, PSCI, or SOCY.

Biological and Physical Sciences, Mathematics (3-4 semester hours)

In addition to the CU Denver Core Curriculum requirement in Biological and Physical Sciences, students must take a second lab-based CLAS course from the CU Denver Core Curriculum Course listing for Biological and Physical Sciences with a lab or a course from one of the following subject codes (as long as two lab sciences are completed): BIOL, CHEM, GEOL, PHYS, or MATH.

Total Semester Hours of CLAS Graduation Requirements: 15-26

Major

Complete all requirements associated with your individual major.

Guidelines for Transfer Evaluation and Application

- Courses must be exact equivalencies for Communicative Skills, otherwise they may apply to the other categories identified.
 - Always seek evaluation of a transfer course for direct equivalency.
 - Any advisor or member of the Registrar's degree audit team is authorized to apply courses transferring from ENGL or COMM subject codes. ENGL courses must be 3000 or above. Any level COMM course may apply. Registrar looks for "writing", "rhetoric", "composition" or "speaking" and subject code for authorization. All other subject codes or ENGL courses from lower levels must seek a petition to the Associate Dean for exceptions.
 - Anything that does not meet the above criteria must seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course.
- CLAS Humanities, excludes lower division level ENGL transfer courses that mention the following topics in the title: writing(unless course description details that the course is in criticism or theory), composition, rhetoric, theory(unless literary theory), research(unless related to literature or literary studies), editing, linguistics, grammar, rhetoric(unless course description details that the course is in criticism or theory), workshop. CU Denver English faculty will review and evaluate syllabi when necessary. The area also excludes language acquisition courses
- For other CLAS graduation requirement areas, transfer courses must come from one of the identified subject codes for each area. For any outliers, the course must be taken from a College of (Liberal) Arts and Sciences and must be reviewed by a CLAS Associate Dean.
 - Always seek evaluation of a transfer course for direct equivalency.
 - Any advisor is authorized to make exceptions to transfer courses using a subject code match.
 - Anything that does not meet the above criteria, but does come from a college of (liberal) arts and sciences must seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course.

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT GRADUATION REQUIREMENTS

Minimum Grade Requirements

Students must earn a final grade of at least a C (2.0) in major courses and a B- (2.7) or above in designated major courses and Professional Year Residency courses within the major. These courses/requirements must be repeated if the student fails to earn the grade required.

Classroom-Based Field Experiences

Students must complete required classroom-based field experiences.

Other Requirements

Students must complete all program assessments and professional milestones as outlined in the Student Handbook. For teacher education licensure students, this includes passing the appropriate Praxis exam.

Major

Students must complete all requirements associated with their SEHD major.

SCHOOL OF PUBLIC AFFAIRS GRADUATION REQUIREMENTS

School of Public Affairs Residency Requirement

A minimum of 30 credits must be taken through CU Denver. At least 21 of the final 30 credits of the degree must be earned through CU Denver. Please refer to your major program page for any additional major-specific residency requirements.

School of Public Affairs Social Sciences Requirement

SPA requires students to select three courses from the Social Sciences area of the CU Denver Core Curriculum. Please see your advisor for guidance on which courses will be most beneficial for your individual major.

Upper-Division

Students must complete a minimum of **forty-five** upper-division credits.

Foreign Language Requirement

School of Public Affairs students must demonstrate proficiency in a foreign language at the second semester college level prior to graduation. This is accomplished through course work, by examination, or through documented evidence that the student has attained the equivalent proficiency in a language other than English.

Students using high school credit to satisfy the proficiency requirement at CU Denver must have received a grade of C- (1.7) or higher in the final semester of the second-year course. Students using college-level transfer credit or coursework at CU Denver to satisfy the proficiency requirement must receive a grade of C- (1.7) or better in the second-semester college-level course. There is no pass/fail option for any course taken for the foreign language requirement.

Student Placement in Lower-Division Language Courses

<i>High School Background:</i>	<i>Course Number/Level to Take:</i>
No language courses or background	1010
One year of high school	1020
Two years of high school	2110
Three years of high school	2120
Four years of high school	Upper-division courses

NOTE: High school programs vary substantially, and the above levels may not be appropriate for all students. Modern Languages departmental advisors will be happy to speak with any student who feels unsure about his or her placement (303-556-4893).

Prior College Courses

Students wishing to enroll in a lower-division course that does not directly follow their last completed college course in the regular sequence should consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment, 303-556-4893.

Proficiency Testing

Students may also show their level of proficiency by taking a computerized placement/proficiency exam. Call the Department of Modern Languages, 303-556-4893, for scheduled exam times. The languages tested are French, German, and Spanish; students wishing to show proficiency in other languages should consult the Department of Modern Languages for documentation. Students may take an exam only once per semester.

Students who have achieved some proficiency in a foreign language through other means than academic courses should also consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. This is especially important for native and heritage speakers.

Major Requirement

Complete all requirements associated with your individual major. See the program page for detailed requirements.

The Internship Program

Undergraduate students without experience in the field must complete an internship course for credit under the direction of a faculty sponsor and the Experiential Learning Center. Internships are helpful for career exploration early in a student's academic career or for job experience after developing academic content in the major.

Undergraduate students must have a minimum 2.0 cumulative GPA and a minimum of 15 semester hours completed at CU Denver. BACJ students must have successfully completed CRJU 1000 and CRJU 2041 before registering for the internship, and BAPS students must have successfully completed PUAD 1001 and a 2000 level PUAD course before registering for the internship. Undergraduate students should contact the Experiential Learning Center for details on internship placements, paperwork and requirements. Please see your advisor to request an internship course waiver.

SPECIAL PROGRAMS

Undergraduate Experiences

Associate Vice Chancellor for Student Success: Margaret C. Wood, PhD

Phone: 303-315-2133

Email: margaret.c.wood@ucdenver.edu

Website: ucdenver.edu/ue

The Office of Undergraduate Experiences (UE) strives to enhance student learning by providing access to high quality and innovative programs for all CU Denver undergraduate students, regardless of school or college. Our office is committed to the education of the whole student through the integration of general education, major, co-curriculum, and community. As such, we support programs that enhance student learning, promote academic excellence, and link student and academic affairs units. Our major programs and initiatives include: High Impact Practices (especially First-Year Experiences, Learning Communities, Undergraduate Research and Creative Activities, Internships and Service Learning), Early Alert, and the Core Curriculum.

High Impact Practices (HIPs)

UE is leading the initiative to more fully integrate HIPs into the undergraduate curriculum. HIPs are specialized practices or programs of engaged teaching and active learning. Ten specific HIPs are recognized nationally: First-Year Seminars, Common Intellectual

Experiences, Learning Communities, Writing-Intensive Courses, Collaborative Assignments and Projects, Undergraduate Research, Diversity/Global Learning, Service Learning and Community-Based Learning, Internships, and Capstone Courses and Projects. National research shows that student participation in HIPs increases engagement, retention, and completion, especially in the case of underrepresented groups.

First-Year Experiences (FYE)

FYE Director: Emilie Waggoner

Email: emilie.waggoner@ucdenver.edu

Website: ucdenver.edu/fye

The First-Year Experience (FYE) is a comprehensive approach to ensure that first-year students at CU Denver make a successful transition to college. Our primary goals for FYE participation are active engagement with the CU Denver community, relationships with peers, faculty, and university staff, high levels of academic performance, and strong academic and professional skills. Our **First Year Seminar** program delivers faculty-designed special topics courses that apply toward Core Curriculum credit in the various knowledge areas. Along with rigorous academic content, first-year students participate in academic skill workshops and campus social events. The new **College Success** course (UNIV 1111) focuses more exclusively on academic skills, support, and transition to the university. Students receive hands-on support in developing their academic writing, critical thinking, library research, career preparation, professional communication skills, and personal strengths from faculty, staff, and campus resources across the university.

Why should incoming students participate in a First-Year Experience course?

- higher first semester grades
- student engagement with campus activities
- small class size
- faculty and peer mentoring
- knowledge of campus resources and student support services
- early exploration of career paths and a suitable major
- more likely to stay in college
- Core curriculum credit (for First-Year Seminars)
- active learning pedagogy designed to improve writing and critical thinking skills

Learning Communities (LC)

LC Coordinator: Christy Heaton

Email: christine.heaton@ucdenver.edu

Website: ucdenver.edu/fye

CU Denver Learning Communities (LCs) create intentional and inclusive communities formed around common themes or purposes where students learn together. These communities strive to cultivate critical inquiry and reflection, holistic student growth, and collaborative connections on campus. At CU Denver, learning communities typically include paired courses, or a single course, integrated by an

academic theme, collaborative learning, peer mentoring, and intentional co-curricular activities.

Undergraduate Research and Creative Activities (URCA)

URCA Director: Dr. Lindsey Hamilton

Phone: 303-315-7066

Email: lindsey.hamilton@ucdenver.edu

Undergraduate students can play a significant role in creating new knowledge. Undergraduate research and creative activities foster personalized student learning outside the classroom under the guidance of a faculty mentor. **Undergraduate Research Opportunity Program (UROP)** grants are designed to cover expenses, travel, and stipends for undergraduates who undertake scholarly research and creative activities in collaboration with a faculty member. Students participating in UROP gain experience presenting project results at the **Research and Creative Activities Symposium (RaCAS)** each spring. Students often present their findings in a variety of ways: through oral presentations, published articles, artistic projects, musical compositions, theatrical presentations, multimedia displays, models, and posters.

Internships

Director, Experiential Learning Center: Tony Smith

Phone: 303-315-7258

Email: tony.smith@ucdenver.edu

Website: ucdenver.edu/elc

Experiential learning includes a variety of activities with one common goal-to immerse students in hands-on learning outside the classroom where experience is at the heart of the learning process. The **Experiential Learning Center**, located within the UE division, is committed to working closely with students, faculty, employers, and community partners to provide quality experiential learning opportunities that enhance academic learning, integrate theory and practice, and promote professional development and active citizenship. The ELC offers resources for internships, undergraduate research, and professional development experiences.

Service Learning

Director of Student Life & Campus Community: Tierza Watts

Phone: 303-315-0775

Email: tierza.watts@ucdenver.edu

Students gain a better understanding of community issues, develop practical skills, and make a difference in the world around them when they engage in service activities. From the first-year experience course to senior capstone classes, faculty weave service projects into their courses, giving students a wider view of the world. These service learning experiences vary in length of time, but the impact is always transformational.

Core Curriculum

Core Curriculum Oversight Committee Chair: Antwan Jefferson, Ph.D

Phone: 303-315-2133

Email: ccoc@ucdenver.edu

The general-education Core delivers the knowledge, skills, and dispositions that all students need to be successful in multiple future careers and as informed and engaged citizens of a rapidly changing, diverse, global world. All undergraduates, regardless of major, take courses in each of the nine Core Areas: Composition, Mathematics, Arts, Behavioral Sciences, Biological & Physical Sciences, Humanities, Social Sciences, Cultural Diversity, and International Perspectives. The Core Curriculum is designed to provide each undergraduate student with a high-quality general education based on a liberal arts and sciences foundation, while allowing students flexibility based on their individual backgrounds and specific career goals.

A complete listing of Core courses can be found [here](#).

Early Alert (EA)

EA Contact: Erika Larsen

Phone: 303-315-2133

Email: studentsuccess@ucdenver.edu

CU Denver participates in a campus-wide Early Alert program to identify undergraduate students needing assistance from academic and student service offices. The Early Alert program is designed for faculty to identify students in the 5th-6th week of the semester who need assistance because of academic performance, class participation, and/or behavior issues. Assistance is provided to students identified by faculty through academic advising and through referrals to appropriate CU Denver student service offices.

University Honors and Leadership Program (UHL)

Director: Jennifer Reich, PhD

Program Coordinator: Elisabeth Hawksbee

Office: 1047 Ninth Street Park

Telephone: 303-315-7838

Fax: 303-315-7836

E-mail: UHL@ucdenver.edu

University Honors and Leadership (UHL) is a program of excellence designed for students who have demonstrated superior achievement in academic performance and/or outstanding leadership qualities. UHL is founded on the premise that the integration of rigorous programs of academic excellence and leadership education provides the ideal environment in which to develop the gifts of the next generation of leaders in academia, business, policy-making, and service to communities local, national, and global.

The four-year UHL program is unique in integrating academic honors and leadership education within a highly selective learning community of outstanding students and faculty. The UHL program allows students to complement their major field of study with a traditional honors experience in the academic honors track or with a program of leadership education in the leadership studies track. Students move through the UHL program in cohorts that simultaneously promote community, teamwork, and individual initiative. All UHL courses are multidisciplinary, reflecting the view that the ability to effectively analyze the challenges faced in all sectors of society can be enhanced by the integration of appropriate information drawn from a broad base of perspectives and problem-solving skills. The UHL program complements this philosophy with an emphasis on the development of exceptional oral and written communication skills, projects that steep students in sophisticated research methods, and the opportunity to work in teams to solve practical problems in the community.

The Academic Program

UHL is a multidisciplinary cohort program consisting of 27 semester hours of coursework to be completed over four years. The UHL courses substitute for most of the CU Denver core curriculum requirements.

UHL students have the opportunity to pursue an honors experience through the academic honors track or to focus on leadership education through the leadership studies track. UHL students have a shared first-year experience, taking a core of coursework common to both tracks. The second and third years of the UHL program offer programs designed specifically for the academic honors and leadership studies tracks. UHL students come together for a two-semester capstone research seminar in the fourth year.

Students pursuing the academic honors track have the opportunity to earn a minor in "Multidisciplinary Research Methods." Those completing the leadership studies track have the opportunity to earn a minor in "Leadership Studies."

UHL students who successfully satisfy the course and credit-hour requirements and maintain a GPA of 3.50 or higher in their UHL courses will graduate with "University Honors."

Health Professions Programs on the Denver Campus

College of Liberal Arts and Sciences

Health Careers

Health professions Advising Team

Director/Advisor: Trishia Vasquez

Telephone: 303-315-7541

Advisor: Dr. Gene Brooks

Telephone: 303-315-7538

Undergraduate Pipeline Program Coordinator/Advisor: Ken English

Telephone: 303-315-7542

Program Specialist: Greg White

Telephone: 303-315-7536

Health Career Advisors on the Denver Campus assist in planning a course of study designed to improve a student's chance of success in a health career of their choice by sharing information about career paths in the health professions, work role and environment, related careers and relevant professional development or graduate school programs. We can provide insight into career options, professional opportunities, and extracurricular opportunities to improve your chances of success in the health career of your choice, including: dentistry and dental hygiene, medicine, medical technology, nursing, optometry, osteopathy, pharmacy, physical therapy, physician assistant, podiatry or veterinary medicine. A comprehensive list of health career options and additional information to help you mold your academic experience to your specific goals is available on the health professions programs website at <https://clas.ucdenver.edu/health-professions-programs/>.

Undergraduate Pipeline Programs

BA/BS-MD Program

The BA/BS-MD degree program at the University of Colorado Denver and Anschutz Medical Campus aims to promote the diversity of medical professionals practicing medicine in Colorado and to better serve the health care needs of the State of Colorado by assembling up to 10 outstanding students each year from broadly diverse backgrounds. Applicants must be Colorado residents and have an interest in serving the health care needs of Colorado as primary care physicians. This program is a partnership between the University of Colorado Denver College of Liberal Arts and Sciences and the University of Colorado School of Medicine.

Being accepted to the program allows students to earn a reserved spot at the University of Colorado School of Medicine provided he or she meets specific academic, non-academic, and professional requirements annually.

Admission of individuals will be conducted through a holistic review in a manner which treats each applicant fairly, on the basis of experience, attributes, and metrics. For more information, visit <https://clas.ucdenver.edu/health-professions-programs/babs-md-program-information> or contact Mr. Ken English at kenneth.english@ucdenver.edu.

BA/BS-DDS Program

The BA/BS-DDS degree program at the University of Colorado Denver and CU School of Dental Medicine at Anschutz Medical Campus aims to promote the diversity of dental professionals practicing dentistry in Colorado and to better serve the health care needs of the State of Colorado by assembling and educating up to five students each year from broadly diverse backgrounds. Applicants must be Colorado residents who are interested in serving the health care needs of Colorado as dentists. Acceptance and participation in this program does not guarantee admission to the University of Colorado School of Dental Medicine or any other dental school.

Students who successfully meet all program requirements including a successful interview with the School of Dental Medicine (SDM) Admission Committee, will be eligible for a “reserved” spot in the CU SDM matriculating class.

Admission of individuals will be conducted through a holistic review in a manner which treats each applicant fairly, on the basis of experience, attributes, and metrics.

For more information, visit <https://clas.ucdenver.edu/health-professions-programs/babs-dds-program> or contact Mr. Ken English at kenneth.english@ucdenver.edu.

College of Engineering, Design and Computing

Contact: Engineering Student Services, 303-315-7510

or

Department of Bioengineering, 303-315-7576

Website: engineering.ucdenver.edu

The desirability of obtaining an engineering education prior to undertaking a study of medicine is increasing continually as medicine itself is evolving. A great deal of new equipment is being developed to assist the medical practitioner in the treatment of patients. Bioengineering, computer science, communication system design and analysis, big data analysis, mechanical engineering and probability are highly applicable to medical problems. Contact the Engineering Student Services Center or a specific department for more information.

Inworks

Inworks Founder: Dr. John Bennett

CU Denver Associate Director: Kate Goodman

CU Anschutz Associate Director: Monika Wittig

Program Manager / Contact: Kelsie Faulds / kelsie.faulds@ucdenver.edu

Address: CU Dravo Building 1250 14th street suite 1300

Phone: 303-315-0047

Inworks draws together faculty, staff and students from across the two campuses, as well as entrepreneurs and leaders from industry, government, education and the community, to address problems of importance to human society. Our mission is to impart skills and habits of mind that allow people to collaboratively create impactful solutions to human problems. Inworks seeks to create innovative solutions to some of the world’s most challenging problems, while in the process creating life-long innovators

Inworks offers a wide range of courses, an undergraduate certificate, a graduate certificate and a minor in Human-Centered Design and Innovation. We also offer broad opportunities for learning: speaker programs, workshops and other programs that bring together people from radically different backgrounds to consider issues of importance to

human society. Our modern facilities support collaborative innovation and provide extensive facilities for rapid prototyping. For more information, visit www.inworks.org.

Math Pathways

Offering students the highest quality education is a central goal for CU Denver. The choice of the right type and level of Math is crucial for student success. CU Denver highly recommends that all students take Math in their first or second semester. Students who wait longer find it much harder-with Math, you use it or lose it.

National statistics show that one of the primary reasons that students halt their degree is connected to completing their first college-level Math course with a grade lower than a C. Since we want CU Denver students to finish their degree, and to do so at the lowest cost in time and money, without having to re-take a Math course because of a low grade or withdrawal (D, F or W), we have tools to guide students with initial placement.

All undergraduate students must complete one Core Mathematics course in order to fulfill the university's graduation requirement. There are currently four different mathematics pathways which are available for students: the Quantitative Literacy Pathway, the Business Mathematics Pathway, the STEM Pathway and the Statistics Pathway. Students should consult with their advisor and major graduation requirements to select which math pathway is best for them.

Quantitative Literacy Pathway:

MATH 1010-Mathematics for Liberal Arts is the recommended entry-level math course for all degrees within the Arts and the Humanities, including but not limited to majors in Art History, English, Film & Television, History, Modern Languages, Music, Philosophy, and Visual Arts.

To support student success in this course, a co-requisite class, MATH 1011-Mathematics for the Liberal Arts Workshop, is available for students to take alongside MATH 1010. Students with a High School GPA less than 3.25 and an ACT score less than 19 (equivalent SAT less than 520) are required to register for this 1-credit hour workshop along with their MATH 1010 course.

Business Mathematics Pathway:

MATH 1060-Finite Mathematics is the recommended entry-level math course for students in different business tracks.

STEM Pathway:

MATH 1108 and MATH 1109-Stretch College Algebra; MATH 1110-College Algebra; MATH 1120-College Trigonometry; MATH 1130-Precalculus or MATH 1401-Calculus I are the recommended entry-level math courses for all degrees within the Applied, Natural and Physical Sciences, including but not limited to majors in Architecture, Biology,

Chemistry, Engineering, Mathematics and Physics. Many health careers also require these mathematics courses.

Since student success is one of our goals, students will most likely need to complete a math placement assessment from the “ALEKS Placement, Preparation and Learning” program prior to registering, to determine which level the student is best prepared to enter.

ALEKS PPL guides appropriate mathematics placement and registration, in addition to providing students an opportunity to review material and gain confidence in their math skills. Students may take the ALEKS PPL assessment up to five times, and the highest score is the one that will count as a prerequisite for registering for classes. Using ALEKS PPL, the learning modules that are provided in response to assessment results and advising resources, can lead students to success in the first semester of math and save valuable tuition dollars. Students in this pathway should use these tools to help them succeed.

- The assessment typically takes 60-90 minutes with approximately 30 questions.
- Students should complete ALEKS PPL assessment before orientation and/or registration so they are eligible to register for Math before they leave that day.
- It’s important to be honest while taking the placement assessment.

Students must complete the assessment with the score from the chart below for the corresponding course. The only course that is open to all students in this pathway that does not require assessment is MATH 1108 and MATH 1109-Stretch College Algebra

Course #	Course Name	ALEKS Score Range	Prior coursework requisite (alternative to assessment)
MATH 1108 & MATH 1009	Stretch College Algebra	No ALEKS assessment is required	Students must complete both MATH 1108 and MATH 1109 to earn Core mathematics credit and to fulfill the prerequisite for MATH 1120
MATH 1110	College Algebra	46 or higher	NA
MATH 1120	College Trigonometry	61 or higher	MATH 1109 or MATH 1110 with a C- or higher
MATH 1130	Pre-Calculus	61 or higher	NA
MATH 1401	Calculus I	76 or higher	MATH 1109 or MATH 1110 and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher

If students already have math college credit from AP/IB/CLEP exam or a concurrent enrollment course, CU Denver will recognize that once we receive official test scores and/or transcripts. This previous coursework (AP/IB/CLEP/concurrent enrollment) may shift your eligibility to enroll in a higher level math course, but ALEKS will still help to give

you the most current reflection of your level of preparation and help inform and guide your math selection.

Statistics Pathway:

MATH 2830-Introductory Statistics, is the recommended entry-level math course for all degrees within the Social, Behavioral, Educational and Integrated Sciences, including but not limited to majors in Anthropology, Communication, Education, Ethnic Studies, Geography and Environmental Sciences, International Studies, Political Science, Psychology, Public Administration, Public Health and Sociology.

To support student success in this course, a co-requisite class, MATH 2831-Introductory Statistics Workshop is available for students to take alongside MATH 2830. Students with a High School GPA less than 3.25 and an ACT score less than 19 (equivalent SAT less than 520) are required to register for this 1-credit hour workshop along with their MATH 2830 course.

Questions? Contact MATH.Placement@ucdenver.edu or your academic advising unit.

Reserve Officers Training Corps (ROTC)

The Air Force, Navy/Marines, and Army offer college students the opportunity to receive a commission as an officer through the Reserve Officers Training Corps (ROTC) program. These military training programs occur in conjunction with a student's undergraduate coursework and lead to a commission upon graduation. All ROTC programs offer competitive scholarships, allow for elective academic credit depending on policies of the student's home school or college, and include a commitment to military active or reserve duty.

The University of Colorado Denver actively supports students desiring to participate in one of the ROTC programs and provides registration access to Army ROTC (sponsored by the Metropolitan State University of Denver) and to Navy/Marines or Air Force ROTC (sponsored by the University of Colorado Boulder).

Interested students should contact the specific ROTC program directly for military training, scholarship information, and registration details.

Air Force ROTC

AFROTC Detachment 105
University of CO Boulder
UCB 371
Boulder, CO 80309-0371
Phone: (303) 492-3128; (303) 492-8352

Navy/Marines ROTC

Naval ROTC
University of CO Boulder

UCB 374
Boulder, CO 80309-0374
Phone: (303) 492-2576

Army ROTC
Dept. of Military Science
633 Curtis Street
Modular Building MO-1
Denver, CO 80217
Phone: (303) 352-7419

Transfer students enrolled in Army, Air Force, or Navy/Marines ROTC programs should consult with their school or college regarding the application of ROTC course credit toward graduation requirements.

Undergraduate Areas of Study

3D GRAPHICS AND ANIMATION EMPHASIS, FINE ARTS BFA

Introduction

Please click here to see general Visual Arts information.

The 3D graphics and animation emphasis is a competitive and rigorous four-year curriculum focused on preparing students to work in a wide variety of fields that use animated digital computer graphics (CG), including entertainment, film and television, gaming, medicine, and science.

Program Delivery

- This is an on-campus program.
- The 3D graphics and animation emphasis courses (DACD 2810-4820 below) are billed at a different rate than the standard course tuition due to the state-of-the-art technology used in the classroom. For more information regarding this rate, contact the College of Arts & Media at CAM@ucdenver.edu.

Declaring This Major

- Click here to go to information about declaring a major.
- Students who are applying for entrance into the 3D graphics and animation emphasis must submit a portfolio, as described below. The 3D graphics and animation emphasis accepts applications only once per year. Students who meet the requirements and are accepted will be able to register for advanced 3D animation courses.

ELIGIBILITY

Students are eligible to apply to the 3D graphics and animation emphasis after completing the following courses with a grade of C (2.0) or better each and a minimum overall animation course GPA of 2.8:

- FINE 1810 - PREDAC: 3D Foundations
- FINE 1820 - PREDAC: Animation Foundations

Please note that FINE 1810 and FINE 1820 are billed at regular tuition rates.

PORTFOLIO APPLICATION REQUIREMENTS

The student's application must be submitted electronically no later than the **last Friday of May**. Detailed instructions are provided during the spring semester in either FINE 1810 or FINE 1820. Students can also contact the Director of the Digital Animation Center (Associate Professor Dane Webster at dane.webster@ucdenver.edu) if they have additional questions. Selection for entrance into the 3D graphics and animation emphasis is a competitive process (by faculty review) that requires:

- Submission by the candidate of a "Portfolio Demo Reel". The reel must include original works from FINE 1810 3D Foundations and FINE 1820 Animation Foundations as well as representative works created in other visual arts courses completed during the first year of the program. The Portfolio Demo Reel must be turned in as a .mov (Quicktime, H.264, 1280x720 minimum frame size, 16:9 aspect ratio). Still work should be a component of the reel and should be on screen for at least 3 seconds but no more than 10 seconds. Name and contact information should appear at the beginning and end of the reel. The reel should not be greater in length than 1.5 minutes.
- A "breakdown sheet": the run time at which the work occurs, and which describes what work is included on the submission reel, and, if collaborative in nature, what aspect of the work shown was created by the applicant. Turn in a PDF file only please.
- A one page double-spaced written statement regarding the applicant's aspirations as a productive and contributing member of the 3D graphics and animation cohort and the CG community as a whole. Turn in a PDF file only please.

Students should show only their best work and show the very best work first. Students should be selective since reels may only be 3.5 minutes long. Music is not recommended for professional reels, but if music is used, students should choose wisely.

For more portfolio information, please see the College of Arts & Media 3D graphics and animation website and the Digital Animation Center website, or contact the College of Arts & Media at CAM@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Pre-Portfolio courses:

- FINE 1810 - PREDAC: 3D Foundations
- FINE 1820 - PREDAC: Animation Foundations

Take **all** of the following 3D Graphics and Animation Emphasis courses (available only to students accepted to emphasis via portfolio review):

- DACD 2810 - DAC: Surface Modeling
- DACD 2820 - DAC: Texturing and Shading
- DACD 2830 - DAC: Lighting and Rendering
- DACD 2850 - DAC: Character Creation
- DACD 3810 - DAC: Environment Production
- DACD 3820 - Character Rigging & Animation
- DACD 3846 - DAC: Preproduction for LookDev
- DACD 3850 - DAC: Dynamic Simulation

- **Either** DACD 3830 - Advanced Character Animation **or**

- DACD 3831 - Character FX
- DACD 4810 - DAC: Production I
- DACD 4820 - DAC: Production II

Take **all** of the following courses:

- ENGL 2250 - Introduction to Film or FINE 1002 - International Perspectives through Animation
- FINE 1100 - Drawing I
- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2155 - Introduction to Digital Photography
- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II
- FINE 4990 - Contemporary Art: 1960 to Present

Take three semester hours of Pre-20th Century Art History elective.

Take **twelve** semester hours of Visual Arts electives. These may include studio, lecture, internship or art history courses. At least **one** of these Visual Arts courses must be chosen from the following list:

- FINE 2822 - DAC: Digital Cinematography
- FINE 3814 - Digital 3D Methods: Motion Graphics for Animators
- FINE 3815 - Storyboarding for Cinema and Game Previsualization
- FINE 3845 - DAC: Preproduction for Story
- FINE 4825 - Architectural Visualization

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

ACCOUNTING MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

Accounting courses are offered in several fields of professional accountancy at the intermediate, advanced and graduate levels. They provide preparation for practice in one or more of the following fields:

- Public Accounting: auditing, consulting, and tax compliance and planning
- Accounting in Industry: all industries, including energy, financial, manufacturing, retail
- Accounting in Government and Nonprofits
- Academics: teaching and research in accounting areas of financial reporting, managerial accounting, auditing, accounting information systems, and taxation

In all of these fields a thorough knowledge of the social, legal, economic and political environment is needed. A high degree of analytical ability and communication skill is indispensable.

Courses in English composition, speech, ethics and logic are desirable. Courses in statistics and information systems, beyond the required business core courses, are highly recommended.

Program Delivery

- This is an on-campus program.
- Full online program also available starting Fall 2020.

Declaring This Major

- Click [here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. A grade of C or higher must be earned in all courses that are used as prerequisites. These are noted with an asterisk.

Take **all** of the following required courses:

- ACCT 3220 - Intermediate Financial Accounting I *
- ACCT 3230 - Intermediate Financial Accounting II
- ACCT 3320 - Intermediate Cost Accounting
- ACCT 4054 - Accounting Information Systems *
- (Replaces ISMG 3000 in Business Core)
- ACCT 4410 - Fundamentals of Federal Income Tax
- ACCT 4620 - Auditing Theory

Take **one** of the following courses:

- ACCT 4240 - Advanced Financial Accounting
- ACCT 4370 - International Accounting
- ACCT 4420 - Taxation of Business Entities
- ACCT 4520 - Oil and Gas Accounting
- ACCT 4800 - Accounting for Government and Nonprofit Organizations
- Or any other 4000-level ACCT course

Notes

- Students should note that all finance, risk and accounting courses are not offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.
- Students also have the option to complete an Accounting major with a specialization in Information Systems. [Click here to view this option.](#)
- Students also have the opportunity to continue their education with an MS in Accounting. The Accounting 4+1 program allows students to potentially complete the BS and MS degrees in as little as five years through substituting two graduate courses for two undergraduate courses. The graduate courses count towards both the BS and MS degrees.
- If you are considering this 4+1 program, contact your advisor immediately so that you can appropriately plan your coursework. Email: undergrad.advising@ucdenver.edu
- If you are considering pursuing a CPA, talk to the accounting department about the best courses to take. Email: accounting.cpa@ucdenver.edu

ACCOUNTING MAJOR - BS IN BUSINESS ADMINISTRATION WITH SPECIALIZATION IN INFORMATION SYSTEMS

Introduction

Please click [here](#) to see Business School information.

Accounting courses are offered in several fields of professional accountancy at the intermediate, advanced and graduate levels. They provide preparation for practice in one or more of the following fields:

- Public Accounting: auditing, consulting, and tax compliance and planning
- Accounting in Industry: all industries, including energy, financial, manufacturing, retail
- Accounting in Government and Nonprofits
- Academics: teaching and research in accounting areas of financial reporting, managerial accounting, auditing, accounting information systems, and taxation

In all of these fields a thorough knowledge of the social, legal, economic and political environment is needed. A high degree of analytical ability and communication skill is indispensable.

Courses in English composition, speech, ethics and logic are desirable. Courses in statistics and information systems, beyond the required business core courses, are highly recommended.

Within the Accounting curriculum, students can specialize in Information Systems to compliment their individual interest.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Choose **two** upper division ISMG electives

Notes

- Students should note that all finance, risk, and accounting courses are not offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the major or specialization.
- Students also have the opportunity to continue their education with an MS in Accounting. The Accounting 4+1 program allows students to potentially complete the BS and MS degrees in as little as five years through substituting two graduate courses for two undergraduate courses. The graduate courses count towards both the BS and MS degrees.
- If you are considering this 4+1 program, contact your advisor immediately so that you can appropriately plan your coursework. Email: undergrad.advising@ucdenver.edu

- If you are pursuing a CPA, talk to the accounting department about the best courses to take. Email: accounting.cpa@ucdenver.edu

ANTHROPOLOGY BA

Introduction

Please [click here](#) to see Anthropology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 40 ANTH credit hours.
2. Students must complete a minimum of 24 upper division (3000-level and above) ANTH credit hours. Most upper division courses have lower division prerequisites.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded

attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

4. Students must complete a minimum of 21 ANTH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Anthropology majors are advised to take MATH 2830 for their CU Denver Core Curriculum Mathematics requirement.

Take **all** of the following required courses:

- ANTH 1302 - Introduction to Archaeology
- ANTH 1303 - Introduction to Biological Anthropology
- ANTH 2102 - Culture and the Human Experience

Take **three** of the following courses:

- ANTH 3101 - Foundations of Cultural Anthropology
- ANTH 3121 - Language, Culture, and Communication
- ANTH 3301 - World Prehistory
- ANTH 3512 - Human Evolution

Take **20 elective credit hours** from the Anthropology Department.

ARCHITECTURE BS

Introduction

Please click [here](#) to see Architecture department information.

The College of Architecture and Planning offers a Bachelor of Science in Architecture degree exclusively on the downtown Denver campus. The city of Denver provides a rich environment to explore a diverse historic and cultural world that includes multiple approaches to solving urban and building problems. The degree is a "pre-professional" degree, which can provide graduating students advanced standing and a reduction in course requirements for the accredited Master of Architecture degree. This degree provides an education in the sciences and humanities in design theory of the built world and its practice. Our graduates will have significant grounding in the science of building and the practice of architecture in a rapidly evolving profession. Our educational goal is to engender active and creative making of architecture along with critical thinking skills. Our graduates will have employment options in entry-level architectural practices or related fields of urban design, historic preservation,

design-build, construction, and even urban planning; or the opportunity to enter any accredited graduate program in the country.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Architecture and Planning Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must earn at least a C- grade in required architecture and math courses. Architecture and math courses must be repeated if the student earns less than a C- grade.

Take **all** of the following required Design Studies courses:

- ARCH 2110 - Design Studio I
- ARCH 3110 - Design Studio II
- ARCH 3120 - Design Studio III
- ARCH 4110 - Design Studio IV
- ARCH 4120 - Design Studio V

Take **all** of the following Cultural Studies courses:

- ARCH 1110 - Introduction to Architecture
- ARCH 2230 - Architectural History I
- ARCH 3230 - Architectural History II

Take **all** of the following Technical Studies courses:

- ARCH 3130 - Construction Practices: Material and Structural Systems
- ARCH 3430 - Construction Practices: Building Envelope
- ARCH 3330 - Building Systems I
- ARCH 4440 - Building Systems II
- ARCH 3340 - Theory of Structures I
- ARCH 4340 - Theory of Structures II

Take **one** of the following Math courses/sets:

- MATH 1110 - College Algebra **and**
- MATH 1120 - College Trigonometry

OR

- MATH 1108 - Stretch College Algebra-Part 1 **and**
- MATH 1109 - Stretch College Algebra-Part 2 **and**
- MATH 1120 - College Trigonometry

OR one of the following:

- MATH 1130 - Precalculus Mathematics
- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III

Note: also applies to the Core Math requirement

Take **both** of the following Physics courses:

- PHYS 2010 - College Physics I
- PHYS 2321 - General Physics Lab I

Note: also applies to the Core Biological and Physical Sciences requirement

Take **eighteen** hours of Architecture electives.

Additional General elective hours may be needed to reach the required 120 hours for the BS Architecture degree.

Note: Required math and physics courses may apply toward General electives if not already applied toward Core Math and Biological and Physical Sciences requirements.

ART HISTORY EMPHASIS, FINE ARTS BA

Introduction

Please click [here](#) to see general Visual Arts information.

The art history emphasis familiarizes students with a range of developments in the history of art while developing skills in critical thinking, writing, research and the study of visual culture. After a two-semester introduction to the foundations of art and architectural history, students choose from an array of advanced courses on specific topics. This curriculum concludes with capstone seminars on the methods of art historical scholarship as well as a thesis project.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or

lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 21 semester hours of all visual arts credits (at any level) must be taken at CU Denver.
4. At least 18 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Studio Arts courses:

- FINE ____ 2-dimensional Studio Arts course (3 semester hours)
- FINE ____ 3-dimensional Studio Arts course (3 semester hours)
- FINE ____ Studio Arts Elective (3 semester hours)

Take **one** of the following English courses:

- ENGL 2070 - Grammar, Rhetoric and Style
- ENGL 3084 - Multimedia Composition
- ENGL 4180 - Argumentation and Logic
- ENGL 4280 - Proposal and Grant Writing

Take **all** of the following Art History courses (entry level):

- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II

Take a minimum of **three** semester hours of Pre-20th Century Art History elective.

Take an additional **eighteen** semester hours of upper-division (3000/4000-level) Art History electives (six courses).

Take **all** of the following Art History Capstone courses:

- FINE 4790 - Methods in Art History
- FINE 4951 - Bachelor of Art Thesis

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved studio arts courses and art history electives, as well as more information about this emphasis.

ART PRACTICES EMPHASIS, FINE ARTS BFA

Introduction

Please click [here](#) to see general Visual Arts information.

The Art Practices emphasis provides students with a comprehensive education in visual art practices, which includes creative influences, ideas, materials, tools and skills, as well as theory and art history, with an emphasis on current trends in contemporary art. Art Practices is designed for students whose creative ideas move across media and who are looking for a more comprehensive critical approach to developing their art practice. Art Practices provides students with focused professional skills in two self-selected areas of studio art, whereby the student can develop a fully formed and thoughtful body of work with conceptual impact.

The emphasis is a focused degree program that provides students with greater knowledge and tools to make them competitive in the professional world of contemporary art. The work of contemporary artists is a dynamic combination of materials, methods, concepts, and subjects that challenge traditional assumptions and definitions. Contemporary artists give voice to the varied and changing landscapes of identity, values, and beliefs in the increasingly global culture of our diverse and technologically advancing world. Artists today explore ideas, concepts, questions, and practices that examine the past, describe the present, and imagine the future. This program is designed to address the needs of students looking to become successful emerging artists with the skills to become active individuals in the art world through multiple outlets through exhibitions and sales, arts education, curation, critical art writing, art therapy, fabrication, public art, entrepreneurship, art consulting, costume and set design, fashion/accessory and textile design, performance art, portraiture, various facets of business employment and much more!

Students may choose from two areas for their primary concentration: Painting and Drawing OR Transmedia Sculpture. They then select a secondary concentration--different from their primary concentration from the following: Painting and Drawing, Illustration, Transmedia Sculpture or Photography. Students take 21 semester hours in their primary concentration and 15 semester hours in their secondary concentration.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum letter grade is required for each course in the major for the course to satisfy the degree requirement. All grades apply to the major and are averaged to generate the major-specific GPA.
 - A minimum grade of C (2.0) is required to satisfy degree requirements for any major course taken at CU Denver.
 - A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement, but is calculated in the major GPA.
 - A grade of P is acceptable for courses in which the only grade available is Pass or Fail
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Arts Foundation courses:

- FINE 1100 - Drawing I
- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2155 - Introduction to Digital Photography
- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II

Note: Students should choose a main and secondary concentration before continuing with upper-division (3000/4000-level) studio courses. Any 1000/2000-level course may be taken prior to making concentration selections.

Take **all** of the Main Studio Concentration courses from ONE of the following categories (Transmedia Sculpture OR Painting and Drawing):

Transmedia Sculpture

- FINE 2500 - Bronze Casting
- FINE 2510 - Wood and Metal Sculpture
- FINE 3510 - Mold Design & Casting
- FINE 3555 - Concepts in Sculpture
- FINE 4505 - Sculptural Drawing
- FINE 4215 - Interdisciplinary Studio
- FINE 4515 - Advanced Art Practices

Painting and Drawing

- FINE 2030 - Life Drawing
- FINE 2200 - Painting I
- FINE 3030 - The Media of Drawing
- FINE 3200 - Intermediate Painting and Drawing
- FINE 3556 - Concepts in Painting and Drawing
- FINE 4215 - Interdisciplinary Studio
- FINE 4515 - Advanced Art Practices

Secondary Studio Concentrations

Take **all** of the Secondary Studio Concentration courses from ONE of the following categories (Transmedia Sculpture or Painting and Drawing or Illustration or Photography). Note that the Secondary Concentration must be different from the Main Concentration.

Note: Students wishing to select Illustration as a secondary concentration area must participate in the Illustration portfolio Day. For more information, please [click here](#).

Transmedia Sculpture

- FINE 2500 - Bronze Casting
- FINE 2510 - Wood and Metal Sculpture
- FINE 3510 - Mold Design & Casting
- FINE 3555 - Concepts in Sculpture
- FINE 4505 - Sculptural Drawing

Painting and Drawing

- FINE 2030 - Life Drawing
- FINE 2200 - Painting I
- FINE 3030 - The Media of Drawing
- FINE 3200 - Intermediate Painting and Drawing
- FINE 3556 - Concepts in Painting and Drawing

Illustration

- FINE 2405 - Introduction to Digital Design
- FINE 3010 - Illustration I: Image Making
- FINE 3014 - The Graphic Novel Workshop
- FINE 3300 - Painting, Drawing and the Printed Image
- FINE 3410 - Illustration II: Digital Media

Photography

- FINE 1150 - Introduction to Darkroom Photography
- FINE 3161 - The Silver Fine Print
- FINE 3162 - The Digital Fine Print
- FINE 3171 - Concepts and Processes in Photography
- FINE 4195 - Advanced Photography I

Take **all** of the following Visual Arts courses:

- FINE 3405 - Introduction to Digital Video
- FINE 3500 - Installation Art
- FINE 4990 - Contemporary Art: 1960 to Present

Take **three semester hours** of Pre-20th Century Art History elective.

Take **three semester hours** of upper-division Art History elective.

Take **nine semester hours** of Visual Arts electives. These may include studio, lecture, internship or art history courses.

Note that the FINE 3556 Concepts in Painting and Drawing course and the FINE 3555 Concepts in Sculpture course encompass rotating course topics and can be take up to four times each, with a different topic. These topics are as follows: Concepts in Painting and Drawing-Abstraction, Narrative and Pop Culture, Figuration, and Spatial

Approaches; Concepts in Sculpture-Modeling for Manufacture, Social Engagements, Iron Casting, Public and Environmental Art.

Take the following Capstone course:

- FINE 4950 - Studio BFA Thesis

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

BIOCHEMISTRY BS

Introduction

Please click [here](#) to see Chemistry department information.

Biochemistry is the chemistry of life - the molecules, reactions, and energy transformations that underlie structure and function in all living organisms. The study of biochemistry combines knowledge from chemistry, biology, physics, and mathematics (and sometimes other disciplines) to understand how life works at the molecular level. This integrated scientific knowledge will be essential for understanding the future of human health, sustainable energy, and the environment.

The BS Biochemistry program at CU Denver strongly emphasizes connections between basic science and human health. Required coursework covers much of the foundational knowledge and skills for graduate and health professions entrance exams. Several courses explore connections between cutting-edge biochemical research and different diseases. Students are encouraged to take advantage of undergraduate research opportunities in biochemistry and related fields either at CU-Denver or on the nearby Anschutz Medical campus. Graduates learn skills in critical thinking, problem solving, and scientific communication for careers in the health and natural sciences.

A BS in Biochemistry stands out as a premiere accomplishment in applications for professional degree programs, including pharmacy, medicine, nursing, dentistry, medical technology, and many others.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Qualified majors are strongly urged to participate in directed research and departmental honors programs. We also strongly encourage Biochemistry majors to participate in the Chemistry department by serving as learning assistants or teaching assistants.

The chemistry department offers two options for a chemistry degree. A BS Chemistry and a BS Biochemistry. Students may also double major in Biochemistry and Chemistry. Students interested in the Biochemistry major should consult regularly with the Biochemistry Majors Advisor, Dr. Vanessa Fishback.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 80 credit hours, including a minimum of 45 CHEM credit hours and a minimum of 35 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 14 credits hours with CU Denver faculty including CHEM 4518 or CHEM 4538 or CHEM 4548.

Program Restrictions, Allowances and Recommendations

1. A student who has declared a Biochemistry major at CU Denver may not take additional chemistry courses outside of the department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate Biochemistry advisor. No more than 3 additional hours of such pre-approved transfer credits will be allowed.
2. All courses applied to the Biochemistry major need to be taken within ten years of the graduation date.
3. Intro Experimental Physics labs I and II (PHYS 2321 and PHYS 2341) are specifically designed for students in non-Physics majors and can be paired with either College Physics (PHYS 2010 and PHYS 2020) or General Physics (PHYS 2311 and PHYS 2331) lectures. Students pursuing a second major in Physics should complete General Physics lectures (PHYS 2311 and PHYS 2331) and Applied Physics Labs (PHYS 2351 and PHYS 2361).

Take **all** of the following required courses:

- CHEM 2031 - General Chemistry I **or**
- CHEM 2081 - Honors General Chemistry I

- CHEM 2038 - General Chemistry Laboratory I **or**
- CHEM 2088 - Honors General Chemistry I Laboratory

- CHEM 2061 - General Chemistry II **or**
- CHEM 2091 - Honors General Chemistry II Lecture

- CHEM 2068 - General Chemistry Laboratory II **or**
- CHEM 2098 - Honors General Chemistry II Laboratory

- CHEM 3411 - Organic Chemistry I **or**
- CHEM 3481 - Honors Organic Chemistry I

- CHEM 3418 - Organic Chemistry Lab I **or**
- CHEM 3488 - Honors Organic Chemistry Laboratory I

- CHEM 3421 - Organic Chemistry II **or**
- CHEM 3491 - Honors Organic Chemistry II

- CHEM 3498 - Honors Organic Chemistry Laboratory II
- CHEM 4810 - General Biochemistry I **or**
- CHEM 5810 - Graduate Biochemistry I
- CHEM 4828 - Biochemistry Lab
- CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy **or**
- CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics
- CHEM 4548 - Physical Biochemistry Laboratory **or**
- CHEM 4538 - Physical Chemistry Laboratory: Molecular Structure **or**
- CHEM 4518 - Physical Chemistry Laboratory: Reaction Analysis

Take **three** of the following advanced biochemistry electives:

- BIOL 4125 - Molecular Biology Laboratory
- CHEM 4815 - Structural Biology of Neurodegenerative Diseases
- CHEM 4820 - General Biochemistry II
- CHEM 4825 - Biochemistry of Metabolic Disease
- CHEM 4835 - Biochemistry of Gene Regulation and Cancer
- CHEM 4845 - Molecular Modeling and Drug Design
- CHEM 4880 - Directed Research (For faculty-mentored research projects related to biochemistry. Major credit for this course requires prior approval from the Biochemistry majors advisor and the research mentor. Major credits do not count toward departmental Honors requirements.)
- CHEM 4600/ CHEM 5600 - Graduate Topics in Chemistry (certain topics, with permission from the Biochemistry Advisor)
- CHEM 5830 - Graduate Biochemistry II

Take **two** molecular science electives not previously selected as a required course or advanced biochemistry elective course:

- CHEM 4121 - Instrumental Analysis
- CHEM 4421/ CHEM 5421 - Cannabis Chemistry
- CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics
- CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy

- CHEM 4700 - Environmental Chemistry
- CHEM 4880 - Directed Research
- BIOL 3124 - Introduction to Molecular Biology
- BIOL 3225 - Human Physiology
- BIOL 3611 - General Cell Biology
- BIOL 3654 - General Microbiology
- BIOL 3763 - Biostatistics
- BIOL 3804 - Developmental Biology
- BIOL 3832 - General Genetics
- BIOL 4024 - Introduction to Biotechnology
- BIOL 4064 - Cell Biology of Disease
- BIOL 4165 - Neurobiology
- BIOL 4550 - Cell Signaling
- MATH 3511 - Mathematics of Chemistry
- PHYS 3452 - Biophysics of the Cell NM
- PSYC 3832 - Neural Basis of Learning

Take **all** of the following Ancillary courses:

- BIOL 2051 - General Biology I **or**
- BIOL 2095 - Honors General Biology I

- BIOL 2071 - General Biology Laboratory I **or**
- BIOL 2096 - Honors General Biology Lab I

- BIOL 2061 - General Biology II **or**
- BIOL 2097 - Honors General Biology II

- BIOL 2081 - General Biology Laboratory II **or**
- BIOL 2098 - Honors General Biology Lab II

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II

Take **one** of the following sequences, referring to note 3 under Program Restrictions, Allowances and Recommendations for alternative Physics lab information:

Sequence A

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - Intro Experimental Phys Lab II
- MATH 3511 - Mathematics of Chemistry **or**
- CHEM 4500 - Foundations of Physical Chemistry

-OR-

Sequence B

- PHYS 2010 - College Physics I
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II
- CHEM 4500 - Foundations of Physical Chemistry

BIOENGINEERING BS

Introduction

Please click [here](#) to see Bioengineering department information.

The undergraduate program at CU Denver is a highly rigorous program instilling competencies in biomedical science, engineering, and mathematics and biomedical design, while emphasizing the professional competencies of leadership, communication, presentation and critical problem solving. Our mission is to improve human health through the application of engineering principles, ideas, methods and inventions to solve important clinical problems. Bioengineering is a highly interdisciplinary field that brings together: (1) biological, chemical and physical sciences; (2) engineering and mathematics; and (3) clinical medicine. The undergraduate bioengineering program provides training at both the Denver campus and the Anschutz Medical Campus.

Graduates of the undergraduate program in bioengineering are expected to attain at least one of the following objectives within a few years after graduation:

1. Be employed as a professional in the biomedical engineering field or related industry using knowledge and skills obtained in the program.

2. Be progressing toward an advanced degree in: a) health sciences or medical school; b) graduate school; c) business or law school, or other advanced professional programs.

Program Educational Objectives (PEOs) can be found on the department's website.

Program Delivery

- This is an on-campus program.
- Upper-division major courses will be taught at the Anschutz Medical Campus.

Declaring This Major

- Click here to go to information about declaring a major.
- Students can be admitted to the bioengineering major by meeting the incoming freshmen, transfer and Intra-University Transfer (IUT) Admissions guidelines.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- Click here for information about Academic Policies

Program Requirements

The bioengineering major requirements include three different types of courses: pre-major courses, upper-division bioengineering courses and track electives.

Downtown Courses; Students must complete all 58 credits of math, biology, chemistry, physics and lower-division bioengineering requirements with a C- or higher prior to transitioning to the Anschutz Medical Campus. Credit for some of these courses may be achieved through high school Advanced Placement (AP) course work and exams, International Baccalaureate (IB) coursework and exams, as well as transfer credit.

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III

- MATH 3195 - Linear Algebra and Differential Equations

Take **all** of the following Biology courses:

- BIOL 2051 - General Biology I
- BIOL 2071 - General Biology Laboratory I
- BIOL 2061 - General Biology II
- BIOL 2081 - General Biology Laboratory II

Take **all** of the following Chemistry courses:

- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II
- CHEM 3411 - Organic Chemistry I
- CHEM 3418 - Organic Chemistry Lab I

Take **all** of the following Physics courses:

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II

Take **all** of the following courses:

- ENGR 1200 - Fundamentals of Engineering Design Innovation
- BIOE 1020 - Bioengineering Design and Prototyping II
- BIOE 2010 - Introduction to Programming for Bioengineers
- BIOE 2020 - Introduction to Computational Methods for Bioengineers

Upper-division Bioengineering Courses

All students admitted into the Bioengineering major must take the following upper-division major bioengineering courses. Upper-division major classes will be taught at the Anschutz Medical Campus. These classes build upon the downtown coursework and provide the next level of instruction in bioengineering. Student can enroll in these courses once they have completed the downtown courses with a C- or higher and are in good academic standing.

- BIOE 3010 - Bioinstrumentation
- BIOE 3020 - Introduction to Biomechanical Analysis
- BIOE 3030 - Introduction to Biomaterials
- BIOE 3040 - Physiology for Bioengineering
- BIOE 3050 - Cell & Molecular Bioengineering
- BIOE 3051 - Cell & Molecular Bioengineering Lab
- BIOE 3060 - Biostatistics, Measurement and Analysis
- BIOE 3070 - Bioengineering Lab I
- BIOE 3071 - Bioengineering Lab II
- BIOE 3090 - Introduction to BioDesign
- BIOE 4035 - Undergraduate BioDesign II
- BIOE 4045 - BioDesign III

Bioengineering Technical Electives Guidelines

Bioengineering students are required to take 12 credit hours of technical electives to complete their undergraduate degree. Technical electives are upper-division (3000 or 4000-level) or graduate (5000+) bioengineering courses taken after matriculation to the pre-bioengineering major. Students are responsible for meeting all prerequisites for technical electives.

Students may select any combination of approved BIOE courses for technical electives or by petition, which requires approval through an online form. Petitions are required for selecting a BIOE course not currently approved or to take more than three credit hours of nonbioengineering courses.

Option I - Approved Technical Electives

Students may select any combination of approved Bioengineering (BIOE) courses and up to three credit hours of non-bioengineering courses.

BIOE 4XXX-5XXX

BIOE 4XXX-5XXX

BIOE 4XXX-5XXX

BIOE 4XXX-5XXX or approved non BIOE 4XXX-5XXX

BS/MS students are required to take BIOE 5010 and BIOE 5020 as 6 of the 12 credits that apply as Technical Electives and MS coursework.

BIOE 5010

BIOE 5020

BIOE 4XXX-5XXX**BIOE 4XXX-5XXX** or approved non-BIOE 4XXX-5XXX**Option II - Petition Courses**

Students may petition to have up to 6 credit hours of non-bioengineering courses (upperdivision) for technical electives. (CHEM, MATH, BIOL, MECH, ELEC).

BIOE 4XXX-5XXX**BIOE 4XXX-5XXX****Non-BIOE 4XXX-5XXX****Non-BIOE 4XXX-5XXX (must petition a second non-BIOE course)**

Students may also petition to have a non-bioengineering course added to the approved list by submitting a current syllabus as part of the petition process.

Approved Bioengineering Technical Electives

BIOE 4053/5053: Optics and Microscopy in Biomedical Research (Spring)

BIOE 4063/5063: 3D Modeling for Bioengineers (Fall)

BIOE 4064/5064: Advanced Matlab for Bioengineers and Life Scientists (Fall)

BIOE 4065/5065: Introduction to iOS Applications (Fall)

BIOE 4066/5066: Advanced Topics in iOS Applications (Spring)

BIOE 4068/5068: Introduction to Medical Imaging

BIOE 4069/5069: Advanced BioMechanics (Fall)

BIOE 4069/5069: Advanced Biomechanics for Undergraduates/graduates (Fall)

BIOE 4073/5073: Neural Interfaces and Bionic Limbs

BIOE 4083/5083: Polymers Biomedical Applications (Spring)

Special Topics

BIOE 4420/5420: Regulatory Affairs (Fall)

BIOE 4420/5420: Intro to Design, Disability and Aging (Spring)

BIOE 4420/5420: Rehabilitation and Assistive Technology (Fall)

BIOE 4420/5420: Medical Device Life Cycle (Spring)

BIOE 4420/5420: Bioengineering Design Hack for Global Health (Winterim)

*Special Topics offerings can change each semester. Review Course offerings on UCD Access for current offerings. All BIOE 4420/5420 courses can apply towards Technical Electives.

Internship/Independent Study/Research

BIOE 3939: Undergraduate Internship

BIOE 4849: Independent Study*

BIOE 4929: Undergraduate Research Project*

* Student can utilize no more than 3 credits hours of combined research and independent study towards technical electives.

Graduate

BIOE 5010 Cell & Molecular Biology for Bioengineers**(Fall)

BIOE 5011: Systems Physiology for Bioengineers (Spring)

BIOE 5020: Analytic Methods for Engineering Analysis** (Fall)

BIOE 5021: Numerical Methods of Engineering Analysis (Spring)

BIOE 5420: Stem Cell and Regenerative Medicine (Fall)

BIOE 5420: Graduate Biodesign (Fall)

**Required for BS/MS students (5010/5020)

Approved Non-Bioengineering Technical Electives

BIOL 3832: General Genetics

BIOL 3244: Human Anatomy

BIOL 3611: General Cell Biology

BIOL 3763: Biostatistics

BIOL 4644: Advanced Human Anatomy lab

BIOL 5024: Introduction to Biotechnology

CHEM 3810: Biochemistry

CHEM 3421: Organic Chemistry II

CHEM 4810: General Biochemistry I

CSCI 3412: Algorithms

CSCI 4287: Embedded Systems Programming

ELEC 3030: Electrical Circuits and Systems

MATH 4650: Numerical Analysis I

MECH 4020: Biomechanics

MECH 4025: Advanced Biomechanics

MECH 4175: Finite Element Analysis in Machine Design

BIOLOGY BS

Introduction

Please click [here](#) to see Integrative Biology department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. Students must complete a total of 67-69 credit hours, including a minimum of 36 BIOL credit hours and 31-33 credit hours in ancillary coursework.
2. Students must complete a minimum of 18 upper division (3000- level and above) BIOL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 upper division (3000-level and above) BIOL credit hours with CU Denver faculty and at least 3 credits must be at 4000-level.

Program Restrictions, Allowances and Recommendations

1. All upper division biology courses applied to the undergraduate biology major must be completed within 10 years of graduation.
2. Biology majors are advised to complete either ENGL 3154 - Technical Writing or ENGL 4175 - Writing in the Sciences to fulfill the CLAS Communicative Skills requirement.
3. Intro Experimental Physics labs I and II (PHYS 2321 and PHYS 2341) are specifically designed for students in non-Physics majors and can be paired with either College Physics (PHYS 2010 and PHYS 2020) or General Physics (PHYS 2311 and PHYS 2331) lectures. Students pursuing a second major in Physics should complete General Physics lectures (PHYS 2311 and PHYS 2331) and Applied Physics Labs (PHYS 2351 and PHYS 2361).

Take **all** of the following Biology core courses:

- BIOL 2051 - General Biology I **or**
- BIOL 2095 - Honors General Biology I

- BIOL 2071 - General Biology Laboratory I **or**
- BIOL 2096 - Honors General Biology Lab I

- BIOL 2061 - General Biology II **or**
- BIOL 2097 - Honors General Biology II

- BIOL 2081 - General Biology Laboratory II **or**
- BIOL 2098 - Honors General Biology Lab II

- BIOL 3411 - Principles of Ecology
- BIOL 3611 - General Cell Biology
- BIOL 3832 - General Genetics
- BIOL 3445 - Introduction to Evolution

Take an additional **16** semester hours of upper-division biology, including:

- At least **one** upper division biology lab course from the following list - BIOL 3020 will not satisfy this requirement.
- BIOL 3137 , BIOL 3225, BIOL 3244, BIOL 3413, BIOL 3612, BIOL 3654, BIOL 3763, BIOL 4125, BIOL 4335, BIOL 4345, BIOL 4640, BIOL 4644, BIOL 4910

- At least **one** 3 credit hour 4000+ biology lecture course - taken in residence from CU Denver Biology faculty (BIOL 4125, BIOL 4840, BIOL 4880 and BIOL 4990 do not satisfy this requirement, but can apply as biology electives).

Note: Biochemistry (CHEM 3810 or CHEM 4820) may be counted as biology elective hours.

Note: A maximum total of six credit hours of Individually Structured courses, including Independent Study (BIOL 3840/4840), Directed Research (BIOL 4880) and Internship (BIOL 3939), may be counted toward the upper-division biology electives.

Take **all** of the following Ancillary Core courses:

- CHEM 2031 - General Chemistry I **or**
- CHEM 2081 - Honors General Chemistry I

- CHEM 2038 - General Chemistry Laboratory I **or**
- CHEM 2088 - Honors General Chemistry I Laboratory

- CHEM 2061 - General Chemistry II **or**
- CHEM 2091 - Honors General Chemistry II Lecture

- CHEM 2068 - General Chemistry Laboratory II **or**
- CHEM 2098 - Honors General Chemistry II Laboratory

- CHEM 3411 - Organic Chemistry I **or**
- CHEM 3481 - Honors Organic Chemistry I

Take **one** of the following sequences, referring to note 3 under Program Restrictions, Allowances and Recommendations for alternative Physics lab information:

Sequence A

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - Intro Experimental Phys Lab II

Or Sequence B

- PHYS 2010 - College Physics I

- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II

Take **one** of the following Ancillary Math courses or sets:

OPTION ONE

- MATH 1401 - Calculus I

OPTION TWO

- BIOL 3763 - Biostatistics **or**
- MATH 4830 - Applied Statistics **and**

- MATH 1108 - Stretch College Algebra-Part 1
and
- MATH 1109 - Stretch College Algebra-Part 2
or
- MATH 1080 - Calculus for Social Sciences and Business
or
- MATH 1110 - College Algebra **or**
- MATH 1120 - College Trigonometry **or**
- MATH 1130 - Precalculus Mathematics

CHEMISTRY BS

Introduction

Please click [here](#) to see Chemistry Department information.

A Chemistry degree can prepare you for a meaningful career in:

- Developing renewable energy solutions for climate change
- Ensuring safe and pure air and drinking water
- Discovering materials for new devices using nanotechnology
- Analyzing medical samples to detect rare and dangerous diseases
- Contributing to Colorado's and America's mining and petroleum industries
- Contributing to Colorado's emerging natural products and pharmaceuticals industries.

A BS in Chemistry also stands out as a premiere accomplishment in applications for professional degree programs, including pharmacy, medicine, nursing, dentistry, medical technology, and many others. Previous BS Chemistry graduates from CU-Denver have gone on to medical, dental, and pharmacy schools; to Ph.D. programs in chemistry and biomedical sciences; and to productive careers in the biotech, pharmaceutical, and medical technology industries.

The Chemistry Department offers two options for a chemistry degree: a BS Chemistry or a BS Chemistry ACS Certified. Students interested in the chemistry major should consult regularly with the chemistry major advisor, Dr. Marta K. Maroń (marta.maron@ucdenver.edu). The Advisor can help you select the track that best fits your future goals. A complete description of the chemistry major programs may be obtained in the Department of Chemistry office (Science 3071) or Department website.

Qualified majors are strongly urged to participate in directed research with a research faculty member and in the departmental honors program. We also strongly encourage chemistry majors to participate in the Department by serving as graders, learning assistants, and/or teaching assistants. Contact the chemistry major advisor for more information and/or questions.

American Chemical Society (ACS) Certified Degree.

The ACS Certified degree requires a more thorough background than the minimum requirements for a Chemistry BS degree. Students planning on going into industry upon completing their Bachelor of Science are at an advantage completing the ACS Certified degree option.

- The ACS certified degree is open to all Chemistry majors regardless of future plans.
- Chemistry and Biochemistry double majors earn an ACS Certified degree in Chemistry automatically. For more information see the major advisor.
- See the ACS certified degree program page for additional coursework.

These Degree requirements are subject to periodic revision by the Academic Department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 67 credit hours, including a minimum of 45 CHEM credit hours and a minimum of 22 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division level (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 14 CHEM credit hours with CU Denver faculty, including CHEM 4128, 4518 or 4538.

Program Restrictions, Allowances and Recommendations

1. A student who has declared a Chemistry major at CU Denver may not take additional chemistry courses outside of the Department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate Chemistry/Biochemistry advisor. No more than 3 additional hours of such pre-approved transfer credits will be allowed.
2. All courses applied to the Chemistry major need to be taken within ten years of the graduation date.
3. Intro Experimental Physics labs I and II (PHYS 2321 and PHYS 2341) are specifically designed for students in non-Physics majors and can be paired with either College Physics (PHYS 2010 and PHYS 2020) or General Physics (PHYS 2311 and PHYS 2331) lectures. Students pursuing a second major in Physics should complete General Physics lectures (PHYS 2311 and PHYS 2331) and Applied Physics Labs (PHYS 2351 and PHYS 2361).

Take **all** of the following required courses:

- CHEM 2031 - General Chemistry I **or**
 - CHEM 2081 - Honors General Chemistry I
-
- CHEM 2038 - General Chemistry Laboratory I **or**
 - CHEM 2088 - Honors General Chemistry I Laboratory
-
- CHEM 2061 - General Chemistry II **or**
 - CHEM 2091 - Honors General Chemistry II Lecture
-
- CHEM 2068 - General Chemistry Laboratory II **or**
 - CHEM 2098 - Honors General Chemistry II Laboratory
-
- CHEM 3111 - Analytical Chemistry
 - CHEM 3118 - Analytical Chemistry Laboratory
-
- CHEM 3411 - Organic Chemistry I **or**
 - CHEM 3481 - Honors Organic Chemistry I
-
- CHEM 3418 - Organic Chemistry Lab I **or**
 - CHEM 3488 - Honors Organic Chemistry Laboratory I
-
- CHEM 3421 - Organic Chemistry II **or**
 - CHEM 3491 - Honors Organic Chemistry II
-
- CHEM 3498 - Honors Organic Chemistry Laboratory II
 - CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy
 - CHEM 4538 - Physical Chemistry Laboratory: Molecular Structure
 - CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics
 - CHEM 4518 - Physical Chemistry Laboratory: Reaction Analysis
 - CHEM 3011 - Inorganic Chemistry
 - CHEM 4121 - Instrumental Analysis
 - CHEM 4128 - Instrumental Analysis Laboratory

Take **one** of the following courses:

- CHEM 3018 - Inorganic Chemistry Laboratory
- CHEM 4828 - Biochemistry Laboratory

Note: CHEM 4828 requires additional prerequisites other than the courses listed above.

Take **all** of the following Ancillary courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II

Take **one** of the following sequences, referring to note 3 under Program Restrictions, Allowances and Recommendations for alternative Physics lab information:

Sequence A

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - Intro Experimental Phys Lab II
- MATH 3511 - Mathematics of Chemistry **or**
- MATH 2421 - Calculus III **or**
- CHEM 4500 - Foundations of Physical Chemistry

Or Sequence B

- PHYS 2010 - College Physics I
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II
- CHEM 4500 - Foundations of Physical Chemistry

CHEMISTRY BS, ACS CERTIFIED

Introduction

Please click [here](#) to see Chemistry Department information.

The Chemistry Department offers two options for a chemistry degree: a BS Chemistry or a BS Chemistry ACS Certified. Students interested in the chemistry major should consult regularly with the chemistry major advisor, Dr. Marta K. Maroń (marta.maron@ucdenver.edu). The Advisor can help you select the track that best fits your future goals. A complete description of the chemistry major programs may be obtained in the Department of Chemistry office (Science 3071) or Department website.

Qualified majors are strongly urged to participate in directed research with a research faculty member and in the departmental honors program. We also strongly encourage chemistry majors to participate in the Department by serving as graders, learning assistants, and/or teaching assistants. Contact the chemistry major advisor for more information and/or questions.

Students planning chemistry as a career should be familiar with the recommendations of the American Chemical Society (ACS) for the professional training of chemists. The ACS certification requires students following the BS program of study take foundation courses in the five sub-disciplines of chemistry: analytical chemistry, biochemistry, inorganic chemistry, organic chemistry and physical chemistry. In addition, students take an in-depth (second semester) course in four out of the five sub-disciplines and are required to complete 400 hours of laboratory work post General Chemistry Laboratories. Laboratory work has to encompass four of the five sub-disciplines. General Chemistry I and II with laboratories are considered introductory courses and are prerequisites to foundation courses. No chemistry course with a grade of less than C (2.0) can be applied toward ACS certification. Students should check with the undergraduate chemistry major Advisor for details.

These Degree requirements are subject to periodic revision by the Academic Department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

- CHEM 4500 - Foundations of Physical Chemistry

Or Sequence B

- PHYS 2010 - College Physics I
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II
- CHEM 4500 - Foundations of Physical Chemistry

CIVIL ENGINEERING BS

Introduction

Please click [here](#) to see Civil Engineering department information.

The objectives of the bachelor of science in civil engineering program are to produce graduates who:

- are able to perform the technical analyses and design tasks of entry-level civil engineers
- can successfully work toward professional engineering licensure
- communicate effectively, both orally and in writing
- understand the importance of leadership skills, team building and ethical practice
- value lifelong learning and improvement through graduate degrees or professional study
- appreciate the importance of community involvement and social contribution civil engineers are dedicated to improving our living environment

Civil engineering offers an interesting and challenging career in the design, construction, and maintenance of buildings and urban infrastructure; in transportation systems, including highways, airports, rapid transit lines, railroads, and harbor facilities; in the development of water resources, including reservoirs for storage, canals for irrigation, dams for power generation, stormwater management for drainage, groundwater recharge for contamination prevention, wastewater treatment for environmental protection, and water purification for drinking purposes; in the construction industry; including foundations, bridges, concrete and steel structures, in problems concerned with environmental preservation; and in the sustainable development of cities. In preparing for work in such a broad field, the civil engineering student studies mathematics, basic science, communication, social science and humanities, engineering science and civil engineering design. CU Denver's civil engineering graduates usually find their first professional employment with consulting engineering firms, government agencies and various industries.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CVEN courses attempted.

Take all of the following Civil Engineering courses:

- CEMT 2100 - Construction Management Fundamentals
- CVEN 1025 - Civil Engineering Graphics and Computer Aided Design
- CVEN 1067 - Introduction to Civil Engineering
- CVEN 2121 - Analytical Mechanics I
- CVEN 2214 - Surveying for Engineering or CVEN 2212 Engineering Surveying
- CVEN 3111 - Analytical Mechanics II
- CVEN 3121 - Mechanics of Materials
- CVEN 3141 - Introduction to Structural Materials
- CVEN 3200 - Computational Methods for Civil Engineers
- CVEN 3313 - Fluid Mechanics
- CVEN 3323 - Hydrosystems Engineering
- CVEN 3401 - Introduction to Environmental Engineering
- CVEN 3505 - Structural Analysis
- CVEN 3602 - Transportation Engineering
- CVEN 3718 - Geotechnical Engineering I
- CVEN 4000 - Senior Seminar
- CVEN 4067 - Senior Design Projects
- ENGR 1100 - Fundamentals of Computational Innovation or IWKS 2300 - Computational Foundations of Innovation

Take **four** of the following Design Electives courses:

- CVEN 4427 - Storm Water System Design
- CVEN 4565 - Timber Structure Design
- CVEN 4575 - Structural Steel Design
- CVEN 4585 - Reinforced Concrete Design
- CVEN 4602 - Highway Engineering
- CVEN 4738 - Intermediate Foundation Engineering

Additional design courses as approved by an advisor

- CVEN 4590 - Design of Prestressed Concrete
- CVEN 5540 - Masonry Design
- CVEN 5550 - Highway Bridge Design
- CVEN 5585 - Advanced Topics in Reinforced Concrete
- CVEN 5682 - Pavement Design
- CVEN 4591 - Design of Composite Structures

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3195 - Linear Algebra and Differential Equations
- CVEN 3611 - Engineering Statistics

Take the following Chemistry course:

- ENGR 1130 - Chemistry for Engineers

Take **all** of the following Physics courses:

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based

Take **one** of the following courses:

- CVEN 4025 - Autocad Civil 3d & Advanced Civil Engineering Graphics
- CVEN 4077 - Engineering Economy
- CVEN 4087 - Engineering Contracts

Take **three** elective courses: Any 4000-level or higher CVEN or CEMT courses or any approved 3000-level math, science or engineering courses.

Note: Up to two 5000-level CVEN courses taken at CU Denver for the BSCE can be applied to a CE Masters degree at CU Denver if relevant to the student's Masters degree emphasis as determined by the students Masters degree advisor.

COMMUNICATION BA

Introduction

Please click [here](#) to see Communication department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is offered both on-campus and online.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 COMM credit hours.

2. Students must complete a minimum of 15 upper-division (3000-level and above) COMM credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 COMM credit hours, 15 of which must be upper division, with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Communication majors may complete up to 6 credit hours of internship (COMM 3939).
2. A maximum of 6 credit hours of independent study courses may be applied to the major.
3. No more than 56 Communication credit hours can count toward graduation.
4. Students may transfer in up to 21 COMM credits.
5. In addition to required Communication courses, students are required to take seven elective courses (21 hours), which may consist of classes chosen from any combination of Communication Pathway and Inquiry and Analysis courses.
 - community service and public affairs
 - global and intercultural communication
 - health communication
 - media and cultural studies
 - strategic communication

Take **all** of the following Communication courses:

- COMM 1011 - Fundamentals of Communication
- COMM 1021 - Introduction To Media Studies
- COMM 2020 - Communication, Citizenship, and Social Justice
- COMM 2075 - Researching and Writing in Comm

Take **one** of the following courses:

- COMM 1001 - Presentational Speaking
- COMM 2050 - Business and Professional Speaking

Take **seven** Communication (COMM) elective courses.

Take **one** of the following exit courses:

- COMM 3939 - Internship
- COMM 4040 - Communication, Prisons, and Social Justice
- COMM 4051 - Advanced Strategic Communication
- COMM 4430 - Communication, China, and the US
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4558 - Digital Health Narratives
- COMM 4660 - Queer Media Studies
- COMM 4688 - Senior Seminar: Transitioning from College to Career
- COMM 4700 - Thesis and Project Practicum
- COMM 4995 - Global Study Topics (Travel Study)

Exit courses include a High Impact Practice, such as: experiential and service learning, collaborative learning, writing-intensive assignments, global education, a focus on diversity and inclusion, and/or a project-based capstone class.

COMPUTER SCIENCE BA

Introduction

Please click [here](#) to see computer science department information.

The bachelor of arts (BA) in computer science (CS) degree is designed to create transformational relationships among computer science and other fields of their interest across the university. It will allow undergraduate students with interests and passion in myriad fields to complement these with contemporary computer science knowledge, skills, and attitudes that will render them immediately impactful in today's rapidly changing workforce.

Graduates will be able to demonstrate a broad range of understanding in mathematics, computer software, algorithms, programming and a specialization of their choice across the CU Denver curriculum. Graduates will be able to:

- Apply algorithmic reasoning to a variety of computational problems
- Design, implement, and document solutions to needed computational problems
- Implement software systems that meet specific design requirements
- Use current tools or computing techniques to implement and evaluate programs or computer-based solutions.

- Apply computer science techniques and tools to solve problems in a chosen application area.

Program Delivery

- This is an on-campus program.

Declaring This Major

Click here to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- Click here for information about Academic Policies

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CSCI courses attempted.

Undergraduate students in the CSE department are required to have a personal laptop, with the following specifications, before starting 3000-level classes:

	<i>Minimum</i>	<i>Recommended</i>
Operating System	Windows 10 1809+	Windows 10 1809+
CPU	Intel Core i5 dual-core 1.6 GHz or Intel Core i5 quad core 1.4 GHz	Intel Core i5/i7 2.2 GHz or faster
RAM	8GB (upgradable to 16GB)	12 to 16GB

	Minimum	Recommended
Disk Space	256GB Hard Disk Drive (HDD) with 100GB free Upgradable to 512GB SSD	512GB Solid State Drive (SSD) with 100GB free
Hard Disk Speed		Install Windows and Applications on a SSD
Graphic Card	Integrated Graphics Card	Dedicated Graphics Card
Display	1280x720 Resolution	1920x1024 Resolution
Network Connectivity	Ethernet + Wifi	Ethernet + Wifi

The BA in computer science requires 120 credits including: 24 credits of CU Denver core curriculum, 7 credits of mathematics, 8 credits of physical science, 43 credits of computer science, and 38 credits of free electives.

Take 43 credits of computer science courses including:

Computer science core courses (22 credits):

- CSCI 1410 - Fundamentals of Computing
- CSCI 1411 - Fundamentals of Computing Laboratory
- CSCI 2312 - Object Oriented Programming
- CSCI 2421 - Data Structures and Program Design
- CSCI 2511 - Discrete Structures
- CSCI 3287 - Database System Concepts
- CSCI 3412 - Algorithms
- CSCI 3508 - Introduction to Software Engineering

Seven courses (21 credits) of any 3000-level or above computer science (CSCI) courses not applied to the above 22 credits.

Mathematics (7 credits):

- MATH 1401 - Calculus I
- Additional 2000+ level math course

Science (8 credits - two-course natural science sequence with lab):

Choice 1: (8 Credits)

- BIOL 2051 - General Biology I
- BIOL 2061 - General Biology II
- BIOL 2071 - General Biology Laboratory I
- BIOL 2081 - General Biology Laboratory II

OR Choice 2: (9 Credits)

- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II

OR Choice 3: (10 Credits)

- PHYS 2010 - College Physics I
- PHYS 2321 - General Physics Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - General Physics Lab II

OR Choice 4: (10 Credits)

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II

OR Choice 5: (10 Credits)

- GEOL 1073 - Physical Geology: Surface Processes
- GEOL 1074 - Physical Geology: Surface Processes Laboratory
- GEOL 1083 - Physical Geology: Internal Processes
- GEOL 1084 - Physical Geology: Internal Processes Laboratory

Free electives for students' are of concentration (38 Credits)

Please note CS courses that are not part of the BACS can be counted toward satisfying free electives. This can help with taking systems courses to prepare for the required background for some advanced CS/breadth areas of interest.

COMPUTER SCIENCE BS

Introduction

Please click [here](#) to see computer science department information.

Undergraduate computer science students at CU Denver are able to tailor their degree to their interests and goals. Students are exposed to the breadth of the field including machine learning & data science, computer graphics & game design, programming, software engineering, systems, scientific computing, secure computing, theory and cyber-physical systems.

The computer science bachelor of science program is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

The educational objectives of the computer science undergraduate program are to produce graduates who:

- Advance professionally as productive, practicing professionals in computer science and related careers through the continued development of their expertise and skills.
- Further develop their knowledge, skill set, and career opportunities through graduate education and/or professional studies.
- Function effectively as part of a team to succeed in their professional careers.

Measurable Outcomes

The bachelor of science in computer science program must enable its students to attain, by the time of graduation:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

- Apply computer science theory and software development fundamentals to produce computing-based solutions.

Program Delivery

- This is an on-campus program.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
2. Students must maintain a minimum 2.0 GPA in all CSCI courses attempted.
3. Undergraduate students in the CSE department are required to have a personal laptop, with the following specifications, before starting 3000-level classes:

	<i>Minimum</i>	<i>Recommended</i>
<i>Operating System</i>	Windows 10 1809+	Windows 10 1809+
<i>CPU</i>	Intel Core i5 dual-core 1.6 GHz or Intel Core i5 quad core 1.4 GHz	Intel Core i5/i7 2.2 GHz or faster
<i>RAM</i>	8GB (upgradable to 16GB)	12 to 16GB

	<i>Minimum</i>	<i>Recommended</i>
<i>Disk Space</i>	256GB Hard Disk Drive (HDD) with 100GB free Upgradable to 512GB SSD	512GB Solid State Drive (SSD) with 100GB free
<i>Hard Disk Speed</i>		Install Windows and Applications on a SSD
<i>Graphic Card</i>	Integrated Graphics Card	Dedicated Graphics Card
<i>Display</i>	1280x720 Resolution	1920x1024 Resolution
<i>Network Connectivity</i>	Ethernet + Wifi	Ethernet + Wifi

The BS Computer Science degree requires 128 credits including: 24 credits of CU Denver Core Curriculum, 12 credits of Mathematics, 10 Credits of Physical Science and 82 credits of Computer Science.

Take 82 credits of Computer Science Courses including:

Take **all (25 credits)** of the following Computer Science courses:

- CSCI 1410 - Fundamentals of Computing
- CSCI 1411 - Fundamentals of Computing Laboratory
- CSCI 2312 - Object Oriented Programming
- CSCI 2421 - Data Structures and Program Design
- CSCI 2511 - Discrete Structures
- CSCI 3287 - Database System Concepts
- CSCI 3412 - Algorithms
- CSCI 3508 - Introduction to Software Engineering
- CSCI 4034 - Theoretical Foundations of Computer Science

Take **all (21 credits)** of the following Computer Science Core courses:

- CSCI 1510 - Logic Design
- CSCI 2525 - Assembly Language and Computer Organization
- CSCI 3415 - Principles of Programming Languages
- CSCI 3453 - Operating System Concepts
- CSCI 3761 - Introduction to Computer Networks
- CSCI 4551 - Parallel & Distributed Systems
- CSCI 4591 - Computer Architecture

Take **two** (6 credits) of the following Capstone courses:

- CSCI 4738 - Senior Design I
- CSCI 4739 - Senior Design II

Take **one** (3 credits) of the following Data Science courses:

- CSCI 4455 - Data Mining
- CSCI 4580 - Data Science
- CSCI 4930 - Machine Learning
- CSCI 4931 - Deep Learning
- CSCI 4951 - Big Data Systems

Take **one** (3 credits) of the following Computer Science courses:

- CSCI 3560 - Probability and Computing
- CSCI 4650 - Numerical Analysis I
- CSCI 4110 - Applied Number Theory

Take **one** (3 credits) of the following Secure Computing courses:

- CSCI 4741 - Principles of Cybersecurity
- CSCI 4742 - Cybersecurity Programming and Analysis
- CSCI 4743 - Cyber and Infrastructure Defense

Take **two** (6 credits) of the following System Software courses:

- CSCI 3511 - Hardware-Software Interface
- CSCI 4287 - Embedded Systems Programming
- CSCI 4565 - Introduction to Computer Graphics

Take **five** courses (15 credits) of any 3000-level or above Computer Science (CSCI) course that is not applied to the above 67 credits.

Take **all** of the following Mathematics (12 credits) courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 3195 - Linear Algebra and Differential Equations

Note: Students can substitute both MATH 3191 and MATH 3200 for MATH 3195

Take ten credits of Science (Two course sequence with lab) of either:

Choice 1: (8 credits*)

- BIOL 2051 - General Biology I
- BIOL 2061 - General Biology II
- BIOL 2071 - General Biology Laboratory I
- BIOL 2081 - General Biology Laboratory II

OR Choice 2: (9 credits*)

- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II

OR Choice 3: (10 Credits)

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II

*Additional credits needed to reach 10 may come from an advanced science course beyond CHEM 2061 or BIOL 2061, an additional CS elective, math beyond CALC II, or one of the engineering disciplines (not GEN-ED. courses).

CONSTRUCTION ENGINEERING AND MANAGEMENT BS

Introduction

The construction engineering and management bachelor of science offers the rigors of engineering problem-solving and design with business and management courses, coupled with construction engineering and management courses. Students receive an innovative

interdisciplinary education that combines coursework in engineering, construction, business and architecture.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.

Required Architecture & Business courses:

- ARCH 3330 - Building Systems I
- ARCH 4440 - Building Systems II
- BMIN 1000 - Introduction to Business

Required Engineering courses:

- CVEN 1025 or MECH 1025 - CAD and Graphics for Mechanical Engineering
- CVEN 2212 - Engineering Surveying
- ENGR 1200 - Fundamentals of Engineering Design Innovation
- ENGR 1100 - Fundamentals of Computational Innovation or IWKS 2300 - Computational Foundations of Innovation

Required Construction courses:

- CEMT 1000 - Introduction to Construction Management

- CEMT 2100 - Construction Management Fundamentals
- CEMT 2300 - Heavy Civil Construction and Equipment
- CEMT 3100 - Field Engineering and Management
- CEMT 4067 - Construction Senior Capstone
- CEMT 4231 - Construction Materials and Methods
- CEMT 4232 - Construction Planning and Control
- CEMT 4233 - Construction Cost Estimating
- CEMT 4234 - Sustainable Construction
- CEMT 4236 - Project Management Systems
- CEMT 4240 - Building Information Modeling (BIM)
- CEMT 4242 - Construction Safety
- CEMT 4939 - Internship

Take **15** credits of Engineering Specialty Science and Design. Students must meet with an advisor to determine an appropriate course sequence from the following areas:

Civil Engineering (must take at least 1 design class)

Computer Science

Electrical Engineering (must take at least 1 design class)

Mechanical Engineering (must take at least 1 design class)

Students must take a minimum of 30 credits of math and science

Take **all** of the following courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- ENGR 1130 - Chemistry for Engineers
- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I

Take **one** of the following Statistics courses:

- CVEN 3611 - Engineering Statistics
- MATH 2830 - Introductory Statistics
- MATH 3800 - Probability and Statistics for Engineers
- ELEC 3817 - Engineering Probability and Statistics
- BANA 2010 - Business Statistics

An additional 9 credits hours of math and science.

Specific math and science courses are prerequisites to some Engineering Specialty courses. Please consult with an advisor.

Take **one** elective course in math, science, architecture, business, engineering, construction or technical communication.

Note: Up to two 5000-level CEMT or CVEN courses taken at CU Denver for the BS can be applied to a CE Master's degree at CU Denver if relevant to the student's Master's degree emphasis as determined by the students Master's degree advisor.

CONSTRUCTION MANAGEMENT BS

Introduction

The bachelor of science in construction management includes a solid foundation of construction engineering and management courses, engineering courses, courses from the Business School and College of Architecture and Planning.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Engineering, Design and Computing Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.

Required Business courses:

- BMIN 1000 - Introduction to Business
- BLAW 3050 - Business Law and Ethics

Take 3 additional business courses. Choose 1 of the following options:

Business Fundamentals Minor

- BMIN 3001 - Fundamentals of Management and Marketing
- BMIN 3002 - Fundamentals of Accounting and Finance
- BMIN 3004 - Principles of Strategic Management

Entrepreneurship Certificate

- ENTP 3200 - Essentials in Entrepreneurship
- ENTP 3230 - Small Business Accounting and Finance
- ENTP 3299 - Business Model Development & Planning
- Could earn a minor in Entrepreneurship by taking 2 additional ENTP courses as technical electives

Any three of the following courses

- ACCT 2200 - Financial Accounting and Financial Statement Analysis
- BANA 3000 - Operations Management
- MGMT 3000 - Managing Individuals and Teams
- MKTG 3000 - Principles of Marketing
- MKTG 4700 - Personal Selling and Sales Management
- Other courses with advisor approval

Required Architecture Coursework

- ARCH 3330 - Building Systems I
- ARCH 3340 - Theory of Structures I
- ARCH 4340 - Theory of Structures II
- ARCH 4440 - Building Systems II

Required Engineering courses:

- CVEN 1025 or MECH 1025 - CAD and Graphics for Mechanical Engineering
- CVEN 2212 - Engineering Surveying
- ENGR 1200 - Fundamentals of Engineering Design Innovation
- ENGR 1100 - Fundamentals of Computational Innovation or IWKS 2300 - Computational Foundations of Innovation

Required Construction courses:

- CEMT 1000 - Introduction to Construction Management
- CEMT 2100 - Construction Management Fundamentals
- CEMT 2300 - Heavy Civil Construction and Equipment
- CEMT 3100 - Field Engineering and Management
- CEMT 4067 - Construction Senior Capstone
- CEMT 4231 - Construction Materials and Methods
- CEMT 4232 - Construction Planning and Control
- CEMT 4233 - Construction Cost Estimating
- CEMT 4234 - Sustainable Construction
- CEMT 4236 - Project Management Systems
- CEMT 4240 - Building Information Modeling (BIM)
- CEMT 4242 - Construction Safety
- CEMT 4939 - Internship

Required math and science courses:

- MATH 1130 - Precalculus Mathematics or MATH 1401 - Calculus I or MATH 1110 - College Algebra and MATH 1120 - College Trigonometry
- PHYS 2010 - College Physics I
- PHYS 2030 - College Physics Lab I

Take **one** of the following Statistics courses:

- CVEN 3611 - Engineering Statistics
- MATH 2830 - Introductory Statistics
- MATH 3800 - Probability and Statistics for Engineers
- ELEC 3817 - Engineering Probability and Statistics
- BANA 2010 - Business Statistics

Take **11 credits** of elective courses in math, science, architecture, business, engineering, construction or technical communication.

Note: Up to two 5000-level CEMT or CVEN courses taken at CU Denver for the BSCE can be applied to a CE Master's degree at CU Denver if relevant to the student's Master's degree emphasis as determined by the student's Master's degree advisor.

CRIMINAL JUSTICE BA

Introduction

Please click [here](#) to see School of Public Affairs information.

The School of Public Affairs' Bachelor of Arts in Criminal Justice (BACJ) program is designed for students who are interested in studying the American criminal justice system. Coursework in the major includes the complex nature of crime causation; the history, framework, and operations of criminal justice organizations; the implications of public policies related to crime and justice; and special topics such as capital punishment, victimology, race and crime, and community corrections. Students also receive rigorous training in research methods and statistics, allowing them to understand how to frame important questions and become critical consumers of information. Students may choose to concentrate their electives in Law Enforcement, Victims and Victim Studies, or may use electives to study other criminal justice-related topics.

As with all undergraduate degrees at CU Denver, BACJ students will also complete the requirements of the CU Denver core curriculum, ensuring that they have a well-rounded liberal arts education. The critical thinking skills provided by the degree are important to any future career path, but BACJ students are particularly well-prepared for careers in criminal justice organizations such as local, state, and federal law enforcement and criminal justice agencies and in nonprofit organizations working with people and communities affected by crime. Many graduates pursue advanced degrees in law, criminal justice, and related fields.

Program Delivery

- Courses are offered on campus, online, and in hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Bachelors of Arts in Criminal Justice degree requires 36 credit hours of coursework. Students must complete a minimum of 45 upper-division credit hours, 21 of which must be Criminal Justice credit hours.
2. A maximum of 15 transfer credits may be applied to the major. Transfer Criminal Justice credits above the 15 credits already applied to the major will count as general electives. CRJU courses taken from the University of Colorado, Colorado Springs are not subject to this transfer credit limit for the major.
3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy major or minor degree requirements and must maintain a 2.0 GPA overall in major or minor courses.

Students must complete the following required courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory
- CRJU 3100 - Research Methods
- CRJU 3150 - Statistics for Criminal Justice *
- CRJU 4042 - Corrections
- CRJU 4043 - Law Enforcement
- CRJU 4044 - Courts and Judicial Process
- SOCY 1001 - Understanding the Social World **

Students must complete 15 credit hours of electives, 9 of which must be Criminal Justice courses offered by the School of Public Affairs, and 6 of which may be taken from the approved list of other department courses.

*Students must successfully pass CRJU 3100 Criminal Justice Research Methods with a C- or better before taking CRJU 3150 Statistics for Criminal Justice

**This class also fulfills a Social Science requirement of the CU Denver core curriculum

Take **fifteen** credit hours of electives, **nine** of which must be Criminal Justice courses offered by the School of Public Affairs, and **six** of which may be taken from the approved list of other department courses.

Criminal Justice Electives:

Any 3000 or 4000 level CRJU course not already required for the major may count as a Criminal Justice major elective.

- CRJU 4939 - Internship *

The internship (CRJU 4939) is required as one of the electives for the major unless officially waived by the BACJ Program Director. Students whose internships are approved will take a 3 credit hour Criminal Justice elective in place of a 3 credit-hours internship. Students should direct questions and concerns to their Academic Advisor. See SPA Graduation Requirements for more information.

Other electives: **

- ANTH 4090 - Drug Syndemic
- CHEM 1494 - Forensic Chemistry
- COMM 4040 - Communication, Prisons, and Social Justice
- COMM 4265 - Gender and Communication
- COMM 4750 - Legal Reasoning and Writing
- HDFR 4075 - Family Policy & Law
- HIST 3231 - Famous U.S. Trials
- HIST 4308 - Crime, Policing, and Justice in American History
- ECON 3300 - Economics of Crime and Punishment
- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 4124 - Denver Politics
- PSCI 4185 - Corruption in the U.S. and Abroad
- PSCI 4216 - International Politics: Human Rights
- PSCI 4237 - American National Security
- PSCI 4240 - International Security
- PSCI 4280 - The Politics of War Law
- PSCI 4427 - Law, Politics and Justice
- PSCI 4477 - Constitutional Law I
- PSCI 4487 - Constitutional Law II
- PSCI 4494 - Judicial Politics
- PSCI 4545 - Immigration Politics
- PSCI 4837 - Contemporary Issues in Civil Liberties
- PSYC 3205 - Human Development I: Child Psychology

- PSYC 3215 - Human Development II: Adolescence and Adulthood
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3305 - Abnormal Psychology
- PSYC 3505 - Psychology and the Law
- PSYC 3610 - Psychological Trauma
- PSYC 3612 - Domestic Abuse
- SOCY 2462 - Introduction to Social Psychology
- SOCY 3020 - Race and Ethnicity in the U.S.
- SOCY 3040 - Drugs, Alcohol & Society
- SOCY 3490 - Criminology
- SOCY 3700 - Sociology of the Family
- SOCY 4340 - Juvenile Delinquency
- SOCY 4440 - Poverty and Social Inequality
- SOCY 4460 - Hate Groups and Group Violence
- SOCY 4700 - Sociology of Law
- SOCY 4770 - Advanced Topics in Sociology (Women & Crime)
- PSCI 4807 - Political Violence
- PSCI 4827 - Women and the Law
- SOCY 4780 - Violence in Relationships
- See advisor for recent additions to the list

**Students must comply with departmental prerequisites.

CRIMINAL JUSTICE BA WITH LAW ENFORCEMENT CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

Students interested in obtaining a concentration in CJLE within the Bachelor of Arts in Criminal Justice program must apply and enroll in the BACJ program within the School of Public Affairs (SPA) and must adhere to all of the degree program requirements.

The undergraduate concentration in Law Enforcement provides a detailed, comprehensive, and advanced education in the field of law enforcement. The CJLE program is designed to meet the

needs of students who wish to work in law enforcement or who are currently working in the field and would like to enrich their professional development.

The CJLE program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of law enforcement that students can apply to their current or future careers in the field.

Students completing the CJLE concentration will have the knowledge and skills to evaluate and respond to a variety of situations in law enforcement professions that require technical, analytic, substantive, and ethical decision-making. They will understand the different environments and contexts in which law enforcement carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Concentration Requirements

1. A concentration in Law Enforcement requires 12 credit hours of course work.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy the concentration requirements.

Program Core Courses:

- CRJU 4540 - Evidence-Based Approaches in Law Enforcement

Program Electives:

There are two elective categories, Topic Area and Professional Setting. The Topic Area electives allows the student to explore a different aspect of law enforcement. The Professional Skills elective allows the student to hone skills related to law enforcement.

Topic Area (students **take two** of the following courses):

- CRJU 3310 - Contemporary Issues in Law Enforcement
- CRJU 3320 - Police-Community Relations
- CRJU 3520 - Juvenile Justice
- CRJU 3530 - Juvenile Delinquency
- CRJU 4410 - Criminal Law and Constitutional Procedures
- CRJU 4430 - Law and Society
- CRJU 4450 - Homeland Security
- PSCI 4427 - Law, Politics and Justice
- SOCY 4340 - Juvenile Delinquency
- SOCY 4700 - Sociology of Law

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable.

Professional Skills (students **take one** of the following courses):

- ANTH 3550 - Forensic Anthropology
- CRJU 4310 - Leadership Roles in Criminal Justice
- CSCI 1001 - Computer Forensics I
- GEOG 4080 - Introduction to GIS

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

CRIMINAL JUSTICE BA WITH VICTIMS AND VICTIM SERVICES CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

Students interested in obtaining a concentration in Victims and Victim Services within the Bachelor of Arts in Criminal Justice program must apply and enroll in the BACJ program within the School of Public Affairs (SPA) and must adhere to all of the degree program requirements.

The undergraduate concentration in Victims and Victim Services provides a detailed, comprehensive, and advanced education in fields related to victims and victim services. The CJVS program is designed to meet the needs of students who wish to work in fields related to victim services or who are currently working in this field and would like to enrich their professional development.

The CJVS program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of victims and victim services that students can apply to their current or future careers in the field.

Students completing the CJVS concentration program will have the knowledge and skills to evaluate, manage, and respond to a variety of situations and issues that professionals in fields related to victims and victim services face. Specifically, they will possess technical, analytic, substantive, and ethical proficiencies that will facilitate their professional interactions and development. They will understand the different environments and contexts in which victim advocates and other professionals in this field and related ones carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online, and in hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements

- CU Denver's Undergraduate Academic Policies

Program Requirements

1. A concentration in Victim and Victim Services requires 12 semester hours of coursework.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. Students must receive a minimum of C- grade in each undergraduate course applied to satisfy the certificate requirements.

Program Core Courses:

- CRJU 4170 - Victimology
- CRJU 3285 - Trauma in the Criminal Justice System

Program Electives:

There are two elective categories, Violence Focus and Professional Setting. The Violence Focus electives allow the student to learn about an area of violence in a more in-depth capacity. The Professional Setting elective allows the student to hone skills related to service delivery.

Violence Focus (students **take one** of the following courses):

- CRJU 3250 - Violence in Society
- CRJU 3280 - Trauma Among Correctional Populations
- CRJU 4140 - Domestic Violence and Crime
- ETST 2115 - Genocide in the 21st Century: Darfur and Beyond
- PSCI 4807 - Political Violence
- SOCY 4460 - Hate Groups and Group Violence

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable

Professional Setting (students **take one** of the following courses):

- HDFR 4090 - Helping Profession Skills in HDFR
- PUAD 4009 - Human Service Organizations
- PUAD 3110 - Seminar in Nonprofit Management

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable

DIGITAL DESIGN EMPHASIS, FINE ARTS BFA

Introduction

Please click [here](#) to see general Visual Arts information.

The digital design emphasis integrates aesthetic, creative and critical thought with expertise in electronic media and graphic design. Configured as an interdisciplinary arts and design laboratory, digital design offers a hands-on education combining new art technologies and design research to promote an understanding of the cultural impact and use of digital technology to solve human, social and business problems. Through this interdisciplinary approach combining arts and communication, digital design strives to produce artists and designers who will use technology in innovative ways in both commercial and artistic spheres.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major
- Students who are applying for entrance into the digital design emphasis must submit a portfolio, as described below. The digital design emphasis accepts applications only once a year. Students who meet the requirements and are accepted will be able to register for upper-division digital design courses.

ELIGIBILITY

The student has completed, or is in the process of completing, the following courses with a grade of C (2.0) or better in each:

- FINE 1000 - Fostering Creativity
- FINE 2405 - Introduction to Digital Design

- FINE 2415 - Typography Studio

FINE 2405 and 2415 are both offered in the fall at CU Denver.

PORTFOLIO APPLICATION REQUIREMENTS

Students applying to the digital design emphasis present a portfolio to be reviewed by design faculty. The deadline for submission will be November 1, 5:00pm (Mountain Time). The portfolio submission must be formatted and presented to the specifications listed on the Portfolio Review page here. There is no fee to apply.

QUESTIONS

For general inquiries see the Digital Design Program page here. For Portfolio review questions see the Portfolio Review page here.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Pre-Portfolio courses:

- FINE 1000 - Fostering Creativity
- FINE 2405 - Introduction to Digital Design
- FINE 2415 - Typography Studio

Take **all** of the following Digital Design Emphasis courses (available only to students accepted to emphasis via portfolio review):

- FINE 3404 - Typography II
- FINE 3414 - Motion Design I
- FINE 3415 - Design Studio I
- FINE 3424 - Interactive Media
- FINE 3444 - Interactive Media II
- FINE 3454 - Motion Design II
- FINE 3464 - Design Studio II
- FINE 4400 - Design Studio III
- FINE 4480 - Design Thesis Research
- FINE 4495 - Design Thesis Project

Take **one** of the following Visual Arts courses:

- FINE 3434 - 3D Motion Design
- FINE 4420 - Interactive Media III

Take **all** of the following Visual Arts courses:

- FINE 1100 - Drawing I
- FINE 1500 - Three-Dimensional Design
- FINE 2155 - Introduction to Digital Photography
- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II
- FINE 4600 - History of Modern Design:Industrial Revolution-Present

Take **three** semester hours of Pre-20th Century Art History elective.

Take **fifteen** semester hours of Visual Arts electives. These may include studio, lecture, internship, or art history courses.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

ECONOMICS BA

Introduction

Please click [here](#) to see Economics department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 40 ECON credit hours.
2. Students must complete a minimum of 18 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 33 ECON credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.
2. One D- in one ECON elective is allowed.
3. Only courses taken at CU Denver will apply in the GPA calculation.
4. All courses other than ECON 2012 and ECON 2022 require written department approval to be transferred in as satisfying major requirements.
5. Any courses taken in Economics may satisfy the elective requirement, other than internships and independent studies which require the approval of the department chair.
6. (MATH 2411 - Calculus II or MATH 2421 - Calculus III with a grade of B or higher will satisfy the ECON 3801 requirement. If a student completes ECON 3801, and then subsequently or concurrently completes before completing MATH 2411, with a grade of B or higher, ECON 3801 will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 with a B or better, then ECON 3801 taken subsequently cannot be counted as an elective.)

Take **all** of the following required courses:

- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- ECON 3801 - Introduction to Mathematical Economics (See restrictions above)
- ECON 3811 - Statistics with Computer Applications
- ECON 4071 - Intermediate Microeconomic Theory
- ECON 4081 - Intermediate Macroeconomic Theory
- ECON 4811 - Introduction to Econometrics

Take **six** three-credit hour courses in economics; **four** of them must be at the 4000-level. Any courses taken in Economics may satisfy this requirement, other than internships and independent studies which require the approval of the department chair.

EDUCATION AND HUMAN DEVELOPMENT BA WITH EARLY CHILDHOOD EDUCATION LICENSE - RURAL PARTNERSHIP

WITH TRINIDAD STATE JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

We will prepare you to become a highly effective, innovative and compassionate early childhood teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

This program is a rural partnership with Trinidad State Junior College (TSJC) in campuses in Trinidad and Alamosa, Colorado. Students complete the first two years of the program at TSJC to complete an Associate of Arts degree and then transfer to CU Denver to complete their final two years to complete the BA - EDHD degree with an early childhood teaching license. During the final two years, students complete CU Denver coursework remotely from Trinidad and are not required to travel to Denver. Advising is provided during all four years of the program, whether students are TSJC or CU Denver students. Coursework is delivered in a variety of ways, including online, video conferencing, in-person in Trinidad or Alamosa, and fieldwork in rural Colorado in and around Trinidad or Alamosa.

Program Delivery

- This is an on-campus program in Trinidad and Alamosa with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [School of Education and Human Development Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Early Childhood Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early childhood Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.
- Students will receive transfer credit for all of the following major requirements:

Note: Courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better. Students who do not have a B- or better in the specified courses must consult with their advisors about a plan to retake the course or complete additional work.

- ECED 2000 - Early Childhood Education as a Profession
- ECED 2930 - Infant & Toddler Field Experience & Seminar *

- ECED 4030 - Nutrition, Health, and Safety
- ECED 4040 - Administrative Seminar
- ECED 4070 - Development and Education of Infant and Toddlers
- ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques
- ECED 4202 - Child Guidance and Classroom Community
- ECED 4300 - Exceptional Learners in the Early Childhood Classroom *
- EDFN 1000 - Equality, Rights & Education
- EDHD 1930 - Community Based Field Experience & Seminar *
- HDFR 2110 - Child Ecology
- INTE 2000 - Digital Teaching and Learning
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade

Take **all** of the following Education and Human Development - Early Childhood Education major courses:

Note: courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better.

- CLDE 2000 - CLDE Foundations
- ECED 4060 - Working with Families, Professionals, and Communities
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- EDHD 2930 - Learning & Development Field Experience & Seminar *(2 credits)
- LCRT 3720 - Introduction to Writing Development and Teaching
- MTED 3040 - Mathematics for Elementary Teachers *

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- ECED 4200 - Assessment for Early Childhood Classrooms
- ECED 4650 - Dual Language Learners Learning and Development
- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- MTED 4002 - Elementary Mathematics Teaching I
- SCED 4004 - Elementary Science Teaching
- UEDU 4040 - Planning for Learning
- UEDU 4050 - Elementary Capstone: Planning, Instruction & Assessment
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III

EDUCATION AND HUMAN DEVELOPMENT BA WITH MIDDLE SCHOOL MATH LICENSE - RURAL PARTNERSHIP WITH OTERO JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in math education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for youth across multiple cultural contexts as it relates to teaching youth in grades 6 through 8. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

We will prepare you to become a highly effective, innovative and compassionate middle school math teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

This program is a rural partnership with Otero Junior College (OJC) in La Junta, Colorado. Students complete the first two years of the program at OJC to complete an Associate of Arts degree and then transfer to CU Denver to complete their final two years to complete the BA - EDHD degree with Middle School Math License. During the final two years, students complete CU Denver coursework remotely from La Junta and are not required to travel to Denver. Advising is provided during all four years of the program, whether students are OJC or CU Denver students. Coursework is delivered in a variety of ways, including online, video conferencing, in-person in La Junta, and fieldwork in rural Colorado in and around La Junta.

Program Delivery

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in secondary mathematics education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for youth across multiple cultural contexts as it relates to teaching youth in grades 7 through 12. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

The secondary mathematics program ensures that you will develop deep content knowledge important to become a successful mathematics teacher with courses in calculus, abstract math, statistics and more. You will also be prepared with the methods and foundations coursework that will make you a highly effective, innovative and compassionate secondary mathematics teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [School of Education and Human Development Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Secondary Mathematics Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum of C- is required for all Math content courses.
5. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD - Secondary Mathematics Education requirements unless otherwise specified.
6. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
7. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following Education and Human Development - Secondary Mathematics Education major courses:

Note: courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better.

- CLDE 2000 - CLDE Foundations
- EDFN 1000 - Equality, Rights & Education
- HDFR 3050 - Children's Thinking and Assessment
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms *
- SPED 4400 - Universal Design for Learning (UDL)
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- CLDE 4020 - Responsive Classroom Communities *
- EDHD 1930 - Community Based Field Experience & Seminar *
- EDHD 2930 - Learning & Development Field Experience & Seminar *
- EDHD 3930 - Diverse Learners Field Experience & Seminar *

Choose **one** of the following major courses:

- MTED 4621 - A World of (Different) Numbers: Quantity and Operation
- MTED 4622 - Expanding Conceptions of Algebra
- MTED 4623 - Geometrical Ways Of Reasoning

Take **all** of the following content courses (minimum grade of C- or higher):

- CSCI 1410 - Fundamentals of Computing **and** CSCI 1411 - Fundamentals of Computing Laboratory
- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3000 - Introduction to Abstract Mathematics
- MATH 3191 - Applied Linear Algebra
- MATH 3382 - Statistical Theory

Take 9 credits (3 courses) of additional upper-division (3000-level or higher) MATH courses.

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- LCRT 4100 - Secondary Literacy Instruction and Assessment
- MTED 4300 - Curriculum and Methods for Teaching Mathematics

- MTED 4301 - Assessment and Equity in Mathematics Instruction
- STME 4001 - Planning for Learning in Mathematics and Science
- STME 4051 - STEM Capstone: Secondary Education
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III

Choose **one** of the following major courses (not to be repeated with any prior courses):

- MTED 4621 - A World of (Different) Numbers: Quantity and Operation
- MTED 4622 - Expanding Conceptions of Algebra
- MTED 4623 - Geometrical Ways Of Reasoning

Additional General Electives may be needed to reach the required 126 hours for the BA.

EDUCATION AND HUMAN DEVELOPMENT BA WITH SECONDARY SCIENCE LICENSE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in secondary science education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for youth across multiple cultural contexts as it relates to teaching youth in grades 7 through 12. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

The secondary science program ensures that you will develop deep content knowledge across a number of disciplines important to become a successful science teacher with courses in physics, biology, chemistry and geology. You will also be prepared with the methods and foundations coursework that will make you a highly effective, innovative and compassionate secondary science teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU

Denver graduates often go on to acquire positions in educational leadership as their careers progress.

- EDHD 2930 - Learning & Development Field Experience & Seminar *
- EDHD 3930 - Diverse Learners Field Experience & Seminar *

Take **all** of the following content courses (minimum grade C- or higher):

- MATH 1110 - College Algebra (or higher)
- BIOL 2051 - General Biology I
- BIOL 2061 - General Biology II
- CHEM 2031 - General Chemistry I
- CHEM 2061 - General Chemistry II
- GEOL 1073 - Physical Geology: Surface Processes
- GEOL 1074 - Physical Geology: Surface Processes Laboratory
- PHYS 2010 - College Physics I **or** PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2020 - College Physics II **or** PHYS 2331 - General Physics II: Calculus-Based

Choose a track and take all the required content courses for that track.

Biology Track

- BIOL 2071 - General Biology Laboratory I
- BIOL 2081 - General Biology Laboratory II

- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2068 - General Chemistry Laboratory II

Take **two** additional upper-division (3000-level or above) BIOL courses (minimum of 6 credits)

Chemistry Track

- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2068 - General Chemistry Laboratory II

Take **two** additional upper-division (3000-level or above) CHEM courses (minimum of 6 credits)

Environmental Sciences/Geology Track

- BIOL 2071 - General Biology Laboratory I **or** CHEM 2038 - General Chemistry Laboratory I
- BIOL 2081 - General Biology Laboratory II **or** CHEM 2068 - General Chemistry Laboratory II

Take **two** additional upper-division (3000-level or above) ENVS or GEOL courses (minimum of 6 credits)

Physics Track

- PHYS 2321 - General Physics Lab I
- PHYS 2341 - General Physics Lab II

Take **two** additional upper-division (3000-level or above) PHYS courses (minimum of 6 credits)

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- LCRT 4100 - Secondary Literacy Instruction and Assessment
- SCED 4400 - Theory and Pedagogy of Science Learning
- SCED 4401 - Inquiry Science Pedagogy and Practices
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms *
- STME 4001 - Planning for Learning in Mathematics and Science
- STME 4051 - STEM Capstone: Secondary Education
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II

- UEDU 4933 - Internship & Lrng Comm III

Additional General Electives hours may be needed to reach the required 126 hours for the BA.

EDUCATION AND HUMAN DEVELOPMENT BA WITH SECONDARY SCIENCE LICENSE - RURAL PARTNERSHIP WITH OTERO JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in secondary science education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for youth across multiple cultural contexts as it relates to teaching youth in grades 7 through 12. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

We will prepare you to become a highly effective, innovative and compassionate secondary science teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

This program is a rural partnership with Otero Junior College (OJC) in La Junta, Colorado. Students complete the first two years of the program at OJC to complete an Associate of Arts degree and then transfer to CU Denver to complete their final two years to complete the BA - EDHD Secondary Science Education degree. During the final two years, students complete CU Denver coursework remotely from La Junta and are not required to travel to Denver. Advising is provided during all four years of the program, whether students are OJC or CU Denver students.

Coursework is delivered in a variety of ways, including online, video conferencing, in-person in La Junta, and fieldwork in rural Colorado in and around La Junta.

Program Delivery

- This is an on-campus program in La Junta with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 124 semester hours for the EDHD Secondary Science Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Secondary Science Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.

6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for **all** of the following content and major requirements:

Note: Courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better. Students who do not have a B- or better in the specified courses must consult with their advisors about a plan to retake the course or complete additional work.

- MATH 1110 - College Algebra (or higher)
- BIOL 2051 - General Biology I
- BIOL 2071 - General Biology Laboratory I
- BIOL 2061 - General Biology II
- BIOL 2081 - General Biology Laboratory II
- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II
- PHYS 2010 - College Physics I **or** PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2020 - College Physics II **or** PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [School of Education and Human Development Graduation Requirements](#)
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Secondary Social Studies Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses,

all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

4. A minimum of C- is required for all content courses.
5. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD - Secondary Social Studies Education requirements unless otherwise specified.
6. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
7. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following Education and Human Development - Secondary Social Studies Education major courses:

Note: courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better

- CLDE 2000 - CLDE Foundations
- EDFN 1000 - Equality, Rights & Education
- HDFR 3050 - Children's Thinking and Assessment
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms *
- SPED 4400 - Universal Design for Learning (UDL)
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- CLDE 4020 - Responsive Classroom Communities *
- EDHD 1930 - Community Based Field Experience & Seminar *
- EDHD 2930 - Learning & Development Field Experience & Seminar *
- EDHD 3930 - Diverse Learners Field Experience & Seminar *

Take **all** of the following content courses (minimum grade C- or higher):

- HIST 1361 - U.S. History to 1876
- HIST 1362 - U.S. History Since 1876
- HIST 1026 - World History Since 1500
- HIST 3601 - Colorado History
- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- PSYC 1000 - Introduction to Psychology I

- PSYC 1005 - Introduction to Psychology II
- PSCI 1101 - American Political System
- GEOG 1202 - Introduction to Physical Geography
- GEOG 1302 - Introduction to Human Geography
- ANTH 2102 - Culture and the Human Experience
- SOCY 1001 - Understanding the Social World

Take 6 credits (2 courses) of additional upper-division (3000-level or higher) content courses from any of the following prefixes: ANTH, ECON, ETST, GEOG, HIST, PSCI, PSYC, SOCY.

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- LCRT 4100 - Secondary Literacy Instruction and Assessment
- UEDU 4040 - Planning for Learning
- UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed
- UEDU 4464 - Methods of Teaching Social Studies
- UEDU 4465 - Methods of Teaching History
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III

Additional General Electives hours may be needed to reach the required 126 hours for the BA.

EDUCATION AND HUMAN DEVELOPMENT BA, WITH ELEMENTARY EDUCATION LICENSE - RURAL PARTNERSHIP WITH TRINIDAD STATE JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in Elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

We will prepare you to become a highly effective, innovative and compassionate Elementary teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

This program is a rural partnership with Trinidad State Junior College (TSJC) in campuses in Trinidad, Colorado. Students complete the first two years of the program at TSJC to complete an Associate of Arts degree and then transfer to CU Denver to complete their final two years to complete the BA - EDHD degree with an Elementary teaching license. During the final two years, students complete CU Denver coursework remotely from Trinidad and are not required to travel to Denver. Advising is provided during all four years of the program, whether students are TSJC or CU Denver students. Coursework is delivered in a variety of ways, including online, video conferencing, in-person in Trinidad, and fieldwork in rural Colorado in and around Trinidad.

- UEDU 4933 - Internship & Lrng Comm III

EDUCATION AND HUMAN DEVELOPMENT, EARLY

CHILDHOOD EDUCATION BA - LICENSURE TRACK

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Early Childhood Education (ECE) track in the Education and Human Development major has a strong focus on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn with innovative faculty members who are locally and nationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, supporting dual language learners, inclusive and engaging classroom and curricular design and assessment and documentation of young children's learning. At the same time, you will benefit from strong school and community partnerships that are unmatched in the state. All ECE track students have the opportunity to take all required courses to fulfill the State of Colorado's Director qualifications and become leaders in the field of early learning.

The ECE track has two options: Licensure and Non-licensure.

Licensure track

Students who select the 126 credit hour licensure track fulfill all requirements for a license to teach children Birth-Age 8 in Colorado's school districts and community-based early childhood centers. This track prepares students to become teachers of children up through third grade. Field-based experiences take place in the School of Education's Professional Development network of partner schools.

Students in this track have the opportunity to apply for the BAMA during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Note: courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better.

- CLDE 2000 - Foundations of Culturally & Linguistically Diverse Education
- ECED 4650 - Dual Language Learners Learning and Development
- ECED 4060 - Working with Families, Professionals, and Communities

- EDFN 1000 - Equality, Rights & Education
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- HDFR 2110 - Child Ecology **or** HDFR 3050 - Children's Thinking and Assessment
- INTE 2000 - Digital Teaching and Learning
- LCRT 3720 - Introduction to Writing Development and Teaching
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade
- MTED 3040 - Mathematics for Elementary Teachers *
- ECED 2000 - Early Childhood Education as a Profession
- ECED 4030 - Nutrition, Health, and Safety
- ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques
- ECED 4040 - Administrative Seminar
- ECED 4070 - Development and Education of Infant and Toddlers
- ECED 4200 - Assessment for Early Childhood Classrooms
- ECED 4202 - Child Guidance and Classroom Community
- EDHD 1930 - Community Based Field Experience & Seminar *
- ECED 2930 - Infant & Toddler Field Experience & Seminar *
- EDHD 2930 - Learning & Development Field Experience & Seminar *

Take **all** of the following Professional Year courses (a grade of B- or better is required in each course):

- ECED 4300 - Exceptional Learners in the Early Childhood Classroom **or** SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms
- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- ECED 4010 - Inquiry and the Disciplines **or** UEDU 4040 - Planning for Learning
- ECED 4020 - Science for P-2 Classrooms **or** SCED 4004 - Elementary Science Teaching
- MTED 4002 - Elementary Mathematics Teaching I
- ECED 4931 - Internship I & Collaborative Learning Community
- ECED 4932 - Internship II & Collaborative Learning Community
- ECED 4933 - Internship III & Collaborative Learning Community (taken for a total of 6 credits)
- ECED 4050 - Early Childhood Education Capstone: Planning, Instruction & Assessment **or** UEDU 4050 - Elementary Capstone: Planning, Instruction & Assessment

Additional General Electives hours may be needed to reach the required 126 hours for the BA.

Non-Licensure track

A 120 credit hour track is ideal for students who currently and/or intend to work in community-based early childhood environments that serve children from infancy-age five years is also available.

EDUCATION AND HUMAN DEVELOPMENT, EARLY CHILDHOOD EDUCATION BA - NON-LICENSURE TRACK

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Early Childhood Education (ECE) track in the Education and Human Development major has a strong focus on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn with innovative faculty members who are locally and nationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, supporting dual language learners, inclusive and engaging classroom and curricular design and assessment and documentation of young children's learning. At the same time, you will benefit from strong school and community partnerships that are unmatched in the state.

Non-Licensure track

This 120 credit hour track is ideal for students who currently and/or intend to work in community-based early childhood environments that serve children from infancy-age five years. Courses include field-based experiences that can take place in settings where students currently work.

Students in this track have the opportunity to apply for the BAMA during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to the ECE MA degree.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 120 semester hours for the EDHD - Early Childhood Education Non-Licensure Track
2. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early Childhood non-licensure requirements unless otherwise specified.
3. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following courses:

- ECED 2000 - Early Childhood Education as a Profession
- ECED 4030 - Nutrition, Health, and Safety
- ECED 4040 - Administrative Seminar
- ECED 4060 - Working with Families, Professionals, and Communities
- ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques
- ECED 4202 - Child Guidance and Classroom Community
- ECED 4300 - Exceptional Learners in the Early Childhood Classroom **or** SPED 4030 - Understanding Disability
- ECED 4650 - Dual Language Learners Learning and Development
- ECED 4010 - Inquiry and the Disciplines
- ECED 4070 - Development and Education of Infant and Toddlers
- ECED 4200 - Assessment for Early Childhood Classrooms
- EDFN 1000 - Equality, Rights & Education
- INTE 2000 - Digital Teaching and Learning
- HDFR 2110 - Child Ecology **or** HDFR 3050 - Children's Thinking and Assessment

- CLDE 2000 - CLDE Foundations
- MTED 3040 - Mathematics for Elementary Teachers
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade
- EDHD 1930 - Community Based Field Experience & Seminar
- EDHD 2930 - Learning & Development Field Experience & Seminar
- ECED 2930 - Infant & Toddler Field Experience & Seminar
- ECED 4933 - Internship III & Collaborative Learning Community
- ECED 4934 - Extended Internship & Collaborative Learning Community

Take **two** of the following courses:

- HDFR 3020 - Black and Latino Children in Families and Schools
- HDFR 4001 - Families and Parenting
- HDFR 4010 - Family and Cultural Diversity
- HDFR 4040 - Latino Families in School and Communities
- HDFR 4260 - Family Systems and Social Justice

Additional General Electives hours may be needed to reach the required 120 hours for the BA.

An ECE Licensure track is also available for students interested in fulfilling the State of Colorado's ECE licensure requirements.

Students who select the 126 credit hour licensure track fulfill all requirements for a license to teach children Birth-Age 8 in Colorado's school districts and community-based early childhood centers. This track prepares students to become teachers of children up through third grade. Field-based experiences take place in the School of Education's Professional Development network of partner schools. Please see Early Childhood Education BA - Licensure Track for more information.

EDUCATION AND HUMAN DEVELOPMENT, ELEMENTARY EDUCATION BA - RURAL

PARTNERSHIP WITH OTERO JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

We will prepare you to become a highly effective, innovative and compassionate elementary teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

This program is a rural partnership with Otero Junior College (OJC) in La Junta, Colorado. Students take the first two years of the program at OJC to complete an Associate of Arts degree and then transfer to CU Denver to complete the BA - EDHD Elementary Education degree in the final two years. During the final two years, students complete CU Denver coursework remotely from La Junta and are not required to travel to Denver. Advising is provided during all four years of the program, whether students are OJC or CU Denver students. Coursework is delivered in a variety of ways, including online, video conferencing, in-person in La Junta, and fieldwork in rural Colorado in and around La Junta.

Program Delivery

- This is an on-campus program in La Junta with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Elementary Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Elementary Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for **all** of the following major requirements:

Note: Courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better. Students who do not have a B- or better in the specified courses must consult with their advisors about a plan to retake the course or complete additional work.

- EDHD 1930 - Community Based Field Experience & Seminar *
- HDFR 2110 - Child Ecology
- EDFN 1000 - Equality, Rights & Education
- INTE 2000 - Digital Teaching and Learning

- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms *

Take **all** of the following Education and Human Development - Elementary Education major courses:

Note: courses marked with an asterisk require a grade of B- or better; all other courses require a grade of C or better.

- EDHD 2930 - Learning & Development Field Experience & Seminar * (2 credits)
- LCRT 3720 - Introduction to Writing Development and Teaching
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade
- CLDE 2000 - CLDE Foundations
- EDHD 3930 - Diverse Learners Field Experience & Seminar *
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- CLDE 3830 - Culturally and Linguistically Responsive Teaching through STEM
- SPED 4300 - Family, Professional, and Community Collaboration
- CLDE 4020 - Responsive Classroom Communities *
- MTED 3040 - Mathematics for Elementary Teachers *
- SPED 4400 - Universal Design for Learning (UDL)

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- LCRT 4001 - Elementary Literacy Instruction and Assessment Part 2
- MTED 4002 - Elementary Mathematics Teaching I
- MTED 4003 - Elementary Mathematics Teaching II
- SCED 4004 - Elementary Science Teaching
- UEDU 4040 - Planning for Learning
- UEDU 4050 - Elementary Capstone: Planning, Instruction & Assessment
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III

EDUCATION AND HUMAN DEVELOPMENT, ELEMENTARY

EDUCATION BA WITH CLDE ADDED ENDORSEMENT

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

We will prepare you to become a highly effective, innovative and compassionate elementary teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

A unique feature of this pathway is that you will be able to add a Culturally Linguistically Diverse Education, CLDE, endorsement to your credentials. Essentially, you will leave this program with both the Elementary Education License and CLDE Endorsement. This means you are prepared to teach K-6 and culturally & linguistically diverse students, making you highly employable and desirable to schools!

Students in this track have the opportunity to apply for the BAMA during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

- EDHD 1930 - Community Based Field Experience & Seminar *
- EDHD 2930 - Learning & Development Field Experience & Seminar *
- EDHD 3930 - Diverse Learners Field Experience & Seminar *

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- LCRT 4001 - Elementary Literacy Instruction and Assessment Part 2
- MTED 4002 - Elementary Mathematics Teaching I
- MTED 4003 - Elementary Mathematics Teaching II
- SCED 4004 - Elementary Science Teaching
- UEDU 4040 - Planning for Learning
- UEDU 4050 - Elementary Capstone: Planning, Instruction & Assessment
- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III

Embedded into the program is the coursework for a added endorsement in CLDE. In order to earn the CLDE endorsement, students must complete each of the courses below with a minimum grade of B-, as well as assemble a CLDE portfolio.

- CLDE 2000 - Foundations of CLDE
- CLDE 3680 - Spanish for Elementary Educators
- CLDE 3830 - Culturally and Linguistically Responsive Teaching in STEM
- CLDE 4700 - Social Studies for Multilingual Learners

- EDHD 2930 - Learning and Development Field Experience and Seminar
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade
- CLDE 4020 - Responsive Classroom Communities
- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- LCRT 4001 - Elementary Literacy Instruction and Assessment Part 2

Additional General Electives hours may be needed to reach the required 126 hours for the BA

EDUCATION AND HUMAN DEVELOPMENT, SPECIAL EDUCATION BA (ELEMENTARY EDUCATION ENDORSEMENT)

Introduction

Please click [here](#) to see School of Education & Human Development information.

The need for highly qualified, culturally and linguistically responsive special education teachers is on the rise in Colorado and the nation. According to the United States Bureau of Labor Statistics, it is estimated that nearly 280,000 special education teaching positions will need to be filled over the next decade (2016). The Special Education track of CU Denver's bachelor's degree in Education and Human Development prepares students to step into these roles and address the exceptional learning needs of individuals ages five to 21.

The Special Education program combines cutting-edge research with real classroom experiences. You will learn from faculty who are locally, nationally and internationally recognized for their research and innovation. They will provide you with critical knowledge and interventions to teach students with exceptional learning needs. You will be able to apply your new knowledge through frequent, powerful hands-on classroom experiences, and benefit from the advantage of our rich 20-year history of school and community partnerships.

The program is designed to enhance your ability to effectively support diverse, urban students with disabilities in K-12 public schools and alternative settings. Faculty members will foster your growth as a teacher and educational leader who promotes inclusion and equity for all. This program strives to help you:

- Gain a holistic understanding of special education

- Collaborate with schools and communities
- Engage in culturally and linguistically responsive teaching and leadership\

A unique feature of this pathway is that you will be able to add the Colorado Department of Education's elementary endorsement to your credentials. Essentially, you'll leave this program with both the Special Education License **and** Elementary Education Endorsement through the Colorado Department of Education. This means you are prepared to teach Special Education AND K-6, making you highly employable and desirable to schools!

Students in this track have the opportunity to apply for the BAMA during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

General Requirements

To earn this 126 credit hour BA, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements. Students should declare their intent to pursue this degree as early as possible to avoid taking classes that not count toward their degree.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 126 semester hours for the Education and Human Development, EDHD, - BA Special Education Track
2. Students must take the appropriate Praxis Test during their Junior year to complete licensure requirements.
3. An application process is required to continue into your last year/Professional Year. After successfully completing the first 3 years of the program, all students

must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

4. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD BA Special Education.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following EDHD - BA Special Education major courses, a grade of C or better is required:

Note: Courses with an asterisk require a grade of B- or better

- CLDE 2000 - CLDE Foundations
- CLDE 4020 - Responsive Classroom Communities *
- EDFN 1000 - Equality, Rights & Education
- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education *
- HDFR 2110 - Child Ecology **or** HDFR 3050 - Children's Thinking and Assessment
- INTE 2000 - Digital Teaching and Learning
- LCRT 3720 - Introduction to Writing Development and Teaching
- LCRT 4710 - Primary Literacy for Diverse Learners: Pre K-3rd Grade
- MTED 3040 - Mathematics for Elementary Teachers*
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms *
- EDHD 1930 - Community Based Field Experience & Seminar *
- EDHD 2930 - Learning & Development Field Experience & Seminar *
- EDHD 3930 - Diverse Learners Field Experience & Seminar *
- SPED 4151 - Slashing Stigmas: Promoting Positive Behaviors
- SPED 4300 - Family, Professional, and Community Collaboration
- SPED 4400 - Universal Design for Learning (UDL)
- SPED 4740 - Intersections of Literacy, Culture, & Exceptionality **or** CLDE 3830 - Culturally and Linguistically Responsive Teaching through STEM
- SPED 4780 - Literacy Intervention for Exceptional Learners

Take **all** of the following Professional Year courses (a grade of B- or better is required in each course):

- LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1
- MTED 4002 - Elementary Mathematics Teaching I
- MTED 4003 - Elementary Mathematics Teaching II
- SPED 4010 - Intentional Interventions for Exceptional Learners
- SPED 4140 - Assessment: Inquiry, Instruction, & Intervention
- SPED 4500 - Transition and Secondary Methods in Special Education
- UEDU 4040 - Planning for Learning
- SPED 4931 - Internship & Learning Community I
- SPED 4932 - Internship & Learning Community II
- SPED 4933 - Internship & Learning Community III

Additional General Electives hours may be needed to reach the required 126 hours for the EDHD - BA Special Education.

ELECTRICAL ENGINEERING BS

Introduction

Please click [here](#) to see Electrical Engineering department information.

Program Objectives

The educational objectives of the electrical engineering undergraduate program are to produce graduates who, within a few years of graduation, will:

- Demonstrate professional advancement as productive practicing engineers who continuously develop their technical expertise, as demanded by the rapidly changing technologies.
- Attain enhanced and broadened knowledge via graduate education in either engineering or other fields such as science, mathematics, business, medicine, and law.

These objectives are consistent with the mission of the University of Colorado Denver, congruent with the goals of the College of Engineering, Design and Computing and reflective of the mission of the Department of Electrical Engineering.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Engineering, Design and Computing Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. The particular curriculum to be satisfied by each student is the one published in the catalog current at the time of his/her 30-hour senior checkout.
2. A graduation agreement should be requested by each student before completing registration for his/her last semester.
3. All electrical engineering students must satisfactorily complete ELEC 4309, Senior Design Project I, and ELEC 4319, Senior Design Project II, in consecutive semesters.
4. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
5. Students must maintain a minimum 2.0 GPA in all ELEC courses attempted.

Take all of the following Electrical Engineering courses:

- ENGR 1200 - Fundamentals of Engineering Design Innovation
- ELEC 1510 - Logic Design
- ELEC 1520 - Programming for Electrical Engineers
- ELEC 2132 - Circuit Analysis I
- ELEC 2142 - Circuit Analysis II
- ELEC 2520 - Embedded Systems Engineering 2
- ELEC 2531 - Logic Laboratory
- ELEC 2651 - Signal Processing
- ELEC 3133 - Electromagnetic Fields

- ELEC 3164 - Energy Conversion
- ELEC 3225 - Electronics II (beginning Spring 2021, this will be a 4 credit course)
- ELEC 3316 - Signals and Systems
- ELEC 3520 - Intelligent Systems: IoT & Cyber-Physical Systems
- ELEC 3724 - Energy Conversion Laboratory
- ELEC 3817 - Engineering Probability and Statistics
- ELEC 3900 - Circuit Design and Fabrication Laboratory
- ELEC 4309 - Senior Design Project I
- ELEC 4319 - Senior Design Project II
Note: Effective Spring 2020: Senior Design I will be offered only during fall semesters; Senior Design II will be offered only during spring semesters.
- ENGR 3400 - Technology and Culture

Take one Professional Elective courses. Professional electives may be selected from an approved list of upper-division or graduate-level courses or cooperative education. The electrical engineering advisor must be consulted prior to the selection of these electives.

Take **seventeen** semester hours from the following lists. At least **two** laboratories with an associated lecture course must be completed.

Control Systems

- ELEC 4136 - Control Systems Analysis
- ELEC 4276 - Digital Control Systems
- ELEC 4406 - Control Systems Laboratory
- ELEC 4466 - Adaptive Control System Design

Micro-electronics and VLSI

- ELEC 4005 - IC Design
- ELEC 4025 - Device Electronics
- ELEC 4555 - VLSI Circuit Simulation
- ELEC 5455 - Computer Methods for Device Electronics

Communications

- ELEC 4247 - Communication Theory
- ELEC 4248 - Digital Communication Systems

Fields, Waves and Optics

- ELEC 4133 - Advanced Electromagnetic Fields
- ELEC 4134 - Introduction to Microwave Circuit Design
- ELEC 4333 - Introduction to Computational Electromagnetics
- ELEC 4373 - Optical Engineering
- ELEC 4423 - Radio Frequency Laboratory

Computer Engineering and Embedded System Design

- ELEC 4501 - Microprocessor Based Design
- ELEC 4511 - Hardware-Software Interface
- ELEC 4521 - Microprocessor Laboratory
- ELEC 4561 - Hardware-Software Lab
- ELEC 4678 - Quantum Electronics
- ELEC 4723 - High Performance Computer Architecture

Energy and Power Systems

- ELEC 4164 - Electric Drive Systems
- ELEC 4170 - Electric Drive Systems Laboratory
- ELEC 4174 - Power Electronic Systems
- ELEC 4184 - Power Systems Analysis
- ELEC 4444 - Power Systems Laboratory
- ELEC 4474 - Power Electronics Laboratory

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3195 - Linear Algebra and Differential Equations **or**
- MATH 3191 - Applied Linear Algebra **and**
- MATH 3200 - Elementary Differential Equations

Take **all** of the following Science courses:

- ENGR 1130 - Chemistry for Engineers
- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II (optional)

ENGLISH WRITING, RHETORIC, AND TECHNOLOGY BA

Introduction

Please click [here](#) to see English department information.

The English Writing, Rhetoric and Technology major asks students to take one of two introductory courses, a multi-media course (two course options), a language theory/sociolinguistics course (three course option), and two advanced topics courses (with a range of options). The remainder of the degree is seven courses chosen from a long list, which can include two courses outside the English Writing focus (such as creative writing workshops, film courses, or courses in related majors). For all the details, please review the advising sheets for the English Writing, Rhetoric, and Technology major. Especially designed for future writers, the major offers a wide range of intensive writing experiences, combining such areas as rhetoric, and professional, general, and creative writing.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program offers courses both on-campus and online. You can take the English Writing, Rhetoric, and Technology Major fully online or fully on campus. Most of our students, however, end up taking a mix of online and on-campus courses in order to juggle changing work schedules and busy lives. You can decide what's best for you.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum

- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 36 ENGL credit hours toward the major.
2. Students must complete a minimum of 30 upper division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 ENGL upper division (3000-level and above) credits hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1010, 1020 and 2030 do not count toward the major, nor does CLEP or AP credit.
2. Students may not count more than 56 credit hours of ENGL credit toward the major; double majors in English Writing and English are exempt and are required to complete 63 credits of ENGL credit hours.
3. A maximum of 6 credit hours of Internship/cooperative education courses may be counted toward the major for students who have completed 60 or more credit hours. Internships count as upper-division electives.
4. Courses may not be used more than once between the Required Course Area and Electives. The exception is English 4190. Two 4190s are required in the Required Course Area, and one additional 4190 can count as an Elective Course. A maximum of three 4190s may count, in total and all must have different topics in order to count.
5. Courses toward the major may not be counted toward an English minor (Literature, Writing, Creative Writing or Film Studies).
6. A minimum of 15 upper division (3000-level and above) ENGL credit hours must be taken with CU Denver faculty.

Take **one** of the following courses:

- ENGL 2060 - Introduction to Writing & Digital Studies
- ENGL 2070 - Grammar, Rhetoric and Style

Take **one** the following Multimedia courses:

- ENGL 3084 - Multimedia Composition
- ENGL 4701 - Multimedia in the Community

Take **one** of the following Language Study courses:

- ENGL 3160 - Language Theory
- ENGL 4601 - Principles and Practices of Second Language Acquisition (by instructor's permission)
- ENGL 4651 - Second Language Writing (by instructor's permission)

Take **two** of the Advanced Writing Experience courses (must be with different topics):

- ENGL 4190 - Advanced Topics in Writing & Digital Studies
- ENGL 4190 - Advanced Topics in Writing & Digital Studies

Take **21 hours** (seven courses) of Elective Courses in Writing, Rhetoric, and Technology:

**A course does not count here and in the Required Course Areas above. The exception is English 4190. Two 4190s are required in the above section (A: Required Course Areas), and one additional 4190 can count below (in B: Elective Courses), if elected. (A maximum of three 4190s, in total.)

- ENGL 2060 - Introduction to Writing & Digital Studies
- ENGL 2070 - Grammar, Rhetoric and Style
- ENGL 3084 - Multimedia Composition
- ENGL 3154 - Technical Writing
- ENGL 3160 - Language Theory
- ENGL 3170 - Business Writing
- ENGL 3405 - Topics in Writing
- ENGL 3416 - Magazine Writing
- ENGL 3939 - Internship
- ENGL 4175 - Writing in the Sciences
- ENGL 4180 - Argumentation and Logic
- ENGL 4190 - Advanced Topics in Writing & Digital Studies
- ENGL 4280 - Proposal and Grant Writing
- ENGL 4601 - Principles and Practices of Second Language Acquisition (by instructor's permission)
- ENGL 4651 - Second Language Writing (by instructor's permission)
- ENGL 4701 - Multimedia in the Community
- ENGL 4740 - Honors in Writing
- ENGL 4995 - Senior Writing Project

- Up to **two** courses that are either 3000- or 4000-level courses in the English Department (such as creative writing workshops, film courses, or literature courses), or up to two writing courses in other departments (prior approval from an advisor required for courses outside of English).

ENGLISH, CREATIVE WRITING OPTION BA

Introduction

Please click [here](#) to see English department information.

The course of study offered by the Department of English is designed to develop a student's ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance, and to provide the historical perspective from which to evaluate contemporary writing and to produce it. Students who complete the program in English are expected to have mastered the ability to express their ideas in creative work.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major
- Students planning to major in English must consult with an advisor as soon as possible.
- Students may choose only one of the three options in the English major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

ENGLISH, LITERATURE OPTION BA

Introduction

Please click [here](#) to see English department information.

The course of study offered by the Department of English is designed to develop a student's ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance, and to provide the historical perspective from which to evaluate contemporary writing. Careful study of the use of the English language also should help a student to resist the misuse and corruption of language in politics, the media, and elsewhere. Students who complete the program in English are expected to have mastered the ability to express their ideas in clear and succinct prose.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

- ENTP 3230 - Small Business Accounting and Finance
- ENTP 3299 - Business Model Development & Planning

Take **three** 3000 or 4000-level ENTP electives.

ETHNIC STUDIES BA

Introduction

Please click [here](#) to see Ethnic Studies department information.

The skills and knowledge that students gain while pursuing a BA degree with a Major in Ethnic Studies at CU Denver are transferable to a variety of careers. In common with other liberal arts graduates, those with a degree in ethnic studies will be trained in creative and critical thinking, complex reasoning, and effective communication. In addition, ethnic studies graduates will have cultural competency skills that are highly valued by employers, who serve increasingly diverse clientele. Other occupations that employ many ethnic studies graduates include: law, teaching, journalism, marketing, community organizing and social work. Ethnic studies graduates also find work in non-profit agencies and in federal, state, and local government agencies.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

FILM AND TELEVISION EMPHASIS, FILM AND TELEVISION BFA

Introduction

Please click [here](#) to see general Film & Television information.

The Department of Film & Television offers a Bachelor of Fine Arts (BFA) in Film and Television. This BFA emphasis provides training at a professional skill level, culminating in a comprehensive review that requires successful completion of numerous film/TV projects, varying in styles from fiction to documentary. The emphasis is designed so that students will progress through the semesters as a cohort group. Undergraduates will not only work on their own projects but also will assist on group projects such as our episodic web series. Students will graduate with both a theoretical and historical perspective, as well as a hands-on experience in film and television production. This prepares students to begin their careers with entry-level positions in film or television, start their personal creative work or continue their studies in a graduate program. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- Students seeking this BFA emphasis should apply to the university and be accepted under the Film & Television BFA program. The Department of Film & Television strongly encourages fall admission and requires a secondary departmental application. Please contact David.Walter@ucdenver.edu for application information. Given the cohort nature of the program, students should be aware that failing to take courses in order and/or failing to earn the minimum required grade in any course may delay their graduation date.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. At least 24 of the major semester hours must be earned at CU Denver.

Take **all** of the following Film and Television Emphasis courses:

- FITV 1001 - Fundamentals of Film and Television
- FITV 1040 - Lighting, Grip, and Sound Introductory Workshop
- FITV 1550 - Scriptwriting 1 - Fiction

- FITV 1050 - Production I Basics of Film and Television
- FITV 1200 - The Culture of Television
- FITV 1600 - Writing Short Film:Non Fiction
- FITV 1110 - Production Design: Theatre, Film and Video

- FITV 2040 - Introduction to Digital Effects
- FITV 2090 - Producing for Film and Television
- FITV 2220 - Acting for Film and Television
- FITV 2650 - Sound for Film and TV

- FITV 2050 - Production II Film and Television Techniques
- FITV 2055 - Documentary Production
- FITV 2670 - Cinematography

- FITV 3050 - Junior Project Production
 - FITV 3570 - Directing for Film and Television
 - FITV 3200 - Film History 1
 - FITV 3500 - Writing for Episodic Television
-
- FITV 3060 - Junior Project Post Production
 - FITV 3300 - Film History 2
-
- **Either** FITV 3040 - Live TV Multi-camera Directing **or** FITV 3090 - Producing Episodic Television
 - FITV 4000 - Senior Thesis Production
-
- FITV 4010 - Senior Thesis Post-Production

Take **three** semester hours of upper-division Film and Television elective.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates, a list of approved electives, and more information about this emphasis.

FINANCE MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

The principal areas of study in finance are financial management in small and large businesses, investments, financial institutions, and international finance. The study of finance is intended to provide an understanding of fundamental theory and practice pertaining to finance, to make sound financial decisions. Students are taught to think logically about financial problems, so that they can formulate and implement value maximizing decisions and policies for the business. For this purpose, it is necessary to understand the importance of finance in the economy and the functions and purposes of monetary systems, credit, prices, money markets and financial institutions. Emphasis is placed on financial policy, management, control, analysis, and decision making.

The finance major provides students with the skills to succeed in all areas of finance. Numerous job opportunities exist in the field of business finance and with financial institutions, mutual funds, securities firms, personal wealth management firms, and financial planning firms including positions involving an understanding and sale of securities.

Program Delivery

- This is an on-campus program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students following this major must take FNCE 4370 as their international studies course.
2. A grade of C or higher must be earned in all courses that are used as prerequisites as well as in FNCE 4500. These are noted with an asterisk.

Take **all** of the following required courses:

- FNCE 3500 - Management of Business Capital *
- FNCE 3600 - Financial Markets and Institutions
- FNCE 3700 - Investment and Portfolio Management *
- FNCE 4500 - Corporate Financial Decisions *

Take **three** FNCE electives

Take **one** FNCE, CMDET or RISK elective

FINANCIAL MANAGEMENT MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

The financial management major provides students with the skills needed to succeed in careers in financial management. The business community has affirmed that students need skills in both the accounting and finance areas. The financial management specialty incorporates knowledge of corporate financial management, financial institutions and markets, investments, financial accounting and managerial accounting, accounting information systems and information technology. Career opportunities include corporate financial management, finance/accounting positions with financial institutions and accounting positions that are not CPA-track. The major provides a solid finance and accounting background for other business positions as well.

Program Delivery

- This is an on-campus program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [Business School Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Financial Management students must complete FNCE 4370 - International Financial Management, to fulfill the International Studies requirement.
2. All courses with an asterisk must be completed with a C or higher.
 - ACCT 3220 - Intermediate Financial Accounting I *
 - ACCT 3230 - Intermediate Financial Accounting II
 - ACCT 4054 - Accounting Information Systems * (Replaces ISMG 3000 in Business Core)
 - ACCT 4410 - Fundamentals of Federal Income Tax
 - FNCE 3500 - Management of Business Capital *
 - FNCE 3600 - Financial Markets and Institutions
 - FNCE 3700 - Investment and Portfolio Management *
 - FNCE 4500 - Corporate Financial Decisions *
 - RISK 3809 - Introduction to Risk Management

Note

- Students should note that all finance, risk and accounting courses are not offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.
- Students also have the option to complete a Financial Management major with a specialization in Information Systems. [Click here to view this option.](#)

FINANCIAL MANAGEMENT MAJOR - BS IN BUSINESS ADMINISTRATION WITH SPECIALIZATION IN INFORMATION SYSTEMS

Introduction

Please [click here](#) to see Business School information.

The Financial Management major with a specialization in Information Systems provides students with skills that they need to succeed in careers that bridge the fields of finance and information systems.

This specialty incorporates knowledge of financial management and markets, accounting and information systems and technology. This specialization provides the manager with knowledge of financial information systems, databases, risk management and accounting systems.

Job opportunities include positions that require knowledge of both financial management and business information systems and databases. The specialization provides a solid accounting/finance and information systems background for other finance specialist and business analyst positions as well.

Program Delivery

- This is an on-campus program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete FNCE 4370 - International Financial Management, to fulfill the International Studies requirement.
2. All courses with an asterisk must be completed with a grade of C or higher.

Finance and Risk Management:

Take **all** of the following courses:

- FNCE 3500 - Management of Business Capital *

- FNCE 3600 - Financial Markets and Institutions
- FNCE 3700 - Investment and Portfolio Management *
- FNCE 4500 - Corporate Financial Decisions *
- RISK 3809 - Introduction to Risk Management

Accounting:

Take **all** of following courses:

- ACCT 3220 - Intermediate Financial Accounting I *
- ACCT 3230 - Intermediate Financial Accounting II
- ACCT 4054 - Accounting Information Systems *
- (Replaces ISMG 3000 in Business Core)
- ACCT 4410 - Fundamentals of Federal Income Tax

Information Systems:

Take **all** of the following courses:

- ISMG 3500 - Enterprise Data and Content Management
- ISMG 3600 - System Strategy, Architecture and Design
- ISMG 4780 - Accounting and Information Systems Processes and Controls
- ISMG 4900 - Project Management and Practice (Also fulfills BGEN Experiential Learning requirement)

Note

Students should note that not all finance, risk and accounting courses are offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.

FRENCH BA

Introduction

Please click [here](#) to see Modern Languages department information.

Students wishing to improve their linguistic skills as well as their knowledge of Francophone literature and culture may choose this major.

The French program offers courses in advanced language, linguistics, literature, civilization, culture and business, all taught exclusively in French. A minor is also offered. All French majors are strongly encouraged to participate in a study abroad program. Please see your French department advisor for information about opportunities to include study abroad as part of your major.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- To be admitted to major status in French, students must have an overall GPA of C+ (2.3).
- Students presenting four years of high school French (Level IV) for admission to CU Denver must see a French advisor before enrolling in courses for the major.
- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 30 FREN credit hours.
2. Students must complete a minimum of 30 upper division (3000-level or above) FREN credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative GPA of 2.5 for all courses applied to major requirements. All graded attempts in required and elective courses are

calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

4. Students must complete a minimum of 18 FREN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. French majors are advised to take MATH 1010 or 2830 for their CU Denver Core Curriculum Mathematics requirement.
2. All courses counting toward the French major must be taught in French.
3. FREN 3200 does not count toward the major.
4. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major only with departmental approval before enrollment in those courses.
5. Students with advanced placement credits from high school must see a French advisor about course equivalencies.
6. Upon declaring a major in French, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that students have their transcripts reviewed by their advisor before enrolling in their final 30 credit hours at CU Denver. Failure to do so may result in delay of graduation.
7. During their final semester in the language, French major students participate in an oral proficiency interview and take a written outcomes assessment exam to measure their level of proficiency and mastery of key concepts.
8. *Note:* Students must take at least one literature course and at least one culture or civilization course.

Take **all** of the following required courses:

- FREN 3010 - French Phonetics and Pronunciation
- FREN 3020 - Conversation through Film
- FREN 3050 - Advanced Grammar and Composition
- FREN 3060 - Advanced French Language Skills

Take **three** elective FREN courses at the 4000-level.

Take **three** elective FREN courses at the 3000 or 4000-level.

GEOGRAPHY - BA

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

The Geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 33-34 GEOG, GEOL or ENVS credit hours.
2. Students must complete a minimum of 24 upper division (3000-level and above) GEOG credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 GEOG, GEOL, or ENVS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Only 3 credits of Travel Study may be counted toward graduation requirements.
2. Undergraduate students may count up to 6 credit hours of independent study or internship (any combination of GEOG 3840, 4840, 4880, or 3939) towards elective credit in the major as approved by the undergraduate coordinator. Students may not receive more than 3 credit hours per independent study section. No more than 3 credit hours of independent study may be taken with the same instructor or in the same term.

Take **all** of the following required courses:

- GEOG 1202 - Introduction to Physical Geography
or
- ENVS 1044 - Introduction to Environmental Sciences **and**
- ENVS 1045 - Introduction to Environmental Sciences Laboratory

- GEOG 1302 - Introduction to Human Geography **or**
- GEOG 1102 - World Regions Global Context

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 3232 - Weather and Climate
- GEOG 3412 - Globalization and Regional Development

Take **six** additional GEOG, GEOL, or ENVS courses, **including at least one course from each of the following subfields:**

Physical Geography

- GEOG 3240 - Colorado Climates
- GEOG 4010 - Landscape Biogeochemistry
- GEOG 4020 - Earth Environments and Human Impacts
- GEOG 4240 - Applied Geomorphology
- GEOG 4251 - Fluvial Geomorphology
- GEOG 4270 - Glacial Geomorphology
- GEOG 4280 - Environmental Hydrology
- GEOG 4305 - Water Quality and Resources
- GEOG 4720 - Climate Change: Causes, Impacts and Solutions
- GEOG 4731 - Mountain Biogeography

- GEOG 4740 - Soil Science and Geography

Human Geography

- ENVS 1342 - Environment, Society and Sustainability
- GEOG 1602 - Urban Studies and Planning
- GEOG 2202 - Hazards to Disasters: Perception and Management
- GEOG 3401 - Geography of Food and Agriculture
- GEOG 3430 - Geography of Tourism
- GEOG 3440 - Ecotourism
- GEOG 3450 - Cultural Heritage and Tourism
- GEOG 3501 - Geography of Health
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4300 - Children's Geographies
- GEOG 4301 - Population, Culture, and Resources
- GEOG 4335 - Contemporary Environmental Issues
- GEOG 4350 - Environment and Society in the American Past
- GEOG 4420 - The Politics of Nature
- GEOG 4440 - Science, Policy and the Environment
- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4460 - Sustainable Urban Agriculture Field Study I
- GEOG 4470 - Sustainable Urban Agriculture Field Study II
- GEOG 4640 - Urban Geography: Denver and the U.S.
- GEOG 4680 - Urban Sustainability: Perspectives and Practice
- GEOG 4710 - Disasters, Climate Change, and Health

Regional Geography

- GEOG 1102 - World Regions Global Context
- GEOG 1302 - Introduction to Human Geography
- GEOG 3100 - Geography of Colorado
- GEOG 3120 - Geography of Europe
- GEOG 3130 - Central America and the Caribbean
- GEOG 3140 - Geography of South America
- GEOG 3150 - Middle East
- GEOG 3160 - Geography of China

Techniques for Geographical Analysis

- GEOG 4080 - Introduction to GIS (highly recommended; pre-req to most of the advanced GISci courses)
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
- GEOG 4070 - Remote Sensing II: Advanced Remote Sensing
- GEOG 4081 - Cartography and Computer Mapping
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4090 - Environmental Modeling with Geographic Information Systems
- GEOG 4091 - Open Source Software for Geospatial Applications
- GEOG 4092 - GIS Programming and Automation
- GEOG 4095 - Deploying GIS Functionality on the Web
- GEOG 4220 - Environmental Impact Assessment
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4235 - GIS Applications in the Health Sciences
- GEOG 4770 - Applied Statistics for the Natural Sciences

Community/Professional Experience (optional, but highly recommended)

- GEOG 3939 - Internship

Students may not receive more than 3 credit hours per independent study section. No more than 3 credit hours of independent study may be taken with the same instructor or in the same term.

Take **all** of the following required courses:

- ENVS 1044 - Introduction to Environmental Sciences **and**

- ENVS 1045 - Introduction to Environmental Sciences Laboratory

or

- GEOG 1202 - Introduction to Physical Geography

- GEOG 1302 - Introduction to Human Geography

or

- GEOG 1102 - World Regions Global Context

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 3232 - Weather and Climate
- GEOG 3412 - Globalization and Regional Development

Take **both** of the following courses:

- ENVS 1342 - Environment, Society and Sustainability
- GEOG 4335 - Contemporary Environmental Issues

Take **two** of the following courses:

- GEOG 4265 - Sustainability in Resources Management
- GEOG 4301 - Population, Culture, and Resources
- GEOG 4420 - The Politics of Nature
- GEOG 4440 - Science, Policy and the Environment

Take **three** of the following environmental studies courses:

- GEOG 3401 - Geography of Food and Agriculture
- GEOG 3440 - Ecotourism
- GEOG 3501 - Geography of Health
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4301 - Population, Culture, and Resources
- GEOG 4305 - Water Quality and Resources
- GEOG 4350 - Environment and Society in the American Past
- GEOG 4420 - The Politics of Nature
- GEOG 4440 - Science, Policy and the Environment
- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4460 - Sustainable Urban Agriculture Field Study I

- GEOG 4680 - Urban Sustainability: Perspectives and Practice
- GEOG 4710 - Disasters, Climate Change, and Health
- GEOG 4720 - Climate Change: Causes, Impacts and Solutions

Take **one** of the following Techniques for Environmental Analysis courses:

- GEOG 4080 - Introduction to GIS (highly recommended; pre-req to most of the advanced GISci courses)
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (pre-req for Remote Sensing II)
- GEOG 4085 - GIS Applications for the Urban Environment

3. Students should consult with the School of Education and Human Development teacher licensure program early and regularly for detailed information on how best to approach the degree with licensure.

Take **one sequence** of either general biology (BIOL 2051 and 2061 with labs) or general chemistry (CHEM 2031 and 2061 with labs). If applying to the MS in Environmental Sciences program, students are advised to take both both sequences.

Course choices with descriptions are below:

- BIOL 2051 - General Biology I **and**
- BIOL 2071 - General Biology Laboratory I

- BIOL 2061 - General Biology II **and**
- BIOL 2081 - General Biology Laboratory II

OR

- CHEM 2031 - General Chemistry I **and**
- CHEM 2038 - General Chemistry Laboratory I

- CHEM 2061 - General Chemistry II **and**
- CHEM 2068 - General Chemistry Laboratory II

Take **all** of the following required courses:

- ENVS 1044 - Introduction to Environmental Sciences **and**
- ENVS 1045 - Introduction to Environmental Sciences Laboratory
- **or**
- GEOG 1202 - Introduction to Physical Geography

- GEOG 1302 - Introduction to Human Geography **or**
- GEOG 1102 - World Regions Global Context

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 3232 - Weather and Climate
- GEOG 3412 - Globalization and Regional Development

Take **both** of the following Environmental Science courses:

- GEOG 4020 - Earth Environments and Human Impacts
- GEOG 4265 - Sustainability in Resources Management

Take **one** of the following courses:

- GEOG 3240 - Colorado Climates
- GEOG 4010 - Landscape Biogeochemistry
- GEOG 4240 - Applied Geomorphology
- GEOG 4251 - Fluvial Geomorphology
- GEOG 4270 - Glacial Geomorphology
- GEOG 4280 - Environmental Hydrology
- GEOG 4305 - Water Quality and Resources
- GEOG 4720 - Climate Change: Causes, Impacts and Solutions
- GEOG 4731 - Mountain Biogeography
- GEOG 4740 - Soil Science and Geography

Take **one** upper-division Biology or Chemistry course related to the student's Environmental Science interest.

Take **one** of the following courses:

- ANTH 4050 - Quantitative Methods in Anthropology
- GEOG 4770 - Applied Statistics for the Natural Sciences
- MATH 2830 - Introductory Statistics
- PSYC 2090 - Statistics and Research Methods

Take **one** of the following Geo-Spatial Analysis courses:

- GEOG 4080 - Introduction to GIS (highly recommended; pre-req to most of the advanced GISci courses)
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (pre-req for Remote Sensing II)
- GEOG 4085 - GIS Applications for the Urban Environment

- GEOG 4770 - Applied Statistics for the Natural Sciences
- MATH 2830 - Introductory Statistics
- PSYC 2090 - Statistics and Research Methods

Take **one** of the following Geo-Spatial Analysis courses:

- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (pre-req for Remote Sensing II)

- GEOG 4080 - Introduction to GIS (highly recommended; pre-req to most of the advanced GIS courses)
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4235 - GIS Applications in the Health Sciences

Community/Professional Experience (optional, but highly recommended)

- GEOG 3939 - Internship

GEOGRAPHY - URBAN STUDIES AND PLANNING BA

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

The Geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty.

Geography and urban and regional planning share a common concern for the spatial configuration of the places that we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the Master of Urban and Regional Planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree and if interested in this option should work closely with the option advisor in the selection of coursework. (Please see the Graduate Catalog for more information on this graduate program.)

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 39-40 GEOG, GEOL or ENVS credit hours.
2. Students must complete a minimum of 24 upper division (3000-level and above) GEOG credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 GEOG, GEOL or ENVS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Only 3 credits of Travel Study may be counted toward graduation requirements.
2. Undergraduate students may count up to 6 credit hours of independent study or internship (any combination of GEOG 3840, 4840, 4880, or 3939) towards elective credit in the major as approved by the undergraduate coordinator. Students may not receive more than 3 credit hours per independent study section. No more than 3 credit hours of independent study may be taken with the same instructor or in the same term.

Take **all** of the following required courses:

- GEOG 1202 - Introduction to Physical Geography
or
- ENVS 1044 - Introduction to Environmental Sciences **and**
- ENVS 1045 - Introduction to Environmental Sciences Laboratory

- GEOG 1302 - Introduction to Human Geography
- **or**
- GEOG 1102 - World Regions Global Context

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 3232 - Weather and Climate
- GEOG 3412 - Globalization and Regional Development

Take **all** of the following Urban Studies courses:

- GEOG 1602 - Urban Studies and Planning
- GEOG 4640 - Urban Geography: Denver and the U.S.
- GEOG 4680 - Urban Sustainability: Perspectives and Practice

Take **four** of the following Urban Planning courses:

- GEOG 4000/ URPL 5010 - Planning Methods
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4400 - Regional Economic Systems
- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4460 - Sustainable Urban Agriculture Field Study I
- GEOG 4630/ URPL 6550 - Transportation Planning/Policy
- GEOG 4670/ URPL 6555 - Transportation, Land Use, and the Environment
- GEOG 4710 - Disasters, Climate Change, and Health
- URPL 5000 - Planning History and Theory
- URPL 6300 - Community and Environmental Health Planning
- URPL 6650 - International Development Planning: Theory and Practice

Take **one** of the following Techniques for Urban Analysis courses:

- GEOG 4080 - Introduction to GIS (pre-req to most of the advanced GISci courses)
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (pre-req for Remote Sensing II)
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4235 - GIS Applications in the Health Sciences

Community/Professional Experience (optional, but highly recommended)

- GEOG 3939 - Internship

HISTORY BA

Introduction

Please click [here](#) to see History department information.

The bachelor's degree in history provides students with a firm grounding for advanced studies in education, librarianship, law, business and public service, as well as graduate work in the humanities and social sciences broadly. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This major can be complete on campus or with a combination of on-campus and online courses. Many core and upper-division courses are offered online.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 36 HIST credit hours.
2. Students must complete a minimum of 18 upper-division (3000-level and above) HIST credit hours.

3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.5. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 HIST credit hours with CU Denver faculty.

Program Allowances or Restrictions

1. 15 of the 18 upper division level credit hours must be taken at the 4000 level, including HIST 4839.

Take all of the following required courses:

- HIST 3031 - Theory and Practice of History: An Introduction to the Major
- HIST 4839 - History Seminar - Students must complete HIST 3031 with a grade of C- (1.7) or better before enrolling in HIST 4839.
- Take a minimum of six credit hours in each of the following areas: United States, Europe and world (Africa, Asia, Latin America). At least three credit hours in each area must be upper-division (3000 and 4000 level).

US Distribution:

1361, 1362, 1381, 1400, 2001, 3230, 3121, 3232, 3235, 3297, 3343, 3345, 3347, 3348, 3349, 3360, 3366, 3396, 3601, 4133, 4201, 4209, 4210, 4212, 4213, 4216, 4217, 4219, 4220, 4222, 4223, 4225, 4226, 4227, 4228, 4229, 4230, 4231, 4232, 4234, 4235, 4236, 4238, 4240, 4242, 4243, 4244, 4245, 4306, 4308, 4475, 4491, 4492, 4493, 4494, 4504, 4645

Europe Distribution:

1211, 1212, 1400, 3121, 3480, 3481, 3482, 3484, 3485, 3486, 3487, 3488, 3706, 4027, 4028, 4029, 4030, 4031, 4034, 4035, 4046, 4051, 4062, 4071, 4074, 4081, 4082, 4083, 4303, 4306, 4307, 4346, 4347, 4348, 4321, 4471, 4472, 4621

World Distribution:

1016, 1026, 3121, 3350, 3364, 3451, 3460, 3469, 3470, 3471, 3483, 3500, 3606, 3616, 4032, 4055, 4075, 4076, 4411, 4412, 4414, 4415, 4416, 4417, 4418, 4420, 4421, 4422, 4431, 4451, 4455, 4460, 4461, 4462, 4490, 4501, 4503, 4621, 4622

Electives

The degree requires a minimum of 12 additional semester hours of HIST electives, which can be satisfied by a combination of additional history courses, history internships, or history honors

independent study for eligible students. NOTE: Any courses listed above may be used to fulfill the elective requirements once the area distributions have been met.

HUMAN DEVELOPMENT AND FAMILY RELATIONS BS

Introduction

Please [click here](#) to see School of Education & Human Development information.

The Human Development and Family Relations (HDFR) Bachelor of Science program prepares students to effectively serve individuals and families in a wide variety of environments. HDFR is committed to a curriculum rich in family diversity and social justice. This 120 credit-hour interdisciplinary program explores family systems and the ecological development of individuals across their life span. The HDFR program leads to certification in the field.

Program Delivery

- This is an on-campus or online program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Major

- [Click here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 120 semester hours for the Human Development and Family Relations BS.

2. A minimum GPA of 2.0, C or better grade, is required for all courses applying to Human Development and Family Relations major requirements.
3. Courses can be "double dipped" - i.e., used to satisfy both a general education requirement and a major course. If double dipping courses, additional HDFR courses will have to be taken to get to the 120 major required credits.
4. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following Human Development and Family Relations major courses with a grade of C or better:

- HDFR 1010 - Life Span Development in Ecological Settings
- HDFR 2000 - Introduction to Family and Community Services
- HDFR 2080 - Sex, Human Development and Family Systems
- HDFR 2200 - Love, Family and Human Development
- HDFR 3002 - Preparing to be a HDFS Professional
- HDFR 3020 - Black and Latino Children in Families and Schools **or** other HDFS cultural diversity core class
- HDFR 3250 - Families in Global Perspectives
- HDFR 3400 - Love, Couples and Family
- HDFR 4001 - Families and Parenting
- HDFR 4002 - Family Life and Community Programming I
- HDFR 4003 - Leadership and Organizations
- HDFR 4004 - Family and Comm. Prog. II Grant Writing/Fundraising
- HDFR 4010 - Family and Cultural Diversity
- HDFR 4075 - Family Policy & Law
- HDFR 4080 - Global Family Resource Management
- HDFR 4260 - Family Systems and Social Justice
- HDFR 4930 - Human Development and Family Relations Internship
- MATH 2830 - Introductory Statistics
- RSEM 4100 - Research and Statistics in Families and Human Development

Take **one** of the following HDFS Family Diversity courses with a grade of C or better:

- HDFR 1030 - Who am I? Cultural Identity, Family, Diverse Soc Sys
- HDFR 1080 - Lifespan Issues in Family Violence
- HDFR 4040 - Latino Families in School and Communities
- HDFR 4045 - Abuelos (Grandparents) Latino Families
- HDFR 4888 - LGBTQ Family Systems
- HDFR 4850 - Family Systems Therapy, Religion and Spirituality

Take **one** of the following HDFR Human Development and Learning courses with a grade of C or better:

- HDFR 1000 - Global Human Development & Learning
- HDFR 2110 - Child Ecology
- HDFR 3050 - Children's Thinking and Assessment
- HDFR 3100 - Adolescent Ecology
- HDFR 4200 - Adult Ecology
- HDFR 4300 - Families in Later Life

HDFR Required Concentration Options

Select a 15 semester hour concentration area from those listed below

Pre-individual, Couple and Family Therapy/Counseling:

Provides an introduction to clinical helping professions through systems and strengths therapy perspectives, and includes English and bilingual tracks.

- HDFR 3400 - Love, Couples and Family
- HDFR 4080 - Global Family Resource Management
- HDFR 4090 - Helping Profession Skills in HDFR
- 2 Counseling Electives

Leadership and Community-based Organizations:

Provides a comprehensive understanding and preparation for students to work in and lead community-based organizations including secular, faith-based, for-profit, nonprofit, school-based, state, federal and international organizations.

- HDFR 4002 - Family Life and Community Programming I
- HDFR 4003 - Leadership and Organizations
- HDFR 4004 - Family and Comm. Prog. II Grant Writing/Fundraising
- HDFR 4080 - Global Family Resource Management
- One additional HDFR course in leadership and organizations

Higher Education Environments (Pre-Higher Education and Student Affairs):

Provides students with an introduction to higher education and student affairs administration and possible careers at various universities, community colleges and liberal arts colleges.

- HDFR 4050 - Foundations of Student Affairs
- HDFR 4003 - Leadership and Organizations
- HDFR 4500 - Diversity, Inclusion, Social Justice in Higher Education
- 2 Additional *HDFR/HESA courses

Educational Foundations and Social Justice:

Provides students with a foundation to understand justice within familial, educational and community settings. This concentration works well with the previously listed concentrations and is also offered in an English and a bilingual track.

- EDFN 1000 - Equality, Rights & Education
- EDFN 3000 - Undocumented Mexican Immigration
- EDFN 4000 - Food Justice in City & Schools
- Two additional EDFN courses selected in consultation with faculty advisor

Early Childhood Development:

- ECED 2930 - Infant & Toddler Field Experience & Seminar
- ECED 4030 - Nutrition, Health, and Safety
- ECED 4060 - Working with Families, Professionals, and Communities
- ECED 4070 - Development and Education of Infant and Toddlers
- ECED 4202 - Child Guidance and Classroom Community

Bilingual (Spanish) Family and Community Services:

Provides students with the linguistic ability to work with Spanish-speaking families and communities. Courses will be delivered in 70 percent Spanish and 30 percent English. Students in this concentration will also be able to complete any of the other concentrations in the program.

- HDFR 2110 - Child Ecology
- HDFR 4040 - Latino Families in School and Communities
- HDFR 4045 - Abuelos (Grandparents) Latino Families
- 2 HDFR Bilingual Elective

Family Gerontology:

Provides students with an ecological understanding of culturally and linguistically diverse families in later life. This concentration provides students with insight about individuals' age in families and the community. It also exposes students to promising practices for better serving older adults.

- HDFR 4045 - Abuelos (Grandparents) Latino Families
- HDFR 4200 - Adult Ecology
- HDFR 4300 - Families in Later Life
- *HDFR Family Gerontology Elective
- Existing course in sociology, nursing or other social sciences approved by advisor

*Courses to be developed are indicated with an asterisk

**Must be approved by your advisor

Second HDFR Concentration or Approved Minors Listed Below

Select an approved minor and complete the additional hours to reach 120 credits.

- Sociology
- Spanish
- Criminal Justice
- Psychology
- Women and Gender Studies
- Other minors based on the student's interest and career goals and approved by faculty advisor**

**Must be approved by your advisor

HDFR Policies

Transfer Credit

HDFR is a transfer friendly major. HDFR will accept between 21-30 transfer credits that must be approved by the Registrar and the HDFR Academic Advisor. If a student is transferring from a Non-HDFR/HDFS major they are allowed to petition for an additional 6 credits. All transfer credits must be approved by the HDFR Academic Advisor and HDFR Program Chair. If a student is transferring from a HDFR/HDFS program from another university, they can petition for additional credits to count towards the HDFR major credit. The credits must be a match to be considered for official transfer.

HDFR Passing-Grade Requirements

HDFR courses (for majors/minors) must be passed with a C. C- does not constitute a passing grade; C- may be approved if overall GPA is 2.0 or above with HDFR Program Chair review and approval (an exception may be made in only one course, and this is handled on a case-by-case basis).

HDFR Professional Internship Contact Hours Update

Students will be required to complete 200 hours on-site beginning in Fall 2020 (*an exception will be made for students who completed their HDFR 3002 in the Fall 2019 and Spring 2020 semester. These students will be granted the opportunity to complete their 155 on-site hours no later than Fall 2020*). This is in addition to completing the HDFR 4930 course (equivalent: 45 contact hours)

- On-Site Hours can be completed in 1 semester, 2 semesters or 1 semester and a summer session. Students can register for variable credits from 1-5 for a total of 5 credits.

Contact Hours:

- 1.0 credit - 40 on-site hours
- 2.0 credit - 80 on-site hours
- 3.0 credit - 120 on-site hours
- 4.0 credit - 160 on-site hours
- 5.0 credit - 200 on-site hours

HUMAN DEVELOPMENT AND FAMILY RELATIONS BS RURAL PARTNERSHIP WITH TRINIDAD STATE JUNIOR COLLEGE

Introduction

Please click [here](#) to see School of Education & Human Development information.

The Human Development and Family Relations (HDFR) Bachelor of Science program prepares students to effectively serve individuals and families in a wide variety of environments. HDFR is committed to a curriculum rich in family diversity and social justice. This 120 credit-hour interdisciplinary program explores family systems and the ecological development of individuals across their life span. The HDFR program leads to certification in the field.

This program is a rural partnership with Trinidad State Junior College (TSJC) in Trinidad, Colorado. Students complete the first two years of the program at TSJC in an Associate of Applied Science degree in Human Services and then transfer to CU Denver to complete their final two years in online HDFR coursework for the BS in HDFR degree. Advising is provided during all four years of the program, whether students are TSJC or CU Denver students.

Program Delivery

- The courses in the first two years of the program are offered on campus in Trinidad at TSJC and the last two years of the BS degree are offered in an online format. High touch distance and local advising support is offered to students in the program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [School of Education and Human Development Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum total of 120 semester hours for the Human Development and Family Relations BS.
2. A minimum GPA of 2.0, C or better grade, is required for all courses applying to Human Development and Family Relations major requirements.
3. Courses can be "double dipped" - i.e., used to satisfy both a general education requirement and a major course. If double dipping courses, additional HDFR courses will have to be taken to get to the 120 major required credits.
4. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take **all** of the following Human Development and Family relations major courses with a grade of C or better:

- HDFR 1010 - Life Span Development in Ecological Settings
- HDFR 2000 - Introduction to Family and Community Services
- HDFR 2080 - Sex, Human Development and Family Systems
- HDFR 2200 - Love, Family and Human Development
- HDFR 3002 - Preparing to be a HDFS Professional
- HDFR 3020 - Black and Latino Children in Families and Schools **or** other HDFS cultural diversity core class
- HDFR 3250 - Families in Global Perspectives
- HDFR 3400 - Love, Couples and Family
- HDFR 3050 - Children's Thinking and Assessment
- HDFR 4001 - Families and Parenting
- HDFR 4002 - Family Life and Community Programming I
- HDFR 4003 - Leadership and Organizations
- HDFR 4004 - Family and Comm. Prog. II Grant Writing/Fundraising

- HDFR 4010 - Family and Cultural Diversity
- HDFR 4075 - Family Policy & Law
- HDFR 4080 - Global Family Resource Management
- HDFR 4260 - Family Systems and Social Justice
- HDFR 4930 - Human Development and Family Relations Internship
- MATH 2830 - Introductory Statistics
- RSEM 4100 - Research and Statistics in Families and Human Development

Take **one** of the following HDFR Family Diversity courses with a grade of C or better:

- HDFR 1030 - Who am I? Cultural Identity, Family, Diverse Soc Sys
- HDFR 1080 - Lifespan Issues in Family Violence
- HDFR 4040 - Latino Families in School and Communities
- HDFR 4045 - Abuelos (Grandparents) Latino Families
- HDFR 4850 - Family Systems Therapy, Religion and Spirituality

Take **one** of the following HDFR Human Development and Learning courses with a grade of C or better:

- HDFR 1000 - Global Human Development & Learning
- HDFR 2110 - Child Ecology
- HDFR 3050 - Children's Thinking and Assessment
- HDFR 3100 - Adolescent Ecology
- HDFR 4200 - Adult Ecology
- HDFR 4300 - Families in Later Life

HUMAN RESOURCES MANAGEMENT MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

Human Resources Management offers opportunities for students to develop professional competence in the areas of personnel administration and development. Students acquire an understanding of, and skills in, developing and implementing human resources systems, including recruitment, selection, evaluation, training, motivation and compensation.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Take the following **required** course:

- MGMT 3010 - Managing People for a Competitive Advantage

Take **two** of the following courses:

- MGMT 4420 - HR: Talent MGT
- MGMT 4430 - Human Resources Management: Training
- MGMT 4440 - Human Resource Management: Performance Management
- MGMT 4450 - Human Resources Management: Compensation

Take **three** of the following:

- ENTP 3200 - Essentials in Entrepreneurship
- MKTG 4050 - Applied Marketing Management
- Upper division MGMT elective (one, two or three may be taken for this requirement)

ILLUSTRATION EMPHASIS, FINE ARTS BFA

Introduction

Please click [here](#) to see general Visual Arts information.

The Illustration emphasis integrates fine art, mixed media and digital practices with conceptual thinking, research and storytelling in the production of creative work. As a practice, Illustration focuses on skills and concepts in the professional development of a student's individual vision and approach to illustrative arts. Marketing, business and design practices prepare students to discuss and view their work in a design context and for particular commercial markets and galleries. Courses are taught in state-of-the-art drawing and computer labs using the Adobe software suite alongside hands-on studio facilities. Illustration students gather skills to easily work across multiple artistic media--including design, drawing, painting, printmaking, and 3D media for the development of motion and spatial projects.

Students gain the ability to establish freelance illustration studio practice, as well as multi-faceted professional skills and flexibility in working with designers, creative directors, and art directors. Graduates are prepared to write and illustrate concepts and stories in preparation for studios, and the editorial, publishing and advertising markets.

Students in the illustration emphasis receive instruction in conceptual illustration, digital illustration, rendering, perspective, painting, exhibition preparation, professional practices and the use of various artistic and illustration techniques. In preparation for a professional illustration career, the course work allows students to master numerous essential digital and traditional tools and work to successfully bring the two together in ambitious and innovative illustrative work.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- Students who are applying for entrance into the illustration emphasis must participate in portfolio review day, as described below. The illustration emphasis accepts applications once a year during the Spring semester. Students who meet the requirements and are accepted go on to take upper-division illustration courses.

ELIGIBILITY

The student has completed, or is in the process of completing, the following courses:

- FINE 1100 - Drawing I

- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2020 - Drawing II
- FINE 2155 - Introduction to Digital Photography
- FINE 2200 - Painting I
- A minimum cumulative fine arts/art history GPA of 2.0

Portfolio Review Requirements

Students applying to the illustration emphasis present a portfolio and unofficial transcript(s) from CU Denver and all previous post-secondary educational institutions. Portfolio reviews will take place on the first Friday in **April approximately between 12:00pm and 5:00pm (Mountain Time)**. Faculty review works in person, which must be formatted and presented to the specifications listed on the Portfolio Review page here. There is no fee to apply.

QUESTIONS

For general inquiries see the Illustration Program page here. For Portfolio review questions see the Portfolio Review page here.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Pre-Portfolio courses:

- FINE 1100 - Drawing I
- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2020 - Drawing II
- FINE 2155 - Introduction to Digital Photography
- FINE 2200 - Painting I

Take **one** of the following lower-division Visual Arts courses:

- FINE 2405 - Introduction to Digital Design
- FINE 2406 - Introduction to Digital Art & Imaging

Take **all** of the following lower-division Visual Arts courses:

- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II
- FINE 2030 - Life Drawing
- FINE 2415 - Typography Studio

Take **all** of the following Illustration Emphasis courses (to be taken after gaining acceptance to emphasis via portfolio day):

- FINE 3010 - Illustration I: Image Making
- FINE 3014 - The Graphic Novel Workshop
- FINE 3410 - Illustration II: Digital Media
- FINE 4000 - The Business of Art
- FINE 4001 - Illustration III: Investigative Methods
- FINE 4002 - Illustration IV: Thesis Development

Take **all** of the following upper-division Visual Arts courses:

- FINE 3300 - Painting, Drawing and the Printed Image
- FINE 3450 - Digital Painting
- FINE 4990 - Contemporary Art: 1960 to Present

Take **three** semester hours of Pre-20th Century Art History elective.

Take **twelve** semester hours of Visual Arts electives. These may include studio, lecture, internship or art history courses.

Take the following Capstone course:

- FINE 4003 - Illustration BFA Thesis

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

INDIVIDUALLY STRUCTURED MAJOR - INTEGRATED STUDIES BA

The College of Liberal Arts and Sciences (CLAS) Integrated Studies option provides students with the opportunity to construct an individualized major that meets their unique needs, and which results in a B.A.

This flexible program allows students to create a major by combining two course clusters

- One cluster must be based on a CLAS minor in the CU Denver catalog. The minor must be at least 15 credits, and students can add additional courses from the discipline (up to 21 credits total in one discipline) to form the cluster.
- The other cluster can also be based on a minor in the catalog (within CLAS or another school or college), or it can be constructed by the student from a group of courses from a variety of disciplines that form a coherent body of knowledge (an interdisciplinary cluster)
- Students must also complete an introduction to interdisciplinary studies course as well as an interdisciplinary capstone course and project that bring together the learning from their two clusters

These degree requirements are subject to periodic revision by CLAS, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their CLAS Academic Advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.
- Students are required to submit a program plan that includes a proposal and a course contract. Copies of completed Integrated Studies option proposals and course contracts must be filed with the Dean's Office and with the student's CLAS Academic Advisor.
- The Integrated Studies option proposal must include
 - Two chosen clusters (at least one of which must be based on a CLAS minor)
 - If one of the clusters is constructed, an explanation of how the courses fit together to form a coherent body of knowledge
 - Approval from an Associate Dean in CLAS
- The Integrated Studies option course contract must include
 - A list of the courses the student intends to take or has completed in the chosen clusters, as well as potential alternate courses. The student should work closely with their CLAS academic advisor to create the course contract
 - Signature from the student's CLAS Academic Advisor
 - Signature from the appropriate CLAS Associate Dean

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 36 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours with a minimum of 9 upper division level credit hours in each cluster.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. A minimum of 24 credit hours must be completed with CU Denver faculty (at least 9 credits in each course cluster in addition to ISMA 3100 and ISMA 4900).

Program Restrictions, Allowances and Recommendations

1. A student must have already completed at least 60 credit hours to declare the Integrated Studies option.
2. At least half of all credits in the Integrated Studies option must be from CLAS departments.
3. Each course cluster in the major option must consist of at least 15 credit hours and one cluster must be based on a CLAS minor in the CU Denver catalog.
4. Students can apply credits they earned before declaring the Integrated Studies option to the major.
5. Once the Integrated Studies option course contract is filed, any changes to coursework must be approved by the student's CLAS Academic Advisor and resubmitted to the Associate Dean for approval.
6. Students will not receive minors in any of the cluster areas used toward the Individually Structured Major Integrated Studies option, even if the requirements for the minor are met.
7. Students may petition the Associate Dean for Diversity, Outreach and Initiatives to fulfill their introduction and capstone outside of ISMA 3100 and ISMA 4900.

Roles and Responsibilities

Student

- creates the Integrated Studies option initial proposal and course contract (in collaboration with their CLAS Academic Advisor)
- meets regularly with their CLAS Academic Advisor to assess progress through the major, CLAS graduation requirements and CU Denver graduation requirements
- fulfills requirements of the Integrated Studies course contract

CLAS Academic Advisor

- reviews Integrated Studies option proposal and overall course contract together with the student
- meets with Integrated Studies option advisees to monitor progress
- maintains records of Integrated Studies option proposals and contracts
- certifies graduation
- Associate Dean
- approves student proposals and course clusters for Integrated Studies option majors
- signs off on Integrated Studies option course contracts
- may oversee advisee's capstone project
- may consult with student and other faculty on course clusters

Faculty Advisor

- may oversee advisees' capstone projects
- may consult with student and Associate Dean on course clusters

Integrated Studies Coursework Requirements

Complete the following courses:

ISMA 3100-should be taken early in the academic career (i.e. sophomore year)

ISMA 4900-should be taken toward then end of the academic career (i.e. senior year)

- ISMA 3100 - Learning Across Disciplines (3 credit hours)
- ISMA 4900 - Interdisciplinary Studies Capstone (3 credit hours)

Student must complete a minimum of 30 credit hours from two course clusters. Each cluster must consist of at least 15 credit hours, and one cluster must be based on a CLAS minor in the CU Denver catalog.

INDIVIDUALLY STRUCTURED MAJOR - INTERCAMPUS INTERDISCIPLINARY OPTION BA

Introduction

ISO is a system initiative realized through campus cooperation. Faculty and administrative representatives from the three comprehensive campuses of the University of Colorado System (CU Denver, CU Boulder, and UCCS) have participated in constructing the major.

The central facets of the Option are:

- Collaborative Foundational Courses
 - Collaborative teams made up of faculty members from the three campuses have completed syllabi for three foundational courses and have begun the process of building these courses online through the Canvas Learning Management System (which the three comprehensive campuses have now adopted).
- Collaborative Course Clusters
 - Campus teams have vetted ten clusters across their campuses in discussions with faculty governance bodies, department chairs, and other

groups to assure buy-in as well as to confirm that appropriate courses are included in the clusters.

Program Delivery

- This is an on-campus, online or hybrid program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Requirements
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 39 credits from approved coursework.
2. Students must complete a minimum of 15 upper division (3000-level and higher) credit hours from approved coursework.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 24 credit hours of approved coursework with CU Denver faculty.

Take **all** of the following courses:

- ISMA 1500 - Introduction to Interdisciplinary Learning -should be taken early in the academic career (i.e. freshman year)
- ISMA 3500 - Interdisciplinary Experiential Learning
- ISMA 4500 - Interdisciplinary Learning Capstone -should be taken toward the end of the academic career (i.e. senior year)

Clusters

Students must choose two clusters of a minimum of 15 credits each.

Clusters are interdisciplinary groups of courses selected from each campus to support a recognizable topic shared among the three campuses; they differ from traditional campus- and disciplinary-based minors and certificate programs. Team ISO has created 10 interdisciplinary clusters from which students will select two. Each cluster must contain a minimum of 15 credits from a common group of courses drawn from the three comprehensive campuses:

1. Cultural Diversity
2. Research Methods & Data Analysis
3. Global Studies
4. Digital and Media Studies
5. Environment & Sustainability
6. Policy & Security
7. Social Justice Studies
8. Organizations & Leadership
9. Professional & Technical Communication
10. Health, Science, and Society

INDIVIDUALLY STRUCTURED MAJOR - INTERDISCIPLINARY STUDIES BA

Introduction

Please click [here](#) to see Individually Structured Major department information.

The College of Liberal Arts and Sciences Interdisciplinary Studies Major (ISM) provides students with the opportunity to construct an individualized major that meets their unique needs and interests, and which results in a B.A. This flexible program allows students to follow academic pursuits that transcend traditional department or college boundaries, combining coursework from two, three, or even more academic units to explore a particular theme. An ISM tends to be more focused than traditional majors and should not be considered a default major for students uncertain about their course of study.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in

individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to general information about declaring a major
- In order to declare an Interdisciplinary Studies Major, students are required to submit a program plan that includes a proposal and a course contract. Students should aim to complete a program plan before the end of the sophomore year. The proposal should be approved before students have taken one-third of the classes listed in their course contracts. Copies of your completed ISM proposal and course contract must be filed with the Associate Dean for Diversity, Outreach and Initiatives and with your CLAS Academic Advisor.
- The ISM proposal must include
 - A description of your chosen theme (see below for sample themes).
 - An explanation of why the theme requires coursework that integrates multiple disciplines. You can choose a theme within interdisciplinary frameworks already established in CLAS but which do not offer BA degrees. These frameworks include Chinese Studies, Health Humanities, Law Studies, Religious Studies, Social Justice, Sustainability, and Women's and Gender Studies. You are also encouraged to create your own frameworks.
 - An outline of specific learning objectives for the ISM (see below for sample learning objectives).
 - Approval from the Associate Dean for Diversity, Outreach and Initiatives.
- Your ISM course contract must include
 - A list of the courses in your chosen disciplines and the optional "grab bag" of courses that you intend to apply to your ISM, as well as potential alternate courses. You should work closely with the Associate Dean for Diversity, Outreach and Initiatives and faculty advisors in your chosen disciplines to create your course contract.
 - Signatures from your chosen Primary Faculty Advisor from one of your main disciplines and signatures from Faculty Advisors from your other main disciplines. You do not need a faculty advisor for grab bag courses.
 - Signature from your Academic Advisor.
 - Signature from the Associate Dean for Diversity, Outreach and Initiatives.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Requirements
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

The ISM program plan requires course work over two or three disciplines. A discipline is defined as a single department or program such as biology, ethnic studies or math. The ISM program plan must comply with the following policies:

1. Students must complete a minimum of 42 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours with a minimum of 9 upper division level credit hours in Disciplines I and II.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. A minimum of 24 credit hours must be completed with CU Denver faculty (at least 9 credits in Disciplines I and II, in addition to ISMA 3100 and ISMA 4900).

Program Restrictions, Allowances and Recommendations

1. Once the ISM course contract is filed, any changes to coursework must be approved by the student's Primary Faculty Advisor and resubmitted to the Associate Dean for Diversity, Outreach and Initiatives and to the student's CLAS Academic Advisor.
2. A minimum of 30 semester hours must be completed in liberal arts and sciences course work.
3. A maximum of one discipline (15 credits) may be outside CLAS.
4. A third optional discipline may be a mixture of course work, excluding courses from the first and second disciplines.
5. An ISM title must be consistent with the academic theme and disciplines in the program plan.
6. Students may petition the Associate Dean for Diversity, Outreach and Initiatives to fulfill their introduction and capstone outside of ISMA 3100 and ISMA 4900.

7. The ISM proposal should be approved before students have taken one-third of the classes listed in their course contracts.

Roles and Responsibilities

Student

- creates the ISM proposal and course contract (in collaboration with faculty advisors)
- meets regularly with ISM Primary Advisor to assess progress through ISM
- fulfills requirements of ISM course contract

Associate Dean for Diversity, Outreach and Initiatives

- approves student proposals for ISM
- signs off on ISM course contracts
- maintains records of ISM applications
- certifies graduation
- Primary Faculty Advisor
- approves ISM course contract
- meets with ISM advisees to monitor progress
- oversees advisees' capstone projects

Other Faculty Advisors

- approve course contract
- help with capstone projects when needed

CLAS Academic Advisor

- reviews overall course contract
- approves exempt core area

ISM Coursework Requirements

Complete the following courses:

ISMA 3100-should be taken early in the academic career (i.e. sophomore year)

ISMA 4900-should be taken toward the end of the academic career (i.e. senior year)

- ISMA 3100 - Learning Across Disciplines (3 credit hours)

Interdisciplinary Coursework (42-48 credit hours)

While the ISM requires students to take a minimum of 15 credit hours in each of two

disciplines, students can fulfill the remainder of their credit hours by contracting with additional disciplines or by creating a "grab bag": choosing courses from a variety of disciplines that suit their ISM plan. Up to 15 credit hours for an ISM can come from outside of CLAS.

Sample breakdowns of what ISM coursework might look like:

Discipline I: 15 hours

Discipline II: 15 hours

Discipline III: 9 hours

Discipline IV: 9 hours

Total: 48 credit hours

Discipline I: 18 hours

Discipline II: 15 hours

"Grab Bag" from four disciplines: 12 hours

Total: 45 credit hours

Discipline I: 24 hours

Discipline II: 18 hours

Total: 42 credit hours

- ISMA 4900 - Interdisciplinary Studies Capstone (3 credit hours)

Examples

Examples of Interdisciplinary Studies Major themes could include:

1. Global Health
2. Victorian Studies
3. Gender and Media
4. Applied Sciences
5. Urban Studies
6. Consumers and Consumption
7. Disability Studies
8. Health and Sexuality
9. Human Rights
10. Human-centered design and innovation
11. Food Studies
12. Science, Technology, and Society
13. Latin American Studies

An example course contract for Global Health could look like:

Discipline I: Anthropology

ANTH 1000 Anthropology: Past and Present OR ANTH 2102: Culture and the Human Experience

ANTH 3032 Anthropology of Health Care Policy

ANTH 3210 Urban Food Systems and Sustainability

ANTH 4080 Global Health Practice (Travel Study Course)

ANTH 4300 Migrant Health

Discipline II: Public Health

PBHL 2001 Introduction to Public Health

PBHL 3041 Health, Culture, and Society

PBHL 3070 Perspectives in Global Health

PBHL 3071 Global Topics in Sexual and Reproductive Health

PBHL 4020 Global Health: Comparative Public Health Systems

Grab Bag

COMM 4500 Health Communication

ECON 4660 Health Economics

GEOG 3501 Geography of Health

HIST 4346 Medicine and Society: Ancients to the Present

SOCY 3440 Medical Sociology

Example of learning objectives for the ISM in Global Health:

Develop knowledge of current global health issues.

14. Identify the theories, methods, and analytical perspectives of anthropology and public health to understand global health systems.
15. Synthesize the theories, methods, and analytical perspectives of anthropology and public health, with input from other disciplines, to answer interdisciplinary questions.
16. Communicate ideas effectively in writing and through speaking.
17. Critically evaluate a variety of textual and statistical evidence.
18. Demonstrate ethical approaches to studying a variety of cultural perspectives.

INDIVIDUALLY STRUCTURED MAJOR- INTEGRATED HEALTH SCIENCES OPTION BA

Introduction

The College of Liberal Arts and Sciences (CLAS) Integrated Health Sciences option provides students with the opportunity to construct an individualized major that meets their unique needs, and which results in a B.A.

These degree requirements are subject to periodic revision by CLAS, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their CLAS Academic Advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

The ISM program plan must comply with the following policies:

1. Students must complete a minimum of 39 credit hours from the approved courses.

2. Students must complete a minimum of 9 upper-division (3000-level and above) credit hours in the approved cluster area and must complete all of the upper-division requirements for the minor or certificate they choose to pair with the cluster.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 credit hours with CU Denver faculty from the approved cluster area and must complete all of the residency requirements for the minor or certificate they choose to pair with the cluster.
5. Students can double-count a maximum of one course across their areas (in addition to an introductory course).
6. Students combine ONE of the identified CLAS minors or certificates with ONE of the topical clusters to make up their **major areas**.
7. Students must take courses from at least TWO different disciplines in their topical cluster.
8. Students are required to take TWO courses as an introduction to their major. If an introductory course is also part of a student's topical cluster, a student may count one introductory course as part of that area's credits.
9. NOTE: Some courses in each cluster require prerequisites that must be met making them a 21 credit cluster. Please see course descriptions.

Take **two** of the following four courses as an introduction to their major:

- COMM 2500 - Introduction to Health Communication
- HEHM 3100 - Introduction to Health Humanities
- PBHL 2001 - Introduction To Public Health
- SOCY 3440 - Medical Sociology

Note: If an introductory course is also part of a student's chosen area, a student may count one introductory course as part of that area's credits.

Choose and complete **one** CLAS minor or certificate:

- Public Health Minor

The undergraduate minor in Public Health is designed to provide students with a basic understanding of the social, cultural, and biological dimensions of health. The minor curriculum provides students with the intellectual and methodological tools needed to understand the joint bio-cultural determinants and contexts of health, health care and public health.

- Health Humanities Minor

The Health Humanities minor critically analyzes historical and contemporary connections among health, medicine, and society. The minor deepens understandings of disease and wellness, pain and suffering, personhood, the nature of death and dying, embodied experience, and the limits of technological knowledge. Students explore the human dimensions of medical practice and how they interact with lived experience.

- Health Communication Certificate

The Certificate in Health Communication seeks to impart the knowledge and skills necessary for creating, analyzing, and assessing health communications in a diverse and global world, where health occupies an increasingly prominent portion of our public life. This certificate provides students with a theoretically rich and practically relevant education in how health messages are generated, negotiated, and understood.

- Sociology of Health and Medicine Certificate

The Sociology of Health and Medicine Certificate provides training in the core research methodologies and theories of medical sociology, examining individual experience, institutional structures, laws and policies that affect health, and broader systems of inequality that lead to unequal rates of illness and access to care.

And choose and complete 15 credit hours, 9 upper division in at least **one** topical cluster:

- Aging and End of Life Cluster
- Biology and Society Cluster
- Environmental Health Cluster
- Drugs and Addiction Cluster
- Family Health Issues Cluster
- Food and Nutrition Cluster
- Sexuality and Reproduction Cluster

Take the following Capstone course toward the end of your career (junior/senior year)

- ISMA 4900 - Interdisciplinary Studies Capstone

Topical Clusters

Aging and End of Life Cluster

The Aging and End of Life Cluster is designed for students to learn about the range of human experiences with aging and dying, and to understand how the medical considerations of aging and the end of life intersect with social, ethical, policy, and religious questions.

- ANTH 3666 - Anthropology of Death
- PHIL 3550 - Philosophy of Death and Dying

- PSYC 2205 - Lifespan Developmental Psychology for Health Majors
- PSYC 3822 - Aging, Brain and Behavior
- RLST 4460 - Death and Concepts of Afterlife
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- SOCY 4290 - Aging, Society and Social Policy
- SOCY 4650 - Sociology of Adulthood and Aging
- IWKS 4520 - Design for Healthful Human Longevity

Biology and Society Cluster

This area examines the ways biology interacts with everyday life. Students will learn about the reciprocal relationships between biology and society, including themes of health and disease, the environment, evolution, ethics, and behavioral choices about health.

- ANTH/ PBHL 4060 - Evolutionary Medicine
- ANTH 4150 - Human Biocultural Adaptability
- ANTH 4600 - Medical Anthropology
- BIOL/ PSYC 3104 - Behavioral Genetics
- PHIL 4242 - Bioethics
- PSYC 2220 - Biological Basis of Behavior
- PSYC 3262 - Health Psychology
- PSYC 3263 - Hormones and Behavior
- PSYC 3724 - Developmental Psychobiology
- PSYC 3810 - Neuropsychology
- SOCY 4220 - Population Change and Analysis

Note: If students choose multiple upper division PSYC courses, they will need to add the introductory prerequisites, for a total for 21 credits for the cluster.

Environmental Health Cluster

This area focuses on the relationships between people and their environments. Students will learn about how both natural and built environments impact human health and disease, and how ecological balances are important to maintaining human health.

- ANTH 3250 - Climate, Environment and Society
- ANTH 3316 - History of Human Environmental Impacts
- ANTH 4150 - Human Biocultural Adaptability
- BIOL 3654 - General Microbiology
- BIOL 4053 - Disease Ecology

- BIOL 4154 - Conservation Biology
- BIOL 4415 - Microbial Ecology
- BIOL 4460 - Environmental Toxicology
- ENVS 1342 - Environment, Society and Sustainability
- ENVS 4720 - Climate Change: Causes, Impacts and Solutions
- GEOG 3401 - Geography of Food and Agriculture
- GEOG 3501 - Geography of Health
- GEOG 4020 - Earth Environments and Human Impacts
- GEOG 4350 - Environment and Society in the American Past
- GEOG 4710 - Disasters, Climate Change, and Health
- PBHL 3020 - Introduction to Environmental Health

Note: If students choose multiple upper division BIOL courses, they will need to add the BIOL introductory sequence, General Biology 1 and 2 (BIOL 2051/2095 and BIOL 2061/2097), which counts for university core requirements, for a total of 21 credits in the cluster. You can also use the Biology prerequisites towards a Biology Minor in addition to your cluster.

Drugs and Addiction Cluster

This area considers the characteristics of addiction and how drugs work. Students will have the opportunity to study drugs and addiction from a variety of perspectives to better understand how individuals experience addiction and how society approaches policies and treatments regarding drugs and addiction.

- ANTH 3045 - Cannabis Culture
- ANTH 3420 - Anthropology and Politics of the Global Tobacco Epidemic
- ANTH/ PBHL 4090 - Drug Syndemic
- BIOL 1200 - Drugs, Health, and Wellness
- ECON 3400 - Economics of Sex and Drugs
- PSYC 3265 - Drugs, Brain and Behavior
- SOCY 3040 - Drugs, Alcohol & Society

Family Health Issues Cluster

This area explores families as locations of health and well-being, on the one hand, and sources of health problems and crises, on the other. Students will learn about the relationships between family health and community health, as well as individual health and family health.

- COMM 3275 - Family Communication
- PBHL 3051 - Mental Illness and Society

- PBHL 4110 - Public Health Perspectives On Family Violence
- PSYC 3405 - Family Psychology
- PSYC 3611 - Psychology of Women
- SOCY 3010 - Sociology of Human Sexuality
- SOCY 3700 - Sociology of the Family
- SOCY 4270 - Social Meanings of Reproduction
- SOCY 4290 - Aging, Society and Social Policy
- SOCY 4640 - Sociology of Childhood and Adolescence
- SOCY 4650 - Sociology of Adulthood and Aging
- SOCY 4780 - Violence in Relationships

Note: If students choose multiple PSYC courses, they will need to add PSYC introductory sequence, PSYC 1000 and PSYC 1005, which counts for core requirements, for total of 21 credits in the cluster.

Food and Nutrition Cluster

This area considers relationships between nutrition and overall health and well-being. Students will connect food to issues of sustainability and communication, understand obstacles to healthy eating, and learn about global issues of nutrition.

- ANTH 3210 - Urban Food Systems and Sustainability
- ANTH 4040 - Anthropology of Food and Nutrition
- CHEM 2300 - Nutritional Chemistry
- COMM 4601 - You Are What You Eat: Food as Communication
- GEOG 3401 - Geography of Food and Agriculture
- GEOG 4460 - Sustainable Urban Agriculture Field Study I
- GEOG 4470 - Sustainable Urban Agriculture Field Study II
- EDFN 4000 - Food Justice in City & Schools

Sexuality and Reproduction Cluster

This area examines sexuality and reproduction at both micro and macro levels, from the anatomy of the human body and the psychology of mind to the history of multiple societies and clusters. Students will learn how assumptions about gender and sex inform the science of sexuality and reproduction, and health impacts that derive from these relationships.

- ANTH 4260 - Human Reproductive Ecology
- BIOL 4074 - Human Reproductive Biology
- HIST 4307 - History of Sexuality
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present

- PBHL 3010 - Human Sexuality and Public Health
- PBHL 3071 - Global Topics In Sexual and Reproductive Health
- PSYC 3235 - Human Sexuality
- SOCY 3010 - Sociology of Human Sexuality
- SOCY 3080 - Sex and Gender
- SOCY 4220 - Population Change and Analysis
- SOCY 4270 - Social Meanings of Reproduction

INFORMATION SYSTEMS MAJOR - BS IN BUSINESS ADMINISTRATION (SPECIALIZATIONS AVAILABLE IN ACCOUNTING, FINANCE, HUMAN RESOURCE MANAGEMENT, MANAGEMENT AND MARKETING)

Introduction

Please click [here](#) to see Business School information.

The information systems program at the University of Colorado Denver is a nationally accredited program for students who want to design and implement effective solutions to meet organizational and management needs for information, control and decision making.

An information systems (ISMG) major draws on a diverse set of skills and strengths requiring creative and innovative thinking at the intersections of disciplinary knowledge and practice. Information systems students learn how information technology, effective teamwork and leadership and sound project management combine to enable innovation and change, to improve organizational agility and to add competitive value. Courses require extensive hands-on projects, teamwork, and use of high-end technology. A combination of technical skills gained in class work with broad-based business process knowledge enables our graduates to be ideally situated to take leading roles in shaping the technology-based future of employers in the Rocky Mountain region and the nation.

Undergraduate Options

The Business School at the University of Colorado Denver offers a bachelor of science in business administration where you may choose information systems as your primary core specialty:

- Information Systems, Bachelor of Science in Business Administration degree

Or you may choose to add an information systems specialization to another business discipline:

- Accounting with an Information Systems specialization
- Financial Management with an Information Systems specialization
- Management with an Information Systems specialization
- Marketing with an Information Systems specialization

Career Opportunities

Careers in information systems continue to be one of the highest growth markets in the business world. A student completing the information systems program curriculum will be prepared for challenging careers as a business analyst, database analyst, Web content manager, project manager, IT consultant, and information auditing and compliance specialist.

Employment possibilities include financial operations, health care, management consulting, service operations, transportation, and logistics and government.

Information systems are becoming the foundation of all business activities, and a solid understanding of the role of information systems in business and in the national and global economy is now critical for every business student. The information systems major focuses on the effective use of information technology in business. You are equipped with logical and analytical thinking in all areas of business and a strong basis for continued career growth in a variety of growing professions. You will develop the technical skills, business know-how and administrative insights required for acquisition, deployment and management of IT resources and services development, operation and evolution of IS infrastructure for use in accounting, finance, marketing, management and other business processes.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. The courses emphasize both team and individual work, allowing students to gain critical thinking skills, knowledge and experience to analyze, design, program, implement and use information.

Take **all** of the following courses:

- ISMG 2800 - Designing for the Web
- ISMG 3500 - Enterprise Data and Content Management
- ISMG 3600 - System Strategy, Architecture and Design
- ISMG 4400 - Programming Fundamentals with Python
- ISMG 4700 - Business Data Communications and Networking
- ISMG 4900 - Project Management and Practice (also fulfills BGEN Experiential Learning requirement)

Take **two** upper division ISMG electives or, if following a specialization, select 2 courses from one of the specializations listed below.

Accounting Specialization

Take **two** of the following courses:

- ACCT 3220 - Intermediate Financial Accounting I
- ACCT 3230 - Intermediate Financial Accounting II
- ACCT 4054 - Accounting Information Systems
- ACCT 4780 - Accounting and Information Systems Processes and Controls

Finance Specialization

Take **two** of the following courses:

- FNCE 3500 - Management of Business Capital
- FNCE 3600 - Financial Markets and Institutions

- FNCE 3700 - Investment and Portfolio Management
- FNCE 4750 - Business Intelligence and Financial Modeling

Human Resource Management Specialization

Take **two** of the following courses:

- MGMT 3010 - Managing People for a Competitive Advantage
- MGMT 4420 - HR: Talent MGT
- MGMT 4430 - Human Resources Management: Training
- MGMT 4440 - Human Resource Management: Performance Management
- MGMT 4450 - Human Resources Management: Compensation

Management Specialization

Take **two** of the following courses:

- MGMT 4350 - Leading Organizational Change
- MGMT 4370 - Organization Design
- MGMT 4400 - Environments of International Business

Marketing Specialization

Take **two** of the following courses:

- MKTG 3100 - Marketing Research
- MKTG 3200 - Consumer Behavior
- MKTG 4050 - Applied Marketing Management
- MKTG 4760 - Customer Relationship Management

Notes

Not all Information Systems courses are offered every semester - so contact advising to plan ahead.

Students also have the opportunity to continue their education with an MS in Information Systems. The ISMG 4+1 program allows students to potentially complete the BS and MS degrees in as little as five years through substituting two graduate courses for two undergraduate courses. The graduate courses count towards both the BS and MS degrees.

If you are considering this 4+1 program, contact your advisor immediately so that you can appropriately plan your coursework. Email undergrad.advising@ucdenver.edu

INTERNATIONAL BUSINESS MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

Increasingly, businesses are reorienting their thinking, planning and operations to capitalize on opportunities that exist in the world marketplace. Every phase of business is affected by this reorientation. For individuals with the appropriate skills, training and interest, international business provides excellent career opportunities.

The international business curriculum is designed to enhance and build on thorough training in basic business skills and to provide students with additional skills and knowledge appropriate to international business.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

Take **all** of the following Foundation courses:

- MGMT 4370 - Organization Design
- MKTG 4050 - Applied Marketing Management
- FNCE / INTB 4370 - International Financial Management
- INTB 4400 - Environments of International Business
- INTB 4410 - Operations of International Business
- INTB 4200 - International Marketing

International Business Majors must take one upper division business elective to replace the International Studies requirement.

Note

- A second major in Business is highly recommended. In addition, serious consideration should be given to advanced study of a foreign language and a minor in International Studies, offered by College of Liberal Arts and Sciences.

INTERNATIONAL STUDIES BA

Introduction

Please click [here](#) to see International Studies department information.

In a world where the forces of politics, commerce, culture, and technology are multifaceted and interconnected, the International Studies major provides students with a much-needed global perspective. International Studies is an interdisciplinary liberal arts degree that prepares students for international careers and graduate study. The International Studies major offers students a deep understanding of complex international issues and the underlying drivers that are shaping our world. Employers seek the qualities of International Studies graduates: historical knowledge, research ability, cross-cultural competence, teamwork and leadership experience, and the ability to analyze, model, and solve real-world problems. The INTS major provides students with the methodological tools necessary to analyze various regions of the world and global issues from different academic disciplines. Students can take courses from departments including Anthropology, Business, Communication, Economics, Ethnic Studies, Geography, History, Modern Languages, Political Science, and Religious Studies, among others. This combination of coursework, flexibility, and customization provides International Studies majors a distinctive and valuable degree for today's world.

Degree requirements are subject to periodic revision by the academic program, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

International Studies students are expected to develop both a regional zone of expertise and thematic specialization. Students should choose courses from the introductory, zone, and theme lists that contribute to developing both a broad and deep understanding of international issues.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 48 credit hours from the approved courses.
2. Students must complete a minimum of 24 upper-division (3000-level and above) credit hours in the major from the approved courses.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.5. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 24 credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. No more than 56 credits accepted toward graduation.
2. Program Honors = 3.5 GPA within the major.
3. Students may use up to 6 internship credits toward international studies graduation requirements.

4. Students may use up to 6 credits of independent study toward international studies graduation requirements.
5. All International Studies majors must demonstrate proficiency in a language other than English. Non-native English speakers may use English for their language proficiency. Language requirements may be fulfilled by successful completion of the fourth semester of a foreign language course sequence or by passing an equivalent proficiency exam.
6. Both 3000- and 4000-level language courses may be counted toward the Zone or Focus Theme.
7. Two 2000-level courses in a relevant language may be used toward the Zone but must be in addition to the 4 upper division courses in the Zone. Students using two 2000 level language courses will count 6 total courses toward the Zone.
8. 1000-level language courses cannot be counted toward the major but may be used to fulfill other graduation requirements.
9. Generally, students majoring in International Studies may choose MATH 1010-Math for Liberal Arts. Students wishing to focus on Focus Themes with a heavier Economics component (such as Global Development, Global Environmental Studies, and International Political Economy) should consider MATH 2830 - Introductory Statistics. Please meet with the major advisor to discuss your interests.

Take the following introductory courses:

- INTS 2020 - Foundations of International Studies
- ECON 2012 - Principles of Economics: Macroeconomics

- PSCI 3042 - Introduction to International Relations **or**
- PSCI 3022 - Political Systems of the World

- HIST 4032 - Globalization in World History Since 1945

- COMM 4720 - Dynamics of Global Communication **or**
- ANTH 2102 - Culture and the Human Experience

Take **one** High Impact Practice course:

- INTS 3939 - Internship
- INTS 4840 - Independent Study
- INTS 4880 - Directed Research
- Any travel study or study abroad

Take the following International Studies Capstone course:

- INTS 4990 - International Studies Capstone (taken in a student's final year of the program)

Take 9 elective courses drawn from one Zone of Expertise and one Focus Theme, according to the categories below. A minimum of 8 courses must be at the 3000 or 4000 level:

- At least four courses from one Zone of Expertise.
- At least four courses from one Focus Theme.
- Students must take courses in at least two different disciplines within both their Zone of Expertise and Focus Theme.

Complete at least four courses from one Zone of Expertise, in at least two different disciplines:

Zones of Expertise:

- Africa (Sub-Saharan; French or other relevant language)
- Asia (Chinese or other relevant language)
- Colonial, Neo-Colonial, & Post-Colonial Worlds (English for nonnative speakers, French, German, Spanish, or other relevant language)
- Europe (English for nonnative speakers, French, German, Spanish, or other relevant language)
- Global (any language, English for nonnative speakers)
- Islamic World (Arabic or other relevant language)
- Latin America (Spanish or other relevant language)
- North America (English for nonnative speakers, French, Spanish, or other relevant language)

Note: Various Global Education/Study Abroad courses may not appear on the lists below. Please consult with an International Studies advisor for current offerings.

AFRICA (SUB-SAHARAN)

- ETST 4730 - Peoples and Cultures of Sub-Saharan Africa
- FREN 3200 - The Francophone World in the Post-Colonial Era

Management Major - BS in Business Administration

Introduction

Please click [here](#) to see Business School information.

The management curriculum provides the foundation for careers in supervision and general management in a wide variety of organizations. It develops skills in management practice through an understanding of general management principles, individual and group behavior, organizational change and design and human resources management.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

Take **all** of the following required courses:

- MGMT 3010 - Managing People for a Competitive Advantage
- MGMT 4330 - Mastering Management
- MGMT 4350 - Leading Organizational Change
- MGMT 4370 - Organization Design
- MKTG 4050 - Applied Marketing Management

Take **two** of the following courses:

- ENTP 3200 - Essentials in Entrepreneurship
- Upper division MGMT elective (one or two may be taken for this requirement)

Note

Students also have the option to complete a management major with a specialization in Information Systems. [Click here to view this option.](#)

MANAGEMENT MAJOR - BS IN BUSINESS ADMINISTRATION WITH SPECIALIZATION IN INFORMATION SYSTEMS

Introduction

Please [click here](#) to see Business School information.

The management curriculum provides the foundation for careers in supervision and general management in a wide variety of organizations. It develops skills in management practice through an understanding of general management principles, individual and group behavior, organizational change and design and human resources management.

Information technology is the prime driver of business strategy. This specialization focuses on the strategic, technological, financial, and organizational issues involved with the effective management of information technology.

Program Delivery

- This is an on-campus program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Take **all** of the following required courses:

- MGMT 3010 - Managing People for a Competitive Advantage
- MGMT 4330 - Mastering Management
- MGMT 4350 - Leading Organizational Change
- MGMT 4370 - Organization Design
- MKTG 4050 - Applied Marketing Management
- ISMG 3500 - Enterprise Data and Content Management
- ISMG 3600 - System Strategy, Architecture and Design
- ISMG 4900 - Project Management and Practice (also fulfills BGEN Experiential Learning requirement)

Take **two** of the following courses:

- ENTP 3200 - Essentials in Entrepreneurship
- Upper division MGMT elective (one or two may be taken for this requirement)

MARKETING MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please [click here](#) to see Business School information.

Marketing is concerned with directing the activities of the organization toward the satisfaction of customer wants and needs. This involves understanding customers, identifying those wants and needs that the organization can best serve, guiding the development of specific products or services, planning and implementing ways to take products or services to the market, securing the customer's order and finally, monitoring customer response in order to guide future activities.

In most organizations, marketing is a major functional area that provides a wide variety of career opportunities in such fields as personal selling and sales management, advertising and sales promotion, public relations, marketing research, physical distribution, product management, market management, marketing information systems and retail management. Increasingly, career opportunities exist in service businesses and nonprofit organizations.

Program Delivery

- This is an on-campus program.

Declaring This Major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Take **all** of the following required courses:

- MKTG 3100 - Marketing Research
- MKTG 4050 - Applied Marketing Management

Take any **six** upper-division MKTG prefixed courses, such as:

- MKTG 3200 - Consumer Behavior
- MKTG 3300 - Social Media in Business
- MKTG 4000 - Advertising
- MKTG 4200 - International Marketing
- MKTG 4250 - Sports Marketing
- MKTG 4251 - Music and Media Marketing
- MKTG 4620 - Customer Service Strategies
- MKTG 4700 - Personal Selling and Sales Management
- MKTG 4720 - Internet Marketing

- MKTG 4730 - New Product Development for Consumer and Sports Products
- MKTG 4760 - Customer Relationship Management
- MKTG 4780 - Preparing Business Plan
- MKTG 4950 - Special Topics

Note: Additional MKTG electives may be available. Please check the UCD Access course offerings each term.

For career paths in Marketing Strategy/Brand Management and Communications, the following courses are recommended:

- MKTG 3200 - Consumer Behavior
- MKTG 3300 - Social Media in Business
- MKTG 4000 - Advertising
- MKTG 4620 - Customer Service Strategies

Note

Students also have the option to complete a Marketing major with a specialization in Information Systems. [Click here to view this option.](#)

MANAGEMENT MAJOR - BS IN BUSINESS ADMINISTRATION WITH SPECIALIZATION IN INFORMATION SYSTEMS

Introduction

Please [click here](#) to see Business School information.

Marketing is concerned with directing the activities of the organization toward the satisfaction of customer wants and needs. This involves understanding customers, identifying those wants and needs that the organization can best serve, guiding the development of specific products or services, planning and implementing ways to take products or services to the market, securing the customer's order and finally, monitoring customer response in order to guide future activities.

In most organizations, marketing is a major functional area that provides a wide variety of career opportunities in such fields as personal selling and sales management, advertising and sales promotion, public relations, marketing research, physical distribution, product management, market management, marketing information systems, and retail management. Increasingly, career opportunities exist in service businesses and nonprofit organizations.

Within a specialization in Information Systems students can complement their individual interests as well as prior education and work experiences.

MATHEMATICS - APPLIED OPTION BS

Introduction

Please click [here](#) to see Mathematical and Statistical Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 54 credit hours, including a minimum of 42 MATH credit hours and a minimum of 9 credit hours in ancillary coursework.
2. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 upper-division level MATH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must complete at least 15 of their upper-division level MATH credits with CU Denver faculty.
2. Students may not use any of the following MATH courses to count toward major requirements: MATH 3195, MATH 3511, MATH 3800, MATH 3999, and MATH 4830.

Take **one** of the following programming options:

- MATH 1376 - Programming for Data Science **or**
- CSCI 1410 - Fundamentals of Computing **and**
- CSCI 1411 - Fundamentals of Computing Laboratory

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II

- MATH 2421 - Calculus III
- MATH 3000 - Introduction to Abstract Mathematics
- MATH 3191 - Applied Linear Algebra
- MATH 3200 - Elementary Differential Equations
- MATH 3382 - Statistical Theory
- MATH 4310 - Introduction to Real Analysis I
- MATH 4650 - Numerical Analysis I
- MATH 4733 - Partial Differential Equations
- MATH 4779 - Math Clinic

Take **two** approved MATH electives (at least six semester hours) above the 3000 level, excluding 3195, 3511, 3800, 3999, and 4830.

Take **three** additional courses (typically 3 courses), countable towards a major in one of the following subjects, at any level: Business, Biology, Chemistry, Computer Science, Economics, Geography and Environmental Science, Health and Behavioral Science, Physics or Sociology. Other areas allowable on a case-by-case basis.

MECHANICAL ENGINEERING BS

Introduction

Please click [here](#) to see Mechanical Engineering department information.

The mechanical engineer is concerned with satisfying the needs of society using a combination of material, human and economic resources. Mechanical engineering covers a wide spectrum of activities in the engineering profession. These activities include the conversion and transmission of energy and associated power processes; the kinematic, dynamic, strength and wear considerations, as well as economic aspects of the development, design and use of materials, machines and processes; and the analysis, synthesis and control of entire engineering systems.

The program offered by the Department of Mechanical Engineering of the University of Colorado Denver can be completed in the afternoon and evening hours to accommodate both working and traditional students. The department seeks to graduate a diverse population of students with a bachelor's degrees who within a few years of graduation are able to:

1. be employed by a diverse group of industries, research laboratories and educational institutions
2. pursue careers in engineering, interdisciplinary areas, research and education
3. pursue postgraduate education and advanced degrees

The mechanical engineering curriculum begins with a strong emphasis on mathematics, physics and chemistry. It continues with a concentration in engineering sciences, including solid and fluid mechanics; thermodynamics, heat and mass transport; materials; and systems analysis and control. It concludes with laboratory and design courses that demonstrate the ways in which scientific knowledge is applied in the design and development of useful devices and manufacturing processes.

The mechanical engineering program may be roughly subdivided into two-year groupings. In the first two years, the program emphasizes the fundamentals of mathematics and basic science that are essential for an understanding of most branches of engineering. In the last two years of the program, the curriculum emphasizes engineering science and design and provides technical electives in the following areas:

- thermodynamics
- heat transfer
- fluid mechanics
- solid mechanics
- motorsports engineering
- power
- biomechanics
- dynamics and controls
- computer-aided design and manufacturing
- thermomechanical systems
- composite materials
- additive manufacturing

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Engineering, Design and Computing Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. CVEN 2121 and CVEN 3111 may be substituted for MECH 2023 and MECH 2033 respectively.
2. Not all courses may be offered every semester.

3. Students must maintain a minimum 2.0 GPA in all courses applying to major requirements.
4. Students must maintain a minimum 2.0 GPA in all MECH courses attempted.
5. Students must complete a minimum of 128 semester hours of course work.
6. The last 30 hours must be earned as a degree-seeking student in the College of Engineering, Design and Computing at CU Denver.

Take **all** of the following courses in Mechanical Engineering major:

- MECH 1025 - CAD and Graphics for Mechanical Engineering
- ENGR 1100 - Fundamentals of Computational Innovation
- ENGR 1200 - Fundamentals of Engineering Design Innovation

- MECH 2023 - Statics **or**
- CVEN 2121 - Analytical Mechanics I

- MECH 2033 - Dynamics **or**
- CVEN 3111 - Analytical Mechanics II

- ELEC 3030 - Electric Circuits and Systems
- MECH 1045 - Manufacturing Processes Design
- MECH 2024 - Introduction to Materials Science
- MECH 2034 - Properties of Engineering Materials
- MECH 3010 - Elementary Numerical Methods and Programming
- MECH 3012 - Thermodynamics
- MECH 3021 - Introduction to Fluid Mechanics
- MECH 3022 - Thermodynamics II
- MECH 3023 - System Dynamics I: Vibrations
- MECH 3027 - Measurements
- MECH 3028 - Laboratory of Mechanical Measurements
- MECH 3031 - Fluids/Thermal Laboratory
- MECH 3032 - Electric Circuits and Systems Lab
- MECH 3035 - Design of Mechanical Elements
- MECH 3042 - Heat Transfer
- MECH 3043 - Strength of Materials
- MECH 4035 - Senior Design I
- MECH 4045 - Senior Design II
- MECH 4142 - Thermal Systems Design

Take **6 semester hours** of Technical Electives:

- MECH 2208/4208/5208- Special Topics (Intro to Comp Fluid Dynamics, Buckling & Stability, Prototyping, Low Speed Aerodynamics, Feedback and Optimal Control, Tribology, Intermediate Controls, Road Vehicle Dynamics, IC Engines, Linear Optimal Control, Experimental Mechanics, Vehicle Instrumentation, LA Green Roof, Introduction to Aerodynamics, Vehicle Design, Polymer Viscoelasticity, Robotics).
- MECH 3045 - Principles of Additive Manufacturing
- MECH 3147 - Bioengineering
- MECH 3208 - Special Topics (Geometric Dimensioning/Tolerance)
- MECH 3939/5939 - Internship
- MECH 4020/5020 - Biomechanics
- MECH 4024 - Mechanical Behavior of Materials
- MECH 4025/5025 - Advanced Biomechanics
- MECH 4110 - Numerical Methods for Engineers
- MECH 4112 - Internal Combustion Engines
- MECH 4114 - Designing with Composites
- MECH 4116 - Robotics
- MECH 4120 - Methods of Engineering Analysis
- MECH 4141 - Fluid Mechanics
- MECH 4147 - Engineering Economy
- MECH 4155 - Air Conditioning Design
- MECH 4163 - Rigid-Body Dynamics
- MECH 4175 - Finite Element Analysis in Machine Design
- MECH 4176 - Introduction to Sports Engineering
- MECH 4177 - Energy Conversion
- MECH 4178 - Solar Engineering
- MECH 4179 - Introduction to Turbomachinery
- MECH 4228/5228 - Special Topic (New Product Design, New Product Development, Introduction to Turbulence)
- MECH 4238 - Special Topic (Road Vehicle Dynamics)

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3195 - Linear Algebra and Differential Equations

Take **all** of the following Science courses:

- CHEM 1130 - Engineering General Chemistry *
- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - General Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - General Physics Lab II

*ENGR 1130 is an acceptable substitute for CHEM 1130

MUSIC BUSINESS EMPHASIS, AUDITION TRACK, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The music business emphasis prepares musicians for careers in such fields as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution and entertainment law.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the music business emphasis, audition track, are required to pass an entrance audition on their primary instrument or voice as part of the application process and to pass varying levels of performance proficiency as part of the curriculum. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Musicianship course groups:

- PMUS 1100 - Music Theory I
- PMUS 1110 - Ear Training and Sight Singing I
- PMUS 1023 - Piano Class I

- PMUS 1200 - Music Theory II
- PMUS 1210 - Ear Training and Sight Singing II
- PMUS 1024 - Piano Class II

- PMUS 2100 - Music Theory III
- PMUS 2110 - Ear Training and Sight Singing III
- PMUS 1025 - Piano Class III

- PMUS 2200 - Jazz Theory
- PMUS 1026 - Piano Class IV

- PMUS 1____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital (1 semester hour)

- PMUS____ Ensemble (1 semester hour) **Note:** Students must complete PMUS 1470 - Performance Practice Ensemble during their first or second semester of Applied Instrument/Voice.
- PMUS 1____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital (1 semester hour)
- PMUS____ Ensemble (1 semester hour)
- PMUS 2____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital (1 semester hour)
- PMUS____ Ensemble (1 semester hour)
- PMUS 2____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital (1 semester hour)
- PMUS____ Ensemble (1 semester hour)

Take **all** of the following Musicianship courses:

- PMUS 3832 - Music in Culture
- PMUS____ Music History Elective
- PMUS or MUSC____ Music Elective (3 semester hours)
- PMUS____ Ensemble (1 semester hour)
- PMUS____ Ensemble (1 semester hour)

Take the following Music & Entertainment Industry Studies Core course:

- MUSC 1540 - Introduction to Audio Production

Take **all** of the following Music Business Emphasis courses:

- MUSC 2700 - Introduction to Music Business
- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management
- MUSC 3690 - Concert Promotion and Venue Management
- MUSC 3700 - Music and Entertainment Business in the Digital Age
- MUSC 3710 - CAM Records
- MUSC 3755 - Music Publishing
- MUSC 3720 - Law and the Music Industry
- MUSC 4740 - Music Business Analysis
- MUSC 4890 - Music Business Senior Seminar

Take **six** semester hours of Music Business elective.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

MUSIC BUSINESS EMPHASIS, NON-AUDITION TRACK, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The music business emphasis prepares undergraduates for careers in such fields as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution and entertainment law.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the music business emphasis, non-audition track, are not required to complete an audition as part of the application process. Students will be assessed for varying levels of performance proficiency as part of the curriculum. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Musicianship course groups:

- PMUS 1120 - Music Theory I
- PMUS 1119 - Ear Training and Sight Singing I
- PMUS 1500 - General Recital (2 semester hours)

Take **one** of the following Musicianship courses:

- PMUS 1023 - Piano Class I
- PMUS 1040 - Class Guitar

Take **one** of the following Musicianship courses:

- PMUS 1023 - Piano Class I
- PMUS 1024 - Piano Class II
- PMUS 1040 - Class Guitar
- PMUS 1041 - Class Guitar II
- PMUS 1050 - Voice Class I

Take **all** of the following Musicianship courses:

- PMUS 3832 - Music in Culture
- PMUS___ Music History Elective
- Music Elective (6 semester hours)

Take the following Music & Entertainment Industry Studies Core course:

- MUSC 1540 - Introduction to Audio Production

Take **all** of the following Music Business Emphasis courses:

- MUSC 2700 - Introduction to Music Business
- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management
- MUSC 3690 - Concert Promotion and Venue Management
- MUSC 3700 - Music and Entertainment Business in the Digital Age
- MUSC 3710 - CAM Records
- MUSC 3720 - Law and the Music Industry
- MUSC 3755 - Music Publishing
- MUSC 4740 - Music Business Analysis
- MUSC 4890 - Music Business Senior Seminar

Take **twenty-seven** semester hours of Music Business Emphasis electives.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approval electives and more information about this emphasis.

PERFORMANCE EMPHASIS, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The performance emphasis includes specialized courses in small performance ensembles, applied private study, contemporary improvisation, and analysis and history. Students gain a diverse set of performance skills in commercial, jazz, classical and experimental music styles.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the performance emphasis are required to pass an entrance audition on their primary instrument or voice as part of the application process and to pass varying levels of performance proficiency as part of the curriculum. This includes passing a Sophomore Proficiency on their primary instrument or voice in order to maintain performance emphasis status. Each student is also required to successfully complete a junior recital and the 2-credit PMUS 4200 Senior Recital Project. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- Click here for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 2700 - Introduction to Music Business
- MUSC 1540 - Introduction to Audio Production

Take **one** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management

Take **all** of the following Musicianship courses:

- PMUS 3832 - Music in Culture
- PMUS ____ Music History elective

Take **all** of the following Musicianship course groups:

- PMUS 1100 - Music Theory I
- PMUS 1110 - Ear Training and Sight Singing I
- PMUS 1023 - Piano Class I

- PMUS 1200 - Music Theory II
- PMUS 1210 - Ear Training and Sight Singing II
- PMUS 1024 - Piano Class II

- PMUS 2100 - Music Theory III
- PMUS 2110 - Ear Training and Sight Singing III
- PMUS 1025 - Piano Class III

- PMUS 2200 - Jazz Theory
- PMUS 1026 - Piano Class IV

- PMUS 1____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital

- PMUS ____ Ensemble (1 semester hour) *Note:* Students must complete PMUS 1470 - Performance Practice Ensemble during their first or second semester of Applied Instrument/Voice.

- PMUS 1____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS ____ Ensemble (1 semester hour)

- PMUS 2____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS ____ Ensemble (1 semester hour)

- PMUS 2____ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital

- PMUS ____ Ensemble (1 semester hour)
- Take **all** of the following Performance Emphasis course groups:
 - PMUS 3__ Applied Instrument/Voice (2 semester hours)
 - PMUS ____ Ensemble (1 semester hour)
- PMUS 3__ Applied Instrument/Voice (2 semester hours)
- PMUS ____ Ensemble (1 semester hour)
- PMUS 4__ Applied Instrument/Voice (2 semester hours)
- PMUS ____ Ensemble (1 semester hour)
- PMUS 4__ Applied Instrument/Voice (2 semester hours)
- PMUS ____ Ensemble (1 semester hour)

Take **all** of the following Performance Emphasis courses:

- PMUS 2050 - The Holistic Musician
- PMUS 3210 - Introduction to Teaching Private Music Lessons
- PMUS 4060 - Music Theory Analysis
- PMUS 4200 - Senior Recital Project

Take **fourteen** semester hours of Music electives. Specific elective courses may be required depending on student's primary instrument.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

PHILOSOPHY BA

Introduction

Please click [here](#) to see Philosophy department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in

individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Degree Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 36 PHIL credit hours.
2. Students must complete a minimum of 27 upper-division (3000-level and above) PHIL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses taken at other institutions must either be transferred as direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the major.
2. For those students who major in philosophy and minor in ethics, philosophy or philosophy of science, up to two courses can satisfy the requirements for both.
3. For those students who qualify for and fulfill the requirements of graduation with Honors, a total of at least 39 hours is required.

4. Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department Undergraduate Advisor.

Take **all** of the following required courses:

- PHIL 2441 - Logic, Language and Scientific Reasoning
- **or**
- PHIL 3440 - Introduction to Symbolic Logic
- **or**
- PHIL 3441 - Philosophical Reasoning Skills

- PHIL 3002 - Ancient Greek Philosophy
- PHIL 3022 - Modern Philosophy
- PHIL 3760 - Kant

Take **one** of the following upper division Social/Political Philosophy courses:

- PHIL 3200 - Social and Political Philosophy
- PHIL 3280 - War and Morality
- PHIL 3500 - Ideology and Culture: Racism and Sexism
- PHIL 4500 - Feminist Philosophy

Take **one** of the following upper division Ethics courses:

- PHIL 3150 - History of Ethics
- PHIL 3250 - Business Ethics
- PHIL 3280 - War and Morality
- PHIL 3500 - Ideology Culture
- PHIL 3430 - Environmental Ethics
- PHIL 3550 - Philosophy of Death and Dying
- PHIL 4242 - Bioethics
- PHIL 4260 - Philosophy of Law
- PHIL 4500 - Feminist Philosophy

Take **one** of the following upper division Continental Philosophy courses:

- PHIL 4780 - Heidegger
- PHIL 4790 - Nietzsche
- PHIL 4833 - Existentialism
- PHIL 4500 - Feminist Philosophy

Take **one** of the following upper division American or Analytic Philosophy courses:

- PHIL 3032 - Twentieth Century Analytic Philosophy
- PHIL 4101 - Pragmatism: Classical American Philosophy

- PHIL 4300 - Philosophy of Mind
- PHIL 4350 - Philosophy of Science
- PHIL 4900 - John Dewey

Take **one** of the following history of Philosophy courses:

- PHIL 3005 - Roman and Early Medieval Philosophy
- PHIL 3010 - Medieval Philosophy
- PHIL 3022 - Modern Philosophy
- PHIL 3030 - Philosophies of the Good Life & Happiness
- PHIL 3032 - Twentieth Century Analytic Philosophy
- PHIL 4000 - 19th and 20th Century Continental Philosophy
- PHIL 4040 - Skepticism
- PHIL 4101 - Pragmatism: Classical American Philosophy
- PHIL 4150 - Twentieth Century Ethics
- PHIL 4220 - Aesthetics and the Philosophy of Art
- PHIL 4230 - Postmodernism
- PHIL 4735 - Rationalism
- PHIL 4740 - Empiricism
- PHIL 4770 - Hegel
- PHIL 4780 - Heidegger
- PHIL 4790 - Nietzsche
- PHIL 4795 - Marx and Marxism
- PHIL 4800 - Plato
- PHIL 4810 - Aristotle
- PHIL 4820 - Hume
- PHIL 4833 - Existentialism
- PHIL 4900 - John Dewey
- PHIL 4920 - Philosophy of Media and Technology

In addition to the above requirements, take **three** additional Philosophy electives, with at least **one** being at the upper division (3000 or above).

PHOTOGRAPHY EMPHASIS, FINE ARTS BFA

Introduction

Please click [here](#) to see general Visual Arts information.

Students in the photography emphasis develop skills in traditional and digital photography while refining their creative and conceptual approaches to the medium. The photography curriculum emphasizes individual artistic development that integrates the history of photography, critical theory and contemporary practice. Through an exploration of photographic techniques, students are given the tools to create visually compelling images that communicate their artistic ideas.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

QUESTIONS

For more information, please contact CAM@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Arts & Media Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
2. All upper-division visual arts courses must be taken at CU Denver unless approved otherwise by Department of Visual Arts faculty.
3. At least 27 semester hours of visual arts credits (at any level) must be taken at CU Denver.
4. At least 24 semester hours of total visual arts courses must be upper-division.

Take **all** of the following Foundations courses:

- FINE 1100 - Drawing I
- FINE 1150 - Introduction to Darkroom Photography
- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2155 - Introduction to Digital Photography
- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II

• Take **all** of the following Photography Emphasis courses:

- FINE 3156 - Photography Studio and Lighting
- FINE 3160 - Color and the Constructed Image
- FINE 3161 - The Silver Fine Print
- FINE 3162 - The Digital Fine Print
- FINE 3171 - Concepts and Processes in Photography
- FINE 3172 - Photography and Community
- FINE 4195 - Advanced Photography I
- FINE 4196 - Advanced Photography II

Take **all** of the following Visual Arts courses:

- FINE 3630 - History of Photography
- FINE 3631 - Photography: Theory and Criticism
- FINE 3635 - Photography Now
- FINE 4990 - Contemporary Art: 1960 to Present

Take **three** semester hours of Pre-20th Century Art History elective.

Take **three** semester hours of Studio Arts elective in an area outside of photography.

Take **nine** semester hours of Studio Arts electives.

Take **six** semester hours of Visual Arts electives. These may include studio, lecture, internship or art history courses.

Take the following Capstone course:

- FINE 4950 - Studio BFA Thesis

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

PHYSICS - PURE AND APPLIED PHYSICS OPTION BS

Introduction

Please click [here](#) to see Physics department information.

Students are strongly encouraged to consult with the Physics advisor, meet physics faculty engaged in Pure & Applied Physics research, attend departmental seminars, and explore ways that Physics relates to research undertaken by faculty in other disciplines.

For more information, contact:

Bodhi Rogers (Physics advisor)

Michael.B.Rogers@ucdenver.edu

Office:North Classroom 3123B

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 63 credits, including a minimum of 47 PHYS credit hours and 16 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 PHYS upper-division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 12 PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must declare their intention to major in Physics by the time they have completed 60 semester hours
2. The introductory labs, PHYS 2351 and PHYS 2361, are required for all physics majors. If the department is unable to offer one or both of these labs then PHYS 2321 may be substituted for PHYS 2351 and PHYS 2341 may be substituted for PHYS 2361, upon prior advisor approval.
3. Students earning a Physics major cannot earn a Physics minor. A senior thesis is required for all students wishing to graduate with departmental honors. For all other students, the faculty encourages a senior thesis or project.

Take **all** of the following required courses:

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2351 - Applied Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2361 - Applied Physics Lab II
- PHYS 2711 - Vibrations and Waves
- PHYS 2811 - Modern Physics I
- PHYS 3120 - Methods of Mathematical Physics
- PHYS 3711 - Junior Laboratory I
- PHYS 3811 - Quantum Mechanics

Take **all** of the following ancillary courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3195 - Linear Algebra and Differential Equations OR
- MATH 3191 - Applied Linear Algebra and
- MATH 3200 - Elementary Differential Equations

Take **all** of the following Pure and Applied Physics track courses:

- PHYS 3211 - Analytical Mechanics
- PHYS 3411 - Thermal Physics
- PHYS 3721 - Junior Laboratory II
- PHYS 4331 - Principles of Electricity and Magnetism
- PHYS 4711 - Senior Laboratory I

(or a course in computational physics approved by advisor)

Take **six** 3000-level or above PHYS credit hours, including up to 3 semester hours of directed research or independent study.

POLITICAL SCIENCE - PUBLIC POLICY OPTION, BA

Introduction

Please click [here](#) to see Political Science department information.

This option was designed for students who desire to pursue careers in public policy and/or public administration in the public or nonprofit sectors. This BA track emphasizes the specifically political aspects of public policy processes and is grounded in political science theory and familiarity with American, Comparative and International politics. Courses will emphasize key policy issues confronting U.S. local, state and national decision makers and citizens. A focus on politics and the policy-making process will prepare students conceptually and methodologically to move beyond partisan politics to address how leaders can best mobilize resources to achieve constituent goals consistent with the public interest.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in

individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 39 PSCI credit hours.
2. Students must complete a minimum of 21 upper division (3000-level and above) PSCI credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 15 PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students with significant pre-existing political or civic engagement experience in the community, or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the experiential-learning requirement; the overall requirement of 39 credit hours for Political Science graduation will still apply.

Take **all** of the following courses:

- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice
- PSCI 1101 - American Political System
- PSCI 2011 - Logic of Political Inquiry

Take **one** of the following American Politics courses:

- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 3035 - Political Movements: Race and Gender
- PSCI 3064 - Power and Empowerment in the United States
- PSCI 3214 - Federal Law and American Indians
- PSCI 3347 - Film and Politics
- PSCI 3914 - The Urban Citizen
- PSCI 4014 - Media and Politics
- PSCI 4024 - State Politics: Focus Colorado
- PSCI 4025 - Local Governance and Globalization
- PSCI 4034 - Political Parties and Pressure Groups
- PSCI 4044 - The Presidency
- PSCI 4074 - Urban Politics
- PSCI 4075 - Gentrification and Social Equity
- PSCI 4084 - Local Government and Administration
- PSCI 4094 - Seminar: American Politics
- PSCI 4124 - Denver Politics
- PSCI 4236 - American Foreign Policy
- PSCI 4237 - American National Security
- PSCI 4330 - U.S. Health Policy
- PSCI 4354 - Environmental Politics
- PSCI 4414 - Non-Profits and Social Change
- PSCI 4444 - Contemporary Culture and Politics in America
- PSCI 4477 - Constitutional Law I
- PSCI 4487 - Constitutional Law II
- PSCI 4494 - Judicial Politics
- PSCI 4535 - Labor and Working Class Politics
- PSCI 4545 - Immigration Politics
- PSCI 4554 - Chicano and Latino Politics
- PSCI 4726 - Seminar on U.S. and China Relations
- PSCI 4827 - Women and the Law
- PSCI 4837 - Contemporary Issues in Civil Liberties
- PSCI 4914 - Community Organizing and Community Development

Take **two** of the following Public Policy and Administration courses:

- PSCI 2365 - Politics of Climate Change

- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 3214 - Federal Law and American Indians
- PSCI 4009 - Politics of the Budgetary Process
- PSCI 4024 - State Politics: Focus Colorado
- PSCI 4025 - Local Governance and Globalization
- PSCI 4034 - Political Parties and Pressure Groups
- PSCI 4084 - Local Government and Administration
- PSCI 4085 - Comparative Governance: Environment and Society
- PSCI 4124 - Denver Politics
- PSCI 4236 - American Foreign Policy
- PSCI 4274 - Conflict Resolution and Public Consent Building
- PSCI 4330 - U.S. Health Policy
- PSCI 4354 - Environmental Politics
- PSCI 4414 - Non-Profits and Social Change
- PSCI 4914 - Community Organizing and Community Development
- PSCI 4934 - CU at the Capitol

Take **one** of the following Comparative Politics and International Relations courses:

- PSCI 3022 - Political Systems of the World
- PSCI 4085 - Comparative Governance: Environment and Society
- PSCI 4236 - American Foreign Policy
- PSCI 4266 - International Law
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4914 - Community Organizing and Community Development
- PSCI 3042 - Introduction to International Relations
- PSCI 3064 - Power and Empowerment in the United States
- PSCI 3050 - Islamophobia
- PSCI 4025 - Local Governance and Globalization
- PSCI 4105 - Comparative Politics: Europe
- PSCI 4115 - Third World Politics
- PSCI 4126 - Introduction to International Political Economy
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism
- PSCI 4155 - Political Systems of the Middle East and North Africa
- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4165 - Islamic Politics and Culture
- PSCI 4176 - Gandhi's Legacy: Non-Violent Resistance Today
- PSCI 4185 - Corruption in the U.S. and Abroad

- PSCI 4186 - East Asia in World Affairs
- PSCI 4195 - Political Systems of Sub-Saharan Africa
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4216 - International Politics: Human Rights
- PSCI 4224 - Dictatorships in 21st Century
- PSCI 4225 - Democracy and Democratization
- PSCI 4226 - The United Nations in World Affairs
- PSCI 4235 - Politics and Markets in Latin America
- PSCI 4237 - American National Security
- PSCI 4240 - International Security
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4265 - Social Justice and Globalization
- PSCI 4274 - Conflict Resolution and Public Consent Building
- PSCI 4276 - Conflicts and Rights in International Law
- PSCI 4280 - The Politics of War Law
- PSCI 4286 - International Relations: War or Peace?
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4365 - Global Ecological Crises
- PSCI 4446 - Advanced Indigenous Peoples' Politics
- PSCI 4505 - Political System of Russia and Its Neighbors
- PSCI 4555 - International Women's Resistance
- PSCI 4605 - Politics and Governments of South Asia
- PSCI 4615 - Politics and Government of China
- PSCI 4645 - Comparative Political Leadership
- PSCI 4726 - Seminar on U.S. and China Relations
- PSCI 4736 - The Middle East in World Affairs
- PSCI 4807 - Political Violence
- PSCI 4808 - Strategies of Peacebuilding
- PSCI 4914 - Community Organizing and Community Development

Take any **two** additional courses from the three fields above, plus take any **one** other upper or lower-division PSCI course.

Take **one** of the following Political Theory courses:

- PSCI 4207 - Theories of Social and Political Change
- PSCI 4265 - Social Justice And Globalization
- PSCI 4407 - Early Political Thought
- PSCI 4417 - Modern Political Thought
- PSCI 4427 - Law, Politics and Justice

- PSCI 4457 - American Political Thought

Take **one** of the following courses:

- PSCI 3914 - The Urban Citizen
- PSCI 3939 - Internship
- PSCI 4934 - CU at the Capitol
- PSCI 4995 - Global Study Topics

Students must complete a capstone experience by enrolling in the following course, any time after completing 27 credit hours in the Major.

- PSCI 4960 - Capstone in Political Science

POLITICAL SCIENCE BA

Introduction

Please click [here](#) to see Political Science department information.

Courses are distributed among the primary fields as listed in this section, i.e., American politics, comparative politics, international relations, political theory and public policy and administration.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements

- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

2. Students must complete a minimum of 39 PSCI credit hours.
3. Students must complete a minimum of 21 upper division (3000-level and above) PSCI credit hours.
4. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
5. Students must complete a minimum of 15 PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Exceptions to the coursework requirement of the Experiential Learning Requirement
 - In lieu of taking one of the identified courses, students may complete a substantial experiential learning project in a different PSCI class. The course instructor must certify with a written submission to the departmental undergraduate advisor that the experiential learning project in that course fulfills the departmental experiential learning requirement.
 - Students with preexisting significant political or civic engagement experience in the community (i.e., community and civic leadership work, or work with government agencies, on political campaigns, or in non-governmental organizations) or for whom the experiential learning requirement poses a hardship may petition the undergraduate advisor to waive the requirement.
 - **Note:** In either of these cases of exception to the Experiential Learning coursework requirement, 39 total credit hours in political science are still required for graduation.

Take **all** of the following required courses:

- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice
- PSCI 1101 - American Political System
- PSCI 2011 - Logic of Political Inquiry *

*This course must be taken by all majors as part of their first 24 credit hours in the program. If this requirement poses a hardship due to such issues as late-declaring

majors, scheduling problems, or students transferring in multiple credits, please contact the Department undergraduate advisor to craft a solution.

Take **two** political theory courses:

- PSCI 4057 - Religion and Politics
- PSCI 4207 - Theories of Social and Political Change
- PSCI 4407 - Early Political Thought
- PSCI 4417 - Modern Political Thought
- PSCI 4427 - Law, Politics and Justice
- PSCI 4457 - American Political Thought

Take **one** of the following American Politics courses:

- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 3035 - Political Movements: Race and Gender
- PSCI 3064 - Power and Empowerment in the United States
- PSCI 3214 - Federal Law and American Indians
- PSCI 3347 - Film and Politics
- PSCI 3914 - The Urban Citizen
- PSCI 4009 - Politics of the Budgetary Process
- PSCI 4014 - Media and Politics
- PSCI 4024 - State Politics: Focus Colorado
- PSCI 4025 - Local Governance and Globalization
- PSCI 4034 - Political Parties and Pressure Groups
- PSCI 4044 - The Presidency
- PSCI 4074 - Urban Politics
- PSCI 4075 - Gentrification and Social Equity
- PSCI 4084 - Local Government and Administration
- PSCI 4094 - Seminar: American Politics
- PSCI 4124 - Denver Politics
- PSCI 4236 - American Foreign Policy
- PSCI 4237 - American National Security
- PSCI 4330 - U.S. Health Policy
- PSCI 4354 - Environmental Politics
- PSCI 4414 - Non-Profits and Social Change
- PSCI 4444 - Contemporary Culture and Politics in America
- PSCI 4477 - Constitutional Law I
- PSCI 4487 - Constitutional Law II
- PSCI 4494 - Judicial Politics
- PSCI 4535 - Labor and Working Class Politics
- PSCI 4545 - Immigration Politics

- PSCI 4554 - Chicano and Latino Politics
- PSCI 4726 - Seminar on U.S. and China Relations
- PSCI 4827 - Women and the Law
- PSCI 4837 - Contemporary Issues in Civil Liberties
- PSCI 4914 - Community Organizing and Community Development

Take **one** of the following Comparative Politics courses:

- PSCI 3022 - Political Systems of the World
- PSCI 4085 - Comparative Governance: Environment and Society
- PSCI 4105 - Comparative Politics: Europe
- PSCI 4115 - Third World Politics
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism
- PSCI 4155 - Political Systems of the Middle East and North Africa
- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4165 - Islamic Politics and Culture
- PSCI 4186 - East Asia in World Affairs
- PSCI 4195 - Political Systems of Sub-Saharan Africa
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4225 - Democracy and Democratization
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4265 - Social Justice and Globalization
- PSCI 4446 - Advanced Indigenous Peoples' Politics
- PSCI 4505 - Political System of Russia and Its Neighbors
- PSCI 4555 - International Women's Resistance
- PSCI 4605 - Politics and Governments of South Asia
- PSCI 4615 - Politics and Government of China
- PSCI 4645 - Comparative Political Leadership
- PSCI 4807 - Political Violence
- PSCI 4914 - Community Organizing and Community Development

Take **one** of the following International Politics courses:

- PSCI 3042 - Introduction to International Relations
- PSCI 3064 - Power and Empowerment in the United States
- PSCI 3050 - Islamophobia
- PSCI 4025 - Local Governance and Globalization
- PSCI 4105 - Comparative Politics: Europe
- PSCI 4115 - Third World Politics

- PSCI 4126 - Introduction to International Political Economy
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism
- PSCI 4155 - Political Systems of the Middle East and North Africa
- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4165 - Islamic Politics and Culture
- PSCI 4176 - Gandhi's Legacy: Non-Violent Resistance Today
- PSCI 4185 - Corruption in the U.S. and Abroad
- PSCI 4186 - East Asia in World Affairs
- PSCI 4195 - Political Systems of Sub-Saharan Africa
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4216 - International Politics: Human Rights
- PSCI 4224 - Dictatorships in 21st Century
- PSCI 4225 - Democracy and Democratization
- PSCI 4226 - The United Nations in World Affairs
- PSCI 4235 - Politics and Markets in Latin America
- PSCI 4236 - American Foreign Policy
- PSCI 4237 - American National Security
- PSCI 4240 - International Security
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4265 - Social Justice and Globalization
- PSCI 4266 - International Law
- PSCI 4274 - Conflict Resolution and Public Consent Building
- PSCI 4276 - Conflicts and Rights in International Law
- PSCI 4280 - The Politics of War Law
- PSCI 4286 - International Relations: War or Peace?
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4365 - Global Ecological Crises
- PSCI 4446 - Advanced Indigenous Peoples' Politics
- PSCI 4505 - Political System of Russia and Its Neighbors
- PSCI 4555 - International Women's Resistance
- PSCI 4605 - Politics and Governments of South Asia
- PSCI 4615 - Politics and Government of China
- PSCI 4726 - Seminar on U.S. and China Relations
- PSCI 4736 - The Middle East in World Affairs
- PSCI 4807 - Political Violence
- PSCI 4808 - Strategies of Peacebuilding

- PSCI 4878 - War, Film, and International Law

Take **one** of the following Experiential Learning courses (see exception policy, above):

- PSCI 2939 - Internship
- PSCI 3000 - Topics: Conference Participation
- PSCI 3840 - Independent Study: PSCI
- PSCI 3914 - The Urban Citizen
- PSCI 3939 - Internship
- PSCI 4840 - Independent Study: PSCI
- PSCI 4880 - Directed Research
- PSCI 4914 - Community Organizing and Community Development
- PSCI 4934 - CU at the Capitol
- PSCI 4995 - Global Study Topics

Take the following course:

- PSCI 4960 - Capstone in Political Science (Students can only enroll in this course after they have completed at least 27 credit hours in the major)

Take **three** additional Political Science(PSCI) elective courses

PSYCHOLOGY BA

Introduction

Please click [here](#) to see Psychology department information.

The College of Liberal Arts and Sciences also offers a Psychology BS degree.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 37 PSYC credit hours.
2. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. PSYC 3939, Internship/Cooperative Education, does NOT count toward the 37- hour minimum or the 16-hour upper-division requirement, but it does count as elective psychology credit.
2. Topics courses (PSYC 3600): See your advisor to determine if they count as Group A or Group B courses.
3. Many courses have prerequisites. Refer to the course descriptions for prerequisite information.
4. Students may not apply more than 56 PSYC credit hours to their degree.

Take **all** of the following required courses:

- PSYC 1000 - Introduction to Psychology I
- PSYC 1005 - Introduction to Psychology II
- PSYC 2090 - Statistics and Research Methods
- PSYC 2220 - Biological Basis of Behavior
- PSYC 3090 - Research Methods in Psychology
- PSYC 4511 - History of Psychology

Group A: Two Group A courses are required.

Take **one** of the following:

- PSYC 3222 - Principles of Learning and Behavior
- PSYC 3144 - Human Cognition

Take **one** of the following to reach a total of **two** Group A courses:

- PSYC 3104 - Behavioral Genetics
- PSYC 3144 - Human Cognition (if not taken above)
- PSYC 3222 - Principles of Learning and Behavior (if not taken above)
- PSYC 3254 - Introduction to Animal Behavior
- PSYC 3262 - Health Psychology
- PSYC 3263 - Hormones and Behavior
- PSYC 3264 - Exercise, Brain and Behavior
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3385 - Psychology of Mindfulness
- PSYC 3724 - Developmental Psychobiology
- PSYC 3810 - Neuropsychology
- PSYC 3822 - Aging, Brain and Behavior
- PSYC 3832 - Neural Basis of Learning
- PSYC 4054 - Behavioral Neuroscience
- PSYC 4164 - Psychology of Perception

Group B: Three Group B courses required.

Take **two** of the following courses:

- PSYC 3205 - Human Development I: Child Psychology
- PSYC 3305 - Abnormal Psychology
- PSYC 3415 - Experimental Social Psychology

Take **one** of the following to reach a total of **three** Group B courses:

- PSYC 3145 - Industrial and Organizational Psychology
- PSYC 3205 - Human Development I: Child Psychology (if not taken above)
- PSYC 3215 - Human Development II: Adolescence and Adulthood
- PSYC 3235 - Human Sexuality
- PSYC 3305 - Abnormal Psychology (if not taken above)
- PSYC 3405 - Family Psychology
- PSYC 3415 - Experimental Social Psychology (if not taken above)

- PSYC 3505 - Psychology and the Law
- PSYC 3610 - Psychological Trauma
- PSYC 3611 - Psychology of Women
- PSYC 3612 - Domestic Abuse
- PSYC 3615 - Positive Psychology
- PSYC 4455 - Theories of Personality
- PSYC 4485 - Psychology of Cultural Diversity
- PSYC 4500 - Psychotherapy
- PSYC 4730 - Clinical Psychology: Ethics and Issues

Take **one** additional course from either Group A or Group B not already taken to fulfill that group requirement.

PSYCHOLOGY BS

Introduction

Please click [here](#) to see Psychology department information.

The College of Liberal Arts and Sciences also offers a Psychology BA degree.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum

- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 54-58 credit hours, including a minimum of 31 PSYC credit hours and 23-27 credit hours in ancillary course work.
2. Students must complete a minimum of 16 upper division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. An experiential learning component is required and must be approved by the Bachelor of Science academic advisor. To fulfill the experiential learning requirement a student must have a minimum overall GPA of 2.5 or higher. Fulfilling this requirement with a project outside of the Psychology Department requires prior approval by the Bachelor of Science academic advisor. Independent study or internship credit hours taken outside of the Psychology Department will not count as Psychology credit hours.
2. A maximum of 56 semester hours of PSYC coursework will count toward graduation.

Take **all** of the following required courses:

- PSYC 1000 - Introduction to Psychology I
- PSYC 1005 - Introduction to Psychology II
- PSYC 2090 - Statistics and Research Methods
- PSYC 2220 - Biological Basis of Behavior
- PSYC 3090 - Research Methods in Psychology
- PSYC 4054 - Behavioral Neuroscience

Take **one** of the following courses:

- PSYC 3205 - Human Development I: Child Psychology
- PSYC 3305 - Abnormal Psychology
- PSYC 3415 - Experimental Social Psychology

Take **two** of the following courses:

- PSYC 3104 - Behavioral Genetics
- PSYC 3222 - Principles of Learning and Behavior
- PSYC 3254 - Introduction to Animal Behavior
- PSYC 3262 - Health Psychology
- PSYC 3263 - Hormones and Behavior
- PSYC 3264 - Exercise, Brain and Behavior
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3724 - Developmental Psychobiology
- PSYC 3810 - Neuropsychology
- PSYC 3822 - Aging, Brain and Behavior
- PSYC 3832 - Neural Basis of Learning
- PSYC 4164 - Psychology of Perception

Take **3 semester hours** from the following (all require consultation with BS advisor AND permission of instructor):

- PSYC 3939 - Internship (2.75 GPA required)
- PSYC 4111 - Senior Seminar in Psychology: Career Capstone
- PSYC 4840 - Independent Study: PSYC (2.5 GPA required)
- PSYC 4880 - Directed Research : PSYC (2.5 GPA required)

Honors Project in Psychology (3.5 GPA required): See honors project requirements

Take **all** of the following required courses:

- BIOL 2051 - General Biology I
- BIOL 2061 - General Biology II
- BIOL 2071 - General Biology Laboratory I
- BIOL 2081 - General Biology Laboratory II
- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II

Take **two** of the following courses:

- BIOL 3225 - Human Physiology
- BIOL 3244 - Human Anatomy
- BIOL 3445 - Introduction to Evolution
- BIOL 3611 - General Cell Biology
- BIOL 3621 - Introduction to Immunology

- BIOL 3654 - General Microbiology
- BIOL 3832 - General Genetics
- BIOL 4134 - Human Genetics
- BIOL 4165 - Neurobiology
- CHEM 3810 - Biochemistry
- CHEM 4810 - General Biochemistry I
- CHEM 4820 - General Biochemistry II

PUBLIC HEALTH BA

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements

- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 43 credit hours, including a minimum of 29 PBHL credit hours and a minimum of 14 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division (3000-level and above) PBHL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 26 PBHL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must complete PBHL 3020, 3001, 3030, 3070, 4040 and 4099 with CU Denver faculty.

Take **all** of the following required courses:

- PBHL 2001 - Introduction To Public Health
- PBHL 3020 - Introduction to Environmental Health
- PBHL 3001 - Introduction to Epidemiology
- PBHL 3030 - Health Policy
- PBHL 3070 - Perspectives in Global Health
- PBHL 4040 - Social Determinants of Health
- PBHL 4099 - Capstone Experience in Public Health

Take **one** of the following Quantitative Methods courses, or another statistics course that has been approved by the undergraduate program director/advisor in advance:

- ANTH 4050 - Quantitative Methods in Anthropology
- BIOL 3763 - Biostatistics
- MATH 2830 - Introductory Statistics
- MATH 4830 - Applied Statistics
- PSYC 2090 - Statistics and Research Methods

Take **two** PBHL electives from the following list:

- PBHL 3002 - Ethnicity, Health and Social Justice

- PBHL 2052 - Global Demography and Health
- PBHL 3010 - Human Sexuality and Public Health
- PBHL 3021 - Fundamentals of Health Promotion
- PBHL 3031 - Health, Human Biology and Behavior
- PBHL 3041 - Health, Culture and Society
- PBHL 3051 - Mental Illness and Society
- PBHL 3071 - Global Topics In Sexual and Reproductive Health
- PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers
- PBHL 3440 - Medical Sociology
- PBHL 3939 - Internship
- PBHL 3999 - Special Topics in Public Health
- PBHL 4020 - Global Health: Comparative Public Health Systems
- PBHL 4021 - Community Health Assessment
- PBHL 4031 - Ethnographic Research In Public Health
- PBHL 4060 - Evolutionary Medicine
- PBHL 4080 - Global Health Practice
- PBHL 4090 - Drug Syndemic
- PBHL 4110 - Public Health Perspectives On Family Violence
- PBHL 4200 - The Global HIV/AIDS Epidemic
- PBHL 4999 - Topics in Public Health

Take **one** elective from either the PBHL list (above) or the following list:

- ANTH 4010 - Medical Anthropology: Global Health
- ANTH 4080 - Global Health Practice
- ANTH 4290 - Anthropology and Public Health
- ANTH 4600 - Medical Anthropology
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4575 - Designing Health Messages
- COMM 4620 - Health Risk Communication
- ECON 5660 - Health Economics
- ENVS 1342 - Environment, Society and Sustainability
- ETST 3002 - Ethnicity, Health and Social Justice
- GEOG 3501 - Geography of Health
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4235 - GIS Applications in the Health Sciences
- HEHM 3100 - Introduction to Health Humanities
- HEHM 3570 - Death & Dying: Social & Medical Perspectives
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present
- PHIL 4242 - Bioethics

- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3305 - Abnormal Psychology
- PSYC 3822 - Aging, Brain and Behavior
- SOCY 3440 - Medical Sociology
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- SOCY 4110 - Sociology of Health Care
- SOCY 4220 - Population Change and Analysis
- SOCY 4290 - Aging, Society and Social Policy

Biological Sciences Ancillary Courses

Option 1) Take **two** of the following Biological Sciences ancillary courses:

- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life
- BIOL 1560 - Basic Biology: From Cells to Organisms
- ANTH 1303 - Introduction to Biological Anthropology

-OR-

Option 2) Take **all** of the following courses:

- BIOL 2051 - General Biology I
- BIOL 2071 - General Biology Laboratory I
- BIOL 2061 - General Biology II
- BIOL 2081 - General Biology Laboratory II

PUBLIC HEALTH BS

Introduction

Please click [here](#) to see Health and Behavioral Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Director: Meng Li, Associate Professor

Office: North Classroom 3018

Telephone: 3033157150

Fax: 3035568501

Email: meng.li@ucdenver.edu

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Degree Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences General Degree Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 73 credit hours, including a minimum of 26 PBHL credit hours and a minimum of 47 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 upper-division (3000-level and above) PBHL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 26 PBHL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must complete PBHL 3020, 3001, 3030, 3070, 4040 and 4099 with CU Denver faculty.

2. Intro Experimental Physics labs I and II (PHYS 2321 and PHYS 2341) are specifically designed for students in non-Physics majors and can be paired with either College Physics (PHYS 2010 and PHYS 2020) or General Physics (PHYS 2311 and PHYS 2331) lectures. Students pursuing a second major in Physics should complete General Physics lectures (PHYS 2311 and PHYS 2331) and Applied Physics Labs (PHYS 2351 and PHYS 2361).

Take **all** of the following courses (five of the following courses must be taken at the University of Colorado Denver):

- PBHL 2001 - Introduction To Public Health
- PBHL 3020 - Introduction to Environmental Health
- PBHL 3001 - Introduction to Epidemiology
- PBHL 3030 - Health Policy
- PBHL 3070 - Perspectives in Global Health
- PBHL 4040 - Social Determinants of Health
- PBHL 4099 - Capstone Experience in Public Health

Take **one** of the following Quantitative Methods courses, OR another statistics course that has been approved by the undergraduate program director/advisor in advance:

- ANTH 4050 - Quantitative Methods in Anthropology
- BIOL 3763 - Biostatistics
- MATH 2830 - Introductory Statistics
- MATH 4830 - Applied Statistics
- PSYC 2090 - Statistics and Research Methods

Take **one** PBHL elective from the following list:

- PBHL 3002 - Ethnicity, Health and Social Justice
- PBHL 2052 - Global Demography and Health
- PBHL 3010 - Human Sexuality and Public Health
- PBHL 3021 - Fundamentals of Health Promotion
- PBHL 3031 - Health, Human Biology and Behavior
- PBHL 3041 - Health, Culture and Society
- PBHL 3051 - Mental Illness and Society
- PBHL 3071 - Global Topics In Sexual and Reproductive Health
- PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers
- PBHL 3440 - Medical Sociology
- PBHL 3939 - Internship
- PBHL 3999 - Special Topics in Public Health
- PBHL 4020 - Global Health: Comparative Public Health Systems

- PBHL 4021 - Community Health Assessment
- PBHL 4031 - Ethnographic Research In Public Health
- PBHL 4060 - Evolutionary Medicine
- PBHL 4080 - Global Health Practice
- PBHL 4090 - Drug Syndemic
- PBHL 4110 - Public Health Perspectives On Family Violence
- PBHL 4200 - The Global HIV/AIDS Epidemic
- PBHL 4999 - Topics in Public Health

Take **one** elective from either the PBHL list (above), from the following list or another course that has been approved by the undergraduate program director/advisor in advance:

- ANTH 4010 - Medical Anthropology: Global Health
- ANTH 4080 - Global Health Practice
- ANTH 4290 - Anthropology and Public Health
- ANTH 4600 - Medical Anthropology
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4575 - Designing Health Messages
- COMM 4620 - Health Risk Communication
- ECON 5660 - Health Economics
- GEOG 3501 - Geography of Health
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4235 - GIS Applications in the Health Sciences
- HEHM 3100 - Introduction to Health Humanities
- HEHM 3570 - Death & Dying: Social & Medical Perspectives
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present
- PHIL 4242 - Bioethics
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3305 - Abnormal Psychology
- PSYC 3822 - Aging, Brain and Behavior
- SOCY 3440 - Medical Sociology
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- SOCY 4220 - Population Change and Analysis
- SOCY 4290 - Aging, Society and Social Policy

Take **all** of the following lecture/lab courses:

- BIOL 2051 - General Biology I
- BIOL 2071 - General Biology Laboratory I
- BIOL 2061 - General Biology II
- BIOL 2081 - General Biology Laboratory II

Take **all** of the following additional math and science ancillary courses:

- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I
- CHEM 2061 - General Chemistry II
- CHEM 2068 - General Chemistry Laboratory II
- CHEM 3411 - Organic Chemistry I
- CHEM 3418 - Organic Chemistry Lab I
- CHEM 3421 - Organic Chemistry II
- CHEM 3428 - Organic Chemistry Lab II
- MATH 1401 - Calculus I

Take **one** of the following sequences, referring to note 2 under Program Restrictions, Allowances and Recommendations for alternative Physics lab information:

Sequence A

- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - Intro Experimental Phys Lab II

Or Sequence B

- PHYS 2010 - College Physics I
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II

PUBLIC SERVICE, BA

Introduction

The Bachelor of Arts in Public Service, offered by the School of Public Affairs, prepares the next generation of civic-minded leaders to take active roles in organizations that promote the common good, such as local, state, and federal government agencies and nonprofit and nongovernmental organizations. Coursework explores the history and values of public service while building real-world capacity in areas such as managing people and resources, designing and evaluating programs, collaborating with others and across sectors, making ethical decisions, and communicating effectively in diverse environments. All courses are available online, providing students with the flexibility to schedule courses around the reality of family and work demands while also engaging both local and fully online students in public service opportunities in their own communities. The BAPS program has been ranked #9 overall by SR Education Group's 2018 Best and Most Affordable Online Colleges, based upon a mix of #3 for quality and #22 for affordability. Students who choose to focus on nonprofit management also have the option to earn the nationally recognized Certified Nonprofit Professional (CNP) designation through the Nonprofit Leadership Alliance. As workforce demand increases in the government and nonprofit sectors, students will be ready to apply critical thinking and analytical skills to make a difference in the world.

Program Delivery

- Courses are offered on campus, online, and in hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Bachelor of Arts in Public Service required 45 credit hours of coursework. Students must complete a minimum of 45 upper-division credit hours, 12 of which must be Public Service courses offered by the School of Public Affairs.
2. A maximum of 12 transfer credits may be applied to the major.

3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy major or minor degree requirements and must maintain a 2.0 GPA overall in major or minor courses.

Complete all of the following required courses:

- PUAD 1001 - Introduction to Leadership and Public Service *
- PUAD 2001 - Management for Public Service
- PUAD 3001 - Financial Management for Public Service
- PUAD 3002 - Program Design, Evaluation, and Decision-Making
- PUAD 4001 - Ethics in Public Service
- PUAD 4002 - Leading for the Public Good
- PUAD 4003 - Effective Communication for Public Service

*This class also fulfills a Social Science requirement of the CU Denver core curriculum

Electives

Complete a total of 24 credit hours of electives, 12 of which must be Public Administration courses offered by the School of Public Affairs**, and 12 of which may be taken from other departments with advisor approval.

Public Administration Electives:

- PUAD 3005 - Collaboration Across Sectors
- PUAD 3110 - Seminar in Nonprofit Management
- PUAD 4006 - Organizational Development
- PUAD 4008 - Current Issues in Public Sector Organizations
- PUAD 4009 - Human Service Organizations
- PUAD 4010 - Public Service in Emergency Management and Homeland Security
- PUAD 4020 - Social Entrepreneurship
- PUAD 4140 - Nonprofit Financial Management
- PUAD 4145 - Philanthropy
- PUAD 4160 - Nonprofit Boards and Executive Leadership
- PUAD 4325 - Public Private Partnerships
- PUAD 4600 - Special Topics in Public Service
- PUAD 4630 - Economic Development
- PUAD 4740 - Sustainable Energy Policy
- PUAD 4939 - Public Service Internship

*The internship PUAD 4939, is required as one of the electives for the major unless officially waived by the BAPS Program Director, in which case a regular PUAD

elective may substitute. Students should direct questions and concerns to their Academic Advisor. See SPA Graduation Requirements for more information.

****Please consult your advisor for any other PUAD course you are considering as an elective in advance of enrolling in the course.**

Other Electives:

All courses taken from another department that you would like to count as an elective must be approved by your advisor in advance. Please contact your advisor directly to discuss any class you may be considering for elective credit that is not listed above.

PUBLIC SERVICE, BA WITH EMERGENCY MANAGEMENT CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

The Emergency Management concentration within the Bachelor of Arts in Public Service degree program allows students to learn how emergency management aims to reduce the harmful effects of all hazards, including disasters. Public servants respond to emergencies but also focus on preparedness, mitigation, resilience, and recovery. Students will be prepared to apply this knowledge in careers with government and nonprofit agencies.

Program Delivery

- All courses are offered online; certain courses are also offered on campus.

Declaring This Concentration

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. A concentration in Emergency Management requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. A minimum grade of C- must be earned in each undergraduate course applied to satisfy the concentration requirements.

Complete **all** of the following required courses:

- PUAD 4010 - Public Service in Emergency Management and Homeland Security
- GEOG 2202 - Hazards to Disasters: Perception and Management
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment (Prerequisite: GEOG 2202)

Complete **2** electives (the mapping/GIS series is highly recommended):

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 4080 - Introduction to GIS
- CRJU 4450 - Homeland Security
- Other 3000- and 4000-level electives approved by the concentration director.

PUBLIC SERVICE, BA WITH ENVIRONMENTAL POLICY AND MANAGEMENT CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

The Environmental Policy and Management concentration within the Bachelor of Arts in Public Service degree program allows students to study the laws, regulations, and policy mechanisms that the government and organizations use to manage environmental issues. Environmental policy balances protection, conservation, and sustainability of natural resources with affordable energy and economic growth while understanding how human activities affect the environment. Students will be prepared to apply this specialized knowledge in careers with government and nonprofit agencies.

Program Delivery

- All courses are offered online; certain courses are also offered on campus

Declaring This Concentration

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. A concentration in Environmental Policy and Management requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. A minimum grade of C- must be earned in each undergraduate course applied to satisfy the concentration requirements.

Complete **all** of the following required courses:

- PUAD 3500 - Managing and Leading in Environmental Organizations
- ENVS 1044 - Introduction to Environmental Sciences (Co-requisite: ENVS 1045 Lab)
- ENVS 1342 - Environment, Society and Sustainability

Complete **2** electives from the following list:

- ENVS 3082 - Energy and the Environment
- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 4080 - Introduction to GIS (Prereq: GEOG 2080)
- GEOG 4260 - Energy and Natural Resource Planning
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4305 - Water Quality and Resources
- GEOG 4335 - Contemporary Environmental Issues
- GEOG 4440 - Science, Policy and the Environment
- PSCI 4354 - Environmental Politics
- COMM 4282 - Environmental Communication

PUBLIC SERVICE, BA WITH INTERNATIONAL DEVELOPMENT CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

The International Development concentration within the Bachelor of Arts in Public Service degree program allows students to learn about the history of international development paradigms and understand the relationships among development actors and how they address persistent global problems such as poverty, human trafficking, trade, and human rights, as examples. International development explores economic growth, alleviating poverty, and improving living conditions in less developed countries. Students will be prepared to apply this knowledge in careers with government and nonprofit organizations.

Program Delivery

- All courses are offered online; certain courses are also offered on campus

Declaring This Concentration

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. A concentration in International Development requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. A minimum grade of C- must be earned in each undergraduate course applied to satisfy the concentration requirements.

Students must complete the following required courses:

- PUAD 3600 - Managing and Leading in International Organizations
- PSCI 3042 - Introduction to International Relations - OR - PSCI 3022 - Political Systems of the World
- COMM 4270 - Intercultural Communication - OR - COMM 4720 - Dynamics of Global Communication (study abroad course)
- INTS 2020 - Foundations of International Studies

Students take **one** additional 3000- or 4000-level elective course. Examples of acceptable electives include but are not limited to:

- ANTH 4460 - Development and Conservation: Theory and Practice
- ECON 3415 - Issues in International Trade and Finance
- ETST 4146 - Indigenous Politics
- GEOG 3412 - Globalization and Regional Development
- GEOG 4301 - Population, Culture, and Resources
- HIST 4032 - Globalization in World History Since 1945
- HIST 4220 - U.S. Foreign Policy Since 1912
- IWKS 3600 - Innovating for the Developing World
- INTB 3000 - Global Perspectives
- PSCI 4266 - International Law
- PSCI 4365 - Global Ecological Crises
- PBHL 3070 - Perspectives in Global Health
- PBHL 4080 - Global Health Practice
- SOCY 3720 - Global Perspectives on Social Issues
- SOCY 4020 - Race, Culture and Immigration

PUBLIC SERVICE, BA WITH NONPROFIT MANAGEMENT CONCENTRATION

Introduction

Please click [here](#) to see School of Public Affairs information.

The Nonprofit Management concentration within the Bachelor of Arts in Public Service degree program prepares students for a wide variety of careers in the exciting world of nonprofit organizations. Students learn about the history and context of nonprofit organizations while gaining practical skills needed to manage and lead in this sector. The School of Public Affairs' affiliation with the Nonprofit Leadership Alliance gives students the opportunity to earn the nationally-recognized Certified Nonprofit Professional credential through completion of the concentration coursework, additional required extracurricular activities, and an examination. Contact cnp@ucdenver.edu for more information about this credential.

Program Delivery

- All courses are offered online; certain courses are also offered on campus.

Declaring This Concentration

- Please contact spa.advising@ucdenver.edu

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. A concentration in Nonprofit Management requires 15 credit hours of coursework.

2. A maximum of 6 transfer credits may be applied to the concentration.
3. A minimum grade of C- must be earned in each undergraduate course applied to satisfy the concentration requirements.

Complete the following required courses:

- PUAD 3110 - Seminar in Nonprofit Management
- PUAD 4140 - Nonprofit Financial Management

Choose 3 courses from the following list of Nonprofit electives:

- PUAD 3005 - Collaboration Across Sectors
- PUAD 4160 - Nonprofit Boards and Executive Leadership
- PUAD 4020 - Social Entrepreneurship
- PUAD 4600 - Special Topics in Public Service: Study Abroad in East Africa
- PUAD 4600 - Special Topics in Public Service: Social Problems and Policies in the Urban Environment

Certified Nonprofit Professional Designation:

- Students completing the Nonprofit Management concentration may choose to simultaneously earn the national Certified Nonprofit Professional designation from the Nonprofit Leadership Alliance by completing additional extracurricular requirements. Contact spa.advising@ucdenver.edu for more information.

RECORDING ARTS EMPHASIS, AUDITION TRACK, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The recording arts emphasis focuses on contemporary analog and digital technology as it is used in music recording, sound reinforcement and media applications (Internet, video games, interactive art installations, etc.). While mastering technology skills and formats, musicians also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the recording arts emphasis, audition track, are required to pass an entrance audition on their primary instrument or voice as part of the departmental application process, and to pass varying levels of performance proficiency as part of the curriculum. Students must also gain admission to the recording arts emphasis before being able to take any of the upper-division (3000/4000 level) recording arts course work. Please see the recording arts website and contact the College of Arts & Media at CAM@ucdenver.edu for further information and any updates.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- Click [here](#) for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Musicianship course groups:

- PMUS 1100 - Music Theory I
- PMUS 1110 - Ear Training and Sight Singing I

- PMUS 1023 - Piano Class I

- PMUS 1200 - Music Theory II
- PMUS 1210 - Ear Training and Sight Singing II
- PMUS 1024 - Piano Class II

- PMUS 2100 - Music Theory III
- PMUS 2110 - Ear Training and Sight Singing III
- PMUS 1025 - Piano Class III

- PMUS 2200 - Jazz Theory
- PMUS 1026 - Piano Class IV

- PMUS 1___ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS___ Ensemble (1 semester hour) *Note:* Students must complete PMUS 1470 - Performance Practice Ensemble during their first or second semester of Applied Instrument/Voice.

- PMUS 1___ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS___ Ensemble (1 semester hour)

- PMUS 2___ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS___ Ensemble (1 semester hour)

- PMUS 2___ Applied Instrument/Voice (1 semester hour)
- PMUS 1500 - General Recital
- PMUS___ Ensemble (1 semester hour)

Take **all** of the following Musicianship courses:

- PMUS 3832 - Music in Culture
- PMUS ___ Music History Elective
- PMUS or MUSC___ Music Elective (3 semester hours)
- PMUS ___ Ensemble (1 semester hour)
- PMUS ___ Ensemble (1 semester hour)

Take **all** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 2700 - Introduction to Music Business
- MUSC 1541 - Audio Production I
- PMUS 1542 - Applied Bass Clarinet
- MUSC 1560 - Audio Production II

Take **one** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management

Take the following course:

- MUSC 1800 - Acoustics for Audio Production

Take **all** of the following Recording Arts Emphasis courses (available only to students accepted to emphasis):

- MUSC 2550 - Critical Listening for Recording Arts
- MUSC 2580 - Audio Production III
- MUSC 2590 - Mastering & Advanced Digital Audio
- MUSC 3505 - Introduction to Audio Post Production
- MUSC 3530 - Live Sound Reinforcement
- MUSC 4580 - Audio Production Seminar

Take **six** semester hours of Recording Arts Emphasis electives.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

RECORDING ARTS EMPHASIS, NON-AUDITION TRACK, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The recording arts emphasis focuses on contemporary analog and digital technology as it is used in music recording, sound reinforcement and media applications (Internet, video games, interactive art installations, etc.). While mastering technology skills and formats, students also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here to go to information about declaring a major.
- Students who wish to pursue the recording arts emphasis, non-audition track, are not required to complete an audition as part of the departmental application process. Students will be assessed for varying levels of performance proficiency as part of the curriculum. Please see the recording arts website and contact the College of Arts & Media at CAM@ucdenver.edu for further information and any updates.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- Click here for information about Academic Policies

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Musicianship course groups:

- PMUS 1120 - Music Theory I
- PMUS 1119 - Ear Training and Sight Singing I

- PMUS 1211 - Ear Training and Sight Singing II

- PMUS 1500 - General Recital (2 semester hours)

- Take **all** of the following Musicianship courses:
 - PMUS 3832 - Music in Culture
 - PMUS ____ Music History Elective
 - PMUS or MUSC ____ Music Elective (3 semester hours)

- Take **one** of the following Musicianship courses (1 semester hour):
 - PMUS 1040 - Class Guitar
 - PMUS 1023 - Piano Class I

Take **one** of the following Musicianship courses:

- PMUS 1023 - Piano Class I
- PMUS 1024 - Piano Class II
- PMUS 1040 - Class Guitar
- PMUS 1041 - Class Guitar II
- PMUS 1050 - Voice Class I

Take **all** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 2700 - Introduction to Music Business
- MUSC 1541 - Audio Production I
- MUSC 1542 - Audio Production Lab
- MUSC 1560 - Audio Production II

Take **one** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management

Take the following course:

- MUSC 1800 - Acoustics for Audio Production

Take **all** of the following Recording Arts Emphasis courses:

- MUSC 2550 - Critical Listening for Recording Arts
- MUSC 2580 - Audio Production III
- MUSC 2590 - Mastering & Advanced Digital Audio
- MUSC 3530 - Live Sound Reinforcement
- MUSC 3505 - Introduction to Audio Post Production
- MUSC 4580 - Audio Production Seminar

Take **twenty eight** semester hours of Recording Arts Emphasis electives.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

RISK MANAGEMENT AND INSURANCE MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) for more information on this program.

The risk management and insurance major provides students with the fundamental knowledge needed to accurately measure and manage risk.

Recent crisis situations suggest that understanding risk and how to manage it, and ultimately, how risk management can be used to increase firm value, is essential in the current business environment. The RISK major will provide an overall perspective on risk, with a specific focus on insurance products and their use in mitigating risk in business and personal situations. The insurance industry recognizes many high-level certifications as a sign of expertise, and the RISK course work will provide the knowledge base so that students can proceed to acquire certification in their specific choice of insurance specialty.

Potential job opportunities include positions in the insurance industry and those that require a thorough understanding of risk, such as corporate risk officer or risk manager. In addition, students who choose to work in the insurance industry can make a seamless transition into underwriting, ratemaking, and policy approval. The program will be supported by a unique internship and special project opportunities in the insurance industry, and is the first program of its kind in the region.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- Business School Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. A grade of C or higher must be earned in all courses that are used as prerequisites. These are noted with an asterisk.

Take **all** of the following required courses:

- FNCE 3500 - Management of Business Capital *
- RISK 3809 - Introduction to Risk Management
- RISK 4809 - Property & Casualty Insurance
- RISK 4909 - Corporate Risk Management

Take **three** of the following courses:

- FNCE 3600 - Financial Markets and Institutions
- FNCE 3700 - Investment and Portfolio Management *
- FNCE 4500 - Corporate Financial Decisions *
- RISK 4129 - Practical Enterprise Risk Management
- RISK 4209 - Cyber Risk Management
- RISK 4309 - Strategic Risk Management
- RISK 4509 - Global Risk Management
- RISK 4609 - Claims Management
- RISK 4709 - Life & Health Insurance
- RISK 4950 - Special Topics: Cyber Risk Management & Cyber Warfare

Note

All RISK majors are required to complete RISK 3949 (internship) to fulfill BGEN Experiential Learning.

All RISK courses have a fixed tuition rate. However, students have the option to apply for RMI scholarships for each RISK course they take (one scholarship per semester).

SINGER/SONGWRITER EMPHASIS, MUSIC BS

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

Students in the singer/songwriter emphasis complete specialized courses in songwriting and arranging repertoire while developing their performance skills through small performance ensembles and applied private study of voice, accompanying instrument and songwriting.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major.
- The Bachelor of Science (BS) in Music has a competitive application process. Please refer to the Department of Music & Entertainment Industry Studies website for detailed guidelines and information.
- Students who wish to pursue the singer/songwriter emphasis are required to pass a singer/songwriter audition on their accompanying instrument AND voice as part of the application process, and to pass varying levels of performance proficiency as part of the curriculum. This includes passing a Sophomore Proficiency in order to maintain singer/songwriter emphasis status. Each student is also required to successfully complete a junior recital and the 2-credit PMUS 4200 - Senior Recital Project. Please contact the College of Arts & Media at CAM@ucdenver.edu for further information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Arts & Media Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To earn a BS in Music, students must complete musicianship courses, Music & Entertainment Industry Studies core courses and requirements from one of the four emphasis areas: performance, singer/songwriter, music business or recording arts.

A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

Take **all** of the following Music & Entertainment Industry Studies Core courses:

- MUSC 1540 - Introduction to Audio Production
- MUSC 2700 - Introduction to Music Business
- MUSC 3210 - Music and Entertainment Marketing
- MUSC 3220 - Artist Management
- MUSC 3755 - Music Publishing

Take **all** of the following Musicianship course groups:

- PMUS 1100 - Music Theory I
 - PMUS 1110 - Ear Training and Sight Singing I
 - PMUS 1023 - Piano Class I

 - PMUS 1200 - Music Theory II
 - PMUS 1210 - Ear Training and Sight Singing II
 - PMUS 1024 - Piano Class II

 - PMUS 2100 - Music Theory III
 - PMUS 2110 - Ear Training and Sight Singing III
 - PMUS 1025 - Piano Class III
- Take **one** of the following Musicianship courses:

- PMUS 1026 - Piano Class IV
- PMUS 2750 - Functional Guitar Skills: Acoustic Guitar Styles
- PMUS 2751 - Functional Guitar Skills: Electric Guitar Styles

- Take **all** of the following Musicianship courses:
- PMUS 3832 - Music in Culture
- PMUS__ Music History Elective

- PMUS 2050 - The Holistic Musician
- Music Elective (2 semesters)

Take **all** of the following Singer/Songwriter Emphasis course groups:

- **Either** PMUS 1574 - Applied Guitar, Singer/Songwriter **or** PMUS 1644 - Applied Piano, Singer/Songwriter *Note:* Students must complete both semesters of applied instrument lessons on their primary audition instrument.
- PMUS 1500 - General Recital
- PMUS____ Ensemble (1 semester hour) **Note:** Students must complete PMUS 1470 - Performance Practice Ensemble during their first or second semester of Applied Music.

- **Either** PMUS 1574 - Applied Guitar, Singer/Songwriter **or** PMUS 1644 - Applied Piano, Singer/Songwriter *Note:* Students must complete both semesters of applied instrument lessons on their primary audition instrument.
- PMUS 1500 - General Recital
- PMUS____ Ensemble (1 semester hour)

- PMUS 1734 - Applied Voice, Singer/Songwriter
- PMUS 1500 - General Recital
- PMUS____ Ensemble (1 semester hour)

- PMUS 1734 - Applied Voice, Singer/Songwriter
- PMUS 1500 - General Recital
- PMUS____ Ensemble (1 semester hour)

- PMUS 3772 - Applied Singer/Songwriter
- PMUS____ Ensemble (1 semester hour)

- PMUS 3772 - Applied Singer/Songwriter
- PMUS____ Ensemble (1 semester hour)

- PMUS 4772 - Applied Singer/Songwriter
- PMUS____ Ensemble (1 semester hour)

- PMUS 4772 - Applied Singer/Songwriter
- PMUS____ Ensemble (1 semester hour)

Take **all** of the following Singer/Songwriter Emphasis courses:

- PMUS 2320 - Songwriting Analysis
- PMUS 3200 - Popular Music Performance Skills
- PMUS 3310 - Intermediate Songwriting
- PMUS 3320 - Popular Music Arranging
- PMUS 4310 - Advanced Songwriting
- PMUS 4200 - Senior Recital Project

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this emphasis.

SOCIOLOGY BA

Introduction

Please click [here](#) to see Sociology department information.

Sociology is the study of social relations, interactions, and institutions. Using quantitative and qualitative scientific methods, it offers a unique way of seeing and understanding the social world and how it shapes individual lives and history. Sociology's subject matter is broad and diverse. Some of the topics covered are criminology, religion, families, inequalities between social groups, childhood, youth, adulthood and old age, social stability and social change, urban issues, environment, technology, education, and health.

All prospective majors should contact the undergraduate advisor in Sociology as early in their academic careers as possible for information about the degree requirements. Transfer or returning students should consult with the undergraduate advisor in Sociology concerning completion of the core courses.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Sociology advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.
- This program is also offered online.

Declaring This Major

- [Click here to go to information about declaring a major](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 32 SOCY credit hours.
2. Students must complete a minimum of 16 upper-division (3000-level and above) SOCY credit hours.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 13 SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions:

1. The maximum number of hours allowed in sociology is 56.
2. Students must take a minimum of 3 credit hours in elective courses at the 4000 level.

Take **all** of the following courses:

- SOCY 1001 - Understanding the Social World
- SOCY 2001 - Inequalities in the Social World

- SOCY 3115 - Quantitative Methods & Analysis
- SOCY 3119 - Qualitative Methods
- SOCY 3140 - Sociological Theory
- SOCY 4830 - Senior Capstone: Worklife Practices & Policies

Take a minimum of **12** and a maximum of 36 SOCY elective credit hours. At least 3 credit hours must be completed at 4000-level or higher.

SOCIOLOGY BA - GENDER AND SOCIETY CONCENTRATION

Introduction

Please click [here](#) to see Sociology department information.

A concentration in Gender and Society provides students with an understanding of the role of gender in the experiences of females, males, and gender non-conforming individuals. The interdisciplinary nature of the concentration enables students to develop the skills to critically evaluate the ways in which inequality, oppression, and social structure contribute to various social problems such as the pay gap, sexual assault, domestic violence, and human trafficking. The Gender and Society concentration equips students for jobs in a variety of areas such as advocacy, counseling, public health, policy-making and government, business, and criminal justice.

All prospective majors should contact the undergraduate advisor in Sociology as early in their academic careers as possible for information about the degree requirements. Transfer or returning students should consult with the undergraduate advisor in Sociology concerning completion of the core courses.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Sociology advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 38 credit hours, including a minimum of 20 SOCY credit hours and 18 ancillary courses.
2. Students must complete a minimum of 16 upper-division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 13 SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions:

1. The maximum number of SOCY credit hours allowed for the Sociology BA - Gender and Society concentration is 56.
2. Students must take four electives for the major. Three of these electives must be cross-listed as SOCY and WGST. The fourth elective must be a WGST course cross-listed with a department other than Sociology.
3. Students who pursue this concentration simultaneously earn a minor in Women's and Gender Studies.

Take **all** of the following courses:

- SOCY 1001 - Understanding the Social World
- WGST 1050 - Introduction to Women's and Gender Studies
- SOCY 2001 - Inequalities in Social World
- SOCY 3115 - Quantitative Methods & Analysis
- SOCY 3119 - Qualitative Methods

- SOCY 3140 - Sociological Theory
- WGST 4306 - Survey of Feminist Thought **OR** WGST 4308 - Contemporary Feminist Thought
- SOCY 4830 - Senior Capstone: Worklife Practices & Policies

Take three courses (9 credit hours) cross-listed as SOCY and WGST. These courses are examples. Students should check course descriptions and the schedule to find courses that meet this requirement.

- SOCY /WGST 3700 - Sociology of the Family
- SOCY /WGST 3080 - Sex and Gender
- SOCY /WGST 3010 - Sociology of Human Sexuality
- SOCY /WGST 4270 - Social Meanings of Reproduction
- SOCY /WGST 4780 - Violence in Relationships

Take one additional WGST elective course. These courses are examples. Students should check course descriptions and the schedule to find courses that meet this requirement.

- WGST 3343 - Women & Gender in US History
- WGST 3450 - Contemporary Women Writers
- WGST 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism
- WGST 4215 - Women's Rights, Human Rights: Global Perspectives
- WGST 4225 - Urban America: Colonial Times to the Present

SPANISH, INTERNATIONAL LANGUAGE AND CULTURE FOR THE PROFESSIONS OPTION BA

Introduction

Please click [here](#) to see Modern Languages department information.

This option in the Spanish major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. (However, students who wish to be certified to teach Spanish in the public schools should consult the department for information concerning the undergraduate language licensure program.)

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) to go to information about declaring a major
- International Spanish for the Professions is a controlled-enrollment major that takes two years to complete. Interested students should contact the Spanish advisor in the Department of Modern Languages to declare the major. This should be done as early as possible in the student's academic career, but not later than the second semester of the sophomore year.
- To be admitted to major status in Spanish, students must have an overall GPA of C+ (2.3).
- Prerequisites: *(These courses do not count toward the major total of 45 semester hours)*
 - ECON 2012 - Principles of Economics: Macroeconomics
 - ECON 2022 - Principles of Economics: Microeconomics
 - MATH 1070 - Algebra for Social Sciences and Business **or**
 - MATH 1110 - College Algebra **or**
 - higher level math course

 - SPAN 2110 - Second Year Spanish I **or**
 - SPAN 2120 - Second Year Spanish II

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 45 credit hours, including a minimum of 30 SPAN credit hours and 15 credit hours in ancillary coursework.
2. Students must complete a minimum of 30 upper division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.5. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 SPAN credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Spanish majors are advised to take MATH 1010 or 2830 for their CU Denver Core Curriculum Mathematics requirement.
2. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major only with departmental approval before enrollment in those courses.

Take **two** SPAN electives at the 4000-level.

Take **all** of the following Business courses:

- ACCT 2200 - Financial Accounting and Financial Statement Analysis
- MGMT 1000 - Introduction to Business
- MGMT 3000 - Managing Individuals and Teams
- MGMT 4400 - Environments of International Business
- MKTG 3000 - Principles of Marketing

SPORTS BUSINESS MAJOR - BS IN BUSINESS ADMINISTRATION

Introduction

Please click [here](#) to see Business School information.

The Sports Business major offers students the opportunity to prepare for a competitive career in the sports industry. This program was developed with industry partners who are in need of qualified leaders in the field. Sports firms are currently hiring at the entry level and promoting from within. The Sports Business major will provide you with the knowledge and skills you need to begin your career in the exciting field of sports.

The program includes faculty who are active researchers in the field, prominent guest speakers, and the opportunity to participate in exciting internships with local leaders in the industry. Some companies where students have interned include Broncos Football Club, Kroenke Sports and Entertainment, United States Olympic Committee and Anschutz Entertainment group.

Students completing the Sports Business major are also eligible to participate in the London Calling study abroad program. This unique opportunity provides students with a firsthand look at the global sports management field through behind-the-scenes visits to key sports and entertainment organizations and venues in London. The two-week elective includes visits to the UK's top sports facilities, including Arsenal FC, O2 Arena, Wimbledon, 2012 Olympic committee and more.

Students enrolled in the program will learn about diverse, cross-functional areas of the sports industry, including:

Sports industry trends & growth opportunities

Sports media trends & new media

Stadium financing & development

Naming rights & sponsorships

Sports specific marketing plans

Sports pricing & fan loyalty

Negotiating contracts with athletes

Team valuations

Labor law and collective bargaining agreements

Pro team and college athletics management

Money flow in teams - managing revenue streams

Outdoor sports industry - marketing & management

Community relations and event planning

Olympics bid process and finances

Program Delivery

This is an on-campus program.

Take the following required course:

- MKTG 4250 - Sports Marketing

Take **two** of the following Business Practices courses:

- MKTG 4251 - Music and Media Marketing
- MKTG 4252 - The Business of Sports
- MKTG 4620 - Customer Service Strategies
- MKTG 4730 - New Product Development for Consumer and Sports Products

Take **one** of the following Research Skills courses:

- MKTG 3100 - Marketing Research
- MKTG 3200 - Consumer Behavior

Take **one** of the following Sales & Comm Skills courses:

- MGMT 4330 - Mastering Management
- MKTG 3300 - Social Media in Business
- MKTG 4000 - Advertising
- MKTG 4700 - Personal Selling and Sales Management

Take **one** of the following Application courses:

- MGMT 4900 - Project Management and Practice
- MKTG 4050 - Applied Marketing Management
- MKTG 4834 - Global Sports & Entertainment Management
- MKTG 3939 - Internship (Sports Business Internship)

Take **one** 4000-level MKTG or MGMT elective

Undergraduate Minors

ANTHROPOLOGY MINOR

Introduction

Please click [here](#) to see Anthropology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 ANTH credit hours.
2. Students must complete a minimum of 9 upper division (3000-level and above) ANTH credit hours. Most upper division courses have lower division prerequisites.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ANTH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. All upper division core courses must be taken from CU Denver faculty in order to count for specific requirements. Upper division courses from other schools will only count as electives.

Take at least **three** of the following courses:

- ANTH 1302 - Introduction to Archaeology
- ANTH 1303 - Introduction to Biological Anthropology
- ANTH 2102 - Culture and the Human Experience
- ANTH 3101 - Foundations of Cultural Anthropology
- ANTH 3301 - World Prehistory
- ANTH 3512 - Human Evolution

Take **9 semester hours** of Anthropology electives.

ART HISTORY MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

The art history minor familiarizes students with the principal traditions of art history and includes a selection of lecture courses in advanced studies. This program provides a strong introduction to historical developments while developing analytical skills in research, writing and visual culture.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Art History Minor courses:

- FINE 2600 - Art History Survey I
- FINE 2610 - Art History Survey II

Take **nine** semester hours of upper-division Art History electives.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for lists of approved electives and more information about this minor.

ASTROPHYSICS MINOR

Introduction

Please click [here](#) to see Physics department information.

Astrophysics is an important and well-represented subdiscipline of physics. It includes the study of the solar system, galactic and extragalactic astrophysics, as well as cosmology. A minor in this field combines a theoretical approach with observational analysis. There is also the opportunity to do research in this field.

The physics department offers minors in physics, biophysics, and astrophysics. However, it is not possible to receive a minor in more than one of these fields. Also, physics majors may elect to receive the astrophysics or biophysics minor from the department, but not the physics minor.

Students are strongly encouraged to consult with the astrophysics advisor, meet physics faculty engaged in Astrophysics research, attend departmental astrophysics-related seminars, and explore ways that astrophysics relates to research undertaken by faculty in other disciplines.

For more information, contact:

Alberto Sadun (Astrophysics Minor Advisor)

alberto.sadun@ucdenver.edu

Office: North Classroom 3809

Bodhi Rogers (Physics advisor)

michael.b.rogers@ucdenver.edu

Office: North Classroom 3123B

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 17 PHYS credit hours.

2. Students must complete a minimum of 6 upper-division (3000-level and above) PHYS credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Requirements for the minor in astrophysics may be used to fulfill the requirements of the major in physics.
2. A student majoring in physics who wants to minor in astrophysics cannot use the 3000-level and above courses applied to the Astrophysics minor for their Physics Major requirements.

Take the following **required** course:

- PHYS 1052 - General Astronomy I

Take **all** of the courses in one of the following four course Physics lecture/lab sequences:

- PHYS 2010 - College Physics I **and**
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II **and**
- PHYS 2341 - Intro Experimental Phys Lab II
- **or**
- PHYS 2311 - General Physics I: Calculus-Based **and**
- PHYS 2321 - Intro Experimental Phys Lab 1
- **or**
- PHYS 2351 - Applied Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based **and**
- PHYS 2341 - Intro Experimental Phys Lab II
- **or**
- PHYS 2361 - Applied Physics Lab II

Take **one** of the following courses:

- PHYS 3050 - General Astronomy II
- PHYS 3070 - Physical Cosmology
- PHYS 3082 - Energy and the Environment

- PHYS 3411 - Thermal Physics
- PHYS 3840 - Independent Study: PHYS
- PHYS 3939 - Internship
- PHYS 4510 - Optics
- PHYS 4550 - Astrophysics
- PHYS 4840 - Independent Study: PHYS
- PHYS 4920 - Advanced Undergraduate Seminar
- PHYS 4980 - Advanced Physics Topics

*Topics in these classes vary, as do the number of credits that can be earned. See departmental advisor for approval.

BEHAVIORAL COGNITIVE NEUROSCIENCE MINOR

Introduction

Please click [here](#) to see Psychology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements

- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 PSYC credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) credit hours in the minor.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. If a student is a Psychology major (either a Bachelor of Arts or Bachelor of Science), their PSYC 1000 and PSYC 2220 courses do not count toward this minor. Additionally, if a student is a Bachelor of Science Psychology major, the PSYC 4054 course does not count toward this minor, nor do the two upper division Psychology elective courses they are using to fulfill their Psychology Department major requirements. As a substitution, for these courses Psychology (B.S.) majors must take an additional 3 courses from either the Cognitive Neuroscience and/or Behavioral Neuroscience category lists.
2. To fulfill this minor a non-Psychology major must successfully complete a total of 5 courses, including PSYC 1000, 2220 and 3 of the upper division courses from the 2 lists, with at least one course from each of the lists. Psychology majors must complete a total of 5 courses from the two lists with a minimum of 1 from each category. None of the 5 courses used toward the minor can also be used toward their Psychology major requirements.
3. Students can take both PSYC 4054 Behavioral Neuroscience and BIOL 4165, but only one can count toward this minor.
4. Students must complete 9 upper-division (3000-level and above) credit hours with CU Denver faculty.

Take **all** of the following courses:

- PSYC 1000 - Introduction to Psychology I
- PSYC 2220 - Biological Basis of Behavior

Take **one** of the following Cognitive Neuroscience courses:

- PSYC 3144 - Human Cognition
- PSYC 3205 - Human Development I: Child Psychology
- PSYC 3222 - Principles of Learning and Behavior
- PSYC 3305 - Abnormal Psychology
- PSYC 3810 - Neuropsychology

Take **one** of the following Behavioral Neuroscience courses:

- PSYC 3104 - Behavioral Genetics
- PSYC 3254 - Introduction to Animal Behavior
- PSYC 3262 - Health Psychology
- PSYC 3263 - Hormones and Behavior
- PSYC 3264 - Exercise, Brain and Behavior
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3724 - Developmental Psychobiology
- PSYC 3822 - Aging, Brain and Behavior
- PSYC 3832 - Neural Basis of Learning
- PSYC 4054 - Behavioral Neuroscience
- PSYC 4164 - Psychology of Perception
- BIOL 4165 - Neurobiology

Take **one** additional course from either the Cognitive Neuroscience or Behavioral Neuroscience lists above.

BIOLOGY MINOR

Introduction

Please click [here](#) to see Integrative Biology department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 28-31 credit hours, including a minimum of 20-23 BIOL credit hours and 8 credit hours in ancillary coursework.
2. Students must complete a minimum of 9 upper-division (3000-level and above) BIOL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 upper division level BIOL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. All upper-division biology courses applied to the undergraduate biology major must be completed within 10 years of graduation.

Take **all** of the following required courses:

- BIOL 2051 - General Biology I **or**
- BIOL 2095 - Honors General Biology I

- BIOL 2071 - General Biology Laboratory I **or**
- BIOL 2096 - Honors General Biology Lab I

- BIOL 2061 - General Biology II **or**
- BIOL 2097 - Honors General Biology II

- BIOL 2081 - General Biology Laboratory II **or**
- BIOL 2098 - Honors General Biology Lab II

Take **two** of the following courses:

- BIOL 3411 - Principles of Ecology
- BIOL 3611 - General Cell Biology
- BIOL 3832 - General Genetics
- BIOL 3445 - Introduction to Evolution

Take **all** of the following ancillary courses:

- CHEM 2031 - General Chemistry I **or**
- CHEM 2081 - Honors General Chemistry I

- CHEM 2038 - General Chemistry Laboratory I **or**
- CHEM 2088 - Honors General Chemistry I Laboratory

- CHEM 2061 - General Chemistry II **or**
- CHEM 2091 - Honors General Chemistry II Lecture

- CHEM 2068 - General Chemistry Laboratory II **or**
- CHEM 2098 - Honors General Chemistry II Laboratory

Take at least **two** upper division Biology courses, including at least one of the following labs:

- BIOL 3225 - Human Physiology
- BIOL 3244 - Human Anatomy
- BIOL 3413 - Ecology Laboratory
- BIOL 3612 - Cell Biology Laboratory
- BIOL 3654 - General Microbiology
- BIOL 3763 - Biostatistics
- BIOL 4125 - Molecular Biology Laboratory
- BIOL 4335 - Plant Science
- BIOL 4345 - Flora of Colorado
- BIOL 4640 - Mammalogy
- BIOL 4644 - Advanced Human Anatomy Laboratory
- BIOL 4880 - Directed Research
- BIOL 4910 - Field Studies

BIOPHYSICS MINOR

Introduction

Please click [here](#) to see Physics department information.

The minor in biophysics enables students with primary interests in biology, chemistry, health sciences, mathematics, anthropology, psychology, or other disciplines to explore the deep connections between fundamental physical processes and the functions and development of life. Using mathematical and computational models as well as precise experimental measurements and advanced instrumentation, biophysics explores living processes within a framework that builds upon fundamental physics concepts of mechanics, electrodynamics, statistical physics, and quantum physics. Students taking a minor in biophysics will be able to synthesize some or all of these areas of physics at a mature level of understanding into their primary field(s) of study, bringing an enriched array of intellectual and experimental tools to the pursuit of their professional goals.

Students must consult with the physics advisor, meet physics faculty engaged in biophysics research, attend departmental biophysics-related seminars, and explore ways that biophysics relates to research undertaken by faculty in other disciplines - including both fundamental science and clinical medicine. Opportunities also arise to connect biophysics studies to outreach into regional high schools so that pre-college students can benefit from undergraduates sharing their experiences with connecting studies across disciplines.

For more information, contact:

Masoud Asadi-Zeydabadi

(Biophysics Minor Advisor)

masoud.asadi-zeydabadi@ucdenver.edu

Office: North Classroom 3803

Bodhi Rogers (Physics advisor)

michael.b.rogers@ucdenver.edu

Office: North Classroom 3123B

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 16 PHYS credit hours.
2. Students must complete a minimum of 6 upper-division (3000-level and above) PHYS credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Requirements for the minor in biophysics may be used to fulfill the requirements of the major in physics.
2. A student majoring in physics who wants to minor in biophysics cannot use the 3000-level and above courses for the Biophysics minor for their Physics Major requirements.

Take **all** of the courses in one of the following four course Physics lecture/lab sequences:

- PHYS 2010 - College Physics I
- PHYS 2321 - Intro Experimental Phys Lab I
- PHYS 2020 - College Physics II
- PHYS 2341 - Intro Experimental Phys Lab II
- **or**
- PHYS 2311 - General Physics I: Calculus-Based
- PHYS 2321 - Intro Experimental Phys Lab I **or**

- PHYS 2351 - Applied Physics Lab I
- PHYS 2331 - General Physics II: Calculus-Based
- PHYS 2341 - Intro Experimental Phys Lab II **or**
- PHYS 2361 - Applied Physics Lab II

Take **both** of the following upper division biophysics courses:

- PHYS 3151 - Biophysics Outlook I
- PHYS 3161 - Biophysics Outlook II

Take at least **one** of the following:

- PHYS 3251 - Biophysics of the Body
- PHYS 3252 - Biophysics of the Body NM

- PHYS 3451 - Biophysics of the Cell
- PHYS 3452 - Biophysics of the Cell NM

- PHYS 4351 - Bioelectromagnetism
- PHYS 4352 - Bioelectromagnetism NM

- PHYS 4840 - Independent Study: PHYS

- Additional biophysics-related special topics or elective courses may be approved by the department advisor. Such courses include topics such as Radiation Physics in Biomedicine, Computational Modeling in Biophysics, Nonlinear Dynamics in Biomedicine, and specialized courses in biophysics-related instrumentation.

- ****Note:** the courses containing "NM" are versions whose math and use of prior physics knowledge has been adjusted - in terms of grading and assignments - for students who have taken fewer math and physics courses than physics majors (NM stands for non-majors). Both versions are meant to be content rich and conceptually challenging, still require quantitative modeling, and are offered simultaneously by the same instructor. Students with strong math backgrounds are encouraged to take the "majors" (xx51) version. Either one or the other version can count toward the minor, *but not both*.

BUSINESS MINOR

Introduction

Please click [here](#) to see Business School information.

Business minors can give you an edge in your career.

By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree you will gain an edge in the job market. The business minor allows you to focus on a specific area of business that fits your career goals.

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in business administration.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver Undergraduate student, you need a 2.0 GPA to be accepted for a business minor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Please see an advisor regarding residency requirements.
2. If the student has already taken the equivalent of one or more of these courses, other higher-level business courses may be substituted with Business School approval.
3. Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Take **all** of the following courses:

- MGMT 1000 - Introduction to Business **or**
- ISMG 2050 - Introduction to Business Problem Solving
- ACCT 2200 - Financial Accounting and Financial Statement Analysis *

* Finite Mathematics must be completed as a pre-requisite.

Take **three** of the following courses:

- BANA 3000 - Operations Management *
- BLAW 3050 - Business Law and Ethics
- ENTP 3200 - Essentials in Entrepreneurship
- FNCE 3000 - Principles of Finance *
- ISMG 3000 - Technology In Business
- MGMT 3000 - Managing Individuals and Teams
- MKTG 3000 - Principles of Marketing
- INTB 4400 - Environments of International Business *

Note

* The courses with an asterisk have several required prerequisites which must be completed prior to enrolling. Check with an advisor as early as possible if you are interested in taking any of these courses. Email: undergrad.advising@ucdenver.edu

CHEMISTRY MINOR

Introduction

Please click [here](#) to see Chemistry department information.

The objective of the chemistry minor is to provide broad introductory course work and laboratory experience to science majors without the more technical mathematical and chemical prerequisites required of the chemistry major. The chemistry minor is open to all CLAS students and should prove beneficial for science majors, pre-professional health science majors and students seeking science education certification.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To register your minor in chemistry, please visit the CLAS advising office in NC 4002. After establishing your minor status, you are encouraged to meet with the chemistry minor advisor, Dr. Priscilla Burrow.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 24 semester hours of chemistry courses.
2. Students must complete a minimum of 15 upper division level (3000-level and above) CHEM credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Take **all** of the following chemistry minor courses:

- CHEM 2031 - General Chemistry I **or**
- CHEM 2081 - Honors General Chemistry I

- CHEM 2038 - General Chemistry Laboratory I **or**
- CHEM 2088 - Honors General Chemistry I Laboratory

- CHEM 2061 - General Chemistry II **or**
- CHEM 2091 - Honors General Chemistry II Lecture

- CHEM 2068 - General Chemistry Laboratory II **or**
- CHEM 2098 - Honors General Chemistry II Laboratory

- CHEM 3411 - Organic Chemistry I **or**
- CHEM 3481 - Honors Organic Chemistry I

- CHEM 3421 - Organic Chemistry II **or**
- CHEM 3491 - Honors Organic Chemistry II

Take **one** of the following upper division laboratory courses:

- CHEM 3018 - Inorganic Chemistry Laboratory
- CHEM 3118 - Analytical Chemistry Laboratory
- CHEM 3418 - Organic Chemistry Lab I
- CHEM 3488 - Honors Organic Chemistry Laboratory I
- CHEM 4828 - Biochemistry Lab

Take **one** of the following upper division courses:

- CHEM 3011 - Inorganic Chemistry
- CHEM 3111 - Analytical Chemistry

Take **one** of the following upper division electives:

- CHEM 3810 - Biochemistry
- CHEM 4810 - General Biochemistry I
- CHEM 5810 - Graduate Biochemistry I
- CHEM 4010 - Advanced Inorganic Chemistry
- CHEM 4110 - Advanced Analytical Chemistry
- CHEM 4121 - Instrumental Analysis
- CHEM 4221 - Practical Applications of Spectroscopy
- CHEM 4421 - Cannabis Chemistry
- CHEM 4510 - Computational Chemistry
- CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics
- CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy
- CHEM 4700 - Environmental Chemistry
- CHEM 4840 - Independent Study: Chem (with prior permission from the Chemistry Minor Advisor)
- CHEM 4880 - Directed Research (with prior permission from the Chemistry Minor Advisor)
- CHEM 5010 - Advanced Inorganic Chemistry
- CHEM 5110 - Advanced Analytical Chemistry
- CHEM 5221 - Practical Applications of Spectroscopy
- CHEM 5310 - Advanced Organic Chemistry

*Only one biochemistry course may count towards the minor. Non-majors wishing to focus in biochemistry should consult the requirements for the Biochemistry Certificate program.

CHINESE STUDIES MINOR

Introduction

Please click [here](#) to see Modern Languages department information.

The Minor Program in Chinese Studies is an interdisciplinary program offering a specialized study of China through coursework in the related disciplines of language, anthropology, history, geography, philosophy, and political science. China's economic and political presence is increasingly prominent in the United States. CU Denver is uniquely positioned to make use of its location as the cultural, economic and political center of the Rocky Mountain region and of its diverse, well-trained and highly qualified faculty to offer a course of interdisciplinary studies related to China. Students may choose to focus either on General Chinese Studies or *Chinese Language and Culture*. On the one hand, *General Chinese Studies* encourages an interdisciplinary approach of accepting courses from various departments that focus on history, political science, art, philosophy, and more from China, Taiwan, Hong Kong, and Singapore. On the other hand, *Chinese Language and Culture* further develops students' linguistic competence and cultural awareness. The minor program offers a wide variety and levels of Mandarin Chinese language and culture courses that not only improve students' communication skills but also give a deeper look into different aspects of Chinese culture.

The program in Chinese studies offers a host of study abroad opportunities throughout the academic year and every summer. CU Denver has on-going programs at the China Agricultural University in Beijing, and programs in Taipei, as well as an association with Yunnan University in Kunming. Study abroad programs of five weeks to one year in length may be arranged, and program faculty can help students enroll in intensive Chinese language programs in Taiwan or on the mainland. Students pursuing the minor in Chinese language and area studies are encouraged to complete the program with a period of residence and study in China.

Program Director: Dr. I-hao Victor Woo

Advisor: Dr. I-hao Victor Woo

Email: i-hao.woo@ucdenver.edu

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

1. Courses taken at other institutions may be applied to the minor but only with approval of a Chinese faculty advisor in the Department of Modern Languages.

Take the **following** required 2 courses:

- CHIN 1000 - China and the Chinese OR
- CHIN 1071 - Mandarin Chinese for the Professions
- AND
- CHIN 2110 - Second Year Chinese I

Take an additional **9-12** credits hours from the following courses, or any course approved in advance by the Chinese Studies Program Director. Students are encouraged to contact the program advisor to devise a study plan:

- ANTH 4000 - Special Topics in Anthropology
- CHIN 2120 - Second Year Chinese II
- CHIN 2970 - Contemporary Chinese Cinema
- CHIN 3010 - Advanced Intermediate Chinese

- CHIN 3130 - Special Topics in Chinese
- CHIN 3200 - Contemporary Chinese Society and Culture
- CHIN 3300 - Special Topics on Chinese Film
- COMM 3230 - Chinese Communication & Culture in Context
- COMM 4430 - Communication, China, and the US
- COMM 4995 - Global Study Topics
- FINE 4524 - Topics in Art History II: Modern and Contemporary Art
- FINE 4750 - Arts of China
- GEOG 3160 - Geography of China
- HIST 3470 - Intro to East Asia: Since 1800
- HIST 4420 - Traditional China: China to 1600
- HIST 4421 - Modern China
- HIST 4422 - Lvng thr Mao's China: Life, Mat. Cult, Movies, 1949-76
- LING 2000 - Foundations of Linguistics
- LING 3100 - Language in Society
- PSCI 4186 - East Asia in World Affairs
- PSCI 4615 - Politics and Government of China
- PSCI 4726 - Seminar on U.S. and China Relations
- PHIL 3410 - Asian Philosophies and Religions
- PHIL 3981 - Chinese Philosophy and Culture
- RLST 3410 - Asian Philosophies and Religions
- RLST 3660 - Chinese Philosophy and Culture

China-related travel study, taken under the following course numbers:

- ANTH 4995 - Global Study Topics
- CHIN 3995 - Global Study Topics
- PSCI 4995 - Global Study Topics

COMMUNICATION MINOR

Introduction

Please click [here](#) to see Communication department information.

Knowledge in most professional settings means little unless it can be communicated effectively. The minor in communication is designed to provide students who are not communication majors with knowledge and skills in communication that are useful in any discipline or profession.

These Minor requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Minor advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is offered both on-campus and online.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 18 COMM credit hours (six courses).
2. Students must complete a minimum of 6 upper-division (3000-level and above) COMM credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 COMM credit hours with CU Denver faculty.

Take **all** of the following Communication courses:

- COMM 1011 - Fundamentals of Communication
- COMM 1021 - Introduction To Media Studies
- COMM 2020 - Communication, Citizenship, and Social Justice

Take **one** of the following Communication courses:

- COMM 1001 - Presentational Speaking
- COMM 2050 - Business and Professional Speaking

In addition to the four courses specified above, students must take **two** upper-division COMM courses (3000 level or above).

COMPUTER ENGINEERING MINOR

Introduction

Please click [here](#) to see electrical engineering department information.

The minor in computer engineering provides an opportunity to gain a more in-depth knowledge of computing technology, programming digital hardware, interfacing digital hardware, internet of things, microcontrollers and microprocessors, sensor technology, as well as computer vision and image processing. The calculus sequence required for most engineering programs is not a prerequisite for the computer engineering minor.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Contact the Department of Electrical Engineering for a Computer Engineering Minor Coursework form.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must meet all prerequisites for all ELEC courses taken.
2. The minimum GPA is 2.0 with no individual course grade below C-
3. The student's application is subject to department approval.

4. Students may apply minor courses toward their major when applicable.

Take **all** of the following required courses (13 credit hours)

- ELEC 1510 or CSCI 1510 - Logic Design (3 hours)
- ELEC 1520 - Programming for Electrical Engineers (3 hours)
- ELEC 2520 - Embedded Systems Engineering 2 (3 hours)
- ELEC 2531 - Logic Laboratory (1 hour)

Technical elective - complete at least one (3 hours)

- ELEC 3520 - Intelligent Systems: IoT & Cyber-Physical Systems
- ELEC 4511 - Hardware-Software Interface
- ELEC 4678 - Quantum Electronics
- ELEC 4727 - Computer Vision & Image Processing Acceleration
- ELEC 4800 - Special Topics (if related to computer engineering and with approval by the electrical engineering department chair)

COMPUTER SCIENCE MINOR

Introduction

Please click [here](#) to see Computer Science department information.

The Department of Computer Science and Engineering offers a minor in computer science. The requirements for the minor are listed below.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare the CS minor, students must complete and send a Minor Declaration Form to the engineering dean's office. Once declared, students are required to meet with a CS advisor to complete the CS minor coursework form. The CS Minor declaration must be completed to register for 3000 level courses.
- For more information or an advising appointment, contact the Department of Computer Science and Engineering at 303-315-1408 or visit the Lawrence Street Center (1380 Lawrence Street), suite 800.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Any undergraduate student currently enrolled in a CU Denver degree program with a major other than computer science may earn a minor in computer science.
2. A CS Minor plan of study must be completed and approved by a CS advisor.
3. A student must fulfill all prerequisites for the courses he/she selects. See the catalog course descriptions for prerequisite information for each course.
4. All courses taken for the minor must be completed with a grade of C- or better and must be taught by a CS faculty member.
5. At the time of graduation, the student must have a CU Denver cumulative GPA of 2.0 and must have a 2.0 GPA for the eight classes taken for the minor.

Take **all** of the following required courses:

- MATH 1401 - Calculus I
- CSCI 1410 - Fundamentals of Computing
- CSCI 1411 - Fundamentals of Computing Laboratory
- CSCI 2312 - Object Oriented Programming
- CSCI 2421 - Data Structures and Program Design

Take **four** additional CSCI courses: one of which may be at the 2000 level. All others must be at the 3000-level or higher.

CONSTRUCTION MANAGEMENT MINOR

Introduction

Please [click here](#) to see civil engineering department information.

Construction management involves the design, planning and management of the construction, maintenance and disposal of the built environment. This includes buildings, transportation systems, utilities and commercial, industrial, residential and environmental projects. Examples include highways, bridges, airports, buildings, dams, reservoirs, light and high-speed rail systems, hospitals, laboratories, residential communities, utilities and environmental restoration projects.

The construction management minor is designed for CU Denver undergraduates in engineering, architecture, business and other related disciplines who want to grow their skills and expertise in the fields of construction and engineering. The curriculum has been developed with the encouragement and review of a team of industry professionals and allows students to learn skills to facilitate entry into the construction industry.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To enroll in the construction management minor, complete the top portion of the Construction Management Minor Coursework form. Email the form to civilengineering@ucdenver.edu or bring it to the Department of Civil Engineering office, located in North Classroom 3037.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. All courses must be taken in residence CU Denver (no transfer hours). A minimum 2.0 GPA is required for courses applied to this minor with no individual course grade below C- (1.7).

Take **all** of the following required courses:

- CVEN 2212 - Engineering Surveying
- CEMT 1000 - Introduction to Construction Management

- CEMT 2100 - Construction Management Fundamentals
- CEMT 4231/5231 - Construction Materials and Methods * or ARCH 3130 and ARCH 3430
- CEMT 4232/5232 - Construction Planning and Control *

*One of the following courses can be substituted for CEMT 4231 or CEMT 4232:

- CEMT 4236/5236 - Project Management Systems
- CEMT 4233/5233 - Construction Cost Estimating
- CEMT 4234/5234 - Sustainable Construction
- CEMT 4240/5240 - Building Information Modeling (BIM)
- CEMT 4242/5242 - Construction Safety
- MGMT/ISMG 4900 - Project Management and Practice

CREATIVE WRITING MINOR

Introduction

Please click [here](#) to see English department information.

Students who are not majoring in English, and who have an interest in writing poetry or fiction, may enroll in the creative writing minor. The creative writing minor gives students the opportunity to complement their area of major study with experience writing and reading poetry or fiction.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

2. Students must complete a minimum of 15 ENGL credit hours.
3. Students must complete a minimum of 6 upper-division (3000-level and above) ENGL credit hours.
4. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
5. Students must complete a minimum of 9 ENGL credit hours with CU Denver faculty.

Take **all** of the following required courses:

- ENGL 2156 - Introduction to Creative Writing
- ENGL 2450 - Introduction to Literature

Take **one** of the following courses:

- ENGL 3020 - Poetry Workshop
- ENGL 3050 - Fiction Workshop

Take **one** of the following courses:

- ENGL 4025 - Advanced Poetry Workshop
- ENGL 4055 - Advanced Fiction Workshop
- ENGL 3020 or 3050 - Writing Workshop (not previously taken)

Students who have taken ENGL 3020, take **one** of the following Poetry courses:

- ENGL 4160 - Poetics
- ENGL 4166 - History of American Poetry
- ENGL 4320 - History of Poetry in English
- ENGL 4801 - Special Topics in Creative Writing: Poetry

Students who have taken ENGL 3050, take **one** of the following Fiction courses:

- ENGL 4200 - Survey of the English Novel to 1900
- ENGL 4230 - The American Novel
- ENGL 4236 - The American Short Story
- ENGL 4802 - Special Topics in Creative Writing: Fiction

CRIMINAL JUSTICE MINOR

Introduction

Please click [here](#) to see School of Public Affairs information.

A minor in Criminal Justice will provide students with foundational knowledge of criminology and criminal justice. Students majoring in sociology, psychology, political science, and related fields are likely to interact with the criminal justice system in their careers and would benefit from the addition of the CJ minor to their degree plan.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Criminal Justice minor requires 18 credit hours of coursework.
2. A maximum of 9 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.
4. Electives must be taken from outside the student's major.

Take **all** of the following required courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory

Take **two** of the following courses:

- CRJU 4042 - Corrections
- CRJU 4043 - Law Enforcement
- CRJU 4044 - Courts and Judicial Process

Take **two** additional upper-division elective courses in Criminal Justice or ancillary fields. For questions about approved elective please contact the Criminal Justice Minor Advisor prior to enrollment.

CULTURALLY AND LINGUISTICALLY DIVERSE EDUCATION MINOR

Introduction

Please click [here](#) to see School of Education and Human Development information.

The Culturally and Linguistically Diverse Education (CLDE) Minor is designed to provide students with an understanding of culturally and linguistically diverse students, families and communities, particularly in their relationship to public institutions. This minor is a powerful addition to majors in sociology, psychology, ethnic studies, gender studies, public health, communication, the humanities, and anyone in the field of education, as it provides professionals with a strong understanding of how to serve culturally and linguistically diverse students in school and community environments.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Minor

- If you are currently a CU Denver student please contact the Undergraduate Advisor in the School of Education & Human Development for specific meeting times to discuss the process.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To complete a minor in CLDE, a students must complete 15 credit hours of CLDE and other related courses with a minimum grade of C (2.0).
2. Of those CLDE courses, at least 9 credits must be completed at the University of Colorado Denver.
3. Transfer courses must be approved by faculty and/or advisor to apply to the minor.
4. Students will be able to create an emphasis that best suits their professional goals and needs. All CLDE minors must take a minimum of 3 CLDE courses from the list below. Students must select 2 additional courses either in CLDE or from other approved programs as listed below.

Take a minimum of **3 courses** from the following list (each course is 3 credit hours):

- CLDE 1000 - Language, Identity, & Power: International Perspectives
- CLDE 2000 - CLDE Foundations
- CLDE 3680 - Spanish for Educators
- CLDE 3830 - Culturally and Linguistically Responsive Teaching through STEM
- CLDE 3840 - Independent Study in CLDE
- CLDE 4020 - Responsive Classroom Communities
- CLDE 4700 - Social Studies for Multilingual Learners

Approved Courses from outside CLDE (each course is 3 credit hours):

- ECED 4650 - Dual Language Learners Learning and Development
- EDFN 4000 - Food Justice in City & Schools
- EDFN 4010: Social Foundations and Cultural Diversity in Urban Education
- HDFR 3250 - Families in Global Perspectives
- HDFR 4040 - Latino Families in School and Communities
- PSCI 1111 - First Year Seminar *Immigration: The Struggle for Social Justice*
- SPED 4740: Linguistically Responsive Special Education

Please contact the advisor for the complete course list.

DATA SCIENCES MINOR

Introduction

Please click [here](#) to see Mathematical and Statistical department information.

The demand for employees trained in data science has grown considerably in recent years. This minor will serve students by offering them specific training in data science.

Data science training should include components related to statistics, computing, and preferably, a specific field of application (e.g., business, biology, health, etc.). The minor is flexible in that it allows a student to get core training in data science programming and statistics, while allowing students to develop additional data science-related skills from other disciplines, or to focus on specific skills within data science.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 credit hours, including a minimum of 12 MATH credit hours.

2. Students must complete a minimum of 9 upper division (3000-level and above) MATH credit hours. Most upper-division courses have lower-division pre-requisites.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 upper-division level MATH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Be aware of no co-credit policies. Here is a non-exclusive list of our most common no co-credit policies: no co-credit between (1) 3800 and 4810, (2) 3195 and 3200, (3) 3191 and 3195, (4) 4387 and 4830.

Take **one** of the following courses:

- MATH 2830 - Introductory Statistics
- MATH 3382 - Statistical Theory
- MATH 3800 - Probability and Statistics for Engineers

Take **one** of the following courses:

- MATH 4387 - Applied Regression Analysis
- MATH 4830 - Applied Statistics

Take **one** of the following courses:

- MATH 1376 - Programming for Data Science
- ISMG 4400 - Programming Fundamentals with Python

Take the following required course:

- MATH 3376 - Data Wrangling & Visualization

Take **two** courses from the following list of approved courses:

- MATH 3191 - Applied Linear Algebra
- MATH 3195 - Linear Algebra and Differential Equations
- MATH 3200 - Elementary Differential Equations
- MATH 3301 - Introduction to Optimization in Operations Research
- MATH 3302 - Simulation in Operations Research

- MATH 4390 - Game Theory
- MATH 4394 - Experimental Designs
- MATH 4408 - Applied Graph Theory
- MATH 4650 - Numerical Analysis I
- MATH 4660 - Numerical Analysis II
- MATH 4733 - Partial Differential Equations
- MATH 4791 - Continuous Modeling
- MATH 4792 - Probabilistic Modeling
- MATH 4793 - Discrete Math Modeling
- MATH 4794 - Optimization Modeling
- MATH 4810 - Probability
- MATH 6330 - Workshop in Statistical Consulting
- ECON 4030 - Data Analysis with SAS
- ECON 4811 - Introduction to Econometrics
- CSCI 3287 - Database System Concepts
- CSCI 3963 - Network Structures
- CSCI 4455 - Data Mining
- CSCI 4580 - Data Science
- CSCI 4788 - Bioinformatics
- CSCI 4930 - Machine Learning
- CSCI 4931 - Deep Learning
- CSCI 4951 - Big Data Systems
- ISMG 3000 - Technology In Business
- ISMG 3500 - Enterprise Data and Content Management
- GEOG 4070 - Remote Sensing II: Advanced Remote Sensing
- GEOG 4080 - Introduction to GIS
- GEOG 4081 - Cartography and Computer Mapping
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4090 - Environmental Modeling with Geographic Information Systems
- GEOG 4091 - Open Source Software for Geospatial Applications
- GEOG 4092 - GIS Programming and Automation
- GEOG 4095 - Deploying GIS Functionality on the Web
- GEOG 4235 - GIS Applications in the Health Sciences

DIGITAL DESIGN MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

The digital design minor integrates creative thinking with experience using digital applications in the production of graphic design and motion graphics. Configured as an interdisciplinary arts and design laboratory, this minor offers a practical understanding of how digital technology can be applied to help solve human, social and business problems.

Program Delivery

- This is an on-campus program

Declaring This Minor

- Students who are declaring a Digital Design minor must complete two introductory Digital Design courses with a grade of C or better, as described below. Students who meet the requirements will be eligible to register for certain upper-division studio Digital Design courses.

ELIGIBILITY

The student has completed, or is in the process of completing, the following courses with a grade of C (2.0) or better in each:

- FINE 2405 - Introduction to Digital Design
- FINE 2415 - Typography Studio
- FINE 2405 and 2415 are both offered typically only in the fall term at CU Denver.

QUESTIONS

- For general inquiries see the Digital design Program page here.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. All courses for this minor must be taken at CU Denver unless approved otherwise by the digital design faculty advisor.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will

not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to major requirements.

Take **all** of the following Digital Design Minor courses (entry level):

- FINE 2405 - Introduction to Digital Design
- FINE 2415 - Typography Studio

Take **all** of the following Digital Design Minor courses (available only to students after declaring):

- FINE 3414 - Motion Design I
- FINE 3415 - Design Studio I
- FINE 3424 - Interactive Media
- FINE 3434 - 3D Motion Design
- FINE 4600 - History of Modern Design:Industrial Revolution-Present

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and more information about this minor.

DIGITAL MEDIA DESIGN FOR LEARNING MINOR

Introduction

Please click [here](#) to see School of Education and Human Development information.

Using digital and social media platforms and technologies, you will design and produce accessible materials and learning experiences for people in school, organizational, and community settings. People with the Digital Media Design for Learning minor go on to be designers and producers of educational software in publishing and software companies; designers and producers of online training and training materials for organizations; designers and producers of educational exhibits in art and science museums; and designers and academic-technology consultants in K12 and college/university settings. When you select this completely online minor you become a part of an existing vibrant learning design community and professional network.

Program Delivery

- All of the courses for this minor are offered online.

Declaring this Minor

- If you are currently a CU Denver student please contact the Undergraduate Advisor in the School of Education and Human Development to set up a time to discuss the process.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To complete a minor in Digital Media Design for Learning, a student will need to complete 15 credit hours of Digital Media Design for Learning courses with a minimum grade of C+ (2.3).
2. Of those Digital Media Design for Learning courses, at least 12 credits must be completed at the University of Colorado Denver.
3. A transfer course must be approved by faculty and/or advisor to apply to the minor.
4. Your minor program of study is developed in consultation with an academic advisor and requires you to have previously completed a minimum of 15 credits of undergraduate courses.

Required Courses

- INTE 4100 - Planning and Designing for Instruction
- INTE 4340 - Learning with Digital Stories
- INTE 4680 - Producing Media for Learning
- INTE 4660 - Developing Self-Paced Online Modules
- INTE 4665 - Learning with Social Media and Networking **or** INTE 4000 - Maker Studio

ECONOMICS MINOR

Introduction

Please click [here](#) to see Economics department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ECON credit hours.
2. Students must complete a minimum of 6 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ECON credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students may double count all but two upper division level courses toward other degree requirements
2. Only courses taken at CU Denver will apply in the GPA calculation.
3. All courses other than ECON 2012 and ECON 2022 require written department approval to be transferred in as satisfying minor requirements.

Take the following **required** courses:

- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics **and**
- Three upper-division electives in economics: **9 semester hours** (ECON 3100 - Economics of Race and Gender is acceptable)

EDUCATION STUDIES MINOR

Introduction

Please click [here](#) to see School of Education and Human Development information.

The Education Studies Minor is a 15-credit undergraduate course of study that explores cognition and learning theory, teaching methods, development across the life span, and working with culturally and linguistically diverse learners.

The Education Studies Minor is useful across many disciplines and career paths. It is customized for two major audiences - those who plan to move into the teacher education program at CU Denver and students going into fields outside of K-12 teaching. Students outside of the K-12 teaching pathway will be able to create an emphasis that best suits their professional goals and needs as the minor is designed to enhance many disciplinary or career paths where there may be an educational component.

Students who are becoming teachers and have Elementary, Early Childhood, or Special Education as a declared major are not eligible for the Education Minor

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Minor

- If you are currently a CU Denver student, please contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 for an appointment to discuss the process.

General Requirements

The Education Minor is combined with an existing major and degree. To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Pathway 1: Education Studies Minor for students moving into the K-12 teaching licensure pathways at CU Denver. Students must complete 15 credits below with a minimum grade of B- or better. (Consult with advisor for timing and specific requirements of this minor.)

- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education
- CLDE 4020 - Responsive Classroom Communities
- EDHD 3930 - Diverse Learners Field Experience & Seminar
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms (concurrent enrollment in EDHD 3930 required)
- One content course in area of licensure area of study (e.g. English, Mathematics, Science). Of those courses, at least 9 credits must be completed at the University of Colorado Denver. Transfer courses must be approved by faculty to apply to the minor.

Pathway 2: Education Studies Minor for non-K-12 teaching. Students must complete 15 credits below with a minimum grade C- or better. An overall minimum 2.0 is required for this minor. (Consult with advisor for timing and specific requirements of this minor.)

Foundations (Choose 1)

- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education
- EDFN 1000 - Equality, Rights & Education (Core Social Science course)
- CLDE 1000 - Language, Identity, & Power: International Perspectives (Core International Perspective course)

Pedagogy (Choose 2)

- LCRT 2000 - Rebels, Villains, & Superheroes: How Children's Literature Shapes Our Identities (Core Humanities course)
- INTE 2500 - Digital Media and Learning (Core Social Science course)
- INTE 2000 - Digital Teaching and Learning
- SPED 4400 - Universal Design for Learning (UDL)

- CLDE 2000 - CLDE Foundations
- HDFR 3050 - Children's Thinking and Assessment
- CLDE 3680 - Spanish for Educators
- ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques
- ECED 4060 - Working with Families, Professionals, and Communities
- SPED 4300 - Family, Professional, and Community Collaboration
- MTED 3040 - Mathematics for Elementary Teachers

Development (Choose 1)

- HDFR 2110 - Child Ecology
- HDFR 3020 - Black and Latino Children in Families and Schools (Core Cultural Diversity course)
- SPSY 2200 - Child and Adolescent Mental Health in Schools and Communities (Core Behavioral Science course)

Elective (Choose an additional course from the list above)

Please contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 for an appointment to discuss and plan your route through the Education Minor

ELECTRICAL ENGINEERING MINOR

Introduction

Please click [here](#) to see electrical engineering department information.

Electrical engineers use mathematics and physics tools and theory to develop systems ranging from smart electric grids, embedded systems and computer engineering products, integrated electronics, wired and wireless communications, networking sensing and imaging devices, and information technology. Students enrolled in the minor of electrical engineering will be given the opportunity to learn the fundamentals of electrical engineering as well as be introduced to some advanced applications. Students will be exposed to many real world applications and have hands-on engineering design experiences.

Students are encouraged to start this minor in their sophomore year of study.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Contact the Department of Electrical Engineering for an Electrical Engineering Minor Coursework form.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must meet all pre-requisites for any ELEC courses taken.
2. To receive the minor, the minimum GPA is 2.0 with no individual course grade below C-
3. The student's application is subject to department approval.
4. Students may apply minor courses toward their major when applicable.

Take **all** of the following required courses (9 credits)

- ELEC 2132 - Circuit Analysis I or ELEC 3030 - Electric Circuits and Systems
- ELEC 2142 - Circuit Analysis II
- ELEC 3316 - Signals and Systems

Junior Elective Courses - complete one of the following (3 credit hours)

- ELEC 3225 - Electronics II
- Note: Beginning Spring 2021 will be retitled to Electronics and worth 4 credits.
- ELEC 3164 - Energy Conversion
- ELEC 3133 - Electromagnetic Fields

Technical Electives - complete two of the following (6 credit hours)

- Any 3 hour 4000-level ELEC lecture course (excluding ELEC 4309/4319)
- Any 3 hour 5000-level ELEC lecture course

ENGLISH WRITING, RHETORIC, AND TECHNOLOGY MINOR

Introduction

Please click [here](#) to see English department information.

The English Writing, Rhetoric, and Technology minor allows students to complement their area of major study with systematic experience in writing.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is both an on-campus and online program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 6 ENGL credit hours must be taken at the upper-division (3000- or 4000-) level.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA.
4. Students cannot complete minor or ancillary course requirements as pass/fail.

5. Students must complete a minimum of 9 ENGL credit hours with CU Denver English faculty.

Program Restrictions, Allowances and Recommendations

1. Core composition courses (English 1020 and 2030) do not count toward the minor, nor does CLEP or AP credit.
2. Courses counted in the minor cannot be counted toward any of the English majors.
3. Internships are available for students who have completed over 60 credit hours and count toward the upper-division elective in the minor. Visit CU Denver's Experiential Learning Center (ELC) for more information (Tivoli 260). A faculty sponsor is required for all internships.
4. Students are encouraged to take ENGL 1020 and ENGL 2030 before beginning the minor.
5. Courses counted in a minor cannot be counted toward any English Major or English Writing, Rhetoric, and Technology Major.

A. Required Course Areas (four courses) 12 hours:

Introduction to Writing and Rhetoric (take **ONE** as you begin the minor)

- ENGL 2060 - Introduction to Writing & Digital Studies
- ENGL 2070 - Grammar, Rhetoric and Style

Multimedia (take **ONE**):

- ENGL 3084 - Multimedia Composition
- ENGL 4701 - Multimedia in the Community

Language Study (take **ONE**):

- ENGL 3160 - Language Theory
- ENGL 4601 - Principles and Practices of Second Language Acquisition (by instructor's permission)
- ENGL 4651 - Second Language Writing
- (by instructor's permission)

Advanced Writing Experience (take **ONE**):

- ENGL 4190 - Advanced Topics in Writing & Digital Studies

B. Elective Course in Writing, Rhetoric, and Digital Studies (one course):

*** A course does not count here and in the Required Course Areas above. The exception is English 4190. One 4190 is required in the above section (A: Required Course Areas), and one additional 4190 can count below (in B: Elective Courses), if elected. (A maximum of two 4190s in total.)*

Elective Courses in Writing, Rhetoric, and Digital Studies (take one) 3 hours:

- ENGL 2060 - Introduction to Writing & Digital Studies
- ENGL 2070 - Grammar, Rhetoric and Style
- ENGL 3084 - Multimedia Composition
- ENGL 3154 - Technical Writing
- ENGL 3160 - Language Theory
- ENGL 3170 - Business Writing
- ENGL 3405 - Topics in Writing
- ENGL 3416 - Magazine Writing
- ENGL 3939 - Internship
- ENGL 4175 - Writing in the Sciences
- ENGL 4180 - Argumentation and Logic
- ENGL 4190 - Advanced Topics in Writing & Digital Studies
- ENGL 4280 - Proposal and Grant Writing
- ENGL 4601 - Principles and Practices of Second Language Acquisition (by instructor's permission)
- ENGL 4651 - Second Language Writing (by instructor's permission)
- ENGL 4701 - Multimedia in the Community
- ENGL 4740 - Honors in Writing
- ENGL 4995 - Senior Writing Project

TOTAL: 15 hours

ENTREPRENEURSHIP MINOR

Introduction

Please click [here](#) to see Business School information.

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in entrepreneurship.

Students enrolled in this minor have the benefit of following their passion with their undergraduate degree while adding the business knowledge and skills employers want and

entrepreneurs need. By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree, you will gain an edge in the job market.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver Undergraduate student, you need a 2.0 GPA to be accepted for an entrepreneurship minor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must take 9 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
2. Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Take **all** of the following courses:

- ENTP 3200 - Essentials in Entrepreneurship
- ENTP 3230 - Small Business Accounting and Finance
- ENTP 3299 - Business Model Development & Planning
- Take **two** ENTP electives

ENVIRONMENTAL SCIENCES MINOR

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

The environmental sciences minor offers students exposure to the breadth of environmental issues. Students emphasize the natural/physical sciences, and may strategically incorporate the social sciences and humanities.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 17 credit hours from the approved courses below.
2. Students must complete a minimum of 9 upper-division (3000- level and above) credit hours in the minor chosen from the approved course list below.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty from the approved list below.

Program Restrictions, Allowances and Recommendations

1. Many of the upper-division courses have prerequisites; the student must check the catalog for prerequisite requirements for these courses.
2. The four upper-division elective courses for the Environmental Sciences minor cannot be from the student's major discipline, even if the particular course is not counted toward the major.
3. Undergraduate students may count up to 3 credit hours of independent study (any combination of ENVS 3840, 4840, 4880) towards elective credit in the minor as approved by the undergraduate coordinator.
4. The lecture/laboratory sequence can be part of the requirements for the major, but not in the student's major department (i.e., a biology major cannot use the general biology sequence, but could use the general chemistry sequence, which is also required for the biology major).

Take **two** of the following lecture/laboratory courses (see Program Requirement note 4, above):

- BIOL 2051 - General Biology I **and**
- BIOL 2071 - General Biology Laboratory I

- BIOL 2061 - General Biology II **and**
- BIOL 2081 - General Biology Laboratory II

- CHEM 2031 - General Chemistry I **and**
- CHEM 2038 - General Chemistry Laboratory I

- CHEM 2061 - General Chemistry II **and**
- CHEM 2068 - General Chemistry Laboratory II

- PHYS 2010 - College Physics I **and**
- PHYS 2030 - College Physics Lab I

- PHYS 2020 - College Physics II **and**
- PHYS 2040 - College Physics Lab II

Take **three** of the following courses outside of the student's major discipline (see Program Requirement note 2, above):

- BIOL 3411 - Principles of Ecology
- CHEM 4700 - Environmental Chemistry
- ECON 4540 - Environmental Economics

- ENVS 3082 - Energy and the Environment **or**
- PHYS 3082 - Energy and the Environment

- ENVS 4720 - Climate Change: Causes, Impacts and Solutions
- ENVS 4740 - Soil Science and Geography
- GEOG 3232 - Weather and Climate
- GEOG 3240 - Colorado Climates
- GEOG 4020 - Earth Environments and Human Impacts
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
- GEOG 4090 - Environmental Modeling with Geographic Information Systems
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4240 - Applied Geomorphology
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4270 - Glacial Geomorphology
- GEOG 4280 - Environmental Hydrology
- GEOG 4335 - Contemporary Environmental Issues
- GEOG 4420 - The Politics of Nature
- GEOG 4440 - Science, Policy and the Environment
- GEOG 4720 - Climate Change: Causes, Impacts and Solutions
- GEOG 4731 - Mountain Biogeography
- GEOL 4030 - Environmental Geology
- PSCI 4354 - Environmental Politics

ETHICS MINOR

Introduction

Please click [here](#) to see Philosophy department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 PHIL credit hours.
2. Students must complete a minimum of 6 upper-division (3000-level and above) PHIL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. For those students who major in philosophy, up to two courses can satisfy the requirements for both programs.
2. Religious Studies courses cannot be used to fulfill the requirements for the minor.
3. Courses taken at other institutions must either be transferred as direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the minor.
4. Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department Undergraduate Advisor.

Take the following **required** course:

- PHIL 1020 - Introduction to Ethical Reasoning

Take **four** of the following courses:

- PHIL 3002 - Ancient Greek Philosophy

- PHIL 3150 - History of Ethics
- PHIL 3200 - Social and Political Philosophy
- PHIL 3250 - Business Ethics
- PHIL 3280 - War and Morality
- PHIL 3430 - Environmental Ethics
- PHIL 3500 - Ideology and Culture: Racism and Sexism
- PHIL 3550 - Philosophy of Death and Dying
- PHIL 4150 - Twentieth Century Ethics
- PHIL 4242 - Bioethics
- PHIL 4260 - Philosophy of Law
- PHIL 4500 - Feminist Philosophy
- PHIL 4700 - Seminar in a Major Philosopher
- PHIL 4812 - Special Topics in Philosophy
- PHIL 4833 - Existentialism

ETHNIC STUDIES MINOR

Introduction

Please click [here](#) to see Ethnic Studies department information.

The minor in ethnic studies offers students the opportunity to enhance and broaden the body of knowledge acquired in their chosen majors and to apply it in a variety of careers involving intercultural relations.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program and all courses are available online.

Declaring This Minor

- Please click [here](#) to go to information about declaring a minor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 18 ETST credit hours (6 courses).
2. Students must complete a minimum of 9 upper-division (3000-level and above) ETST credit hours.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete all ETST course requirements for the Ethnic Studies minor with CU Denver faculty. Transfer courses do not apply.

Take the following **required** course:

- ETST 2000 - Introduction to Ethnic Studies

Take **four** ETST courses, one from each of the following focal U.S. racial/ethnic groups:

Asian-Americans

- ETST 3297 - Social History of Asian Americans
- ETST 3307 - Selected Topics: Asian Americans
- ETST 3357 - Asian American Literature
- ETST 3567 - Asian American Women
- ETST 3697 - Contemporary Asian American Experience

African-Americans

- ETST 2105 - African American Contemporary Social Issues
- ETST 2155 - African American History
- ETST 3230 - African American Family
- ETST 4220 - African-American Literature
- ETST 4515 - The African American in Politics

American Indians

- ETST 2496 - American Indian Literature
- ETST 2606 - The American Indian Experience
- ETST 3110 - Indigenous Studies
- ETST 3216 - Federal Law and American Indians
- ETST 3396 - History of the American Indian
- ETST 3616 - Selected Topics: American Indians
- ETST 4144 - Indigenous Political Systems
- ETST 4146 - Indigenous Politics
- ETST 4726 - North American Indian Art

Chicanos/as and Latinos/as

- ETST 2400 - Issues in Chicano/a Education
- ETST 3108 - Chicano/a and Latino/a History
- ETST 3129 - Contemporary Latin American Literature
- ETST 3350 - Colonial Latin America
- ETST 3365 - Aztlan in the United States: Chicano History from 1821
- ETST 3408 - Social Psychology of Latinos/as
- ETST 3838 - History of the Mexican American in Colorado
- ETST 4558 - Chicano and Latino Politics
- ETST 4616 - Selected Topics: Chicanos/as and Latinos/as

Take **one** ETST elective course of your choice.

FILM AND TELEVISION PERFORMANCE MINOR

Introduction

Please click [here](#) to see general Film & Television Department information.

Students in this minor will receive an introductory education and practical experience in the art of on-camera performance. Through guidance from faculty, students will be instructed on methods of acting for various types of film and television projects. This will include fiction, non-fiction, voice work and understanding on how an actor works with directors, camera crews, and audio personnel. Students may also have opportunities to perform in student film productions produced within the department.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

- To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.
- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Film and Television Performance Minor courses:

- FITV 2220 - Acting for Film and Television
- FITV 3220 - Advanced Acting Workshop for Film and Television
- FITV 3570 - Directing for Film and Television
- FITV 4200 - Advanced Directing for Film and Television
- FITV 4400 - Acting for Film and TV Practicum

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

FILM AND TELEVISION PRODUCTION MINOR

Introduction

Please click [here](#) to see general Film & Television Department information.

This minor gives students a hands-on experience in both production and post-production, providing a foundation of basic skills and procedures in the film and television industry.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Film and Television Production Minor courses:

- FITV 1035 - Introduction to Filmmaking
- FITV 1040 - Lighting, Grip, and Sound Introductory Workshop
- FITV 2050 - Production II Film and Television Techniques

Take **two** of the following Film and Television Production Minor courses:

- FITV 2040 - Introduction to Digital Effects
- FITV 2220 - Acting for Film and Television
- FITV 3040 - Live TV Multi-camera Directing
- FITV 3350 - Editing Aesthetics

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

FILM AND TELEVISION WRITING MINOR

Introduction

Please click [here](#) to see general Film & Television Department information.

Students gain writing skills (fiction and non-fiction) for the development of episodic television and film scripts. Students also learn the practices and mechanics expected of professional screenwriters.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **one** of the following Film and Television Writing Minor courses:

- FITV 1001 - Fundamentals of Film and Television
- FITV 1200 - The Culture of Television

Take **all** of the following Film and Television Writing Minor courses:

- FITV 1551 - Scriptwriting for Non-Majors
- FITV 1600 - Writing Short Film:Non Fiction
- FITV 3500 - Writing for Episodic Television
- FITV 3510 - Feature Screenwriting

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

FILM STUDIES MINOR

Introduction

The film studies minor offers students the opportunity to gain an informed understanding of the sophisticated medium of film, its language and history. Courses cover critical writing about cinema, creative screenwriting, the evolution of Hollywood movies, international cinema, and

film in its cultural context. The film studies minor makes a valuable complement to a range of undergraduate majors.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their minor advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours for the film studies minor.
2. Students must complete a minimum of 6 upper-division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ENGL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students are strongly advised to take ENGL 2250, Introduction to Film, before taking other film courses.

2. Students are advised to fulfill the liberal arts and sciences core curriculum writing requirements (ENGL 1020 & 2030) before enrolling in upper-division topics in film courses.
3. No more than two online film studies courses can be counted toward the minor.
4. Courses in a minor cannot be counted toward the English major or English Writing major; consult an English advisor for substitutions.

Take the following required courses:

- ENGL 2250 - Introduction to Film
- ENGL 3070 - Film History I
- ENGL 3080 - Global Cinema

Take **two** additional courses:

- ENGL 2415 - Introduction to Movie Writing
- ENGL 2450 - Introduction to Literature
- ENGL 3075 - Film Genres *
- ENGL 3085 - Film Directors *
- ENGL 3200 - From Literature to Film
- ENGL 3300 - Topics in Film *
- ENGL 4420 - Film Theory and Criticism
- ENGL 4001- Major Authors: Am. Lit
- ENGL 4002- Major Authors: Before 1650
- ENGL 4003- Major Authors: 1650-1900

*Courses are repeatable if taken as a different genre/director/topic.

FINANCE MINOR

Introduction

Please click [here](#) to see Business School information.

Students in other undergraduate schools and colleges at CU Denver wishing to complete the Finance minor need to complete the course work described below.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare the Finance minor, students must have a 3.0 GPA, either cumulative or from their last 24 completed semester hours.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain or exceed a 2.0 GPA to graduate with the minor.
2. A student must take 12 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
3. Students must have declared the Finance minor to register for any of the upper-division FNCE courses or petition separately to take each of these courses.

Take **all** of the following required prerequisite and proficiency courses:

- MATH 1060 - Finite Mathematics (talk to an advisor about substituting a higher level math)
- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- BANA 2010 - Business Statistics (BANA 2010 can be substituted with an upper division stats course such as ECON 3811 or MATH 3800)

Take **all** of the following courses:

- ACCT 2200 - Financial Accounting and Financial Statement Analysis
- FNCE 3000 - Principles of Finance

Take **three** of the following courses:

- FNCE 3500 - Management of Business Capital
- FNCE 3600 - Financial Markets and Institutions
- FNCE 3700 - Investment and Portfolio Management
- FNCE 4370 - International Financial Management
- FNCE 4500 - Corporate Financial Decisions
- FNCE Elective (Can be from list above or any other upper-division FNCE course)

FRENCH MINOR

Introduction

Please click [here](#) to see Modern Languages department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Students may declare a major in the CLAS advising office, but should see the French advisor to discuss course selections.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 FREN credit hours.
2. Students must complete a minimum of 15 upper-division (3000-level and above) FREN credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative GPA of 2.0. Students cannot complete minor requirements as pass/fail.
4. Students must complete a minimum of 9 FREN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. The minor in French must include at least one language skills class, chosen from the classes listed below.
2. FREN 3200 is taught in English, and does not count toward the minor.
3. All upper-division level (3000-level and above) courses must be taught in French.

Take **one** of the following courses:

- FREN 3010 - French Phonetics and Pronunciation
- FREN 3020 - Conversation through Film
- FREN 3050 - Advanced Grammar and Composition
- FREN 3060 - Advanced French Language Skills

Take **four** additional upper-division FREN elective courses.

FUNDAMENTALS OF BUSINESS MINOR

Introduction

The Business School offers all undergraduate students at CU Denver the opportunity to add a minor in fundamentals of business.

Students enrolled in this minor have the benefit of following their passion with their undergraduate degree while adding the business knowledge and skills employers want and entrepreneurs need. By adding a business minor to a liberal arts, arts and media, architecture, or engineering degree, you will gain an edge in the job market.

Program Delivery

- This is an on-campus program

Declaring This Minor

- As a CU Denver undergraduate student, you need a 2.0 GPA to be accepted for a fundamentals of business minor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Program Requirements

1. Please see an advisor regarding residency requirements.
2. Students may only use transfer coursework in place of BMIN 1000. All remaining courses must be completed at CU Denver.
3. Students must maintain or exceed a 2.0 GPA to graduate with the minor.

Take **one** of the following courses:

- MGMT/ BMIN 1000 - Introduction to Business

Take **all** of the following courses:

- BMIN 3001 - Fundamentals of Management and Marketing
- BMIN 3002 - Fundamentals of Accounting and Finance
- BMIN 3004 - Principles of Strategic Management

Take **one** of the following electives:

- BLAW 3050 - Business Law and Ethics
- ENTP 3200 - Essentials in Entrepreneurship
- INTB 3000 - Global Perspectives
- ISMG 2050 - Introduction to Business Problem Solving

GENERAL MUSIC MINOR

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

The general music minor offers students the opportunity to gain an informed understanding of the field of music performance, its language and history. Courses cover applied lessons on a specific instrument and/or voice, music theory, ear training and general recital. Students will also take courses that deal with the function and operation of the music industry, including an introduction to the music business, audio production, and music in culture

Program Delivery

- This is an on-campus program.

Declaring This Major

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

- To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.
- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements. Contact the Music Department at MEIS.Dept@ucdenver.edu for more information on the minor.

Take **all** of the following General Music Minor Required courses (17 semester hours/8 courses total):

- PMUS 1105 - Music Theory I
- PMUS 1115 - Ear Training and Sight Singing I
- PMUS 1901-1923 - Applied Lessons (1 semester hour)
- PMUS 1500 - General Recital (1 semester hour)
- PMUS___ - Ensemble (1 semester hour)
- MUSC 2750 - Introduction to Music Business
- MUSC 1540 - Introduction to Audio Production

Take **One** of the following courses:

- PMUS 1021 - Piano Class For Non-Majors
- PMUS 1040 - Class Guitar
- PMUS 1045 - Class Guitar I for Non-Majors

Take **One** of the following courses:

- PMUS 2315 - Introduction to Songwriting
- PMUS 3832 - Music in Culture

GEOGRAPHY MINOR

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 GEOG credit hours.
2. Students must complete a minimum of 9 upper-division (3000- level and above) GEOG credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded

attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.

4. Students must complete a minimum of 9 GEOG credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. The minor is flexible and does not have core requirements. A student can elect to take any GEOG courses as long as they are not being used to fulfill requirements in another degree program in the department.
2. Undergraduate students may count up to 3 credit hours of independent study (GEOG 3840, 4840, 4880/GEOL 3840, 4840, 4880) towards elective credit in the minor as approved by the undergraduate advisor.
3. Students may not double-count courses for the Geography minor and another degree program in the department, the Sustainability Minor, or the GISci Certificate.

HEALTH HUMANITIES MINOR

Introduction

Please click [here](#) to see Health Humanities department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor. Students declaring a minor in HEHM must have at least a 2.5 over GPA.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours taken from the approved courses.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours in the minor taken from the approved courses.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty taken from the approved courses.

Program Restrictions, Allowances and Recommendations

1. Students may only count ONE relevant transfer course toward their elective requirements for the minor.
2. Students may double count no more than two courses from their major or University General Education Core toward the minor elective requirements.

Take the following **required** course:

- HEHM 3100 - Introduction to Health Humanities

Take **three** upper-division (3000-level and above) elective courses from at least two different disciplines. The following list is not exhaustive and continues to be updated. One elective course can be a service learning course or independent study approved by an HEHM advisor.

- ANTH 4600 - Medical Anthropology
- ANTH 3666 - Anthropology of Death
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4558 - Digital Health Narratives
- COMM 4575 - Designing Health Messages
- ENGL 4755 - Illness & Disability Narrative
- ETST 3002 - Ethnicity, Health and Social Justice

- GEOG 3501 - Geography of Health
- GEOG 4235 - GIS Applications in the Health Sciences
- GEOG 4710 - Disasters, Climate Change, and Health
- HIST 4307 - History of Sexuality
- HIST 4503 - Topics in History of Science
- PBHL 3030 - Health Policy
- PBHL 3070 - Perspectives in Global Health
- PBHL 3041 - Health, Culture and Society
- PBHL 4040 - Social Determinants of Health
- PBHL 4200 - The Global HIV/AIDS Epidemic
- PHIL 4242 - Bioethics
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- SOCY 3440 - Medical Sociology
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- COMM 4550 - Rhetorics of Medicine & Health
- ENGL 4290 - Rhetoric and the Body
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present

Take **one** capstone course, identified by an asterisk* in the above list. These courses incorporate substantial original writing or research projects designed to promote broad reflection about the role of culture, society, and ethics in medicine. Students should choose these courses at the culmination of their minor course work.

HISTORY MINOR

Introduction

Please click [here](#) to see History department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program and an online program. Students can complete the minor with all on-campus courses, all online courses, or a mix of on-campus and online courses.

Declaring This Minor

- To declare this minor, contact CLAS advising at CLAS_Advising@ucdenver.edu or visit the CLAS advising office in NC 1030. Students must be in a degree-seeking undergraduate program before they can declare this minor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 18 HIST credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) HIST credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 12 HIST credit hours with CU Denver faculty.

Take a minimum of **three** credit hours (one course) from each of the following areas:

- United States
- Europe
- World

US Distribution:

1361, 1362, 1381, 1400, 2001, 3230, 3121, 3232, 3235, 3297, 3343, 3345, 3347, 3348, 3349, 3360, 3366, 3396, 3601, 4133, 4201, 4209, 4210, 4212, 4213, 4216, 4217, 4219, 4220, 4222, 4223, 4225, 4226, 4227, 4228, 4229, 4230, 4231, 4232, 4234, 4235, 4236, 4238, 4240, 4242, 4243, 4244, 4245, 4306, 4308, 4475, 4491, 4492, 4493, 4494, 4504, 4645

Europe Distribution:

1211, 1212, 1400, 3121, 3480, 3481, 3482, 3484, 3485, 3486, 3487, 3488, 3706, 4027, 4028, 4029, 4030, 4031, 4034, 4035, 4046, 4051, 4062, 4071, 4074, 4081, 4082, 4083, 4303, 4306, 4307, 4346 , 4347, 4348, 4321, 4471, 4472, 4621

World Distribution:

1016, 1026, 3121, 3350, 3364, 3451, 3460, 3469, 3470, 3471 , 3483 , 3500, 3606, 3616, 4032, 4055, 4075, 4076, 4411, 4412, 4414, 4415, 4416, 4417, 4418, 4420, 4421, 4422, 4431, 4451, 4455, 4460 , 4461, 4462, 4490, 4501 , 4503, 4621, 4622

Take an additional **9** HIST elective credit hours. NOTE: Any courses listed above may be used to fulfill the elective requirements once the area distributions have been met.

HUMAN DEVELOPMENT AND FAMILY RELATIONS MINOR

Introduction

Please click [here](#) to see School of Education and Human Development information.

The Human Development and Family Relations (HDFR) minor prepares students to effectively serve and understand culturally and linguistically diverse family systems. For students who are interested in becoming family therapist, work in community based organizations or work as a university or college advisor/administrator this minor will provide excellent foundational courses in these areas. It also provides students with a family systems and ecological systems theories foundation of families and how they interact with community and educational contexts.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Minor

- If you are currently a CU Denver student please contact the Undergraduate Advisor in the School of Education and Human Development to set up an appointment to discuss the process.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. To earn a minor, students must complete 15 approved credit hours specific to the minor, maintain good academic standing in the courses, must complete their undergraduate degree concurrently, must satisfy all requirements in each of the areas below, in addition to their individual major requirements.
2. To complete a minor in HDFR, a student will need to complete 15 semester hours of HDFR courses with a minimum grade of C (2.0) including 1 required and 4 electives.
3. Of those HDFR courses at least 9 credits must be completed at the University of Colorado Denver.
4. Transfer courses must be approved by faculty and/or advisor to apply to the minor.

Take **one** of the following courses:

- HDFR 2000 - Introduction to Family and Community Services
- HDFR 2200 - Love, Family and Human Development

Take **four** HDFR elective courses in Human Development and Family Relations (or newly approved HDFR courses) or pick from the list below. Students will be encouraged to select courses that meet their interest and/or career aspirations. All course selections must be approved by an HDFR advisor or HDFR faculty. Please check the university catalog for when courses are offered. *Other HDFR courses will be added to the list as they are designed and approved.*

- HDFR 1000 - Global Human Development & Learning
- ECED 4030 - Nutrition, Health, and Safety
- ECED 4070 - Development and Education of Infant and Toddlers
- EDFN 1000 - Equality, Rights & Education
- EDFN 3000 - Undocumented Mexican Immigration
- EDFN 4000 - Food Justice in City & Schools
- EDHD 2050 - Current Topics in Education and Human Development
- EDHD 2840 - Independent Study in Education & Human Development
- EDHD 2910 - Service Learning in Education and Human Development

- EDHD 4050 - Special Topics in Education and Human Development
- LCRT 2000 - Rebels, Villains, & Superheroes: How Children's Literature Shapes Our Identities

HUMANITIES MINOR

Introduction

The Humanities Minor cultivates humanistic exploration through historically grounded texts and traditions. It teaches critical engagement with society's most pressing issues by developing a human-oriented perspective in which creativity and critical, theoretical thinking frame ethical being in the world.

These degree requirements are subject to periodic revision by the academic program, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from approved coursework.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours from approved coursework.

3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail. Students must complete a minimum of 12 credit hours with CU Denver faculty, from approved courses.
4. Students must complete a minimum of 12 credit hours with CU Denver faculty, from approved courses.

Program Allowances and Restrictions

1. Coursework must be approved by a Humanities Minor advisor.
2. Of the four elective courses, at least one course must be taken at 3000-level and at least one must be at the 4000-level.

Take the following introductory course:

- HUMN 1012 - The Humanistic Tradition: Modes of Expression
- Students may opt to complete or transfer in a comparable HUMN 1000- or 2000-level course with prior advisor approval.

Take **four** elective courses (12 credit hours) of coursework in Humanities disciplines and Humanities-related programs. These courses must focus on one of three available interdisciplinary pathways:

- Story-telling and Meaning: comprised of Humanities electives focused on how humans make ethical decisions and meaning in life through literature, philosophy, history, and religion.
 - Picturing Humanity: comprising Humanities courses emphasizing the aesthetic role of art, history, film, and visual studies in the constitution of diverse cultural and social perspectives
- OR**
- Theorizing Humanity: comprised of coursework focusing on the public role of social theory, philosophy, ethnic studies, and social justice in the formation of culture and society.

Story-telling and Meaning:

- ENGL 3070 - Film History I
- ENGL 3075 - Film Genres
- ENGL 4236 - The American Short Story
- ENGL 4510 - Whores and Saints: Medieval Women
- ENGL 4735 - Philosophy and Literature
- ETST 3224 - U.S. Middle East Culture and Religion
- ETST 3300 - Shamanic Traditions

- HUMN 4984 - Topics: Interdisciplinary Humanities
- PHIL 3280 - War and Morality
- PHIL 3410 - Asian Philosophies and Religions
- PHIL 3550 - Philosophy of Death and Dying
- PHIL 4270 - Philosophy of History
- PHIL 4470 - Concepts of the Soul
- PHIL 4480 - Perspectives on Good and Evil
- PHIL 4600 - Philosophy of Religion
- PHIL 4933 - Philosophy of Eros
- RLST 4340 - The Hero's Journey
- RLST 4460 - Death and Concepts of Afterlife

Picturing Humanity:

- ENGL 2250 - Introduction to Film
- ENGL 3070 - Film History I
- ENGL 3200 - From Literature to Film
- ETST 3036 - American Indian Cultural Images
- FINE 2600 - Art History Survey I
- FINE 4630 - History of Latin American Art:1520-1820
- FINE 4670 - Greek and Roman Art
- FINE 4680 - Art of the Middle Ages
- FINE 4700 - Italian Renaissance Art
- FINE 4750 - Arts of China
- FINE 4990 - Contemporary Art: 1960 to Present
- FINE 5610 - Pre-Columbian Art
- HIST 4228 - Western Art and Architecture
- HIST 4231 - History in Museums
- HIST 4232 - Historic Preservation
- PHIL 1700 - Philosophy and the Arts
- PHIL 4220 - Aesthetics and the Philosophy of Art

Theorizing Humanity:

- ETST 2024 - Race and Ethnic Relations
- ETST 3211 - Hip Hop Music & Culture
- ETST 3704 - Culture, Racism and Alienation
- HIST 3121 - The World at War, 1914-1945
- HIST 3230 - The American Presidency
- HIST 3231 - Famous U.S. Trials
- HIST 3235 - U.S. Labor History, 1800 to the Present
- HIST 3347 - African-American History, 1619-Present

- HIST 3364 - Native Americans and Spaniards in North America
- HIST 3365 - Aztlan in the United States: Chicano History from 1821
- HIST 3366 - Nature and Power in American History
- HIST 3601 - Colorado History
- HIST 4027 - Enlightenment and Revolution
- HIST 4028 - Nations and Classes: 19th Century Europe
- HIST 4055 - The Atlantic Slave Trade: Africa, Caribbean and U.S.
- HIST 4076 - History of Modern Science
- HUMN 4251 - Introduction to Legal Studies
- HUMN 4984 - Topics: Critical Public Humanities
- HUMN 4984 - Topics: Spatial Humanities
- SJUS 2000 - Foundations in Social Justice
- SJUS 2010 - Social Justice: Theories, Narratives, and Technologies

If a student wants to deviate from these lists, they must have advisor approval prior to completing the substitute coursework.

ILLUSTRATION MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

The illustration minor is designed for students interested in broadening their visual communication skills and obtaining an introductory understanding of what is involved in the production of client-driven visual work. Undergraduates explore digital as well as hand-produced techniques and gain a basis for combining the two in a seamless manner in rendered illustrative works. This minor allows students to complement their major area of study with professionally effective visual communication skills.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Illustration Minor courses:

- FINE 1100 - Drawing I
- FINE 1400 - Two Dimensional Design
- FINE 2405 - Introduction to Digital Design
- FINE 3010 - Illustration I: Image Making
- FINE 3300 - Painting, Drawing and the Printed Image
- FINE 3410 - Illustration II: Digital Media
- FINE 3450 - Digital Painting
- FINE 3557 - Concepts in Illustration

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

INTERNATIONAL STUDIES MINOR

Introduction

Please [click here](#) to see International Studies department information.

As the globe becomes increasingly connected, students gravitate towards classes that provide the interdisciplinary skills and international awareness required for success in the 21st century.

The International Studies minor at CU Denver offers students a unique opportunity to create an individually tailored and relevant minor based upon a spectrum of Liberal Arts classes.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program, available to students at the Denver campus and International College of Beijing.

Declaring This Minor

- Denver students: please see your CLAS advisor
- ICB students: please see the International Studies advisor

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 18 credit hours from the approved courses.
2. Students must complete a minimum of 15 upper-division (3000-level and above) credit hours in the minor from the approved courses.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.5. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. Please note: Students cannot take more than two upper-division courses from the same department for the minor.

2. The maximum amount of credit hours a student could receive through independent study courses is 6.
3. Students may be able to complete all 18 credits via online courses.
4. Students who did not select INTS 2020 Foundations of International Studies for their introductory course are permitted to take that course to fulfill one of the five upper-division courses slots.
5. Additional courses may be considered by individual request. Please contact Alison.Shah@ucdenver.edu

Take **one** introductory class from Political Science or History:

- INTS 2020 - Foundations of International Studies
- PSCI 3022 - Political Systems of the World
- PSCI 3042 - Introduction to International Relations
- HIST 4032 - Globalization in World History Since 1945

Take **five** upper division elective courses (3000-4000 level) with an international focus.

Courses on international and global topics may come from Anthropology, Communication, Economics, Ethnic Studies, Geography, History, or Political Science, or other departments.

Students are encouraged to select as one of their elective courses 3000- or 4000-level seminar in a discipline other than their major to ensure that high level work in another field is being performed. Representative seminar courses are listed below.

ACTIVISM, RESISTANCE, AND SOCIAL JUSTICE

- ANTH 3410 - Anthropology of Work
- ANTH 4230 - Anthropology and Community Based Participatory Research
- HIST 3364 - Native Americans and Spaniards in North America
- HIST 4415 - Social Revolutions in Latin America
- PBHL 3070 - Perspectives in Global Health
- PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers (also ANTH)
- PSCI 3050 - Islamophobia
- PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism
- PSCI 4025 - Local Governance and Globalization
- PSCI 4115 - Third World Politics
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4165 - Islamic Politics and Culture

- PSCI 4176 - Gandhi's Legacy: Non-Violent Resistance Today
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4207 - Theories of Social and Political Change
- PSCI 4224 - Dictatorships in 21st Century
- PSCI 4225 - Democracy and Democratization
- PSCI 4265 - Social Justice and Globalization
- PSCI 4274 - Conflict Resolution and Public Consent Building
- PSCI 4276 - Conflicts and Rights in International Law
- PSCI 4555 - International Women's Resistance
- PSCI 4808 - Strategies of Peacebuilding
- PSCI 4807 - Political Violence

ENVIRONMENTAL STUDIES

- ANTH 4450 - Development and Conservation: Contemporary Issues
- ECON 4530 - Economics of Natural Resources
- ECON 4540 - Environmental Economics
- ECON 4770 - Development Economics
- GEOG 4301 - Population, Culture, and Resources
- GEOG 4305 - Water Quality and Resources
- GEOG 3401 - Geography of Food and Agriculture
- GEOG 3412 - Globalization and Regional Development
- GEOG 3440 - Ecotourism
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4335 - Contemporary Environmental Issues
- HIST 3616 - Global History of Energy
- PHIL 3430 - Environmental Ethics
- PSCI 4085 - Comparative Governance: Environment and Society
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4354 - Environmental Politics
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4365 - Global Ecological Crises

ETHNICITY, NATIONALISM & MIGRATION

- ANTH 3000 - Globalization, Migration and Transnationalism
- ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers
- EDFN 3000 - Undocumented Mexican Immigration
- ETST 3110 - Indigenous Studies
- ETST 4726 - North American Indian Art
- FREN 3120 - French Cultural Identities: Myths and Realities

- FREN 4520 - Voices of Haiti and the Caribbean
- GRMN 3200 - Current German Society and Culture
- HIST 3345 - Immigration and Ethnicity in American History
- HIST 4055 - The Atlantic Slave Trade: Africa, Caribbean and U.S.
- HIST 4461 - The Modern Middle East
- PSCI 3050 - Islamophobia
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4446 - Advanced Indigenous Peoples' Politics
- SPAN 4320 - Interculturalism and Transnationalism in Modern Spain

FEMINIST THEORY & GENDER STUDIES

- ANTH 4200 - Gender in Cross-Cultural Perspective
- COMM 4020 - Feminist Perspectives on Communication
- ETST 4555 - International Women's Resistance
- FREN 4510 - French Women Writers
- PBHL 3071 - Global Topics In Sexual and Reproductive Health
- PSCI 4248 - Gender, Globalization and Development
- SPAN 4360 - Women and the Spanish Civil War

LAW ENFORCEMENT MINOR

Introduction

Please click [here](#) to see School of Public Affairs information.

The undergraduate minor in Law Enforcement provides a detailed, comprehensive, and advanced education in the field of law enforcement. This program is designed for students who are employed or will work in the field of law enforcement.

The CJLE program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of law enforcement that students can apply to their current or future careers in the field.

Students completing the CJLE minor will have the knowledge and skills to evaluate and respond to a variety of situations in law enforcement professions that require technical, analytic, substantive, and ethical decision-making. They will understand the different environments and contexts in which law enforcement carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Law Enforcement minor requires 18 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the minor.

3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.

Take **all** of the following required courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory
- CRJU 4043 - Law Enforcement
- CRJU 4540 - Evidence-Based Approaches in Law Enforcement

Program Electives

There are two elective categories, Topic Area and Professional Setting. The Topic Area electives allows the student to explore a different aspect of law enforcement. The Professional Skills elective allows the student to hone skills related to law enforcement.

Topic Area (students **take one** of the following):

- CRJU 3310 - Contemporary Issues in Law Enforcement
- CRJU 3320 - Police-Community Relations
- CRJU 3520 - Juvenile Justice
- CRJU 3530 - Juvenile Delinquency
- CRJU 4410 - Criminal Law and Constitutional Procedures
- CRJU 4430 - Law and Society
- CRJU 4450 - Homeland Security
- PSCI 4427 - Law, Politics and Justice
- SOCY 4340 - Juvenile Delinquency
- SOCY 4700 - Sociology of Law
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment.

*Students must adhere to departmental prerequisites, if applicable.

Professional Skills (students **take one** of the following):

- ANTH 3550 - Forensic Anthropology
- CRJU 4310 - Leadership Roles in Criminal Justice
- CSCI 1001 - Computer Forensics I
- GEOG 4080 - Introduction to GIS
- CRJU 4939 - Internship (must be related to Law enforcement and be pre-approved)
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment.

*Students must adhere to departmental prerequisites, if applicable.

LAW STUDIES MINOR

Introduction

Please click [here](#) to see Law Studies department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To apply for this minor, students must complete and submit a major/minor change declaration form to the CLAS Advising Office in North Classroom, 1030.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 credit hours from the approved courses.
2. Students must complete a minimum of 18 upper-division (3000-level and above) credit hours in the minor from the approved courses.
3. Students must earn a minimum grade of C (2.0) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 3.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 18 credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. All courses must be taken in residence at CU Denver from CU Denver faculty. No transfer courses apply.
2. Courses taken for the minor cannot serve to fulfill requirements of the university general education or the CLAS undergraduate core graduation requirements. Courses taken for a student's major cannot be used to fulfill any requirements for the minor unless prior permission is granted by the minor coordinator.
3. Every course used to complete minor requirements must be upper-division (3000-level and above).

Take the following Foundations courses:

- HUMN 4251 - Introduction to Legal Studies
- SSCI 4025 - Legal Advocacy and Social Engagement

Take **two** of the following Constitutional Thought courses:

- PSCI 4477 - Constitutional Law I
- PSCI 4487 - Constitutional Law II
- SSCI 4060 - Topics in Law Studies: Constitutional Thought
- SSCI 4325 - First Amendment: Theory and Context

Take **two** of the following Social Context of Law courses:

- COMM 3231 - Famous U.S. Trials
- CRJU 4430 - Law and Society
- ECON 4230 - Law and Economics
- HIST 4308 - Crime, Policing, and Justice in American History
- PHIL 4260 - Philosophy of Law
- PSYC 3505 - Psychology and the Law
- SOCY 4700 - Sociology of Law
- SSCI 4070 - Topics in Law Studies: Social Context of Law

LINGUISTICS MINOR

Introduction

Please click [here](#) to see information about the Department of Modern Languages.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

The minor in Linguistics is an interdisciplinary program awarded through the Department of Modern Languages. The minor is designed to guide students through an exact and structured discipline that examines various aspects of the nature of human language. A Linguistics minor may be of particular interest to students majoring in a Foreign Language, as well as majors in fields such as Anthropology, English, Communication, Education, Philosophy, and Sociology. The Linguistics minor is open to all undergraduate students at CU Denver.

Program Delivery

- This is an on campus program.

Declaring This Minor

- Please see your advisor. To be admitted to minor status in Linguistics, students must have an overall GPA of C+ (2.3)

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses below.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.5. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

1. Upon declaring a minor in Linguistics, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that students have their transcripts reviewed by their advisor before enrolling in their final 30 credit hours at CU Denver. Failure to do so may result in delay of graduation.
2. Courses taken at other institutions may be applied to the minor, but only with approval of a Linguistics faculty advisor in the Department of Modern Languages.

Take **both** of the following courses:

- LING 2000 - Foundations of Linguistics
- LING 3100 - Language in Society

Take **nine credit hours** from the following elective courses:

- ANTH 3121 - Language, Culture, and Communication
- CHIN 3130 - Special Topics in Chinese
- CLDE 1000 - Language, Identity, & Power: International Perspectives
- CLDE 4030 - Language Development of Multilingual Learners
- CLDE 4820 - Teaching Multilingual Learners
- ENGL 3160 - Language Theory
- ENGL 4080 - History of English Language
- ENGL 4601 - Principles and Practices of Second Language Acquisition
- ENGL 4651 - Second Language Writing
- FREN 3010 - French Phonetics and Pronunciation

LITERATURE MINOR

Introduction

Please click [here](#) to see English department information.

This program is designed for students who are interested in the study of English literature but who have elected to major in another area. The recommended series of courses allows students to become acquainted with some of the methods of literary study and with a number of the most important literary works. The literature minor allows students to complement their area of major study with systematic experience in literature.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) ENGL credit hours.

3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 ENGL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must take ENGL 1020 before beginning the minor.
2. Courses in a minor cannot be counted toward the English major or English Writing major.
3. A minimum of 9 upper-division (3000- or 4000-level) ENGL credit hours must be taken with CU Denver English faculty.
4. Course requirements may not be met by independent study.

Note: Students are advised to fulfill the liberal arts and sciences core curriculum writing requirements (ENGL 1020 & 2030) before enrolling in upper-division literature courses.

Take the following **required** courses:

- ENGL 2450 - Introduction to Literature

Take **one** ENGL Literature/Film course at any level, from the list below:

- ENGL 1601 - Storytelling: Literature, Film, and Television
- ENGL 2250 - Introduction to Film
- ENGL 2510 - Greek and Roman Mythology
- ENGL 2520 - The Bible as Literature
- ENGL 2600 - Literary Classics
- ENGL 3001 - Critical Writing
- ENGL 3070 - Film History I
- ENGL 3075 - Film Genres
- ENGL 3080 - Global Cinema
- ENGL 3085 - Film Directors
- ENGL 3200 - From Literature to Film
- ENGL 3300 - Topics in Film
- ENGL 3330 - Topics in Literature
- ENGL 3450 - Contemporary Women Writers
- ENGL 3480 - Modern Drama
- ENGL 3520 - Religious Narratives
- ENGL 3661 - Shakespeare

- ENGL 3700 - American Literature to the Civil War
- ENGL 3750 - American Literature after the Civil War
- ENGL 3795 - Race and Ethnicity in American Literature
- ENGL 3798 - International Perspectives in Literature and Film
- ENGL 4000 - Studies of Major Authors
- ENGL 4160 - Poetics
- ENGL 4166 - History of American Poetry
- ENGL 4200 - Survey of the English Novel to 1900
- ENGL 4210 - History of the English Novel II
- ENGL 4220 - African-American Literature
- ENGL 4230 - The American Novel
- ENGL 4235 - Faulkner
- ENGL 4236 - The American Short Story
- ENGL 4240 - Topics in Contemporary American Literature
- ENGL 4250 - Twentieth Century Fiction
- ENGL 4300 - History of British Drama
- ENGL 4320 - History of Poetry in English
- ENGL 4350 - History of American Drama
- ENGL 4400 - Old English I
- ENGL 4410 - Old English II: Beowulf
- ENGL 4420 - Film Theory and Criticism
- ENGL 4460 - Contemporary World Literature
- ENGL 4500 - Medieval Literature
- ENGL 4510 - Whores and Saints: Medieval Women
- ENGL 4520 - English Renaissance
- ENGL 4530 - Milton
- ENGL 4540 - Restoration and the 18th Century
- ENGL 4560 - English Romanticism
- ENGL 4580 - The Victorian Age
- ENGL 4600 - Modernism
- ENGL 4730 - Chaucer
- ENGL 4735 - Philosophy and Literature
- ENGL 4745 - Humanistic Writing About Medicine and Biology
- ENGL 4770 - Topics in English: Film and Literature
- ENGL 4001- Major Authors: Am. Lit
- ENGL 4002- Major Authors: Before 1650
- ENGL 4003- Major Authors: 1650-1900
- ENGL 4771- Topics in English Film and Lit: Film

- ENGL 4772- Topics in English Film and Lit: Lit
- ENGL 4773- Topics in English Film and Lit: Am. Lit
- ENGL 4774- Topics in English Film and Lit: Before 1650
- ENGL 4775- Topics in English Film and Lit: 1650-1900

Take **three** ENGL 3000/4000 Literature/Film course from the list above.

*Courses are repeatable if taken as a different genre/author/topic.

- **History through Literature**
 - Medieval, Renaissance, Romantic, Victorian, American Literature
- **Modes of Narrative**
 - Storytelling
 - Poetics

MATHEMATICS MINOR

Introduction

Please click [here](#) to see Mathematical and Statistical Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in

individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 21 MATH credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) MATH credit hours.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum 9 MATH upper-division level credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Be aware of no co-credit policies. Here is a non-exclusive list of our most common no co-credit policies: no co-credit between (1) 3800 and 4810, (2) 3195 and 3200, (3) 3191 and 3195, (4) 4387 and 4830.
2. For slash-listed courses: (1) MATH 3440/PHIL 3440. (2) Math 4408/CSCI 4408, (3) MATH 4650/CSCI 4650, and (4) Math 4660/CSCI 4660, one can take either the MATH section or the slash-listed section of the course. Either one count towards the minor in MATH.

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III

Take **three** upper-division level MATH courses worth three or more credit hours each, above 3000.

MUSIC INDUSTRY STUDIES MINOR

Introduction

Please click [here](#) to see general Music & Entertainment Industry Studies information.

Music is a rapidly evolving field that requires practitioners to have a broad understanding of the main functional areas and intimate knowledge of the creation and operation of music organizations. The music industry studies minor provides students with a strong foundation in the functional operations of the music industry. At the completion of the minor, students will have an in-depth knowledge of music marketing, artist management, concert promotion and music publishing.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements. Contact the Music Department at MEIS.Dept@ucdenver.edu for more information on the minor.

Take **all** of the following Music Industry Studies Minor courses (15 semester hours/5 courses total):

- MUSC 2750 - Introduction to Music Business
- MUSC 3250 - Music and Entertainment Marketing
- MUSC 3260 - Artist Management
- MUSC 3699 - Concert Promotion and Venue Management
- MUSC 3760 - Music Publishing

There is a recommended sequence for the Music Industry Studies course work. Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing and any prerequisite updates.

NONPROFIT MANAGEMENT MINOR

Introduction

A minor in Nonprofit Management is expected to be popular with students from fields in which nonprofit organizations play a significant role such as psychology, public health, environmental studies, and ethnic studies. Through this minor, a student can focus on the fundamentals of

nonprofit management, and also has the option to participate in extracurricular activities leading to the Certified Nonprofit Professional (CNP) designation through the Nonprofit Leadership Alliance. Contact spa.BAPS@ucdenver.edu for more information about earning the Certified Nonprofit Professional designation as part of the Nonprofit Management minor.

Program Delivery

- All courses are offered online; certain courses are also offered on campus.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Nonprofit Management minor requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.

Take the following required courses:

- PUAD 3110 - Seminar in Nonprofit Management
- PUAD 4140 - Nonprofit Financial Management

Choose **three** courses from the following list of Nonprofit electives:

- PUAD 3005 - Collaboration Across Sectors
- PUAD 4020 - Social Entrepreneurship
- PUAD 4600 - Special Topics in Public Service: Study Abroad in East Africa
- PUAD 4600 - Special Topics in Public Service: Social Problems and Policies in the Urban Environment

Certified Nonprofit Professional Designation

Students completing the Nonprofit Management minor may choose to simultaneously earn the national Certified Nonprofit Professional designation from the Nonprofit Leadership Alliance by completing additional extracurricular requirements. Contact spa.advising@ucdenver.edu for more information.

PAINTING AND DRAWING MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

The painting and drawing minor is designed for students interested in broadening their skills in the production of painterly and hand-drawn works of art. Undergraduates are introduced to a variety of techniques and ideas, exposed to several historical and contemporary art practices, and experience studio practice and participate in art dialogue. This minor allows students to complement their major area of study with applied visual problem-solving strategies and techniques, as well as with an ability to enhance their interests through studio art practice and discourse.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Painting and Drawing Minor courses:

- FINE 1100 - Drawing I
- FINE 2200 - Painting I
- FINE 3200 - Intermediate Painting and Drawing
- FINE 3556 - Concepts in Painting and Drawing

Take **two** of the following Painting and Drawing Minor courses:

- FINE 2030 - Life Drawing
- FINE 3030 - The Media of Drawing **OR** FINE 3995 - Travel Study "Drawing in Italy"
- FINE 3300 - Painting, Drawing and the Printed Image
- FINE 3450 - Digital Painting
- FINE 3556 - Concepts in Painting and Drawing (Note: course concept must be different than previously taken. The FINE 3556 Concepts in Painting and Drawing course encompasses rotating course topics and can be taken up to four times, with a different topic. These topics are as follows: Concepts in Painting and Drawing- Abstraction, Narrative and Pop Culture, and Figuration.)

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

PHILOSOPHY MINOR

Introduction

Please click [here](#) to see Philosophy department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 PHIL credit hours.
2. Students must complete a minimum of 9 upper-division (3000-level and above) PHIL credit hours.
3. Students must earn a minimum grade of C-(2.0) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. For those students who major in philosophy, up to two courses can satisfy the requirements for both programs.
2. Religious Studies courses cannot be used to fulfill the requirements for the minor.

3. Courses taken at other institutions must either be transferred as direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the minor.
4. Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department Undergraduate Advisor.

Take **all** of the following required courses:

- PHIL 1012 - Introduction to Philosophy: Relationship of the Individual to the World
- PHIL 3002 - Ancient Greek Philosophy
- PHIL 3022 - Modern Philosophy (It is recommended but not required that PHIL 3002 be taken before PHIL 3022.)

Take **two** additional PHIL courses, one of which must be at the upper-division level.

PHILOSOPHY OF SCIENCE MINOR

Introduction

- PHIL 4920 - Philosophy of Media and Technology

PHOTOGRAPHY MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

Students in the photography minor develop a broad range of technical and conceptual skills that expand their knowledge of image-making. The curriculum of the minor emphasizes photography as a tool for creative expression while integrating the history of photography and contemporary artistic practices. Through an exploration of both digital and analog processes, students select intermediate level courses that enable them to successfully employ a variety of photographic strategies.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Students who wish to declare this minor should contact the College of Arts & Media at CAM@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- PSCI 4215 - Women's Rights, Human Rights: Global Perspective
- PSCI 4216 - International Politics: Human Rights
- PSCI 4225 - Democracy and Democratization
- PSCI 4224 - Dictatorships in 21st Century
- PSCI 4226 - The United Nations in World Affairs
- PSCI 4235 - Politics and Markets in Latin America
- PSCI 4236 - American Foreign Policy
- PSCI 4237 - American National Security
- PSCI 4240 - International Security
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4265 - Social Justice And Globalization
- PSCI 4266 - International Law
- PSCI 4274 - Conflict Resolution and Public Consent Building

- PSCI 4276 - Conflicts and Rights in International Law
- PSCI 4280 - The Politics of War Law
- PSCI 4286 - International Relations: War or Peace?
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4365 - Global Ecological Crises
- PSCI 4446 - Advanced Indigenous Peoples' Politics
- PSCI 4505 - Political System of Russia and Its Neighbors
- PSCI 4555 - International Women's Resistance
- PSCI 4605 - Politics and Governments of South Asia
- PSCI 4615 - Politics and Government of China
- PSCI 4726 - Seminar on U.S. and China Relations
- PSCI 4736 - The Middle East in World Affairs
- PSCI 4807 - Political Violence
- PSCI 4808 - Strategies of Peacebuilding
- PSCI 4878 - War, Film, and International Law

Take **one** of the following Political Theory courses:

- PSCI 4057 - Religion and Politics
- PSCI 4207 - Theories of Social and Political Change
- PSCI 4407 - Early Political Thought
- PSCI 4417 - Modern Political Thought
- PSCI 4427 - Law, Politics and Justice
- PSCI 4457 - American Political Thought
- PSCI 4564 - Gender and Politics

PSYCHOLOGY MINOR

Introduction

Please click [here](#) to see Psychology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their minor advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Minor

- Please see your CLAS advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 PSYC credit hours.
2. Students must complete a minimum of 6 upper-division (3000-level and above) PSYC credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor course requirements as pass/fail.
4. Students must complete a minimum of 9 PSYC credit hours with CU Denver faculty, at least 6 of which must be upper division (3000-level and above).

Program Restrictions, Recommendations and Allowances **minor is optional, there are no substitutions allowed to these requirements.**

1. Because the minor is optional, there are no substitutions allowed to these requirements.
2. Students cannot earn a Psychology minor, if they are also seeking a Psychology degree.

Take **all** of the following required courses:

- PSYC 1000 - Introduction to Psychology I
- PSYC 1005 - Introduction to Psychology II

Take **one** of the following courses:

- PSYC 3222 - Principles of Learning and Behavior
- PSYC 3144 - Human Cognition

Take **one** of the following courses:

- PSYC 3205 - Human Development I: Child Psychology
- PSYC 3305 - Abnormal Psychology
- PSYC 3415 - Experimental Social Psychology

Take **one** additional PSYC course as an elective (any PSYC course that is not already counting toward another requirement may be used). Students should see their minor advisor regularly to make sure they are completing the correct coursework.

PUBLIC HEALTH DEMOGRAPHY MINOR

Introduction

Please click [here](#) to see Health and Behavioral Sciences department information.

The undergraduate minor in Public Health Demography will introduce students to population-based approaches to health and wellbeing. Both demography and public health draw on theories and methods from across the social and behavioral sciences, to understand population level outcomes. Collectively, the courses in the minor will strengthen skills in analytical thinking, critical thinking, and quantitative reasoning, as related to topics including fertility, mortality, migration, maternal and child health, health disparities, and population health.

The minor in Public Health Demography will help to prepare students for graduate training in public health, demography, epidemiology, or biostatistics. Further, the minor will help to prepare students for jobs that require an understanding of population dynamics. Demographic skills are useful in fields including actuarial studies, marketing, consulting, non-profits, and various agencies in the local, state, and federal government.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 17 credits drawn from the approved course lists.
2. Students must complete a minimum of 6 upper-division PBHL (3000-level and above) credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 PBHL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Due to substantial overlap in coursework, students who complete the major in Public Health shall not also be awarded the minor in Public Health Demography.

Note: Students should check for prerequisites when enrolling in courses.

Take **all** of the following General Public Health courses:

- PBHL 2001 - Introduction To Public Health
- PBHL 3001 - Introduction to Epidemiology

Take **all** of the following Core Demography courses:

- PBHL 2052 - Global Demography and Health
- SOCY 4220 - Population Change and Analysis

Take **one** of the following electives with Demographic and Statistical themes:

- PBHL 3070 - Perspectives in Global Health
- PBHL 4040 - Social Determinants of Health
- MATH 2830 - Introductory Statistics

PUBLIC HEALTH MINOR

Introduction

Please click [here](#) to see Health and Behavioral Sciences department information.

The undergraduate minor in Public Health is designed to provide students with a basic understanding of the social, cultural, and biological dimensions of health. The minor curriculum provides students with the intellectual and methodological tools needed to understand the joint bio-cultural determinants and contexts of health, health care and public health. Graduates with a minor in Public Health will be prepared for pursuit of graduate degrees in a broad range of fields, including the natural, social and behavioral sciences, public health, law, medicine, dentistry, pharmacy, nursing, business administration, and health services research. The program is especially appropriate for students intending to pursue careers in public health, as well as primary care specialties in medicine, nursing, or health policy and administration.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 24 credit hours from the approved courses.
2. Students must complete a minimum of 12 upper-division (3000-level and above) PBHL credit hours from the approved courses.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 12 PBHL credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. No more than 6 credit hours may be counted toward a major or minor in another department and counted toward the minor in Public Health.
2. Due to substantial overlap in coursework, students who complete the major in Public Health cannot also be awarded the minor in Public Health.
3. Students must complete a minimum of 12 upper-division level credit hours with CU Denver faculty.

Take **both** of the following required courses:

- PBHL 2001 - Introduction To Public Health
- PBHL 3001 - Introduction to Epidemiology

Take **at least two** of the following courses. All four may be taken in lieu of two of the elective courses listed below.

- PBHL 3020 - Introduction to Environmental Health
- PBHL 2052 - Global Demography and Health
- PBHL 3030 - Health Policy
- PBHL 3070 - Perspectives in Global Health
- PBHL 4040 - Social Determinants of Health

Take **one** of the following courses:

- ANTH 1303 - Introduction to Biological Anthropology
- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life
- BIOL 1560 - Basic Biology: From Cells to Organisms

Take **two** of the following elective courses:

- PBHL 3002 - Ethnicity, Health and Social Justice
- PBHL 2052 - Global Demography and Health
- PBHL 3010 - Human Sexuality and Public Health
- PBHL 3021 - Fundamentals of Health Promotion
- PBHL 3031 - Health, Human Biology and Behavior
- PBHL 3041 - Health, Culture and Society
- PBHL 3051 - Mental Illness and Society
- PBHL 3071 - Global Topics In Sexual and Reproductive Health
- PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers
- PBHL 3440 - Medical Sociology
- PBHL 3939 - Internship
- PBHL 3999 - Special Topics in Public Health
- PBHL 4020 - Global Health: Comparative Public Health Systems
- PBHL 4021 - Community Health Assessment
- PBHL 4031 - Ethnographic Research In Public Health
- PBHL 4060 - Evolutionary Medicine
- PBHL/ANTH 4080 - Global Health Practice
- PBHL 4090 - Drug Syndemic
- PBHL 4110 - Public Health Perspectives On Family Violence
- PBHL 4200 - The Global HIV/AIDS Epidemic
- PBHL 4999 - Topics in Public Health
- ANTH 4010 - Medical Anthropology: Global Health
- ANTH 4290 - Anthropology and Public Health
- ANTH 4600 - Medical Anthropology
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4575 - Designing Health Messages
- COMM 4620 - Health Risk Communication
- ECON 4660/5660 - Health Economics
- ENVS 1342 - Environment, Society and Sustainability
- ETST 3002 - Ethnicity, Health and Social Justice
- GEOG 3501 - Geography of Health
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4235 - GIS Applications in the Health Sciences
- HEHM 3100 - Introduction to Health Humanities
- HEHM/SOCY 3570 - Death & Dying: Social & Medical Perspectives

- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present
- PHIL 4242 - Bioethics
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3305 - Abnormal Psychology
- PSYC 3822 - Aging, Brain and Behavior
- SOCY 3440 - Medical Sociology
- SOCY 4110 - Sociology of Health Care
- SOCY 4220 - Population Change and Analysis
- SOCY 4290 - Aging, Society and Social Policy

PUBLIC SERVICE MINOR

Introduction

A minor in Public Service, offered by the School of Public Affairs, will provide needed competencies to a generation looking for meaningful work consistent with their social values. Public Service courses provide students with the skills and content knowledge to work in public, private, and nonprofit sectors and the emerging fourth sector that blends social and environmental concerns with business approaches. This minor is particularly useful for students majoring in substantive areas (such as environmental studies, education and human development, and criminal justice) who plan on applying their expertise in public service organizations such as governmental agencies or nonprofit organizations.

Program Delivery

- All courses are offered online; certain courses are also offered on campus.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Public Service minor requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.

Take the following required course:

- PUAD 1001 - Introduction to Leadership and Public Service

Electives

- Take a total of **12** credit hours of electives, **6** of which must be Public Service core required courses offered by the School of Public Affairs, and **6** of which must be upper-division public service electives offered by the School of Public Affairs.

RELIGIOUS STUDIES MINOR

Introduction

Please click [here](#) to see Religious Studies department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor, or the Program Director, Sharon Coggan.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 18 credit hours of approved courses.
2. Students must complete a minimum of 9 upper-division (3000-level and above) credit hours of approved courses in the minor.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. Students cannot complete minor course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours of approved courses with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. A maximum of 9 credits hours of independent study courses may be applied to the minor.
2. Course lists in each category qualify as approved courses. Students may also seek approval from the Religious Studies program director to use a course not designated in the lists below, prior to completing the course.

Required Course

Take the following required course:

- RLST 1610 - Introduction to Religious Studies

Western Religion

Take **one** course from the following approved list:

- RLST 2660 - World Religions *

- RLST 2700 - The Bible as Literature **or**
- ENGL 2520 - The Bible as Literature

- RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference
- RLST 3060 - History of Early Christianity
- RLST 3120 - Islamic Traditions

- RLST 3740 - Biblical Traditions: Old Testament
- RLST 3760 - Biblical Studies: New Testament
- RLST 3770 - Archaeological Discoveries Relating to the Bible

- RLST 4070 - Western Religious Thought **or**
- PHIL 4710 - Western Religious Thought

- RLST 4400 - Differing Concepts of God **or** *
- PHIL 4650 - Differing Concepts of God *

- RLST 4440 - Concepts of the Soul * **or**
- PHIL 4470 - Concepts of the Soul *

- RLST 4460 - Death and Concepts of Afterlife *

- RLST 4462 - Islam in Modern History **or**
- HIST 4462 - Islam in Modern History

* Fulfills requirement for either Eastern or Western religion, but not both simultaneously

Eastern Religion

Take **one** course from the following approved list:

- RLST 2660 - World Religions *

- RLST 3410 - Asian Philosophies and Religions **or**
- PHIL 3410 - Asian Philosophies and Religions

- RLST 3500 - Religions of India

- RLST 3660 - Chinese Philosophy and Culture **or**
- PHIL 3981 - Chinese Philosophy and Culture

- RLST 4080 - Eastern Religious Thought **or**
- PHIL 4720 - Eastern Religious Thought

- RLST 4160 - Mysticism

- • RLST 4400 - Differing Concepts of God **or** *
- PHIL 4650 - Differing Concepts of God *

- RLST 4440 - Concepts of the Soul **or** *
- PHIL 4470 - Concepts of the Soul *

- RLST 4460 - Death and Concepts of Afterlife *

* Fulfills requirement for either Eastern or Western religion, but not both simultaneously

Elective courses

Take **three** courses from the following list. Other courses, such as certain special topics, art history courses featuring religious themes and others may count toward the minor with pre-approval from the minor advisor.

- RLST 1010 - Greek I: Biblical **or**
- GREK 1010 - Greek I: Biblical

- RLST 2660 - World Religions

- RLST 2680 - The American Indian Experience **or**
- ETST 2606 - The American Indian Experience

- RLST 2700 - The Bible as Literature **or**
- ENGL 2520 - The Bible as Literature

- RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference
- RLST 3060 - History of Early Christianity

- RLST 3100 - Islamic Politics and Culture **or**
- PSCI 4165 - Islamic Politics and Culture

- RLST 3120 - Islamic Traditions

- RLST 3300 - Shamanic Traditions **or**
- ETST 3300 - Shamanic Traditions

- RLST 3410 - Asian Philosophies and Religions **or**
- PHIL 3410 - Asian Philosophies and Religions

- RLST 3486 - Renaissance and Reformation **or**
- HIST 3486 - Renaissance and Reformation

- RLST 3500 - Religions of India

- RLST 3660 - Chinese Philosophy and Culture **or**
- PHIL 3981 - Chinese Philosophy and Culture

- RLST 3720 - Religious Narratives **or**
- ENGL 3520 - Religious Narratives

- RLST 3740 - Biblical Traditions: Old Testament
- RLST 3760 - Biblical Studies: New Testament
- RLST 3770 - Archaeological Discoveries Relating to the Bible
- RLST 4000 - Religion and Cultural Diversity
- RLST 4010 - Comparative Religious Systems

- RLST 4020 - Sociology of Religion **or**
- SOCY 4610 - Sociology of Religion

- RLST 4030 - Race, Religion and Belonging in the United States **or**
- ETST 4030 - Race, Religion and Belonging in the U.S.

- RLST 4040 - Psychology of Religion

- RLST 4060 - Philosophy of Religion **or**
- PHIL 4600 - Philosophy of Religion

- RLST 4070 - Western Religious Thought **or**
- PHIL 4710 - Western Religious Thought

- RLST 4080 - Eastern Religious Thought **or**
- PHIL 4720 - Eastern Religious Thought

- RLST 4100 - Special Topics in Religion
- RLST 4160 - Mysticism
- RLST 4300 - Myth and Symbol
- RLST 4320 - Spirituality in the Modern World

- RLST 4340 - The Hero's Journey

- RLST 4360 - Freudian and Jungian Perspectives in Dream Analysis

- RLST 4400 - Differing Concepts of God **or**
- PHIL 4650 - Differing Concepts of God

- RLST 4420 - Goddess Traditions **or**
- WGST 4420 - Goddess Traditions

- RLST 4440 - Concepts of the Soul **or**
- PHIL 4470 - Concepts of the Soul

- RLST 4460 - Death and Concepts of Afterlife
- RLST 4462 - Islam in Modern History **or**
- HIST 4462 - Islam in Modern History
- RLST 4480 - Perspectives on Good and Evil **or**
- PHIL 4480 - Perspectives on Good and Evil
- RLST 4500 - Religion and Politics **or**
- PSCI 4057 - Religion and Politics
- RLST 4710 - Women and Religion **or**
- WGST 4710 - Women and Religion
- RLST 4730 - Whores and Saints: Medieval Women **or**
- ENGL 4510 - Whores and Saints: Medieval Women **or**
- WGST 4510 - Whores and Saints: Medieval Women
- RLST 4840 - Independent Study: RLST
- RLST 4880 - Directed Research
- RLST 3800 - Spirituality and Ecology in Global Societies

RISK MANAGEMENT AND INSURANCE MINOR

Introduction

Please [click here](#) for more information about this program.

Students in other undergraduate schools and colleges at CU Denver wishing to complete the Risk Management and Insurance minor need to complete the course work described below.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare the RMI minor, students must have a 3.0 GPA, either cumulative or from their last 24 completed semester hours.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must maintain or exceed a 2.0 GPA to graduate with the minor.
2. Up to 6 of the 18 semester hours required for the minor may be completed at another institution.
3. Students must have declared the Risk Management and Insurance minor to register for any of the courses or petition separately to take each of these courses.

Take **all** of the following required prerequisite and proficiency courses:

- ISMG 2050 - Introduction to Business Problem Solving
- MATH 1060 - Finite Mathematics
- BANA 2010 - Business Statistics

- *(BANA 2010 can be substituted with an upper division stats course such as ECON 3811 or MATH 3800)
- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- ACCT 2200 - Financial Accounting and Financial Statement Analysis

Take **all** of the following required courses:

- FNCE 3000 - Principles of Finance
- FNCE 3500 - Management of Business Capital
- RISK 3809 - Introduction to Risk Management
- RISK 4809 - Property & Casualty Insurance

Take **two** of the following courses:

- FNCE 3700 - Investment and Portfolio Management
- RISK 4129 - Practical Enterprise Risk Management
- RISK 4209 - Cyber Risk Management
- RISK 4509 - Global Risk Management
- RISK 4609 - Claims Management
- RISK 4709 - Life & Health Insurance
- RISK 4909 - Corporate Risk Management
- RISK 4950 - Special Topics: Cyber Risk Management & Cyber Warfare

Notes

1. Some of the prerequisite courses may be substituted on a case by case basis. Please see an advisor for details.
2. All RISK courses have a fixed tuition rate. However, students have the option to apply for RMI scholarships for each RISK course they take (one scholarship per semester).

SOCIAL JUSTICE MINOR

Introduction

Please click [here](#) to see Social Justice department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses.
2. Students must complete a minimum of 9 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Take the following required course:

- SJUS 2000 - Foundations in Social Justice

Take **three** courses from those listed below. This is a sample list of upper division courses, but other courses may be considered.

Anthropology

- ANTH 3000 - Globalization, Migration and Transnationalism
- ANTH 3142 - Cultural Diversity in the Modern World
- ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers
- ANTH 4070/ ANTH 5070 - Culture of Development and Globalization
- ANTH 4300/ ANTH 5300 - Migrant Health

Communication

- COMM 2020 - Communication, Citizenship, and Social Justice
- COMM 2082 - Introduction to Environmental Communication
- COMM 3271 - Communication and Diversity
- COMM 4040 - Communication, Prisons, and Social Justice

- COMM 4260 - Communication and Conflict
- COMM 4265 - Gender and Communication
- COMM 4282 - Environmental Communication
- COMM 4558 - Digital Health Narratives
- COMM 4610 - Communication, Media, and Sex
- COMM 4710 - Topics in Communication

Education

- EDFN 4001/ EDFN 5001 - Problematizing Whiteness: Educating for Racial Justice

English

- ENGL 3330 - Topics in Literature (Literature, Mysteries and Spies)
- ENGL 4190/ ENGL 5190 - Special Topics (Rhetorics of the Body)
- ENGL 4190/ ENGL 5190 - Special Topics (Rhetoric of Disability in Contemporary Film)
- ENGL 4280/ ENGL 5280 - Proposal and Grant Writing
- ENGL 4308 - Contemporary Feminist Thought
- ENGL 4770 - Topics in English: Film and Literature (Mental Difference & Disorders)

Ethnic Studies

- ETST 3002 - Ethnicity, Health and Social Justice
- ETST 3110 - Indigenous Studies
- ETST 3272 - Global Media
- ETST 3274 - Power, Poverty, Culture
- ETST 3396 - History of the American Indian
- ETST 3297 - Social History of Asian Americans
- ETST 3704 - Culture, Racism and Alienation

Geography & Environmental Sciences

- GEOG 4301 - Population, Culture, and Resources
- GEOG 3401 - Geography of Food and Agriculture
- GEOG 3412 - Globalization and Regional Development
- GEOG 3501 - Geography of Health
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4420 - The Politics of Nature

- GEOG 4640/ GEOG 5640 - Urban Geography: Denver and the U.S.
- GEOG 4680 - Urban Sustainability: Perspectives and Practice

History

- HIST 3235 - U.S. Labor History, 1800 to the Present
- HIST 3343 - Women & Gender in US History
- HIST 3345 - Immigration and Ethnicity in American History
- HIST 3349 - Social Movements in 20th Century America
- HIST 4028/ HIST 5028 - Nations and Classes: 19th Century Europe
- HIST 4217/ HIST 5217 - Consumer Culture
- HIST 4306/ HIST 5306 - Survey of Feminist Thought
- HIST 4308/ HIST 5308 - Crime, Policing, and Justice in American History
- HIST 4455/ HIST 5455 - African Struggle for Independence

Landscape Architecture

- LDAR 3601 - Intro to Landscape Arch: Engaging Designed Landscape
- LDAR 4486/ LDAR 6686 - Special Topics: Landscape Architecture (Site, Society & Environment)
- LDAR 4486/ LDAR 6686 - Special Topics: Landscape Architecture (Food in the Urban Landscape)

Philosophy

- PHIL 3200 - Social and Political Philosophy
- PHIL 3280 - War and Morality
- PHIL 3500 - Ideology and Culture: Racism and Sexism
- PHIL 3550 - Philosophy of Death and Dying
- PHIL 4101/ PHIL 5101 - Pragmatism: Classical American Philosophy
- PHIL 4812/ PHIL 5812 - Special Topics in Philosophy (Prisons, Punishment, and Social Justice)
- PHIL 4812/ PHIL 5812 - Special Topics in Philosophy (Gender and Sexuality)
- PHIL 4812/ PHIL 4812 - Special Topics in Philosophy (The Woman Question)
- PHIL 4920/ PHIL 5920 - Philosophy of Media and Technology

Political Science

- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 3035 - Political Movements: Race and Gender
- PSCI 3914 - The Urban Citizen

- PSCI 4002 - Topics in Political Science
- PSCI 4025/ PSCI 5025 - Local Governance and Globalization
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics
- PSCI 4207 - Theories of Social and Political Change
- • PSCI 4265/ PSCI 5265 - Social Justice And Globalization
- PSCI 4535 - Labor and Working Class Politics
- PSCI 4545 - Immigration Politics
- PSCI 4555 - International Women's Resistance
- PSCI 4914 - Community Organizing and Community Development
- PSCI 4808/ PSCI 5808 - Strategies of Peacebuilding

Public Service

- PUAD 4001 - Ethics in Public Service
- PUAD 4002 - Leading for the Public Good

Religious Studies

- RLST 4000 - Religion and Cultural Diversity

Sociology

- SOCY 3001 - Urban Sociology
- SOCY 3020 - Race and Ethnicity in the U.S.
- SOCY 3140 - Sociological Theory
- SOCY 3720 - Global Perspectives on Social Issues
- SOCY 4700 - Sociology of Law

Social Justice

- SJUS 4050/ SJUS 5050 - Special Topics: Social Justice

Social Sciences

- SSCI 4050/ SSCI 5050 - Topics in Social Science (1st Amendment in American Culture Wars)
- SSCI 4050/ SSCI 5050 - Topics in Social Science (Critical Public Humanities)
- SSCI 4050/ SSCI 5050 - Topics in Social Science (Narratives of Americas)

Women's and Gender Studies

- WGST 4306/ WGST 5306 - Survey of Feminist Thought
- WGST 4308/ WGST 5308 - Contemporary Feminist Thought

Take a **3 semester hour** capstone seminar:

Work on a project related to a social justice issue that is important to you with a faculty member in an independent study. Your advisor must approve this course in advance.

SOCIOLOGY MINOR

Introduction

Please click [here](#) to see Sociology department information.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program is offered on-campus and online.

Declaring This Minor

- Please consult with College of Liberal Arts and Sciences (CLAS) Advising.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 SOCY credit hours.
2. Students must complete a minimum of 6 upper-division (3000-level and above) SOCY credit hours.

3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Students may count up to 9 semester credits of independent study or internship coursework toward the Sociology minor.

Take the following **required** course:

- SOCY 1001 - Understanding the Social World

Take **one** of the following courses:

- SOCY 2001 - Inequalities in Social World
- SOCY 3115 - Quantitative Methods & Analysis
- SOCY 3119 - Qualitative Methods
- SOCY 3140 - Sociological Theory

Take **nine** credit hours of additional Sociology electives at any level.

SPANISH MINOR

Introduction

Please click [here](#) to see information about the Department of Modern Languages.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 SPAN credit hours.
2. Students must complete a minimum of 15 upper-division (3000-level and above) SPAN credit hours.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 SPAN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students may count up to 3 credit hours of Independent Study or Internship courses toward the minor.
2. Students must declare this minor prior to their final semester of coursework.
3. All course work must be taught in Spanish.

Take **one** of the following courses:

- SPAN 3212 - Spanish American Culture and Civilization
- SPAN 3213 - Contemporary Latin American Culture and Institutions
- SPAN 3221 - Culture and Civilization of Spain I
- SPAN 3222 - Culture and Civilization of Spain II
- SPAN 3223 - Contemporary Spanish Culture and Institutions
- SPAN 3225 - Special Topics In Hispanic Culture
- SPAN 3230 - Ibero-American Cultures through Film

- SPAN 3240 - Food Metaphors: Ibero-American Cuisine and Culture
- SPAN 3270 - Bilingual Communities: Spanish as a Language of Contact
- SPAN 4330 - Modern Culture of Spain through Film and Narrative

Take **four** additional upper-division (3000-level and above) SPAN courses.

STUDIO ART MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

This general minor in studio art offers students the opportunity to explore creative studio practice in one or multiple areas (e.g., photography, transmedia sculpture, painting and drawing) along with an introduction to art history.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.

2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **two** of the following Studio Art Minor courses:

- FINE 1100 - Drawing I
- FINE 1150 - Introduction to Darkroom Photography
- FINE 1400 - Two Dimensional Design
- FINE 1500 - Three-Dimensional Design
- FINE 2155 - Introduction to Digital Photography
- FINE 2200 - Painting I
- FINE 3500 - Installation Art

Take **six** semester hours of Studio Arts electives.

Take **three** semester hours of upper-division Studio Arts elective.

Take **three** semester hours of Art History elective.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, prerequisite updates and for lists of approved electives and more information about this minor.

SUSTAINABILITY MINOR

Introduction

Please click [here](#) to see Sustainability department information.

The sustainability minor is interdisciplinary, drawing on the expertise across CLAS departments: anthropology, biology, chemistry, communication, economics, environmental sciences, geography, geology, history, economics, philosophy, physics and political science. The core courses are taught by a faculty team who will present sustainability concepts from socio-ecological and systems perspectives.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a total of 18 credit hours chosen from the approved courses below, distributed as follows: two core courses that introduce students to how living things affect and are affected by their environments, a capstone course and three electives chosen from an approved list of CLAS courses.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.5. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

1. Students should consult with the Sustainability advisor before registering for any courses applicable toward the minor. *Graduate-level courses and cross-lists may be used with prior consent from the advisor.

2. Credits counted for another major or minor program can be counted toward the Sustainability Minor with approval from the advisor, though no course may be used to fulfill more than two graduation requirements.

Take **all** of the following Core courses:

- ENVS 1342 - Environment, Society and Sustainability
- SUST 3010 - Sustainability: Past, Present, and Future
- SUST 4960 - Capstone in Sustainability

Take **three** from the following list of pre-approved elective courses:

Anthropology

- ANTH 1302 - Introduction to Archaeology
- ANTH 1303 - Introduction to Biological Anthropology
- ANTH 2102 - Culture and the Human Experience
- ANTH 3006 - Sustainable Development and Equity
- ANTH 3301 - World Prehistory
- ANTH 3210 - Urban Food Systems and Sustainability
- ANTH 3512 - Human Evolution
- ANTH 4030 - Ethnobiology
- ANTH 4060 - Evolutionary Medicine
- ANTH 4070 - Culture of Development and Globalization
- ANTH 4170 - Culture and the Environment
- ANTH 4450 - Development and Conservation: Contemporary Issues
- ANTH 4460 - Development and Conservation: Theory and Practice
- ANTH 4560 - Human Ecology

Architecture

- ARCH 3700 - Special Topics Design (when offered as Green + Sustainable Design)
- ARCH 3700 - Special Topics Design (when offered as Biomimicry)
- ARCH 3700 - Special Topics Design (when offered as Wood Technology)
- ARCH 3703 - International: Design in Context
- ARCH 3705 - Human Centered Design, Innovation and Prototyping

Biology

- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life

- BIOL 3330 - Plant Diversity
- BIOL 3411 - Principles of Ecology
- BIOL 3521 - Vertebrate Biology
- BIOL 3654 - General Microbiology
- BIOL 4154 - Conservation Biology
- BIOL 4335 - Plant Science
- BIOL 4345 - Flora of Colorado
- BIOL 4415 - Microbial Ecology
- BIOL 4416 - Aquatic Ecology
- BIOL 4425 - Biogeography
- BIOL 4450 - Marine Biology

Business

- MGMT 4950 - Special Topics in Management (when offered as Business and Sustainability)
- MKTG 4950 - Special Topics (when offered as Nonprofit and Social Marketing)

Chemistry

- CHEM 1474 - Core Chemistry: Chemistry for Everyday
- CHEM 4700 - Environmental Chemistry

Communication

- COMM 4611 - Rhetoric of Global Food Policy

Economics

- ECON 4530 - Economics of Natural Resources
- ECON 4540 - Environmental Economics
- ECON 4770 - Development Economics

Environmental Sciences

- ENVS 1044 - Introduction to Environmental Sciences
- ENVS 3082 - Energy and the Environment

Geography

- GEOG 1102 - World Regions Global Context
- GEOG 1202 - Introduction to Physical Geography

- GEOG 1602 - Urban Studies and Planning
- GEOG 3232 - Weather and Climate
- GEOG 3412 - Globalization and Regional Development
- GEOG 4010 - Landscape Biogeochemistry
- GEOG 4020 - Earth Environments and Human Impacts
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
- GEOG 4080 - Introduction to GIS
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4090 - Environmental Modeling with Geographic Information Systems
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4280 - Environmental Hydrology
- GEOG 4301 - Population, Culture, and Resources
- GEOG 4305 - Water Quality and Resources
- GEOG 4335 - Contemporary Environmental Issues
- GEOG 4350 - Environment and Society in the American Past
- GEOG 4420 - The Politics of Nature
- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4640 - Urban Geography: Denver and the U.S.
- GEOG 4720 - Climate Change: Causes, Impacts and Solutions
- GEOL 4030 - Environmental Geology

History

- HIST 3297 - Social History of Asian Americans
- HIST 3345 - Immigration and Ethnicity in American History
- HIST 3350 - Colonial Latin America
- HIST 3360 - Denver History
- HIST 3366 - Nature and Power in American History
- HIST 3396 - History of the American Indian
- HIST 3451 - Introduction to African History
- HIST 3460 - Modern Latin American History
- HIST 3470 - Intro to East Asia: Since 1800
- HIST 3480 - Introduction to European History
- HIST 3606 - Science, Technology, and Society in the Modern World
- HIST 4032 - Globalization in World History Since 1945
- HIST 4217 - Consumer Culture
- HIST 4226 - Capitalism in America
- HIST 4227 - American West

- HIST 4236 - Colorado Mining and Railroads
- HIST 4240 - National Parks History
- HIST 4411 - Modern Mexico
- HIST 4417 - Commodities and Globalization
- HIST 4421 - Modern China
- HIST 4431 - Modern Japan
- HIST 4451 - Southern Africa
- HIST 4461 - The Modern Middle East
- HIST 4503 - Topics in History of Science
- HIST 4504 - Animals in U.S. History

Physics

- PHYS 3082 - Energy and the Environment
- PHYS 4400-4499 - Topics in Scientific Instrumentation and Laboratory
- PHYS 4850 - Physics for Design and Innovation I
- PHYS 4852 - Physics for Design and Innovation II

*Note: PHYS 4850 is a prerequisite for PHYS 4852

Philosophy

- PHIL 3430 - Environmental Ethics

Political Science

- PSCI 3022 - Political Systems of the World
- PSCI 3042 - Introduction to International Relations
- PSCI 3914 - The Urban Citizen
- PSCI 4354 - Environmental Politics
- PSCI 4146 - Indigenous Politics
- PSCI 4216 - International Politics: Human Rights
- PSCI 4226 - The United Nations in World Affairs
- PSCI 4365 - Global Ecological Crises
- PSCI 5217 - Human Rights in Theory and Practice
- PSCI 5276 - Conflicts and Rights in International Law
- PSCI 5468 - Research Methods in Political Science

Public Health

- PBHL 3020 - Introduction to Environmental Health
- PSCI 3034 - Race, Gender, Law and Public Policy

- PSCI 3035 - Political Movements: Race and Gender
- PSCI 3042 - Introduction to International Relations
- PSCI 3914 - The Urban Citizen
- PSCI 4009 - Politics of the Budgetary Process
- PSCI 4014 - Media and Politics
- PSCI 4025 - Local Governance and Globalization
- PSCI 4085 - Comparative Governance: Environment and Society
- PSCI 4144 - Indigenous Political Systems
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4207 - Theories of Social and Political Change
- PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
- PSCI 4226 - The United Nations in World Affairs
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4545 - Immigration Politics
- PSCI 4555 - International Women's Resistance
- PSCI 4645 - Comparative Political Leadership

THEATRE, FILM AND TELEVISION MINOR

Introduction

Please click [here](#) to see general Theatre, Film & Video Production information.

In this minor, students explore theatre, film and television in both studio and lecture formats.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.
3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Theatre, Film and Television Minor courses:

- FITV 1005 - Introduction to Theatre & Arts in the Community
- FITV 1200 - The Culture of Television
- FITV 3550 - World Theatre

Take **one** of the following courses:

- FITV 3200 - Film History 1
- FITV 3300 - Film History 2

Take **twelve** semester hours of Theatre, Film and Television Minor electives, chosen in consultation with a Film & Television faculty advisor.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

TRANSMEDIA SCULPTURE MINOR

Introduction

Please click [here](#) to see general Visual Arts information.

The transmedia sculpture minor provides experiences that span digital practice, traditional metal casting, mold making, woodworking and fabrication processes. Students learn how to use a wide variety of equipment that encompass the breadth of sculpture today, from metal, wood and assembled sculpture, to installation and performance work, to live media and interactive digital work.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To declare this minor, please see College of Arts & Media Advising and Student Services in Arts Building, 177. Consult the College of Arts & Media at CAM@ucdenver.edu for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students may transfer up to six semester hours of non-CU Denver courses toward a College of Arts & Media minor. All other courses must be taken at CU Denver.
2. A minimum grade of C (2.0) is required for each course applied toward a College of Arts & Media major, minor or certificate requirement. A grade of C- (1.7) or

lower will not fulfill a major, minor or certificate requirement. A grade of P is acceptable for courses in which the only grade available is Pass or Fail.

3. Students may use up to six semester hours to fulfill both major and minor requirements; the remaining semester hours for the minor must be taken in addition to the major requirements.

Take **all** of the following Transmedia Sculpture Minor courses:

- FINE 1500 - Three-Dimensional Design
- FINE 2500 - Bronze Casting
- FINE 2510 - Wood and Metal Sculpture

Take **three** of the following Transmedia Sculpture Minor courses:

- FINE 3500 - Installation Art
- FINE 3510 - Mold Design & Casting
- FINE 3555 - Concepts in Sculpture (Note that the FINE 3555 Concepts in Sculpture course encompasses rotating course topics and can be taken up to four times, each time with a different topic. These topics are as follows: Concepts in Sculpture-Modeling for Manufacture, Social Engagements, Iron Casting, Public and Environmental Art.)
- FINE 4505 - Sculptural Drawing
- FINE 4215 - Interdisciplinary Studio

Take **three** semester hours of Art History elective.

Please contact the College of Arts & Media at CAM@ucdenver.edu for course sequencing, any prerequisite updates and for more information about this minor.

URBAN AND REGIONAL PLANNING MINOR

Introduction

Please click [here](#) to see Geography and Environmental Sciences Department information.

The urban and regional planning minor in the Department of Geography and Environmental Sciences provides non-geography undergraduate students the opportunity to pursue studies in the professional field of planning. Geography majors can pursue the urban studies option, so this minor would not be available to these majors.

Geography and urban and regional planning share a common concern for the spatial configuration of the places that we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the Master of Urban and Regional Planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree and if interested in this option should work closely with the minor advisor in the selection of coursework. (Please see the Graduate Catalog for more information on this graduate program.)

All core courses are offered on a yearly basis.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 15 GEOG credit hours.
2. Students must complete a minimum of 12 GEOG upper-division (3000- level and above) credit hours in the minor.
3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded

attempts in required and elective courses are calculated in the minor GPA.
Students cannot complete minor or ancillary course requirements as pass/fail.

4. Students must complete a minimum of 9 GEOG credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Although the three core courses may be taken in any order, it is advisable to begin with GEOG 1602, since this course familiarize students with many key concepts used in other classes.
2. All undergraduate students, except geography majors, are eligible for this minor.
3. Students interested in applying for the articulated MURP degree program must achieve a grade of B (3.0) or higher in required courses.

Take **all** of the following required courses:

- GEOG 1602 - Urban Studies and Planning
- GEOG 4640 - Urban Geography: Denver and the U.S.
- GEOG 4680 - Urban Sustainability: Perspectives and Practice

Take **two** of the following courses:

- GEOG 4000/ URPL 5010 - Planning Methods
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
- GEOG 4235 - GIS Applications in the Health Sciences
- GEOG 4400 - Regional Economic Systems
- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4630/ URPL 6550 - Transportation Planning/Policy
- URPL 5000 - Planning History and Theory
- URPL 5050 - Urban Development
- URPL 6300 - Community and Environmental Health Planning
- URPL 6555 - Transportation, Land Use, and the Environment
- URPL 6650 - International Development Planning: Theory and Practice

VICTIMS AND VICTIM SERVICES MINOR

Introduction

Please click [here](#) to see School of Public Affairs information.

The undergraduate minor in Victims and Victim Services provides a detailed, comprehensive, and advanced education in fields related to victims and victim services. This program is designed for students who are employed or plan to work in a field related to victim services.

The CJVS program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of victims and victim services that students can apply to their current or future careers in the field.

Students completing the CJVS minor will have the knowledge and skills to evaluate, manage, and respond to a variety of situations and issues that professionals in fields related to victims and victim services face. Specifically, they will possess technical, analytic, substantive, and ethical proficiencies that will facilitate their professional interactions and development. They will understand the different environments and contexts in which victim advocates and other professionals in this field and related ones carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Victims and Victim Services minor requires 18 credit hours of coursework.

2. A maximum of 6 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy the minor requirements.

Take **all** of the following required courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory
- CRJU 3285 - Trauma in the Criminal Justice System
- CRJU 4170 - Victimology

Program Electives

There are two elective categories, Violence Focus and Professional Setting. The Violence Focus elective allows the student to learn about an area of violence in a more in-depth capacity. The Professional Setting elective allows the student to hone skills related to service delivery.

Violence Focus (students **take one** of the following):

- CRJU 3250 - Violence in Society
- CRJU 3280 - Trauma Among Correctional Populations
- CRJU 4140 - Domestic Violence and Crime
- ETST 2115 - Genocide in the 21st Century: Darfur and Beyond
- PSCI 4807 - Political Violence
- SOCY 4460 - Hate Groups and Group Violence
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment.

Professional Setting (students **take one** of the following):

- CRJU 4939 - Internship
- HDFR 4090 - Helping Profession Skills in HDFR
- PUAD 4009 - Human Service Organizations
- PUAD 3110 - Seminar in Nonprofit Management
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment.

WOMEN'S AND GENDER STUDIES MINOR

Introduction

Please click [here](#) to see Women's and Gender Studies department information.

The Women's and Gender Studies Minor gives students the opportunity to explore gender issues in the humanities and social sciences.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

For more information about this minor, contact the Women's and Gender Studies Director, Gillian Silverman, 303-556-4529.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 WGST-related credit hours.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.

3. Students must earn a minimum grade of C-(1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete minor or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

1. All courses for the minor must be approved by a WGST advisor. Students may double count up to six credits being applied to other graduation requirements (major, certificate or general education).
2. Students are strongly urged to take at least one course that focuses on international perspectives on women's and gender issues.
3. Students have the option to complete an internship working in the community around issues related to women and gender. The alternative to this is a WGST capstone course at the 4000 level.
4. Students who major in Sociology and complete the Gender and Society option will automatically earn a Women's and Gender Studies Minor

Take **all** of the following required courses (6 credits):

- WGST 1050 - Introduction to Women's and Gender Studies
- WGST 3939 - Internship (3 credit hours) **or**
- WGST course at the 4000 level

Take **12 credits** of WGST-related courses at the 3000-level or above. Eligible courses include, but are not limited to:

Humanities

- WGST 3020 - Gender, Sexuality and Race in American Popular Culture
- ENGL/ WGST 3450 - Contemporary Women Writers

Dual Degree Programs

4+1 INTERNATIONAL STUDIES BA TO POLITICAL SCIENCE MA

Introduction

The 4+1 accelerated Master's program in Political Science is an expedited program of study that allows students to complete a Bachelor's degree in International Studies and a Master's degree in Political Science in as few as 5 years.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Students will follow the undergraduate curriculum for International Studies and work closely with their faculty advisor to begin taking Political Science graduate level coursework as they complete their undergraduate degree.

They will complete no more than 15 credits as an undergraduate that will apply to both their undergraduate and graduate degrees.

Students should officially declare their intent to complete this program by their junior year and apply to the graduate program during the semester they intend to graduate with their BA.

Application requirements may differ from the traditional 2 year MA, which is why students need to work closely with faculty advisors and the political science graduate program director for more information and to ensure they are following the best track to complete coursework

so that they only have one year after completing the undergraduate degree, to complete the graduate requirements. View the graduate program requirements for Political Science here.

4+1 INTERNATIONAL STUDIES TO MASTERS IN HUMANITIES OR SOCIAL SCIENCES

Introduction

The International Studies BA/MHMSS (Master of Humanities/Master of Social Science Program) in the College of Liberal Arts and Sciences provides an expedited interdisciplinary program of study that allows participating students to complete an interdisciplinary Bachelor degree in International Studies and an interdisciplinary Master degree in Humanities or Social Science through the MHMSS program in five years. INTS students interested in participating apply for either the MH or MSS degree no earlier than their first semester of junior-year standing as an undergraduate. Students may further choose to concentrate in one of the MH or MSS tracks. (For track information, see descriptions of the MH and MSS degree programs in the graduate catalog.) Upon acceptance, students take five graduate-level courses beginning the second semester of their junior year (or its equivalent) and through the whole of their senior year. Because these classes "double count," they fulfill requirements for both the BA major and the Master degree in Humanities or Social Science. Students then continue graduate studies exclusively in the chosen degree plan, either MH or MSS, to complete their master degree by the end of their fifth year in CLAS at CU Denver.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

Admissions Requirements and Process

- Interested students should contact their INTS advisor and the MH or MSS advisor as early as possible to ensure proper planning for the five year degree.
- To qualify, students must have a 3.0 or higher GPA in CLAS. All courses taken at the 4000- and 5000-level must be completed with at least a B or higher.

- Students may apply to the graduate program during the semester in which they will successfully complete their degree, and should have most of their general education and major requirements completed by this time.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

Program Requirements

Students in the 5-year INTS BA/MHMSS Program must satisfy all existing requirements for both an undergraduate degree in CLAS with a major in International Studies and a Master of Humanities or Social Science degree. These requirements can be fulfilled through multiple possible paths through the department's curriculum:

Students must maintain a 3.0 GPA in CLAS course work.

Program Options

BA/MHMSS students may choose to do a general MH or MSS degree or select a track concentration within the degree plan, including Social Justice, Philosophy and Theory, Visual Studies, Women's and Gender Studies, Ethnic Studies, International Studies, Community Health, and Society and Environment.

4+1 PHILOSOPHY TO MASTER OF HUMANITIES

Introduction

Please [click here](#) to see Philosophy department information.

The 4+1 accelerated Master's program in Philosophy is an expedited program of study that allows students to complete a Bachelor's degree in Philosophy and a Master's degree in Humanities in as few as 5 years.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

4+1 SOCIOLOGY BA TO MA

Introduction

The Combined BA/MA (4+1) program in Sociology provides a coherent, progressive educational experience that prepares students for either immediate entry to a master's level career or continued study in a PhD program. The BA/MA application process is competitive, as the program is designed for highly-qualified students who are capable of an expedited program. Students choose from two options for their Comprehensive Paper that completes the master's degree: either a 6-credit thesis, or a 3-credit applied experience plus a 3-credit paper. The program also offers 3 concentration areas (Crime, Law & Deviance; Health & Society; Family, Social Services & Community) for students seeking specialization in high-demand career areas.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

Students should officially declare their intent to complete this program by their junior year and apply to the graduate program during the semester they intend to graduate with their BA.

Students must earn a minimum grade of C- (1.7) in all undergraduate major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. Students must earn a minimum grade of B(3.0) in all graduate major courses taken at CU Denver and must achieve a minimum cumulative GPA of 3.0. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

Tier 1 Knowledge

Take **all** of the following required undergraduate courses:

- [SOCY 1001 - Understanding the Social World](#)

- SOCY 2001 - Inequalities in Social World
- SOCY 3115 - Quantitative Methods & Analysis
- SOCY 3119 - Qualitative Methods
- SOCY 3140 - Sociological Theory

Take **all** of the following required graduate courses:

SOCY 5000 must be the first graduate course taken (may be taken concurrently with other graduate courses); SOCY 5024 must be taken before SOCY 5183 and SOCY 5193. Students must earn a *B* or better in all graduate core courses.

- SOCY 5000 - Professional Seminar: Sociological Inquiry
- SOCY 5016 - Social Theory
- SOCY 5024 - Seminar: Research Methods I
- SOCY 5183 - Seminar: Quantitative Data Analysis
- SOCY 5193 - Seminar: Qualitative Data Analysis

Tier 2 Knowledge Applied to Substantive Areas

Five elective courses, one of which may be taken at the undergraduate level. Graduate credit requirements are fulfilled only for those courses earning a minimum grade of B-.

Tier 3 Comprehensive Paper

Take one of the following Comprehensive Paper options:

- SOCY 5955 - Master's Thesis **or**
- SOCY 5939 - Internship **or**
- SOCY 5840 - Independent Study: SOCY

and

- SOCY 5964 - Master's Report

Plans of Study

THESIS OPTION REQUIREMENTS

Core course requirements	15 Credits
Four substantive area courses	12 Credits
Master's Thesis	6 Credits
o SOCY 5955 - Master's Thesis	

BA/MA Thesis Option Total: **53 Credits**

APPLIED PROJECT REQUIREMENTS

Core course requirements	15 Credits
--------------------------	------------

Four substantive area courses	12 Credits
Applied Experience (internship or independent study)	3 Credits
Master's Paper	3 Credits
o SOCY 5939 - Internship	
o SOCY 5840 - Independent Study: SOCY	
o SOCY 5964 - Master's Report	

BA/MA Applied Project Total: **53 Credits**

Substantive Area Requirements (12 credits for both options)

Students can take an unlimited number of sociology graduate (5000-level) seminars to fulfill their 15 elective credits requirement, or a combination of the following:

- o Independent study: maximum 6 semester hours
- o Graduate level courses in other departments: maximum 6 semester hours
- o Internship: maximum 3 semester hours

For further information about the Department of Sociology or the MA program, visit the Sociology website.

5 YEAR BA/BS AND MASTER IN PUBLIC HEALTH

Introduction

Please click [here](#) to see Health and Behavioral Sciences department information.

Please click [here](#) and [here](#) to see the overview of the Public Health undergraduate program.

Please click [here](#) to see the overview of the Masters in Public Health graduate program.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

PBHL Director: Meng Li, Associate Professor

Office: North Classroom 3018

Telephone: 303-315-7150

Fax: 303-556-8501

Email: Meng.Li@ucdenver.edu

ColoradoSPH Contact: Chloe Bennion, Student Affairs and Academic Operations Director

Office: Fitzsimons Building, Room E-3301

Telephone: 303-724-4745

Email: chloe.bennion@cuanschutz.edu

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.
- To be eligible, students must be declared PBHL majors (BA or BS).
- Ideal candidates will have a GPA of 3.5 or higher, and will have completed a minimum of 12 credit hours toward their undergraduate PBHL degree including Introduction to Public Health (PBHL 2001), General Biology I with lab (BIOL 2051/2071) and General Biology II with lab (BIOL 2061/2081), each completed with grades of B+ or higher.
- Complete an application via SOPHAS EXPRESS (NOTE: GREs are not required). Students should apply by the January preferred deadline in their Sophomore or Junior year.
- Upon application, declare a provisional MPH concentration (NOTE: some concentrations may establish additional eligibility criteria).

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. Undergraduate degree requirements follow either the BA ([found here](#)) or BS ([found here](#)).
2. Students in this program will be conferred both degrees (BA or BS, and MPH) simultaneously upon completion of all requirements.

3. Each class must be completed with a grade of C- or higher to count towards the major, and students must maintain a minimum 3.5 GPA in the undergraduate major and MPH courses.
4. The following are exceptions and/or substitutions that are applicable to the BA/BS requirements for students in the BA/BS - MPH program:

Take the following Core course:

- PBHL 2001 - Introduction To Public Health (in lieu of PUBH 6600 requirement for MPH program)

Take **two** graduate-level classes from the following list, which will count toward both degrees:

- PBHL 3020 - Introduction to Environmental Health can be replaced by EHOH 6614
- PBHL 3001 - Introduction to Epidemiology can be replaced by EPID 6630
- PBHL 3030 - Health Policy can be replaced by HSMP 6601
- PBHL 4040 - Social Determinants of Health can be replaced by CBHS 6610

Take the following Quantitative Methods course:

- MATH 5830 - Applied Statistics (in lieu of BIOS 6601 requirement for MPH program, counts towards both degrees)

Additional Notes

1. To facilitate timely completion of the program, students are expected to take 6 credits in each of 2 summers.
2. If students apply late to this program, (including having already completed additional PBHL core requirements), they may not be able to benefit from all of the substitution-based time savings, and therefore may not be able to complete the program in 5 years.

5 YEAR MATHEMATICS BS/APPLIED MATHEMATICS MS

Introduction

This is a unique program where a student can obtain both a BS in Mathematics and MS in Applied Mathematics in five years through a specialized course sequence. The program requires 12 fewer credits than if both degrees were earned separately. They should declare their intent to complete this program to the Graduate Director after completing MATH 1401, 2411, 2421, 3000, 3191, and 4310.

Program Delivery

This is an on-campus program.

Declaring This Major

[Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements for Mathematics BS

1. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
2. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
3. Students must complete a minimum of 15 upper-division level MATH credit hours with CU Denver faculty.
4. Students must declare their intent to complete this program during their junior or senior year, after completing MATH 1401, 2411, 2421, 3000, 3191, and 4310.

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II

- MATH 2421 - Calculus III
- MATH 3000 - Introduction to Abstract Mathematics
- MATH 3191 - Applied Linear Algebra
- MATH 3382 - Statistical Theory
- MATH 4310 - Introduction to Real Analysis I
- MATH 5779 - Math Clinic or MATH 6330 - Workshop in Statistical Consulting

Take **one** of the following programming requirements:

- MATH 1376 - Programming for Data Science **or**
- CSCI 1410 - Fundamentals of Computing **and**
- CSCI 1411 - Fundamentals of Computing Laboratory

Take **two** approved MATH electives (at least six semester hours) above the 3000 level, excluding 3195, 3511, 3800, 3999, and 4830.

Take **nine** semester hours of MATH numbered 5000 or above excluding MATH 5000-5010, MATH 5012-5015, MATH 017, MATH 5198, MATH 5250 and MATH 5830.

Program Requirements for Applied Mathematics MS

In the semester in which the student intends to complete their BS, students must apply for admission into MS in Applied Mathematics Program.

Students must earn a minimum grade of B- (2.7) in all courses taken at CU Denver and must achieve a minimum cumulative major GPA of 3.0, for all courses that will apply to the MS. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

Students must present 30 hours of course work for the M.S. degree.

At least 24 of these hours must consist of graduate level (numbered 5000 or higher) courses with the MATH prefix.

The remaining 6 hours must be either MATH courses numbered 5000 or above or pre-approved courses outside the department numbered 4000 or above.

Students must complete a written project and pass a final oral exam.

Note that 12 semester hours of MATH courses used for the B.S. portion of the degree apply to the 30 hours of course work below.

Up to 9 semester hours of prior course work may be transferred in (subject to approval); these

must be at the 5000 level or above with a B- or better grade. Courses already applied toward a prior degree (graduate or undergraduate) cannot be used toward the M.S. degree in Statistics. Additionally, the following MATH courses will NOT count toward a graduate degree: MATH 5000-5009, 5010, 5012-5015, 5017, 5198, 5250, and 5830.

Following completion of course work, all students must complete a written project and pass a final oral exam. For students choosing the thesis option, 4 to 6 hours (of the 30 required hours) may be devoted to the writing of a thesis through MATH 5950. According to Graduate School policies, Masters students, whether enrolled full-time or part-time, must complete all degree requirements within 7 years of matriculating into the graduate program.

The following course requirements must be satisfied by all students in the MS in Applied Mathematics Program:

1. (Analysis Core Requirement) One of: MATH 5070 (Applied Analysis) or MATH 6131 (Real Analysis),
2. (Linear Algebra Core Requirement) MATH 5718 (Applied Linear Algebra)
3. Students must complete at least three courses chosen from the following list. Note that MATH 6131 (Real Analysis) can be used to satisfy both the analysis core requirement and may also count as one of the three courses satisfying this requirement.
 - Any MATH course at the 6000 level or above
 - MATH 5135 Functions of a Complex Variable
 - MATH 5310 Probability
 - MATH 5320 Introduction to Mathematical Statistics
 - MATH 5490 Network Flows
 - MATH 5593 Linear Programming
 - Additional course options may be added later at the discretion of the Department of Mathematical and Statistical Sciences, e.g., as new courses are introduced to the graduate program.

Program Requirements

Admissions: Once a student has progressed beyond three semesters of calculus (through multivariate calculus), linear algebra, Introduction to Abstract Mathematics, and Real Analysis I, they may apply for entry into the 5-year BS in Mathematics / MS in Applied Mathematics degree program. A 3.0 grade point average (GPA) is required over all mathematics courses.

To apply, contact the one of the Co-directors for the Graduate Program in order to complete an "Intention to complete 4+1 Bachelor's to Master's Degree form."

Graduate School Policies and Procedures: The following excerpts are from Article II. Section 2.iv. of the Graduate School Policies and Procedures (as approved by Graduate Council

April 3, 2013, and modified by Graduate Council February 2018). Students are not formally admitted to the Graduate School until they have earned their undergraduate degree. Students participating in a Bachelor's/Master's option must:

- fulfill all credit requirements of both the graduate and undergraduate programs
- fill out and submit a declaration of intent to complete this program before enrolling in any graduate level courses, being advised by both undergraduate and graduate advisors; and
- apply and be admitted to the graduate program in the semester (fall or spring) in which they intend to complete their undergraduate degree.

*Here, the graduate program pertains to the Department of Mathematical and Statistical Sciences. Before enrolling in any graduate courses, the student must have been admitted into the 5-year degree program and submitted an "Intention to complete 4+1 Bachelor's to Master's Degree form."

Additional notes for obtaining the B.S. in Mathematics:

1. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
2. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
3. Students must complete a minimum of 15 upper-division level MATH credit hours with CU Denver faculty.
4. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

You must satisfy the requirements of the College of Liberal Arts and Sciences (CLAS) and CU Denver. Contact CLAS advising office for details.

Additionally, students must satisfy the following requirements to obtain the M.S. in Applied Mathematics:

- At least 30 semester hours
- At least 24 hours must be in mathematics and statistics, numbered 5000 or above

At most six hours may be in courses outside the Department of Mathematical & Statistical Sciences at the 4000 level or above, if approved by the student's academic advisor and by the Graduate Committee.

The overall grade point average must be 3.0 or higher. Grades below a B- are not accepted (but they do contribute to the overall GPA).

A maximum of 9 credit hours of coursework may be transferred into the M.S. program. Only courses completed with a grade of B- or better may be considered for transfer credit. Credit cannot be transferred until the student has established a satisfactory record of at least six graduate credits in mathematics or statistics at CU Denver with a minimum GPA of 3.0. All transfer courses must be approved by the Graduate Program Director. Courses taken while registered as a non-degree student are considered transfer courses.

The following courses will not count toward a graduate degree in applied mathematics: MATH 5000-5010, MATH 5012-5015, MATH 5017, MATH 5198, MATH 5250 and MATH 5830.

Additional Notes:

Students will be advised to take Introduction to Real Analysis II (MATH 4320) as an elective for the B.S.

Students must complete either the requirements for the M.S. degree without concentration area or specific coursework requirements in one of the following areas: Applied Probability, Applied Statistics, Discrete Mathematics, Mathematics of Engineering and Science, Numerical Analysis, or Operations Research.

5 YEAR MATHEMATICS BS/STATISTICS MS

Introduction

This is a unique program where a student can obtain both a BS in Mathematics and MS in Statistics in five years through a specialized course sequence. The program requires 12 fewer credits than if both degrees were earned separately.

Program Delivery

This is an on-campus program.

Declaring This Major

[Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements for Mathematics BS

1. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
2. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
3. Students must complete a minimum of 15 upper-division level MATH credit hours with CU Denver faculty.
4. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.25. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
5. Students must declare their intent to complete this program during their junior or senior year, after completing MATH 1401, 2411, 2421, 3000, 3191, and 3382.

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3000 - Introduction to Abstract Mathematics
- MATH 3191 - Applied Linear Algebra
- MATH 3382 - Statistical Theory
- MATH 4310 - Introduction to Real Analysis I
- MATH 5310 - Probability
- MATH 5320 - Introduction to Mathematical Statistics
- MATH 5387 - Applied Regression Analysis
- MATH 6330 - Workshop in Statistical Consulting

Take **one** of the following programming requirements:

- MATH 1376 - Programming for Data Science **or**
- CSCI 1410 - Fundamentals of Computing **and**
- CSCI 1411 - Fundamentals of Computing Laboratory

Take **two** approved MATH electives (at least six semester hours) above the 3000 level, excluding 3195, 3511, 3800, 3999, and 4830.

Take **two** additional MATH classes (and at least 6 credits) above 3000 excluding 3040, 3195, 3511, 3800, 4012, 4013, 4014, 4015 and 4830.

Program Requirements for Statistics MS

1. In the semester in which the student intends to complete their BS, students must apply for admission into MS in Statistics Program. They should have declared their intent to complete this program to the Director of the Program in Statistics after completing MATH 1401, 2411, 2421, 3000, 3191, and 3382.
2. Students must earn a minimum grade of B- (2.7) in all courses taken at CU Denver and must achieve a minimum cumulative major GPA of 3.0, for all courses that will apply to the MS. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
3. Students must present 30 hours of course work (which are broken into 4 components as detailed below) for the M.S. degree.
4. At least 24 of these hours must consist of graduate level (numbered 5000 or higher) courses with the MATH prefix.
5. The remaining 6 hours must be either MATH courses numbered 5000 or above or pre-approved courses outside the department numbered 4000 or above.
6. Students must complete a written project and pass a final oral exam.

Note that the MATH 5310, MATH 5320, MATH 5387, and MATH 6330 courses used for the B.S. portion of the degree apply to the 30 hours of course work and satisfy the core requirement discussed below.

Up to 9 semester hours of prior course work may be transferred in (subject to approval); these must be at the 5000 level or above with a B- or better grade. Courses already applied toward a prior degree (graduate or undergraduate) cannot be used toward the M.S. degree in Statistics. Additionally, the following MATH courses will NOT count toward a graduate degree: MATH 5000-5009, 5010, 5012-5015, 5017, 5198, 5250, and 5830.

Following completion of course work, all students must complete a written project and pass a final oral exam. The project is developed as a student-centered independent research component within MATH 5960 unless the student has chosen the thesis option. For students choosing the thesis option, 4 to 6 hours (of the 30 required hours) may be devoted to the writing of a thesis through MATH 5950. According to Graduate School policies, Masters students, whether enrolled full-time or part-time, must complete all degree requirements within 7 years of matriculating into the graduate program.

The MS degree in Statistics consists of 4 components: 1) core courses, 2) statistics electives, 3) other electives, and 4) MATH 5960 (Master's project) or MATH 5950 (Master's thesis).

The **4 core courses** include:

- MATH 5310 - Probability
- MATH 5320 - Introduction to Mathematical Statistics
- MATH 5387 - Applied Regression Analysis
- MATH 6330 - Workshop in Statistical Consulting

and are satisfied during the completion of the B.S. portion of the degree.

Students must take **at least three** additional *statistics electives* courses from the list below:

- MATH 5394 - Experimental Designs
- MATH 5792 - Probabilistic Modeling
- MATH 6101 - Uncertainty Quantification
- MATH 6380 - Stochastic Processes
- MATH 6384 - Spatial and Functional Data Analysis
- MATH 6388 - Statistical and Machine Learning
- MATH 7386 - Monte Carlo Methods
- MATH 7393 - Bayesian Statistics
- MATH 7384 - Mathematical Probability
- MATH 7826 - Topics in Probability and Statistics
- Additional courses given prior approval by the student's advisor and the Director of the Program in Statistics

Students must take **two Other Electives**: Any MATH prefix course that can be used for an M.S. or Ph.D. degree in Applied Mathematics can be used as another Elective. While these courses could be additional statistics-focused courses, the added flexibility allows students to direct their coursework into other areas of mathematics and/or science. The

following courses will not count toward the M.S. in Statistics: MATH 5000-5010, MATH 5012-5015, MATH 5017, MATH 5198, MATH 5250 and MATH 5830.

Students must take **either** MATH 5950 or MATH 5960 as part of completing their written project.

BS/MA 4+1 PROGRAM IN EDUCATION AND HUMAN DEVELOPMENT: HDFR CONCENTRATION

Introduction

Students in the BS/MA 4+1 Program in Education and Human Development: HDFR Concentration will have a pathway to **complete a BS and MA in Learning Development and Family Sciences HDFR in 5 years**. LDFS HDFR students who pursue this BS/MA (4+1) option will likely have opportunities for accelerated opportunities to work and lead in community-based organizations with culturally and diverse families in community and educational settings.

LDFS HDFR undergraduate students may apply into the BS/MA program after completing 60 or more credits. A holistic admission process (following a comprehensive review of all admission materials) will be used including GPA, 2 letters of recommendation, demonstrate leadership experiences and an interview with HDFR faculty. A minimum of an overall cumulative GPA of at least 3.0 and a major GPA of 3.3 or better will be required and they have a faculty mentor who will strongly support his or her application to the program.

Program Delivery

- This is an on-campus program with some online options.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Education and Human Development Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

HDFR students who are granted admission to the BS/MA (4+1) program and effectively subsequently admitted to the LDFS MA: HDFR concentration can substitute two undergraduate 4000 level HDFR major courses (6 credits) for two graduate level HDFR courses (6 credits) approved by HDFR faculty or HDFR advisor.

The content knowledge of the two courses substituted in the undergraduate program is addressed in greater depth and placed in larger scholarly context in the corresponding graduate courses. The student needs to earn a grade of B (3.0) or better in the two corresponding HDFR graduate courses.

Course Requirements for the MA program in Learning, Developmental and Family Sciences: Human Development and Family Relations (HDFR) concentration (30 credits)

- LDFS 6200 - Human Development Over the Life Span (3 Credits)
- RSEM 5120 - Introduction to Research Methods (3 Credits)
- LDFS 5110 - Human Learning (3 Credits)
- HDFR 6000 - Family Theories (3 Credits)
- RSEM 5100 - Basic Statistics (3 Credits)
- HDFR/SEHD Electives: Professional Personalized Master's Electives (Completed at BS and MA level)
- LDFS 6950: Applied Project or Master's Thesis Option (3 Credits)

CHEMISTRY BS/MS

Introduction

Please [click here](#) to see Chemistry department information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

While students are completing a BS degree in chemistry, they may also complete some of the requirements for an MS degree in chemistry by participating in the BS/MS program using the following guidelines:

- The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
- Up to 12 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MS degree. With prior approval, these courses may also be applied toward the BS Chemistry, BS Biochemistry or ACS certification requirements for the BS Chemistry degree.
- The chemistry department will waive the requirement for placement examinations in each area of chemistry for which the student has completed the undergraduate sequence of courses and laboratories at the Downtown Campus with grades of B (3.0) or better for each course.
- The student must apply for and be admitted to the MS program the semester that they plan to complete the BS Chemistry, BS Biochemistry or ACS certification requirements at the Downtown Campus.

The BS/MS program allows undergraduate students who have begun their research as undergraduates to complete up to 12 semester hours toward the 30 semester hours required for an MS degree in chemistry while they are still completing their BS degree. This makes it possible for students to complete an MS degree in chemistry in only one year beyond the BS degree in chemistry or biochemistry. Students entering the MS program through the BS/MS program option must fulfill all of the requirements of the Plan I or Plan II MS degree programs, which can be found [here](#).

CLAS/PUBLIC ADMINISTRATION, BA/MPA

Introduction

The Pathway BA/MPA degree program offered by the College of Liberal Arts and Sciences and the School of Public Affairs provides students the opportunity to complete both a bachelor's degree and master's degrees in five years rather than the usual six years. The program combines undergraduate general education and major studies with a specialized curriculum in public affairs and strives to develop intellectual and professional skills in a coordinated manner. The five- year BA/MPA program decreases the time and number of semester hours required to earn both degrees by allowing students to count graduate- level courses in the School of Public Affairs toward the bachelor's degree requirements. The program is designed to give students an opportunity to prepare for professional positions and advancement with federal, state or local governments, nonprofits or private sector firms concerned or involved with public affairs. BA/MPA students may choose from any CLAS major and may choose the general MPA or the MPA with a concentration. Students are eligible to receive a bachelor's degree once they have successfully completed 120 semester hours and all CLAS requirements. The BA/MPA will be conferred once the student has completed all requirements of the master of public administration degree, including at least 36 hours of graduate-level course work.

Program Delivery

- Check with the College of Liberal Arts and Sciences (CLAS) regarding the format for the courses in your selected CLAS major. MPA courses in the School of Public Affairs are offered on campus, online and in hybrid formats.

Declaring This Pathway Program

- Please contact CLAS advising for information on how to declare a CLAS major. To learn more about adding the MPA program for the Pathway degree, contact spa.advising@ucdenver.edu.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. BA/MPA students may choose from any CLAS major.
2. BA/MPA students may choose to complete a general MPA or they may add a concentration to the MPA.
3. Students must maintain a 3.5 GPA in CLAS coursework.
4. Students may complete a maximum of 18 semester hours of SPA graduate course work while classified as an undergraduate student.
5. Students must maintain a 3.0 or higher GPA in public affairs coursework.
6. Student must successfully complete the capstone course in a semester AFTER all core courses are completed. Alternatively, a thesis option is available. Interested students should contact their SPA faculty advisor.
7. Students may apply to the program during the semester in which they will successfully complete 90 semester hours, and should have most of their general education and major requirements completed by this time.

Students must fulfill **all** the requirements for graduation for CLAS:

- 30 hours in the core curriculum
- 30-48 hours to satisfy major requirements
- Writing proficiency (1 - 7 hours)
- Mathematics proficiency (0 - 3 hours)
- Level III foreign language (0 - 13 hours)

Note: It is highly recommended that students complete a course in American government, statistics and economics before applying to the MPA program

Students must fulfill **all** the requirements for graduation from SPA:

- Total of 36-39 semester hours in public affairs
- Six core courses (PUAD 5001 - PUAD 5006)
- Five elective courses at the graduate level (5000 and 6000 level courses)
- Nine of the 15 elective semester hours must be PUAD courses
- An internship (3 hours) is required from those who do not have significant work experience in the field.

CRIMINAL JUSTICE, BA/MCJ

Introduction

Please click [here](#) to see School of Public Affairs information.

The Pathway BA/MCJ program is designed to allow students to work concurrently toward the BA in Criminal Justice and the Master of Criminal Justice (MCJ). Graduate credit hours earned while enrolled in the BA/MCJ program can be counted toward both the Bachelor of Arts and Master of Criminal Justice. This program offers high-achieving students the opportunity to complete their undergraduate and graduate degrees in criminal justice in less time than completing both separately. The undergraduate and graduate degrees are conferred upon completion of each of the degree's requirements.

Program Delivery

- Courses are offered on campus, online, and in hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu.

Both current CU Denver students and new transfer students are eligible to apply to the Criminal Justice BA/MCJ after meeting the following:

- Currently enrolled in the School of Public Affairs as a criminal justice major
- Completed the University of Colorado Denver's undergraduate core curriculum
- Completed 60 semester credit hours
- Completed the following 12 semester credit hours in criminal justice:
 - CRJU 1000 - Criminology & Criminal Justice: An Overview
 - CRJU 2041 - Criminological Theory,
 - CRJU 3100 - Criminal Justice Research Methods

- CRJU 3150 - Statistics for Criminal Justice
- Transfer criminal justice courses must have been approved and accepted toward the major.
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in criminal justice courses

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 30 resident credit hours, 21 of which must be in resident coursework.
2. Students must receive a minimum B grade in each required core MCJ course.
3. A minimum of 3.0 GPA overall is required in all graduate-level coursework.
4. Students must successfully complete an MCJ capstone or thesis.
5. Students must fulfill all college and major requirements.
6. Students are eligible to receive the Bachelor of Criminal Justice degree once they have successfully completed 120 credit hours and all CU Denver undergraduate degree requirements.
7. Students must have a full acceptance to the Graduate School and the MCJ program.
8. Students must have a minimum of a 3.0 CU cumulative grade point average in undergraduate criminal justice courses.
9. The MCJ will be conferred once the student has completed all requirements of the Master of Criminal Justice degree.

ECONOMICS BA/MA

Introduction

Please [click here](#) to see Economics department information.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- College of Liberal Arts & Sciences Graduation Requirements
- [Click here](#) for information about Academic Policies

Program Requirements

1. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.

Course requirements

Undergraduate required courses (30 or 31 credit hours):

- ECON 2012 - Principles of Microeconomics
- ECON 2022 - Principles of Macroeconomics
- ECON 4071 - Intermediate Microeconomic Theory
- ECON 4081 - Intermediate Macroeconomic Theory
- ECON 4811 - Introduction to Econometrics

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 3382 - Statistical Theory (3 hours) **or** ECON 3811 - Statistics with Computer Applications (4 hours)

Undergraduate electives (9 credit hours):

Three undergraduate economics courses and at least 2 of them must be at 4000-level

Graduate courses (18 credit hours):

- ECON 5073 - Microeconomic Theory (3 credits)
- ECON 5083 - Macroeconomic Theory (3 credits)
- ECON 5813 - Econometrics I (3 credits)
- ECON 5823 - Econometrics II (3 credits)
- ECON 6053/6054 - Seminar In Applied Economics¹ (3 credits)
- ECON 6073 - Research Seminar (3 credits)

¹The "Seminar in Applied Economics" (ECON 6053, 6054) are 8-week 1.5 credit modules. After completing 3 credit hours of ECON 6053/6054 as part of the economics core, additional ECON 6053/6054 courses may be counted as electives

Graduate electives (9 credit hours):

Any course numbered 5000 or higher with an ECON prefix.

Total economics/mathematics credit hours = 66 or 67

Total credit hours for the combined degrees = 135

Note: the mathematics courses that students take also fulfill some of CU Denver (up to 8 hours) and CLAS (up to 4 hours) graduation requirements.

Dual credits

Students need to take only three electives at the undergraduate level; the three electives taken at the graduate level are double counted in fulfilling both BA and MA graduation requirements. ECON 5803 (Graduate Mathematical Economics) is waived or can be counted as one graduate-level elective. The total dual credits are 12 hours.

Additional graduation requirements

All other grade and GPA requirements towards the BA and MA degrees (e.g., a C- or better is needed in each undergraduate-level required course and a B- or better is needed in each graduate-level required course). Students are expected to meet all course prerequisites. Students will earn the BA degree in their fourth year upon completing all the requirements for the BA degree. Students are expected to be admitted to the Graduate School in their final two semesters prior to earning the MA degree.

Admission requirements

1. Meet all general admission requirements of the Graduate School
2. Be a current CU Denver Economics major with a GPA of 3.5 or better
3. The following courses must have been completed at CU Denver with a grade of B+ or better: MATH 2411, MATH 2421, ECON 4071, and ECON 4811

4. Students should apply in the semester when requirement 3 is satisfied (typically in the end of the fall semester of their junior year - as in the sample curriculum below)
5. Students who do not meet requirements 2 and 3 may apply, but must submit GRE scores and two letters of recommendation; otherwise both are waived
6. To apply, students should submit a regular application to the MA ECON program here: <https://application.admissions.ucdenver.edu/apply/>. Students who meet the admission requirements are not required to pay the application fee, submit GRE scores, letters of recommendation, or a personal statement. Students must contact the graduate advisor after their application is submitted to have this material waived (brian.duncan@ucdenver.edu)

ECONOMICS BA/MATHEMATICS BS DUAL DEGREE

Introduction

Please click [here](#) to see Economics department information or [here](#) for Mathematical and Statistical Sciences department information.

A solid training in the mathematical and statistical sciences is fundamental to optimally prepare economics students for graduate school. A dual degree in economics and mathematics will substantially increase program quality and career prospects for our students, as well as enhance the reputation of the economics program at CU Denver. Similarly, a solid training in quantitative and qualitative economic principles offers significant benefits to mathematics majors who seek industrial and/or consulting positions.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here to go to information about declaring a major.](#)

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- [College of Liberal Arts & Sciences Graduation Requirements](#)
- [Click here for information about Academic Policies](#)

Program Requirements

1. No pass/fail grades may count toward the dual degree.
2. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative GPA of 2.0 in ECON courses and a cumulative GPA of 2.25 in MATH courses. All graded attempts in required and elective courses are calculated in the major GPA. Students cannot complete major or ancillary course requirements as pass/fail.

Program Restrictions, Allowances and Recommendations

1. In addition to the CLAS residence requirements, the Economics Department requires that all courses other than Econ 2012 and Econ 2022 require written department approval to be transferred in as satisfying major requirements.
2. Additionally, the Department of Mathematical and Statistical Sciences requires that at least 15 upper-division Mathematics credits must be taken at CU Denver.

Take **all** of the following Economics courses:

- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- ECON 4071 - Intermediate Microeconomic Theory
- ECON 4081 - Intermediate Macroeconomic Theory
- ECON 4811 - Introduction to Econometrics

Take **all** of the following Mathematics courses:

- MATH 1401 - Calculus I
- MATH 2411 - Calculus II

- MATH 2421 - Calculus III
- MATH 3000 - Introduction to Abstract Mathematics
- MATH 3191 - Applied Linear Algebra
- MATH 3200 - Elementary Differential Equations
- MATH 3382 - Statistical Theory
- MATH 4310 - Introduction to Real Analysis I
- MATH 4779 - Math Clinic

Take **one** of the following programming requirements:

- MATH 1376 - Programming for Data Science
- CSCI 1410 - Fundamentals of Computing
- CSCI 1411 - Fundamentals of Computing Laboratory

Take **six** Economics elective courses or **five** Economics elective courses plus one Mathematics elective course:

- Any **six** three semester hour courses (**four** of them must be 4000-level) taken in Economics may satisfy this requirement, other than internships and independent studies (which require the approval of the department chair).
Note: ECON 3801 and ECON 3811 cannot be counted as electives. **And**
- One of the following Mathematics courses can be counted as one Economics elective (it may also be counted as one Mathematics elective):
- MATH 3301 - Introduction to Optimization in Operations Research
- MATH 3302 - Simulation in Operations Research
- MATH 4390 - Game Theory
- MATH 4650 - Numerical Analysis I
- MATH 4733 - Partial Differential Equations
- MATH 4810 - Probability
- MATH 5350 - Mathematical Theory of Interest

Take **four** Mathematics elective courses or **three** Mathematics elective course plus one Economics elective course:

- Students must choose **four** approved MATH electives (at least twelve semester hours) above 3000 level, excluding MATH 3195, 3511, 3800, 3999, and 4830. **And**
- One of the following Economics courses can be counted as one Mathematics elective (and can also be counted as **one** Economics elective):
- ECON 4030 - Data Analysis with SAS
- ECON 4110 - Money and Banking

- ECON 4150 - Economic Forecasting
- ECON 4320 - Financial Economics
- ECON 4430 - Economic Growth
- ECON 4550 - Game Theory and Economic Applications
- ECON 4610 - Labor Economics
- ECON 4740 - Industrial Organization

EDUCATION AND HUMAN DEVELOPMENT BAMA WITH MULTIPLE MA OPTIONS

Introduction

Please click [here](#) to see School of Education & Human Development information.

The EDHD BA to MA program (BAMA) in the School of Education and Human Development allows students to combine their BA in Education and Human Development with an MA suited to their needs. In this degree students can complete both the undergraduate degree and a master's degree in as little as five years.

This program is an uninterrupted enrollment plan that leads to both a bachelor's degree and a master's degree. A student follows a prescribed BA to MA program plan of study, from the EDHD BA and choosing from one of eight MA degree options: Culturally and Linguistically Diverse Education, Literacy Education, STEM Education, Learning, Design and Technology, Learning Developmental and Family Studies, Early Childhood Education, Special Education and Research and Evaluation Methods

Program Delivery

- This is an on-campus program with a variety of delivery options for many courses including face-to-face, hybrid, evening, and online courses.

Declaring This Degree

- Click [here](#) to go to information about declaring a major

General Requirements

To earn this degree, students must satisfy all requirements in the EDHD BA in addition to individual requirements for the chosen MA.

Program Requirements

1. Students must meet all of the requirements of the EDHD BA.
2. Up to nine credits of the EDHD BA will be taken at the master's level and apply to both the BA and the chosen MA.
3. Students will complete an additional 21 credits to finish the MA degree (the BAMA does not apply to added endorsements).
4. Students must select and apply to their chosen MA in their junior year during the professional year application period.
 - The process includes an essay, letters of recommendation and an interview.
 - A 3.0 GPA and good-standing in the program is required for admission.
5. Students interested in the BA to MA program should meet with an undergraduate academic advisor during their junior year. Students apply directly to CU Denver's School of Education & Human Development.
6. Students accepted into the BAMA must maintain a minimum 3.0 cumulative grade point average and receive a B- or better in all coursework.

Tuition and Fees

Graduate level tuition is *less* expensive than undergraduate tuition. Students are assessed tuition at the course level. Financial aid awards will cover graduate courses taken by undergraduate students. We offer a variety of scholarships and grants. For a complete list of financial aid opportunities visit www.ucdenver.edu/education/scholarships.

Degree Confirmation

Students are eligible to receive the BA in Education and Human Development degree once they have successfully completed 126 semester hours and all CU Denver undergraduate degree requirements. The MA will be conferred once the student has completed all requirements for the Master of Arts degree. Students have 7 years from the semester in which the first graduate-level course was taken complete the MA.

Eight Master's Degree Options:

Culturally and Linguistically Diverse Education

For those who are passionate about elevating the status of bilingualism and inclusivity in classrooms and championing the strengths and assets of children who speak and are learning multiple languages, this degree is the perfect option.

Early Childhood Education

This degree is for those who have a passion for working with young children, families and communities during the critically important stage of early childhood. The program prepares highly competent professionals who are leaders and advocates known for embracing the whole child in inclusive, culturally and linguistically diverse settings.

Learning Design & Technology

Students will complete fully online courses that address relevant, emerging learning technology topics such as active and experiential pedagogy, media and maker projects, integration of technology, blended and online learning, open educational resources, digital storytelling, creative instructional materials design, and technology adoption and leadership.

Learning, Developmental and Family Sciences

Through this program, you will be prepared to view culturally and linguistically diverse families from a strengths-based perspective and to serve them in a variety of contexts. Students will learn to facilitate the teaching/learning process and to lead and work in community-based environments.

Literacy Education

Literacy is often understood as a core competency and a gateway to all other learning. With this in mind, this degree provides educators with advanced knowledge and preparation to work with diverse student populations, K-12, as they develop reading, writing and oral language skills.

Research & Evaluation Methods

Our students come from a wide variety of backgrounds, but have the common thread of questioning status quo and striving to explore 'what works' in order to improve our educational system. This program is very practitioner-focused. There is a strong focus on improvement and evaluation of current practices, programs and policies.

Special Education

This degree prepares candidates for a holistic representation and understanding of the students from an academic and behavioral perspective. In the program, you will not only learn ways to accommodate, differentiate and assess materials for students, but you will also understand how to manage a caseload of students. From working with families to teachers to agencies, you will be able to develop skills in collaboration, consultation and transition. As a result, you will be an asset to your building and the families/students you serve.

STEM Education

When you decide to pursue this degree, you will learn practical and valuable knowledge and skills to help you engage your students in exciting STEM content. Our program focuses on understanding students' ideas, creating equitable STEM learning environments, assessing students' needs and providing high-quality instruction.

PUBLIC SERVICE/PUBLIC ADMINISTRATION, BA/MPA

Introduction

The Pathway Bachelor of Arts in Public Service/Master of Public Administration degree allows high-performing students to earn both degrees in an accelerated time frame, saving students both time and money. Students graduating with the Pathways BAPS/MPA degree are prepared for leadership and management roles in public service, including local, state, and federal governmental agencies and in nonprofit and nongovernmental organizations. Both the BAPS and the MPA degrees are offered fully online, providing students with the flexibility to schedule courses around the reality of family and work demands while also engaging both local and fully online students in public service opportunities in their own communities.

The BAPS/MPA degree program offered by the School of Public Affairs allows high-performing students to count 12 credit hours towards both the BAPS and the MPA degrees. Eligible students are those who have completed at least 75 credits with a minimum 3.5 GPA in the BAPS major and a 3.0 overall GPA, completed the undergraduate Core Curriculum, and who meet the other requirements listed below.

Students are eligible to receive the BA in Public Service degree once they have successfully completed 120 semester hours and all CU Denver undergraduate degree requirements. The MPA will be conferred once the student has completed all requirements of the Master of Public Administration degree.

BAPS/MPA Program Matriculation

Students must successfully complete a minimum of 3 semester credit hours of graduate public administration course work each semester following admission to the BAPS/MPA program. A maximum of 12 graduate semester credits can be completed as an undergraduate BAPS/MPA student

Students in the Pathways BA/MPA program may be eligible to complete the MPA level internship only after successfully passing two MPA level courses. The MPA level internship may fulfill both the BAPS and MPA internship requirement. The BAPS level internship will not fulfill the MPA level internship. Students must maintain a minimum 3.0 cumulative grade point average for all course work and a 3.5 grade point average for the BAPS major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements
- CU Denver Core Curriculum
- School of Public Affairs Graduation Requirements
- CU Denver's Undergraduate Academic Policies

Program Requirements

1. Students must complete a total of 141 credit hours
2. 37-38 credit hours in the general education core curriculum
3. 46-48 credit hours in general electives
4. 15 credit hours of undergraduate Public service coursework
5. 45 credit hours of upper-division coursework (3000-level and above)
 - I. Minimum of 30 of resident credit; 21 out of the last 30 hours in resident coursework
 - II. Minimum 36 semester hours of graduate-level coursework (5000-level and above)
6. Students must receive a minimum 3.0 cumulative GPA in undergraduate Public Service coursework
7. Students must be fully admitted into the Master of Public Administration program.
8. Students must receive a minimum of a B- grade in each required core MPA course
9. Students must maintain a 3.0 GPA overall in all graduate-level courses
10. Students must successfully complete the MPA capstone or thesis
11. Students must fulfill all college and major requirements
12. The School of Public Affairs reserves the right to rescind a BAPS/MPA student's admittance to the Pathway program if at any point the student's grade point average fall below the requirements listed above.

Licensure

SECONDARY EDUCATION LICENSURE - CLAS MAJOR PATHWAY

Introduction

Please click [here](#) to see School of Education & Human Development information.

The following secondary undergraduate teacher education pathway at CU Denver are a joint effort between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Through thesis pathways, students earn a bachelor's degree through CLAS and complete the requirements for teacher licensure through the SEHD.

The table below lists the CLAS bachelor's degrees and associated licensure areas available to CU Denver undergraduate students pursuing secondary education licensure

CLAS Bachelor's Degree	Colorado Teaching License
BA in English, Literature Option	English Language Arts (grades 7-12)
BA in History	Social Studies (grades 7-12)
BA in Political Science	Social Studies (grades 7-12)
BA in Spanish	World Languages - Spanish (grades K-12)
BA in French	World Languages - French (grades K-12)
BA in Individually Structured Major, General Science Option	Science (grades 7-12)
BA in Geography, Environmental Science Education Option	Science (grades 7-12)
BS in Biology	Science (grades 7-12)
BS in Mathematics	Mathematics (grades 7-12)

Please note: Admission into the final year of the SEHD teacher education program, called the Professional Year, is a separate process from admission to the university or admission to CLAS. See the SEHD website for application deadlines.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click [here](#) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- [CU Denver General Graduation Requirements](#)
- [CU Denver Core Curriculum](#)
- College of Liberal Arts & Sciences Graduation Requirements
- [School of Education and Human Development Graduation Requirements](#)

Click [here](#) for information about Academic Policies

Program Requirements

1. Students must complete all requirements for their CLAS major.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, CLAS, major, and elective requirements, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
5. A minimum grade of B- is required for all education licensure courses.
6. Transfer courses must be approved by faculty and/or advisor to apply to the education licensure courses.

Take **all** of the following education courses before beginning the Professional Year (a minimum grade of B- is required in each course):

- EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education
- CLDE 4020 - Responsive Classroom Communities
- EDHD 3930 - Diverse Learners Field Experience & Seminar
- SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms

Take **all** of the following Professional Year courses (a minimum grade of B- is required in each course):

- UEDU 4931 - Internship & Lrng Comm I
- UEDU 4932 - Internship & Lrng Comm II
- UEDU 4933 - Internship & Lrng Comm III
- LCRT 4100 - Secondary Literacy Instruction and Assessment
- UEDU 4040 - Planning for Learning
- **Two** Courses in Content Methods, depending on licensure area (see list below)
- **One** Course for Capstone, depending on licensure area (see list below)

Content Methods Courses by Licensure Area (two required during Professional Year):

English Language Arts:

- LCRT 4200 - Theory and Methods of Teaching Secondary English
- LCRT 4201 - Adolescent Literature

Social Studies:

- UEDU 4464 - Methods of Teaching Social Studies
- UEDU 4465 - Methods of Teaching History

World Languages (choose two courses):

- MLNG 4690 - Methods of Teaching Modern Languages
- CLDE 5030 - Language Development of Multilingual Learners: Advanced
- CLDE 5070 - Linguistic Analysis of English
- CLDE 5140 - Language, Culture & Educational Equity

Science:

- SCED 4400 - Theory and Pedagogy of Science Learning
- SCED 4401 - Inquiry Science Pedagogy and Practices

Mathematics:

- MTED 4300 - Curriculum and Methods for Teaching Mathematics
- MTED 4301 - Assessment and Equity in Mathematics Instruction

Capstone Courses by Licensure Area (one required during Professional Year):

English Language Arts:

- UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed

Social Studies:

- UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed

World Languages:

- UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed

Science:

- STME 4051 - STEM Capstone: Secondary Education

Mathematics:

- STME 4051 - STEM Capstone: Secondary Education

UNDERGRADUATE TEACHER LICENSURE

Undergraduate Teacher Education Program

Please click [here](#) to see School of Education & Human Development information.

There are MANY pathways that CU Denver undergraduates can take to become a licensed teacher in Colorado. The BA major in Education and Human Development (EDHD) is within the School of Education and Human Development (SEHD) and includes licensure in the following areas:

- Early Childhood Education
- Elementary Education
- Special Education Generalist (Ages 5-21)
- English Education (Grades 7-12)
- Mathematics (Grades 7-12)
- Middle School Math (Grades 6-8)
- General Science (Grades 7-12)
- Social Studies (Grades 7-12)

The following licensure areas are available through our T-Prep partnerships with Otero Junior College (OJC) and Trinidad State Junior College (TSJC).

- Elementary Education (OJC, TSJC)
- Early Childhood Education (TSJC)
- General Science (7-12) (OJC)
- Middle School Math (Grades 6-8) (OJC)

In the College of Liberal Arts and Sciences (CLAS) pathway, students major in CLAS and earn their secondary teaching license in the SEHD.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships that are a part of our Professional Development Schools. All of the teacher licensure pathways prepare educators who are culturally affirming and responsive, collaborate closely with families and communities, and have the knowledge and skills to create engaging, relevant, and rigorous classroom communities where all students can learn, achieve and grow.

High Standards and Ongoing Assessment

The coursework and the internship experiences within each program have been created to align with the Colorado Teacher Quality Standards, as well as frameworks for culturally and linguistically responsive instruction and Universal Design for Learning. Students in all programs engage in a common set of learning opportunities and internship assessments. They also engage in Program Level Assessments at different stages of the program. Colorado mandates that all teacher education programs be "performance-based" in order to recommend candidates completing the program for licensure; thus all candidates must demonstrate proficiency in both the university-based coursework and their internships. Students must also pass state content exams prior to their final semester in the program.

Community College Articulation

CU Denver honors the community college articulation agreement in elementary and early childhood education to transfer the 60 designated semester hours from the community college to anyone admitted to the teacher licensure program. Students should make sure they are following the appropriate articulation agreement and should work with their SEHD or CLAS advisor early and often to ensure that all courses are transferred properly.

SEHD and T-PREP Pathways:

The CU Denver bachelor's degree with a major in Education and Human Development is a four-year, 126-credit-hour, interdisciplinary program with multiple licensure tracks. It focuses on engaging Colorado's rapidly diversifying student and family population and combines cutting-edge research with real classroom experiences.

The program is offered in a hybrid format with both in-class and online coursework that support the needs of talented students from all backgrounds, including nontraditional and underrepresented students.

Programs of Study

Additional information about the licensure tracks can be found on the SEHD website.

Clinical Experiences in SEHD and T-PREP Pathways

Teacher candidates in the SEHD pathway work alongside community and P-12 partner educators from freshman to senior year. Students complete a community-based field experience block in their freshman year and school-based field experience blocks in years 2 and 3. Each block is carefully coordinated with 1-2 other teacher education courses and a bi-weekly seminar to provide a fully integrated learning experience between theory and practice. In their final, professional year they are placed in a full year internship within the CU Denver Professional Development School Network comprised of over 20 urban schools across numerous districts in the Denver metro region. Through these internships, teacher education students live the life of a teacher for an entire academic year while enrolled in the program. The internships begin gradually with two days a week early on and increase over time to five days per week by the end of the final semester of the program. University courses are closely integrated with the sequence of clinical internship experiences providing teacher candidates with multiple opportunities to engage in the authentic work of teachers. Teacher candidates co-teach closely with practicing teachers in the school and gradually assume full responsibility for teaching by the end of the program. The schools are located in several Denver metropolitan districts serving large populations of low-income and/or culturally and linguistically diverse students, as well as a sizeable number of students for whom English is a second language and students with special needs. Each school is supported by a team of university and school-based educators who collaboratively support the development of each candidate through weekly coaching feedback and the facilitation of collaborative learning community seminars on-site at the school to integrate theory and practice.

Professional Year Admissions

After successfully completing all other Core, CLAS, major, and elective requirements, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

Advising

Students in the SEHD have a dedicated team of staff and faculty committed to their success. This includes an academic advisor and teams of faculty who support the different licensure programs.

The SEHD accepts applications from incoming freshmen, current students at CU Denver, transfer students from community colleges or four-year institutions, individuals who are

working as paraprofessionals, assistant teachers or developmental intervention assistants in early childhood centers or elementary schools and people who are interested in working in community-based organizations serving diverse families.

Email education@ucdenver.edu for more information. We encourage students to take advantage of the scholarships and grants that are available in this major.

CLAS Major Pathway:

The secondary undergraduate teacher education route at CU Denver is a joint effort between the College of Liberal Arts and Sciences and the School of Education & Human Development. Through this pathway, students earn a bachelor's degree through the College of Liberal Arts and Sciences and a teaching license through the School of Education & Human Development.

Please note: The admission into the School of Education & Human Development teacher education program for CLAS majors is a separate process from admission to the university or CLAS majors. See the SEHD website for application deadlines.

CLAS Undergraduate Teacher Education Pathways

The table below lists the CLAS bachelor's degrees and associated licensure areas available to CU Denver undergraduate students pursuing secondary education licensure.

CLAS Bachelor's Degree	Colorado Teaching License
BA in English, Literature Option	English Education (grades 7-12)
BA in History	Social Studies (grades 7-12)
BA in Political Science	Social Studies (grades 7-12)
BA in Spanish	World Languages - Spanish (grades K-12)
BA in French	World Languages - French (grades K-12)
BA in Individually Structured Major, General Science Option	General Science (grades 7-12)
BA in Geography, Environmental Science Education Option	General Science (grades 7-12)
BS in Biology	General Science (grades 7-12)
BS in Mathematics	Mathematics (grades 7-12)

Program Structure

The School of Education & Human Development collaborates closely with faculty and administration in the College of Liberal Arts & Sciences to ensure rigorous content preparation

in areas of study aligned to the content knowledge necessary for licensed teachers. Students focus primarily on their major in CLAS during the first three years with the opportunity to engage in four early education courses and a semester-long internship in a partner school. If admitted to the final professional year of teacher education, students will then spend two semesters simultaneously enrolled in teacher education coursework specific to their licensure area and a sequence of year-long internships in one of the program's Professional Development Schools.

Clinical Experiences in CLAS Pathway

CLAS students engage in a full-semester early field experience block, spending one day a week in a metro area partner school in order to gain experience in a diverse classroom working with students with varying cultures, languages, and abilities. This field experience block also includes a coordinated teacher education course and a bi-weekly seminar. In their final, professional year students are placed in a full year internship within the CU Denver Professional Development School Network comprised of over 20 urban schools across numerous districts in the Denver metro region. Through these internships, teacher education students live the life of a teacher for an entire academic year while enrolled in the program. The internships begin gradually with two days a week early on and increase over time to five days per week by the end of the final semester of the program. University courses are closely integrated with the sequence of clinical internship experiences providing teacher candidates with multiple opportunities to engage in the authentic work of teachers. Teacher candidates co-teach closely with practicing teachers in the school and gradually assume full responsibility for teaching by the end of the program. The schools are located in several Denver metropolitan districts serving large populations of low-income and/or culturally and linguistically diverse students, as well as a sizeable number of students for whom English is a second language and students with special needs. Each school is supported by a team of university and school-based educators who collaboratively support the development of each candidate through weekly coaching feedback and the facilitation of collaborative learning community seminars on-site at the school to integrate theory and practice.

Professional Year Admissions

After successfully completing the first 3 years of the program, all students must apply for admission into the professional year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

Advising

Undergraduate teacher candidates from CLAS will have a team of individuals who work with them throughout the completion of their bachelor's degree and teacher licensure. The following are the members of the advising team:

College of Liberal Arts and Science (CLAS) Education Advisor

The CLAS advisor will assist you upon entry to the university through graduation. The CLAS advisor will monitor your progress through the core curriculum, pre-licensure curriculum, eligibility requirements for the licensure program and transfer credits.

Major/Faculty Advisor

A major/faculty advisor designated within the academic department works with undergraduate teacher education students pursuing secondary licensure regarding specific requirements within their academic major (i.e., English, history, mathematics, Spanish, French, and political science). See the CLAS advisor for specific names and contact information.

School of Education and Human Development (SEHD) Advisor

During the Professional Year, all CLAS teacher candidates will be supported by an SEHD advisor to ensure licensure completion (Lawrence St. Center Bldg., 701; 303-315-6300). The Advisor in SEHD is also available early on to help with questions about program completion, taking the state content exams and other general questions.

CLAS Pathway Undergraduate Academic Planning Sheets

Developed in collaboration with the academic departments and SEHD teacher education program faculty, advisors will work with the teacher candidates on an academic planning sheet. There is little flexibility in the program course requirements as these requirements meet and exceed the Colorado Department of Education's teacher education professional and content standards.

Programs of Study

Due to the complex nature of state mandated influences on teacher preparation courses and consistently evaluating this program for students, please refer to the most current version of the teacher education program handbook for academic requirements for this program.

Undergraduate Certificate Programs

AMERICAN INDIAN STUDIES CERTIFICATE

Introduction

Please click [here](#) to see Ethnic Studies department information.

A 12-credit online program with opportunities in American Indian related internships.

This certificate is designed to appeal to undergraduate students with a background in any major. The certificate is also targeted to nondegree-seeking professionals. Courses will examine

historical and contemporary tribal experiences. Students will be encouraged to think critically about the stereotypes of American Indians and tribal governments. A certificate in American Indian Studies offers students an enduring intellectual base to understand both the foundations of America and diversity among tribes with different languages, histories, and cultures. The courses provide students the opportunity to encounter theories posited by a rich history of American Indian intellectuals.

Program Delivery

- This is an on-online program.

General Requirements

- [Click here for information about Academic Policies](#)

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from the approved courses below.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours taken from the approved courses.
3. Students must earn a minimum grade of B- (2.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours applying to the certificate with CU Denver faculty.

The Curriculum and Coursework

Required Courses:

- ETST 3036 - American Indian Cultural Images - offered online fall and spring semesters
- ETST 3110 - Indigenous Studies - offered online fall, spring and summer semesters
- ETST /HIST 3396 - History of the American Indian - offered online spring and summer semesters
- ETST 3939 - Internship - offered every semester, contact faculty advisor for placement in the community

Additional information about the undergraduate certificate in American Indian Studies may be obtained from ethnic studies Plaza Building, Suite 102
Phone: 303.315.7207 <https://clas.ucdenver.edu/ethnicstudies/certificates>
Faculty Advisor: Professor Donna Martinez donna.martinez@ucdenver.edu

APPLIED STATISTICS UNDERGRADUATE CERTIFICATE

Coordinator: Joshua French Ph.D.

Telephone: 303-315-1709

E-mail: Joshua.French@ucdenver.edu

Web site: <https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-certificate-applied-statistics>

Introduction

Please click [here](#) to see Mathematical and Statistical Sciences department information.

There is a growing need for qualified statistical analysts of the ever-increasing amounts of data collected in business, industry, and government. The Certificate in Applied Statistics program is designed to give students a strong background in statistical methodology and data analysis in preparation for opportunities in the workforce or for graduate studies.

Students will gain competence in such topics as descriptive statistics, estimation, confidence intervals, probability and inferential techniques, simple and multiple regression, analysis of variance, and more advanced topics. Students can focus on a particular application area such as economics, psychology, sociology, geology or environmental science through the choice of an elective course and the data analysis project.

Programs are offered at the undergraduate and graduate level.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

This is an on-campus program.

Declaring This Certificate

- Admission requirements: Completion of calculus 1, 2 and 3 as well as linear algebra, each at a B- or above. Students enrolled in the certificate program will be expected to utilize concepts from calculus and linear algebra without the use of technology, e.g., evaluation of limits, derivatives and integrals.
- The certificate can be declared by contacting the Director of Statistical Programs.

General Requirements

- [Click here](#) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 13 credits hours.
2. All credits for the certificate must be taken at the upper division level (3000-level and above).
3. Students must earn a minimum grade of B-(2.7) in all major courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Since a certificate is a University of Colorado Denver certification of a student's specialized knowledge in an advanced subject area, all courses in the certificate program are expected to be taken in residency at the University of Colorado Denver.

Program Restrictions, Allowances and Recommendations

1. Students must be enrolled in one course per year to maintain their status in the certificate program.
2. Certificates must be completed within 3 years from matriculation.

Complete four courses and a 1 hour independent study are required as detailed below.

Take one fundamental course in probability:

- MATH 3800 - Probability and Statistics for Engineers
- MATH 4810 - Probability (recommended)

Take the following fundamental course in mathematical statistics:

- MATH 3382 - Statistical Theory

Take the following advanced applications course:

- MATH 4387 - Applied Regression Analysis

Take one elective:

- Any statistics course in the Department of Mathematical and Statistical Sciences at the 4000 level or higher (must be pre-approved by the Certificate Coordinator). MATH 4830 cannot apply toward the certificate.
- ECON 4030 - Data Analysis with SAS
- ECON 4150 - Economic Forecasting
- ECON 4811 - Introduction to Econometrics
- GEOG 4770 - Applied Statistics for the Natural Sciences

Project requirement

An independent data analysis project is required with a report and presentation to demonstrate proficiency with data analysis techniques and a statistical computing software package. Enroll for one hour of MATH 4840, Independent Study, or in an equivalent course pre-approved by the Certificate Coordinator.

BIOCHEMISTRY CERTIFICATE

Introduction

Please click [here](#) to see Chemistry department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with the Chemistry advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Students should meet with the Biochemistry major advisor Dr. Vanessa Fishback to file a certificate plan prior to the semester of graduation. The certificate is

available to degree-seeking undergraduates, non-degree seeking students and students pursuing a chemistry minor.

General Requirements

- [Click here for information about Academic Policies](#)

Certificate Requirements

1. Students must complete a minimum of 15 credit hours chosen from the approved courses.
2. Students must complete a minimum of 6 upper-division (3000-level and above) credit hours chosen from the approved courses below.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.7. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours from the approved courses with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. All courses must be taken within ten years of receipt of the Biochemistry Certificate.
2. Prerequisite courses do not have to be completed at CU Denver. Required courses including electives must be completed in residency at CU Denver. Any residency exemptions need to be approved in writing by the Biochemistry advisor prior to the course(s) being taken at another institution.

Take the following prerequisite courses:

- CHEM 2031 - General Chemistry I **or**
- CHEM 2081 - Honors General Chemistry I

- CHEM 2038 - General Chemistry Laboratory I **or**
- CHEM 2088 - Honors General Chemistry I Laboratory

- CHEM 2061 - General Chemistry II **or**

- CHEM 2091 - Honors General Chemistry II Lecture

- CHEM 2068 - General Chemistry Laboratory II **or**
- CHEM 2098 - Honors General Chemistry II Laboratory

- BIOL 2051 - General Biology I **or**
- BIOL 2095 - Honors General Biology I

- BIOL 2061 - General Biology II **or**
- BIOL 2097 - Honors General Biology II

- BIOL 2071 - General Biology Laboratory I **or**
- BIOL 2096 - Honors General Biology Lab I

- BIOL 2081 - General Biology Laboratory II **or**
- BIOL 2098 - Honors General Biology Lab II

- CHEM 3411 - Organic Chemistry I **or**
- CHEM 3481 - Honors Organic Chemistry I

- CHEM 3418 - Organic Chemistry Lab I **or**
- CHEM 3488 - Honors Organic Chemistry Laboratory I

- CHEM 3421 - Organic Chemistry II **or**
- CHEM 3491 - Honors Organic Chemistry II

- CHEM 3428 - Organic Chemistry Lab II **or**
- CHEM 3498 - Honors Organic Chemistry Laboratory II

Take **one** of the following Biochemistry courses:

- CHEM 3810 - Biochemistry
- CHEM 4810 - General Biochemistry I
- CHEM 5810 - Graduate Biochemistry I

Take **one** of the following Biochemistry courses:

- CHEM 4815 - Structural Biology of Neurodegenerative Diseases
- CHEM 4820 - General Biochemistry II
- CHEM 4825 - Biochemistry of Metabolic Disease
- CHEM 4835 - Biochemistry of Gene Regulation and Cancer
- CHEM 4845 - Molecular Modeling and Drug Design
- CHEM 5830 - Graduate Biochemistry II

Take the following course:

- BIOL 3611 - General Cell Biology

Take **two** of the following Electives courses not already chosen from the Biochemistry list:

- CHEM 3011 - Inorganic Chemistry
- CHEM 3111 - Analytical Chemistry
- CHEM 4121 - Instrumental Analysis
- CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics
- CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy
- CHEM 4815 - Structural Biology of Neurodegenerative Diseases
- CHEM 4820 - General Biochemistry II
- CHEM 4825 - Biochemistry of Metabolic Disease
- CHEM 4828 - Biochemistry Lab
- CHEM 4835 - Biochemistry of Gene Regulation and Cancer
- CHEM 4845 - Molecular Modeling and Drug Design
- CHEM 5830 - Graduate Biochemistry II
- BIOL 3124 - Introduction to Molecular Biology
- BIOL 3832 - General Genetics
- BIOL 4125 - Molecular Biology Laboratory
- BIOL 3225 - Human Physiology
- BIOL 3763 - Biostatistics
- BIOL 3804 - Developmental Biology
- BIOL 4024 - Introduction to Biotechnology
- BIOL 4064 - Cell Biology of Disease
- BIOL 4165 - Neurobiology
- BIOL 4144 - Medical Microbiology
- BIOL 4068/ BIOL 5068 - The Cell Cycle
- BIOL 4126 - Molecular Genetics

- BIOL 4550 - Cell Signaling

- PHYS 3151 - Biophysics Outlook I **and**
- PHYS 3161 - Biophysics Outlook II

(these two 1-credit courses together fulfill one elective requirement)

- PHYS 3452 - Biophysics of the Cell NM
- PSYC 3832 - Neural Basis of Learning

BIOTECHNOLOGY CERTIFICATE

Introduction

Please click [here](#) to see Integrative Biology department information.

Biotechnology is a rapidly growing field in Colorado and nationally that encompasses many disciplines. Agriculture, biofuels, biomedical biotechnology, pharmaceuticals, microbiology, and medical device development are all well-represented areas of biotechnology in Colorado. The Department of Integrative Biology offers a Certificate program in Biotechnology that allows students to acquire foundational knowledge and specialized skills relevant to these research areas. The certificate is designed to provide a strong background in biochemistry and molecular biology, with an emphasis on applied training via lab work and research experiences. Upon completion of the requirements, students obtain recognition in the form of a Certificate and official designation on their transcript.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

Students may earn the certificate while working on their Bachelors Degree; or, the courses may be taken through non-degree admission. All admissions questions should be directed to the

Registrar's office (303-556-2389). All questions regarding tuition and fees should be directed to the Bursar's office (303-556-2710).

Prerequisites:

Individual courses used to earn the Biotechnology Certificate carry prerequisites that must be met before enrolling.

Students interested in completing the Biotechnology certificate should contact the Department of Integrative Biology. A certificate will be issued and noted on your transcript upon proof of satisfactory completion of the course work. You must contact the Biotechnology Certificate faculty advisor no later than the start of the semester of graduation in order for the certificate recognition to appear on your transcripts.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 18 credits from approved courses.
2. Students must complete a minimum of 18 upper division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. All courses used to satisfy the requirements for the Certificate must be completed at CU Denver.

Program Restrictions, Allowances and Recommendations

1. Individual courses used to earn the Biotechnology Certificate carry prerequisites that must be met before enrolling.
2. All courses used to satisfy the requirements for the Certificate must be completed within a five-year period.

Take **all** of the following courses:

- BIOL 4024 - Introduction to Biotechnology
- BIOL 3124 - Introduction to Molecular Biology

- BIOL 4125 - Molecular Biology Laboratory
- CHEM 4820 - General Biochemistry II **or**
- CHEM 3810 - Biochemistry
- BIOL 3939 - Internship **or**
- BIOL 4880 - Directed Research

Take **one** elective from among those listed below, or a course pre-approved by Biotechnology Certificate faculty advisor:

- BIOL 3612 - Cell Biology Laboratory
- BIOL 3763 - Biostatistics
- BIOL 4055 - Virology
- BIOL 4126 - Molecular Genetics
- BIOL 4144 - Medical Microbiology
- BIOL 4225 - Genomics and Bioinformatics
- BIOL 4622 - Topics in Immunology
- BIOL 4634 - Biology of Cancer
- BIOL 4064 - Cell Biology of Disease
- CHEM 3111 - Analytical Chemistry
- CHEM 4121 - Instrumental Analysis
- CHEM 4828 - Biochemistry Lab
- CHEM 4835 - Biochemistry of Gene Regulation and Cancer

You must contact the Biotechnology Certificate faculty advisor (Dr. Chris Miller) no later than the start of the semester of graduation in order for the certificate recognition to appear on your transcripts.

COMMODITIES CERTIFICATE

Introduction

The Business Schools undergraduate certificates are primarily intended for students currently pursuing a degree in any undergraduate discipline that want to expand their business knowledge to give themselves a leg up when they enter the work force. However, they can also be taken by students with only a high school diploma.

Students can pursue one of our undergraduate certificates, even if they are not CU Denver students. Credit earned as a part of the certificate DOES count towards your undergraduate degree, should you choose to pursue a degree here.

The Business School awards a Certificate (of completion) in Commodities to students completing three finance and commodities courses. Students completing the certificate will have an improved understanding of the complex commodities market. Topics covered include regulation, trading, fundamentals, investing, risk management and ethics on commodity markets. Please contact the Commodities Center for more information.

Program Delivery

This is an on-campus program.

Declaring This Certificate

Please contact the Commodities Center for more information.

CRIMINOLOGY CERTIFICATE

Introduction

Please click [here](#) to see Sociology department information.

Crime and society's responses to it represent core concerns for social scientists, policy makers, civic leaders, community organizations, and citizens across the globe. Criminology is the field of study dedicated to understanding crime as a social phenomenon. Criminologists study the social construction of laws, nature and causes of crime, reactions to the breaking of laws, and the prevention, control and treatment of crime. The Department of Sociology's Criminology Certificate offers an essential foundation for students pursuing careers in criminal justice, victim and community services, criminal law, and non-profit organizations in local and international contexts. The certificate also prepares interested students for law school and graduate programs in sociology and criminology. Students may ultimately use this training to conduct social research on crime, influence public policy, and inform government decisions about crime and law.

Upon successful completion of the certificate, students will:

- Understand the theoretical explanations for the social and behavioral causes of crime and crime reduction
- Possess a fundamental understanding of the criminal-legal and political institutions responsible for crime control and policy
- Be familiar with current trends in criminological thought, research, and activism

- Be able to apply the technical skills of their methodological training to conduct crime analyses and outcomes assessments for programs aimed at crime prevention
- Engage in original research projects involving criminological topics

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Eligibility: While housed in Sociology, criminology is in fact a multidisciplinary field that draws from diverse liberal arts fields, including Psychology, Political Science, Communications, History, Philosophy, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. The certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.
- Application procedures: Students are encouraged to apply for the Criminology Certificate at any point in their undergraduate studies. To apply, students should print and attach a completed Criminology Certificate Application to an unofficial transcript. These documents should be submitted to the Criminology Certificate Administrator. Once the application is approved, students will be contacted about their acceptance into the program.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses below.
2. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
3. Students must complete all credits applied to the certificate at CU Denver chosen from the approved courses below. (If students have completed a course required

for the certificate elsewhere, they may add the needed credits in the form of additional elective credits drawn from the approved elective courses.)

4. The certificate will be awarded when the student graduates with the bachelor's degree.

Take the following **required** course:

- SOCY 3490 - Criminology

Take **two** of the following courses:

- SOCY 3115 - Quantitative Methods & Analysis **and**
- SOCY 3119 - Qualitative Methods

OR

2 approved methods courses in the student's major discipline, one on quantitative methods and one on qualitative methods (e.g. PSYC 2090, PSYC 3090, PSCI 3011, PHIL 3440, PHIL 2441, ECON 3801, ECON 3811, GEOG 2080, GEOG 4080). Questions about eligible methods course substitutions should be directed to the criminology certificate administrator.

Take **two** of the following approved elective courses:

- SOCY 2440 - Deviance and Social Control
- SOCY 3040 - Drugs, Alcohol & Society
- SOCY 4340 - Juvenile Delinquency
- SOCY 4460 - Hate Groups and Group Violence
- SOCY 4700 - Sociology of Law
- SOCY 4780 - Violence in Relationships
- ANTH 4090 - Drug Syndemic
- COMM 4040 - Communication, Prisons, and Social Justice [Prerequisite: COMM 2020, or instructor consent]
- COMM 4680 - Mass Media Law And Policy
- ECON 3400 - Economics of Sex and Drugs [Prerequisite: ECON 2022]
- ETST 3704 - Culture, Racism and Alienation
- HIST 3231 - Famous U.S. Trials
- HIST 4308 - Crime, Policing, and Justice in American History
- PHIL 3280 - War and Morality
- PHIL 4260 - Philosophy of Law
- PHIL 4812 - Special Topics in Philosophy
- PSCI 3034 - Race, Gender, Law and Public Policy

- PSCI 4185 - Corruption in the U.S. and Abroad [Prerequisite: PSCI 1001 or 3022]
- PSCI 4427 - Law, Politics and Justice
- PSCI 4807 - Political Violence
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3612 - Domestic Abuse

CULTURAL DIVERSITY STUDIES UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Ethnic Studies department information.

The undergraduate certificate in cultural diversity studies is designed to appeal to undergraduate students with a background in any major. It will allow students to demonstrate to potential employers that they possess the multicultural skills and knowledge necessary to succeed in the workplace. Students will enroll in department courses that focus on the historical context in which race and culture have emerged in the United States.

This certificate is also targeted to non-degree-seeking professionals who seek to acquire multicultural knowledge and the skills necessary to ensure their success in professional environments. Students will be encouraged to think critically about race and race relations. Their expanded understandings of the implications of race and culture in work environments will ensure employers that they offer the highest quality employees opportunities in employment or advancement.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Additional information about the undergraduate certificate in cultural diversity studies may be obtained from ethnic studies department at 303-556-6560 or email: ethnic_studies@ucdenver.edu

Program Delivery

- This is an on-campus program and all courses are available online.

Declaring This Certificate

- Please see your advisor.

General Requirements

- [Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 12 ETST credit hours.
2. Students must complete a minimum of 6 ETST upper division (3000- level and above) credit hours.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all ETST credit hours with CU Denver faculty.

Take the following **required** Cultural Diversity Studies course:

- ETST 2000 - Introduction to Ethnic Studies

Choose **three** Elective courses from any Ethnic Studies Department courses, including the following:

- ETST 2155 - African American History
- ETST 2294 - Race and the Media
- ETST 3254 - Race and Ethnicity in the Inner City
- ETST 3297 - Social History of Asian Americans
- ETST 3396 - History of the American Indian
- ETST 3704 - Culture, Racism and Alienation
- ETST 4558 - Chicano and Latino Politics

There are cross-listed courses in a variety of departments, including history, political science and sociology. Any cross-listed course is acceptable, but the student should register for it under the ETST subject code. A complete listing of department offerings and cross-listed courses can be obtained every semester from the Ethnic Studies Department web page or by calling our office for a copy.

CYBERSECURITY AND SECURE COMPUTING UNDERGRADUATE CERTIFICATE

Undergraduate Certificate in Cybersecurity and Secure Computing

The goal of the undergraduate certificate of Cybersecurity & Secure Computing program is to reduce vulnerability in the national information infrastructure by promoting higher education and research to help prepare cyber defense professionals for careers in both the public and the private sector. The curriculum of this certificate has been created to meet all criteria of NICE (National Initiative for Cybersecurity Education) undergraduate level of certification.

Certificate Objectives

This certificate program focuses on both the technical and analytical aspects of advanced cybersecurity and defense.

Program Objectives:

- Master the fundamental concepts of cybersecurity principles and techniques.
- Learn about potentials for cybersecurity threats and attacks.
- Master cyber-defense tools, methods, and components to secure systems.
- Learn how to take appropriate measures should a system compromise occur.
- Learn principles and practices for secure computing

Learning Outcomes:

- Be able to describe and apply the fundamental concepts of cybersecurity principles and techniques.
- Be able to analyze potential cyber threats and attacks.
- Be able to use cyber defense tools, methods, and components to properly secure systems.
- Be able to effectively and quickly evaluate and mitigate if systems are threatened or compromised.

Certificate Eligibility

Current students in good standing in an undergraduate computer science program (BA or BS), and those completing a minor in computer science are eligible. Applications from other majors

at CU Denver or non-degree students will be evaluated based on their current transcript. The student's application is subject to the approval of the computer science and engineering department chair.

Students planning to pursue a Cybersecurity & Secure Computing Certificate in Computer Science and Engineering should apply as early as possible to facilitate course planning, and no later than census date of the semester prior to graduation with their undergraduate degree.

Process to Attain Certificate Objectives

The following classes need to be taken with a grade of C- or better:

- CSCI 3761 - Introduction to Computer Networks
- CSCI 3453 - Operating System Concepts
- CSCI 4034 - Theoretical Foundations of Computer Science
- CSCI 4741 - Principles of Cybersecurity
- CSCI 4743 - Cyber and Infrastructure Defense

Students must take and pass each course with a grade of C- or better. The Cybersecurity & Secure Computing Certificate requires a minimum cumulative GPA of 2.0.

DATA SCIENCE UNDERGRADUATE CERTIFICATE

Introduction

Coordinator: Adam Spiegler Ph.D.

Telephone: 303-315-1700

E-mail: math.advising@ucdenver.edu

Data scientists will have essential competencies in several areas related to analysis of data. In particular, a data scientist should: have strong programming ability in a language popular in data science (e.g., Python, R, Julia); be able to extract, manipulate, and visualize data; have an understanding of probability and statistics in order to quantify uncertainty; be able to build complex models for finding patterns and explaining data. This certificate should provide students with essential skills for introductory data science.

Program Delivery

This is an on-campus program.

Declaring This Certificate

See the program advisor for an application form.

General Requirements

[Click here](#) for information about Academic Policies.

Program Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete a minimum of 6 upper division (3000-level and above) credit hours.
3. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.25. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete a minimum of 9 upper division level credit hours with CU Denver faculty.

Four courses are required as detailed below.

One Programming Course

In order to ensure adequate programming skills for data science, students should take a course that develops strong programming skills in a programming language popular in data science (e.g., Python, R, Julia). The list of currently approved courses includes:

- MATH 1376 - Programming for Data Science
- MATH 4650 - Numerical Analysis I
- ISMG 4400 - Programming Fundamentals with Python

One Probability or Statistics Course

In order to ensure that students can accurately quantify the likelihood of various outcomes and quantify uncertainty related to estimation and prediction, students should take a course that covers basic probability and statistics. The list of currently approved courses includes:

- MATH 2830 - Introductory Statistics (or equivalent coursework with Undergraduate Committee approval)
- MATH 3382 - Statistical Theory
- MATH 3800 - Probability and Statistics for Engineers

One Data Manipulation and Visualization Course

In order to ensure that students are able to comfortably work with and visualize data, students should take a course developing skills related to obtaining, manipulating, and visualizing data. The currently approved course is:

- MATH 3376 - Data Wrangling & Visualization

One Data Modelling Course

In order to ensure that students are able to build reasonably complex models for explaining or identifying patterns in data, students should take a course that largely focuses on describing the behavior of data (whether synthetic or observed) via tools like simulation, direct model building, association, or a complementary approach. The list of currently approved courses includes:

- MATH 3301 - Introduction to Optimization in Operations Research
- MATH 4387 - Applied Regression Analysis
- MATH 4830 - Applied Statistics

DIGITAL STUDIES CERTIFICATE

Introduction

From social media and mobile phones to the algorithms in self-driving cars, digital and information technologies are everywhere. The Digital Studies Certificate provides students with the opportunity to investigate the relationships between new communication technologies and society and to develop skills creating digital media messages and products.

Social sciences and humanities majors can use this certificate to develop and demonstrate their technical skills, while science and engineering students can use it to build expertise in understanding the social and cultural aspects of new technologies. Students from any CU Denver school or college who earn the Digital Studies Certificate will be able to demonstrate to a wide range of potential employers or graduate schools that they have both technical skills and the ability to critically analyze new media. Students who successfully complete the Digital Studies Certificate will be able to:

- Describe and analyze the relationships between digital media and their cultural, social, political, and ethical contexts
- Use digital media to communicate messages to a variety of audiences
- Use digital media to solve problems in a range of disciplines and situations
- Use digital media and related analytical skills as career-building tools

Program Delivery

- This is a hybrid program, with courses on-campus and online.

Declaring This Certificate

- Eligibility: CU Denver students in any discipline can enroll in the program at any point in their undergraduate studies.
- CLAS's Interdisciplinary Studies program sponsors the certificate, and the CLAS Director of Digital Initiatives will provide advising and administrative management.
- Application Procedures: Students are encouraged to apply for the Digital Studies Certificate at any point in their undergraduate studies. To apply, students should print and complete a Digital Studies Certificate Application and submit it to the CLAS Director of Digital Initiatives.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 12 credits of required courses chosen from the approved courses in each cluster: 1 course (3 credits) from each of the 3 clusters (for a total of 9 credits), plus the remaining 3 credits from any one of the three clusters.
2. Students must complete a minimum of 6 approved credits at the upper-division level taken from the approved courses below. (See below for courses in the three clusters.)
3. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credits applied to the certificate at CU Denver chosen from the approved courses below.

Program Restriction, Allowances and Recommendations

1. The certificate will be awarded when a student graduates with the bachelor's degree.
2. Co-curricular requirement: Students must attend at least 3 Career Center sessions, which can include events, workshops, or 1-on-1 appointments.

Digital Studies Certificate Course Clusters

- **Theory and Analysis:** Courses in this cluster focus on theorizing, explaining, and describing the relationships between digital, media, and communication technologies and society. They enable students to critically assess and analyze digital media and information, such as understanding the biases in seemingly neutral Google search results or examining how people use Twitter to build social movements
- **Digital Media Production:** Courses in this cluster focus on developing hands-on skills in the use of digital, media, and communication technologies. They provide opportunities for students to develop their skills with a variety of digital tools, such as digital photography, mapping, and social media management.
- **Integration:** Courses in this cluster bring together both understanding and using digital, media, and communication technologies.

Other courses may apply to each cluster with the approval of the Director of Digital Initiatives certificate advisor.

Theory and Analysis Cluster

- ANTH 2400 - Exploring Culture through Social Media
- BUSN 6610 & ISMG 6180 - Information Systems Management and Strategy
- COMM 2030 - Digital Democracy
- COMM 3650 - Media and Society
- COMM 4760 / 5760 - New Media and Society
- ENTP 6022 - Digital Strategy for Entrepreneurs
- GEOG 2080 - Introduction to Mapping and Map Analysis
- ISMG 2050 - Introduction to Business Problem Solving
- ISMG 3000 - Technology In Business
- MUSC 3700 - Music and Entertainment Business in the Digital Age
- PHIL 4920 /5920 - Philosophy of Media and Technology
- INTE 5320 - Games and Learning

Digital Media Production Cluster

- COMM 2071 - Media Writing Skills
- COMM 2081 - New Media Production and Management
- ENGL 3084 - Multimedia Composition
- FINE 1810 - PREDAC: 3D Foundations

- FINE 1820 - PREDAC: Animation Foundations
- FINE 2155 - Introduction to Digital Photography
- FINE 2405 - Introduction to Digital Design
- GEOG 4080 /5080 - Introduction to GIS
- GEOG 4081 /5081 - Cartography and Computer Mapping
- INTE 5340 - Learning with Digital Stories
- INTE 5680 - Producing Media for Learning
- IWKS 2300 /5350 - Computational Foundations of Innovation
- IWKS 3100 /5170 - 3D Design, Computation and Prototyping

Integration Cluster

- COMM 2051 - Introduction to Strategic Communication
- COMM 3660 - Social Media for Social Change
- COMM 4558 /5558 - Digital Health Narratives
- ENGL 4190 - Advanced Topics in Writing & Digital Studies
- ENGL 5165 - Literacy and Technology
- HIST 3260 /5260 - Digital Studies and Strategies
- INTE 5665 - Learning with Social Media and Networking
- INTE 5711 - Creative Designs for Instructional Materials
- IWKS 2100 - Human-Centered Design, Innovation and Prototyping
- IWKS 3180 /5180 - Choose Your Own Adventure
- IWKS 3200 /5200 - Data Science for Innovators
- IWKS 3700 /5700 - Innovation and Society
- PUAD 4003 - Effective Communication for Public Service

ENTREPRENEURSHIP CERTIFICATE

Introduction

The Business Schools undergraduate certificates are primarily intended for students currently pursuing a degree in any undergraduate discipline that want to expand their business knowledge to give themselves a leg up when they enter the workforce. However, they can also be taken by students with only a high school diploma.

Students can pursue one of our undergraduate certificates, even if they are not CU Denver students. Credit earned as a part of the certificate DOES count towards your undergraduate degree, should you choose to pursue a degree here.

The Jake Jobs Center for Entrepreneurship is offering an affordable program in one of the fastest growing business segments in the country-Innovation and Entrepreneurship. All courses are taught by faculty from the Jake Jobs Center for Entrepreneurship at CU Denver. You will find many opportunities including scholarships, mentoring, and networking. You will gain skills that prepare you to start a successful business or become an entrepreneurial asset to an existing company.

Benefits:

- Experiential opportunities
- Cost effective - Scholarships available
- No GPA requirements or prerequisites

Program Delivery

This is an on-campus program.

Declaring This Certificate

For more details about courses and registration, visit the Launchpad Certificate page.

Certificate Requirements

Take **all** of the following required courses:

- ENTP 3299 - Business Model Development & Planning
- ENTP 3200 - Essentials in Entrepreneurship
- ENTP 3230 - Small Business Accounting and Finance

ENVIRONMENTAL STEWARDSHIP OF INDIGENOUS LANDS UNDERGRADUATE CERTIFICATE

Introduction

The Environmental Stewardship of Indigenous Lands (ESIL) certificate is an exciting educational opportunity at the University of Colorado Denver (CU Denver), where Indigenous comprises the terms Native American, American Indian, Alaskan Native, and Hawaiian Native. The ESIL certificate provides a unique training opportunity for students to combine a passion for protecting natural resources with a desire to communicate across diverse cultures and schools of thought. This unique program provides training, internships, and job placement for students interested in environmental issues involving tribal and non-tribal entities.

The certificate is available to current CU Denver undergraduate students, post-baccalaureate students, and transfer students. While the certificate is open to students from all educational backgrounds, ESIL targets students majoring in science, technology, engineering, and mathematics (STEM).

Additionally, the ESIL certificate incorporates professional training through extracurricular activities and internships. The extracurricular activities provide students with culturally-relevant training in topics such as tribal sovereignty, environmental law, transcultural competency, and traditional ecological knowledge (TEK). Both the STEM curriculum and these professional skills are applied during internships in which students practice facilitation as tribal liaisons with partner organizations including Indigenous tribes and government agencies (State and Federal).

These degree requirements are subject to periodic revision by the ESIL certificate advisors. Exceptions and substitutions for individual cases will be made by ESIL advisors only. Students in the ESIL program are required to meet with their assigned advisor before the start of each semester to confirm best plans of study.

The ESIL program is offered at the undergraduate level.

ESIL Academic Advisors

- Dr. David Mays (David.Mays@ucdenver.edu) in the Department of Civil Engineering
- Dr. Rafael Moreno-Sanchez (Rafael.Moreno@ucdenver.edu) in the Department of Geography and Environmental Sciences
- Dr. Timberley Roane (Timberley.Roane@ucdenver.edu) in the Department of Integrative Biology

Program Delivery

This is an on-campus program, with an off-campus internship requirement.

Declaring This Certificate

Admission requirements: Students must officially enroll in the ESIL certificate program following the link at <https://clas.ucdenver.edu/esil/>.

Upon enrollment in the ESIL certificate program, students participate in the ESIL certificate program, complete at least one ESIL internship, and take the ESIL coursework described below. All students are also required to complete any required course prerequisites.

Eligibility: Students in any discipline can enroll in the certificate as long as the certificate course prerequisites have been met.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 32 credit hours of approved courses.
2. Students must complete a minimum of six upper division level (3000-level and above) credits from approved courses.
3. Students must earn a minimum grade of C-(1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate course requirements as pass/fail.
4. Students must complete a minimum of 12 credit hours of approved course with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. For the certificate recognition to appear on the student's transcript, students must meet with an ESIL advisor no later than the start of the semester of graduation.
2. Students must be enrolled in one course per year to maintain active status in the certificate program.
3. Participation is required in ESIL workshops and seminars.
4. ESIL internships are designed to expose students to the professional practice of facilitation and offer important connections and networking opportunities directly with agencies who hire tribal liaisons. Assignment and completion of the internship must be pre-approved by an ESIL advisor. The ESIL certificate requires a written report and presentation to demonstrate proficiency for each internship. The ESIL certificate requires at least one internship through the ESIL program. Biology students may earn academic credit for their internship through BIOL 3939. Geography and Environmental Sciences students may earn academic credit for their internship through GEOG 3939.

5. The ESIL certificate requires the courses listed below. Each course applied to the ESIL certificate may carry prerequisites that must be met prior to course enrollment.

For STEM majors, the course requirements are the following:

Complete all major requirements

and

Complete **one** of the following courses:

- MATH 2830 - Introductory Statistics (note 1)
- GEOG 4080 - Introduction to GIS (note 2)

and

Complete **two** of the following courses:

- COMM 3271 - Communication and Diversity *
- ETST 3036 - American Indian Cultural Images *
- ETST 3110 - Indigenous Studies
- MGMT 4100 - Leveraging Diversity and Inclusion in Business *
- PSCI 3214 - Federal Law and American Indians
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics

*These courses fulfill the core curriculum requirement for cultural diversity.

For non-STEM majors, the following coursework requirements cover the fundamentals of STEM, including science (*i.e.*, chemistry and one other lecture-laboratory sequence), technology (*i.e.*, geographic information systems or GIS), engineering (*i.e.*, environmental engineering), and mathematics (*i.e.*, statistics):

Take **all** of the following courses:

- CHEM 2031 - General Chemistry I
- CHEM 2038 - General Chemistry Laboratory I (note 3)
- MATH 2830 - Introductory Statistics (note 1)
- CVEN 3401 - Introduction to Environmental Engineering (note 4)
- GEOG 4080 - Introduction to GIS (note 2)

and

Take **one** additional lecture-laboratory sequence from the following:

- GEOL 1073 - Physical Geology: Surface Processes **and**
- GEOL 1074 - Physical Geology: Surface Processes Laboratory (note 5)

or

- PHYS 2010 - College Physics I **and**
- PHYS 2321 - Intro Experimental Phys Lab I (note 6)

or

- BIOL 2051 - General Biology I **and**
 - BIOL 2071 - General Biology Laboratory I (note 7)
- and**

Complete **two** of the following courses:

- COMM 3271 - Communication and Diversity*
- ETST 3036 - American Indian Cultural Images*
- ETST 3110 - Indigenous Studies
- MGMT 4100 - Leveraging Diversity and Inclusion in Business*
- PSCI 3214 - Federal Law and American Indians
- PSCI 4144 - Indigenous Political Systems
- PSCI 4146 - Indigenous Politics

*These courses fulfill the core curriculum requirement for cultural diversity.

Note 1: Instead of MATH 2830, students may instead take an equivalent statistics course by written approval from their ESIL advisor.

Note 2: Instead of GEOG 4080, students may instead take CVEN 5381 - Introduction to Geographic Information Systems.

Note 3: Instead of CHEM 2031/2038, students may instead take ENGR 1130 - Chemistry for Engineers or CHEM 2081 - Honors General Chemistry I and CHEM-2088 - Honors General Chemistry I Laboratory.

Note 4: Instead of CVEN 3401, students may instead take CVEN 5401 - Introduction to Environmental Engineering.

Note 5: Instead of GEOG 1073/1074, students may instead take CVEN 3718 - Geotechnical Engineering.

Note 6: Instead of PHYS 2010 and PHYS 2321, students may instead take PHYS 2311 - General Physics I: Calculus-Based and PHYS 2321 or PHYS 2351

Note 7: Instead of BIOL 2051/2071, students may instead take BIOL 2095 - Honors General Biology I and BIOL 2096 - Honors General Biology Laboratory I.

FAMILIES AND SOCIAL WELFARE CERTIFICATE

Introduction

Please click [here](#) to see Sociology department information.

Families play a significant part in individuals' lives and society. In sociology, one approach is to view families as a small group, focusing on relational processes like support, socialization, conflict, and intimacy that constitute interactions among family members. Another approach views the family as a major social institution that interacts closely with other institutions including those affecting education, law, healthcare, religion, the economy, criminal justice, and welfare. The family-in its varied and diverse forms-is also key to understanding how inequality is experienced and reproduced in society, as substantial responsibility for caring, nurturing, and raising others is delegated to families. The interplay of these multiple levels-the micro or interpersonal, the meso or institutional, and the macro or structural-also interest sociologists, as individuals influence social structures and institutions, and the latter, in turn, affect family interactions and relationships. This certificate provides students a foundation for understanding the complex role of families and family members at multiple levels, as well as the social systems and organizations responsible for supporting families and individuals. The content and methods courses will prepare students for direct service positions working with individuals and families (e.g., human and social services), or research, policy or advocacy positions addressing family issues (e.g., housing, violence and abuse, parenting, social welfare). Students earning the certificate also will be well-positioned to pursue advanced degrees in social work, public health, counseling, law, sociology, or related disciplines.

Upon successful completion of the certificate, students will:

- Recognize the diversity of family structures within and across cultures
- Understand the theoretical perspectives explaining family behavior and relationships, and those addressing differences in the institution of the family across cultures and over time
- Be familiar with current trends in family structure, and recent research on family functioning and well-being, and how family research informs advocacy and policy work, and social welfare programs
- Be able to apply the technical skills of their methodological training to conduct analyses about families and family life, and outcomes assessments for social welfare programs aimed at helping families
- Engage in original research projects involving family-related issues

Program Delivery

This is an on-campus or online program.

Declaring This Certificate

- Eligibility: While housed in Sociology, the study of families and social welfare is in fact a multidisciplinary field that draws from diverse liberal arts fields, including

Psychology, Political Science, Communications, and History, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. The certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.

- Application procedures: Students are encouraged to apply for the Families and Social Welfare Certificate at any point in their undergraduate studies. To apply, students should print and attach a completed Families and Social Welfare Certificate Application to an unofficial transcript. These documents should be submitted to the Families and Social Welfare Certificate Administrator. Once the application is approved, students will be contacted about their acceptance into the program.

General Requirements

[Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses below.
2. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
3. Students must complete all 15 credits applied to the certificate at CU Denver chosen from the approved courses below. (If students have completed a course required for the certificate elsewhere, they may add the needed credits in the form of additional elective credits drawn from the approved elective courses.)
4. The certificate will be awarded when the student graduates with the bachelor's degree.

Take the following **required** course:

- SOCY 3700 - Sociology of the Family

Take **two** of the following courses:

- SOCY 3115 - Quantitative Methods & Analysis
- SOCY 3119 - Qualitative Methods

- **OR**

2 approved methods courses in the student's major discipline, one on quantitative methods and one on qualitative methods (e.g. PSYC 2090, PSYC 3090, PSCI 3011, PHIL 3440, PHIL 2441, ECON 3801, ECON 3811, GEOG 2080, GEOG 4080). Questions about eligible methods course substitutions should be directed to the criminology certificate administrator.

Take **two** of the following approved elective courses:

- SOCY 3010 - Sociology of Human Sexuality
- SOCY 3080 - Sex and Gender
- SOCY 4270 - Social Meanings of Reproduction
- SOCY 4290 - Aging, Society and Social Policy
- SOCY 4640 - Sociology of Childhood and Adolescence
- SOCY 4650 - Sociology of Adulthood and Aging
- SOCY 4780 - Violence in Relationships
- COMM 1041 - Interpersonal Communication
- COMM 3275 - Family Communication
- COMM 4262 - Mediation
- ECON 1010 - Economics of Social Issues
- ECON 3100 - Economics of Race and Gender
- ECON 4210 - Public Finance
- ETST 3125 - Multiracial Families and Communities
- ETST 3230 - African American Family
- HIST 3488 - Tudor-Stuart England
- HIST 4219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present
- HIST 4222 - U.S. Society and Thought to 1860
- HIST 4223 - U.S. Society and Thought Since 1860
- HIST 4303 - Sex and Gender in Modern Britain
- HIST 4492 - United States History, 1919-1945
- HIST 4493 - United States History, 1945-1973
- HIST 4494 - Red and Blue America: U.S. History, 1973-Present
- PHIL 3200 - Social and Political Philosophy
- PSCI 4009 - Politics of the Budgetary Process
- PSCI 4024 - State Politics: Focus Colorado
- PSCI 4084 - Local Government and Administration
- PSCI 4085 - Comparative Governance: Environment and Society
- PSYC 3205 - Human Development I: Child Psychology [Prerequisite: PSYC 1000, 1005]

- PSYC 3215 - Human Development II: Adolescence and Adulthood [Prerequisite: PSYC 1000, 1005 or 3205]
- PSYC 3235 - Human Sexuality [Prerequisite: PSYC 1000, 1005]
- PSYC 3405 - Family Psychology [Prerequisite: PSYC 1000, 1005]
- PSYC 4485 - Psychology of Cultural Diversity
- CHIN 1000 - China and the Chinese

FUNDAMENTALS OF BUSINESS ALUMNI CERTIFICATE

Introduction

The AACSB accredited CU Denver Business School provides a business certificate designed to introduce recent graduates from any major to the fundamentals of business and to equip them with the knowledge and skills that complement their major, helping launch their careers.

The business certificate consists of three courses designed for recent college graduates with a bachelor's degree in an area other than business. Emphasis is placed on developing the knowledge and skills that provide a practical business foundation.

Many hiring managers are looking for employees with business skills which may not be acquired in other highly specialized areas of study. The business fundamentals certificate gives you business knowledge and skills that employers want.

Over 300 business partners participate on boards and advisory councils, provide scholarships, advise on curriculum and provide internships and jobs to business school students.

When you are enrolled, you have access to Business School resources including:

- career coaching
- job opportunities
- networking
- paid internships
- job search boot camps
- career fairs

Program Delivery

This is an on-campus program.

Declaring This Certificate

For more information and for assistance declaring this certificate, please contact the Business School at undergrad.advising@ucdenver.edu or 303-315-8100.

GEOGRAPHIC INFORMATION SCIENCE UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

Certificate Advisor: Matt Cross

Email: matthew.cross@ucdenver.edu

The Geographic Information Science (GISci) Certificate in the Department of Geography and Environmental Sciences is designed to provide CU Denver undergraduates and graduates, as well as non-degree seeking students interested in professional development, with proficiency in the application of spatial thinking, geographic information science, and geo-technologies in the social and physical sciences, spanning the natural, built and human environments and emphasizing human-environment interconnections. The GISci Certificate core establishes a broad foundation in spatial technologies and methodologies, including geographic information systems, remote sensing, cartography, spatial extensions to database management systems, and statistics. From this base, students can delve into various specialization areas depending on their interests.

Upon successful completion of the certificate, students will be able to:

- articulate and apply basic theoretical underpinnings of spatial analytical principles, methodologies, and techniques;
- effectively utilize at least three different types of software used for spatial analysis;
- apply geospatial thinking, geographic information science, and geo-technologies appropriately; and
- analyze diverse real-world problems that have a spatial dimension and develop alternative solutions to them.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- CU Denver undergraduate students in any discipline or major may be admitted to the program.
- Of the four core requirements, only the statistics class has prerequisites, including algebra and introductory calculus. Because of the technical nature of the GIS and remote sensing course work, however, some mathematical experience is desirable prior to beginning the program.
- Students may begin the program in any semester or during the summer by making arrangements with the GISci certificate coordinator, and completing and signing the Application for GISci Certificate. This application is required to be formally registered in the GISci Certificate program, and must be completed no later than the semester prior to the scheduled completion of the certificate.

General Requirements

- [Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 18 GEOG/CVEN credit hours from the approved courses below.
2. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
3. Students must complete all 18 GEOG/CVEN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. The certificate will be awarded when the student graduates with the bachelor's degree.
2. To obtain the certificate, students must complete five core courses and one elective course from the approved list below, totaling 18 hours.
3. Although the five core courses may be taken in any order, it is advisable to begin with GEOG 2080 - Mapping and Map Analysis followed by GEOG 4080 -

Introduction to GIS, since these courses familiarize students with many key concepts used in the other classes.

4. All core courses are offered on a yearly basis. Any alterations to the program **MUST** be approved by the GISci Coordinator. Any changes to the standard curriculum program must be approved in writing by the GISci Certificate Coordinator and filed with the GISci Certificate Application Form.
5. Because a certificate is a CU Denver certification of a students' specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residency at CU Denver. Only in rare circumstances will exceptions be made regarding this policy. Courses taken within the GISci Certificate Program may be used towards one other degree requirement.
6. Please pay attention to prerequisites for specific courses.

Take **all** of the following Geographic Information Science courses:

- GEOG 2080 - Introduction to Mapping and Map Analysis
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
- GEOG 4080 - Introduction to GIS
- GEOG 4081 - Cartography and Computer Mapping

Take **one** of the following Electives courses:

- GEOG 4070 - Remote Sensing II: Advanced Remote Sensing
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4090 - Environmental Modeling with Geographic Information Systems
- GEOG 4091 - Open Source Software for Geospatial Applications
- GEOG 4092 - GIS Programming and Automation
- GEOG 4095 - Deploying GIS Functionality on the Web
- GEOG 4235 - GIS Applications in the Health Sciences
- CVEN 5382 - Geospatial Data Development
- CVEN 5385 - GIS Relational Database Systems **or**

an elective approved by the GISci Certificate Coordinator.

Although only one elective is required to complete the Undergraduate GISci Certificate, it is strongly recommended that additional elective courses are taken to broaden the experience and knowledge of the student in GIS analysis and applications. A three-credit hour internship with a geospatial faculty sponsor is highly recommended.

HEALTH AND DEVELOPMENT ECONOMICS UNDERGRADUATE CERTIFICATE

Introduction

There is an increasing need for individuals who understand health related issues and policies, particularly those affecting developing countries, and have the quantitative skills that enable them to analyze and present real-world data to support effective decision-making. The purpose of the Certificate in Health & Development Economics is to provide students with a strong foundation in economic concepts, data analysis, and policy issues pertaining to healthcare and economic development. Students will learn how to use data to develop and evaluate programs and policies using modern statistical methods. The certificate gives students the applied skills and institutional knowledge increasing in demand in the health research sector, enhancing the student's career and professional development. The certificate can also provide a springboard towards pursuing a graduate degree in Health Economics.

These certificate requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor to confirm the best plans of study before finalizing them.

Admission Requirements

- Be a current CU Denver undergraduate or graduate student in any discipline, or a CU Denver non-degree seeking student with a Bachelor's degree.
- Have a GPA of 2.0 or higher
- Have completed intermediate microeconomics and introduction to econometrics, or equivalent coursework or professional experience.

General Requirements

[Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 12 ECON credit hours.

2. Students must complete a minimum of 12 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all certificate credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. Students are expected to meet all course prerequisites or have the program director's approval.
2. CU Denver undergraduate students may complete the certificate concurrently with their major and/or minor degree program, counting the credits towards both the certificate and their B.A. or B.S. major/minor degrees. However, courses that have already been counted towards any degree already awarded may not be counted towards the certificate retroactively.
3. Undergraduate students are encouraged to use the certificate program as a bridge to a graduate degree. Qualified students in their senior year may substitute the graduate level ECON 5030 for ECON 4030, Health Economics I (ECON 7661) for Health Economics (ECON 4660), and/or Health Economics II (ECON 7662) for Economic Development (4770). Undergraduate students, non-degree seeking students, and graduate students outside the economics department must meet the prerequisite requirements or **have the graduate advisor's approval** prior to taking any graduate level econ course.
4. No course may be taken more than twice.

Required Courses

- ECON 4030 - Data Analysis with SAS
- ECON 4660 - Health Economics.
- ECON 4770 - Development Economics
- ECON 4812 - Advanced Econometric Methods

Total: 12 Hours

HEALTH COMMUNICATION CERTIFICATE

Introduction

Please click [here](#) to see Communication Department information.

The Undergraduate Certificate in Health Communication (CHC) offers learners the opportunity to acquire and demonstrate expertise in health communication. The certificate program will provide students with a theoretically rich and practically relevant education in how health messages are generated, negotiated, assessed, and understood across a wide range of communication contexts, spanning intrapersonal communication to digital and mass media.

The Undergraduate Certificate in Health Communication serves as a gateway for internships and careers related to health, wellness, and medicine, and further the Communication Department's mission to guide students toward developing the skills, knowledge, and abilities necessary to use communication to create a more civil and humane world.

Beginning in the Fall of 2019, the CHC requires students to complete 15 semester hours (five courses) in a structured manner.

These requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Certificate

- Students should apply for the Undergraduate Certificate in Health Communication *after* the completion of the required courses.
- To apply, students must complete the certificate application (see the Communication Department website) and return it to Dr. Tamara Powell in room 3311 of the Student Commons Building, or mail to Department of Communication;
P.O. Box 173364, Campus Box 176; University of Colorado Denver;
Denver, CO 80217-3364. The approved certificate is mailed to the student after final grades are posted for the semester.

- Students who are not already enrolled at CU Denver must also complete an Application for Non-Degree Admission prior to registering for courses. The form should be returned to the Office of Admissions.

Additional information about the undergraduate certificate in Health Communication may be obtained from Dr. Tamara Powell, Student Commons Building 3311, 303-315-0310, or tamara.powell@ucdenver.edu.

General Requirements

- [Click here for information about Academic Policies](#)

Certificate Requirements

1. Students must complete a minimum of 15 credit hours from approved courses.
2. Students must complete a minimum of 12 upper division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours for the certificate with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses may not count for more than two graduation requirements.

Required Courses

To build on a shared set of foundational theories, norms, and skills, all CHC-seeking students take three required courses (9 units) in Communication:

- COMM 2500 - Introduction to Health Communication
- COMM 4500 - Health Communication
- COMM 4575 - Designing Health Messages

Interdisciplinary Health Electives

CHC-seeking students will then broaden their perspective on health communication by taking an interdisciplinary health elective. Students must complete at least one elective (3 units) from the following courses:

- ANTH 4600 - Medical Anthropology
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4558 - Digital Health Narratives
- COMM 4620 - Health Risk Communication
- ENGL 4290 - Rhetoric and the Body
- ENGL 4745 - Humanistic Writing About Medicine and Biology
- ETST 3002 - Ethnicity, Health and Social Justice
- GEOG 3501 - Geography of Health
- PBHL 4040 - Social Determinants of Health
- PBHL 3030 - Health Policy
- PBHL 3041 - Health, Culture and Society
- PBHL 3070 - Perspectives in Global Health
- PHIL 4242 - Bioethics
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- SOCY 3440 - Medical Sociology
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- SOCY 4050 - Health Disparities
- SOCY 4110 - Sociology of Health Care
- SOCY 4220 - Population Change and Analysis
- SOCY 4270 - Social Meanings of Reproduction
- Another elective with a health communication focus may be approved for the CHC in consultation with certificate advisor

Required Capstone Project

CHC-seeking students will complete their certificate by undertaking a semester-long capstone project (3 units) using experiential learning or high impact practice. Students have the choice of taking:

- COMM 3660 - Social Media for Social Change
- COMM 3939 - Internship
- COMM 4051 - Advanced Strategic Communication
- COMM 4525 - Health Communication and Communities (Service Learning)
- COMM 4558 - Digital Health Narratives (Service Learning)

- COMM 4550 - Rhetorics of Medicine & Health (Writing Intensive)
- COMM 4620 - Health Risk Communication (Writing Intensive)
- Discipline-specific health methods class approved by certificate advisor

IMMIGRATION STUDIES

Introduction

Issues of immigration are at the center of modern policy and political debates and are thus a core concern for social scientists, policy makers, civic leaders, community organizations, and citizens. The objective of the History Department's Undergraduate Immigration Studies Certificate is to offer both traditional academic training through coursework and research and also practical experience working with immigrant and refugee communities through an internship. The Immigration Studies Certificate will ultimately prepare students to conduct immigration research, influence immigration public policy, and inform immigrant-related government decisions.

Upon successful completion of the certificate, students will:

- Understand the theoretical explanations for immigration flows, immigrant assimilation and exclusion, and ethnic formation
- Possess a fundamental understanding of the legal and political institutions responsible for immigration policy
- Be familiar with current trends in immigration studies thought, research, and activism
- Be able to apply the content and methodological skills to engage in original research projects involving immigration topics
- Be able to apply the theories and examples from coursework to conduct immigration-focused internships in the workforce

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Eligibility: While housed in the History Department, Immigration Studies is a multidisciplinary field that draws from Ethnic Studies, Anthropology, Political Science, Education, and Sociology. Thus, CU Denver undergraduate students in any discipline can enroll in the program.
- Application Procedures: Students are encouraged to apply for the Immigration Studies Certificate at any point in their undergraduate studies. To apply, students should print and attach a completed Immigration Studies Certificate Application to an official transcript. These

documents should be submitted to the Immigration Studies Certificate Administrator. Once the application is approved, students will be contacted about their acceptance into the program.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 12 credit hours from the approved courses.
2. Students must complete a minimum of 6 upper division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all certificate credit hours with CU Denver faculty.
5. The certificate will be awarded when the student graduates with the bachelor's degree.

Take **both** of the following required courses:

- HIST 3345 - Immigration and Ethnicity in American History
- HIST 3939 - Internship (Students must take HIST 3345 **prior** to enrolling in HIST 3939. For HIST 3939, students will work with the Immigration Studies Certificate Administrator and the Experiential Learning Center to secure an immigration- or refugee-related Internship.)

Take **two** related electives from the following approved courses:

- ANTH 4300 - Migrant Health
- ANTH 4350 - Anthropology of Globalization
- EDFN 3000 - Undocumented Mexican Immigration
- ETST 3108 - Chicano/a and Latino/a History
- ETST 3297 - Social History of Asian Americans
- ETST 3697 - Contemporary Asian American Experience
- ETST 3704 - Culture, Racism and Alienation
- HIST 4412 - Mexico and the United States: People and Politics on the Border
- PSCI 4545 - Immigration Politics

If departments offer additional courses that fit within the themes of the Immigration Studies Certificate, those courses can be counted for credit with the Immigration Certificate Administrator's approval.

LABOR LEADERSHIP UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Political Science department information.

The Labor Leadership certificate is meant to develop the next generation of leaders in labor unions and civic organizations focused on labor and related issues of race, class and gender equity. The certificate is particularly relevant to labor union leaders, rank and file members, and community-based organizational staff who desire to receive continuing education regarding labor leadership. The labor leadership certificate will combine academic instruction with field learning and community-based research projects. The program features active partnerships with local labor organizations, such as unions and community-based groups focused on relevant labor, class and race issues (such as immigrant rights groups, workplace gender equity groups, etc.). Certificate students will enhance synergetic learning in the classroom, and enlarge networking opportunities among all students.

Program Delivery

The certificate can be earned either through our traditional on-campus courses, or entirely through classes offered in a weekend-intensive format in our New Directions program. Students may take classes in either format desired.

Declaring This Certificate

Any undergraduate admitted to CU Denver in a degree-seeking or non-degree seeking program may pursue this certificate.

To declare this certificate, students must meet with the Political Science Department advising faculty.

General Requirements

Click [here](#) for information about Academic Policies.

Program Requirements

1. Students must complete 12 credit hours from the approved courses.
2. Students must complete 6 credit hours of upper division (3000 or 4000 level) level courses.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. All courses in this certificate must be taken in residency at CU Denver.

Complete four of the following courses-substitutions may be approved by the program advisor:

- PSCI 4914 - Community Organizing and Community Development
- PSCI 4326 - Advanced International Political Economy: Globalization
- PSCI 4535 - Labor and Working Class Politics
- PSCI 5424 - The Social Economy and Sustainable Development
- PSCI 5434 - The Cooperative Movement: Politics and Policy
- PSCI 5548 - Labor Law and Collective Bargaining
- PSCI 5550 - Labor, Trade Unions and the Global Economy

LAW ENFORCEMENT CERTIFICATE

Introduction

Please click [here](#) to see School of Public Affairs information.

The undergraduate certificate in Law Enforcement provides a detailed, comprehensive, and advanced education in the field of law enforcement. This program is designed for students who are employed or will work in the field of law enforcement.

The CJLE program applies a multi-faceted approach to higher education that:

1. Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
2. Focuses on specific, yet comprehensive, substantive areas of law enforcement that students can apply to their current or future careers in the field.

Students completing the CJLE certificate program will have the knowledge and skills to evaluate and respond to a variety of situations in law enforcement professions that require technical, analytic, substantive, and ethical decision-making. They will understand the different environments and contexts in which law enforcement carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Certificate

- Please contact spa.advising@ucdenver.edu

General Requirements

- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Law enforcement Certificate requires 18 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the certificate.
3. Students must receive a minimum C- grade in each course applied to satisfy the certificate requirements.

Take **all** of the following required courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory
- CRJU 4043 - Law Enforcement
- CRJU 4540 - Evidence-Based Approaches in Law Enforcement

Program Electives:

There are two elective categories, Topic Area and Professional Setting. The Topic Area electives allows the student to explore a different aspect of law enforcement. The Professional Skills elective allows the student to hone skills related to law enforcement.

Topic Area (Students take **one** of the following):

- CRJU 3310 - Contemporary Issues in Law Enforcement
- CRJU 3320 - Police-Community Relations
- CRJU 3520 - Juvenile Justice

- CRJU 3530 - Juvenile Delinquency
- CRJU 4410 - Criminal Law and Constitutional Procedures
- CRJU 4430 - Law and Society
- CRJU 4450 - Homeland Security
- PSCI 4427 - Law, Politics and Justice
- SOCY 4340 - Juvenile Delinquency
- SOCY 4700 - Sociology of Law

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable

Professional Skills (students take one of the following)

- ANTH 3550 - Forensic Anthropology
- CRJU 4310 - Leadership Roles in Criminal Justice
- CSCI 1001 - Computer Forensics I
- GEOG 4080 - Introduction to GIS
- CRJU 4939 - Internship (only for Certificate or Minor and must be related to Law Enforcement and be pre-approved)

Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable

MEDIATION UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Communication department information.

Mediation is a process in which conflict parties attempt to manage their differences with the assistance of a neutral third-party. The Certificate in Mediation is designed to provide intensive and in-depth training in mediation and communication skill competencies. Trained mediators are impartial process experts who utilize communication and conflict philosophy and theories to increase the probability of more favorable outcomes between parties in conflict. The

undergraduate certificate is designed for communication majors or any student interested in developing practical skills in alternative dispute resolution. The courses in this certificate focus on alternative dispute processes that include strategies for managing conflict in personal, public, legal, political, governmental, and corporate contexts. These certificate requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them. Please check spacing here and throughout.

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Students should apply for the Undergraduate Certificate in Mediation after the completion of the required courses.
- To apply, students must complete the certificate application (see the Communication Department website) and return it to Dr. Larry Erbert in room 3008 of the Student Commons Building, or mail to Department of Communication; P.O. Box 173364, Campus Box 176; University of Colorado Denver; Denver, CO 80217-3364. The approved certificate is mailed to the student after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must complete an Application for Non-Degree Admission prior to registering for courses. The form should be returned to the Office of Admissions.

Additional information about the Undergraduate Certificate in Mediation may be obtained from Dr. Larry Erbert, Department of Communication, 303-315-1918, Larry.Erbert@ucdenver.edu.

General Requirements

- [Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete a minimum of 9 upper division (3000-level and above) credit hours from approved courses.

3. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours for the certificate with CU Denver faculty.

Take the following core course:

- COMM 4262 - Mediation

Take **at least one** of the following two courses (students who take both classes take one elective rather than two; students who take only one must select two electives):

- COMM 4255 - Negotiations and Bargaining
- COMM 4260 - Communication and Conflict

Take **one or two** of the following Elective courses:

- COMM 3271 - Communication and Diversity
- COMM 4240 - Organizational Communication
- COMM 4282 - Environmental Communication

MIDDLE EASTERN POLITICS UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Political Science department information.

The Middle East features often in statements made by politicians, and stories from the region are a constant staple of the media. However, the region is still considered by many to be a "mystery." This perception is in part a result of the misrepresentation of the region and its peoples, in addition to the incessant regional political developments, especially during the current decade. The purpose of this certificate is to provide students with a deeper understanding of the politics of the region that goes beyond stereotypes disseminated by the media and manipulated by political and interest groups. It will introduce students to current research and practice concerning the complex interplay among the different peoples and the states of the Middle East, as well as the interaction between the region and the rest of the world. While the certificate will be issued and managed by the Political Science department, students can take courses from other departments and programs, for instance Geography, History, Modern Languages, Religious Studies and Women and Gender Studies. Such an interdisciplinary approach will expose students to a variety of perspectives on the study of the

Middle East. It will also train students to investigate the interconnections among the different aspects of politics in the region.

Program Delivery

The certificate can be earned either through our traditional on-campus courses, or entirely through classes offered in a weekend-intensive format in our New Directions program. Students may take classes in either format desired.

Declaring This Certificate

Any undergraduate admitted to CU Denver in a degree-seeking or non-degree seeking program may pursue this certificate.

To declare this certificate, students must meet with the Political Science Department advising faculty.

General Requirements

- [Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses.
2. Students must complete all courses at the upper-division level (3000 or 4000 level). With the exception ARAB 2120 (Intermediate Arabic 2).
3. All of the credit hours for this certificate must be earned at the CU Denver.
4. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.

Program Restriction, Allowances and Recommendations

1. Only one course can be an independent study, which must be approved by Political Science Department as the certificate advisor.
2. Students must complete at least three Political Science courses in the certificate.

Complete **one** introductory course:

- PSCI 4736 - The Middle East in World Affairs

- PSCI 4002 - Topics in Political Science (any PSCI section with Middle East as part of the subtitle)

Complete **three** elective courses:

- ARAB 2120 - Intermediate Arabic II
- GEOG 3150 - Middle East
- HIST 4461 - The Modern Middle East
- HIST 4462 - Islam in Modern History
- PSCI 4155 - Political Systems of the Middle East and North Africa
- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4165 - Islamic Politics and Culture
- RLST 3120 - Islamic Traditions
- RLST 3100 - Islamic Politics and Culture
- Relevant Independent Study in any Department, if approved by Political Science Faculty Certificate Advisor.

Complete **one** capstone course:

- PSCI 4156 - The Arab-Israeli Peace Process
- PSCI 4150/ WGST 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism

NONPROFIT MANAGEMENT CERTIFICATE

Introduction

Please click [here](#) to see School of Public Affairs information.

The undergraduate Certificate in Nonprofit Management is designed to appeal to students with a background in any major, or non-degree students, who are interested in working in the nonprofit sector. Completion of the coursework requirements of the certificate and associated extracurricular field experiences allow the student to earn the additional credential of Certified Nonprofit Professional pursuant to standards and competencies set by the National Leadership Alliance.

The certificate is designed to allow students to demonstrate to potential employers that they have the knowledge and skills necessary to succeed in the nonprofit workplace. Competencies covered by the certificate include foundations and management of the nonprofit sector,

cultural competence and diversity, and financial resource development, among others. In addition, students have the opportunity to gain real-world experience and connections through nonprofit internships and field experiences.

Additional information about the undergraduate Certificate in Nonprofit Management may be obtained by contacting spa.advisingbaps@ucdenver.edu.

Program Delivery

- All courses are offered online; certain courses are also offered on campus.

Declaring This Certificate

- Please contact spa.advising@ucdenver.edu.

General Requirements

- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The undergraduate certificate in Nonprofit Management requires 18 credit hours of coursework.
2. All credit hours for the certificate must be completed at CU Denver. Transfer credits are not accepted.
3. Students must earn a minimum C- grade in each undergraduate course applied to satisfy the certificate requirements.

Take **all** of the following required courses:

- PUAD 3110 - Seminar in Nonprofit Management
- PUAD 4140 - Nonprofit Financial Management

Choose **three** from the following list Nonprofit elective courses:

- PUAD 3005 - Collaboration Across Sectors
- PUAD 3110 - Seminar in Nonprofit Management
- PUAD 4140 - Nonprofit Financial Management
- PUAD 4160 - Nonprofit Boards and Executive Leadership
- PUAD 4020 - Social Entrepreneurship
- PUAD 4600 - Special Topics in Public Service: Study Abroad in East Africa

Certified Nonprofit Professional Designation

Students completing the Nonprofit Management certificate may choose to simultaneously earn the national Certified Nonprofit Professional designation from the Nonprofit Leadership Alliance by completing additional extracurricular requirements. Contact spa.advising@ucdenver.edu for more information.

PUBLIC, NON-PROFIT AND COMMUNITY LEADERSHIP UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Political Science department information.

The CU Denver Political Science Department's Public, Non-Profit and Community Leadership Certificate engages students in a focused curriculum in local public leadership, and in the community organizing and development field, including field placements in internships with local community partners. The certificate is tailored to meet the needs of individuals in public and non-profit positions that require development of their leadership competencies and for individuals in informal community leadership positions who want to build their knowledge, skills, and effectiveness.

The program curriculum is anchored around the study and practice of local civic engagement, especially in traditionally marginalized communities. Students will be connected to meaningful work and networking opportunities in local government or in community settings, through community-based coursework, professional internships and service-learning opportunities. The certificate program provides critical education and effective skills-based training for students seeking careers in local government, in non-profit organizations, or in community organizing and development work. Students will be prepared to become change agents in their communities, while developing possible career paths in community-based advocacy/service organizations, public agencies, or international development work.

The certificate is open to non-degree seeking students (with or without an undergraduate degree) as well as students formally pursuing an undergraduate degree at CU Denver. The Certificate can be earned as a stand-alone University certificate, or it can be applied to a current or future degree program. Non-degree seeking students who successfully complete the certificate program would be allowed to transfer in the credits received in the certificate program to complete the Bachelor's Degree in Political Science.

The certificate can be earned either through our traditional on-campus courses, or entirely through classes offered in a weekend intensive format in our New Directions program. Students may take classes in either format desired.

Admissions and Declaring This Certificate

Any current or potential student wishing to declare this certificate should schedule a certificate advising appointment with either the Director of the New Directions program or with the Departmental Undergraduate Advisor, in order to register their intent to pursue the Public, Non-Profit and Community Leadership Certificate and to develop a curriculum plan.

Certificate Requirements:

1. Students must complete 15 credits in PSCI approved coursework.
2. Students must complete a minimum of 6 upper division (3000 level and higher) credit hours from approved coursework.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. All credits must be taken in residence at CU Denver. No transfer credits may apply.

Curriculum and Credit Requirements:

Undergraduate Credit Requirement: the undergraduate certificate requires five "public and community leadership" courses (15 credits), which must include PSCI 4914 (Community Organizing and Development) and an appropriate field study course (typical courses are an academic internship or PSCI 3914, The Urban Citizen).

Take the following **required** Public and Community Leadership course:

- PSCI 4914 - Community Organizing and Community Development

Take **one** of the following field placement courses:

- PSCI 3914 - The Urban Citizen
- PSCI 3939 - Internship
- PSCI 4934 - CU at the Capitol
- PSCI 4944 - CU in the City

Take 9 semester hours of elective Public and Community Leadership courses:

- PSCI 3035 - Political Movements: Race and Gender

- PSCI 3064 - Power and Empowerment in the United States
- PSCI 4025 - Local Governance and Globalization
- PSCI 4074 - Urban Politics
- PSCI 4075 - Gentrification and Social Equity
- PSCI 4084 - Local Government and Administration
- PSCI 4124 - Denver Politics
- PSCI 4206 - Social Movements, Democracy and Global Politics
- PSCI 4207 - Theories of Social and Political Change
- PSCI 4248 - Gender, Globalization and Development
- PSCI 4265 - Social Justice and Globalization
- PSCI 4274 - Conflict Resolution and Public Consent Building
- PSCI 4414 - Non-Profits and Social Change
- PSCI 5548 - Labor Law and Collective Bargaining
- PSCI 5424 - The Social Economy and Sustainable Development
- PSCI 5434 - The Cooperative Movement: Politics and Policy
- PSCI 4535 - Labor and Working Class Politics
- PSCI 4555 - International Women's Resistance
- PSCI 4002 - Topics in Political Science (with advisor approval)
- PSCI 4840 - Independent Study: PSCI (with advisor approval)

RISK MANAGEMENT AND INSURANCE CERTIFICATE

Introduction

The Business Schools undergraduate certificates are primarily intended for students currently pursuing a degree in any undergraduate discipline that want to expand their business knowledge to give themselves a leg up when they enter the workforce. However, they can also be taken by students with only a high school diploma.

Students can pursue one of our undergraduate certificates, even if they are not CU Denver students. Credit earned as a part of the certificate DOES count towards your undergraduate degree, should you choose to pursue a degree here.

Broaden your knowledge of Risk Management and Insurance (RMI) by completing a one-year Certificate in RMI Studies from the University of Colorado Denver. By completing three semester-long RMI courses, all available online, and meeting prior finance course requirements, you will be on your way to enhancing your personal knowledge and providing your employer with RMI awareness and professional skills.

Program Delivery

This is an on-campus program.

Declaring This Certificate

See the Risk Management and Insurance Certificate page for more information.

Certificate Requirements

Take **all** of the following required courses:

- RISK 3809 - Introduction to Risk Management
- RISK 4809 - Property & Casualty Insurance
- RISK 4909 - Corporate Risk Management

SCIENTIFIC FOUNDATIONS OF TECHNICAL INNOVATION CERTIFICATE

Introduction

Please click [here](#) to see Physics department information.

The goal of this certificate is to give students and working professionals an opportunity to broaden their technical knowledge while contributing to regional economic development. Two real-world projects-one for a client and one for the student's own pursuits-are combined with a series of six short courses to provide both context and substance for gaining the knowledge needed to create technical prototypes.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Entry into the certificate program requires prior completion of two semesters of calculus-based physics and two semesters of calculus or permission of the certificate advisor.

General Requirements

- [Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 12 credits from the approved courses.
2. Students must complete a minimum of 6 upper-division (3000-level and above) PHYS credit hours from the approved courses below.
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all credit hours with CU Denver faculty. No transfer courses are allowed.

Program Restrictions, Allowances and Recommendations

1. Students should meet with their program director for any substitutions (may be interdisciplinary).

Take **all** of the following Scientific Foundations of Technical Innovation courses:

- PHYS 4850 - Physics for Design and Innovation I
- PHYS 4852 - Physics for Design and Innovation II

Take **six** 1 semester-hour short courses out of the list of Topics in Scientific Instrumentation; the specific sequence must be approved by the certificate advisor.

- PHYS 4400 - Scientific Instrumentation

SOCIOLOGY OF HEALTH AND MEDICINE CERTIFICATE

Introduction

Please click [here](#) to see Sociology department information.

Enhancing the health and quality of life for individuals and communities are central goals to societies the world over. Medical sociology is a subfield devoted to the study of population health, health care systems and policy, and the social dimensions of illness and healing. Medical sociologists study the causes of health inequalities, social constructions of health and illness, origins of medical authority, doctor-patient relationships, community influences on health, and the social forces that affect policy. The Sociology Department's Sociology of Health and Medicine Certificate provides training in the core research methodologies and theories of medical sociology, examining individual experience, institutional structures, laws and policies that affect health, and broader systems of inequality that lead to unequal rates of illness and access to care. This certificate provides depth of training in these areas and is ideal for students interested in graduate-level study and social research on health and medicine as well as those interested in careers in public health, health care services, and non-profit organizations.

Upon successful completion of the certificate, students will:

- Articulate the central explanations for historical shifts in disease, including neighborhood effects and behaviors that may increase the risk of disease and mortality
- Identify social factors that contribute to population health inequalities, including race, ethnicity, gender, class, immigration status, sexuality, or disability
- Understand the social influences that shape medical authority, knowledge, and patient experiences with illness and treatment
- Be able to use different methodologies to understand the social aspects of health and medicine
- Know how to conduct original research, analyze policy, and evaluate community needs for organizations devoted to improving population health

Program Delivery

This is an on-campus or online program.

Declaring This Certificate

- Eligibility: While housed in Sociology, the study of health and medical issues is in fact a multidisciplinary field that draws from diverse liberal arts fields, including Anthropology, Communications, Psychology, and History, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. This certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.
- Application procedures: Students are encouraged to apply for the Sociology of Health and Medicine Certificate at any point in their undergraduate studies. To apply, students should print and attach a completed the Sociology of Health and Medicine Certificate Application to an unofficial transcript. These documents should be submitted to the Sociology of Health and Medicine Certificate Administrator. Once the application is approved, students will be contacted about their acceptance into the program.

General Requirements

[Click here for information about Academic Policies.](#)

Program Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses below.
2. Students must earn a minimum grade of C- (1.7) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
3. Students must complete all 15 credits applied to the certificate at CU Denver chosen from the approved courses below. (If students have completed a course required for the certificate elsewhere, they may add the needed credits in the form of additional elective credits drawn from the approved elective courses.)
4. The certificate will be awarded when the student graduates with the bachelor's degree.

Take the following **required** course:

- SOCY 3440 - Medical Sociology

Take **two** of the following courses:

- SOCY 3115 - Quantitative Methods & Analysis

- SOCY 3119 - Qualitative Methods

OR

2 approved methods courses in the student's major discipline, one on quantitative methods and one on qualitative methods (e.g. PSYC 2090, PSYC 3090, PSCI 3011, PHIL 3440, PHIL 2441, ECON 3801, ECON 3811, GEOG 2080, GEOG 4080). Questions about eligible methods course substitutions should be directed to the Sociology of Health & Medicine Certificate Administrator.

Take **two** of the following approved elective courses:

- SOCY 3010 - Sociology of Human Sexuality
- SOCY 3040 - Drugs, Alcohol & Society
- SOCY 3570 - Death & Dying: Social & Medical Perspectives
- SOCY 4050 - Health Disparities
- SOCY 4110 - Sociology of Health Care
- SOCY 4270 - Social Meanings of Reproduction
- SOCY 4290 - Aging, Society and Social Policy
- ANTH 3045 - Cannabis Culture
- ANTH 4010 - Medical Anthropology: Global Health
- ANTH 4290 - Anthropology and Public Health
- ANTH 4600 - Medical Anthropology
- COMM 4500 - Health Communication
- COMM 4525 - Health Communication and Community
- COMM 4550 - Rhetorics of Medicine & Health
- COMM 4558 - Digital Health Narratives
- ECON 4660 - Health Economics.
- ETST 3002 - Ethnicity, Health and Social Justice
- GEOG 3501 - Geography of Health
- GEOG 4235 - GIS Applications in the Health Sciences
- HEHM 3100 - Introduction to Health Humanities
- HIST 3606 - Science, Technology, and Society in the Modern World
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present
- PHIL 3550 - Philosophy of Death and Dying
- PHIL 4242 - Bioethics
- PSCI 4330 - U.S. Health Policy
- PSYC 3262 - Health Psychology
- PSYC 3265 - Drugs, Brain and Behavior
- PSYC 3612 - Domestic Abuse
- PSYC 3822 - Aging, Brain and Behavior

- WGST 4345 - Gender, Science, and Medicine: 1600 to the Present

SPANISH FOR INTERNATIONAL BUSINESS CERTIFICATE

Introduction

Please click [here](#) to see Modern Languages department information.

The Department of Modern Languages offers an undergraduate Certificate in Spanish for International Business for students seeking an academic credential showing that they are prepared to meet the challenges of doing business in the Spanish-speaking world.

This certificate is available to all students across the University, as well as non-degree-seeking business professionals seeking to increase their skill set and value in the international market.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with the Chemistry advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- You must complete the **Application for the Certificate (available on the Department webpage)**. This requires an unofficial transcript from CU Denver showing that you are a current undergraduate student, or a copy of former transcripts indicating an undergraduate degree has been previously granted. This must be completed **prior** to completing the coursework (and applying for graduation, if you are a degree-seeking student) for the certificate.
- To begin coursework, non-degree-seeking students will need to apply to the University as a non-degree seeking student. Once accepted, you will be able to enroll in all of the appropriate classes. The following is a link to that information: <http://www.ucdenver.edu/admissions/non-degree/Pages/default.aspx>.

General Requirements

- [Click here for information about Academic Policies](#)

Program Requirements

1. Students must complete a minimum of 12 SPAN credit hours.
2. Students must complete all 12 SPAN credit hours at the upper division level (3000-level and above).
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. All 12 SPAN credits for the certificate must be earned at the University of Colorado Denver.

Take **all** of the following courses:

- SPAN 3700 - Spanish for International Business I
- SPAN 3710 - Spanish for International Business II

Take **two** of the following courses:

- SPAN 3213 - Contemporary Latin American Culture and Institutions
- SPAN 3223 - Contemporary Spanish Culture and Institutions
- SPAN 3782 - Introduction to Translation I
- SPAN 3792 - Introduction to Translation II
- Variable topics courses (e.g. SPAN 2130 or SPAN 3225) whose specific topic is applicable to Spanish for International Business can be applied to the certificate with advisor approval.

Note: SPAN 2120 (or equivalent proficiency) is a pre-requisite for all SPAN courses numbered 3XXX.

STRATEGIC COMMUNICATION UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Communication department information.

In keeping with worldwide transformations in information technology, media production, image consumption, message distribution, and norms of citizen engagement, the Department of Communication offers an Undergraduate Certificate in Strategic Communication (CSC).

Strategic Communication has been defined as the management function that entails planning, research, publicity, promotion and collaborative decision-making to help any organization's ability to listen to, appreciate and respond appropriately to those persons and groups whose mutually beneficial relationships the organization needs to foster as it strives to achieve its mission and vision.

Beginning in the Fall of 2018, the CSC requires students to complete 12 semester hours (four courses) in a structured manner.

These requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Students should apply for the undergraduate certificate in Strategic Communication *after* the completion of the required courses.
- To apply, students must complete the certificate application (see the Communication Department website) and return it to Dr. Hamilton Bean in room 3010 of the Student Commons Building, or mail to Department of Communication; P.O. Box 173364, Campus Box 176; University of Colorado Denver; Denver, CO 80217-3364. The approved certificate is mailed to the student after final grades are posted for the semester.
- Students who are not already enrolled at CU Denver must also complete an Application for Non-Degree Admission prior to registering for courses. The form should be returned to the Office of Admissions.

Additional information about the undergraduate certificate in Strategic Communication may be obtained from Dr. Hamilton Bean, 303-315-1909, or Hamilton.Bean@ucdenver.edu.

General Requirements

- Click [here](#) for information about Academic Policies.

Certificate Requirements

1. The Undergraduate Certificate in Strategic Communication requires 12 semester hours from the approved courses below (four courses).
2. Students must earn a minimum grade of B (3.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
3. A minimum of 6 credits taken from the approved courses must be at the upper division level.
4. All of the credit hours for the certificate must be earned at the University of Colorado Denver.

Required Courses

To build on a shared set of foundational theories, norms, and skills, all CSC-seeking students take two required courses in Communication:

- COMM 2051 - Introduction to Strategic Communication
- COMM 2071 - Media Writing Skills

Electives

CSC-seeking students will then burnish their production skills by taking an elective from chosen areas of content expertise. Phase Two therefore includes taking at least one elective chosen from the following courses:

- COMM 2081 - New Media Production and Management
- COMM 3660 - Social Media for Social Change
- COMM 3939 - Internship
- COMM 4665 - Principles of Advertising
- FINE 2155 - Introduction to Digital Photography
- FINE 2405 - Introduction to Digital Design
- FINE 2415 - Typography Studio
- FINE 3414 - Motion Design I
- Another elective with a strategic communication focus may be approved for the CSC in consultation with Dr. Hamilton Bean or a Department of Communication advisor.

Capstone Project

CSC-seeking students will complete their certificate by undertaking a semester-long

capstone project conducted in conjunction with a community partner. This requirement will be satisfied by taking:

- COMM 4051 - Advanced Strategic Communication
- FINE 4400 - Design Studio III

SUSTAINABLE URBAN AGRICULTURE UNDERGRADUATE CERTIFICATE

Introduction

Please click [here](#) to see Geography and Environmental Sciences department information.

Certificate Advisor: Amanda Weaver

Email: amanda.weaver@ucdenver.edu

The goal of the certificate program is to provide GES students advanced training in sustainable urban agriculture through the integration of university classroom study and field-based practicum conducted at the department's field research station. Requirements for the certificate are therefore divided between on-campus courses and field courses.

Upon successful completion of the certificate, students will:

- Have knowledge of the history of urban farming
- Understand the modern agro-food system
- Participate in sustainable urban agricultural practices

Program Delivery

This is both an on-campus and field-based program.

Declaring This Certificate

- Please see the certificate advisor.

General Requirements

- [Click here for information about Academic Policies.](#)

Certificate Requirements

1. Students must complete a minimum of 12 GEOG credit hours.
2. Students must complete all 12 GEOG credit hours at the upper division level (3000-level and above).
3. Students must earn a minimum grade of C (2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 3.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. Students must complete all 12 GEOG credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. The certificate will be awarded when the student graduates with the bachelor's degree.
2. All core courses are offered on a yearly basis. Any alterations to the program **MUST** be approved by the certificate advisor.
3. Courses taken within the Sustainable Urban Agriculture Certificate Program may be used towards one other degree requirement.
4. Any changes to the standard curriculum program must be approved in writing by the certificate advisor.
5. Because a certificate is a CU Denver certification of a students' specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residency at CU Denver. Only in rare circumstances will exceptions be made regarding this policy
6. Please pay close attention to prerequisites for specific courses.

Take **all** of the following courses (9 credit hours):

- GEOG 4450 - Urban Food and Agriculture: Perspectives and Research
- GEOG 4460 - Sustainable Urban Agriculture Field Study I
- GEOG 4470 - Sustainable Urban Agriculture Field Study II

Take **one** of the following elective courses (3 credit hours):

- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
- GEOG 4085 - GIS Applications for the Urban Environment
- GEOG 4265 - Sustainability in Resources Management
- GEOG 4335 - Contemporary Environmental Issues
- GEOG 4640 - Urban Geography: Denver and the U.S.

- GEOG 4680 - Urban Sustainability: Perspectives and Practice
- GEOG 3939 - Internship (a sustainable agriculture internship with a local food/urban agriculture community organization)

VICTIMS AND VICTIM SERVICES CERTIFICATE

Introduction

Please click [here](#) to see School of Public Affairs information.

The undergraduate certificate in Victims and Victim Services Studies provides a detailed, comprehensive, and advanced education in fields related to victims and victim services. The CJVS program is designed to meet the needs of students who wish to work in fields related to victim services or who are currently working in this field and would like to enrich their professional development.

The CJVS program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of victims and victim services that students can apply to their current or future careers in the field.

Students completing the CJVS certificate program will have the knowledge and skills to evaluate, manage, and respond to a variety of situations and issues that professionals in fields related to victims and victim services face. Specifically, they will possess technical, analytic, substantive, and ethical proficiencies that will facilitate their professional interactions and development. They will understand the different environments and contexts in which victim advocates and other professionals in this field and related ones carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online and in hybrid formats.

Declaring This Certificate

- Please contact spa.advising@ucdenver.edu

General Requirements

- CU Denver's Undergraduate Academic Policies

Program Requirements

1. The Victims and Victim Services Certificate requires 18 credit hours of coursework.
2. A maximum of 6 transfer credit may be applied to the certificate.
3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy the certificate requirements.

Program Core Courses:

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- CRJU 2041 - Criminological Theory
- CRJU 4170 - Victimology
- CRJU 3285 - Trauma in the Criminal Justice System

Program Electives:

There are two elective categories, Violence Focus and Professional Setting. The Violence Focus electives allows the student to learn about an area of violence in a more in-depth capacity. The Professional Setting elective allows the student to hone skills related to service delivery.

Violence Focus (students **take one** of the following):

- CRJU 3250 - Violence in Society
- CRJU 3280 - Trauma Among Correctional Populations
- CRJU 4140 - Domestic Violence and Crime
- ETST 2115 - Genocide in the 21st Century: Darfur and Beyond
- PSCI 4807 - Political Violence
- SOCY 4460 - Hate Groups and Group Violence
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable.

Professional Setting (students **take one** of the following):

- CRJU 4939 - Internship
- HDFR 4090 - Helping Profession Skills in HDFR
- PUAD 4009 - Human Service Organizations
- PMUS 3110 - Social and Political Implications of American Music
- Other electives not already listed may be considered but the student must receive approval from the academic advisor prior to enrollment

Students must adhere to departmental pre-requisites, if applicable

Post Baccalaureate Certificate

ALLIED AND PROFESSIONAL HEALTH SCIENCES POST BACCALAUREATE CERTIFICATE

Introduction

Please click [here](#) to see Integrative Biology Department information.

The health field offers job opportunities and rewarding careers. It is one of the fastest growing industries in the US and the Bureau of Labor Statistics has projected increasing demand and labor shortages for at least the next ten years. The CU Denver Post-Baccalaureate Allied and Professional Health Sciences Certificate was developed as an opportunity for the many students who already have a bachelor's degree and want to shift their career into this large and fast growing industry to improve employment opportunities and potential earnings.

In order to improve their position among many highly qualified applicants to health professions programs and for health science related jobs, we anticipate that many students will need to continue their higher education. The College of Liberal Arts and Sciences has developed a certificate that provides a broad foundation in STEM (Biology, Chemistry and Physics) and advanced health-oriented coursework that is essential for both graduate and professional programs and the needs of the health industry.

Students who have already completed an undergraduate degree but need additional undergraduate pre-requisite courses to apply to health professions programs (including medicine, pharmacy, dentistry, nursing, lab technicians, health research jobs and more) can benefit from the CU Denver Post Baccalaureate Allied and Professional Health Sciences Certificate. CU Denver is well-known for preparing students for applications to health careers and acceptance to health professions programs. This certificate program offers high quality, rigorous preparatory classes and exceptional health careers advising including assistance with letters of evaluation, seminars on application processes, and assistance finding clinical, research, and community service experiences to enhance applications.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor to confirm the best plans of study before finalizing them. Exceptions and substitutions must be approved by the Director of the certificate.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

When applying to CU Denver, students should select the Undergraduate Degree-Seeking option. After indicating that the student has or will have completed a bachelor's degree, the applicant should be directed to a screen that allows selection into the Allied and Professional Health Sciences Certificate. After admission, students should meet with a Health Professions Advisor (NC 3002) to work collaboratively to develop a course plan that best meets their academic and career goals.

Contact details

Trishia Vasquez

trishia.vasquez@ucdenver.edu

Health Professions Advising, NC 3002 C

General Requirements

- [Click here for information about Academic Policies](#)

Certificate Requirements

1. Students must complete a total of 32 credit hours with a minimum of 15 credit hours from the approved courses below at CU Denver.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours, from approved coursework.
3. Students must earn a minimum grade of C(2.0) in all certificate courses taken at CU Denver and must achieve a minimum cumulative certificate GPA of 2.0. All graded attempts in required and elective courses are calculated in the certificate GPA. Students cannot complete certificate or ancillary course requirements as pass/fail.
4. The 15 credit hours of course work from the approved list below must be completed at CU Denver. Other coursework (up to 17 credit hours) used as pre-requisites or other courses applicable to the certificate program, may be taken at CU Denver or transferred from another university after evaluation and approval.

Program Restrictions, Allowances and Recommendations

1. All upper division level courses used to satisfy the requirements for the Certificate must be completed at CU Denver.
2. Students may use prior/transfer coursework to fulfill requirements and prerequisites, as long as departmental faculty evaluate the coursework and decide they are directly equivalent to the courses at CU Denver.
3. All courses used to satisfy the requirements for the Certificate must be completed within a five-year period.
4. Individual courses used to earn the Certificate may carry other prerequisites that must be met before enrolling.
5. Students must complete all of the following courses or demonstrate equivalent credit through transfer coursework taken within the last 10 years.
6. A prerequisite for any course must be transferred or completed at CU Denver before enrolling in that course.
7. Graduate level courses can substitute for their undergraduate counterparts with approval.
8. Specific requirements may exist pertaining to financial aid.
9. Students must already have earned a Bachelor's degree to enroll for the certificate.
10. Students currently enrolled in Bachelor's, Master's or Doctoral degree programs are not eligible for the certificate.
11. Students who complete the Certificate may not apply the courses used to earn the Certificate toward a second degree, if they choose to return and seek a second degree at CU Denver.

CU Denver Certificate Coursework:

With approval, complete 15 credits from the following list:

- ANTH 3150 - Special Topics in Medical Anthropology
- ANTH 3202 - Anthropology of Health Care Policy
- ANTH 4010/5014 - Medical Anthropology: Global Health
- ANTH 4060/5060 - Evolutionary Medicine
- ANTH 4080/5080 - Global Health Practice
- ANTH 4290/5290 - Anthropology and Public Health
- ANTH 4300/5300 - Migrant Health
- ANTH 4600/5600 - Medical Anthropology
- ANTH 4800/5800 - Special Topics in Medical Anthropology

- BIOE 3010 - Bioinstrumentation
- BIOE 3020 - Introduction to Biomechanical Analysis
- BIOE 3030 - Introduction to Biomaterials
- BIOE 3040 - Physiology for Bioengineering
- BIOE 3050 - Cell & Molecular Bioengineering
- BIOE 3051 - Cell & Molecular Bioengineering Lab
- BIOE 3060 - Biostatistics, Measurement and Analysis
- BIOE 3070 - Bioengineering Lab I
- BIOE 3071 - Bioengineering Lab II
- BIOE 3090 - Introduction to BioDesign
- BIOE 3939 - Undergraduate Internship
- BIOE 4035 - Undergraduate BioDesign II
- BIOE 4045 - BioDesign III
- BIOE 4053 - Optics and Microscopy in Biomedical Research
- BIOE 4063 - 3D Modeling for Bioengineers
- BIOE 4064 - Advanced MatLab For Bioengineers And Life Scientists
- BIOE 4068 - Introduction to Medical Imaging
- BIOE 4069 - Advanced Biomechanics for Undergraduates

Other Programs

CU Denver Core Curriculum

The following represents the CU Denver Core curriculum as approved by the faculty on the Core Curriculum Oversight Committee (CCOC). The Core curriculum is a total of 34-38 semester hours.

English

Students must earn a minimum grade of C- or (1.7) in each course to satisfy this core curriculum requirement.

Both courses are required.

- ENGL 1020 - Core Composition I
- ENGL 2030 - Core Composition II

Mathematics

Students must earn a minimum grade of C- (1.7) to satisfy this core curriculum requirement.

One course is required.

- MATH 1010 - Mathematics for the Liberal Arts
- MATH 1060 - Finite Mathematics
- MATH 1109 - Stretch College Algebra-Part 2
- MATH 1110 - College Algebra
- MATH 1120 - College Trigonometry
- MATH 1130 - Precalculus Mathematics
- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 2830 - Introductory Statistics
- MATH 3041 - Fundamental Mathematics

Arts

One course is required.

- ENGL 2156 - Introduction to Creative Writing
- FINE 1000 - Fostering Creativity
- FINE 1001 - Introduction to Art
- FINE 1450 - Visual Culture: Ways of Seeing
- FITV 1001 - Fundamentals of Film and Television
- FITV 1005 - Introduction to Theatre & Arts in the Community

- FITV 1115 - Horror in Western Culture and Cinema
- LDAR 1015 - Engaging Landscapes for Wicked Change
- PMUS 1001 - Music Appreciation

Humanities

One course is required.

- CHIN 1000 - China and the Chinese
- ENGL 1601 - Storytelling: Literature, Film, and Television
- ENGL 2600 - Literary Classics
- ETST 2155 - African American History
- FINE 2600 - Art History Survey I (beginning Spring 2017)
- FINE 2610 - Art History Survey II (beginning Spring 2017)
- FREN 1000 - Introduction to Cultures of the French- Speaking World
- FREN 2003 - French Language III
- FREN 2004 - French Language 4: Introduction to Advanced Studies
- GRMN 1000 - Germany and the Germans
- HIST 1361 - U.S. History to 1876
- HIST 1362 - U.S. History Since 1876
- HIST 1381 - Backstories: Hidden Origins
- HIST 1400 - Controversies in History
- LCRT 2000 - Rebels, Villains, & Superheroes: How Children's Literature Shapes Our Identities
- PHIL 1012 - Introduction to Philosophy: Relationship of the Individual to the World
- PHIL 1020 - Introduction to Ethical Reasoning
- PHIL 2441 - Logic, Language and Scientific Reasoning
- RLST 1610 - Introduction to Religious Studies
- RLST 2660 - World Religions
- SPAN 1000 - Introduction to Cultures of the Spanish Speaking World

Behavioral Sciences

One course is required.

- ANTH 1302 - Introduction to Archaeology
- ANTH 2102 - Culture and the Human Experience
- COMM 1011 - Fundamentals of Communication
- COMM 1021 - Introduction To Media Studies

- HDFR 2080 - Sex, Human Development and Family Systems
- LING 2000 - Foundations of Linguistics
- PSYC 1000 - Introduction to Psychology I
- PSYC 1005 - Introduction to Psychology II
- SPSY 2200 - Child and Adolescent Mental Health in Schools and Communities

Social Sciences

One course is required.

- CRJU 1000 - Criminology and Criminal Justice: An Overview
- ECON 2012 - Principles of Economics: Macroeconomics
- ECON 2022 - Principles of Economics: Microeconomics
- EDFN 1000 - Equality, Rights & Education
- ENVS 1342 - Environment, Society and Sustainability
- ETST 2000 - Introduction to Ethnic Studies
- GEOG 1102 - World Regions Global Context
- GEOG 1602 - Urban Studies and Planning
- GEOG 2202 - Hazards to Disasters: Perception and Management
- HDFR 1080 - Lifespan Issues in Family Violence
- HDFR 2200 - Love, Family and Human Development
- INTE 2500 - Digital Media and Learning
- PBHL 1001 - Race, Gender, Class, & Health
- PBHL 2001 - Introduction To Public Health
- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice
- PSCI 1101 - American Political System
- PUAD 1001 - Introduction to Leadership and Public Service
- SJUS 2000 - Foundations in Social Justice
- SOCY 1001 - Understanding the Social World
- SOCY 2462 - Introduction to Social Psychology

Natural and Physical Sciences, Mathematics

Two courses are required. One of the two required courses must have a laboratory.

Science Courses with Labs

- ANTH 1303 - Introduction to Biological Anthropology
- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life

- BIOL 1560 - Basic Biology: From Cells to Organisms
- CHEM 1474 - Core Chemistry: Chemistry for Everyday
- CHEM 1494 - Forensic Chemistry
- PHYS 1052 - General Astronomy I

Science Courses with Co-requisite Labs

- BIOL 2051 - General Biology I **and**
- BIOL 2071 - General Biology Laboratory I

- BIOL 2061 - General Biology II **and**
- BIOL 2081 - General Biology Laboratory II

- CHEM 2031 - General Chemistry I **and**
- CHEM 2038 - General Chemistry Laboratory I

- CHEM 2061 - General Chemistry II **and**
- CHEM 2068 - General Chemistry Laboratory II

- ENVS 1044 - Introduction to Environmental Sciences **and**
- ENVS 1045 - Introduction to Environmental Sciences Laboratory

- GEOL 1073 - Physical Geology: Surface Processes **and**
- GEOL 1074 - Physical Geology: Surface Processes Laboratory

- GEOL 1083 - Physical Geology: Internal Processes **and**
- GEOL 1084 - Physical Geology: Internal Processes Laboratory

- PHYS 2010 - College Physics I **and**
- PHYS 2030 - College Physics Lab I

- PHYS 2311 - General Physics I: Calculus-Based **and**
- PHYS 2321 - General Physics Lab I

- PHYS 2020 - College Physics II **and**
- PHYS 2040 - College Physics Lab II

- PHYS 2331 - General Physics II: Calculus-Based **and**
- PHYS 2341 - General Physics Lab II

Science Courses without Labs and Mathematics

- CSCI 1350 - Introduction to Computing in Society
- GEOG 1202 - Introduction to Physical Geography
- PHYS 1100 - Foundations of Physics
- PSYC 2220 - Biological Basis of Behavior

MATH - A mathematics course taken to fulfill the Biological and Physical Sciences, Mathematics area must be from the approved Mathematics list, excluding the course taken to fulfill the Mathematics requirement.

- MATH 1010 - Mathematics for the Liberal Arts
- MATH 1080 - Calculus for Social Sciences and Business
- MATH 1110 - College Algebra
- MATH 1120 - College Trigonometry
- MATH 1130 - Precalculus Mathematics
- MATH 1401 - Calculus I
- MATH 2411 - Calculus II
- MATH 2421 - Calculus III
- MATH 2830 - Introductory Statistics
- MATH 3041 - Fundamental Mathematics

International Perspectives

One course is required.

A preapproved study abroad experience may satisfy this requirement.

- ANTH 3000 - Globalization, Migration and Transnationalism
- CLDE 1000 - Language, Identity, & Power: International Perspectives
- ENGL 3798 - International Perspectives in Literature and Film
- ENGR 3600 - International Dimensions of Technology and Culture
- ETST 3110 - Indigenous Studies

- ETST 3272 - Global Media
- FINE 1002 - International Perspectives through Animation
- FINE 3775 - Asian Art, 1850 to Now
- FITV 1120 - Contemporary World Cinema
- FITV 3550 - World Theatre
- FREN 3200 - The Francophone World in the Post-Colonial Era
- GEOG 3412 - Globalization and Regional Development
- GRMN 3200 - Current German Society and Culture
- HDFR 1000 - Global Human Development & Learning
- HDFR 3250 - Families in Global Perspectives
- HIST 3121 - The World at War, 1914-1945
- HIST 4032 - Globalization in World History Since 1945
- INTB 3000 - Global Perspectives
- INTB 4200 - International Marketing
- INTS 2020 - Foundations of International Studies
- MKTG 4200 - International Marketing
- PBHL 2052 - Global Demography and Health
- PHIL 3410 - Asian Philosophies and Religions
- PSCI 3022 - Political Systems of the World
- PSCI 3042 - Introduction to International Relations
- RLST 3120 - Islamic Traditions
- SOCY 3720 - Global Perspectives on Social Issues

Cultural Diversity

One course is required.

Cultural diversity courses are taught at the upper division level.

- ANTH 3142 - Cultural Diversity in the Modern World
- COMM 3271 - Communication and Diversity
- ECON 3100 - Economics of Race and Gender
- EDFN 3000 - Undocumented Mexican Immigration
- EDFN 4000 - Food Justice in City & Schools
- ENGL 3795 - Race and Ethnicity in American Literature
- ENGR 3400 - Technology and Culture
- ETST 3036 - American Indian Cultural Images
- ETST 3704 - Culture, Racism and Alienation
- FITV 3611 - Drama of Diversity
- HDFR 3020 - Black and Latino Children in Families and Schools

- HIST 3345 - Immigration and Ethnicity in American History
- HIST 3349 - Social Movements in 20th Century America
- LING 3100 - Language in Society
- MGMT 4100 - Leveraging Diversity and Inclusion in Business
- PHIL 3500 - Ideology and Culture: Racism and Sexism
- PMUS 3100 - US Music: Social & Political Impact
- PSCI 3034 - Race, Gender, Law and Public Policy
- PSCI 3035 - Political Movements: Race and Gender
- PSYC 4485 - Psychology of Cultural Diversity
- RLST 4000 - Religion and Cultural Diversity
- SOCY 3020 - Race and Ethnicity in the U.S.
- WGST 3020 - Gender, Sexuality and Race in American Popular Culture
- LCRT 3815 - Literacies in Diverse Families & Communities

Other Degree Requirements

In addition to the CU Denver Core Curriculum requirements listed above, students must complete a major and fulfill all additional School/College requirements. More information on these requirements can be found in the Academic Catalog in the following locations:

- Programs
- CU Denver General Graduation Requirements
- School/College Specific Graduation Requirements
 - Business School
 - College of Architecture and Planning
 - College of Arts & Media
 - College of Engineering, Design and Computing
 - College of Liberal Arts and Sciences
 - School of Education and Human Development
 - School of Public Affairs

Courses

Catalog Course Definitions

Core – Course is approved for specific core curriculum (i.e. arts and sciences curriculum; quantitative reasoning and mathematical skills)

Cross-Listed – Class that is offered along with another class that has the same topic, title, and course content. Max Hours displayed for each cross-listed class is the total number of hours allowed for all courses completed within a particular cross-listed group. *See below for more information on Max Hours.*

Gt - Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer as part of the gtPathways program.

Max Hours (in Course Description) – Total number of applicable credit hours that count toward a student’s degree for a particular course or cross-listed group.

Requisite:

- **Prerequisite** – Specific course completed or “in progress” (i.e. ENGL 1020 or ENGL 1020 with C- or higher)
- **Corequisite** – Specific course taken at the same time (i.e. BIOL 2071 taken same time as BIOL 2051)
- **Restriction** – Restricted to a specific population (i.e. Restricted to MUSC majors or junior standing, etc.)

Course Number Definitions:

- 1000 - 4999 Undergraduate Level
- 5000 - 9999 Graduate Level

Accounting

ACCT 2200 - Financial Accounting and Financial Statement Analysis

The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 or MATH 1060 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 or MATH 1120 with a grade of C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 2220 - Managerial Accounting and Professional Issues

Introduces managerial accounting. Shows managers how to use accounting information to make decisions. Principal focus on cost behavior analysis, budgeting and product costing. Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher and ACCT 2200 with a C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 2550 - Introductory Accounting for Entrepreneurs and the Arts

An integration of financial and managerial accounting processes as they relate to Entrepreneurs, Arts & Media managers and similar applications. This course will cover the analysis and interpretation of financial statements, asset and liability valuation and the

determination of net income. Incorporates the use of accounting information to make decisions focusing on cost behavior analysis, budgeting and product costing in entrepreneurial and arts related businesses. Prereq: MATH 1070 or 1110. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 3220 - Intermediate Financial Accounting I

A foundation course in financial accounting, this course provides an intensive analysis of generally accepted accounting principles, accounting theory and the construction and interrelation of financial statements for public corporations. Encourages critical thought and application of financial accounting standards to business transactions. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 3230 - Intermediate Financial Accounting II

Continuing the intensive coverage of financial accounting from ACCT 3220/ACCT 6031, this course covers concepts of financial accounting theory and generally accepted accounting principles not covered in 3220/6031. This typically includes detailed coverage of liabilities and equity, especially the topics of leases, deferred taxes, pensions and stock-options. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 3220, completed with a grade of a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6032. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 3320 - Intermediate Cost Accounting

Cost accounting links financial and managerial accounting and emphasizes communication between accountants and managers. Topics include managerial uses of cost data for decision making, analysis of activities and cost behavior, the role of accounting in planning and control, and computer-assisted decision modelling. A grade of C or higher is required in this course to proceed to the next level ACCT course or receive credit for the CPA license. Prereq: ACCT 2220 and DSCI/BANA 2010 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6070. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 3939 - Internship

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

ACCT 4030 - Financial Accounting

Analysis of financial accounting concepts, the development of accounting thought and principles and critical review of generally accepted accounting principles. (Not recommended for candidates planning to sit for the CPA examination.) Note: Students who have taken ACCT 3220 or ACCT 3230 (or equivalent) may not take this course. Prereq: ACCT 2200 and ACCT 2220 or equivalent. Must have a 'C' or better in courses. Strictly enforced. Max hours: 3 Credits.

Semester Hours: 3 to 3

ACCT 4054 - Accounting Information Systems

This course focuses on the analysis, design, implementation and control of accounting information systems. Emphasis is placed on primary business processes including documentation, modeling, retrieving information to support managerial decisions and controlling risks. Topics include transaction cycles, relational database modeling, data analytics and information systems risks and controls. Must earn a grade of C or better to qualify for graduation at the UG level and to receive credit for the CPA license. Prereq: ACCT 3220 with a grade of C or higher and ISMG 2050 with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6054. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4070 - Management Accounting

Designed to provide students with a foundation in management accounting models and information, with emphasis on management decision making uses of accounting information. (Not recommended for candidates planning to sit for the CPA examination.) Prereq: ACCT 2200 and 2220 or equivalent with a grade of a 'C' or better. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Note: Students who have taken ACCT 3320 or its equivalent may not take this course. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4240 - Advanced Financial Accounting

Advanced financial accounting concepts and practices with emphasis on accounting for partnerships, business combinations and consolidations. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C or higher, or department consent. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6024. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4280 - Accounting Ethics

This course examines the ethical responsibilities of accounting professionals from a personal and professional perspective, including examples of ethical dilemmas accounting professionals confront. The course utilizes various authoritative codes of conduct, professional standards and

applied ethical theory as ethical guidance for auditors, accountants, tax professionals, and accounting management. A variety of case studies are employed to give students practice in developing a decision making approach in dealing with difficult ethical scenarios. Prereq ACCT 4620. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4282 - Capitalism, Accounting and Ethical Choices

Examines the development of the U.S. economy from 1850 to today with emphasis on the ethics of accounting, capitalism, and government controls. Prereq: ACCT 3220 with a C or higher or permission. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4330 - Managerial Accounting Problems and Cases

Critical analysis of advanced topics in managerial accounting. Considerable use of cases and current readings. Prereq: Completion of ACCT 3320 with a grade of 'C'. Strictly enforced. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4370 - International Accounting

Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 6370 and INTB 6370. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4410 - Fundamentals of Federal Income Tax

Provisions and procedures of federal income tax laws and requirements affecting individuals and business organizations, including problems of tax planning and compliance. Note: Students cannot receive credit for both ACCT 4410 and ACCT 6140. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3220 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6140. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4420 - Taxation of Business Entities

A federal tax course stressing tax planning issues affecting corporations (both C corporations and S corporations) and partnerships. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4420 and ACCT 6150. Cross listed with ACCT 6150. Prereq: ACCT 2220 with a C- or higher. Prereq: ACCT 4410 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4442 - Accounting: Professional Research and Communications

This course provides students with a structured approach to researching and communicating practice-oriented financial accounting, auditing, and tax-related issues. After completing this course, students should be able to effectively: (1) Communicate (both oral and written) solutions to practice-oriented financial accounting, auditing, and tax-related issues. (2) Navigate through U.S. and international accounting, auditing, and tax authorities. (3) Conduct systematic research for all types of accounting-related problems then reach and communicate efficient conclusions using a variety of techniques. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Prereq: ACCT 4620 and ACCT 4410 both with a grade of C or higher. Cross-listed with ACCT 6442. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4490 - Experiential Learning

Designed to provide practical knowledge on developing a professional practice in accounting or financial management. Topics: Marketing, operating a professional practice. Lectures, guest speakers student projects. Prereq: ACCT 3220 completed with a 'C' or better, or permission of instructor. Cross-listed with ACCT 6490. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4520 - Oil and Gas Accounting

The Oil and Gas Accounting course is designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: ACCT 3220 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6520. Max Hours: 3 credits. **Semester Hours:** 3 to 3

ACCT 4620 - Auditing Theory

Auditing Theory: Focus on the professional responsibilities of CPAs, generally accepted auditing standards, and PCAOB auditing standards, with emphasis on the theory underlying the development of standards, objectives and procedures. Students cannot receive credit for both

ACCT 4620 & ACCT 6020. Note: A grade of C or higher must be earned to receive credit for the CPA license. A grade of B or higher must be earned if planning to take 6025 in the future. Prereq: ACCT 3220 and 4054 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6020. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4625 - Auditing Practice

Focus on the application of generally accepted auditing standards and PCAOB auditing standards to practice. Emphasis on procedures used by CPAs to gather and document audit evidence. Prereq: ACCT 4620 with a grade of C (2.0) or higher. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4625 and ACCT 6025. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4780 - Accounting and Information Systems Processes and Controls

The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4800 - Accounting for Government and Nonprofit Organizations

Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3220 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ACCT 6080. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4840 - Independent Study

Restricted to undergraduate Business majors with junior standing or higher. Max hours: 8 Credits. **Semester Hours:** 1 to 8

ACCT 4900 - Professional Certification in Accounting

This course will prepare students for the Uniform Certified Public Accountant Examination, including the Auditing and Attestation (AUD), Business Environment and Concepts (BEC), Financial Accounting and Reporting (FAR), and Regulation (REG) sections. Topical coverage will

include a balance of most-tested topics, difficult topics, and exposure to topics not addressed in required accounting degree courses. Note: there will be a materials fee of \$1,100 for this course. All materials will continue to be available until successful passage of the CPA Exam. Note: Undergraduate Accounting students typically perform better in this class when taking it during the final semester prior to graduation. Restriction: Restricted to Undergraduate and MS Accounting students. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4915 - Accounting for the Public Interest

Applies accounting knowledge and concepts in a not-for-profit organization. Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned. Prereq: Permission of instructor. Cross-listed with ACCT 6015. Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 4950 - Special Topics

Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings. Prereq: Varies according to topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ACCT 5939 - Internship

Max hours: 3 Credits. **Semester Hours:** 1 to 3

ACCT 6015 - Accounting for the Public Interest

Applies accounting knowledge and concepts in a not-for-profit organization. Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned. Note: This class is rarely offered. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Cross-listed with ACCT 4915. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6020 - Auditing Theory

Focus on the professional responsibilities of CPAs, generally accepted auditing standards, and PCAOB auditing standards, with emphasis on the theory underlying the development of standards, objectives and procedures. Students cannot receive credit for both ACCT 4620 & ACCT 6020. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 6030 or ACCT 6031 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 4620. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6024 - Advanced Financial Accounting

Advanced financial accounting concepts and practice with emphasis on accounting for partnerships, business combinations and consolidations. Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C or higher, or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 4240. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6025 - Auditing Practice

Focus on the application of generally accepted auditing standards and PCAOB auditing standards to practice. Emphasis on procedures used by CPAs to gather and document audit evidence. Prereq: ACCT 6020 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Students cannot receive credit for both ACCT 4625 and ACCT 6025. Note: A grade of C or higher must be earned to receive credit for the CPA license. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6031 - Intermediate Financial Accounting I

This course is designed to provide students with a comprehensive review and understanding of financial accounting principles, procedures, and financial statements as well as the measurement of income and assets. Skills related to problem solving, analytical thinking, and writing will also be developed. NOTE: Students who have taken ACCT 3220 (or equivalent) may not receive credit for ACCT 6031. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6032 - Intermediate Financial Accounting II

Continuing the intensive coverage of financial accounting from ACCT 3220/ACCT 6031, this course covers concepts of financial accounting theory and generally accepted accounting principles not covered in 3220/6031. This typically includes detailed coverage of liabilities and equity, especially the topics of leases, deferred taxes, pensions and stock-options. Note: A grade of C or higher must be earned to receive credit for the CPA license. NOTE: Students who have taken ACCT 3230 (or equivalent) may not receive credit for ACCT 6032. Prereq: ACCT 6031 with a grade of C or higher. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 3230. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6033 - Advanced Managerial Accounting

Critical analysis of advanced topics in managerial accounting. Note: This class is rarely offered. Prereq: ACCT 3320. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6054 - Accounting Information Systems

This course focuses on the analysis, design, implementation and control of accounting information systems. Emphasis is placed on primary business processes including documentation, modeling, retrieving information to support managerial decisions and controlling risks. Topics include transaction cycles, relational database modeling, data analytics and information systems risks and controls. Must earn a grade of C or better to qualify for graduation at the UG level and to receive credit for the CPA license. Prereq: ACCT 6031 or BUSN 6550 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 4054 (previously ACCT 3054). Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6070 - Intermediate Cost Accounting

Cost accounting links financial and managerial accounting and emphasizes communication between accountants and managers. Topics include managerial uses of cost data for decision making, analysis of activities and cost behavior, the role of accounting in planning and control, and computer-assisted decision modelling Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: STUDENTS WHO HAVE TAKEN ACCT 3320 (or equivalent) MAY NOT TAKE THIS COURSE. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 3320. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6080 - Accounting for Government and Nonprofit Organizations

Nonprofit Organizations. Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 3220 or BUSN 6550 or ACCT 6031 each with a C or higher, or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 4800. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6140 - Fundamentals of Federal Income Tax

Provisions and procedures of federal income tax laws and requirements affecting individuals and business organizations, including problems of tax planning and compliance. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4410 and 6140. Cross-listed with ACCT 4410. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6150 - Taxation of Business Entities

A federal tax course stressing tax planning issues affecting corporations (both C corporations and S corporations) and partnerships. Note: A grade of C or higher must be earned to receive credit for the CPA license. Note: Students cannot receive credit for both ACCT 4420 and ACCT 6150. Cross-listed with ACCT 4420. Prereq: ACCT 6140 or ACCT 4410 with a grade of C or higher. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA withing the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6220 - Seminar: Corporate Financial Strategy and Controls

This course is designed to provide a comprehensive understanding of the wide ranging responsibilities of the Controller, including the timely and accurate preparation of the periodic financial statements, maintenance of an adequate records system, a comprehensive set of internal controls and budgets in order to manage and mitigate risk, how to enhance the accuracy of the company's reported financial results and ensure compliance with GAAP or IFRS. Topics also include techniques for cash forecasting, controlling and administering budgets, and developing effective long-range plans. Prereq: ACCT 6030 or ACCT 6032 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6225 - Controllership: Managerial Strategy and Benefits Analy

This course is designed to provide a comprehensive understanding of the wide ranging responsibilities of the Controller from a managerial and tax accounting perspective. Topics include establishing a cost accounting system, planning and control of manufacturing costs, business and strategic planning, mergers and acquisitions and a variety of tax related issues such as employment tax, employee vs. contractor, and choice of entity. The course will also include a discussion of benefits analysis, stock based compensation, ISO, NQSO and 83b elections. Prereq: ACCT 6220 with a grade of C or higher. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6230 - Advanced Topics in Mergers and Acquisitions

Mergers and acquisitions are often a key component of organizational strategy for growth and competitive advantage; yet empirical studies indicate many of these transactions fail to meet their intended objectives. This course prepares accounting students as financial leaders to positively influence the achievement of planned synergies and acculturation for more successful M&A transactions. Integrating perspectives from accounting and organizational development, course topics include transaction valuation, contingent consideration, and asset impairment testing to organizational systems theory and post-transaction integration. Prereq: Grade of C (2.0) or higher in ACCT 6020 or ACCT 4620 and ACCT 6070. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6250 - Seminar: Financial Accounting

Nature and origin of accounting theory and the development of postulates, principles and practices. Methodology appropriate to development and evaluation of accounting theory, with special emphasis on accepted research standards and procedures. Note: A grade of C or higher must be earned to receive credit for the CPA license. Co-req: ACCT 6032 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6260 - Seminar: Managerial Accounting

Focuses on the conceptual foundations of managerial accounting. Behavioral and quantitative approaches regarding information for decision making, planning, control, performance evaluation and other issues are investigated. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 6070 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6280 - Accounting Ethics

This course examines the ethical responsibilities of accounting professionals from a personal and professional perspective, including examples of ethical dilemmas accounting professionals confront. The course utilizes various authoritative codes of conduct, professional standards and applied ethical theory as ethical guidance for auditors, accountants, tax professionals, and accounting management. A variety of case studies are employed to give students practice in developing a decision making approach in dealing with difficult ethical scenarios. Prereq: ACCT 6031 or BUSN 6550. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6282 - Capitalism, Accounting and Ethical Choices

Examines the development of the U.S. economy from 1850 to today with emphasis on the ethics of accounting, capitalism, and government controls. Prereq: ACCT 2220 or BUSN 6550 (not strictly enforced). Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6285 - Accounting and Finance for Sustainability

Topics in accounting and finance related to business sustainability include the merits and challenges of a triple-bottom-line perspective, mandatory and voluntary reporting, environmental liability measurement and disclosure, emissions trading, green investments, shareholder activism, microfinance, and socially responsible investing. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6290 - Management Control Systems

Focuses on the design and use of control systems which ensure that people in organizations behave consistently with the organizational goals. Controls for communication, motivation and performance evaluation (along with informational requirements) are stressed through analysis of cases and classroom discussion. Note: This class is rarely offered. Prereq: BUSN 6550 or equivalent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6320 - White Collar and Financial Crimes

Course provides an opportunity to examine criminal activity perpetrated by individuals and/or organizations in a position of trust. White collar and financial crimes are qualitatively different from street crimes or violent crimes, yet they are highly destructive. Cover: types of crime, social impact, prevention, detection, regulating etc. Prereq: BUSN 6550 with a C or higher. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6330 - Fraud Auditing

This course provides an introduction to and guidance for creation of an effective fraud audit program in core business systems. The fraud audit is designed specifically to detect potential fraud and is vastly different than the traditional audit. Fraud auditing focuses on proven fraud methodology that allows auditors to discover fraud versus investigating it. The course: • Explains how to create a fraud audit program • Shows auditors how to locate fraud through the use of data mining • Focuses on proven methodology for detecting fraudulent transactions • Explores fraud discovery within specific corporate F&A functions, such as disbursement, procurement, payroll, revenue misstatement, inventory, journal entries, and management override. Prereq: ACCT 6020. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6340 - Financial Statement Analysis

Financial statements are used as an information source on which to base investment, lending potential or even employment. Designed to develop skills in using, understanding, analyzing, and interpreting financial statements and to make students aware of the value and limitations of financial statement information. Note: Should take in the third semester of the graduate program. Prereq: BUSN 6550 or ACCT 6031 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6350 - Current Issues in Professional Accounting

An in-depth analysis of current issues in the accounting profession, including ethics development, and validity of standards and regulations. Prereq: ACCT 3230, ACCT 4620, ACCT 6020 or permission of instructor. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6360 - Fraud Examination

This course examines the theories and methods of the full spectrum of fraud examination including prevention, detection, investigation, and adjudication. In this course, students will explore the significant differences between fraud examination and auditing, going beyond detection into the investigative and adjudication process. Prereq: ACCT 6020 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6370 - International Accounting

Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: BUSN 6550 or equivalent. Note: Students cannot receive credit for both ACCT 6370 and INTB 6370. IFRS's are reviewed and compared with the requirements of US GAAP. Cross-listed with INTB 6370 and ACCT 4370. Prereq: ACCT 6031 or BUSN 6550. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6380 - Forensic Accounting

An examination of investigative auditing, fraud auditing, litigation support, and economic quantification of damages. Prereq: ACCT 4620 or ACCT 6020. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6400 - Taxation of C Corporations and Shareholders

This course is a study of federal income tax problems facing corporations and corporate shareholders. The course addresses introductory corporate tax issues found in Subchapter C of the Internal Revenue Code, including defining a "corporation" for federal income tax purposes; tax consequences associated with the formation of a corporation; taxation of corporate operations (including an analysis of the differences that exist between earnings and profits, dividend distributions and taxable income); corporate redemption transactions; partial

liquidations; complete liquidations; and the acquisition, sale and disposition of corporate entities in transactions governed by Sections 336(e) and 338 of the Internal Revenue Code. Prereq: ACCT 6150 with a grade of C or higher. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits.

Semester Hours: 3 to 3

ACCT 6410 - Advanced Tax for Individuals

This course is an advanced federal income tax course stressing the use of the Internal Revenue Code, Treasury regulations, case law, and administrative guidance to resolve federal income tax issues affecting individuals. Topics include items of gross income inclusion, exclusions, deductions, items of non-recognition, characterization of income, and tax rates. Prereq: Grade of C or higher in ACCT 6140 or ACCT 4410. Restriction: Restricted to graduate business majors and NDGR majors with a sub-plan of NBA or CPA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6442 - Accounting: Professional Research and Communications

This course provides students with a structured approach to researching and communicating practice-oriented financial accounting, auditing, and tax-related issues. After completing this course, students should be able to effectively: (1) Communicate (both oral and written) solutions to practice-oriented financial accounting, auditing, and tax-related issues. (2) Navigate through U.S. and international accounting, auditing, and tax authorities. (3) Conduct systematic research for all types of accounting-related problems then reach and communicate efficient conclusions using a variety of techniques. Prereq: ACCT 6030 or ACCT 6032 or ACCT 3230 each with a grade of C or higher, or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Cross-listed with ACCT 4442. Max hours: **Semester Hours:** 3 to 3

ACCT 6450 - Tax Research

This course provides a study of various methodologies used in tax research and tax planning and requires students to present their results through various forms of business communication. In particular, this course explores techniques (with an emphasis on electronic/on-line techniques) for locating and researching judicial cases, statutory materials and legislative histories, and administrative materials promulgated by the Internal Revenue Service applicable to tax-related issues and problems. Students must present their tax research results for various client-based hypothetical factual patterns in written formats, including memoranda and client letters, and through individual oral and group presentations. Restriction: Restricted to graduate business majors and NDGR majors with a sub-plan of NBA or CPA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6470 - Internal Auditing

Intro course for business students and CIA candidates. Topics include: IA fundamentals; IA standards; internal controls; managing the IA department; IA working papers, procedures and evidences; fraud detection and prevention; ethics; evaluation of the IA function, and Sarbanes-Oxley Act of 2002. Prereq: ACCT 4620 or ACCT 6020. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits.

Semester Hours: 3 to 3

ACCT 6480 - Partnership Taxation

This course focuses on fundamental tax issues relating to partnerships and partners arising from the formation, operation, and liquidation of partnerships. Course work includes an examination of pertinent federal income tax returns of a partnership. Prereq: ACCT 6150 with a grade of C or higher. Restriction: Restricted to graduate business majors and NDGR majors with a sub-plan of NBA or CPA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6490 - Experiential Learning

Designed to provide practical knowledge on developing a professional practice in accounting or financial management. Topics: Marketing, operating a professional practice. Lectures, guest speakers (if you are interested in being a guest lecturer for the class contact the instructor), and student projects. Prereq: ACCT 3220 or permission of instructor. Cross-listed with ACCT 4490. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6510 - Advanced Accounting Information Systems

The course is designed to develop knowledge and skills used to understand and evaluate corporating accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: ACCT 6054 or department consent. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6520 - Issues in Oil and Gas Accounting

The Oil and Gas Accounting course is a course designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: BUSN 6550 or ACCT 3220 or permission of instructor.

Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Cross-listed with ACCT 4520. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6620 - Seminar: Auditing and Other Assurance Services

A graduate seminar course providing in-depth exposure to specialized topics in auditing and other assurance services, with an emphasis on recent developments in the profession. Includes coverage of generally accepted auditing standards and PCAOB standards. Note: A grade of C or higher must be earned to receive credit for the CPA license. Prereq: ACCT 6020. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6800 - Special Topics

Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings as new special topics courses are frequently added. Prereq: Varies according to topics and instructor requirements. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ACCT 6840 - Independent Study

Permission of instructor required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Repeatable. Max Hours: 8 Credits. **Semester Hours:** 1 to 8

ACCT 6900 - Professional Certification in Accounting

This course will prepare students for the Uniform Certified Public Accountant Examination, including the Auditing and Attestation (AUD), Business Environment and Concepts (BEC), Financial Accounting and Reporting (FAR), and Regulation (REG) sections. Topical coverage will include a balance of most-tested topics, difficult topics, and exposure to topics not addressed in required accounting degree courses. Note: there will be a materials fee of \$1,100 for this course. All materials will continue to be available until successful passage of the CPA Exam. Note: Undergraduate Accounting students typically perform better in this class when taking it during the final semester prior to graduation. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ACCT 6939 - Internship/Cooperative Education

Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: 15 semester hours for MS students and 21 hours for MBA students and a cumulative 3.2 GPA. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ACCT 6950 - Master's Thesis

Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 8 Credits. **Semester Hours:** 1 to 8

Anthropology

ANTH 1000 - Anthropology: Past and Present

Anthropology is the study of humankind in all of its diversity and complexity. Anthropologists have traditionally approached the study from four distinct perspectives: biological, cultural, linguistic and archaeological. This course considers how anthropologists study humankind from these four perspectives and the robust picture of humanity that emerges. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 1111 - Freshman Seminar

Restriction: Restricted to Freshman level students. Repeatable. Max hours: 9 Credits. **Semester Hours:** 1 to 3

ANTH 1302 - Introduction to Archaeology

Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3 **Semester Hours:** 4 to 4

ANTH 1303 - Introduction to Biological Anthropology

Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1 **Semester Hours:** 4 to 4

ANTH 2102 - Culture and the Human Experience

An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3 **Semester Hours:** 3 to 3

ANTH 2400 - Exploring Culture through Social Media

Introduction to social media and analysis applied to cultural change. Focus on theories and practices of non-fiction image-making and "doing digital ethnography" to examine a range of experience and knowledge among different societies, communities, technologies, policy discourses and ourselves. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 2840 - Independent Study

Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 1 to 3

ANTH 2939 - Internship

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

ANTH 3000 - Globalization, Migration and Transnationalism

Examines the cultural dynamics of globalization, including: the development of special economic zones in the global south, rural to urban migration, transnational migration, the maintenance of transnational ties, and cross-border social formations. Reviews the dynamics of globalization through case studies and film. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3006 - Sustainable Development and Equity

Investigates theories, policies and discourses of development and equity and their relationship to health, socio-environmental problems. Considers the connections between green environmental knowledge and neoliberalism, the success and failures of development along public health, economic equality, social justice and ecological lines. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3008 - Contemporary World Problems: An Anthropological Perspective

This course examines contemporary problems confronting humanity from an anthropological perspective - a historical, holistic and comparative framework that will be used to critically assess these issues and identify forces driving them. Problems to be addressed include climate and environmental change, resource depletion, and poverty and inequality. Prereq: Junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3042 - Lost Worlds and Crystal Skulls

This class explores the differences between science and pseudoscience specifically within the realm of anthropology. Scientific method and critical thought are employed in a way that trains students to question and recognize the difference between fact and fiction in data. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3045 - Cannabis Culture

Familiarizes students with anthropological approaches to the culture of cannabis, including medicinal and recreational. Topics: history, cultural uses, legalization, cannabis capitalism, health effects, race and inequality, regulatory policies, retailing and consumption. Ethnographic research for data collection emphasized. Term offered: summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3101 - Foundations of Cultural Anthropology

Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: ANTH 2102 with a C- or higher. Term offered: fall. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3121 - Language, Culture, and Communication

Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3142 - Cultural Diversity in the Modern World

An in-depth analysis of the phenomena of culture and application of the culture concept to understanding cultural diversity in the modern world. Applies the concept of culture to several basic aspects of human social life, for example: social class and gender relations, ethnicity, racism and sexism, education, health and economic behavior. Students explore these issues in the context of case studies of particular groups and/or communities, focusing primarily on the diversity of cultural expression in contemporary U.S. Note: This course may count for the

International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3150 - Special Topics in Medical Anthropology

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers

Explores the relationship between human migration, voluntary and forced and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with PBHL 3200. Max hours: 3 Credits.

Semester Hours: 3 to 3

ANTH 3202 - Anthropology of Health Care Policy

Uses the tools and methods of cultural anthropology to analyze health care reform in the U.S. We examine analyses of the current health care system, debates over its reform, compare the US health care system to that of health care systems worldwide. Max hours: 3 Credits.

Semester Hours: 3 to 3

ANTH 3210 - Urban Food Systems and Sustainability

Urbanites are increasingly removed from the complex of factors that provide us food. Being concerned about sustainability, we need to understand the complex webs in food systems and their implications for the health and natural systems. This problem-based course will wrestle with urban food systems organized to address the 3 E's of sustainability: environmental, economic, and equity. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3250 - Climate, Environment and Society

This course will engage social theory and case studies to examine Climate Change, its impact and consequences for human life, and what communities and societies are doing to address it. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3301 - World Prehistory

Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and

the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Note: Introductory course in Archaeology (ANTH 1302) recommended. Term offered: fall, spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3310 - Colorado Archaeology

A survey of the prehistoric and protohistoric peoples of the five major culture areas of Colorado: the Four Corners, Great Basin, Rocky Mountains, High Plains, and Front Range. Of special interest will be the study of the initial peopling of Colorado, economic and political organization, ethnic interaction and the history of archaeological work in the region. Prereq: ANTH 1302 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3315 - North American Archaeology

Course provides a survey of the prehistoric and historic archaeology of the United States, Canada and Northern Mexico. Current knowledge of the subject and current debates are discussed. Prereq: ANTH 1302 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3316 - History of Human Environmental Impacts

Humans exist as active members of an ecosystem. There is increasing awareness that human actions have changed the environment and continue to do so. While ecologists, climatologists, and engineers work to address current and future environmental problems, the discipline of archaeology can provide a time depth and crosscultural breadth of perspective on how such issues have impacted human societies. This course will investigate and critically assess the claim that environmental and ecological factors have played a key role in the dissolution of once thriving civilizations. Examples will be drawn from across time and space, specifically emphasizing the archaeological record and the perspective it provides on a problem that is of critical relevance today. In this course students will: 1) Learn how humans have engaged with their environments over the course of our species' evolutionary history; 2) Critically assess contemporary discussions of collapse and ecocide by contextualizing human environment interactions within the frameworks of resilience, niche construction, and ecosystem engineering; 3) Use 'lessons from the past' to inform contemporary ecological debates; 4) Objectively evaluate the factual basis of various claims made about how humans affect, have affected, and likely will affect their environments; 5) Actively engage with the community to build sustainable gardens. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3320 - Southwestern Archaeology

Considers the origins, characteristics, and interrelationships of the major culture areas in the American southwest, including the Anasazi, Hohokam, Mogollon, Sinagua and Northern Mexico. Note: ANTH 1302 recommended but not required. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3330 - Topics in Archaeology

A flexible format for addressing specific topics in archaeology. Examples include the archaeology of the Great Plains, the Mediterranean Region, etc. Prereq: ANTH 2102 with a C- or higher. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ANTH 3410 - Anthropology of Work

Explores the culture of workforces and workplaces. Ethnographic methods and collaborative research practices comprise the framework of the course to examine people, occupations and work cultures engaged in production and consumption of commodities at local and global levels. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3420 - Anthropology and Politics of the Global Tobacco Epidemic

Examines anthropological perspectives on tobacco, tobacco-related health policy making, and cigarette manufacturers and leaf-buying companies in the global tobacco epidemic. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3500 - Human Osteology

Provides in-depth knowledge of human osteology, including the following topics: skeletal anatomy; age, sex and stature determination; skeletal trauma/pathology; and taphonomy. Recitation component provides hands-on experience with skeletal material. Prereq: ANTH 1303 with a C- or higher. Max Hours: 4 Credits. **Semester Hours:** 4 to 4

ANTH 3512 - Human Evolution

Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303 with a C- or higher. Term offered: fall, spring. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3550 - Forensic Anthropology

Provides an introduction to methods used in forensic anthropology for investigating human remains in cases of medicolegal importance, including recovery, attribution of demographic characteristics, analysis of disease and trauma and determination of personal identity. Prereq: ANTH 1303 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3560 - Human Variation and Adaptation

This course explores the nature of modern human biological variation and adaptation. We address the evolutionary and biological theory that informs our study of contemporary human

anatomy and physiology. Topics covered include, the nature vs. nurture debate, variation in skin pigmentation and the concept of "race", skeletal adaptations, adaptations to extreme environments and sexbased variation. Term offered: every other year. Prereq: ANTH 1303 with a C- or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3590 - Primate Behavior Research at the Zoo

Students will review information on primates, learn about data collection models, design a behavior observation project on captive primates, collect and analyze behavior data, write and present a formal scientific paper. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3666 - Anthropology of Death

The primary goal of the course is to identify and understand the range of human expression through the treatment of human remains in anthropological literature with focus on burials, mortuary practices, and associated rituals. Along with more theoretical papers, specific case studies will be used to address a variety of topics and issues, such as historic and prehistoric social organization, bio-archaeology, cannibalism, human sacrifice, mummification, the ethics of studying human remains, and the treatment of pets in prehistory. The time range that we will cover in the course will span from the Neolithic to the early 20th century, and numerous cultures from all parts of the globe will be our subject matter. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 3700 - Current Topics in Anthropology

This undergraduate course offers a flexible format for addressing specific topics of special interest in anthropology, such as: aging, race and prejudice, class, warfare and aggression, ethnicity, myth and folklore, language and communication, Colorado prehistory and topics in evolutionary theory. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ANTH 3910 - Cross-Cultural Field Experience

An intensive contact with another culture through supervised travel in the U.S. or in a country other than the United States. Written reports required. Note: Class includes pre-trip orientation lectures; in-country lectures by local resource people and supervising CU-Denver faculty. Max hours: 6 Credits. **Semester Hours:** 3 to 6

ANTH 3939 - Internship

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

ANTH 4000 - Special Topics in Anthropology

Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Junior standing or higher. Cross-listed with ANTH 5000. Repeatable. Max hours: 9 Credits. **Semester Hours:** 1 to 4

ANTH 4010 - Medical Anthropology: Global Health

This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Junior standing or higher. Cross-listed with ANTH 5014. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4030 - Ethnobiology

Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Junior standing or higher. Cross-listed with ANTH 5030. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4040 - Anthropology of Food and Nutrition

Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Junior standing or higher. Cross-listed with ANTH 5040. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4050 - Quantitative Methods in Anthropology

Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedures. Prereq: Junior standing or higher. Cross-listed with ANTH 5053. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4060 - Evolutionary Medicine

Evolutionary medicine is a relatively new approach for understanding patterns of human health and disease. In this course, students will learn how human evolutionary history has shaped our susceptibility and resistance to both chronic and infectious diseases. Prereq: ANTH 1303 with a C- or higher. Cross-listed with ANTH 5060 and PBHL 4060. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4070 - Culture of Development and Globalization

Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Note: students should consult with the instructor prior to enrolling in this course. Prereq: Junior standing or higher. Cross-listed with ANTH 5070. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4080 - Global Health Practice

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: Junior standing or higher. Cross-listed with ANTH 5080 and PBHL 4080. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4090 - Drug Syndemic

Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: Junior standing or higher. Cross-listed with ANTH 5090 and PBHL 4090. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4121 - Zooarchaeology

Introduction to the theory and methods of zooarchaeology through lectures, readings, and hands-on lab work identifying and analyzing mammalian skeletal material. Students will learn what mammalian remains indicate about biological and cultural evolution of humans. Cross-listed with ANTH 5121. Prereq: ANTH 1303 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4150 - Human Biocultural Adaptability

The chief concern of this course is the relationship between ourselves and our surroundings and the very immediate ways the environments in which we live affect us. The view is of ourselves as a part of, not apart from, these environments. Prereq: Junior standing or higher. Cross-listed with ANTH 5150. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4170 - Culture and the Environment

Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding

environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: Junior standing or higher. Cross-listed with ANTH 5170. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4180 - The Nature of Power

Introduces the major theories of power used in contemporary anthropology, with an emphasis on cross-cultural perspectives. Explores how power is defined, determined and exercised globally and locally and how different systems of power articulate with one another. Prereq: Junior standing or higher. Cross-listed with ANTH 5180. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4200 - Gender in Cross-Cultural Perspective

A comparative analysis of gender-based status and social roles of women and men, with women's status and roles emphasized due to their near-universal construction as the "Other" sex. Examines in cross- and sub-cultural context the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: Junior standing or higher. Cross-listed with ANTH 5200. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4230 - Anthropology and Community Based Participatory Research

The seminar explores anthropological critiques, knowledge production and multi-media approaches to community based participatory research (CBPR) such as photovoice and digital storytelling to understand the history of CBPR and analyze partnerships between university researchers and community representatives. Cross-listed with ANTH 5230. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4260 - Human Reproductive Ecology

Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: Junior standing or higher. Cross-listed with ANTH 5260. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4270 - Anthropology of the Body

Explores how society, through culture, creates collective and individual bodies; embodied experience across the life course; and the body as an expression of social power, bodily modification and adornment. Note: ANTH 2102 or ANTH 3101 are recommended be taken before this course for undergraduate students. Cross-listed with ANTH 5270. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4290 - Anthropology and Public Health

"This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: Junior standing or higher. Cross-listed with ANTH 5290. Max hours: 3 Credits." **Semester Hours:** 3 to 3

ANTH 4300 - Migrant Health

This course examines health issues associated with transnational migration from an anthropological point of view. Drawing upon case studies, we examine the health of migrant communities in both host and sending nations. Prereq: Junior standing or higher. Cross-listed with ANTH 5300. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4320 - Archaeology of Mexico and Central America

Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Junior standing or higher. Cross-listed with ANTH 5320. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4330 - Lithic Analysis

Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: Junior standing or higher. Cross-listed with ANTH 5330. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4350 - Anthropology of Globalization

This course provides an overview of anthropological contributions to the study of globalization. Particular attention is devoted to: transformations in global capitalism, state and immigration policy, transnational families, health and transnationalism. Prereq: Junior standing or higher. Cross-listing ANTH 5350. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4380 - Archaeology of Hunters-Gatherers

Explores the theory and methods used by archaeologists to investigate prehistoric hunter gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Prereq: Junior standing or higher. Cross-listed with ANTH 5380. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4390 - Laboratory Methods in Archaeology

Methods and theories of archaeology are used to scrutinize the collection and interpretation of data and the relationships of archaeology to other disciplines. Core materials emphasize the critique of basic archaeological assumptions. Note: Course content varies slightly each time it is offered, in response to student needs and the availability of projects (e.g., laboratory work, urban excavation, survey and mapping). May be repeated for credit when topics change. Prereq: Junior standing or higher. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4400 - Archaeology of Power and Inequality

Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Prereq: Junior standing or higher. Cross-listed with ANTH 5400. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4440 - Museums in the 21st Century

This is an advanced course on natural history/anthropology museums. It will examine practical issues facing museums, and consider the complex questions that museums raise. The class includes lectures, discussions, and hands-on collection work, and exhibit/ outreach development. Cross-listed with ANTH 5440. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4450 - Development and Conservation: Contemporary Issues

Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: Junior standing or higher. Cross-listed with ANTH 5450. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4460 - Development and Conservation: Theory and Practice

Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and globalization are studied. Prereq: Junior standing or higher. Cross-listed with ANTH 5460. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4500 - Advanced Issues in Human Evolution

This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of

human evolution, non-human primate comparative information. Prereq: Junior standing or higher. Cross-listed with ANTH 5500. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4550 - Primate Comparative Anatomy

Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Prereq: Junior standing or higher. Cross-listed with ANTH 5550. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4560 - Human Ecology

Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Junior standing or higher. Cross-listed with ANTH 5560. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4570 - Landscape Archaeology

Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: Junior standing or higher. Cross-listed with ANTH 5570. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4580 - Neanderthals and the Origin of Modern Humans

Focuses on the human fossil record for the taxon *Homo sapiens*, including the earliest members of this group ("early" or "archaic" *Homo sapiens*), the Neanderthals and so-called "anatomically modern" *Homo sapiens*. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: Junior standing or higher. Cross-listed with ANTH 5580. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4590 - Primate Behavior

Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Prereq: Junior standing or higher. Cross-listed with ANTH 5590. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4600 - Medical Anthropology

Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Junior standing or higher. Cross-listed with ANTH 5600. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4640 - Darwinian Approach to Human Behavior

The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Prereq: Junior standing or higher. Cross-listed with ANTH 5640. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4800 - Special Topics in Medical Anthropology

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: Junior standing or higher. Repeatable. Cross-listed with ANTH 5800. Max hours: 9 Credits. **Semester Hours:** 3 to 9

ANTH 4810 - Integrating Anthropology

Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Note: this course assumes that students have completed course work equivalent to a minor in anthropology. Prereq: Junior standing or higher. Cross-listed with ANTH 5810. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 4840 - Independent Study

Directed study based on a specific subfield of anthropology. Note: Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 3

ANTH 4880 - Directed Research

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

ANTH 4910 - Field Experience in Archaeology

Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Prereq: Junior standing or higher. Cross-listed with ANTH 5910. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 6

ANTH 4995 - Global Study Topics

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 3 to 9

ANTH 5000 - Special Topics in Anthropology

Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Permission of instructor. Restriction: Restricted to Anthropology graduate students. Cross-listed with ANTH 4000. Repeatable. Max hours: 9 Credits. **Semester Hours:** 1 to 6

ANTH 5014 - Medical Anthropology: Global Health

This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 5024. Prereq: Graduate standing. Cross-listed with ANTH 4010. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5030 - Ethnobiology

Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Note: this course assumes that students have completed introductory coursework in anthropology and/or biology. Prereq: Graduate standing. Cross-listed with ANTH 4030. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5053 - Quantitative Methods in Anthropology

Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedure. Note: this course assumes that students have completed a college-level algebra course. Prereq: Graduate standing. Cross-listed with ANTH 4050. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5060 - Evolutionary Medicine

Evolutionary medicine is a relatively new approach for understanding patterns of human health and disease. In this course, students will learn how human evolutionary history has shaped our susceptibility and resistance to both chronic and infectious diseases. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4060 and PBHL 4060. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5070 - Culture of Development and Globalization

Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Note: students should consult with the instructor prior to enrolling in this course. Prereq: Graduate standing. Cross-listed with ANTH 4070. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5080 - Global Health Practice

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Note: this course assumes that students have completed HBSC/ANTH 4010/5014, HBSC/ANTH 4020/5024, HLTH 6070 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4080 and PBHL 4080. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5121 - Zooarchaeology

Introduction to the theory and methods of zooarchaeology through lectures, readings, and hands-on lab work identifying and analyzing mammalian skeletal material. Students will learn what mammalian remains indicate about biological and cultural evolution of humans. Cross-listed with ANTH 4121. Restriction: Restricted to Graduate and Graduate Non-Degree majors. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5200 - Gender in Cross-Cultural Perspective

A comparative analysis of gender-based status and social roles of women and men, with women's status and roles emphasized due to their near-universal construction as the "other" sex. Examines, in cross- and sub-cultural context, the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: Graduate standing. Cross-listed with ANTH 4200. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5230 - Anthropology and Community Based Participatory Research

The seminar explores anthropological critiques, knowledge production and multi-media approaches to community based participatory research (CBPR) such as photovoice and digital storytelling to understand the history of CBPR and analyze partnerships between university researchers and community representatives. Prereq: Graduate standing. Cross-listed with ANTH 4230. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5260 - Human Reproductive Ecology

Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4260. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5270 - Anthropology of the Body

Explores how society, through culture, creates collective and individual bodies; embodied experience across the life course; and the body as an expression of social power, bodily modification and adornment. Restriction: Restricted to Graduate and Graduate Non-Degree majors. Cross-listed with ANTH 4270. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5290 - Anthropology and Public Health

This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: Graduate standing. Cross-listed with ANTH 4290. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5300 - Migrant Health

This course examines health issues associated with transnational migration from an anthropological point of view. Drawing upon case studies, we examine the health of migrant communities in both host and sending nations. Prereq: graduate standing. Cross-listed with ANTH 4300. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5320 - Archaeology of Mexico and Central America

Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the

Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Note: this course assumes that students have completed an introductory archaeology course. Prereq: Graduate standing. Cross-listed with ANTH 4320. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5330 - Lithic Analysis

Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Note: this course assumes that students have completed ANTH 1302 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4330. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5350 - Anthropology of Globalization

This course provides an overview of anthropological contributions to the study of globalization. Particular attention is devoted to: transformations in global capitalism, state and immigration policy, transnational families, health and transnationalism. Note: previous coursework in anthropology is strongly recommended for success in this course. Prereq: Graduate standing. Cross-listing ANTH 4350. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5380 - Archaeology of Hunters-Gatherers

Explores the theory and methods used by archaeologists to investigate prehistoric hunter gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Note: this course assumes that students have completed ANTH 1302 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4380. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5400 - Archaeology of Power and Inequality

Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Note: this course assumes that students have completed ANTH 1302 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4400. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5440 - Museums in the 21st Century

This is an advanced course on natural history/anthropology museums. It will examine practical issues facing museums, and consider the complex questions that museums raise. The class includes lectures, discussions, and hands-on collection work, and exhibit/ outreach development. Restriction: Restricted to Graduate and Graduate Non-Degree majors. Cross-listed with ANTH 4440. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5500 - Advanced Issues in Human Evolution

This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Prereq: Graduate standing. Cross-listed with ANTH 4500. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5530 - Anthropological Genetics

An advanced survey of molecular and population genetics and their applications in anthropology. Topics vary, including but not limited to: genetic epidemiology, genetic distance studies, behavioral genetics, developmental genetics, sociobiology, and use of mitochondrial DNA to reconstruct population histories. Emphasis is on applications of new technology and methodology, as well as new genetic paradigms replacing classical models of genetic causation. Note: this course assumes that students have completed undergraduate coursework in biological anthropology or genetics. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5550 - Primate Comparative Anatomy

Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4550. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5560 - Human Ecology

Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Note: this course assumes that students have a background in biological or physical anthropology. Prereq: Graduate standing. Cross-listed with ANTH 4560. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5570 - Landscape Archaeology

Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Note: this course assumes that students have completed ANTH 1302 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4570. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5580 - Neanderthals and the Origin of Modern Humans

Focuses on the human fossil record for the taxon *Homo sapiens*, including the earliest members of this group ("early" or "Archaic" *Homo sapiens*), the Neanderthals and so-called "Anatomically modern" *Homo sapiens*. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4580. Max hours: 3 Credits.

Semester Hours: 3 to 3

ANTH 5590 - Primate Behavior

Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4590. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5600 - Medical Anthropology

Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Graduate standing. Cross-listed with ANTH 4600. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5640 - Darwinian Approach to Human Behavior

The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Note: this course assumes that students have completed ANTH 1303 or equivalent. Prereq: Graduate standing. Cross-listed with ANTH 4640. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5800 - Special Topics in Medical Anthropology

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: graduate standing. Repeatable. Cross-listed with ANTH 4800. Max hours: 9 Credits. **Semester Hours:** 3 to 9

ANTH 5810 - Integrating Anthropology

Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique

perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Restriction: Restricted to Anthropology graduate students. Cross-listed with ANTH 4810. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 5840 - Independent Study

Directed study based on a specific subfield of anthropology. Prereq: Permission of instructor required. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 6

ANTH 5880 - Directed Research

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

ANTH 5910 - Field Experience in Archaeology

Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Note: this course assumes that students have a background in archaeology. Prereq: Graduate standing. Cross-listed with ANTH 4910. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 6

ANTH 5939 - Internship

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 6

ANTH 5995 - Global Study Topics

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Max hours: 9 Credits. **Semester Hours:** 3 to 9

ANTH 6000 - Seminar in Current Research Topics

An inquiry into current research of critical and general interest to anthropologists. Variable format. Note: students should receive permission from the instructor prior to registering for

this course. Prereq: Graduate standing. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 3

ANTH 6040 - Advanced Topics in Medical Anthropology

A flexible seminar format for dealing with topics of special interest in medical anthropology on an advanced graduate level. Topics to be considered vary from semester to semester. Examples include high altitude adaptation, anthropological perspectives on substance abuse, epidemiology, environmental and occupational health, the health consequences of cultural change and cross-cultural psychiatry. Note: Topics vary from semester to semester. Note: students should receive permission from the instructor prior to registering for this course. Prereq: Graduate standing. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 4

ANTH 6041 - Human Genetics: Legal, Ethical and Social Issues

Examines legal, ethical and social issues that have come about with advances in human genetics. Topics include privacy, informed consent, discrimination, forensics, medical malpractice and property rights. Prereq: Graduate standing. Cross-listed with HBSC 6320 and 7320. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6063 - Qualitative Research Design and Methods

Much of the data collected in the social sciences is interview and text-based. This course explores methods for collecting and analyzing these data and theoretical paradigms that underlie these methods. Restriction: Restricted to Anthropology graduate students. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6103 - Current Theory in Ethnography

An in-depth inquiry into important theories in cultural anthropology through extensive primary source reading. Practice in formulating theory, critical thinking and theoretical writing are emphasized. Note: First course in a two-course required graduate sequence. Note: this course assumes that students have completed undergraduate coursework in cultural anthropology. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6133 - Anthropological Perspectives on Language

An intensive introduction to linguistic anthropology. Following a brief survey of technical linguistics, focus is on: the roles of language in society; multilingualism; language and identity; language and worldview; language, gender, class and power; language as social action; and other topics. Students carry out investigations based on models from their reading, as well as responding to the theoretical approaches of the field. Note: this course assumes that students have completed undergraduate coursework in cultural anthropology. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6307 - Contemporary Perspectives in Archaeology

Explores contemporary theoretical methodological perspectives in archaeology. Structured to proceed from a survey of the history of archaeological thought based on recent retrospectives, to an analysis of works reflecting current perspectives and directions. Topics include: archaeological interpretation, classical versus scientific archaeology, versus culture-history, functionalist and materialist paradigms, ethno-archaeological and text-based studies, neo-evolutionism, interactionist models, Marxist perspectives, processual theory. Note: this course assumes that students have completed undergraduate coursework in archaeology. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6317 - Archaeological Research Design and Analysis

Examines the methods and techniques used in archaeology, including theory-building, hypothesis testing and middle range theory. Core materials emphasize the learning and critique of basic archaeological assumptions and the methods and theories used to scrutinize the collection and interpretation of data. Topics include chronometric applications and paleo-environmental reconstruction. Note: this course assumes that students have completed ANTH 6307 or equivalent. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6503 - Biological Anthropology Core: The Fossil Record

Examines the historical development and modern practice of biological anthropology, including the theoretical and methodological foundations of this field. Emphasis is placed on the evidence for human and non-human primate evolution and the processes that influenced this evolution. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6513 - Biological Anthropology Core: Modern Human Variation

Considers the theory and methods used in investigations of biological variation in contemporary human populations. This includes the biological and cultural sources responsible for creating and maintaining contemporary variation as well as their functional consequences. Methods of research design and how to write a grant and scientific articles are considered. Prereq: Graduate standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ANTH 6520 - Seminar: Selected Topics in Physical Anthropology

A flexible seminar format for dealing with topics of special interest in physical anthropology on an advanced graduate level. Topics vary from semester to semester. Examples include: anthropology of nutrition, paleoecology, primate evolution, field experience in paleontology, advanced osteology and advanced human ecology. Note: This course assumes that students have completed undergraduate work in biological/physical anthropology. Prereq: Restricted to Graduate and Graduate Non-Degree students. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 3 to 3

ANTH 6840 - Independent Study: ANTH

Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 3

ANTH 6950 - Master's Thesis

Term offered: fall, spring, summer. Max hours: 6 Credits. **Semester Hours:** 1 to 6

Arabic

ARAB 1000 - Introduction to Cultures of the Arabic-Speaking World

Introduces students to the Arabicspeaking cultures of North Africa, some Asian countries, and the Gulf States, with a focus on politics, culture, economics, literature and the arts. Taught in English. Term offered: spring, fall. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ARAB 1010 - Beginning Arabic I

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Term offered: spring, fall. Max Hours: 5 Credits. **Semester Hours:** 5 to 5

ARAB 1020 - Beginning Arabic II

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Note: This course assumes that students have passed ARAB 1010 or equivalent, or have taken one year of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 5 Credits. **Semester Hours:** 5 to 5

ARAB 2110 - Intermediate Arabic I

Third-semester course in Modern Standard Arabic (MSA) designed for students who have had two semesters or comparable proficiency in the language. Note: This course assumes that students have passed ARAB 1020 or equivalent, or have taken two years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1020 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARAB 2120 - Intermediate Arabic II

Fourth-semester course in Modern Standard Arabic (MSA) designed for students who have had three semesters or comparable proficiency in the language. Note: This course assumes that

students have passed ARAB 2110 or equivalent, or have taken three years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARAB 2840 - Independent Study

Independent study for students wishing to pursue nonoffered studies in Arabic language and culture. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 3

ARAB 4880 - Directed Research

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

ARAB 5880 - Directed Research

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

Architecture

ARCH 1110 - Introduction to Architecture

Introduces students to the essential ways of looking at and thinking about buildings, sites and cities, exposing students to the various perspectives, positions and practices that they will encounter in both an architecture curriculum and in architectural practice. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 1710 - Architectural Drawing: Analysis and Representation

This course explores the development of graphic skills emphasizing drawing as a means to analyze and represent architectural ideas throughout the design process. Using freehand and mechanical drawing methods students will learn the conventions and opportunities of the three architectural projections. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 2110 - Design Studio I

Introduces students to the principles of design and composition through studies of architecture's formal, spatial, and geometric systems. Students explore these using a variety of

drawing techniques including diagramming and drawings that are exploratory, analytical and developmental. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 2230 - Architectural History I

Introduces architecture and urbanism from prehistory to the mid-seventeenth century by exploring the social, cultural, technical, philosophical and aesthetic ideas that shaped buildings and other architectural and urban settings in different parts of the world. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3110 - Design Studio II

Introduces students to the expressive potential of architecture's elements and systems. Students explore techniques for translating and expressing ideas in buildings through the static, dynamic and sequential manipulation of architectural form and space. Prereq: ARCH 2110. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 3120 - Design Studio III

Focuses on the design of buildings in their relationship to physical, natural and cultural contexts. Students explore non-formal concepts and translate them into architectural experiences that integrate program, site and climate. Prereq: ARCH 3110. Restriction: Must be an undergraduate Architecture student. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 3130 - Construction Practices: Material and Structural Systems

Provides an overview of the materials, systems, assemblies and processes that inform the design and construction of buildings, reviewing the building technologies and developing student understandings of the interrelationship between the interconnected elements and systems that define buildings and spaces. Prereq: PHYS 2010/2030 and MATH 1130 are recommended. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3230 - Architectural History II

Introduces architecture and urbanism from the mid-seventeenth century to the present, exploring the forces that shaped buildings and other architectural and urban settings in different parts of the world. Prereq: ARCH 2230. Restriction: Open to all undergraduate majors. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3330 - Building Systems I

Introduces the concepts of thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control,

plumbing, electrical, communication systems, water supply and sanitation systems. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3340 - Theory of Structures I

Introduction to the analysis and design of structural elements and focuses on the principles of statics and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3430 - Construction Practices: Building Envelope

Discusses the principles and processes of building construction and introduces the major systems and assemblies that inform construction practices. Stresses the relationship between architectural concepts and emerging building technologies, teaching students how to select appropriate materials, systems and assemblies. Prereq: ARCH 3130. Restricted to sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3600 - Special Topics Cultural

Special topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ARCH 3601 - History of American Architecture

This course investigates the history of architecture in the United States as a chronological survey of buildings, architects, landscapes, and urban forms and as an exploration of the social, political, economic, technological, and similar issues that inform this built environment. Prereq: ARCH 2230 and 3230. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3602 - Architecture Photography

Architecture elective in photography of space, interior, and exterior with an emphasis on design composition of architecture. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3603 - Modern Architecture

Examination of that period in architecture called the Modern Movement, its proponents and its influence on the design of buildings today. Extensive readings and writings required. Prereq: ARCH 2230. Restriction: Restricted to Sophomore standing or higher. Max hours: 3 Credits.

Semester Hours: 3 to 3

ARCH 3690 - Cultural Research Abroad

Topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking in other cultures. Work shall include preparation in culture, history and language skills in other countries. Repeatable. Max Hours: 6 Credits. **Semester**

Hours: 3 to 3

ARCH 3691 - Cultural Design Abroad

Design topics in architecture studies related to cultural inquiries including design, cultural implications of design, and/or cross cultural application of design. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 3 to 3

ARCH 3692 - International: Project Delivery

This course is the delivery of the design solution developed in ARCH 3703. Critical thinking skills will be honed as students respond to construction material and technology limitations during the 10 day build in a South American cultural setting. Prereq ARCH 3703. Restriction: Restricted to undergraduates with a Junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3693 - Rome: Architecture & Urbanism

The objective of this course is to provide a broad overview of the city's major architectural sites, topography, infrastructure and systems of urban design and organization through the study of the rich palimpsest of buildings, piazzas and landscapes from antiquity to the present day.

Coreq. ARCH 3694 Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6755. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3694 - Rome: Documentation, Analysis and Design

With graphic representation as the primary mode of inquiry, this course is an intensive study of a single building, piazza or landscape within the rich urban fabric of Rome. The graphical inquiry will be supported by pre-departure research and onsite observation and presentations. Coreq: ARCH 3693. Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6760. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3700 - Special Topics Design

Special topics in architecture studies related to design inquiries including theory, design skills, and/or analytical thinking. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ARCH 3701 - Survival Sketching

The focus of this course will be the sketchbook and the keeping of a sketchbook. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3702 - Design Thinking

Students will be introduced to tools that will enable them to reframe design dilemmas in favor of productive resolutions. Course content will include examples and specific techniques of design thinking, including empathy, abductive reasoning, testing, plussing and diagramming. Prereq: sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3703 - International: Design in Context

The course is a project-based design seminar. In collaboration with a small community in Central America, students have the opportunity to engage in the context of another culture, environment, construction limitations and economic constraints. The course integrates architecture, engineering, and business. Restriction: Restricted to ARCH-BS majors with Junior standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3704 - The Poetic Detail-Studies in Tectonics—Wood

This research seminar focuses on tectonics through traditional timber frame and wood construction case studies. The relationship between function, aesthetics, detail, and tectonics are explored in relation to contemporary concerns. Learning by making. Cross-listed with ARCH 6357. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3705 - Human Centered Design, Innovation and Prototyping

Introduces techniques for collaborative design by interdisciplinary teams: design thinking, problem solving, and rapid prototyping. Teams of students design and implement increasingly complex projects while acquiring essential innovation and problem-solving skills. The course will culminate in a final project chosen by each team. Cross-listed with IWKS 2100. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3706 - 3D Design, Computation, and Prototyping

Introduces the design and computer-controlled fabrication of three-dimensional objects using both additive (3D printing) and subtractive (laser cutter, CNC router/mill) processes. Various commercial and open-source software tools for 3D design (CAD), manufacturing (CAM) and visualization will be explored. Increasingly complex projects throughout the semester will be used to illustrate fabrication techniques. The course will culminate in a final project. Restriction: Restricted to ARCH-BS majors with sophomore standing. Cross-listed with IWKS 3100 and 5170. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3707 - Color Theory + Application

This course will explore Color perception and theory; media/medium technique/application and landscape/built-environment drawing preparation, composition and presentation. The objective is to develop your understanding of color interaction and interrelationship especially, as it pertains to the use of color in the design and implementation of the built environment. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits **Semester Hours:** 3 to 3

ARCH 3708 - Introduction to the Essentials of Biomimicry

Biomimicry is the conscious emulation of nature's genius that can be applied to the fields of design, engineering, medicine, transportation, and social interaction. This class will be geared towards designers and will give an overview of the discipline, the (3) Essential Elements, the human-nature connection, The Biomimicry Thinking Methodology, and Life's Principles. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits **Semester Hours:** 3 to 3

ARCH 3709 - Furniture Design

Students learn how to design and build furniture in the College's woodshop. Topics include ergonomics, properties of materials, principles and techniques of joinery and techniques of hand and machine tools. Cross-listed with ARCH 6180. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3800 - Special Topics - Technical

Special topics elective will include coursework in either Digital Media In Design courses, Design-Build site Construction, or the Science and Art of Engineering Buildings. Additional topics will be develop in conjunction with the required undergraduate technical electives. Restriction: Must be an undergraduate Architecture student with sophomore standing or higher. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 3 to 3

ARCH 3801 - Introduction to Digital Media

Introduces Building Information Modeling (BIM) systems as a means to integrate and optimize design processes and building systems in the professional practice of architecture. Topics include creation of simulated, complex, three-dimensional environments in support of the architectural design studio sequence. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3802 - Arch Project Presentation

Architecture elective in digital and analog methods of presentation and composition for various audiences and formats. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3804 - Green Tech Eco-Furniture Fabrication I

Green Tech I is the first of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3806. Cross-listed with ARCH 6375. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3805 - Beginning Revit

Introduction to Building Information Modeling through Autodesk's Revit Architecture software. The course explores fundamental architectural concepts as they are developed and expressed in Revit. Appropriate program use and team learning experiences are emphasized. Prereq: ARCH 3110 and 3130. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3806 - Green Tech Eco-Furniture Fabrication II

Green Tech II is the second of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3804. Cross-listed with ARCH 6376. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3807 - Small Eco Home Design & Fabrication

This unique, quick-paced seminar focuses on small-scale residential design, from tiny-homes, to prefab, and movable residences. Students learn Small Home design, methods, and technology systems, then using green materials, they design and fabricate architectural elements and furniture for enhancing small-scale living. Restriction: Restricted to ARCH-BS majors with sophomore standing. Cross-listed with ARCH 6377. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3808 - Architectural Design and Fabrication

This course explores architectural production using advanced 3D-modeling, fabrication, and construction documentation techniques. The course connects contemporary design practice with material experimentation and architectural production. Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3809 - Architectural Design and Graphics

This course explores the varied mediums of graphic representation in architecture. Using advanced tutorials in 3D-modeling, computer-generated rendering, and workflows through multiple software platforms, students will create work that is reflective of contemporary architecture culture. Prereq: ARCH 3801. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 3949 - Internship I

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Prereq: Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 1 to 3

ARCH 4110 - Design Studio IV

Design Studio IV. Introduces students to analysis and design as complementary processes. Students learn how to form design intentions based on analytical research and close study of the relationship between architecture, precedent and culture, and to consider buildings as settings that address issues of culture, society, economy and ecol. Prereq: ARCH 3120. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 4120 - Design Studio V

Explores the place and role of architecture as an instrument of critical social engagement and cultural change, the role of history and precedent in the design process, and the role of detail through projects that demonstrate student's proficiency as designers. Prereq: ARCH 4110. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 4340 - Theory of Structures II

Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel, and wood structural systems and members. Prereq: ARCH 3340. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 4440 - Building Systems II

Focuses on the environmental systems in commercial and other nonresidential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Restriction: Restricted to undergrad ARCH students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 4840 - Independent Study

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to architecture. Prereq: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 3

ARCH 4949 - Internship II

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 1 to 3

ARCH 5000 - Math and Physics for Architects

Provides the review of mathematics and physics. This is a prerequisite for the graduate technology courses. Does not count toward the required credits for the MARCH degree. Restriction: Restricted to graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5110 - Design Studio I

The first of two elemental design studios focused on on the language of design, organizational and spatial systems and principles as well as on analog and digital methods of visualizing architectural ideas and forms. Restriction: Restricted to Graduate Architecture students within the College of Architecture and Planning. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 5120 - Design Studio II

The second of two elemental design studios focused on translating organizational and spatial systems, principles and concepts into architectural systems. Through a number of small scaled design exercises students learn how organizational and spatial systems can be leveraged in the design of their buildings. Prereq: ARCH 5110 and ARCH 5510. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 5130 - Design Studio III

The first of the two analytical design studios addresses how design ideas are formed through the analysis of the program in terms of action and perception and how to transform those ideas into formal strategies and specific architectural experiences. Prereq: ARCH 5120. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 5140 - Design Studio IV

The second of the two analytical studios will build upon ideas developed in the previous studio concerning how the analysis of the program in terms of action and perception inform the formal strategies and the design of specific architectural experiences. Prereq: ARCH 5130. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 5210 - Introduction to Architecture

Introduces important ways of looking at architecture and acquaints students with the various perspectives that they will later find in the rest of the curriculum. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5220 - History and Theory Architecture I

Introduces world architecture and urbanism from prehistory to the Italian Renaissance. The course helps students understand the various cultural, technological, philosophical, and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5230 - History and Theory Architecture II

Examines world architecture and urbanism from the Italian Renaissance to the present. Helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5310 - Building Construction I

The first of a two-course sequence that provides an overview of the structure, systems, assemblies and processes that make a building. Provides a broad view of building technology and an understanding of the interrelationship of all the parts. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5320 - Building Construction II

This course focuses on principles and processes of building construction, and introduces major constructional systems. It stresses the relationship between architectural concepts and building technology and assemblies. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5330 - Sustainable Systems I

The first course in the sustainable systems sequence introduces concepts and design methods of energy-efficient environmental control in buildings including thermal and moisture loads, heating, ventilation and air conditioning equipment and systems, and active and passive thermal strategies. Restricted to graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5340 - Sustainable Systems II

The second course in the sustainable systems sequence introduces concepts and design methods of plumbing, power distribution, renewable electricity, artificial illumination, daylighting, acoustics, vertical transportation, fire protection, and telecommunication systems in buildings with a focus on energy and resource efficiency. Prereq: ARCH 5330. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5350 - Structures I

The first course in the structures sequence introduces the analysis and design of structural elements and focuses on the principles of statics and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5360 - Structures II

Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel and wood structural systems and members. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5410 - Professional Practice

Introduces the essential elements of professional practice through topics such as internship, licensing, services, modes of practice, fees, marketing, documents, specification and production procedures. Examines traditional and emerging forms of practice. Restriction: Restricted to

Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5420 - BIM: Principles & Practices

Introduces basic aspects of building information modeling (BIM) concepts, software, development, management and delivery for architectural projects. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5430 - Social Context of Design

Focuses on the ethical, social, cultural and psychological principles, which people bring to the perception and design of the built environment. Its major topics include: ethical values; cultural patterns and values; social, cultural and personal ritual; and pre-design and programming. Prereq: Graduate ARCH students only. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5450 - Sustainable Design Practices

This course explores sustainable principles and practices as it relates to the design, construction of both the building and its site. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 5510 - Architectural Graphics

This course explores the development of graphic skills emphasizing drawing as a means to design. It includes investigation of drawing types and methods; diagramming of ideas and systems; informative, exploratory and developmental sketching. Restriction: Restricted to Graduate Architecture students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6150 - Design Studio V

The first of two reflective studios will assume reflective/critical stance towards programmatic issues or rather cultural presuppositions and critically explore the ways in which architecture can play a critical as well as an affirmative role within the broader cultural context. Prereq: ARCH 5140. Coreq: ARCH 6151. Max hours: 6 Credits. **Semester Hours:** 6 to 6

ARCH 6170 - Design Studio VI

This is the second of two reflective studios, which focuses on the comprehensive design of an architectural project including considerations of structural systems, environmental systems, life safety concerns, regulatory considerations, wall sections, building assemblies and significant

detail. Prereq: ARCH 6150. Coreq: ARCH 6171. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 6 to 6

ARCH 6171 - Integration Seminar

In this seminar students will develop and document the technical aspects of their Design Studio VI design projects including, life safety, mechanical, electrical, plumbing, conveyance, accessibility systems and material assemblies. Prereq: ARCH 6150, ARCH 6151. Coreq: ARCH 6170. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 3 to 3

ARCH 6180 - Furniture Design

Students learn how to design and build furniture in the College's woodshop. Topics include ergonomics, properties of materials, principles and techniques of joinery and techniques of hand and machine tools. Cross-listed with ARCH 3709. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6185 - Digital Design & Fabrication

An introductory class to Computer Aided Design (CAD) and Computer aided manufacturing (CAM). Students explore how these technologies apply to the field of architecture with a focus is on parametric/algorithmic design approaches and mass customization manufacturing techniques. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6190 - Special Topics in Design Studies

Various topics in design, according to current faculty and student interests. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

ARCH 6195 - Aspen Summer Workshop

Three weeks with three world class architecture firms in Roaring Fork Valley. The firms lead students through a unique design project that develops and challenges their observational, conceptual, and visualization abilities. Drawing as a means of seeing, understanding and creating dominates the process/ethic of the course. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6205 - Urban Housing

This course examines housing trends and patterns; supply and demand factors; housing policies; housing challenges (e.g., inequitable distribution, special needs, segregation/discrimination, and homelessness); sociological, demographic, and economic considerations; and the roles of planners and the public and private sectors. Cross-listed with LDAR 6755 and URPL 6405. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6210 - History of American Architecture

Examines the history of American architecture from prehistoric times to the present, mainly within the geographical borders of the present-day United States. Helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape American buildings. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6212 - History of Modern Architecture

Examines the various theories, accomplishments and ideals of modern architecture in the 20th century. Issues include the relationship between theory and practice, architecture and ideology, technology, abstraction and representation, functionalism and formalism, utopianism and social responsibility. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6220 - History of Architectural Theory

Investigates the history of architectural theories in the West from antiquity to the present. Explores the various ideas that have been proposed to explain or to direct architectural design and examines the relationship between the theories and the buildings themselves. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6222 - Contested Terrains

Explores the different processes, factors and forces and determines and influences occupation, land use and built form through the phenomena of conflict and contestation. Design is inherently located within the disputes and discourses involving landscape as location and resource. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6230 - Preservation Theory and Practice

The practice of historic preservation has evolved in a specific policy context. This introductory course introduces basic American institutions and laws associated with preservation as well as standards, definitions, and practices associated with these. Cross-listed with HIPR 6010. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6231 - Regionalisms & the Vernacular

This class explores the history of the built environment from the perspective of evolutionary change; peoples attempting to meet utilitarian needs, respond to environmental forces, societal expectations, and aesthetic aspirations through design. The course looks closely at vernacular structures in a global context. Cross-listed with HIPR 6110. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6232 - Reading the City

Design and planning professionals, including preservationists, must learn to work in environments with which they have had little previous knowledge. This course emphasizes gaining understanding of a novel environment and translating that knowledge into a well researched and media savvy professional presentation. Prereq: HIPR 6410 is recommended. Cross-listed with HIPR 6610. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6233 - Historic Buildings in Context

This course covers the concept of "historic significance" and develops skills in understanding and professionally utilizing this concept. Procedures and skills are introduced. Prereq: HIPR 6010 or permission of instructor. Cross-listed with HIPR 6210. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6240 - History Of The City

Introduces students to the history of global cities through selected typologies. Explores similarities and differences among cities considered against the larger cultural, political and socio-economic envelope of which they are part. Provides awareness of origins, growth and evolution of urban form. Cross-listed with URBN 6640. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6241 - Studies in Tectonics

This research seminar focuses on tectonics - the logic of structure & material combinations (wood, metal, stone, masonry etc.). Through case studies, the relationship between function, aesthetics, detail, and tectonics are explored in relation to contemporary architectural concerns. Prereq: HIST I & II. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6254 - Architecture, In Theory

Explores theories and texts that have influenced the analysis and the production of architectural form. The focus is on the expressive potential of architectural forms and the

modalities of the realization of this potential. Cross-listed with DSPL 7016. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6255 - Cultural Institutions

Selected types of cultural institutions including art museums, libraries, cultural centers, theaters, etc. are studied in this research seminar. Through case studies and readings, their ongoing cultural, architectural and corporate values are examined. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6256 - Community Development

This course introduces community development, examining planners' and other stakeholders' roles in the field; key theories and practices; community dynamics; community-based organizations; asset-based development; social equity; and the influence of local physical and economic factors on community development. Cross-listed with URPL 6400. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6257 - Community Engaged Design Practice

Obtain real-world pre-design and conceptual design experience in complex urban environments focusing on evolving trends in sustainability. Using digital trans-disciplinary learning students will develop comprehensive sustainable strategies that draw from their own sustainable philosophy developed during this class. Cross-listed with LDAR 6635 and LDAR 4435. Restriction: Restricted to graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6258 - Social Justice in Planning

This course investigates various social justice issues encountered in planning, including conflict resolution; advocacy; environmental justice; social equity; culture and diversity; disadvantaged populations; public engagement techniques; affordability; equal access; and policy impacts. Cross-listed with URPL 6410 and LDAR 6637. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6259 - The Art of Traditional Design

Introduction to Philosophy, History and Design Methods of Traditional Design derived from Greek precedents developed through the Renaissance and later the Beaux Arts. The course will emphasize this influence on the Architecture of the United States. Restriction: Restricted to

graduate students within the College of Architecture and Planning. Max hours: 3 Credits.
Semester Hours: 3 to 3

ARCH 6260 - Architectural Precedents

Explores a number of traditional answers to recurring design issues, such as how to approach and enter a building or how to design a facade. In a seminar setting, students examine traditional ideas for their underlying principles and design new architectural compositions based on those principles. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6270 - Form and Formation of Cities

This course investigates the origins and types of human settlements; the history of cities and urbanization; urban morphology and the evolution of the built environment; urban form principles and theory; and types of urbanism. Cross-listed with URPL 6350, URBN 6633, and LDAR 5530. Restriction: Restricted to graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6275 - History Native Amer Arch

Introduces Native American architecture from the 12th century to the present. The course helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape these buildings throughout history. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits.
Semester Hours: 3 to 3

ARCH 6290 - Special Topics in Cultural Studies

Various topics in cultural studies, according to current faculty and student interests. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Repeatable. Max hours: 21 Credits. **Semester Hours:** 3 to 3

ARCH 6310 - Greenbuilding Tech

This seminar will advance the student's knowledge of environmental building and construction methods through studies in material resources, innovative green systems, alternate green technology, energy efficiency, and affordability in "green architectural design." Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6313 - LEED Certification, Greenbuilding Seminar

This RIGOROUS course will use the LEED Certification process to provide a framework for assessing building performance and meeting sustainability goals, following the 1st step in a two stage Professional Accreditation process, focusing on LEED GA, Green Associate Accreditation. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6314 - LEED AP Advanced Greenbuilding Seminar

This advanced LEED Certification and Accreditation course builds on the first LEED GA course, providing a framework for assessing green building performance and sustainability goals, exploring advanced green building concepts and preparing the student for the LEED AP BD+C exam. Prereq: ARCH 6313 or instructor approval. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6351 - Building Conservation

This course emphasizes the relationship between knowledge acquisition, professional judgement, and design modification. Topics include: 1) Historic Building Types & Methods, 2) Field and Lab Methods of Building Assessment, and 3) Management of Building Rehabilitation. The course takes an integrative approach to the scientific, aesthetic, managerial and legal dimensions of preservation. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6352 - Documentation, Analysis, Representation

This methods course focuses on skills development in in-situ documentation of the historic environment. The course includes modules on: a) historic records, b) archaeological evidence, c) building and site measurement, d) photographic & Photometric methods, e) geo-spatial data, f) graphic representation, and g) reporting formats. Cross-listed with HIPR 6310. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6353 - Daylighting Design

Daylighting is the use of light from the sky to illuminate building interiors. The objective of this course is to introduce students to the fundamentals of daylighting design including how it is perceived and how it impacts building energy flows. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6355 - Urban Conservation: Context for Reuse

Human habitats (especially cities) are dynamic. The preservationist cannot freeze cities in a static representation of the past. The course deals with philosophical and political contexts, but

emphasizes the role of strategic design intervention in the shaping of evolving cities. Cross-listed with HIPR 6410. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6356 - Adaptive Reuse: Business and Practice

Existing buildings and infrastructure afford challenges and opportunities for reuse. This course explores the business, and financial aspects of adapting the built environment for contemporary uses. The course is suitable for designers, planners, historians and social scientists. Restriction: Restricted to majors within the College of Architecture and Planning. Cross-listed with HIPR 6220. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6357 - The Poetic Detail-Studies in Tectonics—Wood

This research seminar focuses on tectonics through traditional timber frame and wood construction case studies. The relationship between function, aesthetics, detail, and tectonics are explored in relation to contemporary concerns. Learning by making. Cross-listed with ARCH 3704. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6370 - Introduction To Design Build

Introduction to Design Build project delivery methods important to architects. Lecture, research on the industry and an individual student project are the methods used to introduce ethical questions, role of the architect, owner, consultant and subcontractors. Work leads to studio project or case study. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6373 - Construction in Design Build

Using a single project, students fully explore the design phase, estimating, scheduling and project management skills in traditional construction. Course is concurrent with an advanced studio and builds a project on a site. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6375 - Green Tech Eco-Furniture Fabrication I

Green Tech I is the first of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Coreq: ARCH 6376. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Cross-listed with ARCH 3804. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6376 - Green Tech Eco-Furniture Fabrication II

Green Tech II is the second of two courses that is a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Students must be enrolled in both Green Tech I and Green Tech II in the same semester. Coreq: ARCH 6375. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Cross-listed with ARCH 3806. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6377 - EcoFAB: Furniture Design and Fabrication for Small-Scale Residential Architecture

This unique, quick-paced seminar focuses on small-scale residential design, from tiny-homes, to prefab, and movable residences. Students learn Small Home design, methods, and technologies, then using green materials, they design and fabricate architectural elements and furniture for enhancing small-scale living. Restriction: Restricted to ARCH graduate students. Cross-listed with ARCH 3807. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6390 - Special Topics in Technology

Various topics in technology, according to current faculty and student interests. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Repeatable. Max hours: 18 Credits. **Semester Hours:** 3 to 3

ARCH 6412 - Construction Documents

Introduces the concepts and techniques of construction documents. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6413 - Construction Leadership

The final course is an integrated architecture, engineering, and construction business course bringing together executives, principals, and managers to current industry topics and provide students opportunities to apply management and leadership principles from the various fields to case study projects. Crosslisted with CVEN 5238. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6420 - Integrated Practice & BIM Technology

This class will be a general overview of integrated practices and technologies used in today's industry. Understanding the nature of how information is created and managed using BIM technologies will help us define a road map for how information passes downstream and bring

value to a project. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6450 - Pre-Design

Course lectures, readings, and case studies cover pre-design methodologies, research, documentation, facilitation and consensus building. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6463 - BIM: Emerging Prof. Practices

The 21st century architect's emerging role is designing the design process. BIM (Revit) attempts to optimize the entire process, including all participants, from conceptual design, through post-building occupancy. These capabilities are explored and developed. Prereq: ARCH 5430. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6464 - BIM: Advanced Design Concepts

BIM's complexity (Revit) challenges all designers. The emerging tool is very sophisticated, but its benefit are not realized from modeling alone. We address architectural design as a multifaceted optimization process: concept, form, and function. Prereq: ARCH 5430. Cross-listed with ARCH 6390. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6470 - ACE Mentoring

Graduate students work with professional architects, designers, and engineers mentoring students in selected local high schools to learn problem solving, graphics and model making to produce a design project. Student mentors develop lesson plans, outcomes and keep a weekly journal. Cross-listed with LDAR 6470 and URPL 6850. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6471 - Managing Quality & Risks

A lecture and seminar on approaches to risk management including contracts, insurance, financial analysis, dispute resolution and client relationships. Utilizing case study approach, quality assurance will be defined and studied in the design and building phase of workings. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6472 - Architecture in a Single Source Project Delivery

Directed to the practice of architecture with design build and other single source delivery systems. This course examines requirements of codes, zoning, building systems and legal questions for the architect. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6473 - Research Tools & Methods

Introduces the thesis in architecture and establishes the scholarly basis for the research and construction of a Master's Thesis project. This course will provide the student with the research practices and methodologies to develop the scholarship and products required to produce a Thesis Project Proposal. Completion of this course is a prerequisite for the student to submit the Thesis Proposal for departmental approval to continue with the remaining 9 credits of thesis work. Cross-listed with LDAR 6949. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6475 - BIM/Flow of Information

The course is geared toward CAP students, non-degree seeking working professionals and other students interested in the Integrated Construction, Management and Leadership (ICML) Certificate. This class will be a general overview of Virtual Design and Construction (VDC) in today's AEC industry. Restriction: Graduate students. Junior standing and above undergraduate students are eligible to take course with approval by instructor. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6490 - Special Topics in Professional Studies

Various topics in professional studies according to current faculty and student interests. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Repeatable. Max Hours: 18 Credits. **Semester Hours:** 3 to 3

ARCH 6510 - Digital Applications in Design

This course introduces first year design students to the Graphic Design Concepts and Digital Applications necessary to create digital, printed and physical presentations of their work. Students learn computer skills including: raster and vector based programs and digital modeling. Prereq: ARCH 5110 and ARCH 5510. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6515 - Adv. Digital Representation

In this course students will learn advanced techniques of architectural representation using digital modeling, rendering engines, and post processing in the Adobe Creative Suite. Prereq: ARCH 5510 and 6510 or equivalent. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6530 - The Art of Proportion

This course covers the use of proportional systems in the Classical tradition. Students complete a series of graphic exercises culminating in the construction of a Beaux-Art style ink-wash of a classical column. Cross-listed with ARCH 6290 and HIPR 6090. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6550 - Digital Portfolio Design

This course introduces students to the Graphic Design Concepts and the Digital Applications used to create both Printed and Web-based Portfolios. Students must have completed ARCH 5110 and have a working knowledge of Photoshop. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6560 - Architecture Photography

Emphasizes and understanding of light, composition, color and problem solving, with a particular goal of applying these skills to the photography of architectural exteriors and interiors. For students who have access to adjustable 35 mm digital cameras. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6570 - Sketching As Seeing

Sketching promotes seeing, and seeing promotes thinking. This course is designed to help you think & see by the regular practice of sketching & the discipline of keeping a sketchbook. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6575 - 2D-3D & 4D Design Space

The graphics language of words and art bridge intention and design. Passing ideas and mental imagery through digital technology's 2D, 3D and 4D filters is the challenge. Students develop concepts in AutoCAD, visualize in 3DStudio Max, and narrate the process in Adobe Premiere. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6580 - High-Performance Façade Design

It is the intent of the course to provide graduate students with a comprehensive understanding of the technical concepts and specific skills necessary to undertake in actual practice the design, detailing, specification, and construction administration of high-performance building facades.

Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max Hours: 3 Credits **Semester Hours:** 3 to 3

ARCH 6590 - Special Topics in Representational Studies

Various topics in representational studies, according to current faculty and student interests. Prereq: ARCH 5510. Repeatable. Max Hours: 15 Credits. **Semester Hours:** 3 to 3

ARCH 6710 - Architecture in Other Cultures

Various studies of architecture and urbanism in foreign countries. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 12 Credits. **Semester Hours:** 1 to 9

ARCH 6715 - The Built Environment in Other Cultures I: Research Design

The intent is to broaden students' perspectives by asking them to examine design within another culture. Each student prepares a proposal of study including a statement of the problem to be addressed, the type of field research to be undertaken and the nature of the report to be produced. Restriction: Restricted to Architecture graduate students within the College of Architecture and Planning. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6755 - Rome: Architecture & Urbanism

The objective of this course is to provide a broad overview of the city's major architectural sites, topography, infrastructure and systems of urban design and organization through the study of the rich palimpsest of buildings, piazzas and landscapes from antiquity to the present day. Coreq: ARCH 6760. Restriction: Restricted to ARCH graduate students. Cross-listed with ARCH 3693. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6760 - Rome: Documentation, Analysis and Design

With graphic representation as the primary mode of inquiry, this course is an intensive study of a single building, piazza or landscape within the rich urban fabric of Rome. The graphical inquiry will be supported by pre-departure research and onsite observation and presentations. Coreq. ARCH 6755. Restriction: Restricted to ARCH graduate students. Cross-listed with ARCH 3694. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6775 - Bluff General Elective

Provides students the opportunity to focus their attention on one of three areas: technical studies, professional studies, or cultural studies. Students will complete coursework as it relates to Design Build Bluff. Counts as a general elective. Restriction: Restricted to Architecture

graduate students within the College of Architecture and Planning. Max hours: 3 Credits.
Semester Hours: 3 to 3

ARCH 6840 - Independent Study

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to architecture. Prereq: Permission of instructor. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

ARCH 6910 - Teaching Assistantship

Work with a faculty member in a course to help with class preparation and delivery. This is intended for students who may be considering a career in teaching architecture. Prereq: Permission of instructor. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 3 to 3

ARCH 6930 - Architecture Internship

Designed to provide professional practice experience. The internship is composed of eight hours per week working in a practicing professional's office during the regular semester. Students must complete the second-year level before taking this course. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 6931 - Architecture Internship

Designed to provide professional practice experience. The internship is composed of eight hours per week working in a practicing professional's office during the regular semester. Students must complete the second-year level before taking this course. Max hours: 3 Credits. **Semester Hours:** 3 to 3

ARCH 7840 - Independent Study

Max hours: 3 Credits. **Semester Hours:** 1 to 3

Bioengineering

BIOE 1010 - Bioengineering Design and Prototyping I

BIOE 1010 introduces students to bioengineering, and provides an introduction to possible careers and research topics in bioengineering. Students also learn human anatomy by understanding how to incorporate visual human data sets into computer prototyping and design tools. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 1020 - Bioengineering Design and Prototyping II

BIOE 1020 extends work from BIOE 1010 by introducing students to practical skills around computer-aided design (CAD), modeling and prototyping with focus on project-oriented work aimed at design, prototyping and metrology of specific medical devices. Prereq: BIOE 1010 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 2010 - Introduction to Programming for Bioengineers

Digital computers are the primary tools of modern engineers. This class introduces the undergraduate to general computing concepts, computer languages, and programming techniques. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Prereq: MATH 1401 with a C- or higher. Max Hours: 2 Credits. **Semester Hours:** 2 to 2

BIOE 2020 - Introduction to Computational Methods for Bioengineers

A modern engineer is required to solve problems involving the physical world not only on paper, but also using numerical tools implemented on digital computers. This class introduces the students a first set of numerical algorithms for the solution of calculus-based engineering problems. Prereq: BIOE 2010 and MATH 2411 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 2 Credits. **Semester Hours:** 2 to 2

BIOE 2840 - Independent Study in Bioengineering

Covers topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 3010 - Bioinstrumentation

This course is intended for junior bioengineering students to facilitate their development into bioengineering investigation. The course has been designed to introduce fundamental principles of circuit theory, analog and digital electronics and biological instrumentation techniques commonly used in biomedical research. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3020 - Introduction to Biomechanical Analysis

This course will offer an overview of solid and fluid mechanics, as applied to biomechanical systems. After completing this course, students should have enough understanding of biomechanics to: (1) perform and interpret basic analytical of biomech. systems; (2) analytically reason through a design; (3) and choose a specialty. Prereq: BIOE 1020, 2020; PHYS 2331/2341;

CHEM 3411/3418, MATH 2421, 3195 and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering , Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3030 - Introduction to Biomaterials

This course will cover different kinds of biomaterials in biomedical applications, and their physiological response in the biological environment. In addition, it will cover material properties, host response, and characterization techniques. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3040 - Physiology for Bioengineering

This course will introduce students to central concepts in human physiology. This includes the structure, function and homeostatic role of key organs within the body; the engineering principles governing these systems and processes; and designing engineering-based solutions to overcome dysfunction in disease. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3050 - Cell & Molecular Bioengineering

An examination of the structure and function of eukaryotic cells. Emphasis is placed on mechanisms of intracellular and transmembrane transport, cellular control, gene expression, and intercellular and intracellular signaling. Experimental methods and applications will be discussed. Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3051 - Cell & Molecular Bioengineering Lab

Laboratory experience in cell and molecular biology techniques. Experimental methods and applications will be discussed and performed including basic microscopy, PCR, purification and separation techniques, and protein assays. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Co-req: BIOE 3050. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3060 - Biostatistics, Measurement and Analysis

Students will learn and apply parametric statistics, including t-tests, ANOVA, and regression methods, using commercially available statistical software to the analysis of clinical and/or

biological data. Further, they will be introduced to measurement error and the propagation of error technique. Restriction: Restricted to BIOE-BS majors. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3070 - Bioengineering Lab I

Core bioengineering lab required of all major students. This lab introduces students to experimental techniques in the areas of Biomaterials, Biomedical Instrumentation, and Biomechanics. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3071 - Bioengineering Lab II

Lab sequence 2 of 2. A series of modules focused on quantitative techniques relative to Bioengineering. Modules will include Physiological data acquisition and analysis, Medical Imaging and Assistive Technologies. Prereq: BIOE 3070 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3090 - Introduction to BioDesign

BioDesign I is the first course in a three sequence design process that provides students with a framework for identifying medical needs through clinical observation, environment analysis and product screening. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 3939 - Undergraduate Internship

Department of Bioengineering Internship. Credit may be applied toward technical electives in the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 3 Credits. Semester Hours: 1 to 3 **Semester Hours:** 1 to 6

BIOE 4035 - Undergraduate BioDesign II

This represents the second semester of the core undergraduate Biodesign sequence. Students gain experience around Design and Prototyping, Verification and Validation, and evaluation of key components around biomedical technology development. Prereq: BIOE 3090. Restriction: Restricted to full Bioengineering majors. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4045 - BioDesign III

This course represents the capstone culmination of the core undergraduate Biodesign experience. Students finalize all design, prototyping, testing and validation components, and present the project per professional standards to professionals and peers. Prereq: BIOE 4035 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4053 - Optics and Microscopy in Biomedical Research

Undergraduate overview of optical imaging, ranging from classical microscopy to advanced, non-linear techniques and includes theory, technology and applications in biomedical sciences. This will prepare students for developing and applying state-of-the-art optical imaging in their research. Cross-listed with BIOE 5053. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4054 - Regulatory Affairs

This course covers standards of quality assurance and regulatory pathways that guide biomedical engineering industry. Cross-listed with BIOE 5054. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4057 - Rehabilitation and Assistive Technology

This course provides students with an overview of technologies and their use by and for persons with disabilities. Cross-listed with BIOE 5057. Restriction: Restricted to students with BIOE designation, or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4058 - Intro to Design, Disability, and Aging

This course provides an introduction to the topic of disability and aging and the application of bioengineering principles for persons living with functional impairment(s) across the lifespan. Cross-listed with BIOE 5058. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4063 - 3D Modeling for Bioengineers

This course instills in the 3D modeling skills specific to the biomedical industry. Topics include computer aided design (CAD), medical imaging, image processing, patient specific image to three-dimensional (3D) model reconstruction, non-uniform rational b-spline (NURBS) surfaces, finite element and computational fluid dynamics (FEA/CFD) analyses and physical modeling using rapid prototyping. Prereq: 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4064 - Advanced MatLab For Bioengineers And Life Scientists

MatLab programming for undergraduate bioengineers and life scientists. Topics include MatLab syntax and optimization as well as techniques for working with scalars, time-series, images and multi-dimension datasets. Surface/Curve fitting. modeling, automation and classification will be covered. Cross-listed with BIOE 5064. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4065 - Introduction to iOS Apps

This course will introduce students to best practices in developing Health centered iOS Apps. Topics will focus on Xcode, Object Oriented Design, Objective-C, Cocoa, Core Data and the iOS emulator. Cross-listed with BIOE 5065. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4066 - Advanced Topics in iOS Apps

This course will introduce undergraduates to advanced topics focused on creating health centered iOS Apps. Topics will cover best practices for developing Apps across the iOS product lineup including Apple Watch and developing for Apple Health kit. Deployment and validation will also be covered. Cross-listed with BIOE 5066. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4067 - Human Factors and Usability Testing for Bioengineers

This course provides an introduction to human factors testing and evaluation in the context of medical devices and assistive technology (AT). Particular focus will be given towards designing and applying usability testing to inform product design decisions or improvements. Topics include human factor considerations for aging and disabled populations (and their care providers), usability techniques, user experience data collection and interpretation, etc. Students will engage in hands-on human factors assessments such as contextual inquiry of surgery patients, cognitive walkthroughs with simulating disability, and product usability testing and iteration. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4068 - Introduction to Medical Imaging

This course will introduce undergraduates to the basic physics, technologies, and clinical methodologies underlying Ultrasound, MRI, CT, PET and SPECT imaging systems. The course will include lectures, and visits to campus hospital and research imaging systems as well as hands on ultrasound labs. Cross-listed with BIOE 5068. Prereq: BIOE 3010, 3020, 3030, and 3040 with

a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4069 - Advanced Biomechanics for Undergraduates

This course covers advanced topics such as blood flow dynamics, introduction to non-linear finite deformation techniques, blood rheology, and computational techniques. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Cross-listed with BIOE 5069. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4073 - Neural Interfaces and Bionic Limbs

This course will introduce undergraduates to topics in neural interfaces (Brain machine interfaces, peripheral nerve interfaces etc), the issues involved in the design of mechatronic limb systems and the decoding algorithms used to map the neural interface to the mechatronic limb. Cross-listed with BIOE 5073. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4083 - Polymers in Biomedical Applications

This course will introduce undergraduate students to fundamental synthetic method and basic characteristics of various polymeric biomaterials and their crucial roles in different biomedical applications. It will also cover how the polymers can be modified to enhance biomedical applications. Cross-listed with BIOE 5083. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4085 - Tissue Engineering

This course covers tools, techniques, characterization and applications in modern tissue engineering. Cross-listed with BIOE 5085. Restriction: Restricted to BIOE-BS majors within the College of Engineering, Design and Computing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 4420 - Special Topics in Bioengineering

Special topics of particular interest to undergraduate in the Bioengineering program. Registration requires departmental approval. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BIOE 4840 - Independent Study in Bioengineering

Covers advanced topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department Consent Required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 4929 - Undergraduate Research Project

Department of Bioengineering Research Project. Credit may not be applied toward the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 5010 - Cell and Molecular Biology for Bioengineers

Introduction to cellular and molecular biology, with a focus on using engineering methods and literature to analyze structure and function of cells throughout lifecycle and multiple scales. Design experiments to test hypotheses. Prereq: Graduate standing in Bioengineering or instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5011 - Systems Physiology for Bioengineers

Use engineering principles to study key physiological systems. Topics: cardiovascular, neuroscience, urological, or renal medicine. Related engineering principles: pressure-flow relationships, stress-strain, electromechanical coupling and signal transduction. Prereq: Graduate standing in Bioengineering or instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5020 - Analytic Methods for Engineering Analysis

This course provides mathematical tools essential for graduate level bioengineering work. Studies selected topics from probability, linear algebra, and vector calculus, with emphasis on bioengineering applications. Prereq: Graduate standing in Bioengineering or instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5021 - Numerical Methods for Engineering Analysis

Provides computational skills and knowledge of numerical methods for engineering/scientific computation using Matlab. Topics: root finding, interpolation, difference and integration rules, solution of initial and boundary value ODEs, and introduction to the solution of PDEs. Prereq: Graduate standing in Bioengineering or instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5030 - Technology for Bioengineers

This course will prepare students fundamental bioengineering principles common to areas of active research. This includes fundamental principles behind systems and instrumentation in mechanics, electronics, fluid flow and clinical imaging modalities, as well as an introduction to polymeric biomaterials. Prereq: Graduate standing in Bioengineering. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOE 5031 - Technology for Bioengineers II

This course continues the introduction to imaging from BIOE 5030 (Technology for Bioengineers I) but with a much stronger emphasis on quantitative methods of medical image analysis and description of medical imaging physics. Prereq: Graduate standing in Bioengineering. Grade of B or better in BIOE 5030, or consent of instructor. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5039 - Mechatronics and Embedded Systems

The course focuses on the design and construction of microprocessor-controlled electro-mechanical systems. Lectures review critical circuit topics (Ohm's law, RLC circuits, DC and AC signals, diode and transistor circuits, operational amplifiers, and digital signals), introduce microprocessor architecture and programming, discuss sensor and actuator component selection, robotic systems, and design strategies for complex, multi-system devices. Lab work reinforces lectures and allows hands-on experience with robotic and embedded systems design. Students must design and build an embedded systems device related to assistive technology. Note: Project expenses may be incurred (\$50 maximum). Restriction: Restricted to graduate students in the Department of Bioengineering. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5040 - Research Methods for Bioengineers

This course provides an introduction to research methods for bioengineers in order to prepare for basic research, clinical applications and commercialization of medical technologies. Topics include literature review, regulatory policy. Prerequisite: Graduate standing in Bioengineering (MS/PhD). Max hours: 2 Credits. **Semester Hours:** 2 to 2

BIOE 5041 - Clinical Experiences for Bioengineers

This course provides opportunities for clinical experiences such as observing surgeries and touring intensive care units to prepare students for clinical applications and foster collaborations with clinical practitioners. Experiences take place through the school year. Prerequisites: Graduate standing in Bioengineering (MS/PHD). Repeatable. Max Hours: 2 Credits. **Semester Hours:** 1 to 1

BIOE 5053 - Optics & Microscopy in Biomedical Research

Graduate overview of optical imaging, ranging from classical microscopy to advanced non-linear techniques and includes theory, technology and applications in biomedical sciences. This will prepare students for developing and applying state-of-the-art optical imaging in their research. Cross-listed with BIOE 4053. Prereq: Grad standing or permission from the instructor. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5054 - Regulatory Affairs

This course covers standards of quality assurance and regulatory pathways that guide biomedical engineering industry. Cross-listed with BIOE 4054. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5057 - Rehabilitation and Assistive Technology

This course provides students with an overview of technologies and their use by and for persons with disabilities. Cross-listed with BIOE 4057. Restriction: Restricted to students with BIOE designation, or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5058 - Intro to Design, Disability, and Aging

This course provides an introduction to the topic of disability and aging and the application of bioengineering principles for persons living with functional impairment(s) across the lifespan. Cross-listed with BIOE 4058. Restriction: Restricted to BIOE majors or with instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5063 - 3D Modeling for Bioengineers

Course instills 3D modeling skills specific to biomedical industry. Topics include computer aided design, medical imaging, image processing, patient specific image to three-dimensional model reconstruction, non-uniform rational b-spline surfaces, finite element, computational fluid dynamics analyses, physical modeling using rapid prototyping. Restrictions: Matriculated CEDC students. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5064 - Advanced MatLab For Bioengineers And Life Scientists

MatLab programming for graduate bioengineers and life scientists. Topics include MatLab syntax and optimization as well as techniques for working with scalars, time-series, images and multi-dimension datasets. Surface/Curve fitting. modeling, automation and classification will be covered. Cross-listed with BIOE 4064. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5065 - Introduction to iOS Apps

This course will introduce graduate students to best practices in developing Health centered iOS Apps. Topics will focus on Xcode, Object Oriented Design, Objective-C, Cocoa, Core Data and the iOS emulator. Cross-listed with BIOE 4065. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5066 - Advanced Topics in iOS Apps

This course will cover advanced topics focused on creating health centered iOS Apps. Topics will cover best practices for developing Apps across the iOS product lineup including Apple Watch and developing for Apple Health kit. Deployment and validation will also be covered. Cross-listed with BIOE 4066. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5067 - Human Factors and Usability Testing for Bioengineers

This course provides an introduction to human factors testing and evaluation in the context of medical devices and assistive technology (AT). Particular focus will be given towards designing and applying usability testing to inform product design decisions or improvements. Topics include human factor considerations for aging and disabled populations (and their care providers), usability techniques, user experience data collection and interpretation, etc. Students will engage in hands-on human factors assessments such as contextual inquiry of surgery patients, cognitive walkthroughs with simulating disability, and product usability testing and iteration. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5068 - Introduction to Medical Imaging

This course will introduce graduate students to the basic physics, technologies, and clinical methodologies underlying Ultrasound, MRI, CT, PET and SPECT imaging systems. The course will include lectures, and visits to campus hospital and research imaging systems as well as hands on ultrasound labs. Cross-listed with BIOE 4068. Restriction: Restricted to Bioengineering students with graduate student status. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5069 - Advanced Biomechanics for Graduates

This course covers advanced topics such as blood flow dynamics, introduction to non-linear finite deformation techniques, blood rheology, and computational techniques. Restriction: Restricted to Bioengineering students with graduate student status, or by Permission of Instructor. Crosslisted with BIOE 4069. Max hours: 3 credits. **Semester Hours:** 3 to 3

BIOE 5073 - Neural Interfaces and Bionic Limbs

This course will introduce graduate students to topics in neural interfaces (Brain machine interfaces, peripheral nerve interfaces etc), the issues involved in the design of mechatronic limb systems and the decoding algorithms used to map the neural interface to the mechatronic

limb. Cross-listed with BIOE 4073. Restrictions: Matriculated CEDC students. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5074 - Introduction to Laboratory Animal Research

This course provides basic theoretical and practical knowledge on the use of the most common laboratory animal species, animal models and welfare, general concepts on animal biology and husbandry, and essential principles of anesthesia, analgesia, surgery and peri operative care. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5083 - Polymers in Biomedical Applications

This course will introduce graduate students to fundamental synthetic method and basic characteristics of various polymeric biomaterials and their crucial roles in different biomedical applications. It will also cover how the polymers can be modified to enhance biomedical applications. Cross-listed with BIOE 4083. Prereq: Graduate standing at CU Denver or instructor permission. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5085 - Tissue Engineering

This course covers tools, techniques, characterization and applications in modern tissue engineering. Cross-listed with BIOE 4085. Restriction: Restricted to Bioengineering students with graduate student status. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOE 5420 - Special Topics in Bioengineering

Special topics of particular interest to graduate students in Bioengineering. Prereq: Graduate standing within the Department of Bioengineering or permission of instructor. Repeatable. Max hours: 12 Credits. **Semester Hours:** 1 to 6

BIOE 5840 - Independent Study in Bioengineering

Graduate level independent study in Bioengineering with a faculty mentor. Prereq: Graduate standing within the Department of Bioengineering or permission of instructor. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 5939 - Graduate Internship

Department of Bioengineering Internship. Credit may not be applied toward the MS in Bioengineering degree. Enrollment by department permission only. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 6655 - Foundations of Doctoring MS Years

This course is for CU MD-MS students who are on leave of absence from SOM and wish to maintain clinical exposure and training during the leave. Prereq: Phase I & II SOM classes and graduate standing in BIOE. Repeatable. Max Hours: 20 Credits. **Semester Hours:** 1 to 5

BIOE 6950 - Masters Thesis

Research for Master Thesis under supervision of faculty thesis advisor. Prerequisites: Consent of thesis advisor. Restrictions: Satisfactory progress toward MS-Bioengineering degree. Repeatable. Max hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 6960 - Master's Project

Training for Master's Project under the supervision of faculty project advisor. Prereq: Department Consent. Repeatable. Max hours: 6 Credits. **Semester Hours:** 1 to 6

BIOE 8990 - Doctoral Dissertation

Research for doctoral dissertation under supervision of faculty advisor. Prerequisites: Consent of dissertation advisor. Restrictions: Satisfactory progress toward PhD-Bioengineering Degree. Repeatable. Max hours: 10 Credits. **Semester Hours:** 1 to 10

Biology

BIOL 1111 - First Year Seminar

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 1 to 3

BIOL 1136 - Human Biology

Topics include: basic human body chemistry, healthy internal body balance, new disease treatments, human inheritance and human beings as part of Earth's living systems. Note: For students who are not majoring in biology. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 1200 - Drugs, Health, and Wellness

Taught by CU Anschutz practicing health care professionals, the course provides an introduction to contemporary drug-related issues, such as drug misuse and abuse, medical and recreational marijuana, drug discovery and development, personalized medicine, common illnesses experienced by typical college age students, and personal health and wellness. This course does not count toward the major. Max hours: 2 Credits. **Semester Hours:** 2 to 2

BIOL 1332 - Topics in Biology.

Special topics in introductory biology will be covered. Repeatable. Max hours: 9 Credits.

Semester Hours: 1 to 3

BIOL 1550 - Basic Biology: Ecology and the Diversity of Life

Introduces the process of science, gene expression, biological diversity, evolution, and ecology. Highlights applications to contemporary issues. Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course.

Students may not receive credit for this course if they have already received credit for BIOL 2051 and BIOL 2061. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Semester Hours: 4 to 4

BIOL 1560 - Basic Biology: From Cells to Organisms

Introduces the process of science, cell structure and function, survey of representative human and plant systems, and genetics. Highlights applications to contemporary issues. Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL 2051 and BIOL 2061. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 4 to 4

BIOL 2051 - General Biology I

Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory - BIOL 2071. It is recommended that students have completed CHEM 1000 or high school chemistry prior to taking this course. No co-credit with BIOL 2095. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2. **Semester Hours:** 3 to 3

BIOL 2061 - General Biology II

This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or 2095 with a grade of "C-" or higher. No co-credit with BIOL 2097. Term offered: fall, spring, summer. Max hours: 3 Credits. GT:

Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2. **Semester Hours:** 3 to 3

BIOL 2071 - General Biology Laboratory I

Introduces the basic scientific approach through investigations, observations, and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. No co-credit with BIOL 2096. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 1 to 1

BIOL 2081 - General Biology Laboratory II

Investigations, observations, and experiments in evolution, bioinformatics, ecology, and animal behavior, anatomy, and physiology; requires off-campus field work. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Prereq: BIOL 2071 or 2096 with a C- or higher. Students are strongly encouraged to take BIOL 2061 concurrently or before they take this course. No co-credit with BIOL 2098. Term offered: fall, spring, summer. Max hours: 1 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 1 to 1

BIOL 2095 - Honors General Biology I

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Four major topics covered: the chemistry of biological systems, the structure/function of the cell, cellular energy transformations and genetics. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). Instructor permission required. No co-credit with BIOL 2051. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 2096 - Honors General Biology Lab I

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biomedical techniques, genetics, molecular genetics and applications of biotechnology. Instructor permission required. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). No co-credit with BIOL 2071. Term offered: fall. Max hours: 1 Credit. **Semester Hours:** 1 to 1

BIOL 2097 - Honors General Biology II

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. This course is a continuation of BIOL 2095. Introduces four major areas of study: evolution,

animal structure/function, plant structure/function, and ecology. Prereq: Students need to have completed BIOL 2095 or BIOL 2051 with a grade of C- or higher and Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). Instructor permission required. No co-credit with BIOL 2061. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 2098 - Honors General Biology Lab II

Honors level course limited to students in the BA/BS/MD, Denver Bound and UHL programs. Advanced study of evolution, plant and animal anatomy, developmental biology and includes two off-campus ecology field trips. Prereq BIOL 2096 or BIOL 2071 with a grade of C- or higher. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). No co-credit with BIOL 2081. Term offered: spring. Max hours: 1 Credit. **Semester Hours:** 1 to 1

BIOL 2750 - Introduction to Molecular Research Techniques

Designed to give background knowledge and hands-on experience for a person wanting to work in a molecular-research laboratory. Introduction to basic molecular techniques including micropipetting, making media, DNA and RNA isolation, restriction digest, RT-PCR, and gel electrophoresis. Max hours: 2 Credits. **Semester Hours:** 2 to 2

BIOL 2840 - Independent Study

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BIOL 2939 - Internship

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of BIOL courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BIOL 3020 - Practical Laboratory Skills

Designed for Students who are interested in working in a professional biology laboratory. Covers improvement of manual dexterity skills, understanding common laboratory apparatus and handling biological macromolecules and living cells. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2081), CHEM 2038(or 2088), CHEM 2061(or 2091) and 2068(or 2098) with a C- or higher. Max Hours: 1 Credit. **Semester Hours:** 1 to 1

BIOL 3104 - Behavioral Genetics

Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Cross-listed with PSYC 3104. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3124 - Introduction to Molecular Biology

Provides an understanding of the structure and function of genetic material, with respect to the regulation of gene expression and protein synthesis. Emphasizes eukaryotic systems and understanding the significance of contemporary laboratory-based research. Prereq: BIOL 3832 with a grade of C- or higher. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3134 - Advanced Topics

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 8

BIOL 3137 - Advanced Special Topics with Lab

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 15 Credits. **Semester Hours:** 1 to 15

BIOL 3225 - Human Physiology

The basic orientation of the course is toward understanding the functioning of the body as a set of homeostatic mechanisms. Particular emphasis is placed on membrane potentials, muscle, circulation, respiration, digestion, the kidney, the control of metabolism and acid-based balance. Note: This is a combined lecture and lab course. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, 2081/2098 and CHEM 2031/2081, 2038/2088, 2061/2091 and 2068/2098 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 3244 - Human Anatomy

This course introduces structural aspects of the human body from a systems-based approach, in both lecture and laboratory. The systems addressed include the integument, skeletal, muscular, nervous, digestive, respiratory, circulatory, immune, renal, reproductive and endocrine systems. Anatomical models, microscope slides and human cadavers are used in lab. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096 and 2081/2098 with a C- or higher. Term offered: fall, spring. Max hours: 5 Credits. **Semester Hours:** 5 to 5

BIOL 3330 - Plant Diversity

Surveys all major plant groups using evolutionary and ecological principles to interpret patterns of diversity in form and function. Topics include reproduction and life cycles, adaptations and ecological interactions, paleobotany and biogeography, classification and taxonomy and evolution. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096 and 2081/2098 with a C- or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3411 - Principles of Ecology

A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3413 - Ecology Laboratory

Provides hands-on experiences in ecology and appreciation for using research tools to study ecological systems. Students will learn a wide range of techniques and concepts related to population, community, ecosystem, urban, and physiological ecology. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, or be concurrently enrolled in BIOL 3411 in order to enroll in this course. Max Hours: 2 Credits. **Semester Hours:** 2 to 2

BIOL 3445 - Introduction to Evolution

Introduction to the processes and patterns of evolution. Topics include: history of evolutionary thought, origin of life, evidence for evolution , phylogenetics, evolutionary genetics, natural selection and other evolutionary forces, speciation and biodiversity , evolution of sexual reproduction and social organization. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096 and 2081/2098. Term offered: fall, spring, summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3521 - Vertebrate Biology

The Subphylum Vertebrata consists of fish, amphibians, reptiles, birds and mammals--some of the most fascinating and most threatened species on earth. This course covers the evolution, taxonomy, anatomy, physiology, ecology and conservation of these organisms. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 3525 - Parasitology

This course is designed to provide a foundation in parasitology and to improve skills in scientific writing to students interested in biodiversity, veterinarian medicine, public health, & health care. Prokaryotes are addressed briefly; the focus of this course is the natural history of 'traditional' eukaryotic parasites. Topics include evolutionary associations of parasites with plants and animals (including humans), modes of transmission, and general life cycles. Subject matter includes basic anatomy, epidemiology, and physiology, with a brief introduction to immunology. Note: may be used as an upper-division biology elective. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 3611 - General Cell Biology

Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, 2081/2098 and CHEM 2031/2081, 2038/2088, 2061/2091 and 2068/2098 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 3612 - Cell Biology Laboratory

Laboratory course covering topics in cell and molecular biology, such as protein folding, membrane potential, organelle function, cell signaling and fertilization; as well as associated methods, including microscopy, cell culture and PCR. Basic skills are emphasized in recitation and laboratory. Prereq: General cell biology with a grade of "C-" or higher or permission of instructor. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 3621 - Introduction to Immunology

Provides an introduction to the basic concepts of immunology, including development of the immune system, innate immunity, aspects of the adaptive immune system, and the role of the immune system in disease, as well as allergies and autoimmunity. Prereq: BIOL 3611 and 3832 with a C- or higher. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 3654 - General Microbiology

Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other

organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic micro-biological laboratory techniques. Note: This is a combined lecture and lab course. Prereq: Grade of C- (1.7) or higher in BIOL 2051/2095, 2061/2097, 2071/2096, 2081/2098 & CHEM 2031/2081, 2038/2088, 2061/2091 and 2068/2098. Term offered: fall, spring. Max hours: 5 Credits. **Semester Hours:** 5 to 5

BIOL 3674 - Endocrinology

This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: BIOL 3611 with a grade of C- or higher. Students will not earn credit for this course if they have already earned credit for BIOL 4674. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3763 - Biostatistics

Introduces statistical thinking in biology. Emphasizes data exploration and probability-based inference methods including estimation, testing, and confronting models with data. Concepts and examples for general and applied biology, including ecology and the health sciences. Includes exposure to statistical software. Prereq: BIOL 2051/2095, BIOL 2061/2097, BIOL 2071/2096, BIOL 2081/2098 with a grade of C- or higher, and MATH 1110, or MATH 1120, or 1130, or 1401, or 2411, or 2421 or 2830 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 3804 - Developmental Biology

Covers gamete development, fertilization, and embryo development including establishing body axes, tissue differentiation and organ formation. Note: Students will not earn credit for BIOL 3804 if they have earned credit for BIOL 4054 and will not earn credit for BIOL 4054 if they have earned credit for BIOL 3804. Prereq: General cell biology with a grade of "C-" or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3832 - General Genetics

Introduces molecular, classical, developmental and population genetics. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 3840 - Independent Study

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Prereq: Students must have

completed one semester of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 3

BIOL 3939 - Internship

Approved internships will provide opportunities to apply classroom knowledge in a professional environment and expand the student's knowledge of biology. Associated coursework includes scientific reading/writing and presentation(s). Prereq: BIOL 2051 or 2095 and BIOL 2061 or 2097 with a C or higher AND have junior level standing with a 2.75 GPA. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BIOL 4024 - Introduction to Biotechnology

Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Prereq: BIOL 3832 with a C- or higher. Cross-listed with BIOL 5024. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4050 - Advanced Biology Topics

Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Cross-listed with BIOL 5050. Repeatable. Max Hours: 8 Credits. **Semester Hours:** 1 to 8

BIOL 4052 - Advanced Ecology

This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5052. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4053 - Disease Ecology

The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or

higher, in order to enroll in this course. Cross-listed with BIOL 5053. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 4055 - Virology

This is an upper level undergraduate/graduate class providing an in-depth study of the history of virology, different types of viruses, viral disease, research to combat viral infections, and different uses of viruses in biotechnology. Note: Students will not earn credit for this course if they have already earned credit for BIOL 4051 or BIOL 5051. Prereq: BIOL 3611 with a grade of C- or higher. Cross-listed with BIOL 5055. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4064 - Cell Biology of Disease

Builds on the foundations laid in the prerequisite courses. How alterations in membrane transport, autophagy, mitochondria, lysosomes, cilia, unfolded protein response and autophagy lead to major human diseases. A major emphasis is the control and integration of cellular activities. Prereq: General cell biology with a C- or higher. One semester of Biochemistry is strongly recommended for optimal student success. Cross listed with BIOL 5064. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4068 - The Cell Cycle

Provides an in-depth study of the molecular regulation of the eukaryotic cell cycle. Includes mitosis, meiosis, developmental cell cycles, cell cycle checkpoints and cell cycle defects in cancer. Prereq: Students must have completed BIOL 3611 and BIOL 3832 with a C- or higher in order to enroll in this course. Biochemistry strongly recommended. Cross-listed w/BIOL 5068. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4074 - Human Reproductive Biology

Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Prereq: BIOL 3611 with a C- or higher. Cross-listed with BIOL 5074. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4125 - Molecular Biology Laboratory

Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mRNA and protein detection in the context of gene editing. Experimental design and the theories underlying the techniques are also discussed. Prereq: BIOL 3124 with a C- or higher or Coreq: BIOL 3124. Cross-listed with BIOL 5125. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4126 - Molecular Genetics

Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Prereq: Completion of Introduction to Molecular Biology with a C- or higher is required in order for students to enroll in this course. Cross-listed with BIOL 5126. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4128 - Topics in Molecular Biology

Literature-based course examining the regulation of gene expression in eukaryotic systems, as well as contemporary recombinant DNA technology and applications of molecular cloning techniques. Prereq: BIOL 3124 with a C- or higher; biochemistry strongly recommended. Cross-listed with BIOL 5128. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4134 - Human Genetics

Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Prereq: General genetics with a grade of "C-" or higher. Cross-listed with 5134. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4144 - Medical Microbiology

Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Prereq: general microbiology with a grade of "C-" or higher. Cross-listed with BIOL 5144. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4154 - Conservation Biology

Basic concepts and theories in ecology, population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5154. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4165 - Neurobiology

Overview of neuroscience, covering the cellular basis of neuronal activity, muscle, sensory structures and the structure and function of the human brain. Prereq: BIOL 3611 and PSYC 2220

with a C- or higher OR BIOL 3225 with a C- or higher. Cross-listed with BIOL 5165. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4225 - Genomics and Bioinformatics

Explores how genome-wide data are collected and analyzed. Example applications include human disease, microbial evolution, ecological genomics, and parasite drug resistance. Students implement projects based on real DNA sequencing data. Prereq: BIOL 3832 with a C- or higher. Cross-listed with BIOL 5225. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4250 - Mechanisms of Animal Behavior

The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature. Proximate mechanisms include genetic and physiological processes. Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Genetics and human physiology are recommended. Cross-listed with BIOL 5250. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4315 - Plant Systematics

Lecture, lab and field trips. Extensive introduction to the basic principles and concepts of vascular plant systematics. Topics include principles of taxonomy, nomenclature, methods, systems of classification and field and herbarium procedures. Emphasis on plant structure and identification using fresh, frozen and pressed plant specimens. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5315. Max hours: 4 Credits.

Semester Hours: 4 to 4

BIOL 4335 - Plant Science

Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Prereq: One year of General Cell Biology (BIOL 3611) with a grade of "C-" or higher. Cross-listed with BIOL 5335. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 4345 - Flora of Colorado

Lecture, lab and field trips. Introduces the vascular plant flora of Colorado, including ferns, gymnosperms and flowering plants. Emphasis on field identification of species representing a range of natural communities from grassland to alpine tundra, as well as non-natives. Field and herbarium techniques covered. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5345. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 4415 - Microbial Ecology

An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in maintaining steady state conditions in natural ecosystems. Emphasis is placed on how the ecology of microorganisms affects the human condition. Prereq: General microbiology with a grade of "C-" or higher. Cross-listed with BIOL 5415. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4416 - Aquatic Ecology

This advanced ecology course examines the inter-relations of biological (including humans), physical and chemical components of wetlands, streams, rivers, lakes, reservoirs and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and field exercises. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5416. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4425 - Biogeography

An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5425. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4430 - Introduction to Spatial Ecology

Focuses on patterns of life and ecological interactions in space. Emphasis on drivers of patterns, practical application of spatial ecology software, programming, and introductory spatial statistics on the quantification of patterns. Main topics: Scale and scaling, pattern development, detecting and characterizing patterns, temporal dynamics, and implications of spatial structure to conservation biology, resilience, and ecosystem functioning. Cross-listed with BIOL 5430. Prereq: BIOL 3411 with C- or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4450 - Marine Biology

Looks at the fascinating organisms that inhabit the oceans, which represent 99% of the living space of earth. While the focus is on the ecology of marine organisms, taxonomy, physiology and anatomy are also covered. Prereq: BIOL 2051/2095, 2061/2097, 2071/2096, and 2081/2098 with a C- or higher. Cross-listed with BIOL 5450. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4455 - Comparative Environmental Physiology

This advanced physiology course explores the physiological evolutionary adaptations of different animals in the context of their environment. Content includes exploration of maintenance of homeostasis via feedback regulation, structure-function relationships, cellular physiology, and the study of organ systems including the nervous, endocrine, respiratory, reproductive and cardiovascular systems. Prereq: BIOL 3611 with a grade of C- or higher. Cross-listed with BIOL 5455. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4460 - Environmental Toxicology

Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Prereq: BIOL 3611 with a grade of C- or higher. Cross-listed with BIOL 5460. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4464 - Exercise Physiology

This course addresses the dynamic physiological changes associated with exercise. Where human physiology addresses physiological processes at rest, this course explores how the cardiovascular, respiratory, nervous and endocrine systems support increased energy transfer as skeletal muscle becomes more active. Prereq: Human Physiology (BIOL 3225 or equivalent) with a grade of C- or higher. Cross-listed with BIOL 5464. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4474 - Ecological Methods

Deals with the empirical aspects of an ecological study. Students learn sampling techniques that are used in plant and animal ecology. Emphasis is placed on hypothesis testing, data analysis and experimental field designs. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5474. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 4475 - Mechanisms of Human Pathology

Studies physiological, cellular and biochemical processes in human diseases. Mechanisms of inflammatory diseases, infectious diseases, neoplastic diseases, and others will be examined. Prereq: BIOL 3225 or BIOL 3244 with a grade of C- or higher. Cross-listed with BIOL 5475. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4494 - Population and Evolutionary Genetics

Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population

genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: Completion of General Genetics and Introduction to Evolution with a C- or higher is required in order for students to enroll in this course. Cross-listed with BIOL 5494. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4550 - Cell Signaling

Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Prereq: General cell biology with a grade of "C-" or higher; one semester of biochemistry recommended. Cross-listed with BIOL 5550. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4622 - Topics in Immunology

An in-depth study of immunological concepts. Topics will vary from semester to semester and may range from specifics of immune cell responses to tolerance and autoimmunity. Delivery will include lecture, student presentations, and discussion. Prereq: BIOL 3621 with a C- or higher. Cross-listed with BIOL 5622. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4634 - Biology of Cancer

Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Prereq: BIOL 3611 and BIOL 3832 with a C- or higher. Cross-listed with BIOL 5634. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4640 - Mammalogy

Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Prereq: BIOL 3411 with a grade of C- or higher. Cross-listed with BIOL 5640. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 4644 - Advanced Human Anatomy Laboratory

Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Prereq: One year of general biology and human anatomy with a grade of "C-" (2.0) or higher. Cross-listed with BIOL 5644. Term offered: fall, spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

BIOL 4674 - Endocrinology

This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: BIOL 3611 with a grade of C- or higher. Students will not earn credit for this course if they have already earned credit for BIOL 4674. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4815 - Structural Biology of Neurodegenerative Diseases

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Prereq: 1) BIOL 2051 & BIOL 2071 or BIOL 2095 & BIOL 2096, and 2) CHEM 3810 or CHEM 4810 or CHEM 5810. Coreq: PHYS 2020 or PHYS 2331. Cross-listed with CHEM 4815, CHEM 5815, and BIOL 5815. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4825 - Biochemistry of Metabolic Disease

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher, and 2) BIOL 2051 & BIOL 2071 or BIOL 2095 and BIOL 2096 with a C- or higher. Cross-listed with CHEM 4825, CHEM 5825, and BIOL 5825. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4835 - Biochemistry of Gene Regulation and Cancer

Explores the biochemical and molecular aspects of cancer biology. Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Prereq: 1) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher, and 2) BIOL 2051 & 2071 or BIOL 2095 & BIOL 2096 with a C- or higher. Cross-listed with CHEM 4835, CHEM 5835, and BIOL 5835. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4840 - Independent Study

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: Registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments

and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 6

BIOL 4880 - Directed Research

A student designed lab or field-based investigation that involves data collection, and that makes an original intellectual or creative contribution to the discipline. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOL 4910 - Field Studies

Field studies of individuals, populations and communities comprising a specified ecosystem. Emphasis on field identification of vascular plants and vertebrate animals. Topics include the physical environment, biotic and abiotic interactions, life history, ecological adaptations and biogeography. Note: Lectures and a week-long field trip. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5910. Repeatable. Max hours: 6 Credits. **Semester Hours:** 3 to 3

BIOL 4974 - Advanced Evolution

A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record, mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Prereq: BIOL 3445 and 3832 with a C- or higher. Cross-listed with BIOL 5974. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 4990 - Undergraduate Research Seminar

Introduces research in the biological sciences. Students read current scientific literature, attend related seminars and participate in discussions. This course offers students a chance to interact with visiting scientists, who will present state-of-the-field biological research in a seminar setting. Prereq: Senior standing, satisfactory completion of all biology core courses, overall GPA of 3.0 or higher and permission of instructor. Cross-listed with BIOL 6655. Max hours: 1 Credit. **Semester Hours:** 1 to 1

BIOL 5024 - Introduction to Biotechnology

Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Restriction: Restricted to degree granting graduate programs on the downtown campus as well as the School of Medicine on the

Anschutz Medical campus. Cross-listed with BIOL 4024. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5050 - Advanced Biology Topics

Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4050. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 8

BIOL 5052 - Advanced Ecology

This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4052. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5053 - Disease Ecology

The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4053. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5055 - Virology

This is an upper level undergraduate/graduate class providing an in-depth study of the history of virology, different types of viruses, viral disease, research to combat viral infections, and different uses of viruses in biotechnology. Note: Students will not earn credit for this course if they have already earned credit for BIOL 4051 or BIOL 5051. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4055. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5064 - Cell Biology of Disease

Builds on the foundations laid in the prerequisite courses. How alterations in membrane transport, autophagy, mitochondria, lysosomes, cilia, unfolded protein response and autophagy lead to major human diseases. A major emphasis is the control and integration of cellular activities. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4064. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5068 - The Cell Cycle

Provides an in-depth study of the molecular regulation of the eukaryotic cell cycle. Includes mitosis, meiosis, developmental cell cycles, cell cycle checkpoints and cell cycle defects in cancer. Restriction: Restricted to degree-granting graduate programs. Cross-listed w/BIOL 4068. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5074 - Human Reproductive Biology

Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4074. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5125 - Molecular Biology Lab

Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mRNA and protein detection in the context of gene editing. Experimental design and the theories underlying the techniques are also discussed. Restriction: Restricted to degree granting graduate programs on the downtown campus as well as the School of Medicine on the Anschutz Medical campus. Cross-listed with BIOL 4125. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5126 - Molecular Genetics

Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4126. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5134 - Human Genetics

Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4134. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5144 - Medical Microbiology

Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Restriction: Restricted to degree-

granting graduate programs. Cross-listed with BIOL 4144. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5154 - Conservation Biology

Basic concepts and theories in population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4154. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 5165 - Neurobiology

Overview of neuroscience, covering the cellular basis of neuronal activity, muscle, sensory structures and the structure and function of the human brain. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4165. Max hours: 3 Credits. **Semester**

Hours: 3 to 3

BIOL 5225 - Genomics and Bioinformatics

Explores how genome-wide data are collected and analyzed. Example applications include human disease, microbial evolution, ecological genomics, and parasite drug resistance. Students implement projects based on real DNA sequencing data. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4225. Max hours: 3 Credits.

Semester Hours: 3 to 3

BIOL 5250 - Mechanisms of Animal Behavior

The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature. Proximate mechanisms include genetic and physiological processes. Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4250. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5335 - Plant Science

Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4335. Max hours: 4 Credits. **Semester**

Hours: 4 to 4

BIOL 5345 - Flora of Colorado

Lecture, lab and field trips. Introduces the vascular plant flora of Colorado, including ferns, gymnosperms and flowering plants. Emphasis on field identification of species representing a range of natural communities from grassland to alpine tundra, as well as non-natives. Field and herbarium techniques covered. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4345. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 5415 - Microbial Ecology

An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in maintaining steady state conditions in natural ecosystems. Emphasis is placed on how the ecology of microorganisms affects the human condition. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4415. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5416 - Aquatic Ecology

This advanced ecology course examines the inter-relations of biological (including humans), physical and chemical components of wetlands, streams, rivers, lakes, reservoirs and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and field exercises. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4416. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5425 - Biogeography

An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4425. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5430 - Introduction to Spatial Ecology

Focuses on patterns of life and ecological interactions in space. Emphasis on drivers of patterns, practical application of spatial ecology software, programming, and introductory spatial statistics on the quantification of patterns. Main topics: Scale and scaling, pattern development, detecting and characterizing patterns, temporal dynamics, and implications of spatial structure to conservation biology, resilience, and ecosystem functioning. Cross-listed with BIOL 4430. Restriction: Restricted to degree-granting graduate programs. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5450 - Marine Biology

Looks at the fascinating organisms that inhabit the oceans, which represent 99% of the living space of earth. While the focus is on the ecology of marine organisms, taxonomy, physiology and anatomy are also covered. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4450. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5455 - Comparative Environmental Physiology

This advanced physiology course explores the physiological evolutionary adaptations of different animals in the context of their environment. Content includes exploration of maintenance of homeostasis via feedback regulation, structure-function relationships, cellular physiology, and the study of organ systems including the nervous, endocrine, respiratory, reproductive and cardiovascular systems. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4455. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5460 - Environmental Toxicology

Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4460. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5464 - Exercise Physiology

This course addresses the dynamic physiological changes associated with exercise. Where human physiology addresses physiological processes at rest, this course explores how the cardiovascular, respiratory, nervous and endocrine systems support increased energy transfer as skeletal muscle becomes more active. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4464. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5474 - Ecological Methods

Lecture, laboratory. Deals with the empirical aspects of an ecological study. Students learn sampling techniques that are used in plant and animal ecology. Emphasis is placed on hypothesis testing, data analysis and experimental field designs. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4474. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 5494 - Population and Evolutionary Genetics

Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Restriction: Restricted to degree-

granting graduate programs. Cross-listed with BIOL 4494. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5550 - Cell Signaling

Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4550. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5634 - Biology of Cancer

Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4634. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5640 - Mammalogy

Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4640. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 5644 - Advanced Human Anatomy Laboratory

Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4644. Term offered: fall, spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

BIOL 5815 - Structural Biology of Neurodegenerative Diseases

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Restriction: Restricted to degree-granting graduate programs. Cross-listed with CHEM 4815, BIOL 4815, and BIOL 4815. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5825 - Biochemistry of Metabolic Disease

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Restriction: Restricted to degree-granting graduate programs. Cross-listed with CHEM 4825, CHEM 5825, and BIOL 4825. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5835 - Biochemistry of Gene Regulation and Cancer

Explores the biochemical and molecular aspects of cancer biology. Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Restriction: Restricted to degree-granting graduate programs Cross-listed with CHEM 4835, CHEM 5835, and BIOL 4835. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 5840 - Independent Study: BIOL

Note: Registration by special processing form only. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 1 to 3

BIOL 5939 - Internship

Designed experience involving application of specific, relevant concepts and skills in supervised employment situations. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 6

BIOL 5974 - Advanced Evolution

A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4974. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 6002 - Biology Skills Sets - Pedagogy

The purpose is to introduce sound practice in teaching and innovation in pedagogy. Topics covered will include assessment techniques, creation of learning goals, and research methods in biological education. Restriction: Restricted to degree-granting graduate programs. Term offered: fall. Max hours: 1 Credit. **Semester Hours:** 2 to 2

BIOL 6655 - Seminar

Restriction: Restricted to degree-granting graduate programs. Cross-listed with BIOL 4990.
Term offered: fall, spring. Repeatable. Max Hours: 2 Credits. **Semester Hours:** 1 to 1

BIOL 6705 - Biological Research Workshop

For graduate and advanced undergraduate students who are directly engaged in original research. Provides introduction to the discovery dissemination and peer review process associated with writing research proposals, manuscripts, and grants, as well as poster and oral presentations. Students will workshop each other's original research. Graduate students enroll in 6705; research-active undergraduates enroll in 5705. Cross-listed with BIOL 5705. Prereq: Students involved in original research and permission of instructor. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring. Repeatable. Max Hours: 8 Credits. **Semester Hours:** 2 to 2

BIOL 6764 - Biological Data Analysis

Addresses quantitative aspects of research design, data collection and analysis in the biological sciences. Emphasizes relationships among probability theory, estimation, testing, inference, and interpretation. Includes intensive computer lab using the statistical programming software R to demonstrate both traditional analytical and contemporary simulation based (permutation, bootstrap, and Bayesian) approaches for inference in biology. Restriction: Restricted to degree-granting graduate programs. Max hours: 4 Credits. **Semester Hours:** 4 to 4

BIOL 6880 - Directed Research

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BIOL 6950 - Master's Thesis

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits. **Semester Hours:** 1 to 8

BIOL 7010 - Integrative and Systems Biology

Addresses current research problems in integrative biology and system biology by surveying the peer-reviewed literature. Particular attention will be paid to research topics that integrate multiple levels of biological organization and that investigate how properties of systems emerge from interactions of sub-units. Note: New students in the Integrative and Systems Biology PhD program will enroll in this course during their first year. Restriction: Restricted to degree-granting graduate programs. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BIOL 7050 - Special Topics

Readings in current biology topics. Specific topics vary and may be proposed by groups of graduate students who identify a suitable faculty instructor or by a faculty member who identifies a need for advanced study in a specialized topic of biology. Restriction: Restricted to degree-granting graduate programs. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BIOL 7650 - Research in Integrative and Systems Biology

Designed to allow doctoral students to conduct research for course credit prior to advancement to candidacy. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Prereq: Ph.D. student and permission of instructor. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max Hours: 10 Credits. **Semester Hours:** 1 to 10

BIOL 7920 - Directed Reading/Grant Writing

Allows students to examine current literature related to their specialty area of biological research and to work in collaboration with a research mentor to develop a grant-based dissertation proposal in preparation for the comprehensive review examination. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Prereq: Students must be in the Integrative and Systems Biology PhD program and have permission from the instructor. Restriction: Restricted to degree-granting graduate programs. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

BIOL 8990 - Doctoral Dissertation

Designed to allow doctoral students to conduct research for course credit prior to advancement to candidacy. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the Graduate School for approval. Prereq: Students must be in the Integrative and Systems Biology PhD program and have permission from the instructor. Restriction:

Restricted to degree-granting graduate programs. Term offered: fall, spring, summer.
Repeatable. Max hours: 60 Credits. **Semester Hours:** 1 to 10

Bus Minor for non-bus majors

BMIN 1000 - Introduction to Business

The business and economic landscape is introduced illustrating the challenges and opportunities in today's business environment. A foundation in traditional business disciplines is introduced including the principles and terminology employed in Marketing, Management, Finance, Accounting, Operations, and Economics. This course is cross-listed with MGMT 1000. Restriction: Students enrolled in the Business School are not eligible for this course. Note: Students seeking a Minor in Business Fundamentals are encouraged to enroll in BMIN 1000 as their first course. However, BMIN 1000 may be taken as a co-requisite with BMIN 3001, 3002 or 3003 or ENTP 3000. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BMIN 1010 - Introduction to Business -- Career Planning

Students will explore their best career choices based on assessments and their personality type. They will learn what strengths they bring to a team and to their individual management style utilizing the Myers Briggs Type Indicator and Strong Interest Inventory assessments. Topics covered include: career exploration, career and internship planning, personality styles and strengths, working with executives, corporate culture overview, business trends and news, and analysis of Fortune 100 companies. Supplemental topics include: resume writing, effective interviewing, time management, business writing and hiring trends. Restriction: Students enrolled in the Business School are not eligible for this course. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BMIN 3001 - Fundamentals of Management and Marketing

Comprised of two modules focusing on essential concepts of Management and Marketing: 1) Management: Including organizational behavior concepts, leadership, management skills and methods and team dynamics 2) Marketing: Students will develop a new product marketing plan including, industry and market research, market segmentation, marketing mix planning and implementation strategies. Restriction: Students enrolled in the Business School are not eligible for this course. Co-req: BMIN 1000 or MGMT 1000. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BMIN 3002 - Fundamentals of Accounting and Finance

Comprised of two modules focusing on essential concepts of 1) Accounting: including the use of information in financial reports and in making business decisions, and 2) Finance: including financial markets, capital structure, time-value of money, valuation and capital budgeting.

Restriction: Students enrolled in the Business School are not eligible for this course. Co-req: BMIN 1000 or MGMT 1000. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BMIN 3004 - Principles of Strategic Management

Students will examine the critical issues related to running sustainable businesses. Using the strategic management model as a framework, the course focuses primarily on developing and implementing corporate strategy. Topics covered include mission, vision and values; corporate social responsibility; competitive analysis; leveraging core competencies; developing a business model, and creating value. Supplemental topics include how to create competitive advantage through innovation, choosing an appropriate legal business entity, and managing risk. This is a capstone course and synthesizes key concepts from other Cohort Business Minor courses including entrepreneurship, accounting & finance, management, and marketing. Restriction: Students enrolled in the Business School are not eligible for this course. Prereq: BMIN 3001, BMIN 3002, Junior-Level Standing. Max hours: 3 Credits. **Semester Hours:** 3 to 3

Business

BUSN 1110 - Intro to Investment Services Careers

Open to all majors! Provides a comprehensive overview of careers in the Investment Services industry. Emphasis will be on interactions with industry professionals to provide hands-on knowledge and opportunities for in-depth discussion. Students are required to participate in a site visit to an investment services company during the course. Max hours: 1 Credit. **Semester Hours:** 1 to 1

BUSN 1200 - Career and Professional Development

This first year course develops a student's professional skills, providing knowledge on key factors for early and long-term career success. Through applied learning and career-oriented experiences, the course covers: career and major exploration, student resources, resume writing, interview skills, business communications, professional etiquette, emotional intelligence, time management, ethical behavior, and workplace expectations. Students will have opportunities to develop their own professional network with business leaders as new members of the Business School. Restriction: Restricted to freshman level Business School majors. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 5939 - Internship

Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BUSN 6520 - Leading Individuals and Teams

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6521 - Leading Individuals and Teams

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. The emphasis is on health care issues and is intended for health care students. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6530 - Data Analytics for Managers

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions.

Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6540 - Legal and Ethical Environment of Business

Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6541 - Legal and Ethical Environment of Business (Health Section)

Students develop a working knowledge of legal and ethical parameters for business decision making. Addresses the legal system and mechanisms for resolving disputes. Topics include

business entities, torts, contracts, employment relationships, litigation and alternative dispute resolution. It stresses the influence of legal issues on organization and decision making. The emphasis is on health care issues and is intended for health care students. Max hours: 3 Credits.

Semester Hours: 3 to 3

BUSN 6550 - Analyzing and Interpreting Accounting Information

Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6560 - Marketing Dynamics in the 21st Century

This course focuses on the art, science, and practice of managing dynamic market environments and making decisions about alternative marketing strategies. Students use analytical frameworks to inform decision-making about the many specific aspects of marketing: e.g., value proposition, target markets, positioning, products, channels of distribution, pricing, communication, and service. Participants learn how to integrate these elements into a Marketing Plan. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6561 - Marketing Management (Health Section)

Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. Restrictions: Restricted to HLAB and MBAH majors within the Business School. Max hours: 3 Credits.

Semester Hours: 3 to 3

BUSN 6610 - Information Systems Strategy

Digital strategy is the application of digital technologies to business models to form new differentiating business capabilities. The course starts with the highlights of genesis and importance of IT in organizations, including the relationship between digital technology and competitiveness. Then, the development and management of an effective digital infrastructure are discussed. Realizing that the effective use of digital technology requires the alignment of competitive strategies, business processes, and applications, the course takes a top management perspective on the development of policies and plans that maximize the contribution of digital technologies to organizational goals. A broad overview of how systems support the operational, administrative, and strategic needs of organizations is covered. Note:

Students cannot receive credit if they have taken BUSN 6810 or ISMG 6180. Cross-listed with ISMG 6180. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School, graduate majors within the College of Engineering, Design and Computing, PHCS PhD majors and PhD majors. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6620 - Applied Economics for Managers

After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Co-req: BUSN 6550 or ACCT 6030 or ACCT 6031 and BUSN 6530 or FNCE 6290 or BANA 6610. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6621 - Applied Economics for Managers (Health Section)

After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment. Students should understand basic aspects of federal macroeconomics policy designed to achieve stable prices and economic growth. Also, they should understand basic aspects of government regulation of business. The emphasis is on healthcare issues and is intended for healthcare students. Co-req: BUSN 6550 or ACCT 6030 or ACCT 6031 and BUSN 6530 or FNCE 6290 or BANA 6610. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6630 - Management of Operations

This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of contemporary Operation Management topics using current techniques and modeling to solve and understand key issues. Basic Excel skills are required. The use of model-assisted decision making is emphasized. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6640 - Financial Management

This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma

statements for the firm. Prereq: BUSN 6550 with a grade of C or better. Coreq: BUSN 6530 or FNCE 6290 or BANA 6610 and BUSN 6620 or BUSN 6621. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6710 - Strategic Management

Concerned with the development of a general management perspective in establishing the strategic direction for an enterprise. Students gain an understanding of strategy formulation and implementation within the context of the global environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester Capstone course. Coreq: BUSN 6560 or 6561, BUSN 6630 or BUSN 6631; and BUSN 6640. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6711 - Strategic Management (Health Section)

Concerned with the development of a general management perspective in establishing the strategic direction for a health delivery organization. Students gain an understanding of strategy formulation and implementation within the context of the managed care environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester course. Required of Health Administration majors. Coreq: BUSN 6560 or BUSN 6561, and BUSN 6640. Restrictions: Restricted to HLAB and MBAH majors within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6800 - Topics In Business

Current topics in business are occasionally offered. Prerequisites vary depending on the material covered. Consult the current 'schedule planner' for specific offerings and prerequisites. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 3 to 3

BUSN 6807 - Analyzing Emerging Opps & Planning During Uncertain Time

To develop strategic thinking and practical planning skills. Prepare students for the dynamic and uncertain business environment of today. More specifically, we explore how to think innovatively and spot trends, develop formal business plans around emerging opportunities, address uncertain and volatile situations using scenarios. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6811 - IT and New Business Paradigms

Introduces graduate students to the relationship between information technology and the other functional areas of the business. During the course, students have an opportunity to

listen and learn from guest speakers who have been involved with either guiding or interpreting the impact of information technology among functional areas of existing or new business. Through the use of current readings, guest lectures and case analysis, students examine various models of IT and new business paradigms to determine the decisions and success criteria for integrating it in ongoing business. A unique feature of the class will be the opportunity for students to present proposals and projects to be critiqued by individuals with IT or business experience. Those individuals provide feedback and perspectives regarding potential IT or new business paradigm activities. Prereq: Permission of instructor. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6812 - Business Intelligence and Analytics

This course covers the collection of computer technologies that support decision making. These technologies have had a profound impact on corporate strategy, performance, and competitiveness. These techniques broadly encompass analytics, business intelligence, and decision support systems. The discussion is organized around key enablers of the three types of analytics (1) descriptive analytics including data warehousing, business reporting, decision dashboard/ scorecards, visual analytics, (2) predictive analytics including Web Analytics, Web Mining and Social media Analytics, and (3) prescriptive analytics including decision analytics and big data analytics. The course concludes with emerging trends and topics in business analytics, including geospatial in analytics, location-based and consumer-oriented analytical applications, mobile platforms, and cloud-based analytics. The recommended prerequisite for this course is ISMG 6080. If you are familiar with database management systems and have worked with such systems (e.g., ACCESS) in the past, you satisfy the prerequisite requirements for this course. Cross-listed with ISMG 6220. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BUSN 6840 - Independent Study

Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Repeatable. Max Hours: 8 Credits. **Semester Hours:** 1 to 3

BUSN 6860 - Finance in the Sports Entertainment Industries

This course explores the problems and solutions of financing in sports and entertainment business. It focuses on stadium/venue financing, sports team valuation, entertainment event guarantee estimation, player/artist salary issues and managing disparate revenue streams. The course utilizes speakers, articles, problem sets and cases. Prereq: BUSN 6640. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

Business Analytics

BANA 2010 - Business Statistics

Basic principles of probability and statistics with applications in business. Includes descriptive statistics, probability and probability distributions, data collection, sampling distributions, statistical inference, simple regression and the use of a computer to perform statistical analysis. Students are required to present their analyses in written and/or oral form and defend their conclusions. This is a business core course. Therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher. Restriction: Restricted to undergraduate students at a sophomore standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 3000 - Operations Management

Introduces the concepts and methods commonly used in manufacturing and service operations. Topics include aggregate planning, inventory control, scheduling, quality control, and linear programming. This is a business core course. Therefore a grade of a 'C' or better must be earned to satisfy Business graduation requirements. Prereq: BANA 2010 and ACCT 2200 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 4840 - Independent Study

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits. **Semester Hours:** 3 to 3

BANA 4950 - Special Topics in Business Analytics

Course offered on an irregular basis for the purpose of presenting new subject matter in Business Analytics. Prereq: Will vary depending upon the particular topic and instructor. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 5939 - Internship

Repeatable. Max Hours: 9 Credits. **Semester Hours:** 1 to 3

BANA 6610 - Statistics for Business Analytics

Provides a conceptual overview of statistical thinking and its applications to business problems. Topics include descriptive statistics, data exploration, probability, inferential methods, regression analysis, classification, regression with high dimensional data, etc. Students gain hands-on experience with data analytic problems via projects using real business settings and data. Restriction: Restricted to MS BANA majors within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6620 - Computing for Business Analytics

Introduces database and modeling software used by business analytics professionals. Includes querying relational databases, state-of-the-art statistical freeware, and modeling software. Students learn to obtain, organize, and store data needed for analytics projects, undertake data cleansing for big data tasks, and conduct statistical data visualization. Restriction: Restricted to BANA-MS students within the Business School. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6630 - Time-Series Forecasting

Time series analysis is critical to industries such as finance, marketing, retail, and accounting. This course introduces time-series models with emphasis on their practical applications in business. The goal is to show how dynamic financial and economic data can be modeled and analyzed using proper statistical techniques. The topics include methods for trend and seasonal analysis and adjustment, modeling and forecasting with autoregressive moving average (ARMA) processes, and model identification and diagnostics for time series. Other subjects include volatility and state space models. This course provides hands-on experience by pairing lectures on methodology with lab sessions using R to perform real-world data analyses. If you do not meet the prerequisites you may contact the instructor for permission to register. Prereqs: BANA 6610. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Note: Can only receive credit for either BANA 6630/DSCI 6230. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6640 - Decision Analysis

Introduces a quantitative approach to business decision making under conditions of risk and uncertainty. Emphasis will include introductions to decision analysis theory, risk analysis, utility theory, multi-criteria decision making, Bayesian decision analysis and hierarchical structured models. Psychological issues and qualitative approaches in the decision-making process will be discussed. Student computer-assisted projects are included. Prereq: BANA 6610 or permission from instructor. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6650 - Project Management

Introduces the topic of Project Management (PM) in a business environment. Emphases will include the knowledge, skills, tools, and techniques as presented in the Project Management Body of Knowledge (PMBOK), a variety of managerial aspects commonly encountered in PM, and current extensions of PM. Projects in diverse contexts are examined. Cross-listed with URPL 6249. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6660 - Predictive Analytics

Addresses statistical and machine-learning approaches to prediction using the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Methods covered in the course include data partitioning, logistic regression, clustering, decision trees, dimension reduction, and neural networks, among others. Emphasis is placed on proper choice of method and understanding of the strengths and limitations of competing methods. Students are expected to analyze and report on a variety of data sets drawn from business application areas. If you do not meet the prerequisites listed, you may contact the instructor for permission. Prereq: BANA 6610
Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6670 - Prescriptive Analytics with Optimization

Optimization is a key part of Business Analytics dealing with decision problems that lend themselves to modelling and analysis designed to determine optimal decisions. In this course, we'll study methodologies for determining the best course of action in situations with a large number of alternatives, each with their own financial or other characteristics, including restrictions on our actions that must be satisfied as we search for best solutions. While the focus of the course is on modeling and solving a wide variety of optimization problems, we'll also cover the basic mathematical underpinnings of linear programming, the most widely used form of optimization in industry and government and the foundation of many extensions into other classes of optimization. State of the art Software for solving optimization problems will be used throughout the course. Students will work in teams on a project involving optimization and some important problem. Restriction: Restricted to BANA-MS students within the Business School. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6680 - Optimization for Machine Learning

This course will give an introduction on numerical optimization algorithms in the context of machine learning applications. We shall discuss how optimization problems arise in machine learning and what makes them challenging. Topics include traditional nonlinear optimization, linear optimization and discrete optimization with an emphasis on effective computational techniques. We shall also talk about next generation large-scale machine learning algorithms such as stochastic gradient (SG) method. Applications to a variety of areas such as text mining and neural networks are also stressed through class projects. Problems will be solved using appropriate software tools. Prereq: BANA 6620 and BANA 6670. Restriction: Restricted to graduate business majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6690 - Network Modeling

This course introduces network modeling. Utilizing data and metadata, programming, algorithms, statistical analysis, and visualization; networks are studied. The focus is on Business Applications to provide managerial insights and recommendations and will include

transportation, social, transactional, electrical and communication networks. Prereq: BANA 6620. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA or NBD within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6720 - Simulation Modeling

Students learn to model and analyze complex dynamic systems using state-of-the art software. Illustrative application areas include production systems, service systems, distribution systems and health care systems. Topics include creating reliable simulation models, analyzing the input and output from the model, and managing simulation projects. A substantial part of the course will be devoted to student projects where students define, model and analyze a significant system of their choosing. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6730 - Supply Chain Analytics

Introduces the design, analysis, management, and control of supply chains. Because of continuing advances in globalization, sustainability, and information technology, course emphasis will include integration of processes and systems, relationship management of upstream and downstream players, and strategies that incorporate current and future trends. Cross-listed with INTB 6730. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6740 - VBA for Business Analytics

This course teaches the essentials of Visual Basic for Applications (VBA), the programming language for Microsoft Office. Focus in using VBA as a tool to automate common tasks and to create business analytic applications. Goal is to hide the details of the analytical and modeling techniques by creating user interfaces for inputs and then presenting managerially relevant results. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6750 - Large-Scale Optimization Methods for Big Data

Optimization methodologies comprise one of the major components of modern business analytics. In the era of big data where problem scale is enormous, the ability to model and solve large-scale problems is increasingly important. In the first part of this course we will learn how to model and solve large scale applications by using the AMPL modeling language and solvers such as CPLEX and Gurobi. The second half of the course will be devoted to working on projects. Prereq: BUSN 6630 with a grade of "C" or better. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6760 - Data Visualization

The course equips the Business Analyst with foundational concepts and techniques required for telling a compelling story with large complex data sets. The importance of visualizing information for many analysts is often overlooked or downgraded as a natural product of the analytics or model but if the visualization is ineffective the decision making processes and knowledge discovery will be compromised. This is a project-based course that begins with reviewing concepts of human perception and cognition and perceptual accuracy and preferences. In the weeks we have together we will explore the basics of graphic design and making a "good" graph, explore why some data visualizations present information effectively and others do not, and we will also consider visualization as a component of systems for the Data Scientist and Business Analyst and presents examples of EDA (exploratory data analysis), visualizing time, networks, and maps. We end by reviewing methods and tools for static and interactive graphics. Tableau or other cutting-edge software will be utilized. Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BANA 6800 - Special Topics

A number of different current topics in business analytics are discussed in this course. Consult the current schedule for semester offerings. Prereq: Permission of instructor. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Repeatable. Max Hours: 12 Credits. **Semester Hours:** 3 to 12

BANA 6840 - Independent Study

Instructor approval is required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Restriction: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 6

BANA 6910 - Business Analytics Practicum

Students apply business analytics methodologies to a real-life business problem in cooperation with a local organization. Under the supervision of faculty, students engage in problem definition, analysis and solution. Results are presented in oral and written form to the sponsoring organization. Because the practicum is a capstone course, it is not appropriate for students just beginning the program. Prereq: Will vary depending upon the particular topic (consult the schedule of classes). Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

Business Law

BLAW 3050 - Business Law and Ethics

Students are taught to identify & resolve legal and ethical issues. Topics include contracts, torts, criminal law, constitutional law, business organizations, employment law, intellectual property and real property law. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements. Restriction: Restricted to undergraduate students at a junior standing or higher. Cross-listed with BLAW 3000, ENTP 3120, and BLAW 4120. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BLAW 3100 - Legal and Ethical Implications of Risk

Topics include contracts, torts, constitutional law, intellectual property, agency, business organizations, employment law, and real property law. Special focus is placed on the relationship between insurance and risk and the topics covered. May be taken in lieu of BLAW 3050. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BLAW 4121 - Legal and Ethical Implications of Risk

Skills in legal and factual analysis and the application of ethical theories are advanced and refined through cases. Topics: insurance law, personal property and intellectual property law, agency, business entities, securities, employment law, and consumer law. Focus is placed on the relationship between insurance, risk and the covered topics. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BLAW 4140 - Negotiation Skills/Property: Effective Strategies

Course covers real and personal property law, including ownership, title, landlord/tenant, easements, environmental law, and zoning. Emerging issues in intellectual property are also reviewed, including U. S. law and international treaties and agreements. Negotiation techniques through role-playing are emphasized. NOTE: This course is an elective course and may not be used to fulfill the CORE BLAW 3050 course. Meets concurrently with MGMT 4140. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits. **Semester Hours:** 3 to 3

BLAW 6500 - Legal Issues for CPA's

Examines advanced legal issues affecting accounting financial reporting. Designed for graduate students who want to understand and improve the links between accounting disclosures and legal requirements. Note: This class is rarely offered. Prereq: BLAW 3000 or BUSN 6540 (or equivalent). Restrictions: Restricted to graduate majors and NDGR majors with a sub-plan of NBA within the Business School. Max hours: 3 Credits. **Semester Hours:** 3 to 3

Chemistry

CHEM 1000 - Foundations for General Chemistry

This is a lecture- only course intended for students pursuing a degree in science or a health-related field. The course is designed for students who have never had a chemistry course or who have not taken general chemistry in 5+ years. Topics include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, energy and temperature, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, stoichiometry, types of chemical reactions, balancing equations, electron configurations, and chemical bonding. Enrollment in this course is strongly encouraged prior to enrollment in Chem 2031 if the student does not have a strong and recent background in general chemistry. Note: College Algebra or the equivalent is strongly recommended for optimal student success. Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 1111 - First Year Seminar

Restriction: Restricted to Freshman level students. Term offered: fall. Max Hours: 3 Credits. **Semester Hours:** 1 to 3

CHEM 1115 - Chemistry Content

Covers content areas of undergraduate chemistry. Topics include periodicity; the mole and chemical bonding; the kinetic theory and states of matter; chemical reactions; solutions and chemical equilibria. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Max hours: 3 Credits. **Semester Hours:** 1 to 3

CHEM 1130 - Engineering General Chemistry

A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent) are strongly recommended for optimal student success. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Max hours: 5 Credits. **Semester Hours:** 5 to 5

CHEM 1474 - Core Chemistry: Chemistry for Everyday

Focuses on the common household chemicals that affect us on a daily basis. Students explore current topics in chemistry and the underlying chemistry of nuclear power, plastics, sunscreens, food, acid rain, etc. Home-based laboratory experiments with safe, common substances. No co-credit: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 4 Credits. GT:

Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 4 to 4

CHEM 1494 - Forensic Chemistry

This one semester chemistry lecture and laboratory course is designed to engage a non-science major through the high-interest topic: criminal investigations. In this course, using the theme of forensic science students will be introduced to a basic understanding of chemistry, the physical and chemical properties of matter, simple types of chemical reactions and equations, and molecular structure of drugs and biomolecules. Note: Two years of high school science and one year of high school algebra are strongly recommended for optimal success. Students will not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: spring, summer. Max Hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 1575 - Chemistry: History and Policies

A study of the building blocks of all matter: chemicals. A focus on how the study of chemistry began and how it has changed over the course of history. The course explores how chemistry has impacted man from the earliest times: from the Bronze Age to the present and beyond. Students learn about the first use of manufactured chemical substances in history and the progression of chemical knowledge throughout history. Students also study how certain substances introduced into the environment throughout history have affected the environment and what policies have been put in place to control or remediate the release of these substances. Eight home-based laboratory experiments will be performed during the semester. High school algebra is strongly recommended preparation for this course. Math concepts critical for this course include basic operations—addition, subtraction, multiplication and division, order of operations, exponents, square roots and the ability to rearrange and solve algebraic equations. Term offered: fall. Max Hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 2031 - General Chemistry I

This is the first of a two semester sequence designed for students pursuing a degree in science or a health related field. Chem 2031 is designed for students who have recently completed high school chemistry or Chem 1000 with a C- or better. Note: Non-science majors should review the course description for Chem 1474 as an alternative, non-majors science CU Denver Undergraduate Core course, with lab credit. Topics covered include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, empirical formulas, thermochemistry, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, balancing equations, stoichiometry, types of chemical reactions, solution stoichiometry and dilutions, electron configurations, chemical bonding, Lewis Dot Theory, Valence Shell Electron Pair repulsion Theory, and other topics as time allows. This course is a prerequisite or co-requisite for General Chemistry 1 Lab, Chem 2038. No co-credit with CHEM 2081. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. It is strongly

recommended that students have taken CHEM 1000 and MATH 1110 or their high school equivalents to be adequately prepared to succeed in this course. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2. **Semester Hours:** 3 to 3

CHEM 2038 - General Chemistry Laboratory I

Laboratory course designed to accompany Chem 2031. Topics include gravimetric analysis, statistical analysis, stoichiometry, Avogadro's number, thermochemistry, atomic spectroscopy, paper chromatography, and gas laws. No co-credit with CHEM 2088. Coreq: CHEM 2031 or CHEM 2081. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 1 to 1

CHEM 2061 - General Chemistry II

This is a continuation of Chem 2031 and is the second course of a two semester sequence designed for students pursuing a degree in science or a health related field. CHEM 2061 builds upon the understanding of chemistry rooted in the molecular nature of matter and change from General Chemistry I and expands to include topics such as intermolecular forces, solution chemistry, kinetics, chemical equilibrium, acid-base chemistry, buffer chemistry, solubility, thermodynamics and time permitting, electrochemistry. Specific topics include: the use of bonding theories to explain the relationships between atomic structure, molecular shape, and macroscopic properties of matter including boiling point, vapor pressure, surface tension, viscosity, and capillarity; the understanding of molecular structure to explain the energetics of solution formation as well as vapor pressures of pure liquids and solutions; the application of rates of reactions to define the state of equilibrium; the application of problem solving techniques for systems at equilibrium to acid/base and solubility chemistry; and the thermodynamic underpinnings of chemical reaction rates and the spontaneous conversion of chemical species to attain a state of dynamic equilibrium. This course is a prerequisite or co-requisite for General Chemistry II Lab, Chem 2068. Prereq: CHEM 2031 or 2081 with a C- or higher. No co-credit with CHEM 2091. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2. **Semester Hours:** 3 to 3

CHEM 2068 - General Chemistry Laboratory II

Laboratory course designed to accompany Chem 2061. Topics include colligative properties, spectroscopic analysis, kinetics, equilibrium, acid-base chemistry, titrations, and qualitative analysis of metal cations. No co-credit with CHEM 2098. Prereq: CHEM 2038 or 2088 with a C- or higher. Coreq: CHEM 2061 or 2091. Term offered: fall, spring, summer. Max hours: 2 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1. **Semester Hours:** 2 to 2

CHEM 2081 - Honors General Chemistry I

Topics include gas laws, thermochemistry, the quantum mechanical model of the atom, periodic properties, bonding and molecular geometry and intermolecular forces. Prepares students to take upper division chemistry courses. Honors section: Course assumes knowledge of stoichiometry and basic atomic structure. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Working knowledge of high school algebra and advanced high school chemistry are required. Restriction: Restricted to Chemistry Honors students (CH01). Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 2088 - Honors General Chemistry I Laboratory

Laboratory experiments on topics covered in CHEM 2031 or CHEM 2081, gaining experience in observing, recording, and interpreting physical and chemical phenomena. Offers smaller sections and greater access to specialized techniques, open ended experiments, and instrumentation, requiring a faster pace and more sophisticated work. Note: Students may not receive credit for this course if they have already received credit for CHEM 2038. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Coreq: CHEM 2031 or CHEM 2081. No co-credit with CHEM 2038. Term offered: fall. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 2091 - Honors General Chemistry II Lecture

Continuation of CHEM 2081. Additional topics may include kinetics, equilibria and thermodynamics. Note: Students may not receive credit for this course if they have already received credit for CHEM 2061. Note: Admission into specific CU Denver program or consent of the instructor is required. Prereq: CHEM 2081 or 2031 with a C- or higher. Restriction: Restricted to Chemistry Honors students (CH01). No co-credit with CHEM 2061. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 2098 - Honors General Chemistry II Laboratory

Students perform laboratory experiments on topics covered in General Chemistry II (CHEM 2061) or the companion Honors General Chemistry II course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Honors General Chemistry II Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, and instrumentation. Students use the laboratory skills they developed in Honors General Chemistry I Laboratory to work independently with a special emphasis on recording, interpreting, and expressing data, chemical safety, the scientific literature, innovation in the laboratory, and presentation of scientific information in oral and poster formats. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Prereq: CHEM 2038 or CHEM

2088. Coreq: CHEM 2091 or CHEM 2061. Restriction: Restricted to Chemistry Honors Students. No co-credit with CHEM 2068. Term offered: spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 2300 - Nutritional Chemistry

Introduces nutrition intended primarily for majors in nursing, physical therapy, physical education. Topics include structure and metabolism of carbohydrates, lipids and proteins, functions of vitamins and minerals and food constituents. Prereq: CHEM 1000 or CHEM 1474 or CHEM 2031 with a C- or better. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 2600 - Introductory Topics in Chemistry

This course is designed primarily for non-chemistry majors. Students will explore a special topic related to chemistry or biochemistry. A description of topics to be covered in the current semester is maintained on the Chemistry department website. Max hours: 6 Credits.

Semester Hours: 1 to 3

CHEM 2840 - Independent Study: CHEM

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits. **Semester Hours:** 1 to 3

CHEM 2939 - Internship

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Semester Hours: 1 to 3

CHEM 3011 - Inorganic Chemistry

The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Semester Hours: 3 to 3

CHEM 3018 - Inorganic Chemistry Laboratory

Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal

chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011 with a C- or higher. Term offered: spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 3111 - Analytical Chemistry

Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 3118 - Analytical Chemistry Laboratory

CHEM 3118 provides a strong background in those chemical principles that are particularly important to analytical chemistry, such as the ability to obtain high-quality analytical data. Students gain experience with techniques of sampling and analysis, including an introduction to instrumental methods. Additionally, students develop the skills needed to solve analytical problems in a quantitative manner, with the aid of spreadsheet tools. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3111 or CHEM 3481. Term offered: fall. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 3411 - Organic Chemistry I

Lecture course for science majors. Topics covered include Structure and Bonding, Stereochemistry, Alkanes, reactions of alkenes, alkyl halides, alcohols and other functional groups, reaction mechanism and spectroscopy. Prereq: CHEM 2061 or 2091 with a C- or higher. No co-credit with CHEM 3481. Term offered: fall, spring, summer. Max hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 3418 - Organic Chemistry Lab I

Laboratory course for science majors. Topics include methods of purification, separation and analysis of organic compounds; organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 2068 or 2098 with a C-or higher. Coreq: CHEM 3411 or CHEM 3481. No co-credit with CHEM 3488. Term offered: fall, spring, summer. Max hours: 1 Credit. **Semester Hours:** 1 to 1

CHEM 3421 - Organic Chemistry II

Lecture course for science majors. A continuation of Chem 3411. Topics covered include spectroscopy, aromaticity, reactions of alkynes, conjugated dienes, benzene, benzene derivatives, aldehydes, ketone, carboxylic acids, carboxylic acid derivatives, enols, enolates and

amines, reaction mechanisms and syntheses. Prereq: CHEM 3411 or 3481 with a C- or higher. No co-credit with CHEM 3491. Max hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 3428 - Organic Chemistry Lab II

Laboratory course for science majors. A continuation of CHEM 3418. Topics include analysis of organic unknowns, organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 3418 or 3488 with a C- or higher; Coreq: CHEM 3421 or CHEM 3491. Note: Students will not receive credit for CHEM 3428 if they take it after successfully completing CHEM 3498. Term offered: fall, spring, summer. Max hours: 1 Credit. **Semester Hours:** 1 to 1

CHEM 3481 - Honors Organic Chemistry I

Lecture course for science majors. An accelerated and in-depth approach to organic chemistry. Intended for chemistry majors and advanced premedical, pre-dental, pre-pharmacy and other health related careers requiring a full year of organic chemistry. Instructor permission required. Topics covered include Structure and Bonding, Stereochemistry, Alkanes, reactions of alkenes, alkyl halides, alcohols and other functional groups, reaction mechanism and spectroscopy. Prereq: CHEM 2061 or CHEM 2091, and CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3418 or CHEM 3488. Instructor permission required to enroll. No co-credit with CHEM 3411. Term offered: fall. Max hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 3488 - Honors Organic Chemistry Laboratory I

Laboratory course for science majors. Honors laboratory class to accompany CHEM 3411 or CHEM 3481. Topics include methods of purification, separation and analysis of organic compounds through extended experiments; organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3411 or CHEM 3481. Instructor permission required to enroll. Note: No co-credit with CHEM 3418. Term offered: fall. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 3491 - Honors Organic Chemistry II

Lecture course for science majors. A continuation of Chem 3481. An accelerated and in-depth approach to organic chemistry. Intended for chemistry majors and advanced pre-medical, pre-dental, pre-pharmacy and other health related careers requiring a full year of organic chemistry. Instructor permission required. Topics covered include spectroscopy, aromaticity, reactions of alkynes, conjugated dienes, benzene, benzene derivatives, aldehydes, ketone, carboxylic acids, carboxylic acid derivatives, enols, enolates and amines, reaction mechanisms and syntheses. Prereq: CHEM 3411 or CHEM 3481 and CHEM 3418 or CHEM 3488 with a C- or higher and instructor consent are required in order to enroll in this course. No co-credit with CHEM 3421. Term offered: spring. Max hours: 4 Credits. **Semester Hours:** 4 to 4

CHEM 3498 - Honors Organic Chemistry Laboratory II

Laboratory course for science majors. A continuation of CHEM 3418 or CHEM 3488. Topics include multi-step organic reactions, workups and spectroscopy and an independent research project. Emphasis on use of the chemical literature, scientific writing and scientific presentation. Prereq: Students must be a Chemistry or Biochemistry major (CHEM-BS, CHEM-ADL, CHEM-BS2, BICM-BS or BICM-ADL). Students must have completed CHEM 3411 or CHEM 3481 and CHEM 3418 or CHEM 3488 with a C- or higher. Students must have completed CHEM 3421 or CHEM 3491 with a C- or higher or be co-enrolled. Others may be permitted by the instructor. Term offered: fall, spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 3510 - Physical Chemistry: Biological Applications.

An introduction to physical chemistry that examines the principles of thermodynamics, equilibrium solutions, and kinetics as they apply to biological systems. Calculus required to learn the principles is presented in the course. Prereq: CHEM 2061 or CHEM 2091, MATH 1120 (or 1130, 1401, 2411, 2421) and PHYS 2020 with a C- or higher. Max hours: 4 Credits.

Semester Hours: 4 to 4

CHEM 3810 - Biochemistry

Introduces the principles of biochemistry for science and health science-oriented majors. This survey course covers the important aspects of modern biochemistry including macromolecular structure, enzymology, and metabolism in one semester. Prereq: BIOL 2061 or 2097 and CHEM 3411 or 3481 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Semester Hours: 4 to 4

CHEM 3840 - Independent Study

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer.

Repeatable. Max Hours: 6 Credits. **Semester Hours:** 1 to 3

CHEM 3939 - Internship

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have a junior standing and at least a 2.75 GPA and must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Semester Hours: 1 to 3

CHEM 4010 - Advanced Inorganic Chemistry

Covers the fundamental principles of inorganic chemistry. Topics include atomic structure and periodicity, molecular symmetry, bonding, structural chemistry, main-group chemistry, coordination chemistry, and organometallic chemistry. Requisite knowledge in Undergraduate Inorganic and Physical Chemistry assumed. Cross-listed with CHEM 5010. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4110 - Advanced Analytical Chemistry

Explores the fundamental principles of analytical chemistry. Topics will focus on meteorology (the science of making measurements), measurements based on energy transfer (e.g. spectroscopic analysis), and measurements based on mass transfer (e.g. chemical separations and electrochemistry). Requisite knowledge in Undergraduate Instrumental Analysis is assumed. Cross-listed with CHEM 5110. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4121 - Instrumental Analysis

Surveys instrumental methods of analysis, emphasizing atomic and molecular spectroscopy, mass spectrometry, surface characterization, and chromatography techniques. Students are introduced to a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. Prereq: CHEM 3111 or CHEM 3481, CHEM 3421 or CHEM 3491, PHYS 2331 or PHYS 2020 and CHEM 4521 with a C- or higher. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4128 - Instrumental Analysis Laboratory

CHEM 4128 demonstrates a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Required of chemistry majors and open to other students in CHEM 4121. Prereq: CHEM 3118 and 4538 with a C- or higher. Coreq: CHEM 4121. Term offered: spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 4221 - Practical Applications of Spectroscopy

This course surveys spectroscopic methods in order to deduce the structure of organic compounds from an examination of spectra, with an emphasis on infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy, and ultraviolet spectroscopy. Students will be introduced to a wide array of powerful and elegant tools for obtaining qualitative information about the structure of matter. This course will require a good amount of thought, yet all of the concepts and associated mathematical manipulations are within the reach of a student who has met the prerequisites. Prereq: CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5221. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4310 - Advanced Organic Chemistry

An exploration of structure, bonding and reactivity in organic modules that includes extensive analysis of the chemical literature, culminating in written and seminar presentations of individual projects. Requisite knowledge in Undergraduate Organic Chemistry and Physical Chemistry is assumed. Restriction: Restricted to degree-granting Graduate programs. Cross-listed with CHEM 5310. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4421 - Cannabis Chemistry

An exploration of the terpene to cannabinoid compounds including biosynthesis pathways; human receptor structures and mechanism; current analytical methods for Quality Assurance and Quality Control and current research in medical applications. Prerequisite: Organic Chemistry I with a C- or higher (Chem 3411 or Chem 3481), and corequisite/prerequisite: Organic Chemistry II (CHEM 3421 or CHEM 3491). Cross-listed with CHEM 5421. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4500 - Foundations of Physical Chemistry

This course prepares students for CHEM 4511 and/or 4521. The goal is to bridge the gap between algebra- and calculus-based physics courses and to introduce essential math concepts and skills in Calculus III that are relevant to the Physical Chemistry course sequence 4511/4521. Pre: PHYS 2020 or (prereq or coreq) PHYS 2331, CHEM 3421 or CHEM 3491 and MATH 2411 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4510 - Computational Chemistry

Classical and ab initio molecular dynamics are covered from theory to application. Students have access to high-performance computational resources and cover current topics in the field. Requisite knowledge in Undergraduate Physical Chemistry is assumed. Cross-listed with CHEM 5510. Term offered: fall. Max Hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics

Includes study of the laws of thermodynamics, thermochemistry, chemical equilibria, solutions and statistical mechanics. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4511. Term offered: spring. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4518 - Physical Chemistry Laboratory: Reaction Analysis

Instruction in the experimental techniques of physical chemistry with emphasis on the properties of gases, thermodynamics and chemical equilibrium. Pre- or Co-Requisite CHEM

4511 with a C- or higher if completed before CHEM 4518. Term offered: spring. Max hours: 2 Credits. **Semester Hours:** 2 to 2

CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy

Continuation of CHEM 4511, with emphasis on chemical kinetics, quantum mechanics, molecular structure and spectroscopy. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4521. Term offered: fall. Max hours: 3 Credits. **Semester Hours:** 3 to 3

CHEM 4530 - Advanced Physical Chemistry
